AGENDA
BOARD OF SUPERVISORS
SONOMA COUNTY
575 ADMINISTRATION DRIVE, ROOM 102A
SANTA ROSA, CA 95403

TUESDAY **DECEMBER 11, 2018** **8:30 A.M.**

(The regular afternoon session commences at 1:30 p.m.)

Susan Gorin	First District	Sheryl Bratton	County Administrator
David Rabbitt	Second District	Bruce Goldstein	County Counsel
Shirlee Zane	Third District		
James Gore	Fourth District		
Lynda Hopkins	Fifth District		

This is a simultaneous meeting of the Board of Supervisors of Sonoma County, the Board of Directors of the Sonoma County Water Agency, the Board of Commissioners of the Community Development Commission, the Board of Directors of the Sonoma County Agricultural Preservation and Open Space District, the Sonoma County Public Finance Authority, and as the governing board of all special districts having business on the agenda to be heard this date. Each of the foregoing entities is a separate and distinct legal entity.

The Board welcomes you to attend its meetings which are regularly scheduled each Tuesday at 8:30 a.m. Your interest is encouraged and appreciated.

AGENDAS AND MATERIALS: Agendas and most supporting materials are available on the Board's website at http://sonomacounty.ca.gov/Board-of-Supervisors/. Due to legal, copyright, privacy or policy considerations, not all materials are posted online. Materials that are not posted are available for public inspection between 8:00 a.m. and 5:00 p.m., Monday through Friday, at 575 Administration Drive, Room 100A, Santa Rosa, CA.

SUPPLEMENTAL MATERIALS: Materials related to an item on this agenda submitted to the Board after distribution of the agenda packet are available for public inspection in the Board of Supervisors office at 575 Administration Drive, Room 100A, Santa Rosa, CA, during normal business hours.

DISABLED ACCOMMODATION: If you have a disability which requires an accommodation, an alternative format, or requires another person to assist you while attending this meeting, please contact the Clerk of the Board at (707) 565-2241 or bos@sonoma-county.org as soon as possible to ensure arrangements for accommodation.

PUBLIC TRANSIT ACCESS TO THE COUNTY ADMINISTRATION CENTER: Sonoma County Transit: Rt. 20, 30, 44, 48, 60, 62; Santa Rosa CityBus: Rt. 14; Golden Gate Transit: Rt. 80. For transit information call (707) 576-RIDE or 1-800-345-RIDE or visit or http://www.sctransit.com/

APPROVAL OF THE CONSENT CALENDAR: The Consent Calendar includes routine financial and administrative actions that are usually approved by a single majority vote. There will be no discussion on these items prior to voting on the motion unless Board Members request specific items be discussed and/or removed from the Consent Calendar. There will an opportunity for the public to comment on the consent calendar prior to it being voted upon.

PUBLIC COMMENT: Any member of the public may address the Board on a matter listed on the agenda. Commenters are requested to fill out a Speaker Card and to come forward to the podium when recognized by the Board Chair. Please state your name and limit your comments to the agenda item under discussion. Available time for comments is determined by the Board Chair based on agenda scheduling demands and total number of speakers.

LANGUAGE INTERPRETERS: Language services are available at all regular and special Board and Committee meetings if made at least 48 hours in advance of the meeting to help ensure availability. For more information or to request services: Contact (707) 565-2241.

AVISO EN ESPAÑOL: Servicios de traduccion están disponibles en todas las reuniones regulares y especiales, de la Mesa de Supervisores, si se solicita por lo menos 48 horas antes de la reunión. Para más información o para solicitar servicios,de traduccion llame al (707) 565-2241.

BOARD CHAMBERS SECURITY SCREENING: Security screening is conducted for all individuals attending Board meetings. Individuals planning to participate in Board meetings are advised to allow extra time to complete the screening process. The full policy can be found at http://sonomacounty.ca.gov/Board-of-Supervisors/

Authorize the Department of Health Services to execute Addendum 2 to the Statement of Work with International Business Machines Corporation for implementation of Phase 3 of the ACCESS Sonoma Data Hub Project, increasing the contract amount by $1,800,000 resulting in a new total not-to-exceed amount of $4,797,000, and any amendments that do not substantially change the scope of work or increase funding.
Authorize the Director of Health Services to execute a grant agreement with The William and Flora Hewlett Foundation to accept $1,000,000 in revenue to support the ACCESS Sonoma Safety Net Initiative for the period November 1, 2018 to November 1, 2019.

COMMUNITY DEVELOPMENT COMMISSION

(Commissioners: Gorin, Rabbitt, Zane, Gore, Hopkins)

6. Annual Homeless Count to Measure Progress in Ending Homelessness:
   A) Authorize the Executive Director of the Sonoma County Community Development Commission to execute a professional services agreement with Applied Survey Research to conduct the 2019 Homeless Count, including a repeat study of vulnerable Sonoma County households who are unstably housed without formal leases, from December 1, 2018 through June 30, 2019, for an amount not to exceed $124,420.50.
   B) Authorize the Executive Director of the Sonoma County Community Development Commission to execute substantially similar agreements with Applied Survey Research, at then-current rates for subsequent and automatic annual renewals of this agreement for the following two years, and to execute subsequent amendments to make minor, non-substantive changes.

GENERAL SERVICES
AND
SONOMA COUNTY WATER AGENCY

(Directors: Gorin, Rabbitt, Zane, Gore, Hopkins)

7. Grant of New Access Easement and Summary Vacation of Existing Access Easement for Piner Creek Reservoir A concurrent action to:
   A) Authorize the Chair of the Sonoma County Board of Supervisors and the Chair of the Sonoma County Water Agency to execute an Access Easement and Agreement between the County of Sonoma and the Sonoma County Water Agency, in form approved by County Counsel and substantially in the form of the attached easement deed, and further authorize the General Manager of the Sonoma Water Agency to accept said grant of real property interest by signing a certificate of acceptance.
   B) Adopt a Resolution to authorize the Chair of the Sonoma County Water Agency to summarily vacate an existing access easement (recorded as Document No. 1996-0024795) located on County of Sonoma property located at 3322 Chanate Road, in form approved by County Counsel and in the form of the attached Resolution.
   C) Authorize the General Manager of the Sonoma County Water Agency to file a Notice of Exemption in accordance with the California Environmental Quality Act, substantially in the form of the attached.

   (Third District)

SONOMA COUNTY WATER AGENCY

(Directors: Gorin, Rabbitt, Zane, Gore, Hopkins)

8. Grant of Property Rights to Caltrans for Marin-Sonoma Narrows Project:
   Authorize the execution of a Right of Way Contract by the General Manager of the Sonoma County Water Agency with the California Department of Transportation granting Temporary Construction Easements in substantially the form provided to the Board with County Counsel's review and approval as to form. (Second District)

9. Dry Creek Habitat Enhancement Project:
In an ongoing effort to provide habitat enhancement for coho and steelhead while continuing to provide high-quality water supply:
A) Authorize Sonoma County Water Agency's General Manager to execute the fourth amended agreement with Inter-Fluve for engineering and design services for Dry Creek Habitat Enhancement Project, Phase II increasing the amount by $93,603, expanding the scope of work to include additional work required for redesign of project features, changes to the bid documents, additional hydraulic modeling, an additional season of construction support, and one year of additional project management, and also extending the agreement term by one year for a new not-to-exceed agreement total of $1,549,804 and end date of December 31, 2019.
B) Authorize Sonoma County Water Agency's General Manager to execute the fifth amended agreement with Environmental Science Associates for engineering and design services for Dry Creek Habitat Enhancement Project Phase III increasing the amount by $40,000 for potential additional effort related to the JPMB Properties site (formerly Miller) and extending the agreement term by one year for a new not-to-exceed agreement total of $1,965,556 and end date of December 31, 2020.

10. Pacific Gas and Electric Non-Disclosure Agreement:
Authorize the Sonoma County Water Agency (Sonoma Water) General Manager to execute a Non-Disclosure Agreement with Pacific Gas and Electric Company. The Non-Disclosure Agreement would allow Sonoma Water to better coordinate and incorporate locations of power and natural gas infrastructure into the planning and implementation of capital projects and maintenance projects. The Non-Disclosure Agreement would also allow Pacific Gas and Electric Company to protect their information for security reasons and for customer privacy.

SONOMA VALLEY SANITATION DISTRICT

(Directors: Gorin, Gore, Mayor Agrimonti)

11. Environmental Resource Consulting and Engineering Design Services for Sonoma and Kohler Creeks Bank Repair Project:
In an ongoing effort to maintain the sanitary sewer system in Sonoma Valley, avoid unnecessary damage or failures and repair costs, and protect the environment:
Authorize Sonoma County Water Agency's General Manager, acting on behalf of Sonoma Valley County Sanitation District, to execute an agreement with Prunuske Chatham, Inc., for creek bank repair environmental resource consulting and engineering design services through December 31, 2020, in the not-to-exceed amount of $50,000. (First District)

AUDITOR- CONTROLLER-TREASURER-TAX COLLECTOR

12. Authority to Invest and Reinvest Funds:
Approval of the Concurrent Resolution of the Board of Supervisors of the County of Sonoma and all Districts governed ex-officio by the Board of Supervisors renewing authorization for the County Treasurer to assume full responsibility for all transactions and expenditures related to the investment and reinvestment of funds on deposit in the County Treasury.

BOARD OF SUPERVISORS

    B) Adopt a Resolution amending the Fiscal Year 2018-19 Budget transferring appropriations related to the Fire Prevention and Hazardous Materials Programs to a newly created Budget Division in Permit Sonoma as detailed in Attachment A, with no net change in total appropriations.
    C) Adopt a Personnel Resolution amending the Department Allocations Lists for the Fire and Emergency Services Department and Permit Sonoma as detailed in Attachment B.
    (4/5th Vote Required)

COUNTY ADMINISTRATOR/FIRE AND EMERGENCY SERVICES

21. Extend Proclamation of Local Emergency Due to Sonoma Complex Fire:
    Adopt a Resolution Extending the Proclamation of Local Emergency Issued on October 9, 2017, for another 30 Days Due to Damage Arising from the Complex Fire. (4/5th Vote Required)

22. Property Tax Exchange Agreement with Geyserville Fire Protection District:
    A) Approve a Property Tax Exchange Agreement (Agreement) with Geyserville Fire Protection District for the annexation of territory from County Service Area #40 into Geyserville Fire Protection District in the event the Local Agency Formation Commission approves such an annexation.
    B) Authorize the County Administrator to make minor administrative changes to the Agreement needed to support the annexation approval process.
    C) Authorize the County Administrator to enter into an agreement regarding the transfer of appropriations limit to the Geyserville Fire Protection District in the event that the annexation is completed. (Fourth District)

COUNTY ADMINISTRATOR

23. AB 1600 Development Fees Annual Reports for FY 2017-2018:
    Adopt a Resolution approving and making findings related to the AB 1600 Development Fees Annual Reports for FY 2017-2018 for the Regional Parks Department and the Department of Transportation and Public Works.

24. Fiscal Year 2018-2019 Tourism Impact Fund Grant Awards:
    A) Approve the allocation of Fiscal Year 2018-2019 Tourism Impact Funds from the Community Investment Fund;
    B) Authorize the County Administrator, or designee, to execute agreements for a total of $281,912 with non-profit grantees to mitigate the impacts of tourism; and
    C) Authorize the County Administrator, or designee, to amend these agreements to lengthen the time schedules and make minor modifications to the allowed uses that do not increase the amount awarded under the agreement.

25. Recovery Update:
Receive an update on the status of recovery operations, planning, seeking of funding opportunities, community engagement and status of recovery framework, following the October 2017 Sonoma Complex Fires.

COUNTY COUNSEL/TRANSPORTATION AND PUBLIC WORKS

26. Approval of Quiet Zone Improvements Maintenance Agreement:
Authorize the Director of Transportation and Public Works to execute an agreement with the Sonoma Marin Area Rail Transit (SMART) District establishing maintenance responsibilities of Sonoma County Quiet Zone safety improvements in the unincorporated area.

DISTRICT ATTORNEY’S OFFICE

27. District Attorney’s Violence Against Women Program:
Adopt a Board Resolution to authorize the Sonoma County District Attorney to sign a contract with the California Governor’s Office of Emergency Services to continue participation in the Violence Against Women Vertical Prosecution program and accept $202,545 in funding for the term ending on June 30, 2019.

GENERAL SERVICES/FIRE AND EMERGENCY SERVICES/COUNTY ADMINISTRATOR

28. Fire Watch Camera Installation - Additional Sites:
A) Authorize County of Sonoma County Administrator to execute an agreement with the University of California San Diego – Scripps (“Scripps”), on behalf of the ALERTWildfire consortium of universities, for donation of three (3) fire watch cameras, reimbursement by Scripps to County for installation of cameras under a three (3) year cooperative agreement, with maintenance to be performed by the Sheriff’s Office Telecommunications Bureau, and with back end operations, software integration, web hosting at ALERTWildfire to be paid by Scripps.
B) Authorize the Department of Emergency Management Director to manage the Fire Watch Camera program including administration, executing and amending agreements between agencies, and other County Departments, as needed for the installation, maintenance and operations of fire cameras, and for the management of public information for the program.
C) Delegate authority to the County General Services Director to execute new and/or amend existing lease and license agreements with owners of communications towers or other structures, for the purpose of installing additional fire watch cameras to expand coverage, for terms of up to 10 years, at a not to exceed annual cost each of $3,180.
D) Adopt a Resolution authorizing $16,584 from General Fund contingencies to provide funds to the General Services Department necessary for new leases and to the Sheriff’s Office for necessary supporting equipment and expenses associated with the addition of the three (3) fire camera’s donated by the University of California San Diego - Scripps.
(4/5th Vote Required)

GENERAL SERVICES/HEALTH SERVICES

29. Lease extensions (2) for office space for Department of Health Services at 16390 Main Street, Guerneville (2nd action);
Consider multiple actions ensuring continued public access to health services in West County:
A) Authorize the General Services Director to execute lease amendments (2) with Kirk Veale d/b/a Veale Investment Properties to:
    i. Extend the term of a lease for 1,918 sq. ft. of office space (Suites B and G) located at 16390 Main Street, Guerneville, through October 31, 2023 and to specify the monthly rent payments;
    ii. Extend the term of a lease for 583 sf. ft. of office space (Suites F, H, I and J) at 16390 Main Street, Guerneville through November 30, 2023, and to specify the monthly rent payments; and
B) Authorize the General Services Director, in consultation with and using forms approved by the County Counsel, to execute future lease amendments, extension options, and associated documents required for County use of the premises under the leases, and which are consistent with the material terms of the leases and which, other than the extension options contained therein, do not extend the term of the leases.

GENERAL SERVICES/SHERIFF'S OFFICE

30. Fish Rock Mendocino Communications Site License Amendment:
A) Authorize the General Services Director to execute an extension (the "Second Amendment") to the existing Revocable License Agreement between County of Mendocino, as licensor, and the County of Sonoma, as licensee, from May 29, 2019 through May 22, 2020, for the continued operation of public safety and emergency communications equipment at the County of Mendocino's Fish Rock communications facility.
B) Make required findings under Government Code Section 25526.6 that the extension is in the public interest and that the interest in land will not substantially conflict or interfere with the use of the property by the County.

GENERAL SERVICES

31. Board of Supervisors/County Administrator's Office Lobby Security Upgrades:
Adopt a Resolution authorizing budgetary transfer of $48,150 in FY 18/19 General Fund Facilities ACO/Shelter fund dollars and $148,862 from General Fund Contingencies to provide funds necessary for the CAO Lobby Security project for a total of $197,012.
(4/5th Vote Required)

32. Preparatory Actions Regarding Disposition of Chanate Campus:
Consider multiple actions regarding existing easements and certain uses on the Chanate Campus:
A) Authorize the Director of General Services to execute a Termination of Easements and Agreement to terminate and release that certain Hospital Utilities Easement recorded as Instrument No. 1996-0023213, on the basis that said easements granted therein are no longer necessary, as the anticipated hospital uses on the affected lands did not come to fruition.
B) Authorize the Director of General Services to take all actions necessary to relocate a portion of an access easement to the existing as-built location on adjacent County owned lands, as well as authority to execute any and all instruments necessary to vacate a portion of the existing access easement, executing a certificate of acceptance with respect to the vacated easement, and deeding the relocated easement, which instruments shall be in a form approved by County Counsel.
C) Authorize the Director of General Services to enter into agreements with Sprint Spectrum L.P., Sutter Medical Center of Santa Rosa, and McMahon/Oliphant Properties and/or their respective successors in interest to effectuate the removal from title any continuing reference to the expired agreements with these entities regarding the Chanate Campus, including executing a certificate of acceptance with respect to any reconveyance to the County related to same.
D) Adopt a Resolution authorizing $15,000 from General Fund contingencies to provide funds necessary for the relocation of an existing easement requiring a legal description and plat.
(4/5th vote required) (Third District)

33. License Amendment for 2300 County Center Drive, Suite A100, Santa Rosa:
A) Authorize the General Services Director to execute a Third Amendment to the License Agreement with U.S. Congressman Mike Thompson 5th Congressional District of California for 1,060 sq. ft. of office space located at 2300 County Center Drive, Suite A100, Santa Rosa to extend the term through January 2, 2021, at no change in rent of $927 per month ($0.87 per sq. ft.), for the proposed 2-year extension.
B) Make findings pursuant to Government Code Section 25526.6 that the subject property located at 2300 County Center Drive, Suite A100, Santa Rosa, is not needed by the County, the Agreement serves a public purpose, and that use by Congressman Mike Thompson will not interfere with the use of the premises by County.

34. Sonoma Raceway Communication Tower and Vault Construction Contract Award:
Authorize the Chair to execute a construction contract with Alta Engineering Group for the construction of the Sonoma Raceway Communications Tower and Vault, in the amount of $882,540 on terms and conditions contained in the approved plans, specifications, and contracting documents, and in form approved by County Counsel.

HEALTH SERVICES

35. Dental Transformation Initiative Agreement Amendments:
Authorize the Director of Health Services to execute amendments to agreements with seven community health centers to support the implementation of standardized caries (cavities) risk assessments and onsite community dental workers, increasing the total amount by $164,082 to reflect enhanced services, resulting in a new not-to-exceed amount of $1,580,974 through December 31, 2020.

36. Safe Drug and Sharps Disposal Update:
   A) Approve Health Services' participation in a mail-back pilot program for the take-back of drugs through a partnership with the California Product Stewardship Council, utilizing Statewide Medicine Disposal Grant funding from the Department of Health Care Services, Substance Use Disorder Compliance Division.
   B) Approve continuation of Department of Health Services staff working with the Safe Medicine Disposal Collaborative Partners to develop a comprehensive safe drug and sharps disposal program in the interim until Senate Bill 212 is fully implemented and the program can be taken over by the manufacturers.

HUMAN RESOURCES

37. Benefits Consulting and Actuarial Services Agreement:
   Authorize the Director of Human Resources to execute an agreement with The Segal Group, Inc. for employee and retiree benefit consulting, actuarial, and brokerage services for a five year term, from January 1, 2019, through December 31, 2023, with a maximum agreement amount not to exceed $ 1,190,000.

HUMAN SERVICES

38. Child Care Planning Council of Sonoma County Membership:
   A) Approve the re-appointment to the Child Care Planning Council of Sonoma County for a two-year term beginning January 1, 2019, ending December 31, 2020 for the following members: Jason Riggs, Terry Ziegler, Missy Danneberg, Kathleen Kelley, Soledad Figueroa, Lisa Grocott, and Debbie Blanton.
   B) Authorize the Director of Human Services to sign the required Certification Statement Regarding Composition of Local Planning Council Membership.
   (Human Services)

PERMIT AND RESOURCE MANAGEMENT/REGIONAL PARKS

39. Cannabis Ordinance Park Setback Interpretation, ORD18-0009:
   Adopt a Resolution Providing an Interpretation that Class I Bikeways are Public Parks as referenced in the Cannabis Land Use Ordinance.

PERMIT AND RESOURCE MANAGEMENT

40. Replacement Non-Prime Land Conservation Act Contract, Justin M. Faggioli, Trust and Sandra D. Donnell, Trust:
   Adopt a Resolution to (a) rescind two existing Non-Prime (Type II) Land Conservation Act contracts on 106.00 acres, and (b) authorize the Chair of the Board of Supervisors to execute a single replacement contract on 106 acres located at 28750 Arnold Drive, Sonoma, CA; PRMD File No. AGP15-0012; APN 068-190-021; Supervisorial District 1. (First District)

41. Lagunitas Brewery Solar Array Protective Easement:
   Authorize the Chair of the Board of Supervisors to accept a protective easement on approximately 13 acres of agricultural land, required as a condition of approval for a .84 megawatt solar array located at 368 Ely Road, Petaluma, APN: 137-011-025. (Second District)

42. Replacement Non-Prime Land Conservation Act Contracts, Nancy D Lily Trust:
Adopt a Resolution to (a) rescind two existing Non-Prime (Type II) Land Conservation Act contracts on 1,336.36 acres, and (b) authorize the Chair of the Board of Supervisors to execute three new replacement non-prime (Type II) contracts on separate legal parcels covering the same land, located at 27255 and 27675 Arnold Drive, Sonoma, CA; PRMD File Nos. AGP15-0009, -0010 and -0011; Supervisorial District 1. (First District)

PROBATION/SHERIFF'S OFFICE

43. Grants from the Justice and Mental Health Collaboration Program and Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness Program:
Accept $750,000 revenue from the Bureau of Justice Assistance's "Justice and Mental Health Collaboration Program" for services through December 31, 2021.
Accept $750,000 revenue from the Bureau of Justice Assistance's "Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness" program for services through December 31, 2021. The two grants will serve similar purposes of helping people with mental health and substance use disorders receive treatment and avoid unnecessary incarceration.

PROBATION

44. Restorative Justice Agreement Amendment:
Authorize the Chief Probation Officer to amend the Professional Services Agreement with Restorative Resources for the provision of restorative justice services to victims of youth offenders for a rate increase effective January 01, 2019 for the contract term through June 30, 2021, with a new maximum amount of $312,500.

TRANSPORTATION AND PUBLIC WORKS

45. Participation in Sonoma County Transit's Fare-Free Program – Unincorporated Area Local Routes 28 and 32:
    A) Provide funding to include unincorporated area local transit routes 28 (Guerneville, Monte Rio and Occidental) and 32 (Sonoma Valley and Sonoma) in Sonoma County Transit's Fare-Free program for the period of January 1, 2019 through June 30, 2020 in the amount of $56,925.
    B) Approve use of Contingency funds in the amount of $16,743 to fund participation from January – June, 2019.

46. Program update on Subsidized Transit Fare Program for Veterans and College Students:
    A) Provide funding to continue the College Student Subsidized Fare program from January 1, 2019 thru June 30, 2022 in the amount of $329,243 (County share) and Authorize the Chair to execute a Memorandum of Understanding with Santa Rosa Junior College and Sonoma State University in the amounts up to $444,455 and $80,765, respectively to support the multi-year program.
    B) Provide funding for the permanent Veterans Subsidized Fare Program from January 1, 2019 thru June 30, 2022 in the amount of $120,430.
    C) Approve the use of Contingency funds in the amount of $43,523 to fund the College Student Subsidized Fare Program and $16,347 to fund the permanent Veterans Subsidized Fare Program from January-June, 2019.

47. Adoption of an Ordinance Revising Speed Limits on Various County Roads:
Adopt an ordinance amending Ordinance 664 to establish revised prima facie vehicular speed limits on various portions of County highways. (Ready for Adoption)

APPOINTMENTS/REAPPOINTMENTS

48. Approve the reappointment of Brian Sobel to serve as a public member-at-large of the Golden Gate Bridge, Highway and Transportation District Board of Directors, serving a two year term beginning on January 2, 2019 and ending on December 31, 2020. (Countywide)

49. Approve the Appointments of five Class A members and their alternates for two year terms and appoint four Class B members and their alternates for initial three year terms to the Lower Russian River Municipal Advisory Council. (Fifth District)

50. Approve the Appointments of Dr. Karen Schneider to the Sonoma County Library Commission as the joint City of Santa Rosa /Sonoma County Board of Supervisors representative for a four year term beginning December 11, 2018 and ending August 1, 2022. (Countywide)

51. Janie Carduff, (707) 565-3995

Supervisorial District(s):
All

Title: Amendments to the Salary Resolution 95-0926

Recommended Actions:

Adopt a Concurrent Resolution amending benefits and compensation provided under Salary Resolution Number 95-0926 for respective employees, increasing medical benefit contributions for active employees and eliminating the Status Quo Preservation Allowance.

Executive Summary:

This action incorporates changes to compensation and benefits for employees under Salary Resolution 95-0926 (Salary Resolution) which are consistent with compensation and benefit contributions recently negotiated with represented employee groups. The changes include increases in the monthly medical contribution for Administrative Management, Appointed and Elected Department Heads and the Board of Supervisors, and removal of the Status Quo Preservation Allowance previously authorized by your Board in July. Additional changes include an increase in the meeting compensation for members of the Assessment Appeals Board from $125 to $225 per full day meeting and $75 to $125 for half day meetings. Other amendments include clean-up of obsolete language and clarifying language to improve administration of employee and retiree benefits. The estimated net cost impact of the increased medical contribution is anticipated to be offset by the elimination of the Status Quo Preservation Allowance. All changes to the Salary Resolution become effective upon approval of the Board of Supervisors.

Discussion:

The County recently concluded the bargaining process for the extension of existing Memorandum of Understanding agreements with all County bargaining units. Salary Resolution 95-0926 provides the salary and benefits for unrepresented employees which are not collectively bargained and are not represented by a recognized labor organization. Changes included in this Board action are specific to administrative management, appointed department heads and elected officials.

Customarily, the County amends the Salary Resolution to provide to unrepresented employees comparable salaries and benefits which have been negotiated with the County's represented bargaining units. Your Board recently approved amendments to the Salary Resolution in July 2018 which provided an equitable "package" of compensation and benefits being offered to other represented labor groups, with the exception of an increased County contribution to medical benefits.

A summary of the substantive amendments to the Salary Resolution include:

Medical Benefits

Effective the pay period beginning January 15, 2019, for coverage effective February 1, 2019, the County will contribute up to a maximum of the following amounts based on level of coverage for employees enrolled in County offered medical coverage for any eligible full-time regular employee and their dependent(s).

- Employee only: $629 per month
- Employee plus one: $1,257 per month
- Family: $1,779 per month

Language Clean Up - County Contribution Toward Retiree Medical Plans

With recent negotiated changes to the language contained in all Memorandums of Understanding which tied the County's retiree medical contribution to active employees in Administrative Management (BU 50), the proposed language amendments provide for a County contribution of up to $500 per month toward the cost of County offered medical plans for eligible retirees.

Elimination of the Status Quo Preservation Allowance

In July, your Board approved a bi-weekly amount of $342 for all regular full-time employees in Bargaining Units 49, 50, and 52, to provide benefit parity consistent with the labor changes negotiated as part of the one year MOU extensions with the represented bargaining units. With the successful completion of recent negotiations, the Board now has the flexibility to provide increased employer contributions towards medical benefits equal to that received by represented active employees, as outlined above, and will eliminate Status Quo Preservation Allowance with the last payment to be paid on the paydate of January 23, 2019.

Other language amendments include an increase in compensation for members of the Assessment Appeals Board from $125 per full day meeting to $225, and from $75 dollars for a half day meeting to $125. Additional amendments either delete obsolete language or provides language clarification based upon current administrative processes and are not substantial or additional County expense.

Following your Board's actions today, Human Resources will provide information to all impacted employees informing them of the changes, and will provide impacted employees the opportunity to make mid-year medical plan changes upon request. HR Staff has also scheduled informational meetings with the Sonoma County Administrative Management Council (SCAMC).

Government Code Compliance Requirements:

Various provisions of the California Government Code require certain disclosures before the Board can adopt changes in salaries or benefits, with additional disclosure required for changes in pension and other post-employment benefits. Any changes in salaries and benefits must be adopted at a public meeting of the Board (Cal Gov't Code §23026). Notice of the consideration of such increases must be provided prior to the meeting and shall include "an explanation of the financial impact that the proposed benefit change or salary increase will have on the funding status of the county employees' retirement system." (Cal Gov't Code §31515.5). The recommendations before your Board today do not include any changes in the contribution towards post-employment benefits nor any pensionable salary or benefit increases (the increase in medical premiums are non-pensionable); and therefore, there is no negative impact to the funding status of Sonoma County Employee Retirement Association.

Prior Board Actions:

Amendments to Salary Resolution, July 10, 2018, Resolution # 18-0260
Amendments to Salary Resolution, May 22, 2018, Resolution #18-0187
Amendments to Salary Resolution, June 14, 2016, Resolution #16-0234

Strategic Plan Alignment	Goal 3: Invest in the Future

Related Items "On File" with the Clerk of the Board:

County of Sonoma
State of California

Item Number: ______________
Date: December 11, 2018 Resolution Number: ______________

☐ 4/5 Vote Required

Concurrent Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, The Board of Directors of the Sonoma County Water Agency, Sonoma County Agricultural Preservation and Open Space District, The Board of Commissioners of the Sonoma County Community Development Commission, Amending Salary Resolution 95-0926 to change Compensation and Benefits, Increasing Medical Benefit Contributions and Eliminating the Status Quo Preservation Allowance for Unrepresented Administrative Management, Department Heads and Elected Officials.

Whereas, Salary Resolution No. 95-0926 provides compensation, benefits, and terms and conditions of employment for Confidential, Unrepresented, Administrative Management, Department Heads, and Elected Officials of the County of Sonoma and other affiliated public agencies under the direction of the Board of Supervisors/Directors/Commissioners; and

Whereas, the County wants to provide compensation and benefits to employees covered by the provisions of Salary Resolution 95-0926 that achieve parity with salary and benefits that have been negotiated with the County's represented bargaining units; and

Whereas, your Board previously approved Concurrent Resolution No. 18-026, authorizing compensation and benefits changes which at that time, were substantially equivalent in value to salary and benefits being negotiated with the County's represented bargaining units; and

Whereas, the County recently completed labor negotiations of one-year extensions of all Memorandums of Understanding, and now has the ability to provide equivalent compensation and benefits including increases to medical benefits and elimination of the Status Quo Preservation Allowance for Unrepresented Administrative Management, Department Heads and Elected Officials, as provided to the County's represented bargaining Units, and other administrative and clarifying amendments, outlined in Attachment A; and

Whereas, the County has evaluated all legal requirements under Government Code Sections 23026, 31515.5, 7507, and 31516; and

Whereas, the proposed changes to Salary Resolution 95-0926 do not include changes in costs associated with pension or other postemployment benefits, and there are no negative funding impacts to the Sonoma County Employee Retirement Association; and

Whereas, Salary Resolution 95-0926 has no specific term and can be amended at any time.

Now, Therefore, Be It Resolved that various sections of Salary Resolution 95-0926 are approved, as amended, as outlined in Attachment A which is attached and incorporated by reference herein;

Be It Further Resolved that the County Administrator, Director of Human Resources, and Auditor-Controller-Treasurer-Tax Collector have the authority to take any necessary administrative actions to implement the provisions of this resolution, including the authority to execute administrative changes to plan documents and the Salary Resolution as needed and/or make corrections of a non-financial nature.

COUNTY OF SONOMA

SALARY RESOLUTION
No. 95-0926

Prepared by:
Sonoma County Human Resources Department

Revised: ~~July 2018~~ December 2018

Table of Contents

SALARY RESOLUTION
No. 95-0926

SECTION 1 - TITLE

This Resolution Number 95-0926 shall be known as the Salary Resolution of the County of Sonoma. The provisions of this Resolution may be superseded in whole or in part by resolutions adopted by the Board of Supervisors of Sonoma County. Each such resolution shall be effective on the first day of the County pay period next succeeding its adoption unless such resolution provides otherwise. Any provision of Resolution No. 89-1623 superseded by resolution of the Board of Supervisors shall be deemed repealed upon the effective date of the superseding resolution.

SECTION 2 - APPLICABILITY

2.1 Services

The provisions of this Resolution shall apply to both classified and unclassified services of the County of Sonoma.

2.2 Employee Units

Sections 7 through 31 of this Resolution apply only to Unrepresented Administrative Management positions, Department Heads (including elected Department Heads, except where specifically excluded in this document or by law), Unrepresented Confidential positions, and/or positions not represented by any recognized employee organization. "Unrepresented employees" shall mean those employees or positions which are neither Unrepresented Management nor Unrepresented Confidential and which are not represented by a recognized employee organization. When used in Sections 7 through 31 the term "employee" shall mean Unrepresented Administrative Management, Unrepresented Confidential, and Unrepresented employees.

2.3 Special Districts

(Amended 1/11/12)

Whenever an employee changes employment from the County of Sonoma County, the Sonoma County Water Agency, the Northern Sonoma County Air Pollution Control District, the Sonoma County Community Development Commission, or the Sonoma County Agricultural Preservation and Open Space District, to another of those agencies without a break in pay status greater than two (2) working days, service with the first entity shall be deemed to be service with the second entity for purposes of accrual, accumulation and use of: (i) paid vacation, (ii) sick leave, (iii) entitlement to salary step, and (iv) retiree medical benefits. Such employee shall retain the same such benefits to which entitled immediately prior to reassignment. Upon each reassignment, the employee shall be paid for unused overtime credits in the same manner as provided by this Resolution upon separation, and such unused overtime credits shall not be transferred from one entity to another.

2.4 Nepotism

No person shall be employed without written approval of the Director of Human Resources in any position in which the employee will directly or indirectly supervise, or in which the employee will be directly or indirectly supervised by, his or her husband, wife, ~~domestic partner~~registered domestic partner, parent, stepparent, brother, sister, child, stepchild, grandchild, grandparent, mother-in-law, father-in-law, daughter-in-law, son-in-law, or any person with whom the employee has a relationship in loco parentis.

2.5 Catastrophic Leave/Decedent's Benefit

A. Definition

1) Catastrophic Leave is a paid leave of absence due to verifiable, long-term illness or injury such as, but not limited to, cancer and heart attack which clearly disables the individual.

2) A Decedent's Benefit is the accumulation of vacation or compensatory leave hours donated by other County employees to the designated beneficiary or estate of a County employee who dies while an employee of the County.

B. Coverage

All regular employees of the County of Sonoma, the Sonoma County Community Development Commission, the Sonoma County Water Agency, the Sonoma County Agricultural Preservation and Open Space District, and the Northern Sonoma County Air Pollution Control District, who have successfully completed two-thousand eighty (2,080) hours (one year) in paid status shall be eligible for such leave due to their own serious illness or injury, or serious illness or injury to spouse, ~~domestic partner~~registered domestic partner or dependent minor child. The designated beneficiary or estate of an employee who was employed by any of the above-mentioned entities and successfully completed two-thousand eighty (2,080) hours (one year) in paid status and met the criteria set forth at paragraph 2.5(a)(2) shall be eligible to receive any decedent's benefit.

C. Other Leaves

The employee must first exhaust all accrued sick leave, vacation leave and compensatory time before qualifying for catastrophic leave.

D. Catastrophic Leave

Catastrophic leave shall be additional paid leave available from vacation or compensatory leave hours donated by other County employees to a specific, qualified employee.

E. Decedent's Benefit

A Decedent's Benefit shall be the accumulation of vacation or compensatory leave hours (up to a maximum of six-hundred eighty (680) hours) donated by other County employees to the designated beneficiary or estate of a County employee who dies while an employee of the County. The decedent's benefit shall be paid to the designated beneficiary or estate of the County employee in the same manner as payment to the designated beneficiary or estate of the County employee of the decedent's own vacation and compensatory leave hours.

F. Employees donating vacation or compensatory leave must donate in increments of whole hours. The donating employee must have a vacation leave balance of at least forty (40) hours after the donation of vacation time. Employees may donate all of their accrued compensatory time.

G. An employee or a decedent requesting catastrophic leave must receive the recommendation of his/her department head and the approval of the Director of Human Resources. Such leave may initially be approved up to a maximum of three-hundred forty (340) hours donated hours. If the catastrophic illness or injury continues, up to an additional three-hundred forth (340) donated hours may be recommended and approved.

H. Employees donating vacation or compensatory leave to a decedent's benefit must donate their vacation or compensatory leave hours no later than thirty (30) days after the employee's death or within thirty (30) days of the enactment of this revised Decedent's Benefit Policy.

I. The Auditor-Controller-Treasurer-Tax Collector shall account for the donation and disbursement of catastrophic leave hours. At the end of the thirty (30) day period allowed for donations for a Decedent's Benefit, the Auditor-Controller-Treasurer-Tax Collector will process adjustments and then disburse to the designated beneficiary or estate all funds for leave time donated.

J. The decision of the Director of Human Resources to deny the recommended Catastrophic Leave shall be appealable to the Civil Service Commission within ten (10) calendar days of his/her decision. The decision by the Civil Service Commission shall be final.

2.6 Short-Term Disability - Payroll Deductions

The County agrees that permanent Confidential employees may purchase Short-Term Disability Insurance coverage as may be offered by the SEIU Union Insurance Services, at their own expense, through bi-weekly payroll deductions. Each employee is responsible for submitting to SEIU Union Insurance Services his/her own application for Short-Term Disability Insurance and any subsequent material required by the insurance provider. The County is not responsible for deductions not taken or premiums unpaid while an employee is in an unpaid status.

SECTION 3 - PAY PERIODS

3.1 Each pay period shall cover fourteen (14) consecutive calendar days and shall start on a Tuesday and end with the second Monday thereafter. Employees and officers shall be paid for each hour of paid status and other compensation nine (9) calendar days following the last day of the pay period. If a holiday falls on said day, payment shall be made on the preceding working day.

3.2 Each payroll shall be approved by the County Auditor-Controller-Treasurer-Tax Collector before any salaries or wages provided for herein are paid.

SECTION 4 - SALARY SCHEDULE

Each salary scale shall consist of nine (9) salary steps, which shall be known as Steps A, B, C, D, E, F, G, H, and I. Each step shall be expressed in cents per hour. The salary scale for each class which is allocated to a salary scale is listed in Appendix A for Unrepresented Administrative Management, Unrepresented Confidential and other Unrepresented classes in terms of cents per hour at Step A. The salary scale for classifications represented by recognized employee organizations is listed in the appropriate Memorandum of Understanding. Unrepresented extra-help employees in classifications which are represented shall be paid on the same salary scale as listed for the represented employee in the same class. A table shall be published setting forth the value of each step of each salary scale.

4.1 Salary Scales

Salary Scales are shown in Table I.

4.2 Flat Rates

The salary for each class, which is to be paid at a flat rate, is listed in Appendix A in terms of cents per hour of the flat rate or at the annual salary for the class.

4.3 Base Hourly Rate

The base hourly rate for each employee whose class is allocated to a salary scale shall be the hourly rate for the step of the salary scale at which he or she is paid.

4.4 Paid Status

Each employee shall be considered to have paid status whenever the employee is at work, absent on a paid holiday, or absent on leave with pay, or absent on authorized compensatory time off.

SECTION 5 - ALLOCATION OF POSITIONS

5.1 Number of Positions

The number of allocated full-time or part-time positions in each County department or budgetary division shall be determined by the Board of Supervisors as a part of its adoption of the County Budget or of amendments thereto.

5.2 Allocation List

The Director of Human Resources shall provide for maintenance of a Departmental Allocation List which shall contain the number of permanent positions which have been or may hereafter be allocated to each County department or budgetary division in accordance with this Section, and which shall state the classification of each such position. The County Administrator is hereby authorized to approve amendments to the Departmental Allocation List in accordance with Board Ordinance No. 70506, October 20, 1981.

5.3 Substitute Position

Each position, which is contained on said Departmental Allocation List, may be filled by the employment of a qualified person in the class in which the position is authorized. With approval of the Director of Human Resources, it may be filled on a substitute basis by the employment of a qualified person in a closely related class which is allocated to the same or a lower salary or salary range.

5.4 Dual Position

With the approval of the County Administrator and the Director of Human Resources, a position vacated, or to be vacated, through retirement or other separation of an employee, or which is occupied by an employee who is receiving compensation pursuant to Section 4850 of the California Labor Code, or which is occupied by a person on an extended leave of absence, may be filled as a dual position prior to the date of separation, and thereafter for the duration of the unused leave or overtime which is paid to the employee upon separation or of the leave of absence of the employee.

5.5 Extra-Help

Department Heads may employ extra-help employees in accordance with established employment procedures and the Rules of the Civil Service Commission and within authorized budgetary appropriations for such employment.

SECTION 6 - BOARDS and COMMISSIONS

6.1 NSCAPC Board

Each member or alternate member of the Northern Sonoma County Air Pollution Control (NSCAPC) Board shall receive seventy-five dollars ($75) for each meeting and/or session thereof of such board or commission attended as such member or alternate provided, however, the maximum compensation which any member of said commission or board may receive for attendance at meetings on one calendar day shall be seventy-five dollars ($75).

6.2 Board of Building Appeals

Each member of the Board of Building Appeals shall receive twenty-five dollars ($25) for each meeting attended by such member, but not for more than one meeting in any one calendar month.

6.3 Retirement Board

Each member of the Retirement Board shall receive one hundred dollars ($100) for each meeting attended by each member, provided that employees and Elected Officials of the County of Sonoma shall not receive such compensation, and that the maximum compensation which any member of the Retirement Board shall receive in one month shall not exceed five hundred dollars ($500) per Government Code Section 31521.

6.4 BZA, LAFCO, Planning Commission, and Civil Service Commission

Each member of the Civil Service Commission, the Board of Zoning Adjustment (BZA), the Planning Commission, and the Local Agency Formation Commission (LAFCO) shall receive seventy-five dollars ($75) for each half day and one hundred twenty-five dollars ($125) for each full day per diem for each meeting day of such board or commission attended by such member. A member of the Board of Supervisors of the County of Sonoma who serves as a member or alternate member of the Local Agency Formation Commission shall not receive such compensation.

6.5 Assessment Appeals Board

Each member of the Assessment Appeals Board and Assessment Hearing Officer shall receive two hundred and twenty five dollars ($225) ~~one hundred twenty-five dollars ($125)~~ for each full day meeting of said board attended by the member. Half-day meetings shall be compensated at the rate of one hundred and twenty five dollars ($125) ~~seventy-five dollars ($75~~), and shall be scheduled only to conduct deliberations on appeals under submission, to conclude hearings which could not be completed within one calendar day, or in the event there are too few appeals scheduled to fill a regular calendar day.

6.6 Other Boards and Commissions

Other Boards and Commissions shall be compensated as provided by resolution of the Board of Supervisors.

6.7 Mileage and Expenses - Boards

In addition to the amounts provided above, as reimbursement for use of any motor vehicle not owned by the County, each member of the enumerated boards and commissions in this Section 6 shall receive the sum per mile which is allowed by this Resolution to officers, deputies and employees of the County for each mile actually and necessarily traveled in performance of official duties, and such additional reimbursement for actual expenses as shall be provided by resolution of the Board of Supervisors.

6.8 Recruitment and Retention Bonus

With the recommendation of the Director of Human Resources and the County Administrator, the Board of Supervisor's may designate by resolution a recruiting and retention bonus for difficult to recruit and retain classifications when there is a tight labor market for the class, more than one vacancy exists, and/or previous recruitments have been unsuccessful.

6.9 Candidate Travel Reimbursement

A. With the recommendation of the Director of Human Resources and the appointing authority, the County Administrator may authorize the Auditor to reimburse certain travel expenses for finalist candidates for selection interviews. The reimbursement may cover airfare, automobile mileage or rental fee up to the value of the equivalent airfare, and hotel costs, up to a maximum of $1,000. The travel must be of more than 200 miles from Santa Rosa and have the pre-approval of the County Administrator's Office to qualify for this reimbursement.

B. Candidates for department head recruitments and select senior management recruitments, as determined by the County Administrator, will be reimbursed for airfare, automobile mileage or rental fee up to the value of the equivalent airfare, and hotel costs at the oral interview stage and at subsequent final selection interviews with the appointing authority. The reimbursement will be based on the lowest cost airfare available and the County will select the hotel with reasonable rates. The reimbursement for these individuals will be based on the actual allowable costs incurred.

6.10 Keeper

Keepers will be paid in accordance with the statutory provisions of Government Code Section 26726.

SECTION 7 - ADMINISTRATION OF SALARY SCHEDULE

7.1 Salaries

Effective with the pay period that begins March 1, 2016, the County shall increase by three percent (3.0%) the A Step of each scale in the Salary Table specified in Appendix A.

Effective with the pay period following March 1, 2017, the County shall increase by three percent (3.0%) the A Step of each scale in the Salary Table specified in Appendix A.

7.1.1 Living Wage Minimum Wage Scale{XE "Living Wage Minimum Wage Scale " }

Effective March 29, 2016 all Unrepresented Confidential and Unrepresented employees will have a base hourly rate no less than $15.00 per hour.

To implement this provision, employees who have a base hourly rate less than $15.00 per hour shall be moved to the salary step in the salary scale most equivalent to but not less than $15.00 per hour.

This provision is applicable to both current employees and future hires.

Section 7.1.1 does not apply to intern job classifications.

7.2 Salary Upon Employment

A. Except as otherwise provided herein, appointment to any position in any class shall be made at the minimum rate, and advancement to rates greater than the minimum rate shall be within the limits of the salary scale for the class.

B. In exceptional cases after reasonable effort has been made to obtain employees for a particular class at the minimum rate, employment of individuals who possess special qualifications higher than the minimum qualifications prescribed for the particular class may be authorized at a higher rate than the minimum upon recommendation of the appointing authority with the approval of the County Administrator. The appointing authority may authorize an advanced step salary placement through Step E. County Administrator approval continues to be required for advance step placements for Steps F through I.

7.3 Salary – Consideration Upon Reappointment or Return

A full-time or part-time employee who resigns in good standing and is reappointed on a full-time, part-time, or extra-help basis in the same or closely related class in the same or in a lower salary scale within five (5) years of resignation, shall not be paid less than two (2) steps below the step paid at the time of resignation. Approval of the County Administrator is only required if the person is rehired at a step which exceeds the step paid at the time of resignation. The appointing authority may authorize an advanced step placement through Step E. County Administrator approval continues to be required for advance step placements Steps F through I.

7.4 Salary - Extra-Help to Extra-Help or Permanent Appointments

A. An extra-help employee who is appointed to an allocated part-time or full-time position in any class and without a break in service, shall be paid at a step in the appropriate salary scale which is nearest in the amount to that of the step received while employed in the extra-help position. Employment at a higher salary step not to exceed the maximum of the scale may be authorized upon recommendation of the appointing authority and approval by the County Administrator. The appointing authority may authorize an advanced step placement through Step E. County

Administrator approval continues to be required for advanced step placements for Steps F through I.

B. An extra-help employee who is appointed to another extra-help job without a break in service shall receive the salary rate step in the new scale which is closest to but not exceeding the rate paid in the former range. This provision does not apply to extra-help employment in more than one extra-help position.

C. When an extra-help employee returns within one (1) year from the date of termination to the same position, which the employee previously occupied or to a similar position paid on the same salary scale, the employee shall receive the same step of the scale as the employee received upon separation. Such employee shall be considered for merit increase when the employee's total hours in pay status before and after separation and restoration equal the number of hours required for a merit increase.

7.5 Salary Upon Restoration

Any full-time or part-time employee displaced, laid off, or voluntarily demoted in lieu of layoff, and reappointed within two (2) years in the same class from which separated, or in a closely related class in the same salary scale, or in a lower salary scale than the class from which separated, shall be paid at the same step in the salary scale as the employee was paid at the time of displacement, layoff or voluntary demotion, or the step of the scale which is closest to but not exceeding the rate the employee is currently being paid as a County employee, whichever is greater. Such employee shall be considered for merit increase when the employee's total hours in paid status before and after separation and restoration equal the number of hours required for merit increase.

7.6 Salary Upon Promotion

(Amended 6/14/16)

A. Except as otherwise provided herein, any full-time or part-time employee who is promoted to a position of a class allocated to a higher salary scale than the class from which the employee was promoted shall receive the salary step rate of the appropriate scale which would constitute an increase of salary most closely equivalent to but not less than five percent (5%) of the employee's step rate before promotion, but not less than the minimum salary scale for the new class nor greater than the maximum salary scale of the new class.

B. An employee who receives a promotion from any classification not in Administrative Management Unit 50 to a classification in Administrative Management Unit 50 allocated to a higher salary scale than the classification from which the employee was promoted shall receive the salary step of the appropriate scale that would constitute an increase of salary most closely equivalent to but not less than ten (10) percent of the employee’s salary step before promotion but not less than the minimum salary step of the new class or greater than the maximum salary step of the new class.

C. If a promotion occurs on the same day a merit increase is due and approved, the merit increase shall be computed first and subsequently the increase due to promotion.

D. An employee who is promoted shall be considered for a merit increase when the employee's total hours in pay status, exclusive of overtime subsequent to promotion, equals one thousand forty hours (1,040). The effective date of the merit increase shall be in accordance with Section 7.21 (Merit Increase – Effective Date).

7.7 Salary – Upon Promotion - Advanced Salary Step

Upon promotion of a full-time or part-time employee to a new class, the appointing authority may recommend to the County Administrator that the person being promoted receive a rate of pay that is higher than that to which the employee is entitled but in no way exceeds the top of the scale. The appointing authority may authorize an advanced salary step placement through Step E. County Administrator approval continues to be required for advance step placements for Steps F through I.

7.8 Salary - Upon Demotion During Probation (Failed Probation)

A full-time or part-time employee who, during the employee's probationary period, is demoted to a class which the employee formerly occupied in good standing during the same period of continuous employment in paid or unpaid status, shall have the employee's salary reduced to the salary the employee would have received if the employee had remained in the lower class. The employee's eligibility for merit advancement shall be determined as if the employee had remained in the lower class throughout the employee's period of service in the higher class.

7.9 Salary- Upon Involuntary Demotion

A full-time or part-time employee, to whom the circumstances described in Section 7.8 above do not apply, who is demoted involuntarily to a position of a class which is allocated to a lower salary scale than the class from which the employee is demoted, shall have the employee's salary reduced to the salary in the scale for the new class next lower than, but not more than five percent (5%) lower than the salary received before demotion, except that such employee will not be paid more than the maximum of the scale of the class to which the employee is demoted. The employee's eligibility for merit advancement shall not change as a result of demotion.

7.10 Salary - Upon Voluntary Demotion

A full-time or part-time employee, to whom the circumstances described in Section 7.8 above do not apply, who is demoted voluntarily or who displaces as a result of layoff to a position in a class which is allocated to a lower salary scale than the class from which the employee is demoted, shall receive the highest salary step in the scale for the new class which does not exceed the salary received before demotion, but not exceeding the maximum of the salary for the new class. The employee's eligibility for merit advancement shall not change as a result of demotion.

7.11 Salary- Upon Reappointment from Voluntary Demotion

Any full-time or part-time employee who is demoted voluntarily and who is reappointed on a full-time or part-time basis in the same class within two (2) years shall be reappointed at either the same step the employee received at the time of demotion or the salary step nearest the amount of the employee's present salary step, whichever is greater.

7.12 Temporary Assignment to a Higher Class

(Amended 3/19/13)

An employee assigned by the appointing authority to perform the majority of duties of a limited term project position, with the approval of the County Administrator and the Director of Human Resources, or to a higher classification to fill a vacancy caused by resignation, termination, promotion, or an extended leave of absence, must complete the required personnel forms and must meet the minimum qualifications of the higher classification or position. Such employee shall be paid according to the salary of the scale for the new class which would constitute an increase in salary at the step most closely equivalent to five percent (5%) greater than the employee's salary before promotion, but not less than the minimum salary of the new class, or not greater than the maximum salary of the new class or a salary rate assigned to the limited term project position. The employee shall receive this salary as long as the employee continues to serve in such assignment and shall be entitled to receive any authorized increases for the higher class as described in section 7.13 (Temporary Promotion - Merit Increase Eligibility) below.

7.13 Temporary Promotion - Merit Increase Eligibility

(Amended 3/19/13)

Temporary assignments shall be administered in the following manner:

A. If an employee assigned to a higher class has not yet reached the "I" step in the lower class, in-service hours while temporarily assigned to a higher class shall count as time served in the lower class for purposes of merit increase(s). If employee reaches the "I" step of the lower class while temporarily assigned, all subsequent in-service hours worked while assigned to the higher class will begin counting toward a merit increase in the higher class.

B. If an employee is at the "I" step of the lower class when assigned to the higher class, in-service hours while temporarily assigned to a higher class shall count as time served in the higher class for purposes of merit increase(s) beginning with the first hour assigned in the higher class.

C. An employee who is subsequently reassigned by the appointing authority within 12 months of the ending date of the most recent temporary assignment shall be considered for a merit increase in the higher class when the employee's total cumulative hours in the higher class are in accordance with Subsection 7.19 –Merit Advancement. However, if the employee received credit toward a merit increase in the lower class for hours worked in a temporary assignment as provided in Subsection 7.13 (a), such hours shall not also count toward a merit increase in the higher class.

7.14 Salary - Upon Transfer

(Amended 11/2/10)

A full-time or part-time employee who transfers from one allocated position to another allocated position in the same job class shall be placed at the same salary step that the employee was receiving prior to the transfer. A full-time or part-time employee who transfers form one allocated position in a job class to another allocated position in a closely related job class as defined in the Civil Service Rules for which s/he possesses the minimum qualifications shall be paid in the new scale nearest in amount to what the employee received prior to transfer.

7.15 Salary - Upon Reallocation of Class

An employee in a position of a class which, is reallocated from one salary scale to another, shall continue to receive the same salary step.

7.16 Salary- Upon Reclassification of Position - Same Salary Scale

Whenever a position is reclassified to a class, which is allocated to the same salary scale, the incumbent shall retain the same salary received prior to the reclassification if the incumbent is appointed to fill the position in accordance with the Civil Service Rules.

7.17 Salary - Upon Reclassification of Position - Higher Salary Scale

Except as otherwise provided herein, whenever a position is reclassified to a class which is allocated to a higher salary scale, the salary of the incumbent shall be provided by this Section upon promotion if the incumbent is appointed to fill the position in accordance with the Civil Service Rules.

7.18 Salary - Upon Reclassification of Position - Lower Salary Scale

Whenever a position is reclassified to a class, which is allocated to a lower salary scale, the salary of the incumbent shall be provided by this Section upon voluntary demotion if the incumbent is appointed to fill the position in accordance with the Civil Service Rules. Whenever the effect of a reclassification is to reduce the salary of an incumbent, the Board of Supervisors may, upon recommendation by the Director of Human Resources, direct that the incumbent shall continue to receive the previously authorized salary until termination of employment in the position, or until a percentage increase in pay may be authorized, whichever occurs first. Appropriate records shall show an incumbent as being paid at a special fixed rate (Y-Rate) of the salary scale for the employee's class.

7.19 Merit Advancement

(Amended 3/19/13)

A. Merit Advancement Within Salary Scales: Merit increases within a scale shall not be automatic. They shall be based upon merit and shall be made only upon written approval by the employee's appointing authority. Merit increases shall be made within the appropriate salary scale for the class by computing the new salary step rate which is most closely equivalent to two and a half (2 ½), five (5), seven and a half (7 ½), or ten (10) percent higher than the previous base hourly salary subject to the criteria below in 7(b). The usual merit increase for Satisfactory or Exceeds Standards, as documented by a written performance evaluation, shall be five (5) percent. The department head has the option of giving no increase or a two and a half (2 ½) percent increase for less than overall satisfactory performance.

To request a flexible merit increase (any other than five percent (5%), or to award a merit in advance of eligible date), the appointing authority must complete the Flexible Merit Increase form and attach the employee's performance evaluation then forward to the County Administrator for approval. This Section shall not be grievable or appealable under any County resolution, ordinance, policy or practice. An employee whose merit increase is denied by the appointing authority may, upon request, meet and discuss with the appointing authority the reasons for the denial. The decision of the appointing authority shall be final.

B. Merit - Special Advancement: Either (1) or (2) can be chosen, but may not be combined. Increase cannot exceed ten percent (10%) in the previous twelve (12) months.

1. Upon recommendation of the appointing authority and approval by the County Administrator, an employee may be given a five percent (5%) merit step advancement before regularly scheduled as provided in section 7.20. Such special salary advancement shall be documented by an overall Outstanding rating with no areas of improvement needed in the written performance evaluation. Only one such special increase can be given in a twelve (12) month period or in the first twelve (12) months following appointment to the position.
2. An employee may be advanced in the salary scale based on merit at seven and one half percent (7 ½%) or ten percent (10%) increase, documented by an overall Outstanding rating in the written performance evaluation with no areas rated Improvement Needed. A seven-and-one-half percent (7 ½%) or ten percent (10%) increase must have the recommendation of the appointing authority and approval by the County Administrator.

7.20 Merit Increase – Total Hours Required

Each employee shall be considered for an initial merit increase when the employee's total hours in pay status exclusive of overtime within the current class equals one thousand forty (1,040) hours. Each such employee shall be considered for subsequent merit increases when the employee's total hours in pay status exclusive of overtime, at each step to which advanced, equals two thousand and eighty (2,080) hours. Notwithstanding the above, employees in the classification of Student Intern, Law Clerk or Senior Law Clerk may be considered for a merit increase following the completion of each school semester of internship experience with the approval of the Director of Human Resources. This Section shall not be grievable or appealable under any County resolution, ordinance, policy or practice. An employee whose merit increase is denied by the appointing authority may, upon request, meet and discuss with the appointing authority the reasons for the denial. The decision of the appointing authority shall be final.

7.21 Merit Increase - Effective Date

The effective date of the merit increase shall be the start of the work day during which the employee becomes eligible for the merit increase. (Amended 12/15/09)

7.22 Salary for Extra-Help Employment on Three Step Scale

Notwithstanding other provisions of this Resolution, each person employed as an Unrepresented extra-help employee in a position wherein the salary scale is established pursuant to a negotiated Memorandum of Understanding between the County and Operating Engineers, Local 39 shall be paid within a three step system, the steps being E, G, and I of the respective salary scale listed in the current Memorandum of Understanding. Appointment to any Unrepresented position shall be made at the minimum rate, i.e., Step E.

7.23 Salary Reduction In Pay Upon Discipline

For a full-time or part-time Confidential or Other Unrepresented employee who has his/her pay reduced in accordance with Civil Service Rule 10.4, the reduction in pay shall apply to regular hours worked, including hours treated as hours worked, currently paid administrative leave, jury duty, military leave and compassionate leave. The rate reduction excludes premiums, overtime, vacation and compensatory time accruals and usage, and vacation, sick and compensatory time pay off. Pursuant to Civil Service Rule 10.4, a reduction in pay shall not exceed five (5) percent of the employee's salary step prior to the reduction and shall not exceed one thousand forty (1,040) hours in duration. Section 7.23 does not apply to Administrative Management employees.

SECTION 8 - PREMIUM PAY

8.1 Premium - P.O.S.T.

Each Unrepresented employee in the class of Deputy Sheriff II, Sheriff's Sergeant, District Attorney Investigator I, District Attorney Investigator II, Senior District Attorney Investigator, Welfare Fraud Investigator I, Welfare Fraud Investigator II, Public Defender Investigator I, and Public Defender Investigator II who have been awarded a valid certificate issued by the California Commission on Peace Officers' Standards and Training (POST), shall be eligible for POST premium compensation at the same rate of pay as described in the Memorandum of Understanding representing permanent employees in the same classification.

Each Sheriff who has been awarded an advanced certificate issued by the California Commission on Peace Officer's Standards and Training (POST) shall be eligible for POST premium compensation upon presentation of said certificate to the County. Each eligible Sheriff who has been awarded a valid advanced certificate shall receive three percent (3%) of base hourly rate thereafter, added to the employee's base hourly rate for all compensation purposes.

The payments set forth in this Section (8.1) shall become effective at the beginning of the first full pay period following the date of eligibility or application for the specified POST premium, whichever date is later.

8.2 Premium - Shift Differential

Employees designated as Unrepresented Confidential or Unrepresented shall be entitled to receive shift differential if the employee is assigned to work, and actually works an evening or night work shift.

A. Shift differential shall be paid only for hours worked on the defined shift. An employee whose shift starts 7 a.m. or later and ends by 7 p.m. shall not be eligible for shift pay.

B. An employee must actually work more than fifty percent (50%) of his or her shift hours between 2 p.m. and 10 p.m. to receive the evening shift differential premium specified in this Subsection (8.2(c)). An employee must actually work more than fifty percent (50%) of his or her shift hours between 10 p.m. and 8 a.m. to receive the night shift premium specified in subsection 8.2(d).

C. Evening Shift Premium: An additional five percent (5%) above the employee's base hourly rate for each hour actually worked on an evening shift.

D. Night Shift Premium: An additional ten percent (10%) above the employee's base hourly rate for each hour actually worked on a night shift.

E. Employees in job classes represented by other bargaining units entitled to receive shift premium pay shall be paid as described in the Memorandum of Understanding representing permanent employees in the same classification.

8.3 Premium Pay - Confidential Employees

Employees designated as Unrepresented Confidential employees shall be entitled to receive a premium pay of ninety cents ($.90) per hour.

8.4 Premium Pay - Nurse Practitioner/Physician Assistant

(Amended 3/19/13)

Each Unrepresented employee in the classification of Public Health Nurse I or Public Health Nurse II who meets the minimum qualification for employment as a Nurse Practitioner/Physician Assistant, and who is assigned to perform the duties normally ascribed to the classification of Nurse Practitioner/Physician Assistant, shall be paid at the salary step of the scale for such higher classification which corresponds to the salary step of the employee's salary scale for each hour assigned and actually worked at said classification. An entry will be made in the employee's personnel file to document the employee's service as a Nurse Practitioner/Physician Assistant.

8.5 Bilingual Pay

(Amended 3/19/13, 6/14/16)

When a Department Head designates an Unrepresented Administrative Management position or Unrepresented Confidential position or an Unrepresented position which requires bilingual skills on the average of at least ten percent (10%) of the employee's work time, such an employee in the designated position shall first demonstrate a language proficiency of job-related terminology acceptable to the Department Head and the Director of Human Resources. Thereafter, the employee shall be entitled to the payment of one dollar ($1.15) per hour of bilingual pay differential for every hour the person actually worked. Employees in job classes represented by other bargaining units entitled to receive bilingual pay shall be paid as described in the Memorandum of Understanding representing permanent employees in the same classification.

8.6 Bilingual Pay - Termination of

(Amended 3/19/13)

When a department head determines that a designated bilingual employee is no longer utilizing his/her bilingual skills at least ten percent (10%) of the employee's time for three consecutive pay periods, the County may remove the employee from the list of designated bilingual employees and the employee will no longer be entitled to receive Bilingual Pay, unless re-designated by the department head at a later date.

8.7 Bilingual Pay - Daily Assignment

When (a) a Department Head has designated an Unrepresented/Confidential position which requires bilingual skills on the average of at least ten percent (10%) of the employee’s work time, and (b) an employee has been assigned on an on-going basis to carry out such assignment, and (c) the employee so assigned becomes absent by virtue of temporary leave such as sick leave, vacation, or compensatory time off, then the Department Head may assign an employee to carry out the required bilingual duties of the assigned position on a daily basis. This back-up person, having first demonstrated a proficiency of job-related terminology acceptable to the Department Head and the

Director of Human Resources, shall be entitled to the bilingual premium specified in Section 8.5 per hour for all hours actually worked in a daily assignment.

8.8 Extra-Help Employees

Each Unrepresented extra-help employee in the class of Occupational Therapist I, Occupational Therapist II, Physical Therapist I and Physical Therapist II shall be paid a premium of ten percent (10%) above the employee's base hourly rate.

8.9 Premium Pay for Detention & PES/CSU Facilities

(Amended 10/21/14)

8.9.1 Detention Facility

An Unrepresented extra-help employee in a classification represented by Engineers and Scientists of California (ESC) who is assigned to work in a detention facility shall receive the premium pay specified in the ESC current contract above the employee's base hourly rate for all hours worked in the detention facility. Only those detention facilities listed in the ESC contract under Section 13.7 (Premium Pay for Detention Facilities) are eligible for this premium.

8.9.2 PES/CSU

Effective 10/14/14, an Unrepresented Extra-Help employee in a classification represented by Engineers and Scientist of California (ESC) who is assigned to work in the Psychiatric Emergency Services/Crisis Stabilization Unit (PES/CSU) shall receive the premium pay specified in the ESC current contract above the employee’s base hourly rate for all hours worked in the PES/CSU facility.

8.10 Patient Care Manager/Family Nurse Practitioner Certified

When required by a position, as determined by the appointing authority, an employee in the class of Patient Care Manager who is certified as a Family Nurse Practitioner (FNP) shall be paid as a Patient Care Manager/FNP, as specified in Appendix A.

8.11 Facilities Assignment Premium Pay

When an Office Support Supervisor Confidential or a Senior Office Support Supervisor Confidential in the Human Services Department is assigned by the Department Head or designee to building/facility maintenance tasks such as liaison with landlords, security firms, management of building equipment, pool cars or other related tasks and these tasks require twenty-five percent (25%) or more of his/her time, he/she will receive a premium pay five percent (5%) above the employee’s base hourly rate for all hours assigned and actually worked.

SECTION 9 - STAND-BY

9.1 Stand-By Defined

Stand-by duty requires that an employee be designated by the County, be ready to respond as soon as possible, be reachable by telephone or pager, be able to report to work in a reasonable amount of time, and refrain from activities which might impair their ability to perform assigned duties.

9.2 Stand-By Compensation

(Amended 3/19/13)

When the County assigns an Unrepresented Confidential or Unrepresented employee to standby duty, the County shall compensate the employee at the rate of $4.75 per hour for all standby compensation. If and when the County calls and employee back to work, the employee shall be paid call-back pay described in Section 9.3 and shall not receive standby until the employee returns to standby status. The County shall not pay an employee for both call back and standby pay for the same hours worked.

Notwithstanding other provisions of this Resolution, each person employed as an Unrepresented extra-help employee in a position wherein the salary scale is established pursuant to a negotiated Memorandum of Understanding between the County and other unions shall be paid at the same rate of pay as other employees in the bargaining unit for each hour assigned to stand-by with a minimum eight (8) hour stand-by assignment. No stand-by shall be considered as time worked. In no case shall an employee continue to receive stand-by pay once called back to work.

9.3 Call-Back

(Amended 3/19/13)

Unrepresented Confidential employees and Unrepresented employees who are called back to work after having completed the normal shift and after having left the work site, shall be entitled to receive a minimum of two (2) hours or for each hour actually worked, whichever is greater, at the rate of one and one-half (1 ½) times the employee’s base hourly rate of pay. Time worked, for which to employee is entitled to call-back compensation, shall include reasonable travel time to and from the employee’s residence via the shortest commonly traveled route. No employee shall continue to receive standby pay once called back to work or while receiving call back pay for hours worked, or while guaranteed minimum is paid. For purposes of computing overtime, only time actually worked and travel time shall be considered. The County shall not pay an employee for call-back pay, standby pay, and phone work pay during the same period of time. Notwithstanding other provisions of this Resolution, each person employed as an Unrepresented extra-help employee in a position wherein the salary scale is established pursuant to a negotiated Memorandum of Understanding between the County and other unions shall be paid at the same rate and manner as other employees in the bargaining unit when called back.

9.4 Phone Work Compensation

(Amended 3/19/13)

With the department head's approval, an Unrepresented employee or an Unrepresented Confidential employee may be called upon to resolve work related problems by telephone without having to return to the work site. Compensation for such work shall be a minimum of one (1) hour at the rate of one and one-half (1 ½) times the employees base hourly rate of pay for any hour in which a telephone call is made or received. In the event a later telephone call is received after the prior one (1) hour of telephone work time, and the call required the employee to again resolve work-related problems by telephone, the employee shall be paid for an additional one (1) hour at the rate of one and one half (1 ½) times the employees base hourly rate of pay for all telephone calls made or received within that next hour. Phone work performed during a regularly scheduled telecommuting assignment is not eligible for payment under this section. The County shall not pay an employee for call-back pay, standby pay, and phone work pay during the same period of time.

SECTION 10 - MILEAGE REIMBURSEMENT

10.1 Mileage Reimbursement

An employee designated as Unrepresented Confidential, Unrepresented Administrative Management or Unrepresented who is authorized to and does provide a motor vehicle for travel required of the employee in the performance of official duty shall be reimbursed at the standard IRS business mileage rate.

10.2 Automobile Expense Reimbursement - Department Heads, Assistant County Administrator (Amended 5/16/06)

Notwithstanding Section 10.1, the Assistant County Administrator and all non-elected Department Heads who do not have permanent overnight assignment of a County vehicle shall receive a flat rate two hundred fifteen dollars ($215) per pay period as reimbursement for all private vehicle mileage on official County business. Elected Department Heads who do not have permanent overnight assignment of a County vehicle shall receive a flat rate of three hundred twenty dollars ($320) per pay period as reimbursement for all private vehicle mileage on official County business. Department Heads who currently have permanent overnight assignment of a County vehicle may elect to receive the automobile allowance in lieu of such assignment. Permanent assignment of an automobile will only be available to new Department Heads by Board approval if specifically required by the emergency nature of the position. Such officials receiving the flat rate reimbursement may, in addition, receive mileage reimbursement at the rate specified in Section 10.1 for mileage driven outside the boundaries of Sonoma County. Travel expenses to destinations served by common air carrier from San Francisco or Oakland International Airports shall be compensated at the lesser of the mileage reimbursement rate or the least expensive airfare to the destination. Officials receiving the flat rate reimbursement shall file necessary documents in accordance with instructions from the Auditor-Controller-Treasurer-Tax Collector. Officials receiving the flat rate reimbursement shall not use County vehicles on official County business except as required in extraordinary circumstances.

SECTION 11 - CLOTHING AND EQUIPMENT

11.1 Issuance

The Board of Supervisors may, by resolution, provide for the issuance to employees of specific classes or departments of specific items of clothing or equipment which may be required in the performance of their official duties.

11.2 Personal Property Reimbursement

Upon recommendation of the appointing authority, the County, in accordance with Government Code Section 53240, shall provide for payment of the costs of replacing or repairing property or prostheses of an employee, such as eyeglasses, hearing aids, dentures, watches, or SECTIONs of clothing necessarily worn or carried by the employee when any such items are lost or damaged in the line of duty without negligence by employee. If the items are damaged beyond repair, the actual value of such items may be paid. The value of such items shall be determined as of the time of the loss thereof or damage thereto in accordance with the Personal Property Claims Guide as provided by Board of Supervisors Resolution No. 56420, dated January 18, 1977, and as amended by Board of Supervisors Resolution No. 90-0721 dated April 24, 1990.

11.3 Safety Shoes/Boots

(Amended 3/19/13)

Extra-Help Park Ranger Assistants shall have the option once in each two-year period to receive a voucher toward the purchase of safety shoes or boots. All vouchers shall be issued at one hundred fifty six dollars ($170.00) for full boots and ninety dollars ($90.00) for safety shoes.

SECTION 12 - STAFF DEVELOPMENT & WELLNESS

(Amended 7/22/14, 6/14/16, 12/11/2018)

12.1 Staff Development and Wellness Benefit Allowances

(Amended 7/22/14, 6/14/16)

Subject to budgeted funds for this program, full-time and part-time (.40 FTE and greater) employees who are in allocated positions are eligible for Staff Development/Wellness Benefit Allowance each fiscal year. As specified in the chart below, full-time and part-time employees may receive reimbursement pursuant to the provisions of the Staff Development/Wellness Benefit Allowance Program ~~Administrative Manual~~. Funds may not be carried over from year to year, and may be taxable pursuant to Internal Revenue Code.

Annual Staff Development/ Wellness Benefit Allowance

Bargaining Unit	Full-Time (1.00 FTE)	¾ Time (> .75 FTE)	Part-Time (.40 - .74 FTE)
BU: 00 Unrepresented	$1,000	$500	$500
BU: 51 Confidential	$1,000	$500	$500
BU: 49 - Board of Sups BU: 52 – Elected DH BU: 52 – Dept Heads	$1,650	$1,650	$1,050
BU: 50 – Admin Mgmt	$1,500	$1,500	$960

12.2 ~~Staff Development - Computer Hardware, and Mobile Devices~~

~~Staff Development Benefit Allowances may be used towards reimbursement for the purchase of computer hardware as defined in the County's Staff Development Benefit Program Allowance Administrative Manual. Monthly service charges for internet and mobile communication connections are not reimbursable under this Program. The use and approval of all computer hardware, and mobile devices is subject to review by the department head (or may be delegated to a senior manager only) and is subject to the specific job requirements for each job classification in that department. All computer hardware, and mobile devices must be directly job related, must be used for County business a minimum of 50% of their use and requires department head (or senior manager designee) authorization in order to qualify for reimbursement. Use of computer hardware and mobile devices to perform County business is subject to all County administrative and departmental policies related to technology use and security. Department head authorization for the use of this benefit towards reimbursements for computer hardware, and mobile devices must~~

~~be outlined and approved in the employees' annual Professional Development Plan document and will be considered together with other staff development training and educational priorities required by the department head.~~

~~Overtime eligible employees shall not incur overtime by using the computer hardware of mobile device before or after regular scheduled work time or non-work days unless the work is authorized by the employee's designated supervisor.~~

12.3 ~~Wellness/Physical Fitness~~

~~The annual Staff Development/Wellness Benefit Allowance may be used towards reimbursement for allowable physical fitness and/or wellness programs, as defined in the County's Staff Development Benefit Allowance Program Administrative Manual (Manual). An eligible employee may request reimbursement for allowable expenses, upon approval of the appointing authority, and as defined in the Manual.~~

12.4 Continuing Education Leave

When a continuing education course is offered during an employee's normal work schedule, the employee may be authorized continuing education leave. Such leave authorization shall be subject to the approval of the employee's appointing authority and must be directly related to the employee's present position or career advancement within the present department. Continuing education leave shall be considered as time worked.

12.5 In-Service Training

Attendance at in-service training courses may be authorized by the appointing authority.

12.6 Payment for In-Service Training

There are three ways the expenses of the program may be paid:

A. By the County: Expenditures for travel, meals, lodging, registration and other items included annually within the department budget.

B. By other public or private agencies: Expenditures paid by grants from the State or Federal governments, from private organization or from professional organizations.

C. By the individual employee: The employee may pay the in-service training expenses in whole or in part from their Staff Development Benefit Allowance funds , or from the employee's private resources, if the employee requests and receives approval from the appointing authority for paid release time to attend the authorized training.

12.7 Guidelines

The Director of Human Resources shall develop, modify, implement and administer guidelines for the use of the County's Staff Development Benefit Allowance Program, in compliance with IRS regulations.

12.8 Non-Grievable

Sections 12.1 through 12.7 of this Resolution shall not be grievable or appealable under any County policy, resolution or rule.

SECTION 13 - DEFERRED COMPENSATION

13.1 Incentive Retirement Savings Plan

(Amended 7/22/14, 6/14/16)

Effective with the pay period beginning July 5, 2016, the County shall deposit the following percentage of an employee's bi-weekly base salary into the 401(a) account of each Unrepresented Administrative Management employee, Department Head, each Unrepresented Confidential employee, and each Unrepresented employee. (Extra-help employees are not eligible for County contributions under this program; see PST/457 Section 13.4).

	***Foundation Contribution**	****Matching Contribution**
Department Head	3.0%	1.0%
Administrative Management	3.0%	1.0%
Confidential Employee	1.0%	1.0%
Other Unrepresented Employee	1.0%	1.0%

* Reflects amount of county bi-weekly contribution to 401(a) plan of 1% or 3% of employee's bi-weekly base salary.

** County match made bi-weekly to a 401(a) plan based on an employee's bi-weekly contribution to a County deferred compensation plan, not to exceed 1% of bi-weekly base salary in addition to the foundation contribution listed above.

In order to receive such County contributions, each employee must be in pay status for at least fifty percent (50%) of the employee's regular work schedule in a pay period.

Nothing herein renders the County liable to any employee for continuance of the current deferred compensation plan in the event of a discontinuance of Internal Revenue Service or Franchise Tax Board approval of any County deferred compensation plan or portion thereof or the employee becoming ineligible to participate in the deferred compensation plan.

Any employee, Board member, or Elected Department Head who continues to receive County contributions under any prior deferred compensation plan will not be eligible for County contributions to the Incentive Retirement Savings Plan.

County paid contributions under this Subsection 13.1 (Incentive Retirement Savings Plan) shall not be included in the calculations of retirement.

The provisions of this program are subject to Federal and State law and will be modified to comply with any legislative changes including any contribution limits as required by the Public Employees Pension Reform Act.

13.2 Deferred Compensation – Voluntary Plan

(Amended 3/19/13)

The County will maintain a voluntary deferred compensation plan for all employees eligible under Federal law and the rules of the deferred compensation plan.

13.3 PST/457 Deferred Compensation Retirement Plan

Part-time (less than 0.50 FTE) and extra-help employees who are hired on or after October 1, 1991, shall participate in the PST/457 Deferred Compensation Retirement Plan authorized by Internal Revenue Code Section 457 in lieu of Social Security. The County shall contribute to the employee's PST/457 deferred compensation account according to the following schedule:

EMPLOYEE	COUNTY
3.5%	4.0%

The Sonoma County Water Agency employees are not included in the PST/457 Deferred Compensation Plan as they are presently covered by Social Security.

SECTION 14 - HEALTH AND WELFARE BENEFITS FOR ACTIVE EMPLOYEES

(Amended 5/18/10, 3/19/13, 3/15/16, 5/22/18, 7/10/18, 12/11/18)

14.1 Active Employee Health Plans

An eligible employee is allowed only to enroll either as a single subscriber in a County offered medical, dental, vision plan and/or dependent life insurance, or as the dependent spouse/registered domestic partner of another eligible County employee/retiree, but not both.

If an employee is also eligible to cover their dependent child/children, each child will be allowed to enroll as a dependent on only one employee or retirees' plan (i.e., an employee and his or her dependents cannot be covered by more than one (1) County offered health plan).

An eligible employee is:

A County of Sonoma probationary or regular full-time or probationary or regular part-time employee (refer to Section 14.2.6 regarding plans offered and pro-ration of benefits for part-time employees).

An eligible dependent is ~~(as defined in each plan document/summary plan description)~~:

☐ Either the employee's spouse or registered domestic partner and has a Declaration of Registered domestic partnership filed with the State of California as defined in California Family code section 297, et. seg; or

☐ A child ~~based on your plan's age limits~~ up to age 26 or a disabled dependent child regardless of age.

14.2 Enrollment in County Offered Health (Medical, Dental, Vision, Life Insurance) Plans

Election to enroll in the County offered health plan ~~will take place~~ is required within the first 31 days following date of hire to permanently allocated position of .40 FTE or greater, or it will be made during an annual open-enrollment period. Enrollment in vision and basic life insurance is automatic. Mid-year enrollment can only be permitted as allowed by IRC Section 125 or as required by HIPAA or other applicable regulations. The effective date of benefits will be the first of the month following date of hire or initial eligibility.

14.2.1 County Offered Medical Plans

The County will offer at least the following medical plans, the County Health Plan PPO, County Health Plan EPO, and Kaiser HMO plan. The benefit provisions are outlined in the Summary Plan Description or Evidence of Coverage.

14.2.2.1 County Contributions Toward Active Employee Medical Administrative Management and Department Heads

~~Effective with the pay period beginning July 19, 2016, medical plan coverage in this Section 14.2.2.1 will be paid on a semi-monthly basis (24 Payments per year). The County shall contribute a flat dollar amount not to exceed $500 per month ($250 semi-monthly) toward the cost of any County offered medical plans for any eligible full-time regular Administrative Management and Department Head employee and their eligible dependent(s).~~

Effective the pay period beginning January 15, 2019, with the intent to have premiums paid in the pay period(s) required for coverage to be effective February 1, 2019, the County shall contribute up to the maximum of the following amounts based on level of coverage for eligible full and part time employees and their eligible dependent(s) enrolled in a County-offered medical plan.

Employee only	$629 per month ($314.50 semi-monthly)
Employee plus one	$1,257 per month ($628.50 semi-monthly)
Family	$1,779 per month ($889.50 semi-monthly)

This is the full and total contribution amount the County will contribute toward medical benefits for active regular ~~Administrative Management employees and Department Heads~~ and their eligible dependent(s). ~~The County shall contribute to part-time eligible employees on a pro-rated basis, in accordance with Section 14.2.6.~~

14.2.2.2 County Contributions Toward Active Employee Medical- For Eligible Unrepresented Confidential (BU 0051) and Unrepresented (BU 0000) Full-Time and Part-Time Employees

Effective the pay period beginning May 22, 2018, with the intent to have premiums paid in the pay period(s) required for coverage to be effective June 1, 2018, the County shall contribute up to maximum of the following amounts based on level of coverage for Unrepresented Confidential and Unrepresented employees enrolled in County-offered medical coverage for any eligible full-time and part-time employees and their eligible dependent(s). ~~The amounts listed below shall include the conversion of the current County HRA contributions for active employees in Section 14.3 to medical contributions.~~

Employee only	$629 per month ($314.50 semi-monthly)
Employee plus one	$1,257 per month ($628.50 semi-monthly)
Family	$1,779 per month ($889.50 semi-monthly)

This is the full and total contribution amount the County will contribute toward medical benefits for active regular employees and their eligible dependent(s).

The County shall contribute to part-time eligible employees on a pro-rated basis, in accordance with Section 14.2.6~~.~~

~~Medical plan coverage in Section 14.2.2.2 will be paid on a semi-monthly basis (24 payments per year)~~

14.2.3 Dental Benefits
(Amended 6/14/16, 7/10/18)
The County offers dental and orthodontic benefits to full and part-time regular employees and their eligible dependent(s). Benefits provisions, co-payments and deductibles are outlined in the Evidence of Coverage. The employee contribution is $14.13 semi-monthly ($28.26 per month).

Effective August 1, 2018, the employee contribution shall be suspended for a period of 22 months, resuming June 1, 2020.

~~Dental Benefits coverage in section 14.2.3 will be paid on a semi-monthly basis (24 payments per year).~~

The County shall contribute to part-time eligible employees on a pro-rated basis, in accordance with Section 14.2.6~~.~~

14.2.4 Vision Benefits
The County offers vision and computer vision care benefits to full-time active employees and their dependent(s) with no employee contribution.

Part-time employees will automatically be enrolled in the vision benefit and the County shall contribute to part-time eligible employees on a pro-rated basis, in accordance with Section. Benefits provisions, co-payments and deductibles are outlined in the Evidence of Coverage.

14.2.5 Life Insurance
(Amended 6/14/16)
The County ~~shall offer~~ provides a basic term-life insurance plan in the amounts specified below for an allocated full-time equivalent position of sixty (60) hours or more (0.75 FTE or more) with no employee contribution. Enrollment in basic life insurance is automatic, based on eligibility.

Confidential Employees: One and one half (1-1/2) time the annual salary computed on the basis of 26.089 times the bi-weekly salary in effect at the time of death. Administrative Management and Department/Agency Heads: Two (2) times the annual salary computed on the basis of 26.089 times the bi-weekly salary in effect at the time of death. Unrepresented Employees: Ten thousand dollars

($10,000).

Unrepresented Employees:
Effective August 1, 2016, the life insurance coverage amount for Unrepresented employees will be in an amount equal to one and one half (1-1/2) times their annual base salary. Enrollment in basic life insurance is automatic, based on eligibility.

Dependent Life Insurance:
Each eligible and enrolled employee may purchase through payroll deduction, dependent coverage of $5,000 for each eligible dependent. For all other plan benefits and provisions, refer to the insurance policy document.

Supplemental Life Insurance:
Eligible employees may purchase additional life insurance coverage for themselves at their own expense upon initial eligibility or during the annual enrollment periods specified in Section 14.2 (Enrollment in County Offered Health (Medical, Dental, Vision, Life Insurance) Plans). Confidential, Unrepresented, Administrative Management, and Department Head employees may purchase supplemental coverage in increments one times (1X) to four time (4X) the basic coverage to a maximum of $500,000, in accordance with the insurance carrier's policy. Effective 7/19/2016 Unrepresented employees may purchase supplemental coverage in increments of $10,000 not to exceed the maximum of $500,000 which includes the County paid basic term life insurance plan and additional life insurance coverage purchased by the employee, in accordance with the insurance carrier's policy.

Participating employees and the County will be required to follow the insurance company's contracted requirements with respect to the maximum amounts and the necessity for evidence of insurability in order to be eligible to receive the benefit as may be amended from time to time and may be based on actual participation by County employees in the program. An employee enrolled in supplemental coverage who moves from one age bracket to the next higher bracket will have to pay the rate of the higher age bracket beginning the January of the year in which the employee moves to the higher age bracket.

14.2.6 Part-Time Employee – Health Benefits

A. Part-time employees in allocated positions of thirty two (32) hours or more biweekly (0.40 FTE minimum) shall be eligible to participate in the County's medical, dental, and vision plans and the County's contribution toward their premiums shall be pro-rated. Pro-ration shall be based on the number of pay status hours in the pay period, excluding overtime and including periods of qualified FMLA, CFRA and CDPL leaves without pay.

B. A part-time Unrepresented Administrative Management, ~~and~~ Unrepresented, or Confidential employee, whose allocated position is 0.75 FTE or greater bi-weekly, shall receive medical, dental and vision coverage as if the part-time employee were a full-time employee. Said part-time employee shall receive life insurance and long-term disability insurance in accordance with the employee's FTE.

C. Except for part-time (0.75 FTE+) employees referred to in this Section 14.2.6(b), part-time employees shall not be eligible to participate in the County's life insurance program

14.3 Health Reimbursement Arrangement (HRA) Contribution
(Amended 4/9/13, 3/15/16, 12/11/18)
~~Effective the pay period beginning on May 10, 2016, the County shall cease contribution to the HRA account described in this section. Effective the pay period beginning May 10, 2016, the County will instead convert such HRA contributions into medical insurance premiums.~~

~~Between March 1, 2016 and May 9, 2016, all eligible Confidential and Unrepresented full and part time employees enrolled in a County sponsored medical plan will receive a contribution into a Health Reimbursement Arrangement (HRA) and can participate in the HRA plan based on county medical plan enrollment as described herein. Eligible employees who waive medical coverage and are not enrolled in a County sponsored medical plan will not receive a contribution into the HRA. For active Confidential and Unrepresented employees meeting the above criteria, the County will contribute an amount equal to 2.25% of the employee's base pay.~~

~~The County will contribute to eligible Confidential and Unrepresented part-time employees on a pro-rated basis, in accordance with Section 14.2.6.~~

Prior County contributions made pursuant to this section ~~will be~~continue to be available to Plan participants for reimbursement of eligible medical care expenses as incurred by an eligible employee or dependents(s) as under Internal Revenue code sections 105 and 106. Effective July 1, 2016, employees will be able to access accumulated funds by submitting eligible expenses for reimbursement but may not use HRA funds to offset premium costs for County medical coverage.

HRA contributions made pursuant to this section are separate and apart from HRA contributions and benefit eligibility for Retiree Medical for employees hired on or after January 1, 2009, pursuant to Section 15.6. Health benefits in this Section 14 are available only to active employees.

Section 14.3 does not apply to extra-help employees and unrepresented employees in the job classifications of: 0841 - Assistant Executive Officer LAFCO, 2537 - Forensic Psychiatrist, 2536 - Mental Health Physician, and 2535 - Public Health Physician.

14.4 Employee Assistance Program
The County provides an Employee Assistance Program (EAP) for all ~~Salary Resolution~~ employees at no cost to the employee.

14.5 Long-Term Disability
The County shall provide and pay the premium for a Long-Term Disability (LTD) benefit as described in the applicable plan document to all full and part-time employees (0.40 FTE minimum) who meet the eligibility requirements. Enrollment in the long term disability benefit is automatic. The benefit waiting period is the longer of 60 days, or the period you elect to receive paid leave. Employees eligible to receive LTD benefits are not required to exhaust sick leave before receiving LTD benefits, but an employee who chooses to use sick leave or other paid leave after the sixtieth

(60th) day of disability is not eligible to receive any LTD benefits until the employee stops using paid leaves. LTD benefits cannot be supplemented with any paid leave. LTD benefits will be offset by any applicable income, such as short-term disability benefits, social security and social security disability benefits, etc.

14.5.1 Long-Term Disability Claims Dispute

The claims dispute process is described in the Summary Plan Description or Evidence of Coverage. Human Resources-Risk Management Division will assist employees with claims dispute.

14.6 Workers' Compensation Claims Disputes

Any dispute by an employee over a claim processed through workers' compensation shall be resolved solely through the appropriate appeal procedures of that system.

14.6.1 Workers' Compensation Temporary Disability – Supplementing with Paid Leave

An employee not entitled to the benefits of Labor Code Section 4850 who is absent from work by reasons of industrial injury, compensable by temporary disability shall supplement such compensation with enough paid leaves to increase his/her gross earnings to equal his/her regular bi-weekly base salary as follows:

- All sick leaves shall be taken until the remaining sick leave balance is 40 hours or less.
- Once the sick leave balance is forty (40) hours or less, the employee may elect to supplement by taking any combination of the remaining sick leave, vacation, and/or compensatory time off up to his/her base salary.
- Employees whose sick leave balance is forty (40) hours or less may also elect not to supplement at all.

An employee shall accrue vacation leave and sick leave only during such portion of absence from work due to industrial injury for which the employee uses previously earned vacation leave, sick leave or compensatory time off.

14.7 Medical/Pregnancy Disability Leave

When an employee exhausts all but forty (40) hours of sick leave and goes on medical or pregnancy disability leave without pay, the County will make its normal contribution to the employee's medical, dental, vision care, life insurance and LTD benefits for a period not to exceed thirteen (13) pay periods per disability. Beginning with the fourteenth (14th) pay period, the employee will be entitled to continue coverage through COBRA Continuation of Coverage and is responsible for making a timely election and paying COBRA premiums by the due date. Prior to the exhaustion of the thirteenth (13th) pay periods, the County will provide reasonable advance notice of the employee's obligations regarding the opportunity to continue employee-paid benefits.

An employee who returns to work from medical or pregnancy disability leave without pay prior to the exhaustion of the thirteen (13) pay periods of entitlement under this Section (14.7) shall not have the thirteen (13) pay period entitlement reduced for any pay period in which the employee is in pay status for at least fifty percent (50%) of the employee's allocated full time equivalent as specified in this Section 14.7 (Medical/Pregnancy Disability Leave). If the employee returns to medical or pregnancy disability leave without pay for the same condition, the thirteen (13) pay period time frame will continue where it left off and will be reduced only for those pay periods when the employee's pay status hours fall below fifty percent (50%) of the allocated full-time equivalent.

The County's thirteen (13) pay period Medical Leave without pay benefit entitlement shall run concurrent with Family Medical Leave Act (FMLA), California Family Rights Act (CFRA), and California Pregnancy Disability Leave (CPDL).

The employee's entitlement under COBRA law begins when the employee is no longer eligible for a county contribution toward medical benefits. When the employee returns to fifty percent (50%) allocated full time equivalent in pay status, eligibility for a county contribution toward health benefits is regained. Benefit coverage begins the first of the following month.

14.7.1 Health Benefits During Leaves of Absence – Non-Medical Leaves Without Pay

If an employee is on an unpaid absence or goes on leave without pay, either of which reduces the employee's time in pay status to less than fifty percent (50%) of the employee's allocated full-time equivalent (FTE) in a pay period, the County will cease to pay its normal benefit contributions.

The employee must pay the total benefit premium(s), if the employee desires to continue coverage. If an employee is on an unpaid absence or goes on leave without pay, either of which reduces the employee's time in pay status to not less than fifty percent (50%) of the employee's regular schedule in a pay period, the County will continue to pay its normal benefit contributions.

14.7.2 Continuation of Health Benefits Coverage (Revised 3-19-13)

An employee, who is entitled to continued benefit coverage as specified in Section 14.7 or 14.7.1, must notify the Auditor-Controller-Treasurer-Tax Collector’s office (ACTTC) no later than five (5) County business days after the first (1st) day of the leave of absence, of the employee's intent to continue insurance coverage.

A Request for Leave Without Pay form signed by the employee and his/her appointing authority shall be forwarded to the ACTTC’s office when leave is authorized. To assure continued insurance coverage, premiums shall be paid by the employee to the ACTTC’s office no later than the last day of the pay period or the date specified in the notice. If the employee fails to pay the premium by the last day of the pay period, he/she will receive one (1) reminder notice. In order to prevent a lapse in coverage due to non-payment, the employee shall pay a $25.00 late charge in addition to the premium amount due by the date specified in the reminder notice.

Only one (1) reminder notice will be sent. If the employee fails to make proper payment within 30 days of the first due date, the employee's medical, dental, vision, life insurance and Long-Term Disability coverage shall be terminated. Coverage will not be reinstated until the 1st of the month following return to pay status.

14.7.3 Part-Time Employees – Health Benefits During Leave of Absence

Part-time employees shall be eligible to participate in the medical benefit plans and/or the dental plans on a prorated basis, as defined in Section 14.2.6. For pay periods with no pay status hours, pro-ration shall be based on the employee's FTE. Part-time employees shall be entitled to participate in Long-Term Disability as specified in Section 14.5 (Long-Term Disability).

14.7.4 COBRA

The County provides continuation of health benefits at group rates plus 2% as required by the Consolidated Omnibus Budget Reconciliation Act (COBRA) of 1986, including any applicable subsequent amendments or revision where applicable.

14.8 Salary Enhancement Plans

All employees who belong to the retirement system shall have their wages adjusted according to Section 414(h)(2) of the Internal Revenue Code which has the effect of deferring Federal and State income taxes on the employee's retirement contributions.

IRS Section 125:

Premium Conversion {XE "Premium Conversion"}

The County shall continue under IRS Code Section 125 to administer a Health Care Premium conversion Plan that allows eligible employees to make their required contributions towards health premiums with pre-tax dollars through payroll deduction. The County will make no contribution to this plan, however, it will bear the cost of administering this benefit.

Health Flexible Spending Account {XE "Health Flexible Spending Account" }

The County provides a Health Flexible Spending Account (FSA) to enable eligible employees to set aside pre-tax dollars for reimbursement of employee's qualified medical expenses not reimbursed by the employee's health insurance plan and will be provided to the maximum amount stipulated in the Plan and consistent with law.

Dependent Care Assistance Program { XE "Dependent Care Assistance Program" }

The County provides a Dependent Care Assistance Program subject to the limitations and maximums as stipulated under law.

14.9 Benefits: Plan Documents and Other Controlling Documents

While mention may be made in this resolution of various provisions of benefit programs, specific details of benefits (including disputes and/or appeals) provided under County offered health plans shall be governed solely by the plan documents or insurance contracts and/or policies maintained by the County. The County will bear no responsibility for resolving disputes/appeals between an employee and a contracted health plan vendor. Within this section, vendor refers to insurance company, Knox-Keene organizations licensed in the state of California to provide health benefits, benefits administration, or network management.

14.10 Extra-Help Employees – Applicable Benefits

Only benefits required by law and the following sections of Section 14 apply to extra-help employees: sections 14.4 (Employee Assistance Program), 14.9 (Plan Documents and Other Controlling Documents), 14.6 (Workers' Comp-Claims Dispute), sections 14.11 through 14.17 (Extra-Help Employees – Medical Benefits).

14.11 Extra-Help Employees - Medical Benefits

(Amended 3/15/16)

Extra-help employees shall have access to a medical plan. The County will offer all available health plans, excluding the County EPO and County PPO plans, to eligible extra help employees and their eligible dependent(s) as is provided to regular employees as described in section 14.2.1.

14.12 Extra-Help Employees; Medical Benefits, Eligibility

(Amended 3/15/16)

Employees who meet the following criteria will be eligible to begin payroll deductions once both criteria are met:

- Must generally be scheduled to work at least forty (40) hours per pay period
- Worked at least eighty (80) hours in the previous two (2) pay periods.

14.13 Extra-Help Employees; Contribution Rates for Medical Plan

Effective with the first premium due, the County contribution shall be up to four hundred dollars ($400) per month.

Pro-ration shall be as follows:

1. For each pay period in which the extra-help employees work forty (40) or more hours, the full County contribution will be paid.
2. For each pay period in which the extra-help employee works more than twenty (20) but fewer than forty (40) hours, the above amounts shall be prorated in proportion to the number of hours worked in the pay period.
3. For each pay period in which the extra-help employee works fewer than twenty (20) hours, no County contribution will be made.
4. Premiums for the plan will be paid in advance on the first two pay dates of the month prior to the coverage effective date and on the first two pay dates of every month thereafter. When payment has been made in full, coverage will take effect on the first of the month following payment and shall end on the last day of the same month. Coverage will be month to month and is dependent on full payment of premiums and subject to continued eligibility.

The employee premiums shall be paid through pre-tax payroll deduction as allowed by IRS Code Section 125.

14.14 Extra-Help Employees: Continued Coverage and Conditions for Regaining Eligibility for Medical Plan

An extra-help employee who is enrolled in the medical plan who fails to work at least twenty (20) hours in any pay period in which a premium deduction was due, will be eligible to contribute toward the medical coverage by paying the full amount of the premiums by payroll deduction if sufficient funds are available to fully cover the deduction. Premium payments not paid by payroll deduction will be due in the ACTTC's Payroll Office by the last day of the pay period in which there were insufficient hours worked. A $25 late fee will apply for each payment not received by the due date.

Premium payments not paid by payroll deduction but paid directly to the ACTTC's Office may be continued for a maximum of three (3) months or upon the exhaustion of any approved CPDL, CFRA, or FMLA benefit period, whichever is later.

A. Employees who choose to pay timely premiums directly to the ACTTC's Office by cash or check without a lapse in coverage shall resume premium payment by payroll deduction on the first available pay date following their last cash premium payment without a lapse in coverage.
B. Employees who choose to lapse their coverage during a period of absence may do so by notifying the ACTTC's Payroll Office in writing no later than seven (7) days after the premium due date. Coverage will be lost for the months not paid. Premium payment by payroll deduction shall restart on the first pay date of a month with sufficient funds to cover the cost of premiums due and shall continue until discontinued by a written cancellation notice, non-payment of premiums, a temporary lapse in coverage in accordance with this section, or separation from employment. Coverage will not restart until a full month's premiums are paid in full.
C. Employees may choose to cancel their coverage by completing the appropriate forms.
D. Employees who fail to make any of the above elections or who fail to pay premiums when due shall receive one notice of payment due and shall have their coverage canceled for failure to respond.
E. The County reserves the right to cancel an employee's active coverage if the employee lapses coverage more than three (3) times, or a similar frequency that is determined to be an administrative burden.

Employees who choose option (C) or are canceled under item (D) or (E) must wait until the next annual enrollment period to re-enroll.

An employee who loses coverage under this section may be eligible to elect COBRA continuation of coverage if he or she is no longer eligible to pay premiums directly to the Auditor-Controller-Treasurer-Tax Collector's (ACTTC) payroll division. The failure to pay premiums or the election to lapse or cancel coverage are not COBRA qualifying events.

14.15 Extra-Help Employees: Medical Plan - Dependent Coverage

Covered employees may purchase dependent coverage for eligible dependents at their own expense through pre-tax payroll deduction as allowed by IRS Code Section 125.

14.16 Extra-Help Employees: Enrollment in Medical Plan

Approximately two (2) months prior to the anticipated eligibility date, the County shall provide enrollment materials to the employee. The employee then has twenty one (21) calendar days to complete and submit the enrollment forms. If coverage is waived upon initial eligibility, election to participate in the medical plan can only be made during an annual open enrollment period designated by the County or as required by law.

14.17 Extra-Help Employees: Medical Benefits & Family and Medical Leave Act (FMLA), California Family Rights Act (CFRA), or California Pregnancy Disability Leave (CPDL)

Eligible extra-help employees who are off work on an FMLA or CFRA or CPDL qualifying leave shall receive a County contribution toward medical insurance equal to the average amount received in the two (2) pay periods immediately preceding the first (1st) pay period of eligible leave. Employees must pay their share of the medical insurance premiums in order to maintain coverage and to continue to be eligible for a County contribution. Employees must file an Extra-Help FMLA/ CFRA/CPDL Request for Leave form along with appropriate medical documentation with their department. Upon approval, the leave form signed by the employee and his/her appointing authority shall be forwarded to the ACTTC's office.

An employee who is eligible for this continued benefit shall notify the ACTTC's payroll division of the employee's intent to continue insurance coverage no later than five (5) County business days after the first day of the leave.

To ensure continued insurance coverage, premiums shall be paid by the employee to the ACTTC's office no later than the last day of the pay period for which premiums were due. If the employee fails to pay the premium by the last day of the pay period, he/she will receive one (1) reminder notice. In order to prevent a lapse in coverage due to non-payment, the employee shall pay a $25.00 late charge in addition to the premium amount by the date specified in the reminder notice. Only one (1) reminder notice will be sent. If the employee fails to make proper payment within 30 days of the first due date, the employee's continued medical insurance shall be terminated.

SECTION 15 - MEDICAL BENEFITS FOR RETIREES

15.1 Retiree Medical Coverage (Amended 3/17/09, 12/11/18)

~~A. An eligible retiree and eligible dependents may enroll in a County offered medical plan through May 31, 2009, as described in sections 15.2 and 15.3.~~

B. ~~Effective June 1, 2009, a~~An eligible retiree and eligible dependent(s) (as defined below), may but are not required to enroll ~~be enrolled~~ in a County offered medical plan~~, as described in section 16.4~~ ~~but is~~Retirees who elect to enroll in a County offered medical are allowed only to enroll either as a subscriber in a County offered medical plan or, as the dependent spouse/~~domestic partner~~registered domestic partner of another eligible County employee/retiree, but not both. If an employee/retiree is also eligible to cover their dependent child/children, each child will be allowed to enroll as a dependent on only one employee or retirees' plan (i.e., a retiree and his or her dependents cannot be covered by more than one County offered plan).

An eligible dependent is[1]:

- Either the retiree's spouse or registered domestic partner as documented by a

---

[1] As defined in each plan document/summary plan description.

Declaration of Domestic Partnership filed with the State of California, as defined in California Family code section 297, t. seg.(~~requires signed domestic partner affidavit filed with the County);~~ or

- An unmarried child ~~based on your plan's age limits~~up to age 26, or a disabled dependent child regardless of age.

C. An eligible retiree must enroll in a County offered retiree medical plan at the time of retirement unless the retiree waives medical insurance coverage and/or the retiree's eligible dependent(s) by completing a retiree waiver form. A retiree who waives medical coverage will be allowed to re-enroll themselves and any eligible dependent(s), upon the following conditions being met:

1) The retiree must re-enroll within 30 days of losing other insurance coverage and provide the County with evidence of such loss of other coverage, or,

2) At the latest, the retiree must re-enroll, or lose eligibility to receive a County contribution toward the retiree medical plan, no later than 60 days after the effective date of the retiree's Medicare coverage.

3) The retiree's re-enrollment is required in order for any eligible dependent(s) to be enrolled in a County offered medical plan, except as follows in #4 below.

4) The retiree may add an eligible dependent spouse or registered domestic partner at a time later than the date the retiree enrolls as provided in section Article 15.1 B above.

5) Eligible dependent children must be enrolled at the time the retiree elects coverage.

15.2 ~~County Contribution toward Retiree Medical Plans – Employees Hired Before January 1, 1990 Through May 31, 2009 retiree medical benefits are as follows:~~

~~A. Eligibility~~

~~1. Regular employees hired before January 1, 1990 are eligible to receive a County contribution toward the cost of a County offered medical plan for the eligible retiree and their eligible dependent(s), if they:~~

~~a. Have been continuously employed since December 31, 1989 without a break in service before retirement, and~~

~~b. Have been a contributing member (or a contribution was made on their behalf) of the Sonoma County Employees' Retirement Association (SCERA) since December 31, 1989, and~~

~~c. Retire directly from County service, except elected department heads who, having met the eligibility requirement as stated, and if the member's term of office involuntarily ceases prior to the earliest date of eligibility for retirement the elected department head may defer election to receive such benefits until the first day of eligibility to receive a benefit from the Sonoma County Retirement System.~~

~~2. Laid Off & Restored Employees. Employees who were employed by the County prior to Jan. 1, 1990, but who were laid off thereafter shall not be subject to the restrictions~~

~~of Article 15.2 provided that they are subsequently restored to County employment, rejoin the County retirement system, and are otherwise eligible for retiree medical benefits under this section.~~

~~B. County Contribution. The County will continue to contribute toward the cost of a County offered medical plan for any eligible retiree and their eligible dependent(s), the same dollar amount as it contributes toward the cost of a County offered medical plan for active unrepresented Administrative Management employees (bargaining unit 50). The retiree is responsible for all costs that exceed the total County contribution.~~

~~15.3 County Contribution toward Retiree Medical Plans – Employees Hired On or After January 1, 1990 but Before January 1, 2009~~

~~Through May 31, 2009 retiree medical benefits are as follows:~~

~~A. Eligibility~~

~~1) 10 or More Years of Service. Regular employees hired or rehired after January 1, 1990 but before January 1, 2009, are eligible to receive a County contribution toward the cost of a County offered medical plan for the eligible retiree only, if they:~~

~~a. Have been employed by the County for a period of at least ten (10) years (consecutive or non-consecutive), which may include service with the County prior to January 1, 1990, and~~

~~b. Have been a contributing member (or a contribution was made on their behalf) of the Sonoma County Employees' Retirement Association (SCERA) for the same length of time, and~~

~~c. Retire directly from County service, except elected department heads who, having met the eligibility requirement as stated, and if the member's term of office involuntarily ceases prior to the earliest date of eligibility for retirement the elected department head may defer election to receive such benefits until the first day of eligibility to receive a benefit from the Sonoma County Retirement System~~

~~2) 20 or More Years of Service. Regular employees hired or rehired after January 1, 1990 but before January 1, 2009, are eligible to receive a County contribution toward the cost of a County offered medical plan for the eligible retiree plus one eligible dependent, if they:~~

~~a. Have been employed by the County for a period of at least twenty (20) years (consecutive or non-consecutive), which may include service with the County prior to January 1, 1990, and~~

~~b. Have been a contributing member (or a contribution was made on their behalf) of the Sonoma County Employees' Retirement Association (SCERA) for the same length of time, and~~

~~c. Retire directly from County service, except elected department heads who, having met the eligibility requirement as stated, and if the member's term of office~~

~~involuntarily ceases prior to the earliest date of eligibility for retirement the elected department head may defer election to receive such benefits until the first day of eligibility to receive a benefit from the Sonoma County Retirement System.~~

~~3) Effective December 10, 2002, the County shall continue to contribute to the cost of a County sponsored medical plan for an eligible Department Head and his or her spouse, domestic partner~~registered domestic partner ~~and/or eligible dependents, following the Department Head's service retirement from the County of Sonoma, provided the Department Head has at least ten (10) years of Sonoma County service at the time of retirement.~~

~~B. County Contribution. The County will continue to contribute toward the cost of a County offered medical plan for any eligible retiree and any eligible dependent, in the same dollar amount as it contributes toward the cost of a County offered medical plan for active Unrepresented Administrative Management employees (employee group 0050). The retiree is responsible for all costs that exceed the total County contribution.~~

~~C. Additional Dependents. Retirees eligible under this section may enroll eligible dependent(s) in the County offered medical plan elected by the retiree, but the retiree is responsible for all premium costs in excess of the County's contribution.~~

15.4 County Contribution toward Retiree Medical Plans - Employees Hired Before January 1, 2009 and Retired On or After July 1, 2016 (Amended 7/12/11, 12/11/18)

~~Effective June 1, 2009, the existing retiree medical benefits described in Sections 15.2 and 15.3 shall be replaced with this Section~~

A. Eligibility. ~~Following the phase-in period described in 15.4(D), in order t~~To be eligible for this benefit, the retiree must have:

1) Completed at least 10 years of consecutive regular full-time paid County of Sonoma service employment. The equivalent worked or purchased regular part-time County service time can be counted toward the 10 years. However, any miscellaneous purchased service time such as extra help, contract, and leave of absence service time does not count toward this eligibility requirement, and

2) Have been a contributing member of the Sonoma County Employees' Retirement Association (SCERA) for the same time period, and

3) Retire directly from County service

4) ~~Current retirees receiving a County contribution for retiree medical based on eligibility at the time of their retirement who do not meet the 10 year requirement as listed above are grandfathered in at the eligibility at the time of their retirement~~.

5) Laid-Off & Restored Employees (Amended 7/12/11): Employees who were employed by the County prior to January 1, 2009, but who were laid off thereafter shall be eligible

for the benefits described in this Article 15.4 provided that they are subsequently restored to County employment, pursuant to Civil Service Rule 11.4, rejoin the County retirement system, and are otherwise eligible for retiree medical benefits under this section. The break in service caused by the layoff shall be bridged upon restoration such that, although no service time is earned during the break, consecutive service is restored for eligibility for this benefit. To the extent allowed by law they shall not be eligible for the benefits described in Article 15.6 (County Contribution toward Retiree Medical Plans - Employees Hired On or After January 1, 2009 - Effective January 1, 2009).

B. County Contribution. The County shall contribute toward the cost of County offered medical plans for any eligible retiree whether or not the retiree covers eligible dependent(s), ~~the same dollar amount~~ up to $500 a month. The County's contribution amount is subject to change at any time by amendment to this resolution by the County Board of Supervisors. ~~as it contributes toward the cost of County offered medical plans for active Unrepresented Administrative Management employees (employee group 0050).~~

C. Additional Dependents. Retirees eligible under this section may enroll eligible dependent(s) in the County offered medical plan elected by the retiree but the retiree is responsible for all premium costs in excess of the County's contribution.

~~D. The contribution provided for in 15.4(B) above, shall be the total dollar County contribution for retiree medical benefits for any eligible retired employee hired before January 1, 2009, and their eligible dependents, except as provided for below. The eligibility to receive this benefit shall be as described in 15.4, but for the phase-in periods listed below, the eligibility shall remain unchanged from 15.2(A) and 15.3(A)~~

~~1. Effective for the period of June 1, 2009 to May 31, 2010 only, in addition to the amount specified in 15.4 B above, the County shall contribute the additional monthly dollar contributions as specified below:~~

	~~Additional County Contribution~~

~~5. Effective June 1, 2013 15.4 D shall become inoperative and obsolete.~~

15.5 Medicare Part B Reimbursement

The County's reimbursement of the retiree's Medicare Part B premium will continue for those hired before January 1, 2009. Effective January 1, 2009, the amount will be frozen at the 2008 rate of $96.40. This reimbursement is in addition to the County's contribution for the retiree's medical plan premium as described above.

15.6 County Contribution toward Retiree Medical Plans - Employees Hired On or After January 1, 2009 - Effective January 1, 2009 (Amended 7/12/11)

For employees hired on or after January 1, 2009, the County shall contribute to a Defined Contribution retiree medical benefit plan for each eligible employee in the form of a deposit into Health Reimbursement Arrangement (HRA) account, as described below. Any eligible retiree and eligible dependent(s), as defined below, may enroll in a County offered medical plan, but the retiree is responsible for all costs (including County offered retiree medical plan and Medicare Part B premiums).

A. Eligibility

1) An employee must have been a contributing member (or a contribution was made on their behalf) of the Sonoma County Employees' Retirement Association (SCERA) for the eligibility period described below.

2) Regular full-time employees and part-time employees in an allocated position of .5 full-time equivalent or greater, hired on or after January 1, 2009 are eligible to receive a County HRA contribution, if they have completed two (2) full years of consecutive Sonoma County regular service (excluding overtime) in pay status.

3) If an employee separates employment before meeting the eligibility requirement, the employee shall receive no benefit.

4) Laid-Off & Restored Employees. Employees who were employed by the County on or after January 1, 2009, but who were laid off thereafter shall be eligible for the benefits described in this Article 15.6 provided that they are subsequently restored to County employment, pursuant to Civil Service Rule 11.4, rejoin the County retirement system, and are otherwise eligible for retiree medical benefits under this section. The break in service caused by the layoff shall be bridged upon restoration such that, although no service time is earned during the break, consecutive service is restored for eligibility for this benefit.

B. County Contribution.

1) Initial County Contribution:

   a. On the first pay date following completion of the eligibility requirements, regular full-time employees shall receive a lump sum contribution of $2,400 deposited into an HRA account established in their name.

   b. The lump sum contribution amount for regular part-time employees shall be pro-rated based on their allocated position only (e.g., a regular employee in a 0.5 full-time equivalent allocated position will receive a lump sum contribution of $1,200 deposited into their HRA account).

2) Regular County Contribution:

   After the initial contribution (defined above) is made, the County shall contribute $.58 per pay status hour, not including overtime, for each eligible employee. For a full time employee, this equates to approximately $100 per month or $1,200 per year, after the initial eligibility period is met.

3) Access to Account Balance:

   a. Participants may access the balance in their HRA account at age 50 or upon retirement from the Sonoma County Retirement System, whichever is earlier.

   b. Participants may defer accessing the account balance to any time beyond the earliest date described in (a).

   c. Amounts that remain in the account balance are available to reimburse the participant for the same permitted medical expenses for the spouse and any other dependent covered under the retiree medical plan, however, federal regulations do not permit the inclusion of expenses for registered domestic partners.

4) Survivors of eligible retirees with account balances:

   a. Spouses and eligible dependent children or dependent adults that are disabled may continue to access account balances after the death of the retiree.

   b. Registered d~~D~~omestic partners are not permitted access to the account balances of the participant by virtue of restriction in the federal regulations that govern these types of accounts

5) Forfeiture of account balance:

   a. If an active employee dies prior to retirement, the amount of account balance is available to participating spouses and dependents to reimburse them for medical expenses permitted under the relevant section of the Internal Revenue code.

   b. Account balances in part or in total for active participants or retirees without any eligible spouse or dependent or unused account balances after the death of the last eligible spouse or dependent will be forfeited and returned to all other active and retired participants in the form of a dividend allocated in direct proportion to the amount to be distributed divided by the total account balance for all participants applied to each individual account balance. These distributions will occur within 120 days after the annual certified audit of the plan is submitted to the administrator and the County.

This benefit will be subject to regulation under section 105(b) of the Internal Revenue Code and subject to revenue rulings for these types of plans as promulgated.

~~15.7 Surviving Dependent – County Contribution through May 31, 2009 for Employees Hired Before January 1, 2009~~

~~Upon the death of a retiree enrolled in a County offered retiree medical plan, the County will continue to pay the County's contribution toward the medical plan premium costs for one eligible surviving dependent who is already receiving the County contribution for their medical insurance.~~

~~One eligible surviving dependent will be allowed to continue their coverage under the same circumstances and with the same County contribution as if the retiree had survived. To be eligible, a surviving dependent must meet each of the following criteria:~~

1. ~~Have been eligible to receive a contribution toward a County offered retiree medical plan under Sections 15.2, 15.3, prior to the death of the retiree, and~~
2. ~~Either be enrolled or have waived coverage at the time of the retiree's death.~~

~~Any additional surviving eligible dependent(s) enrolled under the retiree's medical plan at the time of the retiree's death, may continue participation in the County offered medical plan but remain responsible for all premium costs in excess of the County's contribution.~~

15.8 Surviving Dependent – County Contribution beginning June 1, 2009 for Employees Hired Before January 1, 2009

Upon the death of a retiree enrolled in a County offered retiree medical plan, the County will continue to pay the County's contribution toward the medical plan premium costs in the same manner as if the retiree had survived.

An eligible surviving dependent will be allowed to continue their coverage under the same circumstances and with the same County contribution as if the retiree had survived. To be eligible, a surviving dependent must meet each of the following criteria:

1. Have been an eligible dependent of a retiree who was eligible to receive a contribution toward a County offered retiree medical plan under Sections 16.4. prior to the death of the retiree, and
2. Either be enrolled or have waived coverage at the time of the retiree's death.

Any additional surviving eligible dependent(s) enrolled under the retiree's medical plan at the time of the retiree's death, may continue participation in the County offered medical plan but remain responsible for all premium costs in excess of the County contribution.

15.9 Health Reimbursement Account - Surviving Dependent – County Contribution for Employees Hired On or After January 1, 2009

Upon the death of a retiree enrolled in the Defined Contribution retiree medical benefit plan (as defined in Section 15.6), an eligible surviving dependent may continue participation in the County offered medical plan but remains responsible for all costs (including premiums).

To be eligible, a surviving dependent must either be enrolled or have a waiver on file with the County, at the time of the retiree's death.

This benefit will be subject to regulation under section 105(b) of the Internal Revenue Code and subject to revenue rulings for these types of plans as promulgated.

15.10 Dental and Vision Benefits for Elected Department Head Retirees

Effective for those retiring on/after December 10, 2002, an elected Department Head who has served a minimum of (8) years of Sonoma County service shall be eligible for dental and vision benefits for the retiree and any eligible dependents under the same circumstances and upon the same conditions that apply to his/her eligibility to receive medical benefits in effect just prior to retirement, and after a service retirement from their respective office, except that having met the eligibility requirement as stated and if the member's term of office involuntarily ceases prior to the earliest date of eligibility for retirement the elected department head may defer election to receive such benefits until the first day of eligibility to receive a benefit from the Sonoma County Retirement System.

SECTION 16 - MEALS AND LODGING

16.1 Probation and Sheriff's Departments

Employees of the Probation Department and the Sheriff's Department may, at the direction of the appropriate appointing authority, receive lodging and/or meals at County expense while on duty at any of the detention facilities.

16.2 Emergency

An appointing authority may arrange for meals to be provided at County expense to employees who are required to be kept on duty for prolonged periods of time or for emergency situations.

16.3 Sonoma County Fairgrounds

The appointing authority may prescribe that the duties of employees of the Sonoma County Fairgrounds include work with special events held at the Fairgrounds and periodic inspection of the Fairgrounds during the day and night. Such employees who are assigned and regularly perform such duties, may be provided by the appointing authority, to the extent that such facilities are available, temporary quarters at the Fairgrounds for the occupancy of themselves and their immediate families.

16.4 Excluded from Rate of Pay

The cost of this meal and lodging benefit shall not be added to the employee's base hourly rate in computing the employee's regular rate of pay so long as similar employees in represented positions have had this benefit excluded from their regular rate of pay under the terms of a bona fide Memorandum of Understanding.

SECTION 17 - SABBATICAL LEAVE

17.1 Requirements

An appointing authority, within his/her sole discretion, may allow an Unrepresented Administrative Management employee a sabbatical leave from the employee's position with the County for a period not to exceed six (6) calendar months. Prior to commencing the leave, the employee must have served the equivalent of seven (7) years of full-time service in pay status in a position or positions designated by the County as Administrative Management. Each subsequent sabbatical leave shall require the equivalent of an additional seven (7) years of similar service. Any unpaid absence from work which lasted longer than two (2) full pay periods shall not be counted in the qualifying period.

17.2 Approval

An Unrepresented Administrative Management employee must apply for the sabbatical leave in writing to the employee's appointing authority who shall respond to the request in writing by either approving or disapproving the leave. The decision of the appointing authority is final, non-appealable, and non-grievable under any County policy, resolution or rule.

17.3 Continuation of Benefits

During the sabbatical leave and notwithstanding any other section of this Resolution, the employee shall not receive any regular salary or pay; however, the County shall continue to make its normal contributions for the employee's and their eligible dependents' health, dental, vision care, life, long-term disability benefits, and any other such health and welfare benefits as may be granted Unrepresented Administrative Management employees in the future, as were paid at the commencement of the leave. The employee shall make appropriate payments acceptable to the Auditor-Controller-Treasurer-Tax Collector in order to continue coverage during the period of the sabbatical leave.

17.4 Elected County Officials

Elected County officials are not eligible to apply for, nor take, a sabbatical leave under this Section.

SECTION 18 - OTHER COMPENSATION

(Amended 3/19/13, 6/14/16, 7/10/18)

18.1 Fees

County officers and employees who may collect fees and/or other monies on behalf of the County may retain such fees only when specifically authorized by this Resolution or other resolution of the Board of Supervisors.

18.2 Hourly Cash Allowance

(Amended 9/16/08)

The County shall pay each permanent full- and part-time employee, in addition to their hourly regular earning rate from the salary schedule, a cash allowance of three dollars and forty five cents ($3.45) per pay status hour that the employee is in paid status excluding overtime, up to a maximum of eighty (80) hours in a pay period (or approximately a maximum of six hundred dollars ($600.00) per month). Such hourly cash allowance is compensation for services rendered in that pay period and shall be taken into account for purposes of computing employees' final compensation for pension purposes, as well as all usual taxation as their regular earning rate from the salary schedule. It shall not be included on the salary schedule and shall not be impacted by future increases in the salary schedule. It is not intended as a supplement toward medical, dental, or any other insurance or benefit.

18.3 One-time, Lump-Sum, Non-Recurring And Pensionable Payments
(Amended 3/15/16, 6/14/16, 7/10/18)

18.3.1 Each regular, full-time, active employee in Confidential and Unrepresented units in paid status as of July 30, 2018, shall receive a one-time, lump sum, non-recurring, and -pensionable payment in the amount of two-thousand, one-hundred, seventy dollars ($2,170).

The above amount shall be prorated for eligible part-time employees base on allocated FTE.

The one-time payment will be subject to all applicable federal, state and local tax withholdings. The payments will not be included in wages for computations of overtime, and benefits or for any other purpose.

18.3.2 Each regular, full-time, active Administrative Management, and Appointed and Elected Department Head employee in paid status as of July 30,2018, shall receive a one-time, lump sum, non-recurring, -pensionable payment in the amount of three thousand, one hundred, fifty-four dollars ($3,154) on August 8,2018.

The above amount shall be prorated for eligible part time Based on allocated FTE.

The one-time payment will be subject to all applicable federal, state and local tax withholdings. The payments will not be included in wages for computations of overtime, and benefits or for any other purpose.

18.4 Status Quo Preservation Allowance (Amended 12/11/2018)

Each regular, full-time, Administrative Management, Appointed and Elected Department Head employee, and the Board of Supervisors, effective starting the pay date on July 25, 2018, ~~for a term of 26 pay periods,~~ ending ~~July 10, 2019~~with the last payment on the paydate of January 23, 2019, shall receive a bi-weekly Status Quo Preservation Allowance in the amount of $342 for each pay period with hours in a paid status. The allowance will be pro-rated based on allocated FTE for part-time employees.

This allowance will be subject to all applicable federal, state, and local tax withholdings. The payment will not be included in wages for computations of overtime and benefits. This payment will be pensionable for employees hired before January 1, 2013, and for those who qualify as determined by Sonoma County Employee Retirement Association due to reciprocity, and non-pensionable for employees hired on or after January 1, 2013.

SECTION 19- HOURS OF WORK
(Amended 3/19/13, 7/10/18)

19.1 Hours of Work – Purpose of this Section

Section 19 is intended only as a basis for outlining standards for hours of work, work schedules and a basis for calculating overtime payment.

19.2 Types of Employment

a. Full-Time: Allocated positions which are regularly scheduled to work eighty (80) hours in a bi-weekly pay period.
b. Part-Time: An allocated position which is regularly scheduled to work less than eighty (80) hours in a bi-weekly pay period.
c. Extra-Help: A non-allocated assignment of duties which is defined in the Civil Service Rules.

19.3 Work Schedules – Flex-Time And Alternative

The County Work Schedules include 5.8, 4/10 and 9/8/1 and flex-time. The appointing authority shall establish and modify work schedules for all employees.

19.3.1 Schedule - Flex-Time Schedule

A Flex-Time work schedule is a non-regular work schedule with or without a consistent pattern as to the number of work hours per day or week, but an arrangement whereby the employee is obliged to perform work and be responsible for flexing the hours of his/her own work schedule in accordance with a written agreement between the employee and the appointing authority.

Employees may request and department heads may utilize flex-time schedules whenever such schedules will be beneficial to the County and will not incur overtime beyond the County's usual and customary overtime needs under the employee's regular work schedule. An employee and the County must agree to and complete a written agreement specifying the work week, scheduled days of the week, and hours to be regularly worked for the flex-time assignment.

The appointing authority may assign an employee to a flex-time schedule; if so assigned, an exempt Unrepresented employee or an exempt Unrepresented Confidential employee will be eligible for overtime only when the hours worked exceed eighty (80) hours in a pay period.

Non-exempt employees assigned to a flex-time schedule will be eligible for compensation for overtime when required by law or when the employee's pay status hours exceed forty (40) in the employee's regular seven (7) day work period. The appointing authority may discontinue the flex-time schedule and reassign an employee to a normal daily work schedule.

If an Unrepresented Confidential or Unrepresented employee requests in writing a change in schedule for the employee's own convenience and the appointing authority grants the request, the employee shall waive overtime as long as the total number of hours does not exceed eighty (80) in any one pay period. Statutory overtime cannot be waived.

Employees in Unrepresented Administrative Management positions shall work any and all hours necessary in the performance of their assigned duties, without overtime and without regard to fixed work schedules.

19.3.2 Schedule - Alternative Work Schedules

An Alternative Work Schedule is a regular fixed schedule that is other than the standard 5/8 schedule (eight hours per day, five days per week). Examples include a 4/10 schedule (ten hours per day, four days per week) or a 9/8/1 schedule (eight, nine hour days and one eight hour day with one day off in a biweekly pay period). Such alternatives are offered to allow workable schedules for employer and employee and must not create overtime as required under any sections of this Resolution, or as required by law.

Employees may request and department heads may utilize alternative work schedules whenever such schedules will be beneficial to the County and will not incur overtime beyond the County's usual and customary overtime needs under the employee's regular work schedule. An employee and the County must agree to and complete a written agreement specifying the work week scheduled days of the week, and hours to be regularly worked for the alternative work schedule. Non-exempt employees assigned to an alternative work schedule will be eligible for overtime compensation when the employee performs any authorized work in excess of forty (40) hours in a work week. The County reserves the right to discontinue the alternative work schedule and reassign an employee to a normal daily work schedule based on the operation needs of the department.

19.3.3 Schedule – Incidental Flex Time

An Unrepresented Confidential or Unrepresented employee may request, and a supervisor may approve, incidental flex time in which an employee works variable work hours with corresponding flex hours off. All requests and approvals shall be in writing. Non-exempt employees must take all flex hours off within the forty (40) hour work week in which the variable hours are worked, and exempt employees must take all flex hours off within the eighty (80) hour pay period in which the variable hours are worked. Employees who participate in an incidental flex time arrangement shall waive daily overtime for time designated as flex time worked.

19.4 Schedule – Notice Required for Change in Work

A. Except in cases where emergency operations require, a notice of a change in work schedule arising from other than transfer or promotion, notice shall be given to the affected Unrepresented Confidential or Unrepresented employee not less than seven (7) calendar days prior to the effective date of the change.

B. If the County fails to give the seven (7) day notice to a full-time employee, the County shall pay the affected employee compensation equaling one and one-half (1-1/2) times the employee's base hourly rate for all hours actually worked on the new regular work schedule until seven (7) calendar days notice is given. However, for each such hour worked that constitutes statutory overtime as defined in Section 20.3, compensation shall be based on the FLSA defined regular rate of pay.

C. If any full-time employee other than Unrepresented Administrative Management has been given seven (7) calendar days advance notice of a shift change and the shift change results in the employee doubling back to work the new shift after leaving the work site, all hours worked on the new shift within the employee's same work day as the former shift will be paid at the employee's base hourly rate, not at overtime, except as otherwise required by law.

D. Part-Time employees shall not be paid at one-and-one-half (1-1/2) for changes in schedule unless it results in overtime due and payable under Sections 20.1, 20.2, or 20.3 of this Resolution.

19.5 Schedule – Employee Request for Change in Work

An employee may submit to the County a written request for a schedule change. The County shall not approve an employee's request for a schedule change if the schedule would result in overtime being built into the schedule.

19.6 Schedule – Voluntary Exchanges of Work

Voluntary schedule exchanges shall comply with department policy, shall be within the same or related work unit, and shall involve employees with comparable ability in a comparable classification. Each employee involved in an exchange shall notify the employee's supervisor. Employees who voluntarily exchanges schedules shall not be paid for overtime resulting from this voluntary schedule change.

19.7 Rest Periods

The County shall grant rest breaks to Unrepresented and Unrepresented Confidential employees, except where unusual operational demands prevent a rest break. Rest breaks will not be unreasonably or consistently denied. Rest periods shall not exceed fifteen (15) minutes in any four (4) consecutive hours of work and shall be considered as time worked.

19.8 Meal Period -Duty-Free

Employees shall be granted a duty-free meal period during each work shift which exceeds six (6) consecutive hours. The duration of the meal period may be not less than thirty (30) minutes nor greater than sixty (60) minutes and will be scheduled as near to the middle of the work shift as reasonably possible.

Different meal periods may be assigned to different work units in the same County department or division. Duty-free meal periods shall not be considered as time worked.

19.9 Meal Period - Non-Duty-Free

In those special circumstances where the County determines a duty-free meal period is not appropriate with the delivery of efficient and productive services to the public, as determined by the appointing authority, the employee shall be assigned to a non duty-free meal period which shall be considered time worked. If the County plans to take action under this subsection, the department shall give the affected employee(s) advance written notice and provide an opportunity for the affected employee(s) to discuss the issue with the County before final action is taken.

SECTION 20- OVERTIME AND COMPENSATORY TIME
(Amended 3/19/13, 7/10/18)

20.1 Overtime – FLSA

Fair Labor Standards Act (FLSA) Overtime shall be defined as hours actually worked in excess of forty (40) hours in a workweek. For the purpose of calculating overtime hours under this section, the County shall not include any paid time off (for example, sick leave, vacation, and holidays.) Applying FLSA legal standards, the County shall compensate an employee for overtime at the rate of one and one-half (1.5) times the employee's base hourly rate of pay.

If an employee's regular workday extends beyond 12 hours, the County shall pay the employee double time for the hours worked beyond 12 hours. Overtime for the non-exempt employee is divided into statutory overtime and non-statutory overtime. Statutory overtime is all overtime required by the Fair Labor Standards Act. For the regular non-exempt employee it is defined as all hours worked in excess of forty (40) hours in a regular seven (7) day work period; or, for employees with a 7(j) exemption, it is all hours worked in excess of eight (8) in a regular work day or all hours worked in excess of eighty (80) in a regular fourteen (14) day work period. For law enforcement employees with a 7(k) exemption, it is all hours worked in excess of eighty-six (86) in a regular fourteen (14) day work period. For fire-fighting employees with a 7(k) exemption, it is all hours worked in excess of two hundred and twelve (212) in a regular twenty-eight (28) day work period.

20.2 Overtime – FLSA Overtime Not Cumulative

FLSA Overtime shall not be compounded, pyramided or cumulative. The County shall not pay an employee for compounded, pyramided, or cumulative overtime compensation even though more than one of the conditions or eligibility standards described this Section may apply to a particular unit of time.

20.3 Overtime -Non-Statutory - Non-Exempt Employee

Non-statutory overtime for non-exempt employees is defined as hours in pay status in excess of forty (40) hours in a seven (7) day work period or eighty (80) hours in a fourteen (14) day work period; or hours in pay status in excess of the normal full-time daily work schedule established by the County (in excess of eight (8) hours for the 5/8 schedule, nine (9) hours for the 9/8/1 schedule, or ten (10) hours for the 4/10 schedule and other full-time daily work schedules that may be prescribed by the County); or any other circumstance except Section 20.1 (Overtime – FLSA) where overtime pay is provided for non-exempt employees elsewhere in this Resolution. Overtime is also defined as hours actually worked on the seventh (7th) consecutive full (8, 9 or 10 hour) day and any consecutive full (8, 9 or 10 hour) days worked thereafter; however, individual employees may waive such overtime.

20.4 Overtime -Non-Statutory - Exempt Employees

Non-statutory overtime for exempt employees is defined as hours in pay status in excess of eighty (80) hours in a pay period; or hours in pay status in excess of the normal full-time daily work schedule established by the County on a regular work day (in excess of eight (8) hours for the 5/8 schedule, nine (9) hours for the 9/8/1 schedule, ten (10) hours for the 4/10 schedule and other full-time daily work schedules that may be prescribed by the appointing authority); or any other circumstance where overtime pay is provided for exempt employees elsewhere in this Resolution. Overtime is also defined as hours actually worked on the seventh (7th) consecutive full (8, 9 or 10 hour) day and any consecutive full (8, 9 or 10 hour) days worked thereafter; however, individual employees may waive such overtime.

20.5 Overtime –Assignment of

A. An appointing authority may require and authorize an employee to work overtime if such overtime is essential to the continuing efficient operation of the department in which the employee works.

B. No employee other than an Unrepresented Administrative Management employee shall work overtime unless authorized by the employee's appointing authority.

C. Except in an emergency, no employee other than an Unrepresented Administrative Management employee shall be required to work in excess of sixteen (16) hours in any 24-hour period.

20.6 Overtime - Earned

Except as described within sections 20.14 (Overtime In a Board-Designated Emergency) and 20.15 (Overtime for Exempt Emergency Services Managers), all overtime shall be earned at the rate of one and one-half (1-1/2) hours for each one (1) overtime hour worked through the twelfth (12th) consecutive hour, and after the twelfth (12th) consecutive hour, overtime shall be earned at the rate of two (2) hours for each one (1) overtime hour worked. Overtime compensation for non-exempt employees will be payable with compensation for the pay period in which the regular work weekends or later as permissible by law.

20.7 Overtime - Compensation for Exempt Employees

Exempt employees shall be compensated for accrued overtime either in cash at the employee's base hourly rate or as compensatory time off.

20.8 Overtime - Compensation for Non-Exempt Employees

Non-exempt employees shall be compensated for overtime earned either in cash or as compensatory time off. Statutory overtime shall be compensated in accordance with law utilizing all permissive credits. Non-statutory overtime earned shall be compensated either in cash at the employee's base hourly rate or as compensatory time off.

20.9 Compensatory Time Off (CTO) - Employee Choice

(Amended 10/21/14, 7/10/18)

The employee assigned to overtime and eligible for compensatory time off (CTO) shall make an irrevocable choice each time such overtime is worked whether to be compensated in cash at one and one-half (1.5) times the base hourly rate or in compensatory time off until a maximum of one hundred twenty (120) hours of compensatory time have been accrued.

20.10 Compensatory Time Off (CTO) - Cash Out

At no time, other than separation, shall an employee with a CTO balance greater than 0.1 hours voluntarily or involuntarily "cash out" compensatory time that has been accrued. Balances of less than 0.1 hours shall be paid in cash at the base hourly rate at the end of March each year.

20.11 Compensatory Time Off (CTO) - Cash Pay Only

When one hundred twenty (120) hours of compensatory time are accumulated, the department will compensate the employee in cash at one and one-half (1.5) times the base hourly rate for any additional overtime worked.

20.12 Compensatory Time Off (CTO) -Authorization for Use

No employee shall take compensatory time off without prior approval of the employee's appointing authority. The appointing authority shall attempt to schedule such time off at the time agreeable to the employee.

20.13 Compensatory Time Off - Payment at Separation

Each employee who is separated from County service shall be entitled to payment for accrued compensatory time at the employee's base hourly rate at the time of the employee's separation or as otherwise required by law.

20.14 Overtime In a Board-Designated Emergency

Unrepresented Administrative Management employees shall be eligible for straight-time overtime when working beyond forty (40) hours in a week due to a Board of Supervisors' declared emergency. Such straight-time overtime may be paid in cash upon authorization of the Board of Supervisors. Under no circumstances, except for Emergency Services as detailed in Section 20.15, shall an employee designated as Unrepresented Administrative Management be paid or be compensated in any manner for overtime except under such conditions as may be set forth by the Board of Supervisors.

20.15 Overtime for Exempt Emergency Services Managers

The Emergency Services Manager exempt classifications listed below will be eligible for straight-time overtime for qualifying mutual aid events in excess of twelve (12) hours only if the County is entitled to reimbursement for that employee’s time from a third party. Such overtime will be paid at the Department Head’s discretion only after the County has received either advance approval for the reimbursement, or the reimbursement itself.

Overtime For Exempt Emergency Services Managers

Job Class No.	Job Class Title
0780	Emergency Services Coordinator
0784	Emergency Services Information Officer
0786	Emergency Services Operation Officer
4518	Fire Marshall
4516	Fire Services Officer

SECTION 21 – HOLIDAYS
(Amended 3/19/13, 7/10/18)

21.1 Holidays – Paid

(Amended 3/19/13)

The County shall provide full-time and part-time County employees the following paid holidays provide that the employee is in paid status on the employee's regularly scheduled workdays before and after the paid holiday. For full-time employees, this holiday benefit shall be reduced proportionally by any unpaid time in the pay period in which the holiday falls.

Paid Holidays are as follows:

(1) New Year’s Day, January 1st*
(2) Martin Luther King’s Birthday, third Monday in January
(3) Lincoln's Birthday, February 12th*
(4) Presidents' Day, the third Monday in February
(5) Cesar Chavez Day, March 31st*
(6) Memorial Day, the last Monday in May
(7) Independence Day, July 4th*
(8) Labor Day, the first Monday in September
(9) Veteran's Day, November 11th*
(10) Thanksgiving Day, as designated by the President
(11) The day following Thanksgiving Day
(12) Christmas Day, December 25th*
(13) Each day appointed by the Governor of the State of California and formally recognized by the Board of Supervisors of the County of Sonoma as a day of mourning, Thanksgiving or special observance.

**Date Specific Holidays*

21.2 Floating Holidays
(Amended 7/10/18)

Confidential, Unrepresented, Administrative Management, Appointed Department Heads, and other unrepresented employees (excluding elected officials), will be granted eight floating holiday hours at the beginning of each calendar year. To use the floating holiday hours, the employee must be in a paid status on the employee’s regularly scheduled workdays before and after the floating holiday hours. The timing of the employee’s use of the floating holiday shall be subject to advance approval of the Department Head or designee. The floating holiday hours may be taken at any time during the calendar year, but may not be carried over into the next calendar year. Further, there will be no cash out of floating holiday hours. Floating holiday hours must be taken in no less than 1/10 of an hour increments. Each part-time employee shall be entitled to a prorated number of hours based on allocated FTE at the time of the annual calendar year allocation.

21.3 Holidays - Day Observed

If a date specific holiday listed in Section 21.1 falls on a Saturday, the preceding Friday shall be the County observed holiday in lieu of the day observed. If a date specific holiday listed in Section 21.1 falls on a Sunday, the following Monday shall be the County observed holiday.

21.4 Holidays - Compensation For
(Amended 5/20/14)

For the purpose of this Section (21.4), holiday pay is defined as eight (8) hours of pay at the employee's base hourly rate, excluding overtime, shift differential, premium pays or any other pays except as otherwise provided by this Resolution.

A. An employee regularly scheduled to work on either the actual date of a paid holiday or the date on which the holiday is observed is entitled to receive holiday pay. An employee who is regularly scheduled to work both the actual date of the paid holiday and the date on which the holiday is observed is only entitled to receive one (1) day of holiday pay.

B. Excepting an Unrepresented Administrative Management employee, an employee who is required to work on a paid holiday shall receive overtime for the time actually worked.
Any full-time employee whose regularly scheduled day off falls on a holiday shall observe the holiday (and not work) on one or more of the employee's regularly scheduled work days during the same pay period as the County observed holiday, or during the pay period immediately preceding or following the same pay period as the County observed holiday. This holiday benefit shall be reduced proportionally by any unpaid time in the pay period in which the holiday falls. Unrepresented Management employees who must occupy a fixed post position that requires staffing 24-hours a day, seven days a week, 365 days per year, shall elect to receive a maximum of eight (8) hours of holiday compensatory time or eight (8) hours of paid holiday for hours actually worked on an assigned holiday as provided in Section 21.l (Holidays – Paid). In order to receive this benefit, the affected employee must work an entire shift.

C. Any part-time employee shall, for each holiday in the pay period, receive holiday pay equivalent to one-tenth (1/10) of an hour regularly scheduled to be worked based on the employee's ongoing work schedule. If the employee's total hours in pay status (excluding the holiday benefit) exceeds the hours regularly scheduled to be worked, the employee shall receive holiday pay equivalent to one-tenth (1/10) of an hour for each hour in pay status (excluding the holiday benefit). This holiday pay shall not exceed eight (8) hours for each holiday nor b**e** less than three and two-tenths (3.2) hours for each holiday in the pay period.

D. Extra-Help employees are not covered by Section 21 except for provisions of Section 21.4(~~c~~b), above.

SECTION 22 – VACATION
(Amended 12/15/09, 3/19/13, 6/14/16, 7/10/18)

22.1 Vacation - Maximum Accumulation

Each employee designated as Unrepresented Confidential and Unrepresented, other than extra-help employees as defined in the Civil Service Rules, shall accrue and may use vacation leave with full pay providing that the maximum accumulation shall be no more than two hundred eighty (280) hours. Each employee designated as Unrepresented Administrative Management shall accrue vacation at the rate specified in the table in Section 22.3, and the maximum accruals are as specified in the same table.

22.2 Vacation - Part-Time Employees

Part-time employees shall accrue vacation leave on a pro-rata basis; usage and accrual shall be governed by the same rules and regulations applicable to full-time employees.

22.3 Vacation - Accrual Rates

(Amended 12/15/09, 3/19/13, 6/14/16)

Effective the pay period beginning July 5, 2016, each employee who has completed the following in-service hours shall accrue vacation at the appropriate rate shown below. In-service hours include all hours in pay status up to a maximum of eighty (80) hours in a pay period. In lieu of overtime, during each year Unrepresented Administrative Management employees and Department Heads have seven and one half (7 ½) days (60 hours) of Administrative Leave added to their vacation accrual. Elected Department Heads shall accrue seventy-seven (77) hours of Administrative Leave. The equivalent days and the maximum accumulation columns below for Appointed Department Heads and Administrative Management employees include both vacation and administrative leave. Rates shown below will be adjusted to reflect any unpaid time in each pay period. The accrual rates and maximum accumulated hours are shown in the chart below:

VACATION ACCRUAL RATES
UNREPRESENTED CONFIDENTIAL & UNREPRESENTED EMPLOYEES

Years Comp Full-Time Service	No. of Comp In-Service Hours	Vacation Accrual per 80 In-Service Hours	Maximum Accumulation
0 – 5	0 – 10,434	4.94	280
5 - 10	10,435 - 20,870	5.25	280
10 - 15	20,871 - 31,305	6.48	280
15 - 20	31,306 - 41,741	7.09	280
20 - 25	41,742 - 52,177	7.70	280
More than 25	52,178 or more	8.01	280

VACATION ACCRUAL RATES
UNREPRESENTED ADMINISTRATIVE MANAGEMENT

Years Comp Full-Time Service	No. of Comp In-Service Hours	Vacation Accrual Per 80 In- Service Hours	Admin Leave Accrual Per 80 In- Service Hours	Maximum Accumulation
0 – 10	0 - 20,870	5.25	2. 30	480
10 – 15	20,871 - 31,305	6.48	2.30	480
15 – 20	31,306 - 41,741	7.09	2.30	480
20 – 25	41,742 - 52,177	7.70	2.30	480
		8.01		

VACATION ACCRUAL RATES UNREPRESENTED ADMINISTRATIVE MANAGEMENT				
More than 25	52,178 or more		2.30	480

22.4 Vacation Accrual Upon Reappointment

Each employee with 10,435 in-service hours (five or more years) who resigned in good standing and is reappointed within two (2) years, shall be credited with 4,174 hours (2 years) of service for purposes of new vacation accrual. Each employee who was laid off and is reappointed within two (2) years shall be returned to the place on the accrual table (in Section 22.3, above) that the employee occupied when laid off. (Amended 12/15/09, effective with implementation of HRMS)

22.5 Vacation Schedules

Vacation schedules shall be arranged by appointing authorities with particular regards to the needs of the service, and whenever possible, with regard to the wishes of the employee. Every effort shall be made to arrange vacation schedules so that each employee will take as much vacation in a year as accrues to the employee in that year. Each employee's vacation time may be so divided as the needs of the service require or permit. No employee may take vacation without advance approval of the appointing authority. No employee may take vacation leave in advance of that actually accumulated at the time such leave is taken.

22.6 Vacation - Payment for Unused Vacation

Each Unrepresented Administrative Management**,** elected or appointed Department Head, Unrepresented Confidential, or other Unrepresented employee who is separated from the County service shall be entitled to payment in lieu of all unused vacation leave and administrative leave which the employee may have accumulated as of the employee's last day of work and shall be computed on the basis of such employee's base hourly rate at the time of termination.

22.7 Vacation Savings Plan

Under Vacation Savings Plan (VSP), each eligible (permanent or probationary) Unrepresented and Confidential full-time employee may elect to set aside up to twenty (20) hours of base rate pay each plan year during years 3 through 5 (4,174 to 10,434 service hours) of permanent, probationary, or unclassified employment. Part-time Unrepresented and Confidential employees will be eligible to set aside hours on a pro-rata basis, based on their allocated FTE (full time equivalent) position.

Employees enroll during an annual open enrollment period in October/November for the subsequent plan year. The plan year runs from January 1 – December 31. Eligibility to enroll, for full-time and part-time employees, will begin when, as of the start of open enrollment, the employee reaches 4,174 service hours. Eligibility to enroll ends upon completion of 10,434 in-service hours as of the start of open enrollment.

Unrepresented and Confidential employees new to the Salary Resolution who have between 4,174 and 10,434 in-service hours may enroll within their first 60 days for the current plan year. Information on the plan will be provided by the payroll clerk. Deductions for current plan year enrollments must be completed by the end of the final pay period in December of the current plan year. Failure to submit an Opt Out form does not extend employee entitlement to the special enrollment.

Regular annual enrollments for employees who have reached 4,174 hours by the beginning of annual enrollment but have not exceeded 10,434 hours will complete their election through the County's self-service program during the open enrollment period. Employees indicate the number of hours (up to 20) to purchase, and the number of pay periods over which the deductions will occur beginning on the first pay period of the new plan year. Deductions for regular and special enrollments will be in equal amounts over the number of pay periods selected at the base hourly rate as of the time of enrollment.

Deductions must be completed by the end of the final pay period in December. Employees may submit one enrollment per plan year. Elections must be in whole hour increments.

At the end of the plan year, up to 20 hours may roll forward to the subsequent plan year until the last pay period in April. Any unused hours from the prior year on account at the end of the last pay period in April will be paid back to the employee in May.

Time may be used in one-tenth hour increments. The dollar value and hours available in the VSP bank will appear on the employee's paystub, the County's self-service program, and Timesaver.

Deductions are made on an after-tax basis. If there are insufficient funds to cover the deduction, the deduction will not be taken and the amount will automatically recalculate the deduction amount to the remaining elected pay periods in the plan year.

Employees may cancel participation in the program by notifying the Auditor Payroll Division in writing by completing a Vacation Savings Plan Enrollment/Cancellation/Opt-Out Form. The employee designates whether the amount accrued to date will be paid out to the employee or will carry forward under the plan provisions. Balances being paid back to the employee will be paid off as soon as administratively feasible.

In the event the employee separates from County employment or has a change in eligibility status for the plan, unused VSP will be paid to the employee as soon as administratively feasible. Reaching 10,434 hours during the plan year is not considered a "change in status" under this provision.

Use of VSP hours are subject to the following guidelines:

a) VSP hours shall be used before other accrued leave except for sick leave or mandated time off under an Unpaid Furlough, Mandatory Time Off, or similar program.
b) Use of VSP hours is subject to the same provisions in Section 15.6, *Vacation – Schedules,* and require the same pre-approval process as accrued vacation hours.
c) When paid, VSP hours are not taxed and are paid at the same hourly rate of pay as they were deducted.
d) If the value in the VSP bank is not sufficient to cover the employee's payroll deductions, the employee must arrange for payment with Auditor Payroll.
e) VSP hours will count toward seniority and merit, and will be considered "paid status" for the purposes of health benefits, vacation and sick leave accrual, and holiday pay only.
f) VSP hours will not be credited to retirement service hours, or be included in retirement final annual salary calculation.

g) VSP hours will not be considered paid status hours for shift pay, premium pay, or cash allowance.

h) VSP hours must be depleted prior to receiving Catastrophic Leave or Disaster Leave; Short Term Disability plans may also require depletion of leave, if applicable.

i) VSP hours may be used in conjunction with Workers' Compensation benefits in the same manner as accrued leave.

j) VSP hours may not be used to extend a date of separation from County employment.

22.8 Vacation - Extra-Help Employees

Extra-help employees are not covered by Section 22.

SECTION 23 - SICK LEAVE

(Amended 3/15/16)

23.1 Sick Leave Benefit For Employees in Allocated Positions (Not Extra Help)

23.1.1 Sick Leave – Accrual- Rate

Each Unrepresented Administrative Management, Unrepresented Confidential or other Unrepresented full-time employee in a regular, allocated position, shall accrue and accumulate sick leave at the rate of 3.680 in-service hours for each completed eighty (80) paid in-service hours.

In-service hours include all hours in pay status excluding overtime. This accrual rate shall be adjusted to reflect any unpaid time in each pay period. Part-time employees, in allocated positions, shall be eligible to receive sick leave on a pro rata basis. Usage and accrual of said benefits shall be governed by the same rules and regulations applicable to full-time employees.

23.1.2 Sick Leave - Accrual- Restoration of Accrued Time

When an employee separates from County employment, and returns to County employment within one year from the separation date, any accrued sick leave remaining on account will be restored to the employee upon rehire, provided the time was not otherwise used, paid out, or converted to service credit. If the separation date is in the middle of the pay period, end of pay period date will apply.

23.1.3 Sick Leave - Use

Earned sick leave credits may, with the approval of the Department Head, be used by the employee, as outlined below:

23.1.3.1 Sick Leave Use – Non- FMLA/CFRA/PDL Leave:

Accrued sick leave for incidents other than FMLA/CFRA/PDL qualifying events may be used as follows:

A. Employee Illness: during the employee's own incapacity due to illness or injury;

B. Employee Treatment or Examination: during the time needed by the employee to undergo medical or dental treatment or examination;

C. For Care of a Family Member: For diagnosis, care or treatment of an existing health condition of, or preventative care for the employee family member. For leave under this section 23.1.3.1, “family member” is defined as a:

1. child (defined as biological, adopted, or foster child, stepchild, legal ward, or a child to who the employee stands in place of a parent, regardless of age or dependency status);
2. parent (defined as a biological, adoptive, or foster parent, stepparent, or legal guardian of an employee or the employee’s spouse or registered domestic partner, or a person who stood in place of a parent when the employee was a minor child);
3. employee’s spouse or registered domestic partner;
4. grandparent, grandchild, or sibling of the employee or the employee’s spouse or registered domestic partner.

Sick leave use for family members listed 23.1.3.1c shall not exceed forty-eight (48) hours per occurrence unless extended by joint action of the employee's Department Head and the Director of Human Resources by reason of exceptional hardships. "Occurrence” means per illness or related incidents. The 48 hours do not have be consecutive.

California “Kin Care” (Labor Code 233) provides that an employee may use an amount of paid sick leave each calendar year that is equal to the amount of time that would normally accrue in six month period, and may be used in the same manner as other sick leave described in this section 23.1.3.1. Kin Care provisions run concurrent with other protected leaves and do not extend the maximum period of leave to which the employee is entitled to under FMLA or CFRA.

D. Domestic Violence, Sexual Assault, or Stalking: When an employee is a victim of domestic violence, sexual assault or stalking, to work to obtain or attempt to obtain any relief, including but not limited to, a temporary restraining order, restraining order, or other injunctive relief, to help ensure the health, safety, or welfare of themselves or their child(ren); to seek medical attention for injuries caused by domestic violence, sexual assault or stalking; obtain services from a domestic violence shelter, program or rape crisis center as a result of domestic violence, sexual assault or stalking; obtain psychological counseling related to an experience of domestic violence, sexual assault, or stalking; participate in safety planning or take other actions to increase safety from future domestic violence, sexual assault, or stalking, including temporary or permanent relocation.

23.1.3.1 Sick Leave Use –FMLA/CFRA/PDL Qualifying Leave:
In accordance with The Family and Medical Leave Act (FMLA), the California Family Rights Act (CFRA), and the Pregnancy Disability Act (PDA) earned sick leave credits may, with the approval of the Department Head, be used by an employee as follows:

A. Employee Illness: During the employee's own incapacity due to illness or injury.

B. Employee Treatment or Examination: During the time needed by the employee to undergo medical or dental treatment or examination.

C. Disabled by Pregnancy: When a woman employee is disabled by pregnancy, which means that in the opinion of her health care provider she is unable because of pregnancy to work at all or is unable to perform any one or more of the essential functions of her job, or to perform these functions without undue risk to herself, the successful completion of her pregnancy, or to other persons.

D. Care of Family Member: When a child, registered domestic partner or spouse of an employee who is a member of the employee's household or a person for whom the employee is entitled to a Federal Income Tax dependent exemption, or the employee's parent is incapacitated by illness or injury and it is necessary for the employee to care for such child, registered domestic partner, spouse, or parent.

Child is defined as biological, adopted, or foster child, stepchild, legal ward, or a child to who the employee stands in place of a parent, who is either under 18 years of age or an adult dependent child. An adult dependent child is an individual who is 18 years of age or older and who is incapable of self-care because of a mental or physical disability within the meaning of Government Code section 12926(j) and (l).

Parent for purposes of this Section is defined as biological, foster, adoptive, step-parent, legal guardian or person who stood in place of a parent to the employee when the employee was a child. A biological or legal relationship is not necessary for a person to have stood in place of a parent to the employee as a child. Parent does not include a parent-in-law.

For FMLA/CFRA qualifying events to care for a covered family member incapacitated by illness or injury, employees are allowed to use up to 480 hours of accrued sick leave per eligible event, and not to exceed the number of hours authorized by medical certification. CFRA bonding leave does not qualify for use of sick leave.

Information on FMLA/CFRA/PDL eligibility, documentation, and benefit and pay status is provided under Section 24.3 – Family Care and Medical Leave Under FMLA/CFRA.

23.1.4 Sick Leave – Required Documentation

23.1.4.1 Annual Period – Allocated Employees: Annual Period – Allocated Employees: The "annual period" is a calendar year. For new employees who begin mid-year, the annual period begins on the employee's first day of work, restarts on January 1, and runs on a calendar year basis thereafter.

23.1.4.2 First Forty-Eight Hours: For new employees, the first 48 hours, or number of hours equal to 6 days of the employees regular schedule (whichever is greater), of accrued sick leave used by an employee in the first annual period will be applied to and subject to the provisions of California paid sick leave laws, until January 1st, and on a calendar year thereafter. During this period, if the need for paid sick leave is foreseeable, the employee shall provide reasonable advanced notice. If the need for paid sick leave is unforeseeable, the employee shall provide notice of the need for the leave as soon as practicable. If the County has reasonable suspicion of sick leave abuse, a signed medical certification may be required for each use of accrued sick leave to the extent permissible by law.

23.1.4.3 Subsequent Hours: For use of accrued sick leave beyond the first 48 hours or number of hours equal to six (6) days in the annual or calendar period (consecutive or non-consecutive), as described above, a signed medical certification may be required for each use of sick leave. Reasonable medical certification of incapacity shall be required for sick leave use of more than forty-eight (48) consecutive work hours duration.

23.1.4.4 Reasonable certification may be required, within a reasonable time after the absence, when an unscheduled absence occurs to obtain relief if the employee is a victim of domestic violence, sexual assault, or stalking, in accordance with Section 23.1.3.1(d) of this Agreement. Such certification shall be treated as confidential. Certification may be provided directly to Human Resources and shall not be disclosed to any person except to the affected employee, or as provided by law.

23.1.4.5 FMLA/CFRA/PDL: If use of accrued sick leave is for an FMLA, CFRA, or PDL qualifying event, medical certification is required, in accordance with the law and as outlined in the Medical Leave Policy.

23.2 Sick Leave Benefit for Extra Help Employees { XE "Sick Leave Benefit for Extra-Help Employees" }

For the purposes of this Section 23.2: "Extra Help" includes employees working in Temporary, Intermittent, Seasonal, or Paid Intern positions, as defined in the County's Civil Service Rules. The provisions of this section do not apply to Retiree Extra Help, Volunteers or Student Volunteers.

23.2.1 Annual Period- Extra Help: The annual period is a calendar year. For new Extra Help employees who begin mid-year, the annual period begins on the employee's first day of work, restarts on January 1, and runs on a calendar year basis thereafter.

23.2.2 Eligibility – Extra Help Employees: { XE "Sick Leave Extra-Help Employees - Eligibility" }

Effective July 1, 2015, Extra Help employees are eligible for sick leave benefits as describe in this section 23.2 after thirty (30) calendar days of employment with the County. A break in service does not restart the 30 day eligibility period unless the break is a year or more from the end of the last pay period in which the employee was in paid status.

23.2.3 Accrual - Extra Help Employees: { XE "Sick Leave Extra-Help Employees - Accrual" }

Extra Help accrue and accumulate sick leave at a rate of 1 hour per 30 hours worked, including overtime (pending further clarification or interpretation of the law), up to a maximum accumulation of seventy-two (72) hours. Accrued sick leave hours, when used, do not accrue additional sick leave hours. Accrual begins from the first day of work, but accrued time may not be used until the first pay period following completion of the 30 day eligibility requirement. Leave may not be used in advance of accrual, and is considered "accrued" on the first day of the subsequent pay period. Hours spent on Jury Duty, County release time, or County approved educational leave or training will count toward accrual of sick leave hours.

23.2.4 Accrual – Restoration Of Accrued Time { XE "Sick Leave Extra-Help Employees – Accrual – Restoration of Accrued Time" }

When an Extra Help employee separates an assignment and returns to County employment within one year of the termination date, any accrued sick leave remaining on account will be restored to the employee's Extra Help sick leave bank upon re-hire. If the termination date is in the middle of the pay period, end of pay period date will apply.

23.2.5 Accrual – Change in Employment Status
Refer to Section 23.3.

23.2.6 Sick Leave – Use, Extra Help { XE "Sick Leave – Use, Extra Help" }

23.2.6.1 Use Limits – Extra Help

Earned sick leave credits may, with the approval of the Department Head, be used by the employee in increments of not less than 1 hour, and not to exceed thirty-six (36) hours in the employee's annual period. Accrued paid sick leave must be used prior to using leave without pay for sick leave eligible events except as allowed under CFRA qualifying leaves, below. When used, sick leave hours are not considered hours worked and do not accrue additional hours of sick leave. The hours are included in merit hours.

23.2.6.2 Use – Extra Help, Non- FMLA/CFRA/PDL Leave:
Accrued sick leave for incidents other than FMLA/CFRA/PDL qualifying events may be used as follows:

A. Employee Illness: during the employee's own incapacity due to illness or injury;

B. Employee Treatment or Examination: during the time needed by the employee to undergo medical or dental treatment or examination;

C. Family Member: For diagnosis, care or treatment of an existing health condition of, or preventative care for the employee family member. For leave under this section 23.2.5.2, "family member" is defined as a:

1. child (defined as biological, adopted, or foster child, stepchild, legal ward, or a child to who the employee stands in place of a parent, regardless of age or dependency status);
2. parent (defined as a biological, adoptive, or foster parent, stepparent, or legal guardian of an employee or the employee's spouse or registered domestic partner, or a person who stood in place of a parent when the employee was a minor child);
3. employee's spouse or registered domestic partner;
4. grandparent, grandchild, or sibling of the employee or the employee's spouse or registered domestic partner.

D. Domestic Violence, Sexual Assault, Stalking: When an employee is a victim of domestic violence, sexual assault or stalking, to work to obtain or attempt to obtain any relief, including but not limited to, a temporary restraining order, restraining order, or other injunctive relief, to help ensure the health, safety, or welfare of themselves or their child(ren); to seek medical attention for injuries caused by domestic violence, sexual assault or stalking; obtain services from a domestic violence shelter, program or rape crisis center as a result of domestic violence, sexual assault or stalking; obtain psychological counseling related to an experience of domestic violence, sexual assault, or stalking; participate in safety planning or take other actions to increase safety from future domestic violence, sexual assault, or stalking, including temporary or permanent relocation.

Use of paid sick leave for any reasons under this section 23.2.5.2 may not exceed thirty-six (36) hours in an annual period unless extended by joint action of the employee's Department Head and the Director of Human Resources by reason of exceptional hardships.

California “Kin Care” (Labor Code 233) provides that an employee may use an amount of paid sick leave each calendar year that is equal to the amount of time that would normally accrue in six month period, and may be used in the same manner as other sick leave described in this section 23.2.6.2. Kin Care provisions run concurrent with other protected leaves and do not extend the maximum period of leave to which the employee is entitled to under FMLA or CFRA.

23.2.6.3 Use – Extra Help, FMLA/CFRA/PDL Qualifying Leave:
Extra Help employees may be eligible for protected leave under the family Medical Leave Act (FMLA), the California Family Rights Act (CFRA), or the Pregnancy Disability Act (PDA), for certain, qualifying events. FMLA/CFRA/PDL eligibility requirements are detailed under Section 24.3 and in the County’s Medical Leave Policy. The same qualifying reasons, definitions of family members, and eligibility requirements apply to Extra Help and employees in allocated positions, and are outlined in 23.1.3.2, above.

23.2.7 <u>Extra Help Sick Leave – Required</u> <u>Documentation</u> { XE “Sick Leave Extra-Help – Required Documentation” }

23.2.7.1 Documentation for Paid Sick Leave: Accrued sick leave used by an employee in each annual period (up to 36 hours annually) will be applied to and subject to the provisions of all applicable paid sick leave laws. During this period, if the need for paid sick leave is foreseeable, the employee shall provide reasonable advanced notice. If the need for paid sick leave is unforeseeable, the employee shall provide notice of the need for the leave as soon as practicable. If the County has reasonable suspicion of sick leave abuse, a signed medical certification may be required for each use of accrued sick leave to the extent permissible by law. If use of time under this section is a FMLA or CFRA qualifying event, medical certification for those programs is required in accordance with the law and as outlined in the Medical Leave Policy (same requirements as Allocated employees).

23.2.7.2 Documentation for Unpaid Sick Leave: For any leave in excess of 36 hours in an annual period, or any unpaid sick leave, a signed medical certification may be required for each use of leave. Reasonable medical certification of incapacity (if applicable) shall be required for any leave of more than forty-eight (48) hours duration.

23.2.7.3 Reasonable certification may be required, within a reasonable time after the absence, when an unscheduled absence occurs to obtain relief if the employee is a victim of domestic violence, sexual assault, or stalking, in accordance with Section 23.2.6.2(d) of this Agreement. Such certification shall be treated as confidential. Certification may be provided directly to Human Resources and shall not be disclosed to any person except to the affected employee, or as provided by law.

23.3 Change in Employment Status – Extra Help to Allocated / Allocated to Extra Help

23.3.1 Extra Help to Allocated Position:

For an Extra Help employee who begins an allocated assignment within one year of separation of an Extra Help assignment, any accrued and unused Extra-Help sick leave hours on account will carry forward with the employee. If the separation date is in the middle of the pay period, pay period end date will apply. Hours carried forward may be used, subject to the following restrictions:

1. Extra Help sick leave hours must be used prior to using sick leave accrued as a regular employee;
2. Extra Help sick leave hours have no cash value; and
3. Extra Help hours are not eligible for conversion to service credit at regular retirement (pursuant to Section 23.4).

The employee's annual period will be changed to the date they start in the new position.

23.3.2 Allocated Position to Extra Help:

For an employee assigned to an allocated position who begins an eligible Extra Help assignment within one year of separation from an allocated position, any accrued sick leave remaining on account will be restored to the employee as Extra Help sick leave, up to the cap of 72 hours, and may be used subject to the limits and provisions for use of Extra Help sick leave outlined in Section 23.2 (Sick Leave Benefit for Extra Help Employees). If an employee returns to an allocated position within one year of separation from an allocated position, the provision of 23.1.2 will apply, except that any sick leave hours used or accrued during the extra help period will be factored against the employees former leave balance. If the separation date is in the middle of the pay period, pay period end date will apply.

The employee's annual period will be changed to the date they start in the new position.

23.4 Sick Leave - Conversion at Regular Retirement

For each Unrepresented Administrative Management, Unrepresented Confidential, or other Unrepresented employee separating from County services on regular, non-disability retirement shall convert one-hundred percent (100%) of unused sick leave remaining to such employee's credit at the time of retirement to retirement service credit as provided by Government Code Section 31641.03, excepting that Extra Help sick leave hours are not eligible for conversion to retirement service credit.

23.5 Sick Leave – Payoff at Regular Retirement

Each Unrepresented Administrative Management, Unrepresented Confidential, or other Unrepresented employee who separates from County service on regular non-disability retirement, who reaches 100% of retirement benefit allowed by law, and who is prevented by law from converting some or all of the employee's remaining unused sick leave to service credit under section 23.4 (Sick Leave – Conversion at Regular Retirement), the County shall pay the monetary equivalent of twenty-five percent (25%) of all unused sick leave remaining to such employee’s credit at the time of separation, computed on the basis of the employee’s base hourly rate. Extra help sick leave is not eligible for this provision.

23.6 Sick Leave – Distribution at Death or Layoff

The County shall pay each employee who separates from County service by death or layoff, the monetary equivalent of 25% of all unused sick leave remaining to such employee’s credit as of the time of separation, computed on the basis of such employee’s base hourly pay. Extra help sick leave is not eligible for this provision.

23.7 Sick Leave - Distribution at Disability Retirement

The County shall pay each Unrepresented Administrative Management, Unrepresented Confidential, or other Unrepresented employee separated from County service by disability retirement at such employee's base hourly rate for all unused sick leave remaining to such employee's credit as of the time of separation. This Section shall not apply to an employee separated from County service by a service retirement. The County shall not pay an employee under this Section for any sick leave hours donated to the employee by other employees under a catastrophic leave benefit. Extra help sick leave is not eligible for this provision.

23.8 Medical Examinations

An appointing authority may direct any employee to undergo a medical examination to determine the employee's mental and physical capacity to perform the duties of the employee's position. Each determination that an employee is or is not capable of performing the duties of the employee's position will be made available to the appointing authority and the employee concerned. Each such examination shall be paid by the department requesting the examination.

SECTION 24 - MISCELLANEOUS LEAVES OF ABSENCE

(Amended 3/19/13, 3/15/16, 7/10/18)

24.1 Leaves of Absence Without Pay Usage Reference Table

Employees in regular, allocated positions will be required to use paid leaves before a Leave of Absence Without Pay (LWOP) as shown in the following table:

Event	Sick	Vacation	CTO	Comment
During the incapacity due to illness or injury employee's own	Yes, you may keep 40 hrs.	No	No	None.
When a woman employee is disabled by pregnancy.	Yes, you may keep 40 hrs.	No	No	None.
During the time needed by the employee to undergo medical or dental treatment or examination.	Yes, you may keep 40 hrs.	No	NO	None.
When the employee's family member is incapacitated by illness/injury and the employee must care for him/her or for care, exam or treatment of a family member*.	Yes, you may keep 40 hrs (refer to Section 23.2(d))	Yes	Yes	May keep 40 hrs. Any combination of Vacation & CTO
Non-sick FMLA/CFRA** qualifying event (e.g., child bonding leave)	No	No	No	None.
Section 12.5 - Education Leave	No	Yes	Yes	Must use all Vacation & CTO
Approved undisclosed reason or extended vacation	No	Yes	Yes	Must use all Vacation & CTO
Section 17 - Sabbatical	No	Yes	Yes	Must use all Vacation & CTO

*In the event an employee is eligible to receive Paid Family Leave to care for the serious health condition of a family member or to bond with a new child they will not be required to use sick, vacation or CTO time, while receiving the benefit.

**Family & Medical Leave Act (FMLA)/California Family Rights Act (CFRA)

24.2 Compassionate Leave

Any Unrepresented Administrative Management, Unrepresented Confidential, or other Unrepresented full-time or employee may be granted up thirty-two (32) hours of leave with pay, in the event of death of spouse, registered domestic partner, child, step-child, son-in-law, daughter-in-law, brother, brother-in-law, sister, sister-in-law, grandparent, great-grandparent, grandchild or person with whom the employee has a relationship in loco parentis, and the mother or father of the employee or the spouse of the employee. Up to an additional eight (8) hours of sick leave may be granted to supplement compassionate leave. Where travel in excess of 300 miles one way from the employee's residence is required up to an additional one (1) of the employee's regular work days of sick leave may be used to supplement compassionate leave. Up to an additional forty (40) hours of accrued vacation leave or accrued comp time off may be granted to supplement compassionate leave upon request.

Any part-time Unrepresented Administrative Management, Unrepresented Confidential, or other Unrepresented employee shall be eligible for a pro-rated compassionate leave. Ongoing work schedule for purposes of this Section shall mean an average of the two (2) pay periods immediately preceding the need for compassionate leave or the employee's normal bi-weekly allocation of hours, whichever is greater.

24.3 Family Care and Medical Leave Under FMLA and CFRA
(Amended 3/19/13, 3/15/16)

24.3.1 Each eligible employee is entitled to family care and medical leave as provided by the Family and Medical Leave Act (FMLA) and the California Family Rights Act (CFRA), as amended. The leaves under FMLA and CFRA will run concurrently to the extent permitted by law.

24.3.2 Eligibility
To be eligible for family care and medical leave, on the date on which leave is to begin, a full-time or part-time employee must have been employed by the County for at least twelve (12) months, which need not be consecutive, and have actually worked at least 1,250 hours of service during the twelve (12) month period immediately preceding the commencement of the leave.

24.3.3 Family Care And Medical Leave Entitlement
Subject to the provisions of this Salary Resolution, County policy, and state and federal law, including the federal FMLA and the CFRA, an eligible employee is entitled to a total of twelve (12) workweeks of unpaid leave during any twelve (12) month period for any one, or more, of the following reasons:

24.3.3.1 The birth of a child and to care for the newborn child (FMLA and CFRA);

24.3.3.2 The placement with the employee of a child for adoption or foster care and care for the newly placed child (FMLA and CFRA);

24.3.3.3 To care for the employee's child, parent, spouse, or registered domestic partner (CFRA only) who has a serious health condition. (Child is defined as biological, adopted, or foster child, stepchild, legal ward, or child of a person standing in place of parent who is under 18 years of age or an adult dependent child. Parent is defined as biological, foster or adoptive parent, stepparent, or legal guardian. Parent does not include a parent-in-law under this provision.)

24.3.3.4 Because of an employee's own serious health condition that makes the employee unable to perform the functions of the employee's position, except for disability on account of pregnancy, childbirth, or related medical conditions, which is covered by pregnancy disability leave. (Pregnancy disability counts toward only California Pregnancy Disability Leave (PDL) and FMLA leave.)

24.3.3.5 Because of any qualifying exigency arising out of the fact that the employee's spouse, son, daughter, or parent is a U.S. National Guard or Reserve member on active duty (or has been notified of an impending call or order to active duty status) in support of a contingency operation (FMLA only).

The twelve (12) month period for FMLA/CFRA purposes is determined by a “rolling” twelve (12) month period measured backwards from the date an employee first uses FMLA/CFRA leave.

24.3.4 Family Care And Medical Leave To Care For A Covered Service Member With A Service Injury Or Illness

Subject to the provisions of this Salary Resolution, County policy, and state and federal law, including the FMLA, an eligible employee may take FMLA leave to care for a covered service member with a serious injury or illness if the employee is the spouse, son, daughter, parent, or next of kin of the service member. (This 12 month period used under FMLA/CFRA to determine leave eligibility is separate from the “annual period” defined in 23.1.4.)

24.3.4.1 An eligible employee’s entitlement under Section 24.3.4 is limited to a total of twenty-six (26) workweeks of leave during a single 12-month period to care for a covered service member with a serious injury or illness. The “single 12-month period” in which the 26-weeks-of-leave-entitlement described in this begins on the first day an employee takes leave to care for the covered service member.

24.3.4.2 During the “single 12-month period” described above, an eligible employee’s FMLA leave entitlement is limited to a combined total of twenty-six (26) workweeks of FMLA leave for any qualifying reason.

24.3.5 Family Care and Medical Leave - Pay Status And Benefits

24.3.5.1 Except as provided in this Section, the family care and medical leave will be unpaid. The County will, however, continue to provide County contributions toward the health plan premium during the period of family care and medical leave for up to twelve (12) work weeks for represented employees and up to fifteen (15) work weeks for Administrative Management, Confidential, and Unrepresented employees on the same basis as coverage would have been provided had the employee not taken family care and medical leave. The employee will be required to continue to pay the employee’s share of premiums payments, if any.

24.3.5.2 Nothing in this Section shall preclude the use of medical or pregnancy disability leave in Section 14.7 (Medical/Pregnancy Disability Leave) when the employee is medically incapacitated or disabled. If an employee does not qualify for continued benefits under this Section 24.3 or Section 14.7 (Medical/Pregnancy Disability Leave) and the employee wishes to continue benefit coverage, then Section 14.7.2 (Continuation of Health Benefits Coverage) applies.

24.3.6 Relationship of Family Care and Medical Leave to Other Leaves

Any leave of absence that as family care and medical leave will be counted as running concurrently with any other paid or unpaid leave to which the employee may be entitled for the same qualifying reason. Section 24 identifies accrued paid leave which an employee may be required to use concurrently with unpaid family care and medical leave.

24.3.7 Family Care and Medical Leave - Relationship To Pregnancy Disability Leave

The family care and medical leave provided under this section is in addition to any leave taken on account of disability due to pregnancy, childbirth, or related medical conditions for which an employee may be qualified under state law.

24.3.8 Family Care and Medical Leave - Notice to the County

24.3.8.1 The employee must provide written notice to the County as far in advance of the leave as possible and as soon as the employee reasonably knows of the need for the leave. If the need for the leave is foreseeable based on an expected birth, placement of a child for adoption or foster care or planned medical treatment, the notice must be provided at least 30 calendar days in advance of the leave, or if not reasonably known 30 calendar days before the leave, then as soon as reasonably practicable.

24.3.8.2 The written notice must inform the County of the reasons for the leave, the anticipated duration of the leave and the anticipated start of the leave.

24.3.8.3 The employee shall consult with the County and make a reasonable effort to schedule any planned medical treatment or supervision so as to minimize disruption to department operations.

24.3.9 Family Care and Medical Leave - Medical Certification

24.3.9.1 An employee's request for family care and medical leave to care for a child, a spouse, or a parent who has a serious health condition shall be supported by a certification issued by the health care provider of the individual requiring care. If additional leave is required after the expiration of the time originally estimated by the health care provider, the employee shall provide the County with recertification by the health care provider.

24.3.9.2 An employee's request for family care and medical leave because of employee's own serious health condition shall be supported by a certification issued by the employee's health care provider.

24.3.9.3 As a condition of an employee's return from leave taken because of the employee's own serious health condition, the employee is required to obtain certification from the employee's care provider that the employee is able to resume work.

24.3.9.4 Employees are required to use the medical certification forms available from the County Human Resources Department to meet the certification and recertification requirements of this section.

24.3.10 Family Care and Medical Leave - County's Response To Leave Request

It is the County's responsibility to designate leave, paid or unpaid, as family and medical leave-qualifying and to notify the employee of the designation.

24.3.11 Family Care and Medical Leave - Employee's Status On Returning From Leave

Except as provided by law, on return from family care and medical leave, an employee is entitled to be returned to the same or equivalent position the employee held when leave commenced, or to an equivalent position with equivalent benefits, pay, and other terms and conditions of employment. An employee has no right to return to the same position. Use of family care and medical leave will not result in the loss of any employment benefit that accrued prior to the start of an eligible employee's FMLA/CFRA leave.

24.3.12 Family Care and Medical Leave - Procedures, Definitions, and Forms

A description of the required process and procedures to follow for intermittent leave and reduced leave schedules, forms to use when requesting family care and medical leave, and applicable definitions are included in the County Medical Leave Policy and found on the County Human Resources Department website, and are available from the Human Resources Department.

24.3.13 Family and Medical Leave – Legal Minimum

This Section 24.3 shall be interpreted as the legal minimum family care and medical leave available to eligible employees. The County may grant additional leave without pay under this Section (24.3) provided it is consistent with the applicable provisions of the Sonoma County Civil Service Rules, County leave policies, Section 24, and other provisions of this memorandum.

24.4 Time Off for Donating Blood

If an employee does not have sufficient time outside of working hours to donate blood, subject to department operational needs, the employee may, without loss of pay, take off up to one (1) hour of working time twice a year for the purpose of donating blood. The employee shall give the employer at least five (5) working days' notice that time off for donating blood is desired.

24.5 Paid Parental Leave

24.5.1 Eligibility

Effective 10/1/18, any permanent or probationary employee who has been continuously employed by the County for at least 12 months prior to the start of the leave shall be eligible for Paid Parental Leave (PPL) to use within 12 months of the following events:

- Birth of a child of the employee, the employee's spouse, or the employee's registered domestic partner
- Placement of a child with the employee's family for adoption or foster care

For the purposes of PPL, the definition of "parent" and "child" are as defined by the California Family Rights Act.

24.5.2 Benefit and Use

Eligible employees shall be granted 320 PPL hours to use within 12 months of the qualifying event. Part-time employees shall be eligible for a pro-rated number of PPL hours, based on allocated FTE.

PPL is based on a 12 month rolling calendar. No more than 320 PPL hours may be used in any 12 month period.

PPL is based on the employee's base hourly wage plus cash allowance. It is considered "paid status" for the purpose of merit, seniority, premiums, vacation and sick leave accrual, and County benefit eligibility and contributions.

PPL pay is pensionable and counts towards retirement service credit.

PPL may be used in a block of continuous time or as intermittent leaves as arranged in advance. Unless approved by the Director of Human Resources, PPL cannot be used retroactively.

Use of PPL shall not be cause for an employee to lose his/her current assignment on a permanent basis; however, assignments may be altered to accommodate the employee's or department's operational needs when working a reduced work schedule.

An employee in a disability period following birth of child must use sick leave down to 40 hours before using PPL.

24.5.3 Coordination of Benefits & Leaves

PPL can be fully integrated with any short-term disability or California Paid Family Leave program. STD and PFL will not reduce PPL leave entitlement. For time covered by FMLA/CFRA job protected leave for bonding, PPL must be used prior to other accrued leave or Leave Without Pay. If an employee has exhausted FMLA/CFRA entitlements, PPL must be used prior to Leave Without Pay for arranged leaves for the purpose of bonding. PPL does not need to be used when an employee is on leave for reasons other than bonding.

SECTION 25 - COURT LEAVE

A full-time or part-time employee is entitled to pay at the employee's base hourly rate to respond to an enforceable subpoena to appear in a court or administrative agency hearing in California other than as a litigant and for reasons other than those caused by the employee's connivance or misconduct. An employee may retain such payment as may be allowed the employee for lodging, meals and travel, but as a condition for entitlement to this Court Leave, the employee shall make payable to the County of Sonoma any and all fees which the employee may receive as payment for the service as a witness. An employee on Court Leave will receive the base hourly rate of pay for those hours spent traveling to and from the court or administrative agency hearing and the hours spent attending to the employee's obligation as a witness so long as those hours correspond to the employee's assigned work schedule. Time spent as a witness or travel time which is outside the employee's assigned work schedule shall not be paid. If an employee's obligation as a witness expires on any workday with time remaining on the employee's work schedule, the employee will be obligated to return to work. These provisions do not apply to employees whose appearances are in the line of duty. Extra-help employees who are scheduled to work and subsequently called to court, qualify under Section 25.

SECTION 26 - JURY DUTY

It is the policy of the County of Sonoma to encourage County employees to perform services as jurors when summoned for jury duty by a court of competent jurisdiction. Any Unrepresented Administrative Management, Unrepresented Confidential, or other Unrepresented employee summoned for jury duty shall be entitled to full pay for such period of time as may be required to attend the court in response to such summons. An employee may retain such payment as may be allowed for travel but shall make payable to the County of Sonoma any and all fees which the employee may receive in payment for service as a juror. Extra-help employees who are scheduled to work and are subsequently called to jury duty, qualify under this Section 26.

SECTION 27 - VOTING

If an Unrepresented Administrative Management, Unrepresented Confidential, or Unrepresented employee who is a registered voter does not have sufficient time outside of the employee's working hours within which to vote in any state-wide general or primary election, the employee may upon request, be granted so much working time off without loss of pay as will, when added to the employee's voting time outside the employee's working hours, enable the employee to vote. An employee may take off so much time which will enable the employee to vote, but not more than two (2) hours of which shall be without loss of pay; provided, that the employee shall be allowed time off for voting only at the beginning or end of the employee's regular working shift, whichever allows the most free time for voting and the least time off from the employee's regular working shift.

SECTION 28 - CONTINUOUS SERVICE AND REPORTING LEAVES

28.1 Continuous Service

No paid absence under any provisions of this Resolution shall be considered as a break in service for any employee who is in pay status during such absence. All benefits which, under the provisions of this Resolution, accrue to employees who are in pay status shall continue to accrue during such absence.

28.2 Recording And Reporting Leave Taken

Each appointing authority shall maintain a record of all hours worked and leave taken by each employee in the department, and shall promptly report such hours worked and leave taken in a manner prescribed by the Auditor-Controller-Treasurer-Tax Collector.

SECTION 29 - BAR DUES

For each employee who is an attorney in the County Counsel's Office the County will pay said employee's State Bar of California dues. Eligibility for such reimbursement shall be limited to those employees who, on the final date payable of said bar dues, have permanent status or have probationary status derived through promotion.

SECTION 30 - LAYOFF POLICY AND BENEFITS

30.1 Lay Off - Applicability

The following layoff policy and benefits shall be applicable to Unrepresented regular full-time and part-time employees. Neither the layoff nor the decision to layoff shall be grievable.

30.2 Lay Off - Notice

An employee may be laid off from his or her job class and regular County service three (3) weeks (twenty one (21) calendar days) after formal, written notice has been presented or mailed to the employee at his or her last known address.

30.3 Lay Off - Severance Period

An employee who has received a formal written layoff notice, and who is unable to displace another County employee or secure other regular County employment, with the approval of his/her department head, may separate from County service after the eighth (8th) work day of the three (3) week notice period and receive his or her normal base salary for the hours he or she would normally be scheduled to work during the remainder of the three week period.

30.4 Lay Off - Medical

(Amended 5/18/10)

For employees who continue to be laid off from County service, and lack medical coverage, the County will make its usual medical insurance contribution for the first six (6) pay periods following layoff and one half (1/2) its usual contribution for the next six (6) pay periods following layoff. Eligible employees will be offered the opportunity to continue coverage through COBRA. If/when this medical severance is offered concurrently with COBRA continuation coverage, the eighteen (18) month COBRA continuation period shall be extended by each month of medical severance coverage to a maximum of twenty four (24) total months.

SECTION 31 - DISASTER LEAVE

When there has been a natural disaster of a magnitude that requires the Board of Supervisors to Proclaim a County State of Emergency, the County will enact this disaster leave provision.

For up to one year from the termination of the said proclamation. County employees may donate accrued compensatory time and vacation leave to other County employees who have lost work time because they have been a victim of a disaster affecting their primary residence. For up to one year from the termination of the said proclamation, impacted employees may use up to 320 hours of donated leave. Such donated time will not exceed the total amount of time lost by the receiving employee including vacation, compensatory time used and any unpaid leave incurred. Unused donated time at the expiration of the leave provision period will be returned to the donor.

SECTION 32 - CONFLICT OF INTEREST/INCOMPATIBLE ACTIVITIES

A. Conflict of Interest: Each affected employee shall be furnished with a copy of the Conflict of Interest Code adopted for the department in which the employee serves. The County Clerk shall maintain forms for statements required of employees by the conflict of interest provisions of the Political Reform Act of 1974, and Conflict Interest Codes adopted there under.

B. Incompatible Activities: All County departments are required to adopt incompatible activities policies in compliance with State law. Department Heads shall determine which specific activities are incompatible subject to approval by the Board of Supervisors. Employees who violate the department policy are subject to disciplinary action, up to and including termination. All department incompatible activities policies shall include notice and appeal procedures, as well as the following prohibitions: Employment for compensation which is in conflict with the employee's County duties; outside employment involving the use of County time, facilities, equipment or supplies; compensation for work which an employee would ordinarily be required to perform in the course of County duties; performance of work that will later be subject to the control, inspection, or enforcement of another employee in the County; outside employment for which time demands render performance of County duties less efficient.

An employee who is unclear or needs more information regarding proposed or current outside employment shall contact his/her supervisor or department head for review and further direction.

SECTION 33 - INVALID SECTIONS

If any section, subsection, subdivision, paragraph, sentence, clause, phrase, table, group or series of this Resolution is for any reason held to be illegal or unconstitutional, such decision shall not affect the validity of the remaining portion of this Resolution. The Board of Supervisors hereby declare that they would have passed this Resolution and each section, subsection, subdivision, paragraph, sentence, clause, phrase, table, group and series thereto irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses, phrases, tables, groups, or series is declared illegal or unconstitutional.

SECTION 34 - MISCELLANEOUS RETIREMENT PROVISIONS

(Amended 3/19/13, 6/14/16)

34.1 Retirement – General Employees Hired On Or After January 1, 2013

This Section 34.1 (including subsections) shall apply to employees hired on or after January 1, 2013, who are or become contributing members of the Sonoma County Employees' Retirement Association ("SCERA") and who do not qualify for pension reciprocity as stated in Government Code Section 7522.02 (c).

34.1.1 Final Compensation Based On Three Year Average

As required by Government Code Section 7522.32, effective January 1, 2013, for the purposes of determining a retirement benefit for SCERA members covered by this section 34.1, final compensation shall mean the highest average annual pensionable compensation earned during 36 consecutive months of service.

34.1.2 2.0% @ 62 – 2.5% @ 67 Pension Formula

As required by Government Code Section 7522.20, the 2.0% at 62 pension formula shall be available to employees covered by this section 34.1 who are contributing members of SCERA.

34.1.3 Required Employee Contributions

As required by Government Code section 7522.30(c), SCERA members covered by this section 34.1 shall pay 50 percent of normal costs. In addition, SCERA members covered by this section 34.1 shall pay 3.03 percent of the employee's pensionable compensation toward the County's employer contribution to retirement costs. This additional 3.03% contribution shall continue until July 2024.

34.2 Retirement – General Employees Hired On Or Before December 31, 2012.

This Section 34.2 (including subsections) shall apply to employees hired on or before December 31, 2012 who are contributing members of the SCERA, or who are hired after that date and qualified for pension reciprocity pursuant to Government Code Section 7522.02 (c) and any related SCERA reciprocity requirements.

34.2.1 Final Compensation Based On Single Year

For purposes of determining a retirement benefit, final compensation for employees covered by this section 34.2 shall mean the average annual compensation earnable by the member as specified in Government Code Section 31462.1.

34.2.2 3.0% @ 60 Pension Formula

The 3.0% at 60 pension formula (CERL 31676.17) shall be available to employees covered by this section 34.2 who are contributing members of the SCERA.

34.2.3 Required Employee Contribution

SCERA members covered by this section 34.2 will contribute the amount required by SCERA as employee contributions, and shall continue to pay an additional 3.03% of pay, pretax, to their employee retirement account. This 3.03% of pay contribution of the employee's pensionable compensation shall be paid as part of the County's contribution to pay for the unfunded accrued actuarial liability. This additional 3.03% contribution will continue until July 2024.

34.2.4 Employee Contribution

a. Effective the first full pay period following July 1, 2016, and subject to Sonoma County Employees Retirement Association (SCERA) Board approval of the cost share arrangement under the terms described herein, active County General legacy members of SCERA will contribute one third of the actuarially determined difference between the average General legacy employee retirement rate (exclusive of the 3.03% payroll contribution toward the UAAL described in section 34.2.3 of the Salary Resolution) and one half the total normal cost ("total normal cost" includes both employer and member shares) calculated as an average for General legacy Members of the Sonoma County Employees Retirement Association (SCERA) covered by this Section 34.2 based on rates of all active County General legacy members, with the difference computed to a factor and applied equally to all legacy members. Such legacy employees will receive a lump sum benefit allowance as reimbursement for this pension cost share arrangement each pay period equal to the dollar value of the deduction described in this paragraph, less any required taxes.

b. Effective the first full pay period following July 1, 2017, and subject to Sonoma County

Employees Retirement Association (SCERA) Board approval of the cost share arrangement under the terms described herein, active County General legacy members of SCERA will contribute an additional one third (for a total of two thirds) of the actuarially determined difference between the average General legacy employee retirement rate (exclusive of the 3.03% payroll contribution toward the UAAL described in section 34.2.3) and one half the total normal cost ("total normal cost" includes both employer and member shares) calculated as an average for General legacy Members of the Sonoma County Employees Retirement Association (SCERA) covered by this Section 34.2 based on rates of all active County General legacy members, with the difference computed to a factor and applied equally to all legacy members. Such legacy employees will receive a lump sum benefit allowance as reimbursement for this pension cost share arrangement each pay period equal to the dollar value of the deduction described in this paragraph, less any required taxes.

c. The lump sum benefit allowance described in Sections 34.2.4 (a) and (b) will not be included in wages for computations of overtime, pension benefits or for any County benefit related purpose.

34.3 Retirement – Safety Employees Hired On Or After January 1, 2013

This Section 34.3 (including subsections) shall apply to employees hired on or after January 1, 2013, who are or become contributing members of the Sonoma County Employees' Retirement Association ("SCERA") and who do not qualify for pension reciprocity as stated in Government Code Section 7522.02 (c).

34.3.1 Final Compensation Based On Three Year Average

As required by Government Code Section 7522.32, effective January 1, 2013, for the purposes of determining a retirement benefit for SCERA members covered by this section 34.3, final compensation shall mean the highest average annual pensionable compensation earned during 36 consecutive months of service.

34.3.2 2% @ 50 - 2.7% @ 57 Pension Formula

As required by Government Code Section 7522.25, the safety Option Plan Two (2% @ 50- 2.7% @ 57) pension formula shall be available to employees covered by this section 34.3 who are contributing members of the SCERA.

34.3.3 Required Employee Contributions

As required by Government Code section 7522.04(g), SCERA members covered by this section 34.3 shall pay 50 percent of normal costs. In addition, SCERA members covered by this section 34.3 shall pay 3.00% of the employee's pensionable compensation toward the County's employer contribution to retirement costs. This additional 3.00% contribution shall continue until July 2024.

34.4 Retirement – Safety Employees Hired On Or Before December 31, 2012.

This Section 34.4 (including subsections) shall apply to employees hired on or before December 31, 2012 who are contributing members of the SCERA, or who are hired after that date and qualified for pension reciprocity as stated in Government Code Section 7522.02 (c) and any related SCERA reciprocity requirements.

34.4.1 Final Compensation Based On Single Year

For purposes of determining a retirement benefit, final compensation for employees covered by this section 34.4 shall mean the average annual compensation earnable by the member as specified in Government Code Section 31462.1.

34.4.2 3.0% @ 50 Pension Formula

The 3.0% at 50 pension formula shall be available to employees covered by this section 34.4 who are contributing members of the SCERA.

34.4.3 Required Employee Contribution

SCERA members covered by this section 34.4 will contribute the amount required by SCERA as employee contributions, and shall continue to pay an additional 3.00% of pay, pretax, to their employee retirement account. This 3.00% of pay contribution of the employee's pensionable compensation shall be paid as part of the County's contribution to pay for the unfunded accrued actuarial liability. This additional 3.00% contribution will continue until July 2024.

34.4.4 Employee Cost Share – 50% of Normal Cost

a. Effective the first full pay period following July 1, 2016, each active Safety member of the Sonoma County Employees Retirement Association (SCERA) covered by this Section 34.4 shall contribute one and one half percent (1.5%) of any compensation required to be made to their employee retirement account as a contribution towards one half of the total normal cost ("total normal cost" includes both employer and member shares. The additional contribution shall be deducted from the employees' compensation pretax and they shall become part of the accumulated retirement contributions of the employee. Employees covered by this section 34.4.4(a) shall receive a lump sum benefit allowance each pay period as a reimbursement for the cost share arrangement, equal to the dollar value of the deduction described in this paragraph less any required taxes.

b. Effective March 14, 2017, each active Safety member of the Sonoma County Employees Retirement Association (SCERA) covered by this Section 34.4 shall contribute an additional one and one third percent (1.3%) for a total of 2.8% of any compensation required to be made to their employee retirement account as a contribution towards one half of the total normal cost ("total normal cost" includes both employer and member shares. The additional contribution shall be deducted from the employees' compensation pretax and they shall become part of the accumulated retirement contributions of the employee. Employees covered by this section 34.4.4(b) shall receive a lump sum benefit allowance each pay period as a reimbursement for the cost share arrangement, equal to the dollar value of the deduction described in this paragraph less any required taxes.

c. The lump sum benefit allowance described in Sections 34.4.4 (a) and (b) will not be included in wages for computations of overtime, pension benefits or for any County benefit related purpose.

34.5 Employer Pick-Up of Employee's Share of Retirement Contribution – Not Allowed

Pursuant to the Public Employees' Pension Reform Act of 2013 (PEPRA), the County shall not contribute towards any employee's share of retirement contributions.

SECTION 35 – DIRECT DEPOSIT

Effective for the July 27, 2016 pay date, all employees will have their pay check deposited directly to the employee's accounts in the participating financial institute. The effective date of the deposit will be one day after the regularly scheduled date of payroll issue. Employees may request a printed paycheck due to a hardship or other extenuating circumstances (e.g. identify theft, changes in financial institutions, domestic violence situations, etc.).

Printed pay stubs will not automatically be provided to employees enrolled in direct deposits. Pay stub information will be available bi-weekly in the self-service feature of the HRMS system where print and/or save functions are available.

Revised 6/14/2016

County of Sonoma Agenda Item Summary Report

Clerk of the Board
575 Administration Drive
Santa Rosa, CA 95403

Agenda Item Number: 2
(This Section for use by Clerk of the Board Only.)

To: Board of Directors of the Sonoma County Agricultural Preservation and Open Space District, Board of Supervisors of Sonoma County

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): Sonoma County Agricultural Preservation and Open Space District, Sonoma County Regional Parks

Staff Name and Phone Number:	**Supervisorial District(s):**
Sara Press, 565-7368 (Ag + Open Space) Steve Ehret, 565-1107 (Regional Parks)	Fifth

Title: Rips Redwoods Offers of Dedication

Recommended Actions:

Consent, on behalf of the Board of Directors of the Agricultural Preservation and Open Space District, to the recordation of an Irrevocable Offer of Dedication of a conservation easement interest in the remainder of the Rips Redwoods property.

Consent, on behalf of the Board of Supervisors of Sonoma County, to the recordation of an Irrevocable Offer of Dedication of a trail easement interest as to a specified portion of the remainder of Rips Redwoods property.

Executive Summary:

The Rips Redwoods property consists of approximately 1,600 acres in northwest Sonoma County. The Sonoma County Agricultural Preservation and Open Space District acquired a conservation easement over the property to protect natural resources while allowing sustainable forest management to occur. In addition, the landowner donated a trail easement to the County of Sonoma for access along the South Fork Gualala River. The property boundary may extend beyond the boundaries of these two easements. The landowner recorded two irrevocable offers of dedication so that, once title is clarified, the Sonoma County Agricultural Preservation and Open Space District and the County of Sonoma can extend their respective interests in the property to the fullest extent of the seller's ownership. State law requires that both the Board of Directors and the Board of Supervisors consent to the making of these offers.

Discussion:

When the two governing Boards approved the acquisition of a conservation easement and a trail easement over the Rips Redwoods property, the fact that the seller had potential claims to additional lands was not known. Due to the conservation and recreational value of the Rips Redwoods property, the Sonoma County Agricultural Preservation and Open Space District ("Ag + Open Space") and the County of Sonoma ("County") are interested in extending the reach of the conservation easement and the trail easement to cover the full extent of the seller's ownership once title in the expanded areas is settled. In order to preserve that opportunity, the seller recorded offers to dedicate these interests to Ag + Open Space and the County at the time of closing on the project, which occurred on October 3, 2018.

State law requires that the governing Boards of each agency consent to the making of these offers. (Public Resources Code §5565.5 and Government Code §7050.) In order to facilitate an expedient closing, the offers were recorded notwithstanding the fact that the Board of Directors and Board of Supervisors had not previously consented. This Board action seeks to perfect the process so that these offers may be accepted when title to the property is settled.

Recommendation:

Consent, on behalf of the Board of Directors of the Agricultural Preservation and Open Space District, to the recordation of an Irrevocable Offer of Dedication of a conservation easement interest in the remainder of the Rips Redwoods property.

Consent, on behalf of the Board of Supervisors of Sonoma County, to the recordation of an Irrevocable Offer of Dedication of a trail easement interest as to a specified portion of the remainder of Rips Redwoods property.

Prior Board Actions:

June 5, 2018:	Board of Directors accepts a conservation easement over the majority of the Rips Redwoods property. (Reso #18-0221)
August 14, 2018:	Board of Supervisors accepts a trail easement over a portion of the Rips Redwoods property. (Reso #18-0329)
August 14, 2018:	Board of Supervisors authorizes a quitclaim deed to improve conditions of title.

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

The acquisition provides a working landscape and open space land that contributes to economic vitality and provides wildlife habitat and connectivity, and recreational opportunities for the public.

IRREVOCABLE OFFER OF DEDICATION

(Public Resources Code §5565.5)

RECITALS

A. In a companion transaction of even date, Rips Redwoods, LLC ("GRANTOR") conveyed a conservation easement to the Sonoma County Agricultural Preservation and Open Space District, a public agency formed pursuant to the provisions of Public Resources Code sections 5500 *et seq.* ("DISTRICT"), by recordation of that certain instrument entitled "Deed and Agreement Between Rips Redwoods, LLC and the Sonoma County Agricultural Preservation and Open Space District Conveying a Conservation Easement and Assigning Development Rights," recorded in the Office of the Sonoma County Recorder as Document No. 2018-069318 ("Conservation Easement").

B. GRANTOR is the owner in fee simple of that certain real property located in Sonoma County and more particularly described in Exhibit A, attached hereto and incorporated herein by this reference ("GRANTOR'S Property").

C. Because the boundary of GRANTOR'S Property is unsettled at this time, the DISTRICT and GRANTOR agreed to record the Conservation Easement over only that portion of GRANTOR's Property that is certain to belong to GRANTOR.

D. DISTRICT and GRANTOR originally intended that the entirety of GRANTOR's Property would be preserved and protected by the Conservation Easement and, but for GRANTOR's need to expedite the conveyance of the Conservation Easement, the parties would have elected to clarify the full extent of GRANTOR'S Property before the recordation of the Conservation Easement in an effort to conserve the maximum extent of GRANTOR's rightful property interests.

E. As consideration for DISTRICT's willingness to record the Conservation Easement before the full extent of GRANTOR's Property could be settled, GRANTOR conveys this Irrevocable Offer of Dedication to the DISTRICT so that the remainder of GRANTOR's Property may be preserved and protected by the Conservation Easement once GRANTOR completes the actions necessary, if any, to settle title to GRANTOR's Property.

IRREVOCABLE OFFER

1. ***Grant.*** For valuable consideration, the sufficiency of which is hereby acknowledged, GRANTOR hereby grants and makes to the DISTRICT an irrevocable offer of dedication ("Irrevocable Offer") of a conservation easement interest in the remainder of GRANTOR's Property ("the Remainder Property") that is located near Sonoma, California and is more particularly described in Exhibit B attached hereto and incorporated herein as though fully set forth.

2. ***District's Power to Accept.*** This offer may be accepted by the DISTRICT at any time as to any or all of the Remainder Property as to which GRANTOR may establish good title in the sole opinion of the DISTRICT. The DISTRICT's acceptance of this offer as to a portion of the Remainder Property shall not extinguish the offer with respect to the unaccepted portion of the Remainder Property, such that the District may subsequently accept additional portions of the Remainder Property as it may elect to do from time to time in its sole discretion.

3. ***Effect of Acceptance.*** Upon the DISTRICT'S acceptance of this Offer, the Conservation Easement shall extend to and encumber the Remainder Property. Upon recordation of the DISTRICT's acceptance, at DISTRICT's discretion, it may record an amendment to the Conservation Easement to revise the legal description to clarify the scope of the encumbered property. GRANTOR agrees to cooperate with DISTRICT in the execution and recordation of any instruments deemed necessary by DISTRICT to document the net effect of the DISTRICT's acceptance of this Irrevocable Offer.

4. ***Grantor's Notice to Third Parties.*** All instruments granting any lease or other real property interest in the Remainder Property by GRANTOR to third-parties shall disclose the DISTRICT's power of acceptance set forth herein to the grantee of any

such interest. All such interests so granted by GRANTOR shall be, and shall at all times remain subject to, subordinate to, and inferior to the DISTRICT's rights hereunder. GRANTOR's power to create such estates is limited by and subordinate to this Irrevocable Offer and, as such, DISTRICT may terminate any or all interests estates so created upon its acceptance of this Irrevocable Offer.

5. ***Duty to Preserve Offered Property.*** Until such time as DISTRICT accepts this Irrevocable Offer, GRANTOR covenants to preserve the Remainder Property in its current, natural and unimproved condition, consistent with the Conservation Easement.

6. ***Irrevocable Offer to Bind Successors.*** This Irrevocable Offer constitutes a burden upon and will continue as a restrictive covenant and equitable servitude running in perpetuity with the Remainder Property and will bind GRANTOR, GRANTOR's heirs, personal representatives, lessees, executors, successors, including purchasers at tax sales, assigns, and all persons claiming under them forever. The GRANTOR intends that this Irrevocable Offer benefit and burden, as the case may be, its respective successors, assigns, heirs, executors, administrators, agents, officers, employees, and all other persons claiming by or through GRANTOR pursuant to the common and statutory law of the State of California.

[THIS SPACE LEFT INTENTIONALLY BLANK]

IN WITNESS WHEREOF, GRANTOR has executed this Irrevocable Offer this 2nd day of October, 2018.

IRREVOCABLE OFFER OF DEDICATION

(Government Code §7050)

RECITALS

A. In a companion transaction of even date, Rips Redwoods, LLC ("GRANTOR") conveyed a trail easement to the County of Sonoma, a political subdivision of the State of California ("COUNTY"), by recordation of that certain instrument entitled "Grant of Public Access Trail Easement" recorded in the Office of the Sonoma County Recorder as Document No. 2018-069319 ("Trail Easement").

B. GRANTOR is the owner in fee simple of that certain real property located in Sonoma County and more particularly described in Exhibit A, attached hereto and incorporated herein by this reference ("GRANTOR'S Property").

C. Because the boundary of GRANTOR'S Property is unsettled at this time, the COUNTY and GRANTOR agreed to record the Trail Easement over only that portion of GRANTOR's Property that is certain to belong to GRANTOR.

D. COUNTY and GRANTOR originally intended that the Trail Easement would run parallel to the South Fork of the Gualala River to the western boundary of GRANTOR's Property. But for GRANTOR's need to expedite recordation of the Trail Easement, the parties would have elected to clarify the full extent of GRANTOR's Property before the recordation of the Trail Easement in an effort to provide for a riverside trail to the fullest extent of GRANTOR's rightful property interests.

E. As consideration for COUNTY's willingness to close escrow as to the Trail Easement before the full extent of GRANTOR's Property could be settled, GRANTOR conveys this Irrevocable Offer of Dedication to the COUNTY so that the Trail Easement may extent to the true western boundary of GRANTOR's Property once GRANTOR completes the actions necessary, if any, to settle title to GRANTOR's Property.

IRREVOCABLE OFFER

1. ***Grant.*** For valuable consideration, the sufficiency of which is hereby acknowledged, GRANTOR hereby grants and makes to the COUNTY an irrevocable offer of dedication ("Irrevocable Offer") of a trail easement interest as to a portion of the remainder of GRANTOR's Property ("the Remainder Property") that is located near Sonoma, California and is more particularly described in Exhibit B attached hereto and incorporated herein as though fully set forth. This Irrevocable Offer extends only to those portions of the Remainder Property as reasonably necessary to extend the Trail Easement Area (as defined by the Trail Easement) alongside the South Fork of the Gualala River to the western boundary line of GRANTOR's Property.

2. ***County's Power to Accept.*** This Irrevocable Offer may be accepted by the COUNTY at any time as to any or all of the Remainder Property as to which GRANTOR may establish good title in the sole opinion of the COUNTY. The COUNTY's acceptance of this Irrevocable Offer as to a portion of the Remainder Property shall not extinguish the Irrevocable Offer with respect to the unaccepted portion of the Remainder Property, such that the COUNTY may subsequently accept additional portions of the Remainder Property as it may elect to do from time to time in its sole discretion.

3. ***Effect of Acceptance.*** Upon the COUNTY'S acceptance of this Offer, the Trail Easement shall extend to and encumber the Remainder Property so as to extend the Trail Easement Area alongside the South Fork of the Gualala River to the western boundary line of GRANTOR's Property. Upon recordation of the COUNTY'S acceptance, at COUNTY'S discretion, it may record an amendment to the Trail Easement to revise the legal description to clarify the scope of the encumbered property. GRANTOR agrees to cooperate with COUNTY in the execution and recordation of any instruments deemed necessary by COUNTY to document the net effect of the COUNTY's acceptance of this Irrevocable Offer.

4. ***Grantor's Notice to Third Parties.*** All instruments granting any lease or other real property interest in the Remainder Property by GRANTOR to third-parties shall disclose the COUNTY'S power of acceptance set forth herein to the grantee of any such interest. All such interests so granted by GRANTOR shall be, and shall at all times remain subject to, subordinate to, and inferior to the COUNTY'S rights hereunder. GRANTOR's power to create such estates is limited by and subordinate to this Irrevocable Offer and, as such, COUNTY may terminate any or all interests estates so created upon its acceptance of this Irrevocable Offer.

5. ***Duty to Preserve Offered Property.*** Until such time as COUNTY accepts this Irrevocable Offer, GRANTOR covenants to preserve the Remainder Property in its current, natural and unimproved condition.

6. ***Offer Assignable.*** This Irrevocable Offer, and all rights of the COUNTY hereunder, may, at the sole discretion of COUNTY, be assigned to any public agency authorized by law to accept such offers. Once dedicated, the Trail Easement shall be freely transferrable in accordance with law.

7. ***Irrevocable Offer to Bind Successors.*** This Irrevocable Offer constitutes a burden upon and will continue as a restrictive covenant and equitable servitude running in perpetuity with the Remainder Property and will bind GRANTOR, GRANTOR's heirs, personal representatives, lessees, executors, successors, including purchasers at tax sales, assigns, and all persons claiming under them forever. The GRANTOR intends that this Irrevocable Offer benefit and burden, as the case may be, its respective successors, assigns, heirs, executors, administrators, agents, officers, employees, and all other persons claiming by or through GRANTOR pursuant to the common and statutory law of the State of California.

[THIS SPACE LEFT INTENTIONALLY BLANK]

IN WITNESS WHEREOF, GRANTOR has executed this Irrevocable Offer this 2nd day of October, 2018.

To: Board of Directors of the Sonoma County Agricultural Preservation and Open Space District

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): Sonoma County Agricultural Preservation and Open Space District

Staff Name and Phone Number:	**Supervisorial District(s):**
Sara Press, 565-7368	First

Title: Weeks Ranch Conservation Easement Acquisitions

Recommended Actions:

Adopt resolution of the Board of Directors of the Sonoma County Agricultural Preservation and Open Space District authorizing the acquisition of two conservation easements at a total cost of $4,200,000 over Weeks Ranch North and Weeks Ranch South, making certain findings, and authorizing and directing the General Manager to take all other actions necessary to establish the conservation easements.

Executive Summary:

Weeks Ranch is comprised of a northern portion and a southern portion, separated by Los Alamos Road, east of the city of Santa Rosa. Weeks Ranch North consists of approximately 888 acres and Weeks Ranch South consists of approximately 318 acres, both of rolling grasslands, Douglas fir-mixed hardwood forest, oak woodland and chaparral. The Sonoma County Agricultural Preservation and Open Space District proposes to acquire a conservation easement over each property to protect natural, agricultural, and scenic values, ensuring that the scenic hillsides and stream headwaters remain intact and the grasslands and forests continue to sequester carbon and provide water quality and quantity benefits.

Discussion:

Property

Weeks Ranch is located on both sides of Los Alamos Road, east of the city of Santa Rosa, and just before the northern entrance to Hood Mountain Regional Park and Open Space Preserve. The property is operated as one cattle grazing operation and is subject to a Williamson Act contract.

The Weeks Ranch North property (the "North Ranch") varies in elevation between approximately 1,200 and 2,200 feet above sea level, with an elevated ridge line that generally runs east to west across the northern/central portion of the property. Rolling grasslands, Douglas fir-mixed hardwood forestland and oak woodland/chaparral habitat comprise the North Ranch. Within the North Ranch, Sonoma Agricultural Preservation and Open Space District ("Ag + Open Space) has identified 335 acres of Species Rich Area, 411 acres of Core Oak Woodland and 168 acres of Conifer Forest. There is also serpentine habitat. Headwater streams run through the North Ranch, draining into Mark West Creek (Van Buren Creek) and Santa Rosa Creek (Salt Creek). A segment of Santa Rosa Creek, which is a steelhead stream, also runs through the North Ranch. A portion of the North Ranch overlays the Napa-Sonoma Volcanic Highlands groundwater basin. There are currently two houses on the North Ranch plus barns, sheds and corrals used for residential or the cattle grazing operation.

The Weeks Ranch South property (the "South Ranch") varies in elevation between approximately 900 to 1500 feet above sea level, with Los Alamos Road near the top and generally descending from there down to Santa Rosa Creek. Sachett Creek, an intermittent tributary to Santa Rosa Creek, originates on the South Ranch and flows across the South Ranch for approximately 0.5 miles. Northern Spotted Owl has been recorded on the South Ranch. Within the South Ranch, Ag + Open Space has identified 148 acres of Species Rich Area, 109 acres of Core Oak Woodland and 40 acres of Core Conifer Forest. No houses currently exist on the South Ranch, with the only development being improvements for the cattle operation and for recreational use by the family.

Conservation Easements

The conservation easements over Weeks Ranch North and Weeks Ranch South will protect the natural resources, agricultural, and scenic resources on the property, including habitat connectivity and wildlife movement, while allowing for residential use, grazing, and recreational and educational opportunities. The conservation easements will restrict the amount of subdivision and development, allowing two primary residences and agricultural buildings on the North Ranch within identified "Building Envelopes." There are also areas identified as "Enhanced Pasture Areas," where seeding and/or fertilizing of pasture is permitted, and "Riparian Areas," on either side of Santa Rosa, Van Buren, Salt and Sachett creeks, where uses are limited. There are also three small existing orchards located on the Property, where non-commercial crops are allowed, and two existing rock pits, for rock to maintain roads on the Property.

Appraisals and Values

Steve Salmon of Garland & Salmon prepared full narrative appraisals of the Weeks Ranch North and Weeks Ranch South conservation easements with a date of valuation of April 24 and April 5, 2018, respectively. The appraisals find that the value of the Weeks Ranch North conservation easement is $3,200,000 and the value of the Weeks Ranch South conservation easement is $1,900,000. The Ag + Open Space Fiscal Oversight Commission reviewed the appraisals at its October 4, 2018 meeting and adopted its Resolution No. 2018-009 finding that a payment for up to the value of each appraisal would not exceed fair market value for the acquisition of the conservation easements.

Purchase Price and Grant

Ag + Open Space and the landowners have agreed upon an acquisition price of $3,000,000 for the conservation easement over the North Ranch and $1,200,000 for the conservation easement over the South Ranch.

Sonoma Land Trust received a $720,000 grant from the Gordon and Betty Moore Foundation to contribute to the purchase price of the acquisition of the conservation easements. Ag + Open Space will contribute $3,480,000 towards the acquisition.

Conformance with Adopted Plans

Connecting Communities and the Land

The acquisition project furthers objectives in Ag + Open Space's Acquisition Plan in multiple categories:

- Water, Wildlife and Natural Areas, specifically to preserve natural systems and lands that provide viable habitat linkages for wildlife, support the diverse biological resources of the county, and protect water resources to benefit human communities as well as fish and wildlife.
- Farms and Ranches, specifically to protect the diverse agricultural character and heritage of Sonoma County and to support the continued viability of farms and ranches.
- Greenbelts and Scenic Hillsides, specifically to preserve key scenic lands that surround cities and communities.
- Recreation and Education, specifically to allow compatible public recreational uses.

Ag + Open Space Expenditure Plan

The acquisition project is consistent with the Ag + Open Space's Expenditure Plan, specifically the protection of biotic habitat areas and riparian corridors (Paragraph 4) and the protection of areas of high scenic quality (Paragraph 2).

Sonoma County General Plan 2020

The acquisition project furthers several goals and policies in Sonoma County's General Plan 2020, specifically in the Land Use, and Open Space and Resource Conservation Elements as described below:

- Identify important open space areas between and around the county's cities and communities. Maintain them in a largely open or natural character with low intensities of development. (Goal LU-5)
- Protect lands currently in agricultural production and lands with soils and other characteristics that make them potentially suitable for agricultural use. Retain large parcel sizes and avoid incompatible non-agricultural uses. (Goal LU-9)
- Encourage conservation of undeveloped land, open space, and agricultural lands, protection of water and soil quality, restoration of ecosystems, and minimization or elimination of the disruption of existing natural ecosystems and flood plains. (Policy LU-11f)
- Preserve roadside landscapes that have a high visual quality as they contribute to the living environment of local residents and to the County's tourism economy. (Goal OSRC-3)
- Preserve the unique rural and natural character of Sonoma County for residents, businesses, visitors and future generations. (Goal OSRC-6)
- Protect and enhance the County's natural habitats and diverse plant and animal communities. (Goal OSRC-7)
- Protect native vegetation and wildlife, particularly occurrences of special status species, wetlands, sensitive natural communities, woodlands, and areas of essential habitat connectivity. (Objective OSRC-7.1)
- Maintain connectivity between natural habitat areas. (Objective OSRC-7.5)
- Protect and enhance Riparian Corridors and functions along streams, balancing the need for agricultural production, urban development, timber and mining operations, and other land uses with the preservation of riparian vegetation, protection of water resources, flood control, bank stabilization, and other riparian functions and values. (Goal OSRC-8)

California Environmental Quality Act

Ag + Open Space's contribution toward the acquisition and its acceptance of a conservation easement over the Weeks Ranch properties is exempt from the California Environmental Quality Act (CEQA) on several grounds. The purpose of the project is to preserve fish and wildlife habitat. (See CEQA Guidelines Section 15313 (a).) In addition, the project is exempt because the purpose is to maintain the open space character of the property. (See CEQA Guidelines Section 15317.) The project is also exempt because it is intended to preserve and restore the natural conditions, including plant and animal habitats, and allow some continued agriculture. (See CEQA Guidelines Section 15325 (a), (b), and(c).)

Recommendation

Ag + Open Space requests that the Board of Directors adopt a resolution:

- Determining that the acquisition of the conservation easements is consistent with the 2020 Sonoma County General Plan and the District's Expenditure Plan; and
- Finding that the acquisition of the conservation easements is exempt from CEQA and directing the filing of a notice of determination in accordance with CEQA; and
- Approving the acquisition of a conservation easement over the Weeks Ranch North property for up to $3,000,000 and over the Weeks Ranch South property for up to $1,200,000; and
- Authorizing the Board President to execute the conservation easements and associated certificates of acceptance; and
- Directing the recordation of documents and authorizing and directing the General Manager to take all other actions necessary to complete the transaction; and
- Dedicating the conservation easements to open space purposes pursuant to Public Resources Code section 5540.

Prior Board Actions:

Strategic Plan Alignment	Goal 2: Economic and Environmental Stewardship

The acquisition will protect open space and agricultural land that contributes to the area's economic vitality and provides wildlife habitat and connectivity.

Fiscal Summary			
Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	$4,200,000

Resolution Number:

☐ 4/5 Vote Required

Resolution of The Board Of Directors of The Sonoma County Agricultural Preservation and Open Space District, County of Sonoma, State of California, Determining that the Acquisition of two Conservation Easements over Weeks Ranch North and Weeks Ranch South is Consistent with the 2020 County General Plan and the District's Expenditure Plan; Determining that the Acquisition is Exempt from the California Environmental Quality Act; Authorizing Acquisition of the Conservation Easement over Weeks Ranch North for $3,000,000; Authorizing Acquisition of the Conservation Easement over Weeks Ranch South for $1,200,000; Authorizing and Directing the President to Execute the Conservation Easements and Associated Certificates of Acceptance; Directing the Recordation of Documents; Authorizing and Directing the General Manager to Take All Other Actions Necessary to Complete the Transaction; and Dedicating the Conservation Easements to Open Space Purposes Pursuant to Public Resources Code Section 5540

Whereas, the General Manager has negotiated and is recommending the purchase of a conservation easement from John M. Rasmason, as Trustee under the John M. Rasmason 2006 Trust and Barbara L. Mix and Alfred C. Mix, Trustees, the Barbara L. Mix and Alfred C. Mix Revocable Living Trust over the approximately 888-acre property located at 2300 Los Alamos Drive, Santa Rosa, California 95409 and a conservation easement from Harry V. Thomas and Marion E. Thomas, as Trustees, or the Successor Trustee, of the Declaration of Revocable Trust Dated February 25, 1993; Jerita Maddox; Linda M. Stibi; Mary L. Stitt, as Trustee, or any Successor Trustee, of the Mary L. Stitt 2015 Revocable Living Trust; John M. Rasmason, Trustee, of the John M. Rasmason 2006 Dated January 6, 2006; John Stibi; and Successor Trustees of the Trust of Ruth Corinne Gray dated August 25, 1994 over the approximately 318-acre property located at 2355 Los Alamos Drive, Santa Rosa, California 95409 ("Conservation Easements"); and

Whereas, the Conservation Easement fulfills policies in the District's acquisition plan, Connecting Communities and the Land, including policies to preserve natural systems and lands that provide viable habitat linkages for wildlife, the diverse agricultural character and heritage of the county, and key scenic lands that surround cities and communities, and to allow compatible public recreational uses; and

Whereas, by its Resolution No. 2018-009 dated October 4, 2018, the Sonoma County Open Space Fiscal Oversight Commission determined that proposed purchase prices for the Conservation Easements that is equal to or less than the values set forth in the appraisals does not exceed their fair market value; and

Now, Therefore, Be It Resolved that this Board of Directors hereby finds, determines, declares and orders as follows:

1. *Truth of Recitals*. That the foregoing recitations are true and correct.

2. *General Plan Consistency*. That the acquisition of the Conservation Easements ("the Project") further implements the 2020 Sonoma County General Plan. The Project supports goals and policies in the Land Use and Open Space and Resource Conservation Elements, including to maintain important open space areas between and around the county's cities and communities in a largely open or natural character with low intensities of development; protect lands currently in agricultural production; encourage conservation of undeveloped land, open space and agricultural lands, and protection of water and soil quality; preserve roadside landscapes that have a high visual quality; preserve the unique rural and natural character of Sonoma County for residents, businesses, visitors and future generations; protect and enhance the county's natural habitats and diverse plant and animal communities; protect native vegetation and wildlife, particularly areas of essential habitat connectivity; maintain connectivity between natural habitat areas; and protect and enhance Riparian Corridors and functions along streams.

3. *Expenditure Plan Consistency*. That the Project is consistent with the Expenditure Plan approved by the voters of Sonoma County in 2006 via Measure F because it will protect the highest priority lands using a conservation easement as the primary tool for protection, and specifically protect land and water resources.

4. *California Environmental Quality Act; Notice of Exemption*. That the acquisition of the Conservation Easements authorized by this resolution is exempt from the requirements of the California Environmental Quality Act (Public Resources Code Sections 21000 and following) pursuant to Section 15313(a) of Title 14 of the California Administrative Code because the purpose of the acquisition is to preserve fish and wildlife habitat; alternatively it is exempt pursuant to Section 15317 of Title 14 of the California Code of Regulations because the purpose of the acquisition is to maintain the open space character of the area; and alternatively it is exempt pursuant to Section 15325(a), (b) and (c) of Title 14 of the California Code of Regulations because the purpose of the acquisition is to preserve the existing natural conditions, allow for continued agricultural use, and allow for restoration of natural conditions. Immediately upon adoption of this resolution, the General Manager is directed to file with the County Clerk, and the County Clerk is directed to post and to maintain the posting of a notice of exemption pursuant to Public Resources Code Section 21152.

5. *Authority to Sign Contracts*. That the President is authorized and directed to execute, on behalf of the District that certain agreement entitled "Deed and Agreement By and Between John M. Rasmason, as Trustee under the John M. Rasmason 2006 Trust and Barbara L. Mix and Alfred C. Mix, Trustees, the Barbara L. Mix and Alfred C. Mix Revocable Living Trust and the Sonoma County Agricultural Preservation and Open Space District Conveying a Conservation Easement and Assigning Development Rights" and that certain agreement entitled Deed and Agreement By and Between the Harry V. Thomas and Marion E. Thomas, as Trustees, or the Successor Trustee, of the Declaration of Revocable Trust Dated February 25, 1993; Jerita Maddox; Linda M. Stibi; Mary L. Stitt, as Trustee, or any Successor Trustee, of the Mary L. Stitt 2015 Revocable Living Trust; John M. Rasmason, Trustee, of the John M. Rasmason 2006 Dated January 6, 2006; John Stibi; and Successor Trustees of the Trust of Ruth Corinne Gray dated August 25, 1994 and the Sonoma County Agricultural Preservation and Open Space District Conveying a Conservation Easement and Assigning Development Rights," together with the certificates of acceptance required by Government Code Section 27281.

6. *Closing Documents*. That the District's Counsel is hereby authorized and directed to prepare and deliver appropriate escrow instructions and other necessary documents to Fidelity National Title Company to complete the transaction as described. The General Manager is authorized to make any technical, non-substantive changes in the Conservation Easements and other closing documents prior to recordation with the prior approval of the District's Counsel. The General Manager is further authorized and directed to execute any other documents necessary to complete this transaction as described.

7. *Payment of Purchase Price and Costs of Escrow*. That, at the request of the General Manager, the County Auditor is authorized and directed to draw a warrant or warrants against available funds in the County's Open Space Special Tax Account for the proposed acquisition in an amount not to exceed $2,280,000 payable to Fidelity National Title Company (Escrow No. FSNX-7051700060-CT) for the North Ranch and $1,200,000 payable to Fidelity National Title Company (Escrow No. FSNX-7051700061-CT) for the South Ranch, and in such other amounts necessary for associated transactional costs requested by the General Manager.

8. *Authorization for Recordation*. That the General Manager is authorized and directed to record with the Sonoma County Recorder the Conservation Easements and Certificates of Acceptance, and to deliver conformed copies of these documents, bearing evidence of recording, to the Clerk of the Board of Directors.

9. *Dedication*. That the Conservation Easements to be acquired by the District is hereby dedicated to open space purposes pursuant to Public Resources Code Section 5540.

Title: Agreement Amendments and Extensions

Recommended Actions:

Authorize the General Manager of the Sonoma County Agricultural Preservation and Open Space District to execute amendments to professional service agreements totaling $262,136 for work stalled or otherwise impacted by the Sonoma Complex Fires 2017 as follows:

1. Third Amendment to Agreement with Ag Innovations Network extending the term of the agreement to December 31, 2020;
2. Second Amendment to Agreement with Gold Ridge Resource Conservation District extending the term of the agreement to June 30, 2019, adding to the Scope of Work, and adding funds in an amount not-to-exceed $35,478, resulting in a total contract amount of $423,982;
3. Fifth Amendment to Agreement with the City of Healdsburg extending the term of the agreement to June 30, 2021;
4. Second Amendment to Agreement with LandPaths extending the term of the agreement to June 30, 2019, and adding funds in an amount not-to-exceed $133,191, resulting in a total contract amount of $1,233,704;
5. Second Amendment to Agreement with Reza Environmental extending the term of the agreement to December 31, 2020;
6. Second Amendment to Agreement with Sonoma Ecology extending the term of the agreement to June 30, 2019, adding to the Scope of Work, and adding funds in an amount not-to-exceed $43,467 resulting in a total contract amount of $260,192;
7. Second Amendment to Agreement with Sonoma Ecology Center extending the term of the agreement to December 31, 2020;
8. Second Amendment to Agreement with Synectics, LLC extending the term of the agreement to May 31, 2022, adding to the Scope of Work, and adding funds in an amount not-to-exceed $50,000, resulting in a total contract amount of $125,000; and

9. Second Amendment to Agreement with Vollmar Consulting extending the term of the agreement to December 31, 2019.

Executive Summary:

In early 2017, the Sonoma County Agricultural Preservation and Open Space District began work on a comprehensive plan, now referred to as the Vital Lands Initiative, the focus of which was to prioritize its work over the next 15 years using the best available science and data. In October 2017, in the midst of the planning process, Sonoma County experienced devastating wildfires that had a significant impact on the operations and priorities of all County departments and special districts, necessitating complete focus on response, recovery and resiliency. Completion of the Vital Lands Initiative and many other projects were delayed several months while staff responded to more immediate needs resulting from the fire. Several agreements related to the development of the Vital Lands Initiative, or to outcomes of the Initiative, subsequently became delayed. Amending and/or extending this suite of agreements will allow completion of the Vital Lands Initiative, which will provide guidance and will allow completion of programs and projects previously delayed.

Discussion:

The Sonoma County Agricultural Preservation and Open Space District (Ag + Open Space) consults with a wide array of contractors to provide needed services and expertise to help Ag + Open Space achieve its mission. These services range from operating education programs and public outings to organizational development to technical writing services to land management activities. Given the breadth and depth of expertise required for many of our projects, the most efficient use of taxpayer dollars is to enter into as-needed contracts with specialized outside resources to complement internal resources and skills.

Ag + Open Space seeks to amend and/or extend nine contracts whose scopes of work were impacted or delayed as a result of the fires of October 2017. The subject contracts were executed with specific scopes of work and timelines based on existing conditions at that time. As circumstances have changed, it is necessary to amend these contracts to reflect current conditions.

Funds and time agreement extensions

Gold Ridge RCD (894), Sonoma Ecology Center (895), LandPaths (896)

These contracts were executed on October 14, 2014 and were due to expire on September 1, 2017. However, Ag + Open Space opted to extend these contracts in August 2017 in order to complete the Vital Lands Initiative, which would have provided strategies and guidance for the next iteration of education and outings programming. As mentioned, the fires forced the delay of the Initiative as all departments responded to the disaster and then shifted focus to recovery. At the same time, Ag + Open Space was in the process of a classification and compensation study, which was approved by the Board in September 2018. This Board action resulted in the reclassification of a now vacant Administrative Aide/Public Engagement Specialist position to a new APOSD Community Relations Assistant position. After the hiring process is complete, this new staff person will be responsible for drafting the Request for Proposals for the next round of outings and education contracts and will manage the service provider contracts. Extending the current agreements an additional six months until June 30, 2019 will give the necessary time to conduct the hiring process and assess the current agricultural and conservation education programs in light of feedback received during the Vital Lands Initiative process.

In addition to the term extensions, Ag + Open Space will also add money to each of these three contract budgets to allow for the continued operation of public outings and education programs on lands protected by Ag + Open Space. Gold Ridge Resource Conservation District will receive an additional $35,478 for a total not to exceed amount of $423,982 over the life of the contract to continue operating education programs for elementary and high school students. Sonoma Ecology Center will receive an additional $43,467 for a total not to exceed amount of $260,192 over the life of the contract. The additional money will cover expenses related to education program and outings operation for the remainder of the contract, as well as account for increases in billing rates. LandPaths will receive an additional $133,191 for a total not to exceed $1,233,704 over the life the contract to continue operating education programs for elementary and high school students, as well as for public outings. The total amount of additional appropriations for these three contracts is $212,136.

Synectics LLC (1003)
Synectics LLC was brought under contract to help with the development of the Vital Lands Initiative through internal engagement, stakeholder engagement, and strategy development. The fires forced Ag + Open Space to extend the timeline for completion of the Vital Lands Initiative, thus requiring contract extensions. Further, tasks have been expanded to include training and implementation of a performance evaluation process, including individual coaching and support to managers and supervisors. Ag + Open Space recommends extending the term to May 31, 2022, and adding $50,000 for a total agreement amount not to exceed $125,000.

Time only agreement extensions

Ag Innovations (906)
Ag Innovations was brought under contract in 2014 to provide agricultural strategic planning services. Ag + Open Space has recently formed an external Agriculture Advisory Committee to facilitate feedback from the agricultural community that will be incorporated into the Vital Lands Initiative. Ag Innovations is well-qualified to provide strategic planning support and facilitation services for this newly-formed Agriculture Advisory Committee. Ag + Open Space recommends extending the term to December 31, 2020 to accomplish these tasks.

City of Healdsburg (881)
Ag + Open Space entered into a service agreement with the City of Healdsburg (City) in 2014 to provide interim land management services and operations and maintenance of Healdsburg Ridge Open Space Preserve (Preserve) until the time of land transfer, which was anticipated to be in June 2016. Due to extenuating circumstances, the land transfer has not yet taken place. A contract extension is required to complete the transfer agreement with the City and for continuation of land management services until the transfer agreement is complete. Ag + Open Space recommends extending the term to June 30, 2021 or date of transfer of the Preserve to the City, whichever occurs first.

Kathryn Reza (O-958)
Kathryn Reza was brought under contract in 2015 to provide research and technical writing support for the Vital Lands Initiative. With the extension of the timeline for the Initiative, it is necessary to extend the term of this contract as her services will be needed to see the Initiative through to completion. Ag + Open Space recommends extending the term to December 31, 2020 to accomplish these tasks.

Sonoma Ecology Center (977)
Sonoma Ecology Center was brought under contract in 2016 to provide technical research and planning support for the development of the Vital Lands Initiative. With the extension of the timeline for the Initiative, it is necessary to extend the term of this contract. Sonoma Ecology Center continues to perform work in support of the Initiative and an extension would allow for their support through its completion. Ag + Open Space recommends extending the term to December 31, 2020 to accomplish these tasks.

Vollmar Consulting (O-807)
Ag + Open Space entered into an open scope service agreement with Vollmar Consulting in 2013 to provide an array of environmental and planning services, such as biological surveys, planning and document preparation related to the California Environmental Quality Act (CEQA), and other permitting requirements. With resource management, wildlife, and botanical studies still pending for several fee properties such as Calabazas Creek Open Space Preserve and Carrington Coast Ranch, an extension is necessary to allow this firm to provide support for those studies. Ag + Open Space recommends extending the term to December 31, 2019 to accomplish these tasks.

Prior Board Actions:

September 25, 2018:	The Board approved Miscellaneous Classification, Compensation, and Allocation Changes establishing five new APOSD classifications and salaries, including an APOSD Community Relations Assistant, effective September 25, 2018. (Board Action #1)
August 22, 2017:	The Board approved contract extensions and amendments with Laguna de Santa Rosa Foundation, LandPaths, Gold Ridge Resource Conservation District and Sonoma Ecology Center for Agricultural and Conservation Education programs throughout Sonoma County. (Board Action #2)
July 19, 2016:	Approval of contracts for community outreach and technical services related to the District's Comprehensive Plan (Board Action #1)
May 24, 2016:	The Board approved contract with Steve Zuieback DBA Synectics LLC to support Board-directed planning activities. (Board Action #59)
January 12, 2016:	Board approval of amendment to agreement with City of Healdsburg for Land Management Services at Healdsburg Ridge Open Space Preserve. (Board Action #3)
October 14, 2014:	The Board approved contracts with Laguna de Santa Rosa Foundation, LandPaths, Gold Ridge Resource Conservation District and Sonoma Ecology Center for Agricultural and Conservation Education programs throughout Sonoma County.

	These service providers were selected through a competitive Request for Proposal process. (Board Action #21)
June 3, 2008:	Board approval of the Healdsburg Ridge Open Space Preserve Management Plan and Matching Grant Agreement. (Resolution 08-0506)

Strategic Plan Alignment	Goal 2: Economic and Environmental Stewardship

The Agricultural and Conservation Education program services provided by LandPaths, Gold Ridge RCD, and Sonoma Ecology Center offer the Sonoma County community a way to connect with and learn about lands protected by the Ag + Open Space including those that are in private ownership and are not open to the public.

The environmental services provided by Vollmar Consulting support the continued management and stewardship of protected natural habitats.

The professional services provided by Synectics LLC, Sonoma Ecology Center, Ag Innovations, and Kathryn Reza support the completion of the Vital Lands Initiative, which will guide our land conservation planning, acquisition and stewardship activities through the life of Measure F.

Fiscal Summary - FY 18-19

Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	$262,136		
Additional Appropriation Requested			
Total Expenditures	**$262,136**		
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other	$262,136		
Use of Fund Balance			
Contingencies			
Total Sources	$262,136		

Narrative Explanation of Fiscal Impacts:

No additional appropriations are required due to the increased encumbrances of a total of $262,136 in contract amendments. Adequate appropriations are already available in the approved budget.

Per the districtwide Classification and Compensation Study (Study), the APOSD Community Relations Assistant classification was determined to receive $15,132 higher compensation than the previous position of Administrative Aide/Public Engagement Specialist. This adjustment, and all changes relating to the Study, will be presented to the Board with the Second Quarter Comprehensive Budget Adjustments.

Supervisorial District(s):

Title: ACCESS Sonoma Safety Net Initiative Agreements

Recommended Actions:

Authorize the Department of Health Services to execute Addendum 2 to the Statement of Work with International Business Machines Corporation for implementation of Phase 3 of the ACCESS Sonoma Data Hub Project, increasing the contract amount by $1,800,000 resulting in a new total not-to-exceed amount of $4,797,000, and any amendments that do not substantially change the scope of work or increase funding.

Authorize the Director of Health Services to execute a grant agreement with The William and Flora Hewlett Foundation to accept $1,000,000 in revenue to support the ACCESS Sonoma Safety Net Initiative for the period November 1, 2018 to November 1, 2019.

Executive Summary:

On March 23, 2018 Sonoma County entered into an agreement with International Business Machines Corporation (IBM) to provide software and implementation of the ACCESS Sonoma Data Hub Project to support the County’s rapid response efforts. Sonoma County Safety Net Departments participating in the project include Health Services, Human Services, Community Development Commission, Probation, and Child Support Services. The ACCESS Sonoma Data Hub 1) provides a global view of clients that accounts for their multiple needs, allowing for coordinated front-end referrals and service delivery across the Safety Net Departments and 2) allows for continued analysis of each client’s needs, collaborative case management, and evaluation of outcomes to support more proactive and prevention-focused efforts aimed at addressing critical client needs.

On August 23, 2018 the Board approved Addendum 1 to the Statement of Work with IBM for Phase 2 implementation of the project. Phase 2 is currently underway and will add homeless services information to the database, add client care planning and goal tracking, and incorporate security for future expansion.

The Sonoma County Safety Net Departments are now requesting approval to execute Addendum 2 to the Statement of Work with IBM for Phase 3 implementation of the Data Hub project. Phase 3 of the project will continue to develop functionality including the infrastructure for adding additional data from systems not currently linked to Connect360 database, a system to electronically refer clients to community partners, a portal for clients to access the system via home or mobile devices, an alert system to advise the care team and clients of important events, additional reporting, and additional security to protect data as access to the system expands. Phase 3 implementation is anticipated to be completed in the Fall of 2019.

In August 2018 the County applied for grant funding from The William and Flora Hewlett Foundation to support development of the Data Hub Project. In response, the Hewlett Foundation has approved a funding award of $1,000,000.

Discussion:

In April 2017 the Sonoma County Board of Supervisors established one of its 2017 Strategic Priorities to Strengthen the County's Safety Net system. The goal of this priority is to identify the most vulnerable residents, defined as those who are often high utilizers of County services across multiple departments, and develop coordinated strategies to improve their well-being, self-sufficiency, and recovery.

In response to the Board's Safety Net Priority, the Sonoma County Safety Net Departments of Health Services, Human Services, Community Development Commission, Probation, and Child Support Services (Safety Net Departments) created an initiative – ACCESS Sonoma County – to begin developing strategies to identify and coordinate services for the most vulnerable residents. Because each of the Safety Net Departments maintain client data within their own systems, the creation of an integrated data hub was determined to be a critical factor in the successful implementation of the ACCESS Sonoma County initiative.

With the devastating fires in October 2017 underscoring the importance of the County's initiative to strengthen its safety net system, on December 5, 2017 the Board of Supervisors adopted a resolution approving the development of the integrated data hub to facilitate successful implementation of disaster rapid response efforts, ACCESS Sonoma County, and Whole Person Care projects. In response to the Board's Direction, the Safety Net Departments launched the County's first ever Interdepartmental Multi-Disciplinary Team, comprised of front line staff from each of the Safety Net Departments including case workers, eligibility workers, clinicians, probation officers and other direct service providers working with an Interdepartmental Multi-Disciplinary Team coordinator to establish care plans for program participants.

ACCESS Sonoma Data Hub Project Phases 1 and 2

In support of the County's rapid response efforts, the County entered into an agreement with IBM through which IBM provided a Rapid Prototyping Tool consisting of the IBM Connect 360 Master Data Management Patient Hub as well as a front end interface through its Watson Care Manager software. The IBM Connect 360 Master Data Management Patient Hub and Watson Care Manager interface serve two purposes. First, they provide a global view that accounts for client multiple needs, allowing for coordinated front-end referrals and service delivery across the Safety Net Departments. Second, the Master Data Management Patient Hub and Watson Care Manager interface allow for continued analysis of client needs, collaborative case management, and evaluation of outcomes to support more proactive and prevention-focused efforts aimed at addressing critical needs of the client.

The development of the IBM system has been planned in multiple phases with each phase delivering added functionality to the system. The Phase 1 Rapid Prototype delivered the core database (Data Hub) with an initial view of basic client information and was completed both on-time and within budget. Phase 2 is currently underway and will add homeless services information to the database, add client care planning and goal tracking, and incorporate security for future expansion. Phase 2 is currently on-time and on-budget.

Since July 9, 2018, the Interdepartmental Multi-Disciplinary Team has used the initial functionality to support their case management of their first cohort of clients; the victims of the October 2017 fires who remained homeless weeks after the fires were extinguished. In addition to assisting the fire victims, the team is currently using the system to support case management of a second cohort of clients consisting of homeless residents who have complex mental health, substance abuse, and/or physical health issues contributing to their homelessness.

Project Continuation and Funding

With the successful implementation of the first phase and continuation of the second phase of the project, the Sonoma County Safety Net Departments have determined that continued efforts to further implement the IBM Connect 360 Master Data Management Patient Hub and Watson Care Manager, including connecting to additional County data systems, will contribute substantially towards the goal of improving outcomes of the target population. Full system implementation will result in a system accessible by the Interdepartmental Multi-Disciplinary Team as well as well as regional hospitals and local non-profit partners.

Phase 1 of the project totaled $1,197,082 and Phase 2 project funding was budgeted for $1,799,918. The IBM software was provided to Sonoma County at a cost substantially below that normally charged by IBM. Funding for Phase 1 and Phase 2 were provided by Health Services (including Whole Person Care and Intergovernmental Transfer funding), Human Services, Probation, and the Well Being Trust.

Several additional project phases are anticipated with full implementation in three to five years. Total cost for the full project is anticipated to be $6 million to $10 million. In addition to identified funding streams, such as Whole Person Care and Intergovernmental Transfer funding, the Safety Net Departments were invited to apply for funding from the California Health Care Foundation and The William and Flora Hewlett Foundation to support the project. On October 26, 2018 the County was notified of a $1.0 million award by the Hewlett Foundation to support the project. This item includes a request to approve the Hewlett Foundation grant. A request for $1.8 million from the California Health Care Foundation has been submitted and is currently under consideration. We expect to be invited to apply for future funding from the Well Being Trust. Safety Net Department efforts to identify and acquire funding to support the project from community partners and foundations having an interest in the target population will continue during project implementation.

ACCESS Sonoma Data Hub Project Phase 3

The Sonoma County Safety Net Departments are now requesting approval to execute Addendum 2 to the Statement of Work with IBM for Phase 3 implementation of the Data Hub project. Phase 3 of the project provides for continued development of features and services and adds support for connectivity with additional County systems. Phase 3 implementation is anticipated to be completed in the Fall of 2019.

IBM Statement of Work Addendum 2 does the following: 1) sets forth the Phase 3 project scope, 2) defines Phase 3 “use cases,” 3) expands the technical solution with additional source systems, 4) establishes IBM and County responsibilities related to Phase 3 project implementation, and 5) provides schedule and pricing information.

The following are highlights of the additional capabilities provided through implementation of Phase 3 of the Data Hub:

1) Additional Data: Phase 3 will focus on implementing the prototype design by incorporating additional County systems into the data hub, including permitted data from criminal justice systems, additional data from existing Safety Net Department systems. The additional data will continue to add to and be consolidated in the “Golden Client Record.”
2) Basic Referral Capability: Phase 3 will engage community partners to design a basic referral system which can be implemented and expanded upon in further phases.
3) Basic Alert System: Phase 3 will add basic functionality for an alert system that notifies care team members of important issues such as clients missing appointments, expiration of shelter, loss of benefits, and deadlines for client actions.
4) Client Portal: Phase 3 will add a mobile enabled client portal so that the client can track progress towards achieving their goals and can receive alerts from the care team or other sources.
5) Expanded Security Roles: Phase 3 will include implementation of security roles to support referral capabilities, client portal security, and limited access for community partners.
6) Electronic Authorization Forms: Phase 3 will refine the use of electronic authorization forms that facilitate limited sharing of information with client permission.

The budgeted implementation cost for Phase 3 of the project is $1,800,000. Funding of $1.0 million will be provided by the Hewlett Foundation grant. Intergovernmental Transfer funding will be used to fund the remaining portion of the project. In addition, the Safety Net Departments are in the process of requesting funding support from community partners, which may offset the use of Intergovernmental Transfer funding required for the project.

ACCESS Sonoma Data Hub Project Phase 4

The Sonoma County Safety Net Departments will continue to plan for Phase 4 of the project. Phase 4 will continue implementation and will continue to incorporate data from other source systems as well as additional data sets from the current safety net departments. Phase 4 will expand the referral system to engage additional community partners, will further expand security roles to allow more control over information sharing, and will provide more information to County departments and community partners who have been authorized by the clients. It is anticipated that the Safety Net Departments will return to the Board in early 2019 to request approval to amend the agreement with IBM for Phase 4 project efforts. The cost of Phase 4 will be similar to the cost of Phase 3.

Overall Project Expectations and Outcome Measures

Overall project expectations and outcome measures are clearly defined as follows:

1) Clients will achieve increased income and assets though access to job placement assistance and case management. This will be measured by job placement statistics.
2) Clients will have a reduced long-term dependence on public benefits due to the coordinated multi-disciplinary approach to service delivery. This will be measured by reduction in utilization of services analysis.
3) Clients will have greater housing stability through participation of Community Development Coalition programs in the Interdepartmental Multi-Disciplinary Team. This will be measured by housing vulnerability index screening.
4) Clients will have improved health and well-being through coordinated referral to appropriate health partners such as Fully Qualified Health Centers. This will be measured by the number of client referrals to physical health providers.
5) The Interdepartmental Multi-Disciplinary Team will provide integrated client services and use coordinated client tracking, evidenced by access to comprehensive client data in Watson Care Manager.
6) The Interdepartmental Multi-Disciplinary Team will provide improved critical needs response and access to services due to the mobile capabilities and integrated nature of the Watson Care Manager coupled with the integrated nature of the Interdepartmental Multi-Disciplinary Team.
7) The Interdepartmental Multi-Disciplinary Team will experience collaborative information sharing through face-to-face interaction between Team members and through access to the 360 degree client view in Watson Care Manager.
8) The Safety Net Departments will experience expanded service capacity as the Interdepartmental Multi-Disciplinary Team stabilizes the highest utilizer's reliance on services through efficient and effective service delivery. This will be measured by reduction in utilization of services analysis.
9) The County will experience reduced costs and duplicative administration as the Interdepartmental Multi-Disciplinary Team works collaboratively to reduce overlapping services and refers clients to the most cost efficient services. This will be measured by pre-service and post-service cost reports.

Project Coordination Efforts

The County's Information Systems Department Systems and Programming Division has played a critical role in working with the Safety Net Departments as well as their software support staff and vendors to extract the appropriate client data for the Connect 360 Master Data Management Patient Hub. The Information Systems Department Technical Services Division is working with IBM to ensure technical requirements of hosting the on premise solution meet appropriate security and support guidelines.

Each of the Safety Net Departments have committed staff to the Interdepartmental Multi-Disciplinary Team. Staff are available or co-located with IBM for the duration of project implementation and provide information regarding County programs, policies, and business needs; the County technology environment; and confidentiality, privacy, authorization, and consent.

The Safety Net Departments have also been working with the Privacy Officer, County Counsel and outside legal counsel to address privacy and confidentiality issues. These efforts will continue alongside IBM's project efforts.

Prior Board Actions:

On August 8, 2018 the Board approved Addendum 1 to the Statement of Work with International Business Machines Corporation for implementation of Phase 2 of the ACCESS Sonoma Data Hub Project, increasing the contract amount by $1,799,918 resulting in a new total not-to-exceed amount of $2,997,000.

On March 20, 2018 the Board approved a Statement of Work and Cloud Services Agreement with International Business Machines Corporation to provide software in support of the rapid deployment of an integrated data hub and front end user application for the ACCESS Sonoma County initiative, in an amount of $1,197,082.

On December 5, 2017 the Board 1) received a report on the activities underway to address the Board of Supervisors priority to Secure the Safety Net and 2) adopted a resolution approving the county Safety Net Departments and Community Develop Commission to strengthen coordinated, client-centered care delivery strategies and develop an information hub to facilitate successful implementation of disaster rapid response efforts, ACCESS Sonoma County, and Whole Person Care projects.

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

The development and deployment of the IBM Master Data Management Patient Hub and Watson Care Manager interface will provide a global view of the client that accounts for his/her multiple needs allowing for coordinated front-end referrals and service delivery across the Safety Net Departments with the goal of improved client well-being, self-sufficiency, and recovery.

Fiscal Summary

Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	1,800,000		
Additional Appropriation Requested	0		
Total Expenditures	**1,800,000**	**0**	**0**
Funding Sources			
General Fund/WA GF			
State/Federal	800,000		
Fees/Other	1,000,000		
Use of Fund Balance			
Contingencies			
Total Sources	**1,800,000**	**0**	**0**

Narrative Explanation of Fiscal Impacts:

The implementation cost for Phase 3 of the project is $1,800,000. Funding of $1.0 million from the Hewlett Foundation grant will be used to fund Phase 3 implementation. Intergovernmental Transfer funding will be used to fund the remaining portion of Phase 3. Expenditures for the IBM Addendum and grant revenue from the Hewlett Foundation grant will be added to the fiscal year 2018-2019 budget via the second quarter consolidated budget adjustments process.

In addition to known current funding sources, the Safety Net Departments are in the process of requesting funding support from various organizations, which may offset the use of Intergovernmental Transfer funding required for the project.

Addendum 2

to the Statement of Work between IBM and County of Sonoma
for the ACCESS Sonoma Rapid Prototype

This Addendum 2 (this "Addendum") is dated ____________________________ and executed as an amendment to the Statement of Work ("SOW") dated March 23, 2018 between International Business Machines Corporation ("Contractor") and County of Sonoma ("CoS" or "County"). In the event of a conflict between the terms of the SOW and the terms of this Addendum, the terms of this Addendum shall govern.

1. Project Background

The County together with Contractor has completed Phase 1 – Rapid Prototype and will complete Phase 2 – Whole Person Care initial care plan by the end of December, 2018. These phases are part of a multiphase initiative to support ACCESS Sonoma County ("ACCESS" or "ACCESS Sonoma" or "Phase 3") to address the needs of the most vulnerable residents who are often high or multi-need utilizers of County Safety Net services. Phase 1 addressed those who were displaced by the 2017 wildfires ("Wildfire Cohort") and Phase 2 has added a Whole Person Care cohort from the County of Sonoma. The County desires to work with Contractor to create enhancements to the ACCESS Sonoma County system and roll out new Phase 3 functionality to support the needs of additional clients and cohorts in an expanded user base of County and community partners.

2. Project Scope

This Phase 3 project will be performed by Contractor on a time and materials (T&M) basis.

The County and Contractor will implement and deliver technology to enable the use of the ACCESS SONOMA system for the existing Cohorts while expanding the Whole Person Care (WPC) Cohort in accordance with the use cases listed in Table 1 below (the "Use Cases"). Contractor shall perform activities, within the schedule and hours allotted, such as assist in

1. defining functional and technical requirements,
2. performing additional configuration of the Watson Care Manager (WCM) software to serve as the UI,
3. update Connect360 interfaces as may be needed for up to three (3) additional source systems,
4. update existing application programming interfaces ("APIs") between Connect360 and WCM, and
5. provide rollout, transition, operations and support services for the initial maintenance and operation of the delivered ACCESS Sonoma system.

2.1. ACCESS Sonoma Use Cases and Requirements for Business Functionality by Phase

The following table specifies the County identified Use Cases that define the overall functionality of the Phase 3 implementation. Additional detail about each Use Case will be developed as part of the Phase 3 project and documented in WP 5, Requirements Validation Documents prior to the start of each sprint.

The system functionality identified in the Use Cases that the Contractor shall commence to produce are listed below and will be further defined in the Functional Specifications.

Table 1, Use Cases

1	Import or enhance Justice Department source data into Connect360 and view data in WCM
2	Import or enhance additional source data #2 into Connect360 and view data in WCM
3	Import or enhance additional source data #3 into Connect360 and view data in WCM
4	Add system referral functionality
5	Add community partner referral functionality
6	Client Mobile access to view of goals
7	Multi-channel alerts for clients and care team
8	Import data from TAP assessments into WCM assessments
9	Address security (Multi Factor Authentication) questions to enable clinical access to WCM and enter clinical medical screen
10	Enhance RBAC access in WCM to limit views based on roles
11	Create capability to capture consent
12	Provide new reports and analytics
13	Create and execute Transition Plan
14	Maintain and groom implementation backlog for future phases

3. Existing ACCESS Sonoma Project Artifacts and Practices

The ACCESS Sonoma project has established a library of milestone deliverables, work products, and other project artifacts (Artifacts) that have been created during previous software development lifecycle (SDLC) phases of the ACCESS Sonoma system. These are have been created using established version control procedures. Likewise, the ACCESS Sonoma project continues to develop practices and procedures in the creation and rollout of the ACCESS Sonoma system. It is the intent of this Addendum to produce incremental additions to the existing Artifacts using existing ACCESS Sonoma practices and procedures as applicable.

4. Technical Solution

Previous phases of the ACCESS Sonoma project have established the technical solution that will be used and enhanced in Phase 3. Unless otherwise stated herein, Technical Solution is the same for this Addendum as set forth in the Statement of Work between County and Contractor, dated March 23, 2018, Section 4 Technical Solution:

The following table specifies the source systems planned to be integrated in Connect360. These will be targeted for implementation by order of the sequence listed during the Phase 3 implementation, subject to allocated cost and schedule constraints.

Table 2: Phase 3 Source Systems

Source System	Description
TBD	Justice information
TBD	TBD
TBD	TBD

County and Contractor will work collaboratively to define the data map of elements for each Source System that will be implemented during Phase 3. Additional data elements may be added at a later date through future projects by Contractor and the County or through the designated Change Management Process for the Project.

5. Contractor Responsibilities

Unless otherwise stated herein, Contractor Responsibilities are the same for this Addendum as set forth in the Statement of Work between County and Contractor, dated March 23, 2018, Section 5 Contractor Responsibilities including the following subsections:

5.1 Project Management Responsibilities
5.2 Project Deliverables

The following Milestone Deliverables (MDs) and Work Products (WPs) will be delivered subject to the agreed upon Project Workplan. MDs and WPs will be developed incrementally in collaboration with the County using iterative Agile techniques.

Table 3, Project Milestone Deliverables and Work Products by Task

Task	Name	Type	Frequency	Timing
Task 1: Project Initiation and Planning	WP 1: Project Phase 3 Kick-off Presentation	WP	Once	Start of Phase 3
	MD 1: Project Management Plan	MD	Optional – To be determined	N/A
	MD 2: Project Workplan	MD	Once	Within 20 business days of the start of Phase 3
	WP 2: Monthly Project Status Reports	WP	Monthly	Monthly
	WP 3: System Design and Development Strategy	WP	Optional – To be determined	N/A
	WP 4: Master Testing Strategy	WP	Optional – To be determined	N/A
Task 2: Requirements and System Design	WP 5: Requirements Validation and Requirements Traceability Matrix	WP	Once per sprint	Start of each sprint
	MD 3: Functional Design	MD	Once per sprint	End of each sprint
	WP 6: System Architecture	WP	Optional – To be determined	N/A
	MD 4: Technical Design Document	MD	Once per sprint	End of each sprint
Task 3: Development	WP 7: Data Integration and Synchronization Plan	WP	Optional – To be determined	N/A
	MD 6: Configured and Developed System ready for System Integration Testing	MD	Once per sprint at end of sprint	End of each sprint
	WP 8: System Maintenance, Support, and Transition Plan	WP	Once	Within 20 business days of the start of Phase 3 and periodically updated
Task 4: Testing	**MD 5:** Test Plan including Test Scenarios, Test Cases, and Test Scripts for SIT and UAT	MD	Once per sprint	End of each sprint
	MD 7: System Integration Testing Completion	MD	Once per sprint	End of each sprint
	MD 8: Completed Detailed Requirements Traceability Matrix	MD	Once per sprint	End of each sprint
	MD 9: UAT Completion	MD	Once	After UAT completion

Task	Name	Type	Frequency	Timing
Task 5: Training	WP 9: Training Plan	WP	Optional – To be determined	N/A
	WP 10: Training Curricula and Materials	WP	Optional – To be determined	N/A
	MD 10: End-User Training Completion	MD	Once	End of release if applicable
Task 6: Deployment	WP 11: Deployment Plan	WP	Once	End of release
	WP 12: System Document and Custom Code	WP	Once	After Go Live
	MD 11: Go Live Checklist and Readiness	MD	Once	After UAT
	MD 12: Go Live	MD	Once	After Go Live
Task 7: Project Closeout	**MD 13**: Project Closeout Document	MD	Once	End of project phase

Unless otherwise stated herein, guidelines for each MD are the same for this Addendum as set forth in the SOW dated March 23, 2018 and are incorporated herein by reference.

Unless otherwise stated herein, guidelines for each WP are the same for this Addendum as set forth in the SOW dated March 23, 2018 and are incorporated herein by reference.

Contractor shall update MD's and WP's identified in Table 3, Project Milestone Deliverables and Work Products by Task, from the latest version of each respective document in the ACCESS Sonoma library according to the frequency and timing indicated and the approved schedule in the Project Workplan.

6. County Responsibilities

Unless otherwise stated herein, County Responsibilities are the same for this Addendum as set forth in SOW, dated March 23, 2018, Section 6 County Responsibilities, including the following subsections that are incorporated herein by reference:

6.1 ES Project Management Responsibilities
6.2 County Software Responsibilities
6.3 County Data Responsibilities
6.4 County Testing Responsibilities
6.5 County Training Responsibilities
6.6 County Organizational Change Management Responsibilities

7. Schedule

The project start date is no more than four (4) weeks from the date the contract is signed by both parties, or another mutually agreed upon date. The project end date is approximately 150 days from the project start date, or another mutually agreed upon date per the approved Project Workplan. The County and Contractor will identify one or more Go Live dates for Phase 3 as part of the approved Project Workplan. The estimated Phase 3 start date is January 14, 2019.

8. Pricing

Labor services will be invoiced on a time and materials basis, inclusive of all costs unless otherwise agreed in writing, at the end of each month for hours worked that month and documented in the monthly status report. The monthly status report will also contain a cumulative total of hours consumed against the total hours estimated in the table below. Contractor is only authorized to work up to the estimated total price regardless of Scope, Completion Criteria, Exit Criteria, or MD or WP guidelines; the change control process will be utilized should additional funding be required. Hours will be invoiced using the following table:

Table 4, Labor Rates and Estimated Hours and Pricing

Bill Rate	Positions	Estimated Hours	Estimated Price
375	Delivery Executive	-	$ -
375	Program Manager	231	$ 86,625.00
325	Project Manager	678	$ 220,350.00
165	Sr. Project Administrator	-	$ -
96	Project Administrator	123	$ 11,808.00
375	Architect Lead/Enterprise Solution Architect	231	$ 86,625.00
325	Architect	308	$ 100,100.00
165	Data Security and Privacy Specialist	62	$ 10,230.00
186	DBA	308	$ 57,288.00
175	System Administrator	-	$ -
305	Lead BA	616	$ 187,880.00
275	Sr. Business Analyst	-	$ -
217	Business Analyst	-	$ -
305	Development Lead	308	$ 93,940.00
338	Sr Watson Care Manager Development Lead	539	$ 182,182.00
338	Sr Watson Care Manager Integration Developer	77	$ 26,026.00
338	Sr Watson Care Manager Report Developer	-	$ -
217	Watson Care Manager Developer	-	$ -
217	Data Warehouse Developer	616	$ 133,672.00
217	MDM Developer	616	$ 133,672.00
137	Sr. Programmer	616	$ 84,392.00
120	Programmer	616	$ 73,920.00
262	Lead Tester	308	$ 80,696.00
217	Sr. Tester	308	$ 66,836.00
135	Tester	616	$ 83,161.00
96	Jr. Tester	-	$ -
328	Training Lead	-	$ -
218	Training Developer	133	$ 29,027.00
		7,310	$ 1,748,430.00

Software costs will be invoiced as listed in the following table. Detailed quotes for software are included in this Addendum.

Table 5, Software Pricing

Description	Cost ($)
Watson Care Manager	28,605.00
IBM InfoSphere Master Data Management Patient Hub	13,308.75
Connect360	9,656.25
Total	51,570.00

Phase 3 cost summary is provided in the following table.

Table 6, Phase 3 Cost Summary

Description	Cost ($)
Labor	1,748,430.00
Software	51,570.00
Total	1,800,000.00

Dear Carolyn Staats

Thank you for being an IBM Client. We are delighted to provide this quote for IBM offerings.

Worldwide, companies like yours are increasingly demanding more from their information technology infrastructure, increased flexibility, scalability and agility to meet changing business needs. At the same time, they want reduced cost, rapid deployment and investment recovery.

Over the years, our products, services and solutions capabilities have given our Clients the reliability, availability, security, and manageability to improve operations and achieve efficiency while accommodating growth at reduced cost. These characteristics have been and will remain fundamental to the IBM portfolio.

This quotation is valid from 18-Dec-2018 and will expire on 31-Dec-2018.
We look forward to your order.

If you need assistance with placing your order or wish to discuss your quotation, please contact the IBM Representative noted below.

Yours sincerely,

IBM Terms for IBM Cloud Offering Transactions

The referenced Cloud Services are governed by the terms of your Cloud Service Agreement (www.ibm.com/terms), its associated attachment(s), and the referenced Transaction Documents. Your order and use of the Cloud Services are your acceptance of the prices and terms referenced in this document, except to the extent superseded by a written amendment or agreement signed by both of us.

Final coverage dates for offerings listed are provided in your Proof of Entitlement.

Transaction Documents

Service Description(s) for ordered Cloud Services:
IBM WATSON CARE MANAGER
https://www.ibm.com/software/sla/sladb.nsf/sla/sd-7428-04

Please read all terms for each of the above referenced Transaction Document(s) to ensure you are agreeing to the most recent version of the document. If you have any trouble with the link provided, please copy and paste the appropriate URL in your browser's navigation bar.

Protected Health Information and Business Associate Agreement

Protected health information (as defined in the Health Insurance Portability and Accountability Act of 1996, as amended) ("PHI") may be used with the applicable Software as a Service or Cloud Service provided that (a) a Business Associate Agreement ("BAA") that will govern such PHI has been validly executed between the parties and is linked to this transaction via the transaction number (such BAA is hereby incorporated herein by reference) and (b) the applicable Software as a Service or Cloud Service is designed to handle PHI, as indicated in the offering's TOU or Service Description.

IBM's standard BAA is available at: https://www.ibm.com/software/sla/sladb.nsf/sla/baa/

If you have any trouble with the link provided, please copy and paste the appropriate URL in your browser's navigation bar.

Billing and Provisioning

At time of acceptance of this quote either by Purchase Order or Firm Order Letter, IBM will begin billing for the SaaS Subscription(s) as indicated above. When IBM is ready to provision the SaaS Subscription(s) in the quote IBM will use information provided by the Client, as well as default technical data to configure the clients SaaS Subscription for access. IBM will notify the Client with details on the provisioning on the date in which the Client can access the SaaS and the term for the SaaS will begin on the date indicated. If provisioning information needs to be updated please refer to the IBM Software as a Service (SaaS) Support Handbook.

Please work with your IBM Sales Representative or your IBM Business Partner to complete the provisioning data at or prior to time of order.

THE WILLIAM AND FLORA HEWLETT FOUNDATION

Office of the President

November 6, 2018

Ms. Barbie Robinson
Director, Sonoma County Department of Health Services
Sonoma County Department of Health Services
3313 Chanate Road
Santa Rosa, CA 95404

Reference: Grant #2018-8304

Dear Ms. Robinson:

I am pleased to inform you that The William and Flora Hewlett Foundation (the “Foundation”) has authorized a grant of $1,000,000 over one year to Sonoma County Department of Health Services (“Grantee”) for expanding the data system for the ACCESS Sonoma County Initiative. The grant will be paid in one installment. This grant, with any income earned from investment of the grant funds, is for expanding the data system for the ACCESS Sonoma County Initiative.

In order for the Foundation to make payment, Grantee must accept the terms of the grant as set forth in the following paragraphs. The terms of this award letter constitute the entire agreement between the Foundation and the Grantee and supersede any prior oral or written understandings or communications between them. Please note that the Foundation reserves the right to cancel this grant if a signed copy of this Agreement is not received by the Foundation within 60 days of the date first written above.

Tax Status. Grantee confirms that it is a governmental unit referred to in Section 170(c)(1) of the Internal Revenue Code, or a Federal, state, local, or foreign government body, agency, or instrumentality that is treated as an organization described in Code Sections 501(c)(3) and 509(a)(1).

Use of Grant Funds. Grantee agrees that the grant funds, with any income earned from the investment of the grant funds (together, “the grant funds”), will be used exclusively for charitable purposes as described in Section 501(c)(3) of the Internal Revenue Code, and only in support of the activities described in Grantee's proposal of October 25, 2018 and the budget attached thereto. Funds not used during the term of the grant (November 1, 2018 to November 1, 2019) must be returned to the Foundation unless an extension is approved at Grantee’s request and in the Foundation’s discretion.

Grantee agrees to repay to the Foundation any portion of the grant funds expended in violation of this Agreement.

Prohibited Use of Funds. Grantee agrees to not use any portion of the grant funds to any extent for any of the following:

a. To participate in any political campaign on behalf of or in opposition to any candidate for public office or to otherwise influence the outcome of any specific public election as described in Section 4945(d)(2) of the Internal Revenue Code; or
b. For any non-charitable purposes.

Limitations on Lobbying Activity. Grantee attests that the lobbying amount shown on the project budget is a good faith estimate of the lobbying expenses expected to be incurred in connection with the activities described in its proposal. Grantee represents that the amount of this grant, together with the amount of any other grants that Grantee has received from the Foundation for the same project for the same year does not exceed the amount of Grantee's budget for project activities that are not attempts to influence legislation.

Grantee acknowledges that the Foundation has not designated or earmarked any part of the grant funds for the carrying on of propaganda or attempting to influence legislation within the meaning of Internal Revenue Code Sections 501(h), 4945(d)(1) and 4945(e) and related regulations (these provisions include local, state, federal, and foreign legislation), and neither Grantee nor the Foundation has entered into any agreement, oral or written, to the contrary.

Please note that in the event Grantee uses any of the grant funds to influence governmental action in ways permissible under the Internal Revenue Code and the terms of this Agreement, Grantee may have lobby reporting or other disclosure requirements under the laws of a particular state or other jurisdiction; note further, that state law may include influencing state administrative agencies within the definition of lobbying. Grantee acknowledges that Grantee is solely responsible for complying with any and all applicable lobby reporting or other disclosures.

Special Limitations for Ballot Questions. The Foundation intends that the grant funds shall not be used to influence the qualification or passage of any ballot question or similar legislative decision put to voters. As an essential condition for receiving the grant funds, Grantee shall not use any portion of the grant funds in any manner that would cause the Foundation to be identified as funding reportable lobbying, or require the Foundation to register under any applicable state or local disclosure law, except as may otherwise be provided in this Agreement.

Human Subject Research. Safeguarding the rights and welfare of human subjects involved in research is principally the responsibility of the Grantee. However, while the Foundation does not micromanage or seek to interfere in the implementation of grants, Grantees conducting human subject research must have appropriate standards to ensure compliance with generally accepted research ethics. If grant funds will be used in whole or in part for research involving human subjects, Grantee represents and warrants that it has such rules and review processes in place and that these rules and processes will be followed. (Such processes may include: obtaining and maintaining institutional review board (or a research ethics review committee) approval, and informed consent of participating research subjects.) Grantee agrees that any subgrant or subcontract awarded by Grantee in its performance of the activities under this grant shall include similar rules and processes in regards to human subject research.

Grantee Control of Funds. Grantee acknowledges that there is no agreement, oral or written, whereby the Foundation has designated or earmarked any part of the grant funds for any specific named organization or individual. Furthermore, Grantee retains full authority and control over the selection process of any re-grants contemplated under the proposal. Specifically, any re-grants will be approved by the Grantee's Board of Directors or its designee. The Foundation may not select re-grantees.

Reporting. Grantee agrees to submit a narrative and financial report on use of the grant funds during the grant period. Reports should be submitted according to the following schedule:

Reporting requirements	**Due date**
Final Reports	12/01/2019

For your convenience, please see "Reporting Requirements" enclosed with this letter for further instructions on preparing these reports. *Please use the grant reference number located on the first page of this letter in all reports and correspondence*.

Grant Payment. The Foundation's disbursement of payments is contingent upon the Foundation's determination, in its sole discretion, that satisfactory performance of the grant purpose has occurred and is likely to continue to occur. Funding may be modified or discontinued, and any grant funds must be repaid, if at any time the Foundation determines that the conditions of this Agreement are not being met or that satisfactory performance has not occurred.

Payment will be made as follows, subject to the contingencies provided in this grant agreement letter:

Projected date	**Amount**	**Contingency**
Within 30 days of receipt of signed letter agreement	$1,000,000	Receipt of signed grant agreement letter

Grant payments will be made by wire transfer into the Grantee's bank account in accordance with the instructions on the signed wire transfer form, which is incorporated herein by reference.

Compliance with Laws; Government Officials. Grantee represents and warrants to the Foundation that Grantee is legally authorized to enter into this Agreement and that Grantee has complied with and will continue to comply with all applicable local, state, federal and international laws or requirements, including laws governing contacts with government officials (e.g., anti-bribery laws such as the Foreign Corrupt Practices Act) and anti-terrorism laws and sanctions, in connection with the performance of the activities under this grant.

Grantee further represents and warrants, except as otherwise set forth in this Agreement, that there is no agreement, written or oral, between the Foundation and the Grantee whereby the Foundation may direct the activities of the Grantee, including, if applicable, causing the selection of any government official to attend or participate in any event or activity of the Grantee. The Grantee exercises control over that selection process and makes the selection completely independent of the Foundation. Grantee acknowledges that the Foundation is relying upon the representations made by the Grantee in this section in determining that there is no legal impediment to the Foundation's making a grant to the Grantee.

Anti-Terrorism. You will not use funds provided under this Grant Agreement, directly or indirectly, in support of activities (a) prohibited by U.S. laws related to combatting terrorism; (b) with or related to parties on the List of Specially Designated Nationals (www.treasury.gov/sdn); or (c) with or related to countries against which the U.S. maintains a comprehensive embargo (currently, Cuba, Iran, (North) Sudan, Syria, North Korea, and the Crimea Region of Ukraine), unless such activities are fully authorized by the U.S. government under applicable law and specifically approved by the Foundation in its sole discretion. Further, you represent that Grantee is not the target of economic or trade sanctions, and Grantee will immediately inform the Foundation if Grantee becomes the target of economic or trade sanctions, including any ownership or control of Grantee by one or more persons on the List of Specially Designated Nationals.

Intellectual Property. Grantee will retain all rights, including intellectual property rights, in and to final works resulting from projects supported by Foundation grant funds (the "Work Product"), and nothing in this Agreement will be deemed or interpreted to transfer ownership of any such rights to the Foundation. Nevertheless, to ensure that Foundation's grants have as broad an impact as possible, the Foundation requires grantees to license Work Product through an open license. Accordingly, Grantee agrees to make Work Product available to the public in a readily accessible format (e.g., on Grantee's public website) under the most recent version of the Creative Commons Attribution license (CC BY). In addition, the Foundation acknowledges that Grantee retains the right to also make the Work Product available under separate license terms, in its discretion.

Full legal text of the above referenced license is available at the following URL and Grantee should take the time to read and understand the license terms and conditions:

- http://creativecommons.org/licenses/by/4.0/legalcode (a summary may be found at http://creativecommons.org/licenses/by/4.0/)

The Foundation respects the intellectual property rights of others. Accordingly, the Foundation requires, and Grantee represents and warrants to the Foundation, that the Work Product produced hereunder are the original work of Grantee, or that Grantee has obtained sufficient rights, licenses, and permissions to distribute and license Work Product under CC BY, except and solely with respect to any particular item in the Work Product that is expressly identified in writing as owned by a third party not licensed under CC BY.

Notification. Grantee agrees to notify the Foundation immediately of any organizational changes during the term of the grant, including, but not limited to, changes in key personnel and changes in tax status, and changes in the project timing or goals. Any such notification shall be provided in writing, which may be by electronic mail to the Program Officer or other Foundation representative responsible for overseeing this grant.

Evaluation. The Foundation may choose to conduct an evaluation of the effectiveness of this grant (the "Evaluation") either individually or as part of a broader Foundation strategy. Grantee agrees to cooperate in the Evaluation and provide such information to the Foundation or its representatives as necessary.

Grantee further agrees that the Foundation can disseminate to the public the results of the Evaluation, including any data created in connection with the Evaluation. In such cases, the Foundation may share the results of the Evaluation with the Grantee and may provide an opportunity for the Grantee to comment.

Grant Disclosure and Acknowledgement. The Foundation supports transparency and will disclose its grants as required by law and through its own digital content, principally its website (www.hewlett.org) and automated feeds to other data sources in the foundation sector. This data generally includes grantee name, grant amount, duration, award date and purpose. No additional permission from the Foundation is required for a grantee to share this information. The Foundation encourages, but does not require, grantees to include the Foundation in lists of funders and annual reports as a matter of transparency and accountability. Similarly, the Foundation encourages, but does not require, that Grantees that use our funds specifically for nonpartisan research and analysis should disclose us as a funder, as a matter of sound research practice. When it serves an organization's charitable goals and strategies, grantees are also welcome to acknowledge the Foundation's support in other ways. To ensure that the Foundation's grantmaking programs are portrayed accurately, any other use of the Foundation's brand, such as its name, logo or names of its staffers, in cases including but not limited to titles of programs, research reports, paid advertisements, press releases, in meeting materials and digital content, must be reviewed and preapproved by the Foundation. Grantees receiving project support should acknowledge Foundation support only in relation to the relevant project being funded. All requests for approval should be directed to the appropriate Communications Officer. (http://www.hewlett.org/communicating-about-your-grant/) The Communications Department endeavors to review and respond to requests within five business days.

Upon the expiration of this Agreement (including any Foundation-approved extensions) or the termination of this Agreement, or at the request of the Foundation at any time, Grantee shall immediately discontinue the use of the Foundation's name and logo in electronic materials and shall discontinue use within a reasonable period of time for printed materials. All uses beyond this period must be pre-approved in writing by the Foundation, which may be granted or withheld in the sole and absolute discretion of the Foundation.

Signature. Please have a corporate officer authorized to sign on behalf of the Grantee **sign and return** a copy of this grant agreement letter in its entirety to the Foundation to indicate the Grantee's acceptance of the terms of the grant. Grantee will return a signed copy of the entire grant agreement letter to the Foundation electronically by emailing a scanned copy to grantagreements@hewlett.org, which will ensure faster processing of your grant payment. Delivery of an executed signature page of this grant agreement by electronic mail in portable document format (PDF) will be effective as delivery of a manually-executed signature page of the grant agreement. Alternatively, Grantee may return an original signed copy of the grant agreement letter by mail to the Foundation's offices at 2121 Sand Hill Road, Menlo Park, CA 94025, Attention: Grants Management. For grant agreement letters submitted by email, the Grantee agrees to provide the original signed copy to the Foundation at the Foundation's request. This grant agreement may be executed by Grantee and the Foundation in one or more counterparts, each of which will be deemed an original and all of which will constitute one and the same agreement.

Foundation Contact. Should you have any questions related to this grant, please contact Fay Twersky, Program Director or Leeanne Oue, Program Associate for Philanthropy. We are pleased to be able to assist you.

Sincerely,

Larry Kramer
President

Staff Name and Phone Number:
Jenny Abramson, 565-7548
Michael Gause, 565-1997

Supervisorial District(s):
All

Title: Annual Homeless Count to Measure Progress in Ending Homelessness

Recommended Actions:

- Authorize the Executive Director of the Sonoma County Community Development Commission to execute a professional services agreement with Applied Survey Research to conduct the 2019 Homeless Count, including a repeat study of vulnerable Sonoma County households who are unstably housed without formal leases, from December 1, 2018 through June 30, 2019, for an amount not to exceed $124,420.50.
- Authorize the Executive Director of the Sonoma County Community Development Commission to execute substantially similar agreements with Applied Survey Research, at then-current rates for subsequent and automatic annual renewals of this agreement for the following two years, and to execute subsequent amendments to make minor, non-substantive changes.

Executive Summary:

The FY 2018-19 County of Sonoma Budget appropriated $85,456.50 for the annual Homeless Count, which provides a rich body of information about local homelessness and retains Sonoma County's eligibility for federal Continuum of Care Targeted Homeless Assistance. In FY 2017-18, the Board approved additional appropriations of $38,500 for this annual study, to add a telephone survey of Sonoma County households to learn about vulnerable, unstably housed people in the aftermath of the Sonoma Complex Fire. The findings of this adjunct study were so valuable that both our Homeless Count and Disaster Recovery consultants recommended repeating both parts of the study in 2019. This item seeks authority to enter into a professional services agreement for both studies in 2019, to add appropriations in the amount of $38,964 to conduct the telephone survey in 2019, and to enter into similar agreements with Applied Survey Research for the 2020 and 2021 Homeless Counts.

Discussion:

As the central body charged with homeless services planning, the newly redesigned Sonoma County Homeless System of Care is responsible for ongoing data gathering efforts, such as the annual Homeless Count, to inform system planning. The Commission serves this body's interim lead agency until the new Leadership Council designates a joint lead agency; and in this role the Commission submits collaborative funding applications from service providers county-wide. Through these efforts, these entities receive more than $3 million dollars annually in federal Continuum of Care Targeted Homeless Assistance. HUD requires that each Continuum of Care conduct a point-in-time Homeless Count in late January each year. The Homeless Count data is submitted to HUD annually, becomes part of HUD's progress reports to Congress on the national state of homelessness, and informs estimates of needed housing and services to end homelessness in Sonoma County. The FY 2018-19 County of Sonoma Budget appropriated $85,456.50 for the annual Homeless Count.

The 2017 Sonoma County Homeless Count was conducted by Applied Survey Research on January 27, 2017. Applied Survey Research, based in Watsonville, is an acknowledged national leader in the homeless research, community assessment, and program evaluation, whose work is featured in HUD's publication, *A Guide to Counting Unsheltered Homeless People*. Applied Survey Research has also conducted seven previous counts between 2009 and 2018 using similar methodology. The Executive Summary of the 2018 Homeless Count Report is attached to this item.

Applied Survey Research was chosen through a 2008 Request for Proposal process to conduct the 2009 and 2011 counts. The Commission issued a second Request for Proposals in August 2012 with the same methodology requirements as the previous two counts; Applied Survey Research was the sole respondent to that solicitation. The Board then approved agreements engaging Applied Survey Research for the 2013, 2015, 2016, 2017 and 2018 counts. Through a 2014 Department of Health Services Request for Proposals, Applied Survey Research was later pre-qualified for social science research contracts by County agencies. According to the Department of Health Services, this pre-qualification has been extended through FY 2020-21. The Commission has determined that Applied Survey Research's superior performance in seven consecutive homeless counts, as well as the need for consistent data collection and longitudinal analysis, justify continued partnership with Applied Survey Research for the 2019 Homeless Count as well as the two following counts in 2020 and 2021.

Telephone Study of Unstably Housed Persons

To better understand housing needs in the aftermath of the Sonoma Complex Fire, in 2018 the Board appropriated $38,500 to add a study of the "precariously housed" population, understood as persons who are housed doubled up with family or friends, and in similar informal living arrangements. A survey of persons housed in the disaster shelters revealed that 42% of the people surveyed had lived in such an informal situation without a lease on the night before the fire began. Among this group, many lacked documentation that they lived in the fire areas, and could not access FEMA assistance.

Applied Survey Research had previously conducted household telephone surveys to estimate this population in other communities, and had several times proposed to conduct this kind of survey in Sonoma County. The 2018 telephone study included 1,191 completed surveys to a randomized sample of Sonoma County residents between March 16 and April 19, 2018.

On July 10, 2018, the Commission reported the results of the Homeless Census and Survey and the adjunct Telephone Survey. These troubling results indicated that the number of people experiencing homelessness had increased 5.6% since 2017, after seven years of decreases. In addition, the number of people living “doubled up” in Sonoma County as a result of the fires was equal to the number who were doubled up for other reasons. This suggested that the number of people who were unstably housed in Sonoma County had doubled as a result of the fire disaster. Another significant finding was that the fires had disproportionately impacted seniors, many of them living on fixed incomes: 43% of the fire victims who were doubled up as a result of the fires were age 55 and above, compared to 22% of doubled up persons who were not fire victims.

In the July 10 session, the Commission warned of a coming new wave of homelessness in Sonoma County. This concern led to the Commission’s recommendation, and the Board’s approval, of an emergency declaration in order to take advantage of new funds being released by the State of California. As planning proceeds for the use of the State’s Homeless Emergency Aid Program and for Disaster Recovery funds expected in 2019, the Commission recommends repeating the telephone study of unstably housed residents as well as the annual count of literally homeless persons.

If approved, this item will authorize the Executive Director of the Community Development Commission to enter into a professional services agreement with Applied Survey Research to conduct the 2019 Homeless Count, including a repeat telephone survey of unstably housed residents. This item will provide authority for the telephone study, requiring a change designated in the Amended Action Plan coming before the Board later today as part of the Commission’s Affordable Housing package and presentation. Approval of this item will also authorize the Commission to enter into subsequent and automatic annual renewals of this agreement with Applied Survey Research, for the Homeless Counts in 2020 and 2021.

Prior Board Actions:

July 10, 2018, Item #47A – Board received report on the 2018 Sonoma County Homeless Count and adjunct telephone survey.
December 5, 2017, Item #3A – Board approved execution of the professional services agreement with Applied Survey Research and appropriated $38,500 for a study of precariously housed persons.

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

The results of this study will inform estimates of the housing resources needed to reduce and end homelessness in Sonoma County, as well as the housing and programmatic resources required to reduce new entries into homelessness.

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses	$124,420.50	$86,738.35	$88,039.42
Additional Appropriation Requested			
Total Expenditures	**$124,420.50**	**$86,738.35**	**$88,039.42**
Funding Sources			
General Fund/WA GF	$80,000.00	$80,000.00	$80,000.00
State/Federal	$38,964.00		
Fees/Other	$5,456.50	$6,738.35	$8,039.42
Use of Fund Balance			
Contingencies			
Total Sources	**$124,420.50**	**$86,738.35**	**$88,039.42**

Narrative Explanation of Fiscal Impacts:

$80,000 was appropriated from Transient Occupancy Tax funds through the FY 2018-19 budget process. This amount will be included in the Commission's FY 2019-20 and FY 2020-21 County of Sonoma Budget requests.

Each year the Commission requests and receives contributions totaling $16,000 for unspecified Count expenses, from the ten cities. Revenue and Expenditures were appropriated through the FY 2018-19 County of Sonoma Budget, and will be included in the FY 2019-20 and FY 2020-21 County of Sonoma Budget requests.

$38,964 for the adjunct telephone survey will be funded from previously appropriated federal Community Development Block Grant (CDBG). Authority to utilize CDBG is included the HUD FY 2018-19 Amended Action Plan, included in the Commission's Affordable Housing package on the Board's agenda later today.

SONOMA COUNTY

2018 HOMELESS CENSUS & SURVEY

EXECUTIVE SUMMARY

Every year, communities across the country conduct comprehensive counts of the local homeless populations in order to measure the prevalence of homelessness in each local Continuum of Care.

The 2018 Sonoma County Point-in-Time Count was a community-wide effort conducted on February 23, 2018. In the weeks following the street count, a survey was administered to 519 unsheltered and sheltered homeless individuals to profile their experience and characteristics.

2018 SONOMA COUNTY TELEPHONE SURVEY

In March 2018, Sonoma County and ASR implemented a representative, telephone-based household survey to understand the impacts of the fall 2017 fires. A total of 1,191 valid surveys were conducted in this additional assessment of unstably housed and fire-affected populations.

These data are intended to assist service providers, policy makers, funders, and local and state government in gaining a better understanding of the population of individuals who are not homeless but who lack a residence of their own, how the 2017 fires affected the county at large, and planning for the future.

*Subpopulation Definitions

Chronically Homeless

An individual with a disabling condition or a family with a head of household with a disabling condition who:

- Has been continuously homeless for 1 year or more and/or;
- Has experienced 4 or more episodes of homelessness within the past 3 years with the combined homeless episodes totaling a year or more.

Veterans

Persons who have served on active duty in the Armed Forces of the United States. This does not include inactive military reserves or the National Guard unless the person was called up to active duty.

Families

A household with at least one adult member (persons 18 or older) and at least one child member (persons under 18).

Unaccompanied Children

Children under the age of 18 who are homeless and living without a parent or legal guardian.

Transition-Age-Youth

Young adults between the ages of 18 and 24 years old.

The complete comprehensive report includes a more detailed profile of the characteristics of those experiencing homelessness in Sonoma County. It can be found at http://www.sonoma-county.org/cdc/cdhomeless.htm

Standard Professional Services Agreement ("PSA")
Revision G –August 2016

AGREEMENT FOR HOMELESS COUNT CONSULTING SERVICES

This agreement ("Agreement"), dated as of December 1, 2018 ("Effective Date") is by and between the Sonoma County Community Development Commission, a public body corporate and politic (hereinafter "Commission"), and Applied Survey Research (hereinafter "Consultant").

Applied Survey Research (ASR) is a nonprofit, social research corporation dedicated to helping people build better communities by collecting meaningful data, facilitating information-based planning, and developing custom strategies. The firm was founded on the principle that community improvement, initiative sustainability, and program success are closely tied to assessment needs, evaluation of community goals, and development of appropriate responses.

RECITALS

WHEREAS, Consultant represents that it is a duly qualified social research firm experienced in the preparation of Point-In-Time Homeless Census and Survey and related community assessments; and

WHEREAS, in the judgment of the Commission, it is necessary and desirable to employ the services of Consultant for the 2018 Point-In-Time Homeless Count and Survey; and

WHEREAS, in the judgment of the Commission, it is necessary and desirable to repeat a study of "precariously housed" persons in Sonoma County to best plan for an inclusive recovery from the Sonoma Complex Fire disaster.

NOW, THEREFORE, in consideration of the foregoing recitals and the mutual covenants contained herein, the parties hereto agree as follows:

AGREEMENT

1. Scope of Services.

1.1. Consultant's Specified Services. Consultant shall perform the services described in Exhibit "A," attached hereto and incorporated herein by this reference (hereinafter "Scope of Work"), and within the times or by the dates provided for in Exhibit "A" and pursuant to Article

7, Prosecution of Work. In the event of a conflict between the body of this Agreement and Exhibit "A", the provisions in the body of this Agreement shall control.

1.2. Cooperation With Commission. Consultant shall cooperate with Commission and Commission staff in the performance of all work hereunder.

1.3. Performance Standard. Consultant shall perform all work hereunder in a manner consistent with the level of competency and standard of care normally observed by a person practicing in Consultant's profession. Commission has relied upon the professional ability and training of Consultant as a material inducement to enter into this Agreement. Consultant hereby agrees to provide all services under this Agreement in accordance with generally accepted professional practices and standards of care, as well as the requirements of applicable federal, state and local laws, it being understood that acceptance of Consultant's work by Commission shall not operate as a waiver or release. If Commission determines that any of Consultant's work is not in accordance with such level of competency and standard of care, Commission, in its sole discretion, shall have the right to do any or all of the following: (a) require Consultant to meet with Commission to review the quality of the work and resolve matters of concern; (b) require Consultant to repeat the work at no additional charge until it is satisfactory; (c) terminate this Agreement pursuant to the provisions of Article 4; or (d) pursue any and all other remedies at law or in equity.

1.4. Assigned Personnel.

a. Consultant shall assign only competent personnel to perform work hereunder. In the event that at any time Commission, in its sole discretion, desires the removal of any person or persons assigned by Consultant to perform work hereunder, Consultant shall remove such person or persons immediately upon receiving written notice from Commission.

b. Any and all persons identified in this Agreement or any exhibit hereto as the project manager, project team, or other professional performing work hereunder are deemed by Commission to be key personnel whose services were a material inducement to Commission to enter into this Agreement, and without whose services Commission would not have entered into this Agreement. Consultant shall not remove, replace, substitute, or otherwise change any key personnel without the prior written consent of Commission.

c. In the event that any of Consultant's personnel assigned to perform services under this Agreement become unavailable due to resignation, sickness or other factors outside of Consultant's control, Consultant shall be responsible for timely provision of adequately qualified replacements.

2. Payment.

For all services and incidental costs required hereunder, Consultant shall be paid a lump sum in accordance with Exhibit B, attached hereto and incorporated herein by this reference, regardless of the number of hours or length of time necessary for Consultant to complete the services.

Consultant shall not be entitled to any additional payment for any expenses incurred in completion of the services. Exhibit B includes a breakdown of costs used to derive the lump sum amount, including but not limited to hourly rates, estimated travel expenses and other applicable rates.

Upon completion of the work, Consultant shall submit its bill[s] for payment in a form approved by Commission. The bill[s] shall identify the services completed and the amount charged.

Unless otherwise noted in this Agreement, payments shall be made within the normal course of Commission business after presentation of an invoice in a form approved by the Commission for services performed. Payments shall be made only upon the satisfactory completion of the services as determined by the Commission.

Pursuant to California Revenue and Taxation code (R&TC) Section 18662, the Commission shall withhold seven percent of the income paid to Consultant for services performed within the State of California under this agreement, for payment and reporting to the California Franchise Tax Board, if Consultant does not qualify as: (1) a corporation with its principal place of business in California, (2) an LLC or Partnership with a permanent place of business in California, (3) a corporation/LLC or Partnership qualified to do business in California by the Secretary of State, or (4) an individual with a permanent residence in the State of California.

If Consultant does not qualify, Commission requires that a completed and signed Form 587 be provided by the Consultant in order for payments to be made. If Consultant is qualified, then the Commission requires a completed Form 590. Forms 587 and 590 remain valid for the duration of the Agreement provided there is no material change in facts. By signing either form, the Consultant agrees to promptly notify the Commission of any changes in the facts. Forms should be sent to the Commission pursuant to Article 12. To reduce the amount withheld, Consultant has the option to provide Commission with either a full or partial waiver from the State of California.

3. Term of Agreement. The term of this Agreement shall be from December 1, 2018 to June 30, 2019 unless terminated earlier in accordance with the provisions of Article 4 below.

4. Termination.

4.1. Termination Without Cause. Notwithstanding any other provision of this Agreement, at any time and without cause, Commission shall have the right, in its sole discretion, to terminate this Agreement by giving 5 days written notice to Consultant.

4.2. Termination for Cause. Notwithstanding any other provision of this Agreement, should Consultant fail to perform any of its obligations hereunder, within the time and in the manner herein provided, or otherwise violate any of the terms of this Agreement, Commission may immediately terminate this Agreement by giving Consultant written notice of such termination, stating the reason for termination.

4.3. Delivery of Work Product and Final Payment Upon Termination.

In the event of termination, Consultant, within 14 days following the date of termination, shall deliver to Commission all reports, original drawings, graphics, plans, studies, and other data or documents, in whatever form or format, assembled or prepared by Consultant or Consultant's subcontractors, consultants, and other agents in connection with this Agreement and shall submit to Commission an invoice showing the services performed, hours worked, and copies of receipts for reimbursable expenses up to the date of termination.

4.4. Payment Upon Termination. Upon termination of this Agreement by Commission, Consultant shall be entitled to receive as full payment for all services satisfactorily rendered and reimbursable expenses properly incurred hereunder, an amount which bears the same ratio to the total payment specified in the Agreement as the services satisfactorily rendered hereunder by Consultant bear to the total services otherwise required to be performed for such total payment; provided, however, that if services which have been satisfactorily rendered are to be paid on a per-hour or per-day basis, Consultant shall be entitled to receive as full payment an amount equal to the number of hours or days actually worked prior to the termination times the applicable hourly or daily rate; and further provided, however, that if Commission terminates the Agreement for cause pursuant to Section 4.2, Commission shall deduct from such amount the amount of damage, if any, sustained by Commission by virtue of the breach of the Agreement by Consultant.

4.5. Authority to Terminate. The Commission's Executive Director has the authority to terminate this Agreement on behalf of the Commission.

5. Indemnification. Consultant agrees to accept all responsibility for loss or damage to any person or entity, including Commission, and to indemnify, hold harmless, and release Commission and the County of Sonoma, its officers, agents, and employees, from and against any actions, claims, damages, liabilities, disabilities, or expenses, that may be asserted by any person or entity, including Consultant, that arise out of, pertain to, or relate to Consultant's or its agents', employees', contractors', subcontractors', or invitees' performance or obligations under this Agreement. Consultant agrees to provide a complete defense for any claim or action brought against Commission based upon a claim relating to such Consultant's or its agents', employees', contractors', subcontractors', or invitees' performance or obligations under this Agreement. Consultant's obligations under this Section apply whether or not there is concurrent or contributory negligence on Commission's part, but to the extent required by law, excluding liability due to Commission's conduct. Commission shall have the right to select its legal counsel at Consultant's expense, subject to Consultant's approval, which shall not be unreasonably withheld. This indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Consultant or its agents under workers' compensation acts, disability benefits acts, or other employee benefit acts.

6. Insurance. With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain,

insurance as described in Exhibit C, which is attached hereto and incorporated herein by this reference.

7. Prosecution of Work. The execution of this Agreement shall constitute Consultant's authority to proceed immediately with the performance of this Agreement. Performance of the services hereunder shall be completed within the time required herein, provided, however, that if the performance is delayed by earthquake, flood, high water, or other Act of God or by strike, lockout, or similar labor disturbances, the time for Consultant's performance of this Agreement shall be extended by a number of days equal to the number of days Consultant has been delayed.

8. Extra or Changed Work. Extra or changed work or other changes to the Agreement may be authorized only by written amendment to this Agreement, signed by both parties. Minor changes, which do not increase the amount paid under the Agreement, and which do not significantly change the scope of work or significantly lengthen time schedules may be executed by the Commission Executive Director in a form approved by County Counsel. The Commission must authorize all other extra or changed work. Failure of Consultant to secure such written authorization for extra or changed work shall constitute a waiver of any and all right to adjustment in the Agreement price or Agreement time due to such unauthorized work and thereafter Consultant shall be entitled to no compensation whatsoever for the performance of such work. Consultant further expressly waives any and all right or remedy by way of restitution and quantum meruit for any and all extra work performed without such express and prior written authorization of the Commission.

9. Content Online Accessibility Commission and County policy requires that all documents that may be published to the Web meet accessibility standards to the greatest extent possible, and utilizing available existing technologies.

9.1. Standards. All consultants responsible for preparing content intended for use or publication on a Commission-managed or Commission-funded web site must comply with applicable Federal accessibility standards established by 36 C.F.R. Section 1194, pursuant to Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794(d)), and the County's Web Site Accessibility Policy located at http://sonomacounty.ca.gov/Services/Web-Standards-and-Guidelines/.

9.2. Certification. Consultants must complete the Document Accessibility Certification Form attached hereto as Exhibit D which shall describe how all deliverable documents were assessed for accessibility (e.g. Microsoft Word accessibility check; Adobe Acrobat accessibility check, or other commonly accepted compliance check).

9.3. Alternate Format. When it is strictly impossible due to the unavailability of technologies required to produce an accessible document, Consultant shall identify the anticipated accessibility deficiency prior to commencement of any work to produce such deliverables. Consultant agrees to cooperate with Commission staff in the development of alternate document formats to maximize the facilitative features of the impacted document(s), e.g. embedding the document with alt-tags that describe complex data/tables.

9.4. Noncompliant Materials; Obligation to Cure. Remediation of any materials that do not comply with County's Web Site Accessibility Policy shall be the responsibility of Consultant. If Commission and/or County, in its sole and absolute discretion, determines that any deliverable intended for use or publication on any Commission-managed or Commission-funded Web site does not comply with County Accessibility Standards, Commission and/or County will promptly inform Consultant in writing. Upon such notice, Consultant shall, without charge to Commission and/or County, repair or replace the non-compliant materials within such period of time as specified by Commission and/or County in writing. If the required repair or replacement is not completed within the time specified, Commission and/or County shall have the right to do any or all of the following, without prejudice to Commission and/or County's right to pursue any and all other remedies at law or in equity:

a. Cancel any delivery or task order;

b. Terminate this Agreement pursuant to the provisions of Article 4; and/or

c. In the case of custom Electronic Information Technology (EIT) developed by Consultant for Commission, Commission may have any necessary changes or repairs performed by itself or by another contractor. In such event, contractor shall be liable for all expenses incurred by Commission in connection with such changes or repairs.

9.5. Commission's Rights Reserved. Notwithstanding the foregoing, Commission may accept deliverables that are not strictly compliant with County Accessibility Standards if Commission, in its sole and absolute discretion, determines that acceptance of such products or services is in Commission's best interest.

10. Representations of Consultant.

10.1. Standard of Care. Commission has relied upon the professional ability and training of Consultant as a material inducement to enter into this Agreement. Consultant hereby agrees that all its work will be performed and that its operations shall be conducted in accordance with generally accepted and applicable professional practices and standards as well as the requirements of applicable federal, state and local laws, it being understood that acceptance of Consultant's work by Commission shall not operate as a waiver or release.

10.2. Status of Consultant. The parties intend that Consultant, in performing the services specified herein, shall act as an independent contractor and shall control the work and the manner in which it is performed. Consultant is not to be considered an agent or employee of Commission and is not entitled to participate in any pension plan, worker's compensation plan, insurance, bonus, or similar benefits Commission provides its employees. In the event Commission exercises its right to terminate this Agreement pursuant to Article 4, above, Consultant expressly agrees that it shall have no recourse or right of appeal under rules, regulations, ordinances, or laws applicable to employees.

10.3. No Suspension or Debarment. Consultant warrants that it is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in covered transactions by any federal department or agency. Consultant also warrants that it is not suspended or debarred from receiving federal funds as listed in the List of Parties Excluded from Federal Procurement or Non-procurement Programs issued by the General Services Administration. If the Consultant becomes debarred, consultant has the obligation to inform the Commission.

10.4. Taxes. Consultant agrees to file federal and state tax returns and pay all applicable taxes on amounts paid pursuant to this Agreement and shall be solely liable and responsible to pay such taxes and other obligations, including, but not limited to, state and federal income and FICA taxes. Consultant agrees to indemnify and hold Commission harmless from any liability which it may incur to the United States or to the State of California as a consequence of Consultant's failure to pay, when due, all such taxes and obligations. In case Commission is audited for compliance regarding any withholding or other applicable taxes, Consultant agrees to furnish Commission with proof of payment of taxes on these earnings.

10.5. Records Maintenance. Consultant shall keep and maintain full and complete documentation and accounting records concerning all services performed that are compensable under this Agreement and shall make such documents and records available to Commission for inspection at any reasonable time. Consultant shall maintain such records for a period of four (4) years following completion of work hereunder.

10.6. Conflict of Interest. Consultant covenants that it presently has no interest and that it will not acquire any interest, direct or indirect, that represents a financial conflict of interest under state law or that would otherwise conflict in any manner or degree with the performance of its services hereunder. Consultant further covenants that in the performance of this Agreement no person having any such interests shall be employed. In addition, if requested to do so by Commission, Consultant shall complete and file and shall require any other person doing work under this Agreement to complete and file a "Statement of Economic Interest" with Commission disclosing Consultant's or such other person's financial interests.

10.7. Statutory Compliance/Living Wage Ordinance. Consultant agrees to comply, and to ensure compliance by its subconsultants or subcontractors, with all applicable federal, state and local laws, regulations, statutes and policies, including but not limited to the County of Sonoma Living Wage Ordinance, applicable to the services provided under this Agreement as they exist now and as they are changed, amended or modified during the term of this Agreement. Without limiting the generality of the foregoing, Consultant expressly acknowledges and agrees that this Agreement is subject to the provisions of Article XXVI of Chapter 2 of the Sonoma County Code, requiring payment of a living wage to covered employees. Noncompliance during the term of the Agreement will be considered a material breach and may result in termination of the Agreement or pursuit of other legal or administrative remedies.

10.8. Nondiscrimination. Without limiting any other provision hereunder, Consultant shall comply with all applicable federal, state, and local laws, rules, and regulations in regard to nondiscrimination in employment because of race, color, ancestry, national origin, religious creed, belief or grooming, sex (including sexual orientation, gender identity, gender expression, transgender, pregnancy, childbirth, medical conditions related to pregnancy, childbirth or breast feeding), marital status, age, medical condition, physical or mental disability, genetic information, military or veteran status, or any other legally protected category or prohibited basis, including without limitation, the Commission's Non-Discrimination Policy and Executive Order 11246, Equal Employment Opportunity. All nondiscrimination rules or regulations required by law to be included in this Agreement are incorporated herein by this reference.

10.9. AIDS Discrimination. Consultant agrees to comply with the provisions of Chapter 19, Article II, of the Sonoma County Code prohibiting discrimination in housing, employment, and services because of AIDS or HIV infection during the term of this Agreement and any extensions of the term.

10.10. Assignment of Rights. Consultant assigns to Commission all rights throughout the world in perpetuity in the nature of copyright, trademark, patent, right to ideas, in and to all versions of the plans and specifications, if any, now or later prepared by Consultant in connection with this Agreement. Consultant agrees to take such actions as are necessary to protect the rights assigned to Commission in this Agreement, and to refrain from taking any action which would impair those rights. Consultant's responsibilities under this provision include, but are not limited to, placing proper notice of copyright on all versions of the plans and specifications as Commission may direct, and refraining from disclosing any versions of the plans and specifications to any third party without first obtaining written permission of Commission. Consultant shall not use or permit another to use the plans and specifications in connection with this or any other project without first obtaining written permission of Commission.

10.11. Ownership and Disclosure of Work Product. All reports, original drawings, graphics, plans, studies, and other data or documents ("documents"), in whatever form or format, assembled or prepared by Consultant or Consultant's subcontractors, consultants, and other agents in connection with this Agreement shall be the property of Commission. Commission shall be entitled to immediate possession of such documents upon completion of the work pursuant to this Agreement. Upon expiration or termination of this Agreement, Consultant shall promptly deliver to Commission all such documents, which have not already been provided to Commission in such form or format, as Commission deems appropriate. Such documents shall be and will remain the property of Commission without restriction or limitation. Consultant may retain copies of the above- described documents but agrees not to disclose or discuss any information gathered, discovered, or generated in any way through this Agreement without the express written permission of Commission.

10.12. Authority. The undersigned hereby represents and warrants that he or she has authority to execute and deliver this Agreement on behalf of Consultant.

11. Demand for Assurance. Each party to this Agreement undertakes the obligation that the other's expectation of receiving due performance will not be impaired. When reasonable grounds for insecurity arise with respect to the performance of either party, the other may in writing demand adequate assurance of due performance and until such assurance is received may, if commercially reasonable, suspend any performance for which the agreed return has not been received. "Commercially reasonable" includes not only the conduct of a party with respect to performance under this Agreement, but also conduct with respect to other agreements with parties to this Agreement or others. After receipt of a justified demand, failure to provide within a reasonable time, but not exceeding thirty (30) days, such assurance of due performance as is adequate under the circumstances of the particular case is a repudiation of this Agreement. Acceptance of any improper delivery, service, or payment does not prejudice the aggrieved party's right to demand adequate assurance of future performance. Nothing in this Article limits Commission's right to terminate this Agreement pursuant to Article 4.

12. Assignment and Delegation. Neither party hereto shall assign, delegate, sublet, or transfer any interest in or duty under this Agreement without the prior written consent of the other, and no such transfer shall be of any force or effect whatsoever unless and until the other party shall have so consented.

13. Method and Place of Giving Notice, Submitting Bills and Making Payments. All notices, bills, and payments shall be made in writing and shall be given by personal delivery or by U.S. Mail or courier service. Notices, bills, and payments shall be addressed as follows:

TO COMMISSION:
Sonoma County Community Development Commission
ATTN: Jenny Helbraun Abramson
1440 Guerneville Road
Santa Rosa, CA 95403
Fax: (707) 565-7583
Email: jenny.abramson@sonoma-county.org

TO CONSULTANT:
Applied Survey Research
ATTN: Peter Connery, Vice President
P.O. Box 1927
Watsonville, CA 95077
Email: connery@appliedsurveyresearch.org

When a notice, bill or payment is given by a generally recognized overnight courier service, the notice, bill or payment shall be deemed received on the next business day. When a copy of a notice, bill or payment is sent by facsimile or email, the notice, bill or payment shall be deemed received upon transmission as long as (1) the original copy of the notice, bill or payment is promptly deposited in the U.S. mail and postmarked on the date of the facsimile or email (for a payment, on or before the due date), (2) the sender has a written confirmation of the facsimile transmission or email, and (3) the facsimile or email is transmitted before 5 p.m. (recipient's time). In all other instances, notices, bills and payments shall be effective upon receipt by the recipient. Changes may be made in the names and addresses of the person to whom notices are to be given by giving notice pursuant to this paragraph.

14. Miscellaneous Provisions.

14.1. No Waiver of Breach. The waiver by Commission of any breach of any term or promise contained in this Agreement shall not be deemed to be a waiver of such term or provision or any subsequent breach of the same or any other term or promise contained in this Agreement.

14.2. Construction. To the fullest extent allowed by law, the provisions of this Agreement shall be construed and given effect in a manner that avoids any violation of statute, ordinance, regulation, or law. The parties covenant and agree that in the event that any provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions hereof shall remain in full force and effect and shall in no way be affected, impaired, or invalidated thereby. Consultant and Commission acknowledge that they have each contributed to the making of this Agreement and that, in the event of a dispute over the interpretation of this Agreement, the language of the Agreement will not be construed against one party in favor of the other. Consultant and Commission acknowledge that they have each had an adequate opportunity to consult with counsel in the negotiation and preparation of this Agreement.

14.3. Consent. Wherever in this Agreement the consent or approval of one party is required to an act of the other party, such consent or approval shall not be unreasonably withheld or delayed.

14.4. No Third Party Beneficiaries. Nothing contained in this Agreement shall be construed to create and the parties do not intend to create any rights in third parties.

14.5. Applicable Law and Forum. This Agreement shall be construed and interpreted according to the substantive law of California, regardless of the law of conflicts to the contrary in any jurisdiction. Any action to enforce the terms of this Agreement or for the breach thereof shall be brought and tried in Santa Rosa or the forum nearest to the city of Santa Rosa, in the County of Sonoma.

14.6. Captions. The captions in this Agreement are solely for convenience of reference. They are not a part of this Agreement and shall have no effect on its construction or interpretation.

14.7. Merger. This writing is intended both as the final expression of the Agreement between the parties hereto with respect to the included terms and as a complete and exclusive statement of the terms of the Agreement, pursuant to Code of Civil Procedure Section 1856. Each Party acknowledges that, in entering into this Agreement, it has not relied on any representation or undertaking, whether oral or in writing, other than those which are expressly set forth in this Agreement. No modification of this Agreement shall be effective unless and until such modification is evidenced by a writing signed by both parties.

14.8. Survival of Terms. All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

14.9. Time of Essence. Time is and shall be of the essence of this Agreement and every provision hereof.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the Effective Date.

Purpose is to coordinate, implement and produce the report of results of the 2019 Homeless Census and Survey. This includes the following action steps:

ACTIVITIES PRIOR TO DATA COLLECTION

- Discuss / formulate work plan, timeline, and methodology, review process improvement ideas, and finalize 2019 reporting requirements
- Present project outline to stakeholders including, but not necessarily limited to, the Sonoma County Homeless System of Care Leadership Council, as requested.
- Finalize street count plan, develop sub-population and geographically specific outreach targets
- Develop volunteer and homeless advisor quotas and begin recruitment campaign
- Develop and translate 15-minute survey for precariously housed telephone study
- Finalize all census deployment sites and team captains

DATA COLLECTION ACTIVITIES

- Conduct census trainings
- Conduct homeless street count
- Conduct Shelter Count through coordination with local HMIS
- Conduct an adequate sample of homeless surveys but not less than 600
- Conduct Telephone Survey to random sample of 400 cell and 100 land lines (total: 500 households) with follow up calls. Includes telephone sample, and CATI programming and set-up.

ACTIVITIES SUBSEQUENT TO DATA COLLECTION

- Data entry and analysis
- Report Homeless Population and Subpopulation Chart data at least 7 days prior to HUD's deadline for submission in HDX
- Draft Report, Street Census by Census Tract report (Excel), Final Survey Data Set, and Telephone Survey Data Set no more than 30 days following HDX submission
- Review jurisdictional census data results for changes and authenticate significant deltas, prior to publication of Final Report
- Final Report, including results of the Telephone Survey, in .pdf form plus 10 bound hard copy reports no more than 60 days following HDX submission
- PowerPoint presentations to up to three local stakeholder groups

EXHIBIT B - BUDGET

Costs incurred on or after December 1, 2018, to perform the work included in Exhibit A of this Agreement may be reimbursed with COMMISSION funds as detailed below. Upon presentation of a verified written invoice for actual costs incurred and disbursements made and adequate written documentation of work performed, such adequacy to be determined by COMMISSION, COMMISSION shall pay CONSULTANT up to the maximum amount set forth below.

Any requested modification to the line items of this Budget shall be reviewed and approved by COMMISSION prior to the expenditures of funds detailed in the budget change. Budget modifications shall not alter the basic scope of services required.

		Budget 2019
1. Project Management	**$**	**4,090.00**
3. Methodology	**$**	**1,488.00**
4. Geographic Coverage	**$**	**3,468.00**
5. Youth Count	**$**	**4,650.00**
7. Recruitment	**$**	**7,038.00**
8. Trainings	**$**	**3,176.00**
9. Incentives and Payments	**$**	**16,632.00**
10. Survey Oversight, *including Telephone Survey development & translation*	**$**	**3,614.00**
11. Conduct Telephone Survey	**$**	**32,844.00**
12. Count Oversight	**$**	**9,754.00**
13. Report Production	**$**	**26,520.00**
14. Administrative Overhead	**$**	**11,146.50**
Total		**$124,420.50**

PAYMENT SCHEDULE

Amount	Invoice Date Due
$62,210.50	March 1, 2019
$62,210.00	Upon completion; on or before July 10, 2019
$124,420.50	

EXHIBIT C: INSURANCE REQUIREMENTS

With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain insurance as described below unless such insurance has been expressly waived by the attachment of a *Waiver of Insurance Requirements*. Any requirement for insurance to be maintained after completion of the work shall survive this Agreement.

County reserves the right to review any and all of the required insurance policies and/or endorsements, but has no obligation to do so. Failure to demand evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve Consultant from, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

1. Workers Compensation and Employers Liability Insurance

- **a.** Required if Consultant has employees as defined by the Labor Code of the State of California.
- **b.** Workers Compensation insurance with statutory limits as required by the Labor Code of the State of California.
- **c.** Employers Liability with minimum limits of $1,000,000 per Accident; $1,000,000 Disease per employee; $1,000,000 Disease per policy.
- **d.** *Required Evidence of Insurance*: Certificate of Insurance.

If Consultant currently has no employees as defined by the Labor Code of the State of California, Consultant agrees to obtain the above-specified Workers Compensation and Employers Liability insurance should employees be engaged during the term of this Agreement or any extensions of the term.

2. General Liability Insurance

- **a.** Commercial General Liability Insurance on a standard occurrence form, no less broad than Insurance Services Office (ISO) form CG 00 01.
- **b.** Minimum Limits: $1,000,000 per Occurrence; $2,000,000 General Aggregate; $2,000,000 Products/Completed Operations Aggregate. The required limits may be provided by a combination of General Liability Insurance and Commercial Excess or Commercial Umbrella Liability Insurance. If Consultant maintains higher limits than the specified minimum limits, County requires and shall be entitled to coverage for the higher limits maintained by Consultant.
- **c.** Any deductible or self-insured retention shall be shown on the Certificate of Insurance. If the deductible or self-insured retention exceeds $25,000 it must be approved in advance by County. Consultant is responsible for any deductible or self-insured retention and shall fund it upon County's written request, regardless of whether Consultant has a claim against the insurance or is named as a party in any action involving the County.
- **d.** Sonoma County Community Development Commission and the County of Sonoma shall

be endorsed as additional insureds for liability arising out of operations by or on behalf of the Consultant in the performance of this Agreement.

e. The insurance provided to the additional insureds shall be primary to, and non-contributory with, any insurance or self-insurance program maintained by them.

f. The policy definition of "insured contract" shall include assumptions of liability arising out of both ongoing operations and the products-completed operations hazard (broad form contractual liability coverage including the "f" definition of insured contract in ISO form CG 00 01, or equivalent).

g. The policy shall cover inter-insured suits between the additional insureds and Consultant and include a "separation of insureds" or "severability" clause which treats each insured separately.

h. *Required Evidence of Insurance*:

  i. Copy of the additional insured endorsement or policy language granting additional insured status; and

  ii. Certificate of Insurance.

3. Automobile Liability Insurance

a. Minimum Limit: $1,000,000 combined single limit per accident. The required limit may be provided by a combination of Automobile Liability Insurance and Commercial Excess or Commercial Umbrella Liability Insurance.

b. Insurance shall cover all owned autos. If Consultant currently owns no autos, Consultant agrees to obtain such insurance should any autos be acquired during the term of this Agreement or any extensions of the term.

c. Insurance shall cover hired and non-owned autos.

d. *Required Evidence of Insurance*: Certificate of Insurance.

4. Standards for Insurance Companies

Insurers, other than the California State Compensation Insurance Fund, shall have an A.M. Best's rating of at least A:VII.

5. Documentation

a. The Certificate of Insurance must include the following reference: 2019 Point In Time Homeless Count and Survey.

b. All required Evidence of Insurance shall be submitted prior to the execution of this Agreement. Consultant agrees to maintain current Evidence of Insurance on file with County for the entire term of this Agreement and any additional periods if specified in Sections 1, 2 or 3 above.

c. The name and address for Additional Insured endorsements and Certificates of Insurance is: Sonoma County Community Development Commission, 1440 Guerneville Road, Santa Rosa CA 95403.

d. Required Evidence of Insurance shall be submitted for any renewal or replacement of a policy that already exists, at least ten (10) days before expiration or other termination of the existing policy.

e. Consultant shall provide immediate written notice if: (1) any of the required insurance policies is terminated; (2) the limits of any of the required policies are reduced; or (3) the deductible or self-insured retention is increased.

f. Upon written request, certified copies of required insurance policies must be provided within thirty (30) days.

6. Policy Obligations

Consultant's indemnity and other obligations shall not be limited by the foregoing insurance requirements.

7. Material Breach

If Consultant fails to maintain insurance which is required pursuant to this Agreement, it shall be deemed a material breach of this Agreement. County, at its sole option, may terminate this Agreement and obtain damages from Consultant resulting from said breach. Alternatively, County may purchase the required insurance, and without further notice to Consultant, County may deduct from sums due to Consultant any premium costs advanced by County for such insurance. These remedies shall be in addition to any other remedies available to County.

Exhibit D:
Sonoma County Community Development Commission
Web Accessibility Questionnaire

Commission and County policy requires that all County websites, web content and web-based applications must be accessible to staff members and members of the public with disabilities. For more information regarding the details of this policy, please see Web Accessibility Policy, published in the County of Sonoma's Web Standards site (http://webstandards.sonoma-county.org/content.aspx?sid=1014&id=1300).

Standard	Source(s)	Response
1. Rate the overall level of accessibility compliance of your website, web content or web-based application: a. **Fully compliant – All content and functionality meet or exceed the criteria delineated in Section 508 and WCAG 2.0 Level AA.** b. **Partially compliant – Some content or functionality meet or exceed the criteria delineated in Section 508 and WCAG 2.0 Level AA while other content or functionality are only compliant to Section 508 and WCAG 2.0 Level A.** c. **Partially compliant – All content and functionality are fully compliant with Section 508 and WCAG 2.0 Level A.** d. **Partially compliant – All content and functionality are fully compliant with Section 508.** e. **Not compliant.** **Fully Compliant Response(s): a**	**Section 508** **WCAG 2.0**	
2. Does each non-text element on the page have a text equivalent via "alt" (alternative text attribute) or does the page otherwise include a meaningful description of the non-text element in the text accompanying the non-text element? a. **Yes.** b. **Yes and no. Some non-text elements have meaningful text equivalents while others do not.** c. **No, none of the non-text elements have text equivalents.** d. **N/A. There are no non-text elements on the page.** **Fully Compliant Response(s): a, d**	**Section 508** • **§1194.22 (a)** **WCAG 2.0** • **Guideline 1.1**	
3. For any multimedia content, is text captioning provided for all audible output and audible output provided for all important visual information? **a. Yes.** **b. Yes and no. Text captioning is not provided for audible output, but audio descriptions are provided for all important visual information.** **c. Yes and no. Audio descriptions are not provided for all important visual information, but text captioning is provided for audible output.** **d. No, neither is provided.** **e. N/A. There is no multimedia content on the page.** **Fully Compliant Response(s): a, e**	**Section 508** • **§1194.22 (b)** **WCAG 2.0** • **Guideline 1.1** • **Guideline 1.2**	

Standard	**Source(s)**	Response
4. Are all audio descriptions and text captions synchronized with their associated dynamic content? a. Yes, text captioning for audible output and audible output for visual information is completely synchronized with changes in the dynamic content of the page. b. Yes and no. Text captioning is not completely synchronized with audible output as the dynamic content of the page changes or is not provided, but the audio descriptions are synchronized to the important visual information they describe. c. Yes and no. Audio descriptions are not synchronized to the important visual information they describe or they are not provided, but text captioning is synchronized with the audible output as the dynamic content of the page changes. d. No. Both are provided but neither is synchronized. e. N/A. There is no multimedia content on this page. Fully Compliant Response(s): a, e	**Section 508** • §1194.22 (b) **WCAG 2.0** • Guideline 1.2	
5. If any audio plays automatically for more than 3 seconds, is there a mechanism available to pause or stop the audio, or to control volume independently from the overall system volume? a. Yes, there is audio that automatically plays for more than 3 seconds and there is a mechanism available to control the volume of the audio without affecting the overall system volume. b. Yes, there is audio that automatically plays for more than 3 seconds and there is a mechanism available to pause or stop the audio. c. No. There is audio that automatically plays for more than 3 seconds but there is no mechanism to stop, pause or alter the volume without affecting the system volume. d. N/A. There is no automatic audio or the automatic audio plays for less than 3 seconds. Fully Compliant Response(s): a, b, d	**WCAG 2.0** • Guideline 1.4	
6. Is every page capable of being understood and navigated even if users do not have the ability to identify specific colors or differentiate between colors? a. Yes, any use of color as to imply meaning or information is easily understood without color and sufficient contrast has been applied to assist those that have difficulty differentiating or identifying individual colors. b. Yes, sufficient contrast has been applied to assist those that have difficulty differentiating or identifying individual colors. c. Yes, any use of color as to imply meaning or information is easily understood without color. d. No, the page does not use color appropriately. Fully Compliant Response(s): a	**Section 508** • §1194.22 (c) **WCAG 2.0** • Guideline 1.4	
7. If any page uses cascading style sheets (CSS)[1], is it viewable without style sheets (style sheets turned off, not supported by the browser, etc.)? a. Yes. b. No. c. N/A. The page does not use cascading style sheets (CSS). Fully Compliant Response(s): a, c	**Section 508** • §1194.22 (d) **WCAG 2.0** • Guideline 1.3	

---

[1] Cascading Style Sheets (CSS) can be associated a webpage in multiple ways: declared within the webpage, embedded via a separate file, or added dynamically via JavaScript.

Standard	**Source(s)**	Response
8. If any page uses cascading style sheets (CSS)[2], is it designed so that it does not interfere with style sheets set by the browser? a. Yes, it works without interfering with style sheets set by the browser. b. No, it interferes with any style sheets that have been set by the browser. c. N/A. The page does not use cascading style sheets (CSS). Fully Compliant Response(s): a, c	**WCAG 2.0** - Guideline 1.3	
9. If any page includes server-side image maps, are duplicate text links provided for all links within the server-side image maps? a. Yes, each link in the server-side image maps is duplicated by a separate text link. b. Yes and no. Some of the links from the server-side image maps are duplicated in separate text links while others are not. c. No, redundant text links are not provided for any link from the server- side image maps. d. N/A. The page does not include any server-side image maps. Fully Compliant Response(s): a, d	**Section 508** - §1194.22 (e)	
10. If any page includes one or more client-side image maps, does each map region have a text equivalent via "alt" (alternative text attribute) or does the page otherwise include a meaningful description of the non-text element in the text accompanying it? a. Yes. b. Yes and no. Some of the non-text elements associated with the image map(s) have text equivalents or a meaningful text description, while others do not. c. No. None of the non-text elements associated with the image map(s) have text equivalents or meaningful text descriptions. d. N/A. The page does not include any client-side image maps. Fully Compliant Response(s): a, d	**Section 508** - §1194.22 (a)	
11. If any page includes a simple table (single level of row/column headers), are the row/column headers identified? a. Yes, all simple **data tables** have row/column headers identified and all **non-data tables** do not identify row/column headers. b. Yes and no. Some simple **data tables** exist but either the row or column header is not identified or some simple **non-data tables** exist but either the row or column header is identified. c. N/A. The page does not include simple tables. Fully Compliant Response(s): a, c	**Section 508** - §1194.22 (g)	
12. If any page includes a complex data table (2 or more logical levels of row or column headers), does each cell provide association with row and column headers? a. Yes, complex tables exist and each cell within the table includes identification of its row and column headers. b. No, complex tables exist, but some cells within the table fail to identify row and column headers. c. N/A. The page does not include complex data tables. Fully Compliant Response(s): a, c	**Section 508** - §1194.22 (h)	
13. If the page uses frames, does each frame have a title that meaningfully describes it? a. Yes. b. No. c. N/A. The page does not use frames. Fully Compliant Response(s): a, c	**Section 508** - §1194.22 (i)	

---

[2] Cascading Style Sheets (CSS) can be associated a webpage in multiple ways: declared within the webpage, embedded via a separate file, or added dynamically via JavaScript.

Standard	Source(s)	Response
14. Does any page include content (such as applets or content requiring plug-ins) that may cause the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz? a. Yes. b. No. Fully Compliant Response(s): b	**WCAG 2.0** • Guideline 2.3	
15. If the page uses scripts, such as JavaScript or scripts in Macromedia Flash content, and if the scripts affect any content displayed to the user, is there equivalent text provided by the page or the script that is accessible to a screen reader? a. Yes. The page contains JavaScript or Macromedia Flash content that affects the content displayed to the user, but the page or script contains equivalent text that is accessible to a screen reader. b. No. While the page contains JavaScript or Macromedia Flash content that affects the content displayed to the user, neither the page nor the script contains equivalent text that is accessible to a screen reader. c. N/A. The page does not use JavaScript or Macromedia Flash content. Fully Compliant Response(s): a, c	**Section 508** • §1194.22 (a) **WCAG 2.0** • Guideline 1.1 • Guideline 1.2	
16. If the web page uses applets, such as downloadable Java applets, does it also contain the same information and functionality in an accessible format? a. Yes, while the page uses applets, it contains the same information and functionality in an accessible format. b. No, although the page uses applets, it does not contain the same information and functionality in an accessible format. c. N/A. The page does not use any applets. Fully Compliant Response(s): a, c	**Section 508** • §1194.22 (a) **WCAG 2.0** • Guideline 1.1 • Guideline 1.2	
17. Is every web page capable of full functionality via only the keyboard? a. Yes, all functionality of the content is operable through a keyboard interface and if focus can be shifted to a component via the keyboard, then keyboard interface can also be used to shift focus away from that component. b. No, some functionality is not operable via a keyboard interface alone. Fully Compliant Response(s): a	**WCAG 2.0** • Guideline 2.1	
18. Is every web page designed for maximum compatibility with the current and future user agents, including assistive technologies? a. Yes, content implemented using markup languages, elements have complete start and end tags, elements are nested according to their specifications, elements do not contain duplicate attributes, and any IDs are unique, except where the specifications allow these features. For all user interface components (including but not limited to: form elements, links and components generated by scripts), the name and role can be programmatically determined; states, properties, and values that can be set by the user can be programmatically set; and notification of changes to these items is available to user agents, including assistive technologies. b. Yes and no, content implemented using markup languages, elements have complete start and end tags, elements are nested according to their specifications, elements do not contain duplicate attributes, and any IDs are unique, except where the specifications allow these features. c. Yes and no, for all user interface components (including but not limited to: form elements, links and components generated by scripts), the name and role can be programmatically determined; states, properties, and values that can be set by the user can be programmatically set; and notification of changes to these items is available to user agents, including assistive technologies. d. No, some content or interface components do not comply with this guideline in at least one area. Fully Compliant Response(s): a	**WCAG 2.0** • Guideline 4.1	

Standard	**Source(s)**	Response
19. If the page uses other programmatic objects (such as Flash, Shockwave, RealAudio, or RealVideo content), or otherwise requires the use of plug-ins or programmatic support for the browser, does the page include a link to the plug-in or programmatic item required for accessing the content of the page and is that plug-in or programmatic item itself accessible to people with disabilities? a. Yes, the page uses such programmatic objects and includes a link to the plug-ins or other items required for accessing the content of the page and those plug-ins or programmatic items are accessible to people with disabilities. b. Yes and no. While the page uses such programmatic objects and includes a link to the plug-ins or other items required for accessing the content of the page, those plug-ins or programmatic items are not accessible to people with disabilities. c. No, while the page uses such programmatic objects, it does not include a link to the plug-ins or other items required for accessing the content of the page. d. N/A. The page does not use such programmatic objects. Fully Compliant Response(s): a, d	**Section 508** • §1194.22 (m)	
20. If the page includes links to .pdf (Adobe Acrobat's portable document format) files, were those .pdf files created in a way that is likely to maximize their accessibility for people with disabilities? a. Yes. While the page includes links to .pdf files, the files were converted from Microsoft Word or by scanning something into .pdf and then running them through an optical character recognition (OCR) process. The structure and tags of each document has been verified as accessible. b. No, the page includes links to .pdf files that were created by scanning files into .pdf and were not put through an OCR process. c. N/A. The page does not include any links to .pdf files. Fully Compliant Response(s): a, c	**Section 508** • §1194.22 (a) • §1194.22 (c) • §1194.22 (g) • §1194.22 (h) • §1194.22 (n) **WCAG 2.0** • Guideline 1.1 • Guideline 1.2	
21. If the page includes one or more electronic forms that is designed for completion online, does each form permit users of assistive technology to access the information, field elements, and functionality required for completion and submission of the form including all directions and cues? a. Yes, the page contains one or more forms designed to be completed online. Each such form complies with all of the accessibility requirements that are the subject of this questionnaire and has been tested for usability by persons using assistive technologies. b. Yes, but... The page contains one or more forms designed to be completed online. While each such form complies with all of the accessibility requirements that are the subject of this questionnaire, one or more of them has not been tested for usability by persons using assistive technologies. c. Yes, but... The page contains one or more forms designed to be completed online. We have tested each of the forms using assistive technology, but we are not sure that each such form complies with all of the accessibility requirements that are the subject of this questionnaire. d. No. The page contains one or more forms designed to be completed online, but at least one of these forms is inaccessible to people with disabilities, at least in one respect. e. N/A. The page does not contain any forms designed to be completed online. Fully Compliant Response(s): a, e	**Section 508** • §1194.22 (n)	

Standard	Source(s)	Response
22. If any page contains one or more forms that is designed to be completed online but that is inaccessible to people with disabilities in some respect, does the page include an alternate accessible form or a link to an alternate accessible form? a. Yes. While the page contains one or more forms that is designed to be completed online but that is inaccessible to people with disabilities in some respect, the page includes an alternate accessible form or a link to an alternate accessible form. b. No. The page contains one or more forms designed to be completed online but that is inaccessible to people with disabilities in some respect and the page does not contain an alternate accessible form or a link to an alternate accessible form. c. N/A. The page does not include one or more forms that are designed to be completed online or it does include such forms, but they are accessible to people with disabilities in all respects. Fully Compliant Response(s): a, c	**Section 508** • §1194.22 (a) **WCAG 2.0** • Guideline 1.1	
23. Are labels and instructions provided for all forms? If data validation occurs, are the errors identified and described in text? a. Yes. b. No. c. N/A. The page does not contain any forms designed to be completed online. Fully Compliant Response(s): a, c	**WCAG 2.0** • Guideline 3.3	
24. If any page includes navigational links to other web pages within the same website, is there a link allowing users of screen readers to skip over those links? a. Yes. b. No. c. N/A. The page does not contain any navigational links to other web pages within the same website. Fully Compliant Response(s): a, c	**Section 508** • §1194.22 (o)	
25. Is the navigation designed to assist users in finding content and determine where they are (e.g. breadcrumbs)? a. Yes. b. No. Fully Compliant Response(s): a	**WCAG 2.0** • Guideline 2.4	
26. If any page requires users to respond within a fixed amount of time before the user is "timed out," is the user alerted that he or she will be timed out and given sufficient time to indicate that more time is required before actually being timed out? a. Yes. b. Yes and no. While the page warns users that they are about to be timed out, it does not give them an option to extend the length of time that the page will be kept open. c. No. The page will time out users but does not provide prior warning or the ability to extend the length of time it will be kept open. d. N/A. The page does not "time out" users, no matter how long a page is kept open. Fully Compliant Response(s): a, d	**Section 508** • §1194.22 (p) **WCAG 2.0** • Guideline 1.2 • Guideline 2.2	

Standard	**Source(s)**	Response
27. Taking into consideration your responses to the previous questions, if the reviewed page(s) likely contains barriers to access for people with disabilities, do you have an alternative text-only page that contains the same information and is updated as often as the reviewed page? a. Yes. b. Yes and no. While the page appears to contain barriers to access for people with disabilities and we have established a text-only alternate page, the text- only alternate page does not include the same information or is not updated as often as the reviewed page. c. No. While the page appears to contain barriers to access for people with disabilities, we do not have an alternate text-only page. d. N/A. The page does not appear to contain any barriers for people with disabilities, so we do not have an alternate text-only page. e. N/A. Even though the page does not appear to contain any barriers to access for people with disabilities, we still maintain an alternate text-only page that contains the same information and is updated as often as the reviewed page. Fully Compliant Response(s): a, d, e	**Section 508** • §1194.22 (a) **WCAG 2.0** • Guideline 1.1	

28. Test your page(s) for accessibility to persons with disabilities using assistive technology

a. Describe the testing method and tools used.

b. Describe the results of this test.

29. Describe the accessibility successes and challenges you identified during your evaluation and any plans you have for addressing any problems on these and similar pages within your website:

EXHIBIT E
Federal Funding Requirements

1. General Compliance:

The SUBRECIPIENT agrees to comply with the requirements of Title 24 of the Code of Federal Regulations, Part 570 (the Housing and Urban Development regulations concerning federal Community Development Block Grant program (CDBG)) and/or Part 576 (the Housing and Urban Development regulations concerning federal Emergency Solutions Grant Program (ESG)), and/or Part 578 (the Housing and Urban Development regulations concerning the federal Continuum of Care (CoC) program), as relevant. The SUBRECIPIENT also agrees to comply with all other applicable federal, state and local laws, regulations, and policies governing the funds provided under this contract. The SUBRECIPIENT further agrees to utilize federal funds available under this Agreement to supplement rather than supplant funds otherwise available.

Both parties have entered into this Agreement in reliance on the representation of the federal government that the program funding will continue. Notwithstanding any other provision of this Agreement, COMMISSION retains the right in its sole discretion and without notice to terminate or reduce the amount payable to SUBRECIPIENT under this Agreement in the event that the Federal government does not fund in the amount projected at the time this Agreement is executed. SUBRECIPIENT agrees that maximum amount payable under this Agreement by COMMISSION shall not exceed the amount actually funded by the federal government.

2. Program Income

"Program income" means amounts received by SUBRECIPIENT generated from the use of federal funds as defined at 24 CFR 570.500. Program income includes, but is not limited to, the following: 1) proceeds from the disposition by sale or long-term lease of real property purchased or improved with federal funds; 2) proceeds from the disposition of equipment purchased with federal funds; 3) gross income from the use or rental of real or personal property acquired by SUBRECIPIENT with federal funds, less costs incidental to generation of the income; 4) gross income from the use or rental of real property, owned by SUBRECIPIENT, that was constructed or improved with federal funds, less costs incidental to generation of the income; 5) payments of principal and interest on loans made using federal funds; 6) proceeds from the sale of loans made with federal funds; 7) proceeds from the sale of obligations secured by loans made with federal funds; 8) interest earned on program income pending its disposition; and 9) funds collected through special assessments made against properties owned and occupied by households not of low and moderate income, where the assessments are used to recover all or part of the federally funded portion of a public improvement.

Under the Community Development Block Grant Program (CDBG, 24 CFR 570.503), any program income received by SUBRECIPIENT shall be immediately returned to

COMMISSION. This provision shall survive the termination or expiration of this Agreement.

Under the Emergency Solutions Grant Program, (ESG, 24 CFR 576.3 and 576.201), program income includes any amount of a security or utility deposit returned to SUBRECIPIENT; eligible ESG costs paid by program income shall count toward meeting the COMMISSION'S matching requirements. Financial records of receipt and use of program income must be retained per the records retention policies in paragraph 10(b), Records.

Under the Continuum of Care Program (CoC, 24 CFR 578.97), program income is the income received by the SUBRECIPIENT directly generated by a grant-supported activity. Program income earned during the grant term shall be retained by the SUBRECIPIENT, and used for eligible activities in accordance with 24 CFR 578 Subpart D. Costs incident to the generation of program income may be deducted from gross income to calculate program income, provided that the costs have not been charged to grant funds.

3. Compliance with Emergency Solutions Grant Program, 24 CFR 576 Subpart E

Per § 576.400 (d), once the Continuum of Care has developed a centralized assessment system or a coordinated assessment system in accordance with requirements to be established by HUD, each ESG funded program or project within the Continuum of Care's area must use that assessment system.

Per § 576.400 (e), as the administrative agency for the Urban County and Administrative Entity for the State ESG Program, COMMISSION has developed written standards for providing Emergency Solutions Grant (ESG) assistance and will consistently apply those standards for all program participants. SUBRECIPIENT shall comply with all written standards developed by the Sonoma County Continuum of Care and adopted by the Continuum of Care Board.

Per § 576.400 (f), data on all persons served and all activities assisted under ESG and State ESG are entered into the applicable community-wide HMIS in the area in which those persons and activities are located, or a comparable database, in accordance with HUD's standards on participation, data collection, and reporting under a local HMIS. Specific HMIS requirements are included in Exhibit D.

Per § 576.405 (c), SUBRECIPIENT must involve homeless individuals and families in constructing, renovating, maintaining and operating facilities assisted under ESG, in providing services assisted under ESG, and in providing services for occupants of facilities assisted under ESG. This involvement may include employment or volunteer services.

4. Compliance with Continuum of Care Program, 24 CFR 578

Per § 578.23 (c)(9), SUBRECIPIENT must use the coordinated assessment system established by the Continuum of Care. A victim service provider may choose not to use the Continuum of Care's coordinated assessment system, provided that victim service providers use a centralized or coordinated assessment system that meets HUD's minimum requirements and the victim service provider uses that system instead.

Per § 578.75 (e), SUBRECIPIENT must conduct an ongoing assessment of the supportive services needed by the participants in the project, the availability of such services, and the coordination of services needed to ensure long-term housing stability.

Per § 578.75 (g), SUBRECIPIENT must provide for the participation of not less than one homeless individual or formerly homeless individual on the board of directors or other equivalent policymaking entity of the SUBRECIPIENT, to the extent that such entity considers and makes policies and decisions regarding any project, supportive services, or assistance provided under this part. This requirement is waived if the SUBRECIPIENT is unable to meet such requirement and obtains HUD approval for a plan to otherwise consult with homeless or formerly homeless persons when considering and making policies and decisions. Each SUBRECIPIENT must, to the maximum extent practicable, involve homeless individuals and families through employment; volunteer services; or otherwise in constructing, rehabilitating, maintaining, and operating the project, and in providing supportive services for the project.

5. Executive Order 11246 -- Employment and Contracting Opportunities

Executive Order 11246, as amended by Executive Orders 11375, 11478, 12086 and 12107, and all regulations pursuant thereto (41 CFR Chapter 60) states that no person shall be discriminated against on the basis of race, color, religion, sex, or national origin in all phases of employment during the performance of Federal or federally-assisted contracts and affirmative action shall be taken to ensure equal employment opportunity. SUBRECIPIENT will incorporate, or cause to be incorporated, into any contract for construction work or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with funds obtained from the federal government or borrowed on the credit of the federal government pursuant to a grant, contract, loan, insurance, or guarantee, the following equal opportunity clause:

6 Use of Debarred, Suspended or Ineligible SUBRECIPIENTs or Contractorss

The SUBRECIPIENT agrees that assistance provided under this Agreement shall not be used directly or indirectly to employ, award contracts to, or otherwise engage the services of, or fund any SUBRECIPIENT or Contractor during any period of debarment, suspension, or placement in ineligible status (24 CFR Part 24).

7. Compliance with 2 CFR Part 200

SUBRECIPIENT shall comply with the requirements and standards of 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

8. Lobbying Restrictions

SUBRECIPIENT agrees, to the best of its knowledge and belief:

No federal appropriated funds have been paid or will be paid, by or on behalf of SUBRECIPIENT, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress, in connection with this federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions; and the language of this paragraph shall be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all SUBRECIPIENTs shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

9. Environmental Standards

The SUBRECIPIENT agrees to comply with the requirements of the National Environmental Policy Act of 1969 as specified in regulations issued pursuant to Section 104(g) of the Housing and Community Development Act and contained in 24 CFR part 58.

10. Fair Housing and Equal Opportunity Certifications

SUBRECIPIENT hereby assures and certifies that it will comply with the following Acts and/or Executive Orders:

a) Civil Rights Act of 1964 (Title VI)

Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.; P.L. 88-352) and regulations pursuant thereto (Title 24 CFR Part I) states that no person in the United States shall, on the basis of race, color, national origin, or sex, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity receiving Federal financial assistance extended to SUBRECIPIENT. This assurance shall obligate SUBRECIPIENT, or in the case of any transfer, the transferee, for the period during which the real property and structure(s) are used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

b) Fair Housing Act of 1968

The Fair Housing Act (42 U.S.C. 3601-3620; P.L. 90-284) states that it is the policy of the United States to provide, within constitutional limitations, for fair housing throughout the United States and prohibits any person from discriminating in the sale or rental of housing, the financing of housing, or the provision of brokerage services, including in any way making unavailable or denying a dwelling to any person, because of race, color, religion, sex, national origin, handicap or familial status. SUBRECIPIENT shall administer all programs and activities assisted under this Agreement in a manner to affirmatively further the policies of the Fair Housing Act.

c) Executive Order 11063 -- Equal Opportunity in Housing

Executive Order 11063, as amended by Executive Order 12259, and regulations pursuant thereto (24 CFR Part 107), prohibits discrimination because of race, color, creed, sex, or national origin in the sale, leasing, rental or other disposition of residential property and related facilities (including land to be developed for residential use), or in the use or occupancy thereof, if such property and related facilities are provided with Federal financial assistance.

d) Section 109 of the Housing and Community Development Act of 1974

Section 109 of the Housing and Community Development Act of 1974 states that no person in the United States shall on the basis of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with funds made available under this title.

Section 109 further provides that any prohibition against discrimination on the basis of age under the Age Discrimination Act of 1975 (42 U.S.C. 6101 et seq.) or with respect to an otherwise qualified handicapped person as provided in section 504 of the

Rehabilitation Act of 1973 (29 U.S.C. 794) shall also apply to any program or activity funded in whole or in part with funds made available pursuant to Section 109.

e) Executive Order 13166 – Limited English Proficiency

The Limited English Proficiency (LEP) Guidelines, based upon Title VI of the Civil Rights Act of 1964 (24 CRF 1.4 Executive Order 13166) requires recipients of federal funding to provide language translation or interpreter services to its clients and potential clients who are limited in English proficiency.

A person with Limited English Proficiency (LEP) is a person who does not speak English as their primary language and who has a limited ability to read, write, speak or understand English. Affirmative steps must be taken to communicate with people who need services or information in a language other than English. A policy must be developed to serve applicants, participants, and/or persons eligible for housing assistance and support services.

The SUBRECIPIENT must analyze the various kinds of contacts it has with the public, to assess language needs and decide what reasonable steps should be taken. In order to determine the level of access needed by LEP persons, the following four factors must be balanced:

1. the number or proportion of LEP persons eligible to be served or likely to be applying for program services;
2. the frequency with which LEP persons utilize these programs and services;
3. the nature and importance of the program, activity, or service provided; and
4. the benefits from providing LEP services, and the resources available and costs to the CDC for those services.

Balancing these four factors will ensure meaningful access by LEP persons to critical services while not imposing undue burdens on the SUBRECIPIENT. SUBRECIPIENT shall develop and implement a LEP policy consistent with the above guidelines and provide the COMMISSION with copies of its LEP Policy.

f) Section 504 of the Rehabilitation Act of 1973 and Title III of the Americans with Disabilities Act

Section 504 of the Rehabilitation Act of 1973, as amended, prohibits discrimination based on handicap in federally assisted and conducted programs and activities.

Title III of the Americans with Disabilities Act (28 CFR 36, Subpart B) prohibits discrimination on the basis of disability in the full and equal enjoyment of the goods, services, facilities, or accommodations of any place of public accommodation by any private entity.

g) Age Discrimination Act of 1975

The Age Discrimination Act of 1975, as amended, prohibits discrimination because of age in programs and activities receiving Federal financial assistance.

h) Executive Orders 11625, 12432, 12138 - Minority and Women Owned Business Opportunities

These Executive Orders state that program participants shall take affirmative action to encourage participation by businesses owned and operated by minority groups and women.

10. Other Federal Requirements

a) Audit Requirements

SUBRECIPIENT shall comply with audit requirements of 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Specifically, SUBRECIPIENT shall obtain an annual program specific or single audit, as required. SUBRECIPIENT shall provide a copy of such audit together with any management letters and supplementary or related audit letters or reports to COMMISSION within 9 months after the end of the SUBRECIPIENT’s fiscal year. The audit shall include a supplementary schedule showing all revenues and expenditures of CDBG funds and other federal funds for the fiscal year.

b) Records

SUBRECIPIENT agrees to make available for inspection and audit to representatives of COMMISSION, federal, state, and/or local county governments, their employees or agents, all books, financial records, program information, and other records pertaining to the overall operation of SUBRECIPIENT, and this Agreement and to maintain said records for a minimum of five (5) years from the date of COMMISSION’s submission of the annual performance and evaluation report in which the funded activity is reported on for the final time. SUBRECIPIENT further agrees to allow said representatives to review and inspect its facilities and program operations. Said representatives may monitor the operation of this Agreement to assure compliance with all applicable local, state, and~~/or~~ federal regulations.

If COMMISSION should determine that SUBRECIPIENT is not using funds in accordance with this Agreement, or that the COMMISSION does not have sufficient information to determine whether or not the SUBRECIPIENT is using funds in accordance with this Agreement, COMMISSION may order an audit of SUBRECIPIENT's books and financial program records. The cost of this audit shall be deducted from the total paid to SUBRECIPIENT under this Agreement. SUBRECIPIENT agrees that in the event that the program established herewith is subjected to audit exceptions by COMMISSION agencies, it shall be responsible for complying with all exceptions and will pay to COMMISSION the full amount of

COMMISSION's liability to the state and/or federal government resulting from such exceptions.

All provisions of this Agreement that require availability of records or reporting shall survive termination of this Agreement.

c) Conflict of Interest

1. Interest of Members of a City or County: No members of the governing body of a city or county and no other officer, employee, or agent of the city or county who exercises any functions or responsibilities in connection with the planning and carrying out of the program, shall have any personal financial interest, direct or indirect, in this Agreement; and the SUBRECIPIENT shall take appropriate steps to assure compliance.

2. Interest of Other Local Public Officials: No members of the governing body of the locality and no other public official of such locality, who exercises any function or responsibilities in connection with the planning and carrying out of the program, shall have any personal financial interest, direct or indirect, in this Agreement; and the SUBRECIPIENT shall take appropriate steps to assure compliance.

3. Interest of SUBRECIPIENT and Employees: SUBRECIPIENT understands that COMMISSION is a recipient of federal funds and that by virtue of this Agreement, SUBRECIPIENT is a subrecipient of those funds. As such, SUBRECIPIENT further understands that certain Federal laws relating to conflict of interest apply to SUBRECIPIENT, its officers, agents, employees, and constituents; specifically, those laws are contained in 2 CFR Section 200.318.

d) Reversion of Assets

Upon expiration of this Agreement, SUBRECIPIENT shall transfer to COMMISSION any federal funds on hand at the time of expiration and any accounts receivable attributable to the use of federal funds.

e) Political Activity Prohibited

None of the funds, materials, property or services contributed by COMMISSION or SUBRECIPIENT under this Agreement shall be used for any partisan political activity, or to further the election or defeat of any candidate for public office.

f) Religious Activity Prohibited

There shall be no religious worship, instruction, or proselytization as part of, or in connection with, the performance of this Agreement.

g) Publication Rights and Copyrights

If this Agreement results in any copyrightable material or inventions, the COMMISSION reserves the right to royalty-free, non-exclusive and irrevocable license to reproduce, publish or otherwise use and to authorize others to use, the work or materials for government purposes.

Clerk of the Board
575 Administration Drive
Santa Rosa, CA 95403

Agenda Item Number: 7
(This Section for use by Clerk of the Board Only.)

To:	Sonoma County Board of Supervisors

Board Agenda Date:	December 11, 2018	**Vote Requirement:**	Majority

Department or Agency Name(s): General Services, Sonoma Water

Staff Name and Phone Number:	**Supervisorial District(s):**
General Services, Marc McDonald: 565-3468 Sonoma Water, Kevin Campbell: 547-1921	3rd

Title: Grant of New Access Easement and Summary Vacation of Existing Access Easement for Piner Creek Reservoir

Recommended Actions:

A concurrent action to:

A) Authorize the Chair of the Sonoma County Board of Supervisors and the Chair of the Sonoma County Water Agency to execute an Access Easement and Agreement between the County of Sonoma and the Sonoma County Water Agency, in form approved by County Counsel and substantially in the form of the attached easement deed, and further authorize the General Manager of the Sonoma Water Agency to accept said grant of real property interest by signing a certificate of acceptance.

B) Adopt a Resolution to authorize the Chair of the Sonoma County Water Agency to summarily vacate an existing access easement (recorded as Document No. 1996-0024795) located on County of Sonoma property located at 3322 Chanate Road, in form approved by County Counsel and in the form of the attached Resolution.

C) Authorize the General Manager of the Sonoma County Water Agency to file a Notice of Exemption in accordance with the California Environmental Quality Act, substantially in the form of the attached.

Executive Summary:

General Services and Sonoma Water desire to improve the access used by Sonoma Water to the Piner Reservoir parcel (APN 180-090-007) which is owned in fee by Sonoma Water, and includes approximately 26 acres. The Piner Reservoir is used by Sonoma Water to manage storm runoff and flood waters. The existing access rights have not been used by Sonoma Water for a number of years and portions of the easement are not suitable for vehicular access. Sonoma Water has expressed an interest in obtaining a formal vehicular ingress and egress easement over lands owned by the County including an existing parking lot. Granting of the access easement will formalize the access currently used by Sonoma Water for maintenance of Sonoma Water's Piner Creek Reservoir over an existing parking lot owned by the County. Both agencies have determined that the new access easement is at a superior location and that it is in the best interests of both agencies to relocate the access easement to the new location. The new access easement is located on already disturbed lands including an existing parking lot located on APN 180-090-008, and a minor portion of 180-090-006. This new access easement will provide Sonoma Water improved access to its existing service road on 26 acre Piner Reservoir parcel. Upon granting of the Access Easement (in form attached) by County to Sonoma Water, the existing Sonoma Water access rights (previously held under Document No. 1996-0024795), will no longer be needed and are appropriate to be vacated. The vacation of the prior access rights will improve the marketability of the 3322 Chanate Road property should the County sell the property at a future date. The item also authorizes the filing of a Notice of Exemption for granting of the access easement and summary vacation of the easement granted under Document No. 1996-0024795.

The County General Services Department and Sonoma Water Agency support vacation of the existing access easement and grant of new access easement for the benefit of their relative facilities and real property interests. This item is related to other board items schedules for the December 11, 2018 hearing date: "Preparatory Actions regarding Disposition of Chanate Campus" and "Disposition of Chanate Campus."

Discussion:

This item involves granting a twenty (20) ft. wide vehicular access easement to Sonoma County Water Agency (Sonoma Water) across property owned by the County of Sonoma (County) located on Chanate Road. The item will also request that the Board of Directors of the Sonoma Water adopt a resolution to authorize the summary vacation of an existing access easement across County property located at 3322 Chanate Road. Sonoma Water is responsible for the operation and maintenance of over 75 miles of streams and engineered channels to help mitigate and protect from damages caused by flooding.

The Central Sonoma Watershed Project (Project) was completed in the 1970's and consists of engineered channels preventing flooding. The Central Sonoma Watershed Project is located primarily within the City of Santa Rosa and extends to the Laguna de Santa Rosa. Five flood protection reservoirs were designed and constructed to store the increased inflows to fill the reservoir and then release the stored inflow downstream after flows have been reduced within Santa Rosa to help protect against flooding. Piner Creek Reservoir was constructed on Paulin Creek, a tributary of Piner Creek, in the 1960's as part of the Project.

The Piner Creek Reservoir is located south of Chanate Road near the former Sonoma County Hospital site and is identified as Assessor Parcel Number (APN) 180-090-007 (Piner Creek Reservoir Property). The Piner Creek Reservoir Property was granted to the Sonoma Water by the County in 1961. In addition to the Piner Creek Reservoir Property, the County granted an access easement to Sonoma Water over County property located at 3322 Chanate Road and identified as APN 180-090-009 (3322 Chanate). The existing access easement begins at the northerly edge of the property at Chanate Road and generally bisects through the center of the property to the southerly boundary where it meets the Reservoir Property. The County's 3322 Chanate property is improved with medical office buildings which previously housed the

Sonoma County Mental Health Services. The majority of the access route is improved with paving; however, the southerly end of the access easement is unimproved and would most likely require significant grading and removal of existing trees and vegetation to become suitable for access to the Piner Creek Reservoir Property.

To minimize impact to the public and potential grading to the 3322 Chanate property, Sonoma Water uses an adjoining County property, APN 180-090-008, located directly south of Chanate Road, east of the 3322 Chanate property, and abutting the northerly boundary of the Piner Creek Reservoir Property. This parcel contains no buildings and is improved with paved parking. The property was used for parking for the former County hospital and medical buildings located on the north side of Chanate Road. Sonoma Water maintenance staff began using this parcel for access as this access route is shorter than the route on the 3322 Chanate property and has the added benefit of being completed improved with paved parking and an improved gravel access road. As Sonoma Water's access corresponds with the County's and public access uses, no loss of utility is experienced by the County concerning its land holdings upon Sonoma Water's use.

Maintenance of the Piner Creek Reservoir requires use of heavy equipment and trucks. Reservoir maintenance activities may include removal of vegetation or sedimentation that may have established or accumulated within the reservoir. Any maintenance activities conducted on the Reservoir Property using the proposed access easement would be conducted under Sonoma Water's Stream Maintenance Program.

The proposed grant of a permanent access easement to Sonoma Water is necessary and appropriate to perfect the access rights that Sonoma Water is currently using. As previously stated, use of APN 180-090-008 for the maintenance access instead of using 3322 Chanate Road is a benefit to both the County and Sonoma Water. In exchange for the new access easement, this item also proposes that Sonoma Water will vacate the existing access easement over the 3322 Chanate Road property to the County. This will provide a benefit to the County should the County choose to dispose of the 3322 Chanate property at a future date. Vacating the easement will remove the easement from title to the property allowing for greater development potential of the property.

Easement values for access easements typically equate with the value loss of the encumbered property caused by the property use taken by the easement holder. As the proposed new access easement and vacation of the existing access easement do not change or impact the existing use of the properties, Sonoma Water staff and General Service's staff have concluded that no compensation for either easement is required.

In accordance with Government Code Section 65402, Sonoma Water requested the City of Santa Rosa Planning and Economic Development Department to determine whether the grant of the new access easement and the vacation of existing access easement would comply with the City's General Plan. The Community Development Department responded with a determination, per Section 65402 of the Government Code, that the granting of the new access easement and the vacation of the existing access easement are deemed to be in conformance with the City's General Plan.

CEQA

The General Manager of Sonoma Water has determined that granting the new access easement and the summary vacation of the existing access easement are exempt from the California Environmental Quality Act (CEQA) pursuant to (i) Section 15301 Existing Facilities (h) because granting the access easement over an existing developed parking area would allow Sonoma Water staff to continue maintenance activities on Piner Reservoir and (ii) Section 15312 Surplus Government Property Sales (a)(b)(3) because vacating the existing access easement located in the parking lot of 3322 Chanate is not in an area of statewide, regional, or area wide concern and does not have significant values for wildlife habitat, and because the use of the property and adjacent property has not changed since the easement was acquired by Sonoma Water. Water Agency staff has prepared a Notice of Exemption in accordance with CEQA, the State CEQA Guidelines, and the Water Agency's Procedures for the Implementation of CEQA.

Prior Board Actions:

Board Resolution adopted March 19, 1996 by the Board of Directors of the Sonoma County Water Agency related to the Grant of Easement recorded as Document No. 1996-0024795

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

Sonoma Water Strategic Plan Alignment Flood Protection, Goal 1: Provide efficient and effective flood protection programs.

This item helps provide for efficient and effective flood protection programs by improving the long-term access to Piner Creek Reservoir for maintenance of the Reservoir.

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses	NA

Santa Rosa, CA

Date:______________________

RESOLUTION OF THE BOARD OF DIRECTORS OF THE SONOMA COUNTY WATER AGENCY (SONOMA WATER) DETERMINING THAT VACATING AN ACCESS EASEMENT LOCATED IN THE CITY OF SANTA ROSA WILL NOT HAVE A SIGNIFICANT ADVERSE EFFECT ON THE ENVIRONMENT; AND AUTHORIZING THE SUMMARY VACATION OF AN EASEMENT THAT HAS NOT BEEN USED.

WHEREAS, Division 9, Part 3, Chapters 2 through 4 (commencing with Section 8310) of the California Streets and Highways Code provides for summary vacation when certain conditions are met; and

WHEREAS, on March 20, 1996, Sonoma Water was granted an access easement for ingress and egress for the construction, installation, maintenance, and operation of Piner Creek Reservoir, recorded as Document Number 19960024795 of Official Records of the County of Sonoma; and

WHEREAS, the County of Sonoma, the property owner affected by the easement, has requested Sonoma Water to vacate said easement as it adversely affects their property; and

WHEREAS, the property interest described below has been found to be a public service easement and has not been used for the purpose that it was acquired for five years immediately preceding the proposed vacation, meeting the requirements of Section 8333 of the California Streets and Highways Code; and

WHEREAS, pursuant to Section 65402 of the California Government Code, the proposed vacation has been submitted to the City of Santa Rosa Planning and Economic Development Department, within whose jurisdiction the proposed vacation is situated, and has been deemed to be in conformance with the general plan of said agency; and

WHEREAS, the Water Agency's General Manager has determined that the proposed vacation of easement is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15312, Surplus Government Property Sales, because the property is not located in an area of statewide concern, does not have significant values for wildlife or other environmental purposes; and

WHEREAS, the Water Agency, as the Lead Agency under CEQA, has prepared a Notice of Exemption for the summary vacation for the Project in accordance with CEQA, the State CEQA guidelines, and the Water Agency's Procedures for the Implementation of CEQA; and

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors, hereby finds, determines, declares, and resolves that:

1. The foregoing recitals are true and correct.

2. Based on review of the Notice of Exemption prepared by Water Agency staff, this Board hereby determines that the Summary Vacation of the Sonoma County Water Agency Access Easement in the City of Santa Rosa recited in item number 5 (below) is hereby exempt from the requirements of CEQA pursuant to Section 15312 Surplus Government Property Sales, because the property is not located in an area of statewide concern, does not have significant values for wildlife or other environmental purposes.

3. The Board of Directors of the Sonoma County Water Agency finds that the Water Agency no longer requires the easement referred to below for the purposes of the Water Agency.

4. The Board of Directors of the Sonoma County Water Agency finds the need for the easement referred to below to be unnecessary because the easement has not been used for the purpose for which it was acquired for five consecutive years immediately preceding the proposed vacation, and that this resolution is prima facie evidence of the facts stated.

5. That from and after the date of recording, the following described property rights no longer constitutes a hydraulic maintenance and access easements:

   > Being all that right, title and interest in and to that certain real property as described
   > in instruments recorded on March 20, 1996, as Document Number 19960024795,
   > Official Records of Sonoma County, California

6. The vacation of the easement is hereby ordered, and that the Clerk of the Board of Directors is authorized and directed to record a certified copy of this resolution at the Office of the County Recorder.

GRANT OF EASEMENT DEED

FOR VALUABLE CONSIDERATION, receipt and sufficiency of which is hereby acknowledged, the **COUNTY OF SONOMA**, a body corporate and politic, organized and existing under and by virtue of the laws of the State of California, hereinafter referred to as "County", does hereby grant to the **SONOMA COUNTY WATER AGENCY**, a body corporate and politic, organized and existing under and by virtue of the laws of the State of California, an easement for ingress and egress, with a right of immediate entry and continued possession, for construction, installation, maintenance and operation of Piner Creek Reservoir and related works, situate within the City of Santa Rosa, County of Sonoma, State of California, described as follows:

SEE EXHIBIT "A" FOR LEGAL DESCRIPTION ATTACHED HERETO AND BY REFERENCE MADE A PART HEREOF.

The above described easement is non-exclusive and reserves all uses to County not inconsistent with the specific rights granted herein to Agency.

IN WITNESS WHEREOF, the Chairman of the Board of Directors of the Sonoma County Water Agency has executed this instrument on this 12th day of March, 1996.

ACCESS EASEMENT AND AGREEMENT

This Access Easement and Agreement ("Agreement") is made by and between the **Sonoma County Water Agency**, a body corporate and politic, organized and existing under and by virtue of the laws of the State of California (hereinafter referred to as "Water Agency") and **the County of Sonoma,** a political subdivision of the State of California (hereinafter referred to as "Grantor").

RECITALS

WHEREAS, Grantor is the owner of certain real property in Sonoma County, California, more particularly described as follows:

> The lands of the **County of Sonoma**, a political subdivision of the State of California as described in that certain Grant Deed recorded on January 8, 1876 in Book 52 of Deeds, beginning at page 872, Official Records of Sonoma County, (hereafter referred to as the "Grantor's Property").

WHEREAS, Water Agency owns and operates a flood retention reservoir within an existing fee property in Sonoma County, California, more particularly described as follows:

> A fee property of the Sonoma County Flood Control and Water Conservation District as described in that certain Grant Deed, recorded on April 13, 1961 in Book 1817, beginning at Page 872, Official Records of Sonoma, (hereafter referred to as the "Piner Reservoir").

WHEREAS, Water Agency wishes to obtain a permanent easement over portions of the Grantor's Property within that certain real property described in Exhibit "A" and as shown in Exhibit "A-1" (hereafter "the Easement Area"), attached hereto, and by this reference hereby made a part of this Easement Access Agreement, for the purposes of ingress to and egress from the Piner Reservoir for the purpose of construction, maintenance, operation, inspection, repair, alteration, enlargement, and reconstruction of the Piner Dam and Reservoir, and all necessary appurtenances thereto located within the Piner Reservoir.

NOW, THEREFORE, for good and valuable consideration and in consideration of the mutual covenants, terms, conditions and restrictions contained herein, Grantor and Water Agency covenant and agree as follows:

AGREEMENT

1. **GRANT OF NON-EXCLUSIVE EASMENT:** Grantor does hereby grant to the Water Agency an easement for ingress and egress to and from the Piner Reservoir, in, over, across and upon the Easement Area, or over, through and along such alternate route or routes located on Grantor's Property or contiguous real property vested in the name of the Grantor or their transferees, successors and assigns mutually acceptable to Grantor and Water Agency, as from time to time or at any time in the future, may be needed by the Water Agency, its contractors, transferees, successors, and assigns for ingress and egress to and from the Piner Reservoir, along such route orr routes that may be mutually agreeable to Grantor and Water Agency. Grantor further grants the Water Agency from time to time or at any time in the future, the right to install and maintain field gates in Grantor's fences located within the Easement Area, and/or along said alternate route(s) as may be necessary for Water Agency, and to construct and /or improve such roadway surfaces as Water Agency deems necessary to utilize such route or routes for ingress and egress to and from the Piner Reservoir. Grantor shall not be responsible for the cost of recording this Agreement.

2. **FURTHER DESCRIPTION OF EASEMENT OVER GRANTOR'S PROPERTY:** The easement granted over the Easement Area is a non-exclusive, perpetual easement for the purposes described herein. The easement does not confer any responsibility or liability on the Water Agency for any hazardous materials, hazardous substances, or hazardous waste, as those terms are defined in any Federal, state or local law.

3. **TERM:** The easement granted herein shall continue indefinitely.

4. **INDEMNIFICATION:** Each party (the "Indemnifying Party") agrees to accept all responsibility for loss or damage to any person or entity, and to defend, indemnify, hold harmless and release the other party (the "Indemnified Party"), its officers, agents and employees, from and against any and all actions, claims, damages, disabilities or expenses that may be asserted by any person or entity, including either party, arising out of or caused by the negligence or willful misconduct of the Indemnifying Party, except to the extent that such actions, claims, damages, disabilities or expenses arise out of or are caused by the negligence or willful misconduct of the Indemnified Party. This indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Grantor or its agents under workers' compensation acts, disability benefit acts, or other employee benefit acts.

5. **GRANTOR STATEMENT:** Grantor represents that Grantor is not aware of any hazardous, toxic or petroleum product substances or materials in, on or near the subject property.

6. **IMMEDIATE ACCESS:** Grantor hereby grants permission to Water Agency, acting through its duly authorized agents, representatives, or contractors, to enter upon that portion of Grantor's

property needed in order to undertake the inspection activities referred to herein. It is understood that Grantor does not waive liability of Water Agency or Water Agency's contractor for injury to person or property arising out of negligence in conducting such activities.

7. **SUCCESSORS:** This Agreement shall be binding on and shall inure to the benefit of the parties hereto and their respective successors, heirs, assigns, and transferees, and all covenants shall apply to and run with the land.

8. **NOTIFICATION:** In the event Grantor sells, conveys, or assigns any property interests encumbered by this Agreement, Grantor shall notify the successor or assignee of the rights and obligations of both parties as included herein.

9. **SURVIVAL OF AGREEMENT:** This Agreement, including all representations, warranties, covenants, agreements, releases and other obligations contained herein shall survive the closing of this transaction and the recordation of this easement agreement.

10. **ENTIRE UNDERSTANDING:** This writing is intended both as the final expression of the Agreement between the parties hereto with respect to the included terms and as a complete and exclusive statement of the terms of the Agreement, pursuant to California Code of Civil Procedure §1856. No modification of this Agreement shall be effective unless and until such modification is evidenced by a writing signed by both parties.

11. **SIGNATURES OF GRANTOR:** Grantor represents and warrants that (a) Grantor is the sole legal and lawful owner of the Property, (b) Grantor has the requisite authority to execute this agreement on behalf of the interest they represent herein, and to grant the easement conveyed herein to the Agency, and (c) no other party has any legal or equitable claim to or interest in the Property.

12. **SUBORDINATION AGREEMENT:** Grantor warrants that Grantor is the owner in fee simple of the Property, and that on the date it executed this Agreement the Grantor's Property was not subject to any deeds of trust or other encumbrance.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed.

Legal Description

Access Easement Area

Piner Creek Reservoir

Real Property situated in the City of Santa Rosa, County of Sonoma State of California described as follows:

A portion of the Lands of the County of Sonoma as described in that certain grant deed recorded January 8, 1876 in Book 52 of Deeds, beginning at page 872, in the Office of the Recorder in and for the said County of Sonoma, being a strip of land 20.00 feet in width, measured at right angles and lying 10.0 feet each side of the following described centerline:

Beginning at a point on the northwestern boundary of the lands described in that certain Easement recorded April 11, 1961 in Book 1817 of Official records, beginning at page 874, in the Office of the Recorder in and for the said County of Sonoma, from which the westerly-most corner of the lands therein described bears South 50°59'02" West 36.36 feet; Thence from said Point of Beginning, departing from said northwestern boundary, North 18°40'38" West 17.15 feet to be beginning of a curve, concave southeasterly and tangent to its preceding course; Thence along the arc of said curve, deflecting to the left, having a radius of 40.00 feet, through a central angle (delta) of 69°01'19", for an arc distance (length) of 48.19'; Thence North 87°41'57"West 223.06 feet to the beginning of a curve, concave northeasterly and tangent to its preceding course; Then along the arc of said curve, deflecting to the right, having a radius of 40.00 feet, through a central angle (delta) of 82°20'12", for an arc distance (length) of 57.48 feet; Thence North 05°21'45" West 9.37 feet more or less to an intersection of the herein described centerline with the southern boundary of Chanate Road, said southern boundary being the northwestern boundary of Lot 1 as shown on that certain Parcel Map No. 511, filed for record July 1, 1993 in Book 510 of Maps, beginning at age 25, in the Office of the Recorder in and for the said County of Sonoma, said intersection being the Point of Terminus of the herein described centerline.

The side-lines of the herein described strip of land, shall be shortened or lengthened as necessary to form true intersections with the said northwestern boundary of the lands described in that certain Easement recorded April 11, 1961 in Book 1817 of Official records, beginning at page 874 on the westerly end of the herein described strip of land, and with the said southern boundary of Chanate Road at the easterly end of the herein described strip of land.

The hereinabove described strip of land contains 7,105 square feet more or less, measured in ground level distances. Bearings for the hereinabove described strip of land are based upon said Parcel Map No. 511

This legal description and its accompanying plat were prepared by me or under my direction in April 2015.

Project Title: Grant of Easement to Sonoma County Water Agency and Quitclaim of Easement to County of Sonoma for Piner Reservoir

Project Location - Specific: 3322 Chanate Road, Santa Rosa, CA Assessor Parcel Numbers 180-090-009 & 180-090-008.

Project Location – City: Santa Rosa **County:** Sonoma

Description of Nature, Purpose and Beneficiaries of Project: The Sonoma County Water Agency (Sonoma Water) is responsible for the operation and maintenance of over 75 miles of streams and engineered channels to help mitigate and protect from damages caused by flooding. A major component of the engineered channels is the Central Sonoma Watershed Project (Project) that was completed in the 1970's. The Project is located primarily within the City of Santa Rosa and extends to the Laguna de Santa Rosa. Five flood protection reservoirs were designed and constructed to store the increased inflows to fill the reservoir and then release the stored inflow downstream after flows have reduced within Santa Rosa to help protect against flooding. Piner Creek Reservoir was constructed on Paulin Creek, a tributary of Piner Creek, in the 1960's as part of the Project.

Piner Creek Reservoir is located south of Chanate Road near the former Sonoma County Hospital site (Reservoir Property). The Reservoir Property was granted to the Sonoma Water by the County of Sonoma in 1961. In addition to the Reservoir Property, the County of Sonoma granted an access easement over county property located at 3322 Chanate Road and identified as Assessor Parcel Number 180-090-009 (3322 Chanate). The existing access easement begins at the northerly edge of the property at Chanate Road and generally bisects through the center of the property to the southerly boundary where it meets the Reservoir Property.

Sonoma Water currently uses an adjoining County property, Assessor's Parcel Number 180-090-008, located directly south of Chanate Road, east of the 3322 Chanate property, and abutting the northerly boundary of the Reservoir Property to access the reservoir. This parcel contains no buildings and is improved with paved parking. The property was used for parking for the former County hospital and medical buildings located on the north side of Chanate Road. Sonoma Water maintenance staff began using this parcel for access as this access route is shorter than the route on the 3322 Chanate property and is improved with paved parking and improved gravel access road.

The Proposed Project would grant a permanent access easement to Sonoma Water to perfect the access rights that Sonoma Water is currently using and summary vacate the existing access to the County of Sonoma. Per Section 65402 of the Government Code, the granting of the new access easement and the vacation of existing access easement are deemed to be in conformance with the City's General Plan.

Name of Public Agency Approving Project: Sonoma County Water Agency

Name of Person or Agency Carrying Out Project: Sonoma County Water Agency

Exempt Status: (check one)

☐ Ministerial (Sec. 21080(b)(1); 15268);

☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));

☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));

☒ Categorical Exemption. State type and section number: Section 15301 Existing Facilities (h) and Section 15312 Surplus Government Property Sales (a)

☐ Statutory Exemptions. State code number: Click here to enter text.

Reasons why project is exempt: Section 15301 Existing Facilities (h) because granting the access easement over an existing developed parking area would allow Water Agency staff to continue maintenance activities on Piner Reservoir and would not involve an expansion of use. Section 15312 Surplus Government Property Sales (a) (b)(3) because the

Title: Grant of Property Rights to Caltrans for Marin-Sonoma Narrows Project

Recommended Actions:

Authorize the execution of a Right of Way Contract by the General Manager of the Sonoma County Water Agency with the California Department of Transportation granting Temporary Construction Easements in substantially the form provided to the Board with County Counsel's review and approval as to form.

Executive Summary:

The California Department of Transportation (Caltrans) is in the process of constructing the Marin-Sonoma Narrows High Occupancy Vehicle Widening Projects (Marin-Sonoma Narrows). Construction of mitigation measures for the Project require the acquisition of Temporary Construction Easement over Sonoma County Water Agency (Sonoma Water) property. Due to the need to have the Temporary Construction Easements signed by the end of 2018 to meet Caltrans' schedule, staff is requesting the Board Authorize Sonoma Water's General Manager to sign the Right of Way Contract with Caltrans, and authorize Sonoma Water's General Manager to enter into an agreement with Transit Authority, for cost reimbursement.

Discussion:

Caltrans is in the process of constructing the Marin-Sonoma Narrows Project, which will impact infrastructure owned by Sonoma Water. In March of 2018, Sonoma Water was contacted by Transit Authority's consultant regarding the Marin-Sonoma Narrows Project. The Marin-Sonoma Narrows Project will revise the Highway 101 vertical alignment and raise the profile to accommodate standard stopping site distance and design speed, while maintaining the standard vertical clearance above the Sonoma Marin Area Rail Transit (SMART) corridor.

Caltrans requires use of portions of Sonoma Water's Lynch Creek property and Washington Creek property for construction access needed to construct mitigation measures for the Project located on Caltrans property.

Washington Creek and Lynch Creek Temporary Construction Easements (TCE)

The Marin-Sonoma Narrows Project includes construction of sound walls needed to mitigate freeway noise on the adjoining properties. Caltrans has identified two Temporary Construction Easement areas needed to construct the sound walls that are located on Sonoma Water property. The properties affected are portions of Sonoma Water's Lynch Creek Channel (Assessor Parcel Number 136-100-028) and Sonoma Water's Washington Creek Channel (Assessor Parcel Number 007-261-048). Caltrans and Sonoma Water Staff have negotiated a Right of Way Contract that grants to Caltrans the Temporary Construction Easements (TCE) needed. Caltrans appraised the TCE rights at $650; however, the cost to Sonoma Water to gain the Board's approval for the Right of Way Contract needed by Caltrans to purchase the Temporary Construction Easements is estimated at $7,000. Caltrans has agreed to compensate Sonoma Water $7,650 in consideration for the temporary use of Sonoma Water's properties and its transactional costs to gain the Board's approval. In accordance with Sonoma Water's enabling legislation, any easement granted by Sonoma Water must not adversely affect Sonoma Water and must be considered at two regularly scheduled Board meetings. The General Manager has determined that the granting of the TCE will not adversely affect Sonoma Water. This item was considered at the December 4th Board meeting.

California Environmental Quality Act (CEQA)

Caltrans has completed environmental documentation in accordance with the California Environmental Quality Act (CEQA) for the Project. Caltrans prepared an Environmental Impact Report (EIR)/Environmental Impact Statement (EIS), which addresses the potential impacts related to the Project and measures to mitigate adverse effects of the Project. With the incorporation of the mitigation measures established by the Caltrans, the Project would not have an adverse impact on the environment. Caltrans approved the Highway 101 HOV Lane Widening and Improvements Project on July 21, 2009. Caltrans filed a Notice of Determination for the Project on July 23, 2009. On October 29, 2009, a Record of Decision for the Project was executed by the United States Department of Transportation Federal Highway Administration for the Route 101 Marin-Sonoma Narrows HOV Widening Project. The easement also has met all the requirements of Government Code, Section 65402, for General Plan consistency.

Sonoma Water has prepared a Notice of Determination in accordance with CEQA, the State CEQA Guidelines, and the Agency's Procedures for the Implementation of CEQA as a responsible agency under CEQA. The Notice of Determination states that based on the EIR/EIS prepared by Caltrans, the execution of the Right of Way Contract would not have a significant adverse impact on the environment.

SUMMARY

Due to its timeline, Caltrans is requesting to have the Right of Way Contract executed by the end of calendar year 2018. Because of the time constraint in obtaining approval from both agencies, staff request the Board authorize Sonoma Water's General Manager the authority to sign the Right of Way Contract for Temporary Construction Easements on Lynch Creek and Washington Creek, with County Counsel's review and approval to form.

SONOMA COUNTY WATER AGENCY

This Right of Way Contract describing Parcel Nos. 63657-1 and 63680-1 as TEMPORARY CONSTRUCTION EASEMENTS and shown on the attached exhibits marked Exhibit "A", has been executed and delivered to MICHAEL O'CALLAGHAN, Associate Right of Way Agent for the State of California.

In consideration of which, and the other considerations hereinafter set forth, it is mutually agreed as follows:

1. (A) The parties have herein set forth the whole of their agreement. The performance of this agreement constitutes the entire consideration for said document and shall relieve the State of all further obligation or claims on this account, or on account of the location, grade or construction of the proposed public improvement.

   (B) Grantee requires said property shown as Parcel Nos. 63657-1 and 63680-1 on Exhibit "A" for State highway purposes, a public use for which Grantee has the authority to exercise the power of eminent domain. Grantor is compelled to sell, and Grantee is compelled to acquire the property.

   Both Grantor and Grantee recognize the expense, time, effort, and risk to both parties in determining the compensation for the property by eminent domain litigation. The compensation set forth herein for the property is in compromise and settlement, in lieu of such litigation.

2. The State shall:

   (A) Pay the undersigned Grantor the sum of $7,650.00 for the interest conveyed by this document upon execution of this agreement by the State subject to all liens, encumbrances, assessments, easements and leases (recorded and/or unrecorded) and taxes.

   (B) Pay all escrow and recording fees incurred in this transaction, and, if title insurance is desired by the State, the premium charged therefor.

3. The undersigned Grantor warrants that, in his capacity as the General Manager of the Sonoma County Water Agency, the Sonoma County Water Agency is the owner in fee simple of the property as described in Clause 1 (B) above, that the Board of Directors for the Sonoma County Water Agency has the exclusive right to grant these Temporary Construction Easements, and the General Manager is authorized on behalf of the Board to execute this agreement granting Temporary Construction Easements.

   A) It is understood that the State did not provide a title report and will not obtain title insurance for the Temporary Construction Easement rights to be acquired from the Sonoma County Water Agency. In addition to any indemnification granted under clause 5 below, the State further agrees to defend, indemnify, hold harmless, and release Sonoma County Water Agency, and its officers, agents, and employees, from and against any and all actions, claims, damages, liabilities, or expenses that may be asserted by any person or entity, including the State, relating to any third party rights that may exist on the Sonoma County Water Agency's property that would be damaged by State's Project.

4. It is agreed and confirmed by the parties hereto that notwithstanding other provisions in this contract, the right of possession and use of the subject property by the State, for Temporary Construction purposes shall commence on December 31, 2018 or the close of escrow controlling this transaction, whichever occurs first, and that the amount shown in Clause 2(A) herein includes, but is not limited to, full payment for such possession and use, including damages, if any, from said date.

   A) Temporary Construction purposes shall include the temporary use of the easement areas shown as Parcels 63657-1 and 63680-1 in Exhibit "A", for construction activities by the State or its Contractor(s), including staging, and stockpiling of equipment and materials so long as such uses and/or activities do not unreasonably interfere with the operation of the Flood Control Channels or Grantor's maintenance activities of food control channels located within the boundaries.

   B) The above described parcels of land are to be used for temporary construction purposes in connection with the construction of the State highway designated Route 101 on maps in the office of the Department of Transportation, State of California, at 111 Grand Avenue, Oakland, California. At least 48 (forty-eight) hours advance written notice will be given before entry on said parcel. It is further understood that in no event shall the temporary right granted herein extend beyond the completion of the construction project or June 31, 2021, whichever is earlier.

5. State agrees to indemnify and hold harmless Grantor from any liability arising out of State's operations under this agreement. State further agrees to assume responsibility for any damages proximately caused by reason of State's operations under this agreement and State will, at its option, either repair or pay for such damage.

6. Grantor warrants that there are no oral or written leases on all or any portion of the property exceeding a period of one month, and the Grantor agrees to hold State harmless and reimburse State for any and all of its losses and expenses occasioned by reason of any lease of said property held by any tenant of Grantor for a period exceeding one month.

7. This transaction will be handled through an internal escrow by the State of California, Department of Transportation, District 4 Office, Post Office Box 23440, Oakland, CA 94623-0440.

In Witness Whereof, the Parties have executed this agreement the day and year first above written.

Notice of Determination

To: ☐ Office of Planning and Research
1400 Tenth Street, Room 121
Sacramento, CA 95814

☒ County Clerk
County of Sonoma

From: Sonoma County Water Agency
404 Aviation Blvd.
Santa Rosa, CA 95403

Subject: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

Project Title: Granting of Temporary Construction Easement to California Department of Transportation for Route 101 Marin-Sonoma Narrows HOV Widening Project

---

SCH# 2001042115 **Contact:** Connie Barton **Phone:** (707) 547-1905

Project Location: The project is located on Sonoma County Water Agency's (Water Agency) flood control channels along Washington Creek (Assessor's Parcel Number 007-261-048) and Lynch Creek (Assessor's Parcel Number 136-100-028), just north west of the US Highway (Hwy) 101 and Washington Boulevard intersection and west of US Highway (Hwy) 101 and Lynch Creek crossing, located in the City of Petaluma, Sonoma County, California.

Project Description: The project consists of the Water Agency granting temporary construction easements to the California Department of Transportation (Caltrans) for the construction of the Route 101 Marin-Sonoma Narrows High Occupancy Vehicle project (HOV project). The Water Agency would grant two temporary construction easement (totaling approximately 2,259 square feet) to Caltrans, allowing access over the Water Agency's service road, located parallel to the HOV project area. The Water Agency currently utilizes the properties for flood control purposes. The granting of temporary construction easements for the HOV project would not conflict with the Water Agency's activities, and will not adversely affect the Water Agency.

An Environmental Impact Report/ Environmental Impact Statement (EIR/EIS) was prepared by Caltrans and the US Department of Transportation, Federal Highway Administration. The EIR/EIS was certified on July 21, 2009, and a Notice of Determination was filed on July 23, 2009. The EIR/EIS addressed the potential environmental impacts of the HOV project, and concluded that with the incorporation of mitigation measures, the HOV project would not have a significant adverse effect on the environment.

This is to advise that the Sonoma County Water Agency, ☐ Lead Agency ☒ Responsible Agency, has approved the above described project on December 3, 2013, and has made the following determinations regarding the above described project:

1. The project [☐ will ☒ will not] have a significant effect on the environment.
2. ☒ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
   ☐ A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [☒ were ☐ were not] made a condition of the approval of the project.
4. A Statement of Overriding Considerations [☐ was ☒ was not] adopted for this project.
5. Findings [☐ were ☒ were not] made pursuant to the provisions of CEQA.

This is to certify that the record of project approval is available to the general public at:

Staff Name and Phone Number:
Greg Guensch 547-1972

Supervisorial District(s):

Title: Dry Creek Habitat Enhancement Project

Recommended Actions:

In an ongoing effort to provide habitat enhancement for coho and steelhead while continuing to provide high-quality water supply:

A) Authorize Sonoma County Water Agency's General Manager to execute the fourth amended agreement with Inter-Fluve for engineering and design services for Dry Creek Habitat Enhancement Project, Phase II increasing the amount by $93,603, expanding the scope of work to include additional work required for redesign of project features, changes to the bid documents, additional hydraulic modeling, an additional season of construction support, and one year of additional project management, and also extending the agreement term by one year for a new not-to-exceed agreement total of $1,549,804 and end date of December 31, 2019.

B) Authorize Sonoma County Water Agency's General Manager to execute the fifth amended agreement with Environmental Science Associates for engineering and design services for Dry Creek Habitat Enhancement Project Phase III increasing the amount by $40,000 for potential additional effort related to the JPMB Properties site (formerly Miller) and extending the agreement term by one year for a new not-to-exceed agreement total of $1,965,556 and end date of December 31, 2020.

Executive Summary:

The Russian River Biological Opinion requires a total of six miles of habitat enhancement be created in Dry Creek to provide improved summer and winter rearing conditions for coho and steelhead by October 2023. These miles will be comprised of many different sections from the various phases of construction. In order to differentiate between miles along Dry Creek and miles of habitat enhancement, the miles 1-6 of habitat enhancement are being referred to as Phases I-VI. These enhancements will support federally protected species while allowing the continued flow of Lake Sonoma water down Dry Creek at levels sufficient to provide water supply for the 600,000 residents of Sonoma and Marin counties who receive water from the Sonoma County Water Agency (Sonoma Water). This item will allow work to continue under the subject design agreements to achieve what is required to meet the objectives and timeline of the Biological Opinion.

Discussion:

HISTORY OF ITEM/BACKGROUND

Section 7 Consultation and Biological Opinion

Sonoma Water and the US Army Corps of Engineers (Corps) undertook a Section 7 consultation with the National Marine Fisheries Service under the Federal Endangered Species Act. The purpose of the consultation was to assess the ongoing water supply, flood control, and channel maintenance operations conducted in the Russian River Flood Control District. In September 2008, the National Marine Fisheries Service issued the resulting Biological Opinion based on the results of the Section 7 Consultation.

The Biological Opinion requires Sonoma Water and the Corps to implement a series of actions to minimize impacts to listed salmon species and enhance their habitats within the Russian River and its tributaries. In return, the Biological Opinion contains an "incidental take statement" that allows Sonoma Water to "take" listed salmonid species, (within limits specified in the Biological Opinion) while operating its water transmission system and flood control activities, without violating the federal Endangered Species Act. The Biological Opinion is in effect until October 2023.

On November 9, 2009, Sonoma Water requested and received a Consistency Determination from the California Department of Fish and Wildlife. The Consistency Determination provides Sonoma Water with incidental take coverage under the California Endangered Species Act for the same Russian River activities that have coverage under the Biological Opinion related to the federal Endangered Species Act.

The Biological Opinion specifically identified the need to improve rearing habitat for coho and steelhead in Dry Creek and the Russian River at the water-supply flows proposed. To address this need, while allowing continued discharges from Lake Sonoma for water supply purposes, the Biological Opinion has required habitat enhancement of six miles of Dry Creek to provide improved summer and winter rearing conditions for coho and steelhead. The Dry Creek Habitat Enhancement Project (Project) is currently under construction and being developed to meet these habitat enhancement requirements.

In order to differentiate between miles along Dry Creek and miles of habitat enhancement, the miles 1-6 of habitat enhancement are being referred to as Phases I-VI. These projects are parts of Phases II and III, which respectively represent the second and third miles of habitat being created. Phase II is located in Reach 14, approximately 14 miles upstream of the confluence with the Russian River, and Phase III is located in Reach 5A approximately 5 miles upstream of the confluence with the Russian River.

Original Inter-Fluve Agreement and Prior Amended Agreements

On January 28, 2014, Sonoma Water's Board of Directors (Board) authorized the Chair to execute an agreement between Sonoma Water and Inter-Fluve for engineering and design services for the Project, Phase II, in the amount of $929,395 and term end date of December 31, 2017. The agreement has subsequently been amended three times as follows:

A. On December 22, 2014, the first amended agreement was executed by Sonoma Water's General Manager under amendment authority approved by Sonoma Water's Board with the original Board item. The first amended agreement expanded the scope of work to include an additional site (Ferrari-Carano) and increased the agreement amount by $82,969. The new total was $1,012,364 with no change to the end date.

B. On February 2, 2016, the Board authorized the Chair to execute the second amended agreement. The second amended agreement included refinements to the hydraulic and habitat modeling at higher base flows than originally proposed, advancement of the Ferrari-Carano and Gallo properties to 100% design, splitting construction into two phases for an additional season, the inclusion of engineering analysis and design of modifications to the board fence in Reach 8, seismic refraction studies to meet Corps' requirements and schedule constraints, and further coordination with the Corps. The second amended agreement also increased the agreement amount by $254,073. The new total was $1,266,437 with no change to term end date.

C. On July 11, 2017, the Board authorized Sonoma Water's General Manager to execute the third amended agreement. The third amended agreement provided funding to support Sonoma Water in addressing the following changed conditions: 1) 2016/2017 flood impacts to elements C and D or Reach 8 (Phase II, Part 1) constructed in 2016, 2) decision to replace the pipe inflow systems currently on the plans for Sites A and B of Reach 8 with surface inflow features; and 3) decision to separate Reaches 14A and 14B from other sites in Phase II, Part 2 plan set in order to bid and construct them in 2018. This increased the agreement amount by $189,764, for a new agreement total of $1,456,201, and extended the term end date by one year to December 31, 2018.

Original Environmental Science Associates Agreement and Prior Amended Agreements

On January 28, 2014, the Board authorized the Chair to execute an agreement between Sonoma Water and Environmental Science Associates for engineering and design services for the Project, Phase III, in the amount of $979,422. The agreement has subsequently been amended four times as follows:

A. On December 22, 2014, Sonoma Water's General Manager executed the first amended agreement under amendment authority approved by the Board with the original Board item. The first amended agreement expanded the scope of work to include an additional site for an additional cost of $55,866, resulting in a total project cost of $1,035,288. The term end date was not changed.

B. On August 14, 2015, Sonoma Water's General Manager executed the second amended agreement under the amendment authority approved by the Board with the original Board item. The second amended agreement expanded the scope of work to add tasks for supplemental geotechnical services for repair of approximately 90 lineal feet of failed creek bank along the northern side of the tributary on the Carano property in Reach 2, for an additional cost of $42,068, resulting in a new total agreement cost of $1,077,356. The term end date was not changed.

C. On February 2, 2016, the Board authorized Sonoma Water's General Manager to execute the third amended agreement. The third amended agreement provided funds for preparation of Concept Design Booklets at a higher level of design than originally anticipated and on an accelerated schedule, additional model runs to cover the upper range of the base flow (200cfs) for all sites, inclusion of design completion for the JPMB Properties property, splitting construction into two phases for an additional season and bid package, new tasks to address bank stabilization at Site 5A, seismic refraction studies to meet Corps requirements and schedule constraints, and increased the agreement amount by $267,800 for a new Agreement total of $1,345,156. The term end date was not changed.

D. On April 11, 2017, the Board authorized Sonoma Water's General Manager to execute the fourth amended agreement. The fourth amended agreement divided Phase III Part 2 of the Project into two bid packages as follows: Site 4A and 4B will be provided to the Corps (as Phase III, Part 2, Corps), as a separate Corps project. Site 5A (as Phase III, Part 3) will be constructed by Sonoma Water. New tasks are being added for: (1) division of the Phase III drawings; (2) additional format changes and submittals necessary to meet Corps requirements; (3) bidding and 2018 construction support to Sonoma Water and the Corps; (4) additional hydraulic and habitat modeling; (5) type selection; and (6) detailed habitat enhancement and bank stabilization design on the Boaz property at the downstream end of Site 5A. The agreement amount was increased by $580,400, and the term end date was extended by one year for a new agreement total of $1,925,556 and term end date of December 31, 2018.

SELECTION PROCESSES

On March 7, 2013, Sonoma Water issued a Request for Statements of Qualifications to 18 firms. The following four firms submitted Statements of Qualifications: Entrix Inc., Walnut Creek, California; Environmental Science Associates, San Francisco, California; Inter-Fluve, Hood River, Oregon; and Northwest Hydraulic Consultants, Ashland, Oregon. Statements of Qualifications were evaluated by a Sonoma Water staff review team consisting of employees with expertise in the area of fisheries, engineering, environmental compliance, and management. The following criteria were used to evaluate each firm:

A. Demonstrated ability to design and assist with construction of large-woody-debris structures.
B. Experience with design, assistance with the construction, of large backwaters and side channels, and restoration/habitat enhancement projects for creek or river reaches of a mile or more in length.
C. One or more design projects exceeding a $100,000 contract value within the last 5 years.
D. Design and assistance with construction of one or more river restoration/habitat projects having a construction cost greater than $1,000,000 within last 5 years.
E. Ability to perform 1- and/or 2-dimensional hydraulic and habitat modeling of existing conditions and proposed designs.
F. Demonstrated ability to work with permitting agencies, public agencies, private landowners, and local stakeholders with varied and competing constraints and objectives to successfully design and implement projects.
G. Experience with geomorphology, fisheries science, and water management issues in northern California river systems.

Inter-Fluve, Cardno Entrix, and Environmental Science Associates, were identified as extremely qualified and were invited to attend in-person interviews with the Sonoma Water review team, other Sonoma Water staff actively involved with the Project, and Project partners from outside Sonoma Water.

Inter-Fluve was selected for Phase II of the Project design because of its in-depth understanding of the background science, design concepts, timeline, issues, and challenges of the Project. Also, from previous work on Dry Creek restoration projects, Inter-Fluve had existing relationships with a number of property owners where potential Phase II Project sites are located. The participation of Inter-Fluve provides continuity that is important for property owner outreach efforts, ongoing relationships with permitting agencies, and overall design development.

Environmental Science Associates was selected for Phase III of the Project design because it understands the science and engineering, fisheries biology, technical and logistical challenges, and methodologies required by the Project. Environmental Science Associates offered a technical approach, design style, and scientific perspective that complements the current methods being deployed, expanding the range of design options and increasing Sonoma Water’s ability to address property owner needs and concerns.

SERVICES UNDER AMENDED AGREEMENTS

Inter-Fluve
This fourth amended agreement adds $93,603 for additional work to allow Inter-Fluve to effectively support Sonoma Water in ongoing Dry Creek Phase II project implementation. Specific work items include: redesign of project features, changes to the bid documents, additional hydraulic modeling, an additional season of construction support, and one year of additional project management. The fourth amended agreement also extends the term by one year for a new total of $1,549,804 and term end date of December 31, 2019.

Environmental Science Associates
This fifth amended agreement adds $40,000, budgeted as an optional task, for potential additional effort related to the JPMB Properties site. Additional effort may include, but not be limited to, modifications to plans and right-of-way if property owners decide not to participate in the Project, design changes necessary for compliance with permitting agencies, and additional hydraulic modeling to evaluate design changes or demonstrate fish habitat. The fifth amended agreement also extends the term by one year for a new total of $1,965,556 and term end date of December 31, 2020.

RECOMMENDATION
Sonoma Water staff recommends that the Board 1) authorize Sonoma Water's General Manager to execute the fourth amended agreement with Inter-Fluve for engineering and design services for Dry Creek Habitat Enhancement Project, Phase II increasing the amount by $93,603, expanding the scope of work to include additional work required to address potential uncertainties as necessary in order to effectively support Sonoma Water to advance the project to construction, and extending the agreement term by one year for a new not-to-exceed agreement total of $1,549,804 and end date of December 31, 2019; and 2) authorize Sonoma Water's General Manager to execute the fifth amended agreement with Environmental Science Associates for engineering and design services for Dry Creek Habitat Enhancement Project Phase III increasing the amount by $40,000 for potential additional effort related to the JPMB Properties site and extending the agreement term by one year for a new not-to-exceed agreement total of $1,965,556 and end date of December 31, 2020.

Prior Board Actions:

See detailed information in Discussion under "History of Item/Background

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

The Project will accomplish habitat enhancement of six miles of Dry Creek to provide near ideal summer rearing conditions for coho and steelhead while maintaining operational steady state discharge for water supply purposes.

Water Supply and Transmission System, Goal 1: Protect drinking water supply and promote water-use efficiency.
The Project is part of a suite of projects that Sonoma Water is implementing in compliance with the Biological Opinion. This compliance is necessary in order to protect Sonoma Water's existing water rights and to continue to provide high-quality water supplies.

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses	133,603		
Additional Appropriation Requested			
Total Expenditures	**133,603**		
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other	133,603		
Use of Fund Balance			
Contingencies			
Total Sources	**133,603**		

Narrative Explanation of Fiscal Impacts:

Inter-Fluve: Budgeted amount of $93,603 is available from FY 2018/2019 appropriations for the Warm Springs Dam fund. No additional appropriation is required.

Environmental Science Associates: Budgeted amount of $40,000 is available from FY 2018/2019 appropriations for the Warm Springs Dam fund. No additional appropriation is required.

Fourth Amended Agreement for Engineering and Design Services for Dry Creek Habitat Enhancement Project, Phase II

This fourth amended agreement ("Fourth Amended Agreement" or "Agreement") is by and between **Sonoma County Water Agency**, a body corporate and politic of the State of California ("Sonoma Water") and **Inter-Fluve, Inc.**, a Montana corporation ("Consultant"). The Effective Date of this Agreement is the date the Agreement is last signed by the parties to the Agreement, unless otherwise specified in Article 5 (Term of Agreement).

RECITALS

A. Consultant certifies that it is a Montana corporation duly authorized to do business in the State of California, registered with the Secretary of State of California, and represents that it is a duly qualified and licensed engineering and environmental services firm experienced in the preparation of engineering and environmental documents and related services.

B. In September, 2008, the National Marine Fisheries Service (NMFS) issued the Biological Opinion (BO) on the water supply, flood control, and channel maintenance operations conducted by the Sonoma Water, the U. S. Army Corps of Engineers (USACE), and the Mendocino County Russian River Flood Control District in the Russian River watershed. The BO is a 15-year recovery plan based on the results of a Section 7 consultation under the federal Endangered Species Act with NMFS.

C. One of the recommended Reasonable and Prudent Alternatives (RPA) contained in the BO requires habitat enhancement of six miles of Dry Creek to provide near ideal summer rearing conditions for coho and steelhead while maintaining operational steady state discharge for water supply purposes. The proposed Dry Creek Habitat Enhancement Project (Project) is being developed in accordance with the RPA and will be an important component of a larger effort to improve conditions for salmonid species in the Dry Creek and Russian River watersheds.

D. Phase I of the Project, the Demonstration Project, is a one mile long reach and is intended to provide an opportunity for stakeholders to evaluate the proposed habitat enhancement approach. Design of Phase I was completed in 2012, and the first section was constructed during the summer of 2012, the second in 2013, and the final section is scheduled for construction during summer of 2014.

E. The design of Phases II and III of the Project consist of the analysis, design, and support during construction of habitat enhancement features of Dry Creek. The sites will be located between Warm Springs Dam (Lake Sonoma) and the confluence with the Russian River. Some specific elements of Phases II and III include design of habitat enhancement features such as side channels, backwaters, engineered log jams and large woody debris (LWD) structures, and constructed riffles; bank stabilization measures using bioengineering methods; and hydraulic modeling and analyses to support the design of Project components.

F. Sonoma Water and Consultant first entered into this Agreement on January 28, 2014, in the amount of $929,395 (Original Agreement).

G. The First Amended Agreement expanded the scope of work to include an additional site (Ferrari-Carano) and increased the Agreement amount by $82,969, for a new Agreement total of $1,012,364.

H. The Second Amended Agreement provided funding for refinements to the hydraulic and habitat modeling at higher base flows than originally proposed, advancement of the Ferrari-Carano and Gallo properties to 100% design, splitting construction into two phases for an additional season, the inclusion of engineering analysis and design of modifications to the board fence in Reach 8, seismic refraction studies to meet USACE requirements and schedule constraints, and further coordination with USACE, and increased the Agreement amount by $254,073, for a new Agreement total of $1,266,437.

I. The Third Amended Agreement provided funding for Consultant to support Sonoma Water in addressing the following changed conditions: 1) 2016/2017 flood impacts to elements C and D of Reach 8 (Phase II, Part 1) constructed in 2016; 2) decision to replace the pipe inflow systems currently on the plans for Sites A and B of Reach 8 with surface inflow features; and 3) decision to separate Reaches 14A and 14B from other sites in Phase II, Part 2 plan set in order to bid and construct them in 2018. This increased the Agreement amount by $189,764, for a new Agreement total of $1,456,201, and extended the term end date by one year to December 31, 2018.

J. This Fourth Amended Agreement adds $93,603 for additional work redesign of Project features, changes to the bid documents, additional hydraulic modeling, an additional season of construction support, and one year of additional project management. This Fourth Amended Agreement also extends the term by one year for a new total of $1,549,804 and term end date of December 31, 2019.

K. In addition, this Fourth Amended Agreement changes occurrences of “Water Agency” to “Sonoma Water.”

L. This Fourth Amended Agreement supersedes all previous agreements and amendments between the parties.

In consideration of the foregoing recitals and the mutual covenants contained herein, the parties hereto agree as follows:

AGREEMENT

1. RECITALS

1.1. The above recitals are true and correct.

2. LIST OF EXHIBITS

2.1. The following exhibits are attached hereto and incorporated herein:

  a. Exhibit A: Scope of Work

b. Exhibit B: Schedule and Submittals
c. Exhibit C: Schedule of Costs
d. Exhibit D: Estimated Breakdown of Costs
e. Exhibit E: Map
f. Exhibit F: Insurance Requirements

3. SCOPE OF SERVICES

3.1. *Consultant's Specified Services:* Consultant shall perform the services described in Exhibit A ("Scope of Work"), within the times or by the dates provided for in Exhibit B and pursuant to Article 9 (Prosecution of Work). In the event of a conflict between the body of this Agreement and Exhibit A, the provisions in the body of this Agreement shall control.

3.2. *Cooperation with Sonoma Water:* Consultant shall cooperate with Sonoma Water in the performance of all work hereunder. Consultant shall coordinate the work, except assistance during construction, with Sonoma Water's Project Manager. Consultant shall coordinate assistance during construction with Sonoma Water's Construction Management Principal Engineer. Contact information and mailing addresses:

Sonoma Water	**Consultant**
Project Manager: Greg Guensch 404 Aviation Boulevard Santa Rosa, CA 95403-9019 Phone: 707-547-1972 Email: gregory.guensch@scwa.ca.gov	Project Manager: Josh Epstein 501 Portway Ave., Suite 101 Hood River, OR 97031 Phone: 541-716-5371 Email: jepstein@interfluve.com
Construction Management Principal Engineer: Dennis Daly Phone: 707-547-1984 Email: ddaly@scwa.ca.gov	
Remit invoices to: Susan Bookmyer Same address as above or Email: susan.bookmyer@scwa.ca.gov	**Remit payments to:** Attn: Accounts Receivable Same address as above

3.3. *Performance Standard and Standard of Care:* Consultant hereby agrees that all its work will be performed and that its operations shall be conducted in accordance with the requirements of applicable federal, state and local laws, it being understood that acceptance of Consultant's work by Sonoma Water shall not operate as a waiver or release. Sonoma Water has relied upon the professional ability and training of Consultant as a material inducement to enter into this Agreement. Consultant hereby agrees that its work will be performed and its operations conducted in accordance with the standards of a reasonable professional having specialized knowledge and expertise in the services provided under this Agreement. If Sonoma Water determines that any of Consultant's work is not in accordance with such level of competency and standard of care, Sonoma Water, in its sole discretion, shall have the right to do any or all of the following: (a) require Consultant to meet with Sonoma Water to review the quality of the work and resolve matters of concern; (b) require Consultant to repeat the work at no additional charge until it is satisfactory; (c) terminate this Agreement pursuant to the provisions of Article 6 (Termination); or (d) pursue any and all other remedies at law or in equity.

3.4. *Assigned Personnel:*

a. Consultant shall assign only competent personnel to perform work hereunder. In the event that at any time Sonoma Water, in its sole discretion, desires the removal of any person or persons assigned by Consultant to perform work hereunder, Consultant shall remove such person or persons immediately upon receiving written notice from Sonoma Water.

b. Any and all persons identified in this Agreement or any exhibit hereto as the project manager, project team, or other professional performing work hereunder are deemed by Sonoma Water to be key personnel whose services were a material inducement to Sonoma Water to enter into this Agreement, and without whose services Sonoma Water would not have entered into this Agreement. Consultant shall not remove, replace, substitute, or otherwise change any key personnel without the prior written consent of Sonoma Water.

c. With respect to performance under this Agreement, Consultant shall employ the following key personnel:

Title	**Name**
Project Manager	Josh Epstein

d. In the event that any of Consultant's personnel assigned to perform services under this Agreement become unavailable due to resignation, sickness, or other factors outside of Consultant's control, Consultant shall be responsible for timely provision of adequately qualified replacements.

4. PAYMENT

4.1. *Total Costs:* Total costs under this Agreement shall not exceed **$1,549,804**.

4.2. *Method of Payment:* Consultant shall be paid in accordance with the following terms:

a. Consultant shall be paid in accordance with the hourly rates and expenses set forth in Exhibit C. Any mark-up shall be included in billed hourly rates.

4.3. *Invoices:* Consultant shall submit its bills in arrears on a monthly basis, based on work completed for the period, in a form approved by Sonoma Water's Project Manager. The bills shall show or include:

a. Consultant name
b. Name of Agreement
c. Sonoma Water's Project Activity Code D0022C001
d. Task performed with an itemized description of services rendered by date
e. Summary of work performed by subconsultants, as described in Paragraph 15.4
f. Time in quarter hours devoted to the task
g. Hourly rate or rates of the persons performing the task
h. List of reimbursable materials and expenses
i. Copies of receipts for reimbursable materials and expenses

4.4. *Monthly Reports with Invoices:* Payment of invoices is subject to receipt of the monthly reports required under Task 15.1 (Project Management) of Exhibit A (Scope of Work).

4.5. *Cost Tracking:* Consultant has provided an estimated breakdown of costs, included in Exhibit D. Exhibit D will only be used as a tool to monitor progress of work and the project budget. Actual payment will be made as specified in Paragraph 4.2 (Method of Payment) above.

5. TERM OF AGREEMENT

5.1. The term of this Agreement shall be from January 28, 2014 ("Effective Date") to December 31, 2019, unless terminated earlier in accordance with the provisions of Article 6 (Termination).

6. TERMINATION

6.1. *Termination without Cause:* Notwithstanding any other provision of this Agreement, at any time and without cause, Sonoma Water shall have the right, in its sole discretion, to terminate this Agreement by giving 5 days written notice to Consultant.

6.2. *Termination for Cause:* Notwithstanding any other provision of this Agreement, should Consultant fail to perform any of its obligations hereunder, within the time and in the manner herein provided, or otherwise violate any of the terms of this Agreement, Sonoma Water may immediately terminate this Agreement by giving Consultant written notice of such termination, stating the reason for termination.

6.3. *Delivery of Work Product and Final Payment Upon Termination:* In the event of termination, Consultant, within 14 days following the date of termination, shall deliver to Sonoma Water all materials and work product subject to Paragraph 12.9 and shall submit to Sonoma Water an invoice showing the services performed, hours worked, and copies of receipts for reimbursable expenses up to the date of termination.

6.4. *Payment Upon Termination:* Upon termination of this Agreement by Sonoma Water, Consultant shall be entitled to receive as full payment for all services satisfactorily rendered and expenses incurred hereunder, an amount which bears the same ratio to the total payment specified in the Agreement as the services satisfactorily rendered hereunder by Consultant bear to the total services otherwise required to be performed for such total payment; provided, however, that if services are to be paid on a per-hour or per-day basis, then Consultant shall be entitled to receive as full payment an amount equal to the number of hours or days actually worked prior to termination times the applicable hourly or daily rate; and further provided, however, that if Sonoma Water terminates the Agreement for cause pursuant to Paragraph 6.2, Sonoma Water shall deduct from such amounts the amount of damage, if any, sustained by Sonoma Water by virtue of the breach of the Agreement by Consultant.

6.5. *Authority to Terminate:* Sonoma Water's right to terminate may be exercised by Sonoma Water's General Manager.

7. INDEMNIFICATION

7.1. Consultant agrees to accept responsibility for loss or damage to any person or entity, including Sonoma Water, and to defend, indemnify, hold harmless, and release Sonoma Water, its officers, agents, and employees, from and against any actions, claims, damages, liabilities, disabilities, or expenses, that may be asserted by any person or entity, including Consultant, that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of Consultant or its agents, employees, contractors, subcontractors, or invitees hereunder, whether or not there is concurrent negligence on the part of Sonoma Water, but, to the extent required by law, excluding liability due to conduct of Sonoma Water. This indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Consultant or its agents, employees, contractors, subcontractors, or invitees under workers' compensation acts, disability benefits acts, or other employee benefit acts.

8. INSURANCE

8.1. With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain, insurance as described in Exhibit F.

9. PROSECUTION OF WORK

9.1. Performance of the services hereunder shall be completed within the time required herein, provided, however, that if the performance is delayed by earthquake, flood, high water, or other Act of God or by strike, lockout, or similar labor disturbances, the time for Consultant's performance of this Agreement shall be extended by a number of days equal to the number of days Consultant has been delayed.

10. EXTRA OR CHANGED WORK

10.1. Extra or changed work or other changes to the Agreement may be authorized only by written amendment to this Agreement, signed by both parties. Minor changes, which do not increase the amount paid under the Agreement, and which do not significantly change the scope of work or significantly lengthen time schedules may be executed by Sonoma Water's General Manager in a form approved by County Counsel. The parties expressly recognize that Sonoma Water personnel are without authorization to order all other extra or changed work or waive Agreement requirements. Failure of Consultant to secure such written authorization for extra or changed work shall constitute a waiver of any and all right to adjustment in the Agreement price or Agreement time due to such unauthorized work and thereafter Consultant shall be entitled to no compensation whatsoever for the performance of such work. Consultant further expressly waives any and all right or remedy by way of restitution and quantum meruit for any and all extra work performed without such express and prior written authorization of Sonoma Water.

11. CONTENT ONLINE ACCESSIBILITY

11.1. *Accessibility:* Sonoma Water policy requires that all documents that may be published to the Web meet accessibility standards to the greatest extent possible, and utilizing available existing technologies.

11.2. *Standards:* All consultants responsible for preparing content intended for use or publication on a Sonoma Water/County-managed or Sonoma Water/County-funded web site must comply with applicable federal accessibility standards established by 36 C.F.R. Section 1194, pursuant to Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794(d)], and Sonoma Water's Web Site Accessibility Policy located at http://webstandards.sonoma-county.org.

11.3. *Certification:* With each final receivable intended for public distribution (report, presentations posted to the Internet, public outreach materials), Consultant shall include a descriptive summary describing how all deliverable documents were assessed for accessibility (e.g. Microsoft Word accessibility check; Adobe Acrobat accessibility check, or other commonly accepted compliance check).

11.4. *Alternate Format:* When it is strictly impossible due to the unavailability of technologies required to produce an accessible document, Consultant shall identify the anticipated accessibility deficiency prior to commencement of any work to produce such deliverables. Consultant agrees to cooperate with Sonoma Water staff in the development of alternate document formats to maximize the facilitative features of the impacted document(s); e.g., embedding the document with alt-tags that describe complex data/tables.

11.5. *Noncompliant Materials; Obligation to Cure:* Remediation of any materials that do not comply with Sonoma Water's Web Site Accessibility Policy shall be the responsibility of Consultant. If Sonoma Water, in its sole and absolute discretion, determines that any deliverable intended for use or publication on any Sonoma Water/County-managed or Sonoma Water/County-funded Web site does not comply with Sonoma Water Accessibility Standards, Sonoma Water will promptly inform Consultant in writing. Upon such notice, Consultant shall, without charge to Sonoma Water, repair or replace the non-compliant materials within such period of time as specified by Sonoma Water in writing. If the required repair or replacement is not completed within the time specified, Sonoma Water shall have the right to do any or all of the following, without prejudice to Sonoma Water's right to pursue any and all other remedies at law or in equity:

a. Cancel any delivery or task order

b. Terminate this Agreement pursuant to the provisions of Article 6 (Termination); and/or

c. In the case of custom Electronic and Information Technology (EIT) developed by Consultant for Sonoma Water, Sonoma Water may have any necessary changes or repairs performed by itself or by another contractor. In such event, Consultant shall be liable for all expenses incurred by Sonoma Water in connection with such changes or repairs.

11.6. *Sonoma Water's Rights Reserved:* Notwithstanding the foregoing, Sonoma Water may accept deliverables that are not strictly compliant with Sonoma Water Accessibility Standards if Sonoma Water, in its sole and absolute discretion, determines that acceptance of such products or services is in Sonoma Water's best interest.

12. REPRESENTATIONS OF CONSULTANT

12.1. *Status of Consultant:* The parties intend that Consultant, in performing the services specified herein, shall act as an independent contractor and shall control the work and the manner in which it is performed. Consultant is not to be considered an agent or employee of Sonoma Water and is not entitled to participate in any pension plan, worker's compensation plan, insurance, bonus, or similar benefits Sonoma Water provides its employees. In the event Sonoma Water exercises its right to terminate this Agreement pursuant to Article 6 (Termination), Consultant expressly agrees that it shall have no recourse or right of appeal under rules, regulations, ordinances, or laws applicable to employees.

12.2. *Communication with Sonoma Water's Contractor:* All communication shall be between Consultant and Sonoma Water. Consultant shall have no authority to act on behalf of Sonoma Water, to stop work, to interpret conditions of the construction contract, or to give direction to Sonoma Water's contractor.

12.3. *Taxes:* Consultant agrees to file federal and state tax returns and pay all applicable taxes on amounts paid pursuant to this Agreement and shall be solely liable and responsible to pay such taxes and other obligations, including, but not limited to, state and federal income and FICA taxes. Consultant agrees to indemnify and hold Sonoma Water harmless from any liability which it may incur to the United States or to the State of California or to any other public entity as a consequence of Consultant's failure to pay, when due, all such taxes and obligations. In case Sonoma Water is audited for compliance regarding any withholding or other applicable taxes, Consultant agrees to furnish Sonoma Water with proof of payment of taxes on these earnings.

12.4. *Records Maintenance:* Consultant shall keep and maintain full and complete documentation and accounting records concerning all services performed that are compensable under this Agreement and shall make such documents and records available to Sonoma Water for inspection at any reasonable time. Consultant shall maintain such records for a period of four (4) years following completion of work hereunder.

12.5. *Conflict of Interest:* Consultant covenants that it presently has no interest and that it will not acquire any interest, direct or indirect, that represents a financial conflict of interest under state law or that would otherwise conflict in any manner or degree with the performance of its services hereunder. Consultant further covenants that in the performance of this Agreement no person having any such interests shall be employed. In addition, if required by law or requested to do so by Sonoma Water, Consultant shall submit a completed Fair Political Practices Commission Statement of Economic Interests (Form 700) with Sonoma Water within 30 calendar days after the Effective Date of this Agreement and each year thereafter during the term of this Agreement, or as required by state law.

12.6. *Statutory Compliance/Living Wage Ordinance:* Consultant agrees to comply, and to ensure compliance by its subconsultants or subcontractors, with all applicable federal, state and local laws, regulations, statutes and policies, including but not limited to the County of Sonoma Living Wage Ordinance, applicable to the services provided under this Agreement as they exist now and as they are changed, amended or modified during the term of this Agreement. Without limiting the generality of the foregoing, Consultant expressly acknowledges and agrees that this Agreement is subject to the provisions of Article XXVI of Chapter 2 of the Sonoma County Code, requiring payment of a living wage to covered employees. Noncompliance during the term of the Agreement will be considered a material breach and may result in termination of the Agreement or pursuit of other legal or administrative remedies.

12.7. *Nondiscrimination:* Consultant shall comply with all applicable federal, state, and local laws, rules, and regulations in regard to nondiscrimination in employment because of race, color, ancestry, national origin, religion, sex, marital status, age, medical condition, pregnancy, disability, sexual orientation or other prohibited basis. All nondiscrimination rules or regulations required by law to be included in this Agreement are incorporated herein by this reference.

12.8. *Assignment of Rights:* Consultant assigns to Sonoma Water all rights throughout the world in perpetuity in the nature of copyright, trademark, patent, right to ideas, in and to all versions of the plans and specifications, if any, now or later prepared by Consultant in connection with this Agreement. Consultant agrees to take such actions as are necessary to protect the rights assigned to Sonoma Water in this Agreement, and to refrain from taking any action which would impair those rights. Consultant's responsibilities under this provision include, but are not limited to, placing proper notice of copyright on all versions of the plans and specifications as Sonoma Water may direct, and refraining from disclosing any versions of the plans and specifications to any third party without first obtaining written permission of Sonoma Water. Consultant shall not use or permit another to use the plans and specifications in connection with this or any other project without first obtaining written permission of Sonoma Water.

12.9. *Ownership and Disclosure of Work Product:* All reports, original drawings, graphics, plans, studies, and other data or documents ("documents"), in whatever form or format, assembled or prepared by Consultant or Consultant's subcontractors, consultants, and other agents in connection with this Agreement shall be the property of Sonoma Water. Sonoma Water shall be entitled to immediate possession of such documents upon completion of the work pursuant to this Agreement. Upon expiration or termination of this Agreement, Consultant shall promptly deliver to Sonoma Water all such documents, which have not already been provided to Sonoma Water in such form or format as Sonoma Water deems appropriate. Such documents shall be and will remain the property of Sonoma Water without restriction or limitation. Reuse or modification of any such documents by Sonoma Water for any use other than the that for which the documents were intended, without Consultant's written permission, shall be at Sonoma Water's sole risk, and Sonoma Water agrees to indemnify and hold Consultant harmless from all claims, damages and expenses, including attorneys' fees, arising out of such reuse by Sonoma Water or others acting through Sonoma Water. Consultant may retain copies of the above described documents but agrees not to disclose or discuss any information gathered, discovered, or generated in any way through this Agreement without the express written permission of Sonoma Water.

13. PREVAILING WAGES

13.1. *General:* Consultant shall pay to any worker on the job for whom prevailing wages have been established, including but not limited to geotechnical subsurface investigation work, an amount equal to or more than the general prevailing rate of per diem wages for (1) work of a similar character in the locality in which the work is performed and (2) legal holiday and overtime work in said locality. The per diem wages shall be an amount equal to or more than the stipulated rates contained in a schedule that has been ascertained and determined by the Director of the State Department of Industrial Relations and Sonoma Water to be the general prevailing rate of per diem wages for each craft or type of workman or mechanic needed to execute this Agreement. Consultant shall also cause a copy of this determination of the prevailing rate of per diem wages to be posted at each site work is being performed in addition to all other job site notices prescribed by regulation. Copies of the prevailing wage rate of per diem wages are on file at Sonoma Water and will be made available to any person upon request.

13.2. *Compliance Monitoring and Registration*: This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. Consultant shall furnish and shall require all subcontractors and subconsultants to furnish the records specified in Labor Code section 1776 (e.g. electronic certified payroll records) directly to the Labor Commissioner in a format prescribed by the Labor Commissioner at least monthly. Consultant and all subcontractors performing work that requires payment of prevailing wages shall be registered and qualified to perform public work pursuant to Labor Code section 1725.5 as a condition to engage in the performance of any services under this Agreement.

13.3. *Subcontracts:* Consultant shall insert in every subcontract or other arrangement which Consultant may make for performance of such work or labor on work provided for in the Agreement, provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the Labor Code. Pursuant to Labor Code Section 1775(b)(1), Consultant shall provide to each Subcontractor a copy of Sections 1771, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code.

13.4. *Compliance with Law:* Consultant stipulates that it shall comply with all applicable wage and hour laws, including without limitation Labor Code Sections 1725.5, 1775, 1776, 1777.5, 1813, and 1815 and California Code of Regulations, Title 8, Section 16000, et seq.

14. DEMAND FOR ASSURANCE

14.1. Each party to this Agreement undertakes the obligation that the other's expectation of receiving due performance will not be impaired. When reasonable grounds for insecurity arise with respect to the performance of either party, the other may in writing demand adequate assurance of due performance and until such assurance is received may, if commercially reasonable, suspend any performance for which the agreed return has not been received. "Commercially reasonable" includes not only the conduct of a party with respect to performance under this Agreement, but also conduct with respect to other agreements with parties to this Agreement or others. After receipt of a justified demand, failure to provide within a reasonable time, but not exceeding thirty (30) days, such assurance of due performance as is adequate under the circumstances of the particular case is a repudiation of this Agreement. Acceptance of any improper delivery, service, or payment does not prejudice the aggrieved party's right to demand adequate assurance of future performance. Nothing in this Article 14 limits Sonoma Water's right to terminate this Agreement pursuant to Article 6 (Termination).

15. ASSIGNMENT AND DELEGATION

15.1. *Consent:* Neither party hereto shall assign, delegate, sublet, or transfer any interest in or duty under this Agreement without the prior written consent of the other, and no such transfer shall be of any force or effect whatsoever unless and until the other party shall have so consented.

15.2. *Subcontracts:* Notwithstanding the foregoing, Consultant may enter into subcontracts with the subconsultants specifically identified herein. CBEC Eco Engineering is an approved subconsultant for hydraulic and habitat modeling, and Horizon is an approved subconsultant for instream structure consultation and permitting services. If no subconsultants are listed, then no subconsultants will be utilized in the performance of the work specified in this Agreement.

15.3. *Change of Subcontractors or Subconsultants:* If, after execution of the Agreement, parties agree that subconsultants not listed in Paragraph 15.2 will be utilized, Consultant may enter into subcontracts with subconsultants to perform other specific duties pursuant to the provisions of this Paragraph 15.3. The following provisions apply to any subcontract entered into by Consultant other than those listed in Paragraph 15.2 above:

a. Prior to entering into any contract with subconsultant, Consultant shall obtain Sonoma Water approval of subconsultant. Sonoma Water's Board of Directors must approve the selection of any subconsultant if the amount payable to subconsultant under the agreement exceeds $25,000. In connection with such approval, Consultant shall provide Sonoma Water with copies of the responses to Consultant's Request for Proposals (RFP) to subconsultants, the names of key personnel who will be performing work under the agreement, and an explanation of Consultant's reasons for choosing the recommended subconsultant based upon the criteria in the RFP.

b. All agreements with subconsultants shall (a) contain indemnity requirements in favor of Sonoma Water in substantially the same form as that contained in Section 8, (b) contain language that the subconsultant may be terminated with or without cause upon reasonable written notice, and (c) prohibit the assignment or delegation of work under the agreement to any third party.

15.4. *Summary of Subconsultants' Work:* No less than quarterly, Consultant shall provide Sonoma Water with a summary of all work performed by all subconsultants during the preceding three months. Such summary shall identify the individuals performing work on behalf of subconsultants and the total amount paid to subconsultant, broken down by the tasks listed in the Scope of Work.

16. MEDIATION OF DISPUTES

16.1. If a dispute arises out of or relates to this Agreement, or an alleged breach thereof, and if the dispute cannot be settled through negotiation, before resorting to litigation, Sonoma Water and Consultant agree first to try in good faith to settle the dispute by mediation. If the parties cannot agree on a mediator or mediation rules to use, the parties shall use the construction industry mediation procedures developed by the American Arbitration Association, with the following exceptions to those procedures:

a. The mediation shall be conducted in Santa Rosa, California.

b. Unless otherwise agreed to in writing by the parties participating in the mediation, the mediation shall be concluded no later than sixty (60) days after the first mediation session. If the dispute has not been resolved at that time, any party may elect at that time to pursue litigation.

c. The parties agree to exchange all relevant non-privileged documents before the first scheduled mediation session.

17. METHOD AND PLACE OF GIVING NOTICE, SUBMITTING BILLS, AND MAKING PAYMENTS

17.1. *Method of Delivery:* All notices, bills, and payments shall be made in writing and shall be given by personal delivery or by U.S. Mail or courier service. Notices, bills, and payments shall be addressed as specified in Paragraph 3.2.

17.2. *Receipt:* When a notice, bill, or payment is given by a generally recognized overnight courier service, the notice, bill, or payment shall be deemed received on the next business day. When a copy of a notice, bill, or payment is sent by electronic means, the notice, bill, or payment shall be deemed received upon transmission as long as (1) the original copy of the notice, bill, or payment is deposited in the U.S. mail and postmarked on the date of the electronic transmission (for a payment, on or before the due date), (2) the sender has a written confirmation of the electronic transmission, and (3) the electronic transmission is transmitted before 5 p.m. (recipient's time). In all other instances, notices, bills, and payments shall be effective upon receipt by the recipient. Changes may be made in the names and addresses of the person to whom notices are to be given by giving notice pursuant to this Article 17.

18. MISCELLANEOUS PROVISIONS

18.1. *No Bottled Water:* In accordance with Sonoma Water Board of Directors Resolution No. 09-0920, dated September 29, 2009, no Sonoma Water funding shall be used to purchase single-serving, disposable water bottles for use in Sonoma Water facilities or at Sonoma Water-sponsored events. This restriction shall not apply when potable water is not available.

18.2. *No Waiver of Breach:* The waiver by Sonoma Water of any breach of any term or promise contained in this Agreement shall not be deemed to be a waiver of such term or promise or any subsequent breach of the same or any other term or promise contained in this Agreement.

18.3. *Construction:* To the fullest extent allowed by law, the provisions of this Agreement shall be construed and given effect in a manner that avoids any violation of statute, ordinance, regulation, or law. The parties covenant and agree that in the event that any provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions hereof shall remain in full force and effect and shall in no way be affected, impaired, or invalidated thereby. Consultant and Sonoma Water acknowledge that they have each contributed to the making of this Agreement and that, in the event of a dispute over the interpretation of this Agreement, the language of the Agreement will not be construed against one party in favor of the other. Consultant and Sonoma Water acknowledge that they have each had an adequate opportunity to consult with counsel in the negotiation and preparation of this Agreement.

18.4. *Consent:* Wherever in this Agreement the consent or approval of one party is required to an act of the other party, such consent or approval shall not be unreasonably withheld or delayed.

18.5. *No Third-Party Beneficiaries:* Except as provided in Article 7 (Indemnification), nothing contained in this Agreement shall be construed to create and the parties do not intend to create any rights in third parties.

18.6. *Applicable Law and Forum:* This Agreement shall be construed and interpreted according to the substantive law of California, regardless of the law of conflicts to the contrary in any jurisdiction. Any action to enforce the terms of this

Agreement or for the breach thereof shall be brought and tried in Santa Rosa or in the forum nearest to the city of Santa Rosa, in the County of Sonoma.

18.7. *Captions:* The captions in this Agreement are solely for convenience of reference. They are not a part of this Agreement and shall have no effect on its construction or interpretation.

18.8. *Merger:* This writing is intended both as the final expression of the Agreement between the parties hereto with respect to the included terms and as a complete and exclusive statement of the terms of the Agreement, pursuant to Code of Civil Procedure Section 1856. No modification of this Agreement shall be effective unless and until such modification is evidenced by a writing signed by both parties.

18.9. *Survival of Terms:* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

18.10. *Time of Essence:* Time is and shall be of the essence of this Agreement and every provision hereof.

Exhibit A

Scope of Work

1. GENERAL

1.1. Consultant agrees to perform obligations described in this Agreement and to furnish necessary skills, services, labor, supplies, supervision, and material required to perform and complete the Project.

1.2. By execution of this Agreement, Consultant warrants that it has carefully examined the Project site and has satisfied itself of local and any special conditions affecting the proposed Scope of Work. Tests, survey results, geotechnical reports, or other data or information, whether furnished by the Sonoma Water, or referenced in this Agreement, are for the Consultant's convenience. The Sonoma Water does not guarantee that such tests or preliminary investigations or other data and information are accurate and assumes no responsibility whatsoever as to their accuracy or interpretation. Consultant shall satisfy itself as to the accuracy or interpretation of such tests or survey results or other information or data.

1.3. Final design is approximately 1.25 miles of discontinuous channel corridor.

1.4. An additional section of habitat enhancements with an approximate length of 0.25 miles will be designed through the 60% level on the Ferrari-Carano property, as indicated below. A portion of the additional features may also extend upstream onto the Gallo property.

2. HAZARDOUS WASTE

2.1. Services relating to the identification, investigation, or remediation of hazardous waste contamination are not included within the Scope of Work. Should such services be required, the cost of such services and the party to perform the services will be negotiated separately by Sonoma Water. Consultant shall inform Sonoma Water immediately if any waste or hazardous materials are discovered on the Project sites or the surrounding areas.

3. COST ESTIMATES

3.1. Prepare a Statement of Probable Construction Costs and revise as required herein.

4. DESIGN SERVICES

4.1. Preliminary Design:

- a. Consult with Sonoma Water to define and clarify Sonoma Water's requirements for the Project and available data.
- b. Complete field review of the concept designs on the reaches identified in the Concept Design Report and prioritized for enhancement by Sonoma Water and others with a 3-day field effort attended by Project Engineer, lead geomorphologist,

lead fish biologist, lead hydraulic modeler, and lead riparian ecologist, along with relevant Sonoma Water staff.

c. Develop preliminary design for potential enhancement on the reaches identified in the Concept Design Report and prioritized for enhancement by Sonoma Water and others. The total estimated length for the enhancement reaches to be taken to the 10% design stage is approximately 2.7 miles as measured along the main channel, broken into 3 main blocks (blocks D, E and G: see Exhibit E).

d. Provide the preliminary design in a Design Booklet for ease of understanding by lay readers. Communicate concepts via narrative, illustrative figures, renderings, and order-of-magnitude cost estimates. The final form of the Design Booklet shall be confirmed after consultation with Sonoma Water (master plan-type document of approximately 20 pages of 11x17 sheets, or 3 design briefs, one for each block).

e. Preliminary design to be updates of the previously-prepared concept designs based on field reconnaissance and ground truthing, updated information regarding landowner feedback and likely participation, Sonoma Water and stakeholder feedback, and updated planning level hydraulic modeling.

f. Identify key utility locations and identify utility conflicts, if any.

g. Preliminary design for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties shall be reported at the 30% design submittal level. A separate 10% design booklet will not be developed for this site.

4.2. Report:

a. Prepare a Design Report that summarizes site hydrology, hydraulics, geomorphology, biology and other relevant characteristics. Technical analyses and the basis of design for the enhancements shall be compiled in the Design Report and assembled progressively over the design period, with relevant sections added with each design submittal. Progressive versions of the Design Report shall be issued at the 30%, 60%, 90% and 100% design milestones and shall include the following:

    i. Title page with name of Project, name of preparer, preparer’s company name and address, and date

    ii. Table of Contents

    iii. Executive Summary

    iv. A description of the work performed, including methodology, a detailed description of the inspections performed, literature reviewed, documents and records reviewed, and individuals and agencies contacted

    v. Description of existing conditions

    vi. Design criteria with appropriate exhibits to indicate the agreed-to requirements, considerations involved, and those alternative solutions available to Sonoma Water which Consultant recommends

    vii. Summary of design analyses (hydraulic, geomorphic, biological, etc.) and design basis for the Project that has been selected to be advanced to detailed design

        - viii. Description of designs and explanation of design basis
        - ix. Construction cost estimate itemized by bid item
        - x. Appendix, including copies of important documents, photographs, manufacturer's literature, and other records deemed appropriate
        - xi. Schematic drawings, sketches, and exhibits as necessary to illustrate the recommended Project
        - xii. Design report for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties was included through 60% design submittal level.
        - xiii. Design report for 0.25 miles on Ferrari-Carano and Gallo properties is included through Final design submittal level under the Second Amended Agreement.
        - xiv. Other information to support the recommendations
    - b. Submit Design Report to Sonoma Water for review and approval.
    - c. Incorporate Sonoma Water comments on Preliminary Design Report into Design Report.
    - d. Updating the design report with analyses associated with adaptive management measures and design revisions to Reach 8 are included in the Third Amended Agreement.

4.3. Design:

- a. Prepare Project design consistent with the Sonoma Water-approved Design Report. The first draft of the report shall be submitted with the 30% submittal. The report shall be updated with appropriate revisions for each subsequent design submittal. Identify and perform sufficient site investigation(s) for purpose of developing Project design.
- b. Include supplemental information material to the project design as appendices to the design report. This information shall include, as appropriate, items such as stamped and signed relevant final design calculations (e.g., large wood ballast sizing, rip-rap or riffle material sizing, or bed mobility estimates), memoranda documenting issues relevant to the final design, such as changes to design parameters, basis for selection of and information on proprietary products and materials, and relevant supplemental studies and reports.
- c. Prepare a detailed construction cost estimate for the Project broken down by bid item. Provide estimated quantities for unit priced items.
- d. Prepare a construction schedule showing the anticipated timeframe for completing construction of major units. Use a simple bar chart approach for each item and indicate the anticipated critical path of construction.
- e. Design for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties was included through 60% design submittal level.
- f. Design for 0.25 miles on Ferrari-Carano and Gallo properties is included through Final design submittal level under the Second Amended Agreement.

g. Additional detailed design and construction cost estimation associated with adaptive management measures and design revisions in Reach 8, and isolation of Reach 14 drawings, are included in the Third Amended Agreement.

4.4. Detailed hydraulic, geomorphic, and engineering analyses:

a. Expand the planning-level hydraulic model developed for Sonoma Water's Feasibility Study to serve as a 'backbone' model to support preliminary design activities and development of detailed enhancement designs. Update the model with new cross section data collected and other factors that have been learned since completion of the Feasibility Study. Evaluate and integrate as appropriate the relevancy of the data and hydraulic models prepared for the USACE Reach 15 Project (models prepared by Northwest Hydraulic Consultants). Develop revised inundation maps for the steady state discharge (110 cfs), and up to 5 flood events, and tailored for use in landowner discussions.

b. Conduct detailed geomorphic, hydraulic and other analyses on the Project reaches taken to final design (1.25-mile cumulative length) to support detailed design of aquatic and riparian enhancements. Conduct additional geomorphic, hydraulic and other analyses as needed to take the Ferrari-Carano reach through 60% design.

c. Update the water temperature assessment conducted for the demonstration reach design (using SSTEMP) for representative locations along the new 1.25 mile detailed design reach, and supplement with additional information gained through the subsurface exploration. Provide updated and supplemental information in the Design Report.

d. Perform detailed hydraulic analyses that includes detailed assessment of continuity of water and sediment, inundation patterns for development of detailed grading and vegetative design, and assessment of hydraulic forces for selection, sizing and stability analyses of construction materials, and characterization of habitat enhancement benefits. Include an evaluation of potential rise in the Federal Emergency Management Agency (FEMA) base flood elevation, documented in a brief letter memorandum.

   i. Perform detailed hydraulic analyses with TUFLOW, a GIS-based integrated one-dimensional/two-dimensional (1D/2D) hydrodynamic modeling software package, for the reach of Dry Creek extending approximately 6.8 miles from Bord Bridge to Lambert Bridge.

   ii. Develop 2D portions of the model for up to 3 discontinuous Project segments (1.25 miles cumulative length) for both existing conditions and design conditions.

   iii. Use the following boundary conditions for the 6.8 mile reach of Dry Creek:

      (a) Releases from Lake Sonoma plus inflows from Pena Creek as well as several smaller tributaries downstream of Lake Sonoma.

      (b) Steady state operational discharge (110 cfs), plus 5 design flows (i.e., 1-, 2-, 5-, 10-, 100-year flood events) as inflow boundary conditions.

      (c) Stage discharge relationship simulated by the Demonstration Reach final design model at the location of Lambert Bridge as the downstream boundary condition.

    (d) Simulations of 200 cfs, and additional coordination with USACE, are included under the Second Amended Agreement for the Mile 2 detailed design reaches.

  iv. Adjust hydraulic roughness coefficients based on published values and engineering judgment. Verify existing conditions model for consistency of the 1D/2D results with the planning level model, and the available flow-stage data that do exist. The model shall not be formally calibrated due to a lack of comprehensive observed flow-stage data within the 6.8 mile reach.

  v. Use hydraulic model outputs (i.e., velocity, shear stress, stream power) to inform our understanding of sedimentation patterns and trends relative to existing conditions as a result of the Project. Sediment transport modeling shall not be performed.

  vi. Use GIS tools and SMS to process model outputs and inform the design, convey model results to Sonoma Water, and convey design outcomes to the land owners. Typical outputs shall include 2D animations of flow depths with velocity vectors, longitudinal profiles of maximum hydraulic parameters (i.e., water surface elevation, velocity, shear stress, stream power), spatial queries at each design site to characterize the proposed habitat conditions and values (i.e., flow/inundation regime), and longitudinal and spatial queries of shear stress and stream power to understand potential changes in reach wide sedimentation patterns (i.e., relative to existing conditions). Estimate habitat enhancement benefits for documentation, discussion, and coordination with the resource agencies. Perform final processing of key model outputs to facilitate report production.

e. Detailed hydraulic analysis for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties was included through 60% design submittal level.

f. Detailed hydraulic analysis for 0.25 miles on Ferrari-Carano and Gallo properties is included through Final design submittal level under the Second Amended Agreement.

g. Collect substrate data to support detailed design, focused on the 1.25 miles of enhancement projects brought forth to detailed design. Channel substrate data includes surface pebble counts (up to 12 locations), and subsurface bulk samples (up to 6 locations). Include selected qualitative mapping of substrate facies and streambank materials at key locations, if appropriate. Pair bulk subsurface samples with surface pebble counts utilizing the methods that were used to support the Feasibility Study. Process bulk subsurface samples at a certified analytical laboratory. Utilize the data to support the geomorphic and hydraulic design.

h. Detailed review of the USACE board fence in Reach 8 were performed under the Second Amended Agreement to help inform design and construction.

i. Detailed engineering analyses, modeling, and design necessary to develop adaptive management measures, and design revisions in Reach 8, are included in the Third Amended Agreement.

j. Additional design analyses and hydraulic modeling necessary to support the design changes required for Reach 14 due to the non-participation of the key landowner late in the design process are included in the Fourth Amended Agreement. The project was re-designed to reflect the removal of two backwater ponds and several main channel riffles from the design.

4.5. Vegetation Inventory, Design and Management Plan

a. Conduct a general survey of existing vegetation conditions in the up to 2.7-mile potential Project reach. Characterize and qualitatively describe vegetation communities. Include species composition, identification of invasive vegetation, community structure, and size and age class distributions for trees.

b. Develop a vegetation map for the 1.25-mile detailed design reach, focusing on providing information on characteristics useful to the design team and management plan. Utilize both field-based mapping and desktop analysis of aerial photographs with a minimum mapping unit of approximately 0.5 acres.

c. Prepare stand-alone Revegetation Design Plans and specifications for complete 1.25-mile Project reach. Plans to be utilized for revegetation work by Sonoma Water forces and shall include (7 sheets total):

  i. Cover sheet
  ii. Legend & Plant key
  iii. 5 plan sheets

d. Develop brief draft and final Vegetation Management Plan to guide Sonoma Water implemented vegetation maintenance efforts for the 1.25-mile reach following Project completion. Build on Sonoma Water's 2010 Stream Maintenance Program Operations and Maintenance Manual and include:

  i. Objectives and extents
  ii. Target species and criteria
  iii. Anticipated frequency of maintenance

e. Vegetation inventory, design, and management plan for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties is not included.

4.6. Additional Requirements:

a. Identify design requirements, if any, which Sonoma Water may not have identified. Applicable sources of requirements that may be encountered in the course of performing the scope of work include, but are not limited to provisions in the environmental documents, the Adaptive Management Plan, permits, right-of-way agreements, and local ordinances.

b. Incorporate known applicable design requirements into Project.

4.7. Design Stages and Meetings:

Progress with design in the following stages and ensure that the each stage includes the listed elements:

a. Kick-off Meeting: Attend a kick-off meeting with Sonoma Water, and others as determined by Sonoma Water, to review Project goals and objectives, review design approach, facilitate data transfer and coordinate work with Sonoma Water's other design consultant. Also, coordinate with Sonoma Water to define the 2.7 miles of sites to be included in the field assessments and Preliminary Design Booklet. This meeting will immediately precede the field reconnaissance during the same field trip.

b. Field Reconnaissance: Complete field review of the concept designs on the reaches identified in the Concept Design Report and prioritized by Sonoma Water and others for enhancement with a 3-day field effort attended by Project Engineer, lead geomorphologist, lead fish biologist, lead hydraulic modeler, lead riparian ecologist, and Sonoma Water.

c. Design Workshop: Present information obtained during the field reconnaissance work, assumptions, and preliminary conclusions to be included in the Preliminary Design Booklet. The Sonoma Water may direct the Consultant regarding the assumptions made that may alter the conclusions.

d. Preliminary design booklet: Following initial field investigations, design discussions with Sonoma Water, and possibly input from property owners, update and revise the existing conceptual designs, and develop the Design Booklet and an outline draft of the Preliminary Design Report. Materials generated at this stage will be used by Sonoma Water and Consultant to discuss the Project with property owners. Preliminary design booklet is not included for the Ferrari Carano site.

e. 30% Design Submittal: Definition of the Project features, including the Ferrari-Carano site, should be nearly finalized and Project parameters, location, and general sizing well resolved. Package should include:

   i. Draft Project drawing sheets that generally describe the size, nature, and complexity of the Project
   ii. Draft Project drawing sheets showing the temporary construction and permanent footprint of the Project for Right-of-Way appraisals
   iii. Preliminary Statement of Probable Construction Costs
   iv. Preliminary constructability analysis included in Draft Design Report
   v. Table of Contents for specifications
   vi. Electronic copy of 30% design review meeting agenda and meeting minutes
   vii. Draft Design Report

f. 60% Design Submittal: Including the Ferrari-Carano site, advance design details, sizing, footprint, alignment, facility locations, and materials significantly from the 30% design to the 60% design and include edits and comments received on the 30% design submittal. Draft drawings shall describe the project elements, general size, nature, and complexity of the Project and indicate right-of-way; alignment and location of facilities should be final; draft specifications shall be completed with sufficient detail to allow Sonoma Water review and comment. Refine technical analyses conducted as part of the development of the 30% design, and develop site specific details and design elements.

   i. 60%-complete Drawings
   ii. Draft Revegetation Plans
   iii. Boundary of required temporary construction easements (TCE)
   iv. Draft specifications
   v. Updated Statement of Probable Construction Costs
   vi. Updated constructability analysis included in Draft Design Report
   vii. Electronic copy of 60% design review meeting agenda and meeting minutes
   viii. Draft final design report
   ix. Survey information and data

g. 90% Design Submittal: The 90% design shall incorporate edits and comments received on the 60% submittal such as, but not limited to, landowner needs, construction access adjustments, and construction phasing and implementation.
   i. 90%-complete Drawings
   ii. Revised Draft specifications – incorporating final permit requirements
   iii. Comments on Division 0 and 1 (prepared by Sonoma Water)
   iv. Updated Statement of Probable Construction Costs
   v. List of Bid Items and measurement and payment provisions
   vi. Topographic survey information
   vii. Revised Draft Revegetation Plans
   viii. Draft Vegetation Management Plan
   ix. Electronic copy of 90% design review meeting agenda and meeting minutes
   x. Final Design Report
   xi. 90% design for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties is not included.

h. 99%: The 99% design will incorporate edits and comments received on the 90% submittal. This submittal will effectively represent the final condition for the design components and will also include the submittal of the Final Design Report. No edits will be made to the revegetation drawings for this submittal.
   i. 99%-complete Drawings
   ii. Electronic CAD files for drawings in AutoCAD format
   iii. Final specifications
   iv. Final Design Report (if any changes from 90%)
   v. Final Revegetation Plans
   vi. Final Vegetation Management Plan
   vii. Updated Statement of Probable Construction Costs
   viii. Bid Schedule, including identification of additive bid items
   ix. Electronic copy of 99% design review meeting agenda and meeting minutes

    x. 99% design for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties is not included.
    xi. 99% Design of adaptive management measures and modifications to Reach 8 and isolation of Reaches 14A and 14B are added under the Third Amended Agreement.

  i. Final Design 100%: Incorporate minor editorial changes based on comments received on the 99% design submittal. Final drawings and specifications will be stamped and signed by the appropriate registered professionals.
    i. Final Drawings: "wet" signed and stamped Drawings on 22" x 34" gross size
    ii. Final AutoCAD submittal: files with filenames specified by Sonoma Water's Drafting/GIS Section and include embedded digital professional stamps and signatures.
    iii. Final PDF files formatted for half size (11" x 17") and full size (22" x 34")
    iv. Complete electronic set of revised and final specifications
    v. Stamped and signed Document 00007 Seals Page
    vi. Final Statement of Probable Construction Costs
    vii. Bid Schedule, including identification of additive bid items (if appropriate)
    viii. Survey information and data
    ix. 100% design for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties is not included.
    x. 100% Design of adaptive management measures and modifications to Reach 8 and Reaches 14A and 14B are added under the Third Amended Agreement.

4.8. Design Meetings:

  a. Arrange, attend, prepare agendas for, and conduct meetings at each design stage.
  b. Update Design Report for each design stage.
  c. At meetings, discuss the progress and direction of the design. Advise Sonoma Water in writing how Sonoma Water comments impact Project scheduling and cost.
  d. Prepare meeting minutes for each meeting.
  e. Meetings include the kick-off meeting, design workshop, and design review meetings which shall be held at 30%, 60%, 90% and 99% submittals. The estimated budget includes travel for two meetings held at the Sonoma Water's administration office, 404 Aviation Boulevard, Santa Rosa, California. The four remaining meetings will be held in Santa Rosa in conjunction will other meeting cycles such as planned public/stakeholder meetings.

5. **RIGHTS-OF-WAY**

5.1. Sonoma Water will acquire such permissions or rights necessary for Consultant to gain lawful entry into, across, over or upon property not owned by Sonoma Water, which are necessary for investigations, surveys or studies required for the Consultant to provide the services described in this Scope of Work. The acquisition of permissions and rights typically required for projects similar to that which Consultant's Services will be provided under this Scope of Work, and the activities (public information and outreach etc.) that are occasionally desirable/necessary to facilitate those acquisitions, can be a time consuming and lengthy processes. It is the Consultant's responsibility to identify the property or areas necessary, to coordinate with Sonoma Water in a timely manner as necessary for Sonoma Water to obtain the permission or legal rights required for Sonoma Water to accommodate those activities, and to set/adjust the schedule and timing of Consultant's Services and activities required under this Scope of Work as necessary to manage/address the uncertainties involved with these processes.

6. PUBLIC OUTREACH SUPPORT

6.1. Sonoma Water will make specific requests to the Consultant for public outreach support. For each request from Sonoma Water, Consultant shall provide an estimate of the associated cost for review and approval.

6.2. Prepare renderings, drawings, posters, presentations, information packets, simplified analysis results and other materials suitable for conveying the details of the Project components to the lay public, as agreed upon in advance and subject to the level of effort assumed in the task budget.

6.3. Participate in face-to-face meetings with individuals or groups of property owners.

6.4. Provide selected assistance to Sonoma Water for public/stakeholder involvement processes, outreach activities and coordination activities. This may include, but is not limited to:

a. Outreach activities with landowners
b. Attendance and presentations at Dry Creek Advisory Group
c. Dry Creek community or other public meetings
d. Coordination meetings with NMFS or California Department of Fish and Wildlife
e. Coordination with Sonoma Water's design Consultants working on the Project reach downstream of Lambert Bridge

6.5. Additional support and coordination with USACE is included under the Second Amended Agreement.

6.6. Additional stakeholder involvement support associated with adaptive management measures and design revisions is included in the Third Amended Agreement.

7. SURVEYING SERVICES

Consultant shall provide all surveying and mapping services required for Consultant to provide the remaining services described in the Agreement. Perform selected ground and bathymetric survey of the stream channel and riparian corridor to support preliminary design and detailed design analyses. Services and data provided by Consultant shall meet the following requirements:

7.1. General:

a. Horizontal Datum for surveying and mapping services and data provided by Consultant shall be the North American Datum of 1983 (NAD83).

b. Vertical Datum of surveying and mapping services and data provided by consultant shall be the North American Vertical Datum of 1988 (NAVD88) when or where practical. The National Geodetic Vertical Datum of 1929 (NGVD29) is acceptable for projects/locations where sufficient reference marks necessary to recover NAVD88 are not practically available.

c. All surveys and mapping shall be projected upon the California Coordinate System of 1983 (CCS83), Zone 2 in US Survey feet (Coordinates and Elevations) unless directed otherwise by Sonoma Water.

d. All research and other due diligence required to comply with the requirements outlined herein shall be conducted as necessary.

7.2. Project Survey Control:

a. Sonoma Water will establish primary project survey control (reference monuments/points) necessary to provide project coordinate system and vertical datum reference marks to support Design Surveys (Preliminary and Detailed Design efforts) and other Surveying Services to be provided by Consultant under this Agreement.

b. The locations of Sonoma Water-established control will be coordinated with Consultant in advance.

c. Criteria for primary project survey control to be provided by Sonoma Water include the following:

   i. Reference monuments/points will be placed along the edges of the riparian vegetation of the creek, adjacent to vineyard roads.

   ii. Reference monuments/points will be set inter-visibly not more than 500 feet apart within properties that Sonoma Water is able to obtain permission to enter.

   iii. Reference monuments/points will consist of 3-foot long (if possible) pieces of #5 rebar driven flush with the ground, affixed with a red plastic cap stamped "S.C.W.A. Control". Points will be marked with a flagged witness stake indicating the point ID.

   iv. Sonoma Water will provide a comma delimited ASCII text file with Point Numbers, Northing, easting, elevations, and description/alpha-numeric point IDs.

   v. The control established by Sonoma Water will meet or exceed the 2-Centimeter Accuracy Classification as defined by the Federal Geographic Data Committee Geospatial Positioning Accuracy Standards (Part 2), in terms of positional accuracy (horizontal position, ellipsoidal and orthometric heights).

d. Consultant is responsible for extending the control as necessary to provide the services described in this agreement.

e. Reference monuments for extended or supplemental control points consist of 3-foot long (if possible) pieces of #5 rebar driven flush with the ground, affixed with a red plastic cap stamped “Inter-Fluve Control”, and marked with a flagged witness stake indicating the point ID.

7.3. Design Surveys:

a. Provide all surveys and mapping services necessary to identify, represent and depict existing conditions, which in the judgment of Consultant are material to and/or required for design and construction of the Project.

b. Representations of existing property or parcel boundaries, easements and rights of way shall be referenced to the source maps/documents/information they were derived from and identified in the resulting mapping and the Construction Documents (plans).

c. Provide the survey data in AutoCAD format, as well as a comma delimited ASCII text file with Point Numbers, Northing, easting, elevations, and description/alpha-numeric point IDs, and any relevant notes or documentation.

d. Identify existing utilities or infrastructure material to the design, construction, or Right of Way negotiations of the Project.

e. Survey, as necessary, the location of all existing utilities identified, discovered, disclosed, or located (including details to the extent that they can be reasonably determined, such as pipe diameter and invert elevations, rim elevations of man holes, grate and flow-line elevations of catch basins or drop inlet structures, and location of pumps and pump intakes, etc.).

f. Appropriately identify, depict, label, layer, and/or otherwise represent on the Construction Documents (plans) the location, reference source (e.g., direct observation, landowner inquiry, utility mapping services, or other), and pertinent information on the existing utilities identified, discovered, or disclosed.

g. Clearly depict and identify on the Construction Documents (plans) any features that present a possible clearance limitation, Right of Way consideration, or accessibility or other physical constraint to constructing the proposed works, and that are not being relocated, temporarily removed, diverted, or otherwise modified as part of work to be done as part of the project.

h. An allowance of $7,500 has been included to cover utility locating (2 days) and/or pot holing (1 day), if needed, to locate buried utilities so that the locations can be documented during the design survey.

i. Represent and depict trees greater than 12” diameter at breast height (DBH) that are potentially impacted, or are to be removed in connection with the Project near the transitions between existing and design grades, in the resulting mapping and Construction Documents (plans). Clusters of trees that are found clearly in the middle of the area to be graded will be identified within polygons, which will be labeled with the number and size range of the trees to be removed. Individual trees depicted shall be identified/labeled by their diameter a breast height and species.

8. PRELIMINARY DESIGN AND ANALYSIS SURVEY

8.1. Perform topographic/bathymetric total station survey to collect up to 20 channel corridor cross sections (vineyard grade to vineyard grade) to support preliminary design analysis over the three Project blocks (totaling up to 2.7 miles in length). These data will supplement the cross section data that were collected for the Feasibility Study.

9. DETAILED DESIGN AND ANALYSIS SURVEY

9.1. Perform topographic/bathymetric surveying to characterize the active stream channel and banks in detail over 1.25 miles of stream channel, and up to .25 miles at the Ferrari-Carano site, to support detailed design analysis for the up to 1.50 mile long collection of projects taken to final design. The data shall be of sufficient resolution to support all detailed design analyses, and aquatic habitat modeling analyses as required to evaluate the selected projects in consultation with the resource agencies.

9.2. Collect data with combined methods:

a. The primary method shall be ground-based total station survey.

b. Mount a single beam echo sounder to a personal watercraft to measure depths that are not wade-able. Record positioning of the echo sounder through dynamic linkage to a robotic total station operated on the bank.

c. Conventional total station survey shall measure water depths less than 1.5 feet, plus the above water portion of the channel banks.

d. Merge the detailed topographic/bathymetric data with detailed survey of the overbank areas.

9.3. Perform design level survey of the overbank area (between the active channel and the vineyards on either side of the creek channel) within the collective 1.25 mile long reach, and up to 0.25 miles at the Ferrari-Carano site, advanced to the detailed design level to a level of detail sufficient to facilitate layout of design grading and features, and to serve as a basis for grading volume estimates. In areas not to be graded, survey to a level of detail sufficient to support detailed hydraulic modeling and analysis. Include all features, improvements, trees greater than 12” DBH near transitions from existing to design grades, and topography in sufficient detail to support development of accurate design basemaps (1’ contour interval) within the areas of design grading and improvements.

9.4. Budget assumes Sonoma Water will provide field staff to support design survey efforts. The level of staffing by Sonoma Water to support design survey is 132 staff hours on the project site engaged in active survey activity, including the Ferrari-Carano site.

9.5. Collection of supplementary survey or field data is included in this Third Amended Agreement.

10. SUBSURFACE EXPLORATION AND GEOTECHNICAL REPORT

10.1. Perform subsurface exploration to support the design of the 1.25-mile detailed design reach of Dry Creek.

- a. Conduct one-day site reconnaissance to review site access, permitting, existing habitat, local geologic exposures and features at selected locations with Sonoma Water and land owner representatives.
- b. Conduct four-day subsurface investigation at selected locations that consists of the following elements:
  - i. Perform a ½-day utility/buried object clearance survey in areas planned for subsurface exploration.
  - ii. Excavate 10 to 16 test pits with a rubber-tired backhoe or tracked excavator in a two-day effort. The number of test pits depends on the number of transmissivity tests performed (see below).
  - iii. Drill up to two 40-foot-deep, or four 25-foot-deep soil borings with a truck mounted drill rig in a one-day effort.
  - iv. Concurrent with other exploration, perform one day of geophysical exploration, using seismic refraction methods, to estimate the depth to bedrock where shallow bedrock conditions are anticipated. This method may also be used where the off-channel enhancement site cannot be accessed by conventional mechanized equipment.
  - v. Concurrent with other exploration, conduct pumping tests from the test pits to estimate transmissivity of the shallow alluvial formations. Once excavated, pumps shall be used to draw down the water. Measure the time it takes for the water level to return and record along with the test pit dimensions. Furnish the pumps, provide containment for all fuels and generators, and install Best Management Practices and Erosion Control for the discharged water. Work with Sonoma Water's permitting specialists to evaluate acceptable discharge practices and/or locations prior to the testing. Water collected from the transmissivity testing will be discharged on adjacent ground areas. Drumming, treatment, and/or removal of the water from the site are not included with this task.
  - vi. Brush clearing, other than that which would be reasonably accomplished within the path of travel of the excavation equipment, will be accomplished or arranged by Sonoma Water.
- c. A licensed geotechnical engineer or geologist shall perform and log test pit and soil borings outside of the active stream channel. Representative soil samples shall be obtained for subsequent testing at a certified analytical laboratory. Testing shall include moisture, density, gradation/fines content, plasticity, strength, and/or corrosivity, as determined to be appropriate by Consultant and Sonoma Water Project Manager.

d. Secure, prior to drilling, requisite drilling permits from Sonoma County Permit and Resource Management Department to perform a subsurface investigation. Other permits and permissions, as required, will be obtained by Sonoma Water.

e. Using the results of the pumping/drawdown tests, develop a 2-D seepage model using the SeepW software program. The model shall be used to estimate the transmissivity through the alluvium in the vicinity of the test locations.

f. Prepare a geotechnical report that summarizes the observations and results of the subsurface investigation and laboratory analysis. The report shall include a site location map, site plan, and logs of the borings and test pits, results of geophysical investigation, results of transmissivity testing, and provide geotechnical recommendations and conclusions suitable for developing designs for habitat enhancements for the 1.25-mile reach. A draft geotechnical report shall be provided to Sonoma Water for review prior to finalizing.

g. Use of seismic refraction for field investigations in Reach 13 and Reach 14 is included under the Second Amended Agreement in order to meet USACE requirements and schedule constraints.

h. An additional 3 days of test pits and pump tests for Reach 13 and Reach 14, and its associated reporting, is included under the Second Amended Agreement.

11. DRAFTING SERVICES

Develop construction documents for implementation of habitat enhancement over the 1.25 mile detailed design reach. Also develop construction documents through the 60% level for approximately 0.25 miles of enhancement features on the Ferrari-Carano Site.

Development of construction documents through the Final level for approximately 0.25 miles of enhancement features on the Ferrari-Carano Site is included under the Second Amended Agreement.

11.1. Prepare drawings necessary for bidding and construction of the Project using current Sonoma Water AutoCAD standard at time of Agreement execution. The drawings shall contain up to 55 sheets in a single plan set. Earlier compatible versions or alternate compatible Autodesk vertical products may only be used upon approval of Sonoma Water.

a. Under the Second Amended Agreement, drawings shall be organized into two plan sets: one plan set for Reach 8 and one plan set for Reach 13/14. Each plan set is to contain up to 50 sheets per plan set.

b. Under the Third Amended Agreement, update Reach 8 drawings, specifications, and construction cost estimates to include adaptive management measures and design revisions in Reach 8, and separate Reaches 14A and 14B from the plan set and advance to bid documents.

11.2. Include the following with sufficient detail to describe construction of the Project and to allow receipt of bids from qualified contractors:

   a. Title sheet with location map, vicinity map, index to drawings, and legend (abbreviations, symbols, etc.)
   b. Plans
   c. Profiles (where applicable)
   d. Sections
   e. Access plan
   f. Construction details and typical
   g. Grading plans and sections
   h. Detailed enhancement feature plans and sections
   i. Quantity table for LWD
   j. Other drawings as may be needed for construction

11.3. Include the following features on each plan and profile drawing:

   a. Location of control points with point number identification, elevation, and description
   b. Graphic scale
   c. North arrow
   d. Key map
   e. Elevations (when applicable) of and labels for existing features, structures, utilities, manholes, and drainage facilities
   f. Mapping showing streets and edges of pavement

11.4. Coordinate with Sonoma Water Drafting Manager regarding plan production standards prior to commencement of construction document development. Use Sonoma Water-provided template drawings, title blocks, and border drawings. Basic layers and line types are part of template drawings and are recommended where applicable. Follow Sonoma Water provided CAD Standards for development of construction drawings. Substitutions and/or deviation from Sonoma Water standards shall be submitted for approval by Sonoma Water Project Manager.

11.5. If requested by Sonoma Water, provide conformed drawings. Procedures and examples are included in the Sonoma Water's CAD standards, provided by Sonoma Water's Project Manager.

11.6. Provide marked up drawings that show changes to the design that were implemented during construction for Sonoma Water to use as the basis for the post-construction record drawings.

12. SPECIFICATIONS PREPARATION

12.1. Assist Sonoma Water's Project Manager in completing the Sonoma Water's Project Manual Questionnaire.

12.2. Prepare Divisions 2 through 16 (Technical Specifications), as appropriate, of the Project Manual as necessary for construction of the Project in conformance with the Project Manual concept of the Construction Specification Institute (CSI), using the Sonoma Water's templates, and the 1995 edition of CSI's MasterFormat, including SectionFormat and PageFormat.

12.3. Review and comment on construction document/bid package sections prepared and compiled by Sonoma Water.

12.4. Comply with applicable provisions of the Public Contract Code including, but not limited to, formal and informal bid procedures and the avoidance of closed proprietary specifications (where no substitutions are allowed).

12.5. Assist the Sonoma Water to develop justification memos for any proposed sole-source of products/materials; for special qualification of bidders, manufacturers, installers, or other professionals performing construction work for the Project; and for other special circumstances that require justification to the Sonoma Water's Board of Directors.

12.6. In coordination with Sonoma Water's Project Manager, reconcile redundancies and conflicts with Sonoma Water-prepared Division 0 and Division 1 requirements.

12.7. Technical Specifications development for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties was included through 60% complete level.

12.8. Technical Specifications development for 0.25 miles on Ferrari-Carano and Gallo properties is included through Final design under the Second Amended Agreement.

12.9. Updates to Phase II Part 1 specifications to include items necessary to construct Reach 8 adaptive management measures and design revisions are included under the Third Amended Agreement.

12.10. Additional revisions to the construction drawings, cost estimates, and specifications necessary for the redesign in Reach 14 resulting from changes in landowner participation as described above and included in the Fourth Amended Agreement.

13. ASSISTANCE DURING BIDDING AND CONSTRUCTION

13.1. For bidding:

a. Answer questions submitted by Sonoma Water ("questions") during bid advertisement period.

b. Communicate only through Sonoma Water.

c. Immediately hand-deliver or email copies of any non-Sonoma Water questions directed to Consultant to Sonoma Water.

d. Alert Sonoma Water to potential impacts, if any, associated with questions including, but not limited to, impacts on schedule and cost.

e. Upon request from Sonoma Water, prepare up to 2 Addenda to clarify, correct, or change the Bidding Documents in accordance with the following:
   i. Paragraphs 11 (Drafting Services) and 12 (Specifications Preparation)
   ii. Sonoma Water-provided drafting standards and standard form for Addenda
   iii. If Consultant chooses to prepare Addenda drawings manually, revise electronic files and resubmit to Sonoma Water.

13.2. For construction:

a. Assist Sonoma Water by providing engineering and related services after the receipt of construction bids as requested by Sonoma Water.

b. Attend preconstruction conference by phone.

c. Assist Sonoma Water by answering request(s) for information (RFIs), as requested by Sonoma Water as described in Exhibit B (“Schedule and Submittals”).

d. Submittal Review:
   i. Review contractor’s submittals of information and shop drawings for the Project and either mark “No Exceptions Taken,” “Make Corrections Noted,” “Revise and Resubmit,” or “Rejected” on each submittal. Provide Sonoma Water with a brief written narrative of what is required from the contractor for items the Consultant marks on each submittal response.
   ii. Ensure that copies of submittals reviewed are stamped, dated, and signed by the person performing the review.
   iii. Review items that have been submitted by the contractor as a substitution or an “approved equal” for specified items. Ensure that each substituted item meets the performance requirements specified in the Project specifications and ensure its compatibility with other components of the operating system (electrical connections, size, etc.). Consult with Sonoma Water’s Project Manager regarding acceptability of the proposed substitution.
   iv. Upon completion of review, return the submittals with any written narratives to the Sonoma Water.
   v. Review of submittals related to construction of adaptive management measures in Sites C and D of Reach 8 is included under the Third Amended Agreement.
   vi. In order to support Sonoma Water for an additional construction season, additional 2 addenda, 4 responses to requests for information, 5 submittals, and up to 24 days on-site over 8 trips to the site are included in the Fourth Amended Agreement.

e. Construction Observation:
   i. Perform construction observation as described in Exhibit B (“Schedule and Submittals”).

    ii. Upon request, provide guidance to Sonoma Water construction regarding proper placement of LWD, log jams, boulder cluster, and all other elements of the Work.
    iii. Review grading stakes for enhancement sites. Review layout of enhancement features with Sonoma Water.
    iv. Participate in construction of key LWD habitat structures and elements of the work. Provide on-call remote consultation to assist Sonoma Water.

f. Review and comment on up to 5 proposed Change Order(s). Provide comments to the Sonoma Water in writing within 2 working days after receipt of the proposed Change Order(s).

g. Upon request from Sonoma Water, assist Sonoma Water with Final Inspection.

h. Construction phase services for 0.25 miles added under the First Amended Agreement on Ferrari-Carano and Gallo properties were not included.

i. Construction phase services for 0.25 miles on Ferrari-Carano and Gallo properties is included in the Second Amended Agreement.

j. Additional construction-phase services to support construction of adaptive management measures in Sites C and D in Reach 8 are included in the Third Amended Agreement.

14. SCHEDULE AND SUBMITTAL OF DOCUMENTS

14.1. Perform services and submit documents to the Sonoma Water for review and approval in accordance with the schedule included in Exhibit B.

a. Submit construction documents to Sonoma Water for review at 30%, 60%, 90%, and 99% complete milestones.

b. 30% submittal shall include technical specification outline only, followed by written specifications at 60%, 90%, 99% and 100% submittals.

c. Develop an updated Preliminary Statement of Probable Construction Costs for each submittal.

d. Sonoma Water will compile review comments into a single set of comments for each design submittal prior to providing to Consultant.

e. The 100% complete documents shall be sealed by professional engineer registered in the State of California.

f. If changes that Sonoma Water has not previously approved are made to the drawings or specifications after the 99% design review meeting, submit drawing(s) or specifications to the Sonoma Water for approval prior to preparing the final submittal.

14.2. The schedule in Exhibit B is based upon timely review and decision making by the Sonoma Water. Delays in the schedule caused by the Sonoma Water will be cause for consideration of time extensions.

14.3. Provide full-sized hard copy and electronic copy in PDF format as well as native Civil3D dwg format at each design phase as described below. Include CTB or STB plot configuration file with electronic submittal to ensure correct and intended image quality when plotting from file.

14.4. Electronic media formats:

a. Survey information and drawings: Provide in electronic media format compatible with current Sonoma Water AutoCAD standard in drawing format (.DWG). To ensure there are no discrepancies between electronic and hard copies, provide plot style tables files.

b. Technical Specifications modifications (including tables, charts, and drawings): Provide in electronic media format compatible with Microsoft® Word 2007. Ensure that there are no discrepancies between electronic and hard copies.

c. Design reports, property owner outreach materials, and other documents: Provide in PDF format. Upon request, provide in Microsoft® Word 2007 compatible format.

14.5. Final Drawings Submittal Requirements:

a. Prepare finished contract drawings and maps on 22” x 34” gross size. Drawings shall be “wet” stamped and signed by the appropriate disciplined professional.

b. The final (100%) AutoCAD submittal shall consist of files with filenames specified by the Sonoma Water’s Drafting/GIS Section and include embedded digital professional stamps and signatures. Drawings shall have filenames displayed per Sonoma Water-provided standards. Final submittal shall also include a composite PDF document of the drawing files formatted for half size (11” x 17”) as well as full size (22” x 34”).

15. PERMITTING SUPPORT

15.1. Sonoma Water will make specific requests to Consultant for permitting support. For each request from Sonoma Water, Consultant shall provide an estimate of the associated cost for review and approval. This support may include:

a. Providing estimates of material quantities

b. Providing narrative describing the proposed enhancement design and preparation of selected figures to support permit applications

c. Attending a one-day permitting coordination meeting in Santa Rosa

d. Other support activities

16. PROJECT MANAGEMENT

16.1. Project planning, routine communications and response to the priority needs of Sonoma Water. Includes managing the Project budget, preparing invoices and progress reports for compensation of Project fees and expenses, and Project communications conducted by phone, conference calls, emails or other means.

17. SERVICES NOT INCLUDED IN AGREEMENT

Consultant shall not be responsible for the following:

17.1. Permitting and Environmental Compliance
   a. Preparation of appropriate environmental documents under the requirements of the California Environmental Quality Act (CEQA).
   b. Preparing applications for or securing regulatory permits for the work, other than may be explicitly described in the scope of work.

17.2. Design:
   a. Coordination of utility relocations.

17.3. Right-of-Way:
   a. Right-of-way appraisals, negotiations, preparation of property descriptions, acquisition of required right-of-way, or providing access.

17.4. Project Manual:
   a. Except as provided for in Exhibit A, paragraph 12 (Specifications Preparation):
      i. Preparation of Bidding, Procurement, Contracting, and General Requirements for the Project Manual.
      ii. Compilation of final Project Manual (Bidding Documents).

17.5. Construction staking.

17.6. Contract Administration/Inspection (except as specifically noted in Exhibit A, paragraph 13.2):
   a. Administration of the construction contract.
   b. Construction inspection.

EXHIBIT B

Schedule and Submittals

MILESTONE	DELIVERABLES	CALENDAR DAYS
Notice to Proceed with Design		Immediately upon execution of this agreement
Kick-off Meeting Submittal	• Electronic copy of Kick-off meeting agenda • Preliminary Statement of Probable Construction Costs	7 calendar days prior to Kick-off meeting
Kick-off Meeting	• Attendance (during field reconnaissance trip)	Within 10 calendar days after notice to proceed with design
Preliminary Field Investigations	• Field site visits as needed to characterize site geomorphology, conduct necessary hydraulic, geomorphic and biological analyses, and develop design approaches	Within 30 calendar days after Kick-off meeting
Preliminary Topographic Surveys	• Topographic (and bathymetric) information necessary for preliminary design, analysis, and construction document preparation • 20 channel corridor cross sections • Electronic copies of survey data obtained	Within 30 calendar days after Kick-off meeting
Design Workshop Submittal	• Assumptions and preliminary conclusions to be included in the Preliminary Design Booklet • Electronic copy of Design Workshop agenda	Within 20 calendar days after Kick-off meeting
Design Workshop	• Attendance	Within 30 calendar days after Kick-off meeting
Preliminary (10%) Design	• 8 copies of Preliminary Design Booklet • Preliminary Statement of Probable Construction Costs • Preliminary/planning-level hydrodynamic modeling results? • Design Booklet	Within 60 Calendar Days following commencement of work
Sonoma Water comments on Preliminary Design Report, if any		Within 14 calendar days after receipt of draft Design Report
Resubmittal of Design Report	• 8 copies of Revised Preliminary Design Booklet	Within 14 calendar days of receipt of Sonoma Water comments

MILESTONE	DELIVERABLES	CALENDAR DAYS
Property Owner Outreach	• Support to Sonoma Water at public meetings and meetings with property owners • Materials such as design renderings, information packets, posters, presentations, and simplified analysis results suitable for conveying proposed designs and analyses to property owners	Ongoing
Detailed Design Survey	Includes Ferrari-Carano site: • Topographic (and bathymetric) information necessary for detailed design, analysis, and construction document preparation • Detailed bathymetry of up to 1.25 miles of channel and up to 0.25 miles at the Ferrari-Carano site • Electronic copies of survey data	Within 270 Calendar Days following commencement of work.
Detailed Field Investigations	• Up to 12 surface pebble counts and 6 subsurface bulk samples • Vegetation inventory and mapping	Within 270 Calendar Days following commencement of work.
Complete subsurface exploration	• Draft and Final Geotechnical Reports	Within 270 Calendar Days following commencement of work.
30% Design Submittal (sufficient for ROW appraisals)	• 3 sets of 11x17" hard copy drawings • One electronic copy of drawings (PDF format) • Updated Design Report • Preliminary Statement of Probable Construction Costs • One draft Table of Contents for specifications • Electronic copy of 30% design review meeting agenda • Preliminary design and initial 2-D hydraulic model results • Summary narrative describing the vegetation communities in the Project reach with preliminary vegetation management recommendations integrated • Vegetation community map and supporting documentation for the 1.25-mile design reach • Design drawings, report, cost estimate, and preliminary model results for Ferrari-Carano sites	Within 330 Calendar Days following commencement of work.

MILESTONE	DELIVERABLES	CALENDAR DAYS
30% Design Review Meeting	• Attendance	Within 14 calendar days after 30% Design Submittal
30% Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 30% Design Review Meeting
Sonoma Water comments on 30% Design Report		Within 14 calendar days after receipt of draft Design Report
60% Design Submittal	• 3 sets of 11x17” hard copy drawings • One electronic copy of drawings (PDF format) • Electronic CAD files (AutoCAD format) • Updated Design Report • One revised Statement of Probable Construction Costs • Draft specifications (PDF format) • Electronic copy of 60% design review meeting agenda • Draft Revegetation Design Plan and Vegetation Management Plan • Detailed hydrodynamic modeling • Temperature assessment draft results • Design drawings, CAD file, cost estimate, and draft specifications for Ferrari-Carano sites	Within 420 Calendar Days following commencement of work.
60% Design Review Meeting	• Attendance	Within 14 calendar days after 60% Design Submittal
60% Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 60% Design Review Meeting
Sonoma Water comments on 60% Design Report		Within 14 calendar days after receipt of draft Design Report
Permitting Support Documents	• Quantity estimates, design narrative, and preparation of select figures. • 1 permitting coordination review meeting.	Within 14 days of approved request

MILESTONE	DELIVERABLES	CALENDAR DAYS
90% Design Submittal	• 3 sets of 11x17" hard copy drawings electronic copy of drawings (PDF format) • Electronic CAD files (AutoCAD format) • Updated Design Report (if there are substantial changes) • One revised Statement of Probable Construction Costs • Revised specifications (PDF format) • Electronic copy of 90% design review meeting agenda • Updated detailed hydrodynamic modeling (if comments on 60% model results necessitate updates or revisions) • Plans, new or modified specifications, analysis and modeling results, updated cost estimate, and other items related to design modification for Sites A and B in Reach 8.	45 calendar days after 60% Design Review Meeting, and within 480 Calendar Days following commencement of work
90% Design Review Meeting	• Attendance	Within 14 calendar days after 90% Design Submittal
90% Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 90% Design Review Meeting
Sonoma Water comments on 90% Design Report		Within 14 calendar days after receipt of draft Design Report
99% Design Submittal	• 3 sets of 11x17" hard copy revised drawings and specifications • One electronic copy of revised drawings and specifications (PDF format) • Electronic CAD files (AutoCAD format) • Updated Design Report (if there are changes) • One revised Statement of Probable Construction Costs • One Design Notebook • Electronic copy of 99% design review meeting agenda	Within 30 calendar days after 90% Design Review Meeting, and within 540 Calendar Days following commencement of work
99% Design Review Meeting	• Attendance	21 calendar days after 99% Design Submittal
99% Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 99% Design Review Meeting

MILESTONE	DELIVERABLES	CALENDAR DAYS
Sonoma Water comments on 99% Design Report		Within 14 calendar days after receipt of draft Design Report
Final Submittal	• Complete set of revised and final stamped and wet signed original drawings • Complete set of electronic CAD files (AutoCAD format) with supporting files, plus full and half-size PDFs • Complete electronic set of revised and final specifications (MS Word format and PDF) • Stamped and signed Document 00007 Seals Page • Final Statement of Probable Construction Costs • One copy of design/construct survey information	Within 21 calendar days after 99% Design Review Meeting
Draft Addendum submittal and bid support, if applicable	• Preparation of up to 2 addenda.	10 calendar days prior to Project Bid Opening
Final Addendum submittal, if applicable	• As appropriate, submit original drawing(s)	9 calendar days prior to Project Bid Opening
Construction Support	• Written responses of up to 39 RFI. • Written review of contractor submittals • 65 days of construction observation, 9 hour days on 20 trips. • Written comments on up to 5 change orders • Plans, new or modified specifications, analysis and modeling results, updated cost estimate, and other items related to construction of adaptive management measures at Sites C and D in Reach 8.	Ongoing

EXHIBIT F
Insurance Requirements

With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain insurance as described below unless such insurance has been expressly waived by the attachment of a *Waiver of Insurance Requirements*. Any requirement for insurance to be maintained after completion of the work shall survive this Agreement.

Sonoma Water reserves the right to review any and all of the required insurance policies and/or endorsements, but has no obligation to do so. Failure to demand evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve Consultant from, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

1. INSURANCE

1.1. Workers Compensation and Employers Liability Insurance

a. Required if Consultant has employees.

b. Workers Compensation insurance with statutory limits as required by the Labor Code of the State of California.

c. Employers Liability with minimum limits of $1,000,000 per Accident; $1,000,000 Disease per employee; $1,000,000 Disease per policy.

d. Required Evidence of Insurance: Certificate of Insurance

e. If Consultant currently has no employees, Consultant agrees to obtain the above-specified Workers Compensation and Employers' Liability insurance should any employees be engaged during the term of this Agreement or any extensions of the term.

1.2. General Liability Insurance

a. Commercial General Liability Insurance on a standard occurrence form, no less broad than Insurance Services Office form CG 00 01.

b. Minimum Limits: $1,000,000 per Occurrence; $2,000,000 General Aggregate; $2,000,000 Products/Completed Operations Aggregate. The required limits may be provided by a combination of General Liability Insurance and Commercial Umbrella Liability Insurance. If Consultant maintains higher limits than the specified minimum limits, Sonoma Water requires and shall be entitled to coverage for the higher limits maintained by Consultant.

c. Any deductible or self-insured retention shall be shown on the Certificate of Insurance. If the deductible or self-insured retention exceeds $25,000 it must be approved in advance by Sonoma Water. Consultant is responsible for any deductible or self-insured retention and shall fund it upon Sonoma Water's written request, regardless of whether Consultant has a claim against the insurance or is named as a party in any action involving the Sonoma Water.

d. Sonoma County Water Agency, its officers, agents, and employees, shall be additional insured(s) for liability arising out of operations by or on behalf of the Consultant in the performance of this Agreement.

e. The insurance provided to the additional insureds shall be primary to, and non-contributory with, any insurance or self-insurance program maintained by them.

f. The policy definition of "insured contract" shall include assumptions of liability arising out of both ongoing operations and the products-completed operations hazard (broad form contractual liability coverage including the "f" definition of insured contract in Insurance Services Office form CG 00 01, or equivalent).

g. The policy shall cover inter-insured suits between the additional insureds and Consultant and include a "separation of insureds" or "severability" clause which treats each insured separately.

h. Required Evidence of Insurance:
   i. Copy of the additional insured endorsement or policy language granting additional insured status, and
   ii. Certificate of Insurance.

1.3. Automobile Liability Insurance

a. Minimum Limits: $1,000,000 combined single limit per accident.

b. Insurance shall apply to all owned autos. If Consultant currently owns no autos, Consultant agrees to obtain such insurance should any autos be acquired during the term of this Agreement or any extensions of the term.

c. Insurance shall apply to hired and non-owned autos.

d. Required Evidence of Insurance: Certificate of Insurance.

1.4. Professional Liability/Errors and Omissions Insurance

a. Minimum Limit: $1,000,000 per claim or per occurrence.

b. Any deductible or self-insured retention shall be shown on the Certificate of Insurance. If the deductible or self-insured retention exceeds $25,000 it must be approved in advance by Sonoma Water.

c. If the insurance is on a Claims-Made basis, the retroactive date shall be no later than the commencement of the work.

d. Coverage applicable to the work performed under this Agreement shall be continued for two (2) years after completion of the work. Such continuation coverage may be provided by one of the following: (1) renewal of the existing policy; (2) an extended reporting period endorsement; or (3) replacement insurance with a retroactive date no later than the commencement of the work under this Agreement.

e. Required Evidence of Insurance: Certificate of Insurance.

1.5. Contractors Pollution Liability Insurance

a. Minimum Limits: $1,000,000 per pollution Incident; $1,000,000 Aggregate. If Consultant maintains higher limits than the specified minimum limits, Sonoma Water requires and shall be entitled to coverage for the higher limits maintained by Consultant.

b. Any deductible or self-insured retention shall be shown on the Certificate of Insurance. If the deductible or self-insured retention exceeds $25,000 it must be approved in advance by Sonoma Water. Consultant is responsible for any deductible or self-insured retention and shall fund it upon Sonoma Water's written request, regardless of whether Consultant has a claim against the insurance or is named as a party in any action involving the Sonoma Water.

c. If the insurance is on a Claims-Made basis, the retroactive date shall be no later than the commencement of work.

d. Coverage shall be continued for one (1) year after completion of the work. If the insurance is on a Claims-Made basis, the continuation coverage may be provided by: (a) renewal of the existing policy; (b) an extended reporting period endorsement; or (c) replacement insurance with a retroactive date no later than the commencement of the Work.

e. Sonoma County Water Agency, its officers, agents, and employees, shall be additional insureds for liability arising out of operations by or on behalf of the Consultant in the performance of this Agreement. The foregoing shall continue to be additional insureds for one (1) year after completion of the work.

f. Required Evidence of Coverage:

   i. Copy of the additional insured endorsement or policy language granting additional insured status, and

   ii. Certificate of Insurance.

1.6. Standards for Insurance Companies

a. Insurers, other than the California State Compensation Insurance Fund, shall have an A.M. Best's rating of at least A:VII.

1.7. Documentation

a. The Certificate of Insurance must include the following reference: TW 12/13-136.

b. All required Evidence of Insurance shall be submitted prior to the execution of this Agreement. Consultant agrees to maintain current Evidence of Insurance on file with Sonoma Water for the entire term of this Agreement and any additional periods if specified in Sections 1.1, 1.2, 1.3, 1.4, or 1.5 above.

c. The name and address for mailing Additional Insured endorsements and Certificates of Insurance is: Sonoma County Water Agency, its officers, agents, and employees, 404 Aviation Boulevard, Santa Rosa, CA 95403-9019

d. Required Evidence of Insurance shall be submitted for any renewal or replacement of a policy that already exists, at least ten (10) days before expiration or other termination of the existing policy.

e. Consultant shall provide immediate written notice if: (1) any of the required insurance policies is terminated; (2) the limits of any of the required policies are reduced; or (3) the deductible or self-insured retention is increased.

f. Upon written request, certified copies of required insurance policies must be provided within thirty (30) days.

1.8. Policy Obligations

a. Consultant's indemnity and other obligations shall not be limited by the foregoing insurance requirements.

1.9. Material Breach

a. If Consultant fails to maintain insurance which is required pursuant to this Agreement, it shall be deemed a material breach of this Agreement. Sonoma Water, at its sole option, may terminate this Agreement and obtain damages from Consultant resulting from said breach. Alternatively, Sonoma Water may purchase the required insurance, and without further notice to Consultant, Sonoma Water may deduct from sums due to Consultant any premium costs advanced by Sonoma Water for such insurance. These remedies shall be in addition to any other remedies available to Sonoma Water.

Fifth Amended Agreement for Engineering and Design Services for Dry Creek Habitat Enhancement Project Phase III

This Fifth Amended Agreement ("Fifth Amended Agreement" or "Agreement") is by and between **Sonoma County Water Agency**, a body corporate and politic of the State of California ("Sonoma Water") and **Environmental Science Associates**, a California corporation ("Consultant"). The Effective Date of this Agreement is the date the Agreement is last signed by the parties to the Agreement, unless otherwise specified in Article 5 (Term of Agreement).

RECITALS

A. Consultant represents that it is a duly qualified and licensed engineering and environmental services firm experienced in the preparation of engineering and environmental documents and related services.

B. In September, 2008, the National Marine Fisheries Service (NMFS) issued the Biological Opinion (BO) on the water supply, flood control, and channel maintenance operations conducted by the Sonoma Water, the U. S. Army Corps of Engineers (Corps), and the Mendocino County Russian River Flood Control District in the Russian River watershed. The BO is a 15 year recovery plan based on the results of a Section 7 consultation under the federal Endangered Species Act with NMFS.

C. One of the recommended Reasonable and Prudent Alternatives (RPA) contained in the BO requires habitat enhancement of six miles of Dry Creek to provide near ideal summer rearing conditions for coho and steelhead while maintaining operational steady state discharge for water supply purposes. The proposed Dry Creek Habitat Enhancement Project (Project) is being developed in accordance with the RPA and will be an important component of a larger effort to improve conditions for salmonid species in the Dry Creek and Russian River watersheds.

D. The design phase of the Project consists of the analysis, design, and support during construction of habitat enhancement features of Dry Creek. The sites will be located between Warm Springs Dam (Lake Sonoma) and the confluence with the Russian River. Some specific elements include design of habitat enhancement features such as side channels, backwaters, engineered log jams and large woody debris structures, and constructed riffles; bank stabilization measures using bioengineering methods; and hydraulic modeling and analyses to support the design of Project components.

E. Sonoma Water and Consultant first entered into this Agreement on January 28, 2014, in the amount of $979,422 (Original Agreement).

F. The First Amended Agreement, dated December 22, 2014, expanded the scope of work to include the West Dry Creek Road LLC site, located at 1950 West Dry Creek Road (APN 089-

190-008). Adding this site increased the length of the project from 1.27 miles to 1.44 miles for an additional cost of $55,866, resulting in a new Agreement total of $1,035,288.

G. The First Amended Agreement also increased the extent of the design area and adjusted design fees accordingly. The First Amended Agreement did not modify the design approach, analyses, or scope of the agreement. The increase in cost was less than 10 percent of the Original Agreement amount.

H. The Second Amended Agreement added tasks for supplemental geotechnical services to support Consultant through final design for repair of approximately 90 lineal feet of failed creek bank along the northern side of the tributary on the Carraro property in Reach 2, for an additional cost of $42,068, resulting in a new total Agreement cost of $1,077,356.

I. The Third Amended Agreement provided funding for(1) preparation of Concept Design Booklets at a higher level of design than originally anticipated and on an accelerated schedule; (2) additional model runs to cover the upper range of the base flow (200cfs) for all sites; (3) splitting construction into two phases for an additional season; (4) new tasks to address bank stabilization at Site 5A; and (5) seismic refraction studies to meet Corps requirements and schedule constraints. This additional funding increased the Agreement amount by $267,800 for a new Agreement total of $1,345,156.

J. The Fourth Amended Agreement provided funding to divide Phase III Part 2 of the Project into two bid packages as follows: Sites 4A and 4B will be provided to the Corps (as Phase III, Part 2, Corps), as a separate Corps project. Site 5A (as Phase III, Part 3) will be constructed by Sonoma Water. New tasks are being added for: (1) division of the Phase III drawings; (2) additional format changes and submittals necessary to meet Corps requirements; (3) bidding and 2018 construction support to Sonoma Water and the Corps; (4) additional hydraulic and habitat modeling; (5) type selection; (6) detailed habitat enhancement and bank stabilization design on the Boaz property at the downstream end of Site 5A; and (7) extension of the Agreement through the end of 2018. The Agreement amount is increased by $580,400 for a new Agreement total of $1,925,556.

K. This Fifth Amended Agreement adds $40,000 that is budgeted as an optional task for potential additional effort related to engineering design, hydraulic modeling, and other tasks that become necessary to advance the project to construction, and extends the term by one year for a new total of $1,965,556 and term end date of December 31, 2020.

L. This Fifth Amended Agreement also changes the property owner named Miller to the new owners' name JPMB Properties and removes the work associated with 99% through final design of the JPMB Properties main-channel bank repair, which will be added to Consultant's scope of work along with re-evaluation of alternatives and inclusion of this JPMB Properties site in the 60 and 90% design submittals under a separate existing agreement for Phase V, without increasing the Phase V budget.

M. In addition, this Fifth Amended Agreement changes occurrences of "Water Agency" to "Sonoma Water."

N. This Fifth Amended Agreement supersedes all previous agreements and amendments between the parties.

In consideration of the foregoing recitals and the mutual covenants contained herein, the parties hereto agree as follows:

AGREEMENT

1. RECITALS

1.1. The above recitals are true and correct.

2. LIST OF EXHIBITS

2.1. The following exhibits are attached hereto and incorporated herein:

a. Exhibit A: Scope of Work
b. Exhibit B: Schedule and Submittals
c. Exhibit C: Schedule of Costs
d. Exhibit D: Estimated Breakdown of Costs
e. Exhibit E: Map
f. Exhibit F: Insurance Requirements

3. SCOPE OF SERVICES

3.1. *Consultant's Specified Services:* Consultant shall perform the services described in Exhibit A ("Scope of Work"), within the times or by the dates provided for in Exhibit B and pursuant to Article 9 (Prosecution of Work). In the event of a conflict between the body of this Agreement and Exhibit A, the provisions in the body of this Agreement shall control.

3.2. *Cooperation with Sonoma Water:* Consultant shall cooperate with Sonoma Water in the performance of all work hereunder. Consultant shall coordinate the work with Sonoma Water's Project Manager. Contact information and mailing addresses:

Sonoma Water	Consultant
Project Manager: Greg Guensch 404 Aviation Boulevard Santa Rosa, CA 95403-9019 Phone: 707-547-1972 Email: gregory.guensch@scwa.ca.gov	Contact: Jorgen Blomberg 550 Kearny Street, Suite 800 San Francisco, CA 94108 Phone: 415-262-2347 Email: jblomberg@esassoc.com
Construction Management Principal Engineer: Dennis Daly Phone: 707-547-1984 Email: ddaly@scwa.ca.gov	
Remit invoices to: Susan Bookmyer	**Remit payments to:** Attn: Accounts Receivable

Same address as above or Email: susan.bookmyer@scwa.ca	Same address as above

3.3. *Performance Standard and Standard of Care:* Consultant hereby agrees that all its work will be performed and that its operations shall be conducted in accordance with the requirements of applicable federal, state and local laws, it being understood that acceptance of Consultant's work by Sonoma Water shall not operate as a waiver or release. Sonoma Water has relied upon the professional ability and training of Consultant as a material inducement to enter into this Agreement. Consultant hereby agrees that its work will be performed and its operations conducted in accordance with the standards of a reasonable professional having specialized knowledge and expertise in the services provided under this Agreement. If Sonoma Water determines that any of Consultant's work is not in accordance with such level of competency and standard of care, Sonoma Water, in its sole discretion, shall have the right to do any or all of the following: (a) require Consultant to meet with Sonoma Water to review the quality of the work and resolve matters of concern; (b) require Consultant to repeat the work at no additional charge until it is satisfactory; (c) terminate this Agreement pursuant to the provisions of Article 6 (Termination); or (d) pursue any and all other remedies at law or in equity.

3.4. *Assigned Personnel:*

a. Consultant shall assign only competent personnel to perform work hereunder. In the event that at any time Sonoma Water, in its sole discretion, desires the removal of any person or persons assigned by Consultant to perform work hereunder, Consultant shall remove such person or persons immediately upon receiving written notice from Sonoma Water.

b. Any and all persons identified in this Agreement or any exhibit hereto as the project manager, project team, or other professional performing work hereunder are deemed by Sonoma Water to be key personnel whose services were a material inducement to Sonoma Water to enter into this Agreement, and without whose services Sonoma Water would not have entered into this Agreement. Consultant shall not remove, replace, substitute, or otherwise change any key personnel without the prior written consent of Sonoma Water.

c. With respect to performance under this Agreement, Consultant shall employ the following key personnel:

Title	**Name**
Vice President	Ann Borgonovo
Design Team Director	Jorgen Blomberg

d. In the event that any of Consultant's personnel assigned to perform services under this Agreement become unavailable due to resignation, sickness, or other factors outside of Consultant's control, Consultant shall be responsible for timely provision of adequately qualified replacements.

4. PAYMENT

4.1. *Total Costs:* Total costs under this Agreement shall not exceed **$1,965,556**.

a. Total costs for work other than Optional Task 11.6 shall not exceed $1,896,816.

b. Total costs for Optional Task 11.6, if requested in writing by Sonoma Water, shall not exceed $68,740.

4.2. *Method of Payment:* Consultant shall be paid in accordance with the following terms:

a. Consultant shall be paid in accordance with the hourly rates and expenses set forth in Exhibit C. Any mark-up shall be included in billed hourly rates.

4.3. *Invoices:* Consultant shall submit its bills in arrears on a monthly basis, based on work completed for the period, in a form approved by Sonoma Water's Project Manager. The bills shall show or include:

a. Consultant name

b. Name of Agreement

c. Sonoma Water's Order Number Project Activity Code D0023C001

d. Task performed with an itemized description of services rendered by date

e. Summary of work performed by subconsultants, as described in Paragraph 15.4

f. Time in quarter hours devoted to the task

g. Hourly rate or rates of the persons performing the task

h. List of reimbursable materials and expenses

i. Copies of receipts for reimbursable materials and expenses

4.4. *Monthly Progress Reports with Invoices:* Payment of invoices is subject to receipt of the monthly reports required under Task 13 (Project Management) of Exhibit A (Scope of Work).

4.5. *Cost Tracking:* Consultant has provided an estimated breakdown of costs, included in Exhibit D. Exhibit D will only be used as a tool to monitor progress of work and the project budget. Actual payment will be made as specified in Paragraph 4.2 (Method of Payment) above.

5. TERM OF AGREEMENT

5.1. The term of this Agreement shall be from January 28, 2014 ("Effective Date") to December 31, 2020, unless terminated earlier in accordance with the provisions of Article 6. (Termination).

6. TERMINATION

6.1. *Termination without Cause:* Notwithstanding any other provision of this Agreement, at any time and without cause, Sonoma Water shall have the right, in its sole discretion, to terminate this Agreement by giving 5 days written notice to Consultant.

6.2. *Termination for Cause:* Notwithstanding any other provision of this Agreement, should Consultant fail to perform any of its obligations hereunder, within the time and in the manner herein provided, or otherwise violate any of the terms of this Agreement, Sonoma Water may immediately terminate this Agreement by giving Consultant written notice of such termination, stating the reason for termination.

6.3. *Delivery of Work Product and Final Payment Upon Termination:* In the event of termination, Consultant, within 14 days following the date of termination, shall deliver to Sonoma Water all materials and work product subject to Paragraph 12.8 and shall submit to Sonoma Water an invoice showing the services performed, hours worked, and copies of receipts for reimbursable expenses up to the date of termination.

6.4. *Payment Upon Termination:* Upon termination of this Agreement by Sonoma Water, Consultant shall be entitled to receive as full payment for all services satisfactorily rendered and expenses incurred hereunder, an amount which bears the same ratio to the total payment specified in the Agreement as the services satisfactorily rendered hereunder by Consultant bear to the total services otherwise required to be performed for such total payment; provided, however, that if services are to be paid on a per-hour or per-day basis, then Consultant shall be entitled to receive as full payment an amount equal to the number of hours or days actually worked prior to termination times the applicable hourly or daily rate; and further provided, however, that if Sonoma Water terminates the Agreement for cause pursuant to Paragraph 6.2, Sonoma Water shall deduct from such amounts the amount of damage, if any, sustained by Sonoma Water by virtue of the breach of the Agreement by Consultant.

6.5. *Authority to Terminate:* Sonoma Water's right to terminate may be exercised by Sonoma Water's General Manager.

7. INDEMNIFICATION

7.1. Consultant agrees to accept responsibility for loss or damage to any person or entity, including Sonoma Water, and to defend, indemnify, hold harmless, and release Sonoma Water, its officers, agents, and employees, from and against any actions, claims, damages, liabilities, disabilities, or expenses, that may be asserted by any person or entity, including Consultant, that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of Consultant or its agents, employees, contractors, subcontractors, or invitees hereunder, whether or not there is concurrent negligence on the part of Sonoma Water, but, to the extent required by law, excluding liability due to conduct of Sonoma

Water. This indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Consultant or its agents, employees, contractors, subcontractors, or invitees under workers' compensation acts, disability benefits acts, or other employee benefit acts.

8. INSURANCE

8.1. With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain, insurance as described in Exhibit F.

9. PROSECUTION OF WORK

9.1. Performance of the services hereunder shall be completed within the time required herein, provided, however, that if the performance is delayed by earthquake, flood, high water, or other Act of God or by strike, lockout, or similar labor disturbances, the time for Consultant's performance of this Agreement shall be extended by a number of days equal to the number of days Consultant has been delayed.

10. EXTRA OR CHANGED WORK

10.1. Extra or changed work or other changes to the Agreement may be authorized only by written amendment to this Agreement, signed by both parties. Changes to lengthen time schedules or make minor modifications to the scope of work, which do not increase the amount paid under the Agreement, may be executed by Sonoma Water's General Manager in a form approved by County Counsel.. The parties expressly recognize that Sonoma Water personnel are without authorization to order all other extra or changed work or waive Agreement requirements. Failure of Consultant to secure such written authorization for extra or changed work shall constitute a waiver of any and all right to adjustment in the Agreement price or Agreement time due to such unauthorized work and thereafter Consultant shall be entitled to no compensation whatsoever for the performance of such work. Consultant further expressly waives any and all right or remedy by way of restitution and quantum meruit for any and all extra work performed without such express and prior written authorization of Sonoma Water.

11. CONTENT ONLINE ACCESSIBILITY

11.1. *Accessibility:* Sonoma Water policy requires that all documents that may be published to the Web meet accessibility standards to the greatest extent possible, and utilizing available existing technologies.

11.2. *Standards:* All consultants responsible for preparing content intended for use or publication on a Sonoma Water/County-managed or Sonoma Water/County-funded web site must comply with applicable federal accessibility standards established by 36 C.F.R. Section 1194, pursuant to Section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794(d)), and Sonoma Water's Web Site Accessibility Policy located at http://webstandards.sonoma-county.org.

11.3. *Certification:* With each final receivable intended for public distribution (report, presentations posted to the Internet, public outreach materials), Consultant shall include a descriptive summary describing how all deliverable documents were assessed for accessibility (e.g. Microsoft Word accessibility check; Adobe Acrobat accessibility check, or other commonly accepted compliance check).

11.4. *Alternate Format:* When it is strictly impossible due to the unavailability of technologies required to produce an accessible document, Consultant shall identify the anticipated accessibility deficiency prior to commencement of any work to produce such deliverables. Consultant agrees to cooperate with Sonoma Water staff in the development of alternate document formats to maximize the facilitative features of the impacted document(s); e.g., embedding the document with alt-tags that describe complex data/tables.

11.5. *Noncompliant Materials; Obligation to Cure:* Remediation of any materials that do not comply with Sonoma Water's Web Site Accessibility Policy shall be the responsibility of Consultant. If Sonoma Water, in its sole and absolute discretion, determines that any deliverable intended for use or publication on any Sonoma Water/County-managed or Sonoma Water/County-funded Web site does not comply with Sonoma Water Accessibility Standards, Sonoma Water will promptly inform Consultant in writing. Upon such notice, Consultant shall, without charge to Sonoma Water, repair or replace the non-compliant materials within such period of time as specified by Sonoma Water in writing. If the required repair or replacement is not completed within the time specified, Sonoma Water shall have the right to do any or all of the following, without prejudice to Sonoma Water's right to pursue any and all other remedies at law or in equity:

a. Cancel any delivery or task order

b. Terminate this Agreement pursuant to the provisions of Article 6 (Termination); and/or

c. In the case of custom Electronic and Information Technology (EIT) developed by Consultant for Sonoma Water, Sonoma Water may have any necessary changes or repairs performed by itself or by another contractor. In such event, Consultant shall be liable for all expenses incurred by Sonoma Water in connection with such changes or repairs.

11.6. *Sonoma Water's Rights Reserved:* Notwithstanding the foregoing, Sonoma Water may accept deliverables that are not strictly compliant with Sonoma Water Accessibility Standards if Sonoma Water, in its sole and absolute discretion, determines that acceptance of such products or services is in Sonoma Water's best interest.

12. REPRESENTATIONS OF CONSULTANT

12.1. *Status of Consultant:* The parties intend that Consultant, in performing the services specified herein, shall act as an independent contractor and shall control the work and the manner in which it is performed. Consultant is not to be considered an agent or employee of Sonoma Water and is not entitled to participate in any pension plan, worker's compensation plan, insurance, bonus, or similar benefits Sonoma Water provides its employees. In the event Sonoma Water exercises its right to terminate this Agreement pursuant to Article 6 (Termination), Consultant expressly agrees that it shall have no recourse or right of appeal under rules, regulations, ordinances, or laws applicable to employees.

12.2. *Communication with Sonoma Water's Contractor:* All communication shall be between Consultant and Sonoma Water. Consultant shall have no authority to act on behalf of Sonoma Water, to stop work, to interpret conditions of the construction contract, or to give direction to Sonoma Water's contractor.

12.3. *Taxes:* Consultant agrees to file federal and state tax returns and pay all applicable taxes on amounts paid pursuant to this Agreement and shall be solely liable and responsible to pay such taxes and other obligations, including, but not limited to, state and federal income and FICA taxes. Consultant agrees to indemnify and hold Sonoma Water harmless from any liability which it may incur to the United States or to the State of California or to any other public entity as a consequence of Consultant's failure to pay, when due, all such taxes and obligations. In case Sonoma Water is audited for compliance regarding any withholding or other applicable taxes, Consultant agrees to furnish Sonoma Water with proof of payment of taxes on these earnings.

12.4. *Records Maintenance:* Consultant shall keep and maintain full and complete documentation and accounting records concerning all services performed that are compensable under this Agreement and shall make such documents and records available to Sonoma Water for inspection at any reasonable time. Consultant shall maintain such records for a period of four (4) years following completion of work hereunder.

12.5. *Conflict of Interest:* Consultant covenants that it presently has no interest and that it will not acquire any interest, direct or indirect, that represents a financial conflict of interest under state law or that would otherwise conflict in any manner or degree with the performance of its services hereunder. Consultant further covenants that in the performance of this Agreement no person having any such interests shall be employed. In addition, if required by law or requested to do so by Sonoma Water, Consultant shall submit a completed Fair Political Practices Commission Statement of Economic Interests (Form 700) with Sonoma Water within 30 calendar days after the Effective Date of this

Agreement and each year thereafter during the term of this Agreement, or as required by state law.

12.6. *Nondiscrimination:* Consultant shall comply with all applicable federal, state, and local laws, rules, and regulations in regard to nondiscrimination in employment because of race, color, ancestry, national origin, religion, sex, marital status, age, medical condition, pregnancy, disability, sexual orientation or other prohibited basis. All nondiscrimination rules or regulations required by law to be included in this Agreement are incorporated herein by this reference.

12.7. *Assignment of Rights:* Consultant assigns to Sonoma Water all rights throughout the world in perpetuity in the nature of copyright, trademark, patent, right to ideas, in and to all versions of the plans and specifications, if any, now or later prepared by Consultant in connection with this Agreement. Consultant agrees to take such actions as are necessary to protect the rights assigned to Sonoma Water in this Agreement, and to refrain from taking any action which would impair those rights. Consultant's responsibilities under this provision include, but are not limited to, placing proper notice of copyright on all versions of the plans and specifications as Sonoma Water may direct, and refraining from disclosing any versions of the plans and specifications to any third party without first obtaining written permission of Sonoma Water. Consultant shall not use or permit another to use the plans and specifications in connection with this or any other project without first obtaining written permission of Sonoma Water.

12.8. *Ownership and Disclosure of Work Product:* All reports, original drawings, graphics, plans, studies, and other data or documents ("documents"), in whatever form or format, assembled or prepared by Consultant or Consultant's subcontractors, consultants, and other agents in connection with this Agreement shall be the property of Sonoma Water. Sonoma Water shall be entitled to immediate possession of such documents upon completion of the work pursuant to this Agreement. Upon expiration or termination of this Agreement, Consultant shall promptly deliver to Sonoma Water all such documents, which have not already been provided to Sonoma Water in such form or format as Sonoma Water deems appropriate. Such documents shall be and will remain the property of Sonoma Water without restriction or limitation. Consultant may retain copies of the above described documents but agrees not to disclose or discuss any information gathered, discovered, or generated in any way through this Agreement without the express written permission of Sonoma Water.

13. PREVAILING WAGES

13.1. *General:* Consultant shall pay to any worker on the job for whom prevailing wages have been established, including but not limited to geotechnical subsurface investigation work, an amount equal to or more than the general prevailing rate of per diem wages for (1) work of a similar character in the locality in which the work is performed and (2) legal holiday and overtime work in said locality. The per diem wages shall be an amount equal to or more than the stipulated rates contained in a schedule that has been ascertained and determined by the Director of the State Department of Industrial Relations and Sonoma Water to be the general prevailing rate of per diem wages for each craft or type of workman or mechanic needed to execute this Agreement. Consultant shall also cause a copy of this determination of the prevailing rate of per diem wages to be posted at each site work is being performed, in addition to all other job site notices prescribed by regulation. Copies of the prevailing wage rate of per diem wages are on file at Sonoma Water and will be made available to any person upon request.

13.2. *Compliance Monitoring and Registration*: This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. Consultant shall furnish and shall require all subcontractors and subconsultants to furnish the records specified in Labor Code section 1776 (e.g. electronic certified payroll records) directly to the Labor Commissioner in a format prescribed by the Labor Commissioner at least monthly. Consultant and all subcontractors performing work that requires payment of prevailing wages shall be registered and qualified to perform public work pursuant to Labor Code section 1725.5 as a condition to engage in the performance of any services under this Agreement.

13.3. *Subcontracts:* Consultant shall insert in every subcontract or other arrangement which Consultant may make for performance of such work or labor on work provided for in the Agreement, provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the Labor Code. Pursuant to Labor Code Section 1775(b)(1), Consultant shall provide to each Subcontractor a copy of Sections 1771, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code.

13.4. *Compliance with Law:* Consultant stipulates that it shall comply with all applicable wage and hour laws, including without limitation Labor Code Sections 1725.5, 1775, 1776, 1777.5, 1813, and 1815 and California Code of Regulations, Title 8, Section 16000, et seq.

13.5. *Statutory Compliance/Living Wage Ordinance:* Consultant agrees to comply, and to ensure compliance by its subconsultants or subcontractors, with all applicable federal, state and local laws, regulations, statutes and policies, including but not limited to the County of Sonoma Living Wage Ordinance, applicable to the services provided under this Agreement as they exist now and as they are changed, amended or modified during the term of this Agreement. Without limiting the generality of the foregoing, Consultant expressly acknowledges and agrees that this Agreement may be subject to the provisions of Article XXVI of Chapter 2 of the Sonoma County Code, requiring payment of a living wage to covered employees. Noncompliance during the term of the Agreement will be considered a material breach and may result in termination of the Agreement or pursuit of other legal or administrative remedies.

14. DEMAND FOR ASSURANCE

14.1. Each party to this Agreement undertakes the obligation that the other's expectation of receiving due performance will not be impaired. When reasonable grounds for insecurity arise with respect to the performance of either party, the other may in writing demand adequate assurance of due performance and until such assurance is received may, if commercially reasonable, suspend any performance for which the agreed return has not been received. “Commercially reasonable” includes not only the conduct of a party with respect to performance under this Agreement, but also conduct with respect to other agreements with parties to this Agreement or others. After receipt of a justified demand, failure to provide within a reasonable time, but not exceeding thirty (30) days, such assurance of due performance as is adequate under the circumstances of the particular case is a repudiation of this Agreement. Acceptance of any improper delivery, service, or payment does not prejudice the aggrieved party's right to demand adequate assurance of future performance. Nothing in this Article 14 limits Sonoma Water’s right to terminate this Agreement pursuant to Article 6 (Termination).

15. ASSIGNMENT AND DELEGATION

15.1. *Consent:* Neither party hereto shall assign, delegate, sublet, or transfer any interest in or duty under this Agreement without the prior written consent of the other, and no such transfer shall be of any force or effect whatsoever unless and until the other party shall have so consented.

15.2. *Subcontracts:* Notwithstanding the foregoing, Consultant may enter into subcontracts with the subconsultants specifically identified herein. Prunuske Chatham, Inc. is an approved subconsultant for revegetation design and constructability analysis services. Cramer Fish Sciences is an approved subconsultant for fisheries biology and ecology services. A3GEO is an approved subconsultant for geotechnical and geological analysis and design services. If no subconsultants are listed, then no subconsultants will be utilized in the performance of the work specified in this Agreement.

15.3. *Change of Subcontractors or Subconsultants:* If, after execution of the Agreement, parties agree that subconsultants not listed in Paragraph 15.2 will be utilized, Consultant may enter into subcontracts with subconsultants to perform other specific duties pursuant to the provisions of this Paragraph 15.2. The following provisions apply to any subcontract entered into by Consultant other than those listed in Paragraph 15.2 above:

a. Prior to entering into any contract with subconsultant, Consultant shall obtain Sonoma Water approval of subconsultant. Sonoma Water's Board of Directors must approve the selection of any subconsultant if the amount payable to subconsultant under the agreement exceeds $25,000. In connection with such approval, Consultant shall provide Sonoma Water with copies of the responses to Consultant's Request for Proposals (RFP) to subconsultants, the names of key personnel who will be performing work under the agreement, and an explanation of Consultant's reasons for choosing the recommended subconsultant based upon the criteria in the RFP.

b. All agreements with subconsultants shall (a) contain indemnity requirements in favor of Sonoma Water in substantially the same form as that contained in Article 7, (b) contain language that the subconsultant may be terminated with or without cause upon reasonable written notice, and (c) prohibit the assignment or delegation of work under the agreement to any third party.

15.4. *Summary of Subconsultants' Work:* No less than monthly, Consultant shall provide Sonoma Water with a summary of all work performed by all subconsultants during the preceding month. Such summary shall identify the individuals performing work on behalf of subconsultants and the total amount paid to subconsultant, broken down by the tasks listed in the Scope of Work.

16. MEDIATION OF DISPUTES

16.1. If a dispute arises out of or relates to this Agreement, or an alleged breach thereof, and if the dispute cannot be settled through negotiation, before resorting to litigation, Sonoma Water and Consultant agree first to try in good faith to settle the dispute by mediation. If the parties cannot agree on a mediator or mediation rules to use, the parties shall use the construction industry mediation procedures developed by the American Arbitration Association, with the following exceptions to those procedures:

a. The mediation shall be conducted in Santa Rosa, California.

b. Unless otherwise agreed to in writing by the parties participating in the mediation, the mediation shall be concluded no later than sixty (60) days after the first mediation session. If the dispute has not been resolved at that time, any party may elect at that time to pursue litigation.

c. The parties agree to exchange all relevant non-privileged documents before the first scheduled mediation session.

17. METHOD AND PLACE OF GIVING NOTICE, SUBMITTING BILLS, AND MAKING PAYMENTS

17.1. *Method of Delivery:* All notices, bills, and payments shall be made in writing and shall be given by personal delivery or by U.S. Mail or courier service. Notices, bills, and payments shall be addressed as specified in Paragraph 3.2.

17.2. *Receipt:* When a notice, bill, or payment is given by a generally recognized overnight courier service, the notice, bill, or payment shall be deemed received on the next business day. When a copy of a notice, bill, or payment is sent by electronic means, the notice, bill, or payment shall be deemed received upon transmission as long as (1) the original copy of the notice, bill, or payment is deposited in the U.S. mail and postmarked on the date of the electronic transmission (for a payment, on or before the due date), (2) the sender has a written confirmation of the electronic transmission, and (3) the electronic transmission is transmitted before 5 p.m. (recipient's time). In all other instances, notices, bills, and payments shall be effective upon receipt by the recipient. Changes may be made in the names and addresses of the person to whom notices are to be given by giving notice pursuant to this Article 17.

18. MISCELLANEOUS PROVISIONS

18.1. *No Bottled Water:* In accordance with Sonoma Water Board of Directors Resolution No. 09-0920, dated September 29, 2009, no Sonoma Water funding shall be used to purchase single-serving, disposable water bottles for use in Sonoma Water facilities or at Sonoma Water-sponsored events. This restriction shall not apply when potable water is not available.

18.2. *No Waiver of Breach:* The waiver by Sonoma Water of any breach of any term or promise contained in this Agreement shall not be deemed to be a waiver of such term or promise or any subsequent breach of the same or any other term or promise contained in this Agreement.

18.3. *Construction:* To the fullest extent allowed by law, the provisions of this Agreement shall be construed and given effect in a manner that avoids any violation of statute, ordinance, regulation, or law. The parties covenant and agree that in the event that any provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions hereof shall remain in full force and effect and shall in no way be affected, impaired, or invalidated thereby. Consultant and Sonoma Water acknowledge that they have each contributed to the making of this Agreement and that, in the event of a dispute over the interpretation of this Agreement, the language of the Agreement will not be construed against one party in favor of the other. Consultant and Sonoma Water acknowledge that they have each had an adequate opportunity to consult with counsel in the negotiation and preparation of this Agreement.

18.4. *Consent:* Wherever in this Agreement the consent or approval of one party is required to an act of the other party, such consent or approval shall not be unreasonably withheld or delayed.

18.5. *No Third-Party Beneficiaries:* Except as provided in Article 7 (Indemnification), nothing contained in this Agreement shall be construed to create and the parties do not intend to create any rights in third parties.

18.6. *Applicable Law and Forum:* This Agreement shall be construed and interpreted according to the substantive law of California, regardless of the law of conflicts to the contrary in any jurisdiction. Any action to enforce the terms of this Agreement or for the breach thereof shall be brought and tried in Santa Rosa or in the forum nearest to the city of Santa Rosa, in the County of Sonoma.

18.7. *Captions:* The captions in this Agreement are solely for convenience of reference. They are not a part of this Agreement and shall have no effect on its construction or interpretation.

18.8. *Merger:* This writing is intended both as the final expression of the Agreement between the parties hereto with respect to the included terms and as a complete and exclusive statement of the terms of the Agreement, pursuant to Code of Civil Procedure Section 1856. No modification of this Agreement shall be effective unless and until such modification is evidenced by a writing signed by both parties.

18.9. *Survival of Terms:* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

18.10. *Time of Essence:* Time is and shall be of the essence of this Agreement and every provision hereof.

Exhibit A

Scope of Work

1. GENERAL

1.1. Consultant agrees to perform obligations described in this Agreement and to furnish necessary skills, services, labor, supplies, supervision, and material required to perform and complete the Project.

1.2. By execution of this Agreement, Consultant warrants that it has carefully examined the Project site and has satisfied itself of local and any special conditions affecting the proposed scope of work. Tests, survey results, geotechnical reports, or other data or information, whether furnished by the Sonoma Water, or referenced in this Agreement, are for the Consultant's convenience. The Sonoma Water does not guarantee that such tests or preliminary investigations or other data and information are accurate and assumes no responsibility whatsoever as to their accuracy or interpretation. Consultant shall satisfy itself as to the accuracy or interpretation of such tests or survey results or other information or data.

1.3. Design is over a total of 1.3 miles of discontinuous channel corridor.

1.4. Access and Landowner Permissions: Sonoma Water will coordinate necessary access and landowner permissions for field activities.

2. HAZARDOUS WASTE

2.1. Services relating to the identification, investigation, or remediation of hazardous waste contamination are not included within the scope of work. Should such services be required, the cost of such services and the party to perform the services will be negotiated separately by Sonoma Water. Consultant shall inform Sonoma Water immediately if any waste or hazardous materials are discovered on the Project site or the surrounding areas.

3. COST ESTIMATES

3.1. Prepare a Statement of Probable Construction Costs and revise as required herein.

4. DESIGN SERVICES

4.1. Preliminary Design:

a. Consult with Sonoma Water to define and clarify Sonoma Water's requirements for the Project and available data.

b. Identify, consult with, and analyze requirements of governmental authorities having jurisdiction to approve the portions of the Project designed or specified by Consultant.

c. Review available information relevant to the Project and identify data gaps. Information includes, but is not limited to:
    i. Final Stream Maintenance Program Operations and Maintenance Manual (Sonoma County Water Agency, 2010)
    ii. Final Current Conditions Report, Dry Creek from Warm Springs Dam to the Confluence with the Russian River (Inter-Fluve, 2010)
    iii. Final Habitat Enhancement Feasibility Study Report, Dry Creek from Warm Springs Dam to the Confluence with the Russian River (Inter-Fluve 2012)
    iv. 90% Complete Design Report, Dry Creek Habitat Enhancement Demonstration Projects River Miles 6.2 to 7.3. (Inter-Fluve 2012)
    v. Draft Revegetation Plan (Inter-Fluve, 2012)
    vi. Biological Opinion for Water Supply, Flood Control Operations, and Channel Maintenance conducted by the Corps, SCWA and Mendocino County Russian River FCWCD in the Russian River watershed (NMFS 2008)
    vii. Draft Dry Creek Adaptive Management Framework (ESSA Technologies Ltd., 2011) or Draft Adaptive Management Plan (ESSA Technologies Ltd., 2013), whichever is most relevant
    viii. Proposed Discharges under Requested Release Schedule
    ix. Water Quality data (Temperature, Dissolved Oxygen, pH, etc)
    x. Existing HEC-RAS model
    xi. GIS data layers
    xii. Fisheries Monitoring Data
    xiii. Sonoma County Water Agency, 2005, Russian River Estuary Fish and Macro-Invertebrate Studies.
d. Work with Sonoma Water on the best approach for collecting and/or obtaining additional data needed that is not otherwise identified as part of this scope of work.
e. Field Assessments - Perform field assessments for a total of two (2.0) miles of the potential Project sites within the seven (7) sub-reaches identified, to observe existing conditions, preliminarily identify constraints, and inform potential concept design refinements. Sonoma Water will obtain permission to enter the potential Project site. Include five (5) consecutive field days to visit up to two (2.0) miles of potential Project sites.
f. Geomorphic Assessment:
    i. Perform a field-based geomorphic assessment to confirm and characterize existing site conditions, observe physical processes, and help outline Project priorities and develop recommendations for refinement of the concept designs. The assessments shall provide a qualitative summary of existing channel features and habitat conditions (terrestrial and aquatic) for each of the sub-reaches.
    ii. Evaluate stream conditions in the field and document with photographs and field notes.
    iii. Record GPS points of any unique features.

    iv. Take field measurements and make assessments of channel and floodplain sediment to support design and modeling analyses.
    v. Summarize and incorporate field observations into the refined concept designs and Design Report.
    vi. Note specific observations of topographic and geomorphic features to be captured in the topographic survey.

g. Fisheries Assessment:
    i. Help the design team identify actions to 1) promote physical and biological processes, 2) develop hypotheses designed to evaluate and assess response mechanisms, and 3) for measuring the performance and effectiveness of enhancement actions to support design.
    ii. Assist Sonoma Water in developing a temperature monitoring program for the Project reach and specifically to inform the design.
    iii. Utilize monitoring data collected by Sonoma Water to develop habitat- and life stage-specific temperature profiles for key time periods.

h. Riparian Ecology:
    i. Perform a visual field investigation of plant communities in the riparian, emergent, seasonal wetland and adjacent upland habitats of Dry Creek including initial, reconnaissance-level assessments of the following:
        a) Plant species composition and distribution
        b) Levels of natural regeneration and extent of vegetative cover
        c) Habitat diversity based on topographic and hydrologic variation
        d) Potential habitat value for both aquatic and terrestrial species
        e) Potentially sensitive habitats, such as riparian wetlands, special status plants, important trees or other features that could prove to be design opportunities or constraints
        f) Invasive species of concern
        g) Influence of vegetation on channel and floodplain morphology
    ii. Based on these observations, provide input on site selection and refinement of design concepts, note specific observations of vegetation features to be captured in the topographic survey, and identify strategies for improving riparian habitat functions such as:
        a) Managing streambank, floodplain, and channel stability through plantings, invasive species removal, and biotechnical treatments
        b) Providing ongoing sources of small organic debris and natural large wood into the stream through riparian plantings
        c) Providing surface sediment filtering, stream shade and temperature buffering through plantings and retaining of existing vegetation as feasible
        d) Improving aquatic and terrestrial wildlife habitat resources through plantings, woody debris structures, channel geometry and alignment, and off-channel structures.

i. Geotechnical Assessment:
    i. Conduct up to three (3) days of detailed geotechnical site reconnaissance visits to identify areas of geotechnical concern (bank erosion and instability) and

   ii. Evaluate information obtained and developed during the review of available data.
   iii. Review of borings, data, and the geotechnical report prepared for the Demonstration Reach of the Project.
   iv. Review existing design and construction documents associated with the Corps grouted riprap sill.

j. Refined Concept Design:
   i. Prepare refined concept (10%) designs for approximately 2 miles of the potential sub-reaches shown in Table 1 based on the original Design Concepts (Inter-Fluve, 2012), existing data, field assessments and input from each of the Consultants team members.
   ii. Provide Concept Design Booklets in a format that includes detailed, illustrative sketches.
   iii. Accelerate schedule as necessary in order to provide Concept Design Booklets in advance of Community Meeting.

Table 1, Project Reaches and Potential Sub-reaches

Reach (Inter-Fluve, 2012)	Approx Length (miles)	Enhance Exist. Riffle	New Riffle	Retrofit Grade Control Sill	Alcove	Side Channel	Winter Refuge	LWD
Reach 2								
2A	0.40	1	-	-	4	-	-	various
2B	0.40	4	-	-	3	1	-	various
Reach 4								
4A	0.40	-	3	1	4	-	-	various
4B	0.40	-	2	1	3	-	-	various
4C	0.20	-	1	1	2	-	-	various
Reach 5								
5A	0.50	1	3	-	3	-	-	various
5B	0.80	4	4	-	1	-	2	various
Total	**3.10**	**10**	**13**	**3**	**20**	**1**	**2**	**-**

   iv. Prepare initial refined concept designs that attempt to make best use of the existing riparian corridor, referred to loosely herein as the “maximum footprint” design. Present this initial refined concept to the affected landowner(s) to obtain their initial input and outline key items for further refinements.
   v. Prepare revised conceptual design drawings and preliminary Design Report: Following initial field investigations, design discussions with Sonoma Water staff, and input from property owners, update and revise the existing conceptual designs, and develop an outline draft of the Preliminary Design Report. Materials generated at this stage shall be used to discuss the Project with property owners.
   vi. Prepare a brief technical memorandum that summarizes the conclusions of the Refined Concept Design.

      vii. Upon completion or refined concept designs, Sonoma Water will develop a list of sites, totaling approximately 1.3 miles, to be carried forward to final design, and provide this as a formal written directive to authorize Consultant to initiate design analysis for the selected sites

   k. Provide concept design updates based on field reconnaissance and ground truthing of the concept designs, updated information regarding landowner feedback and likely participation, Sonoma Water and stakeholder feedback.

   l. Identify key utility locations and identify utility conflicts, if any.

   m. If existing damage to utilities identified on the site is discovered, determine and inform Sonoma Water's Project Manager of the damage.

4.2. Report:

   a. Prepare a Preliminary Design Report that analyzes site hydrology, hydraulics, geomorphology, biology and other relevant characteristics; serves as the basis of design that shall guide final designs, discusses how the enhancement design meets the requirements of the BO and provides design documentation that assists Sonoma Water to perform CEQA compliance and obtain regulatory permits. Technical analyses and the basis of design for the enhancements shall be compiled in the Preliminary Design Report. The report shall be assembled progressively over the design period, with relevant sections added with each design submittal. Progressive versions of the Design Report shall be issued at the Draft outline, 30%, 60%, 90% and 100% design milestones and shall include the following:

      i. Title page with name of Project, name of preparer, preparer's company name and address, and date

      ii. Table of Contents

      iii. Executive Summary

      iv. A description of the work performed, including methodology, a detailed description of the inspections performed, literature reviewed, documents and records reviewed, and individuals and agencies contacted

      v. Description of existing conditions

      vi. Design criteria with appropriate exhibits to indicate the agreed-to requirements, considerations involved, and those alternative solutions available to Sonoma Water which Consultant recommends

      vii. Summary of design analyses (hydraulic, geomorphic, biological, etc.) and design basis

      viii. Description of designs and explanation of design basis

      ix. Construction cost estimate itemized by bid item

      x. Appendix, including copies of important documents, photographs, manufacturer's literature, and other records deemed appropriate

      xi. Schematic drawings, sketches, and exhibits as necessary to illustrate the recommended Project

      xii. Other information to support the recommendations

   b. Submit Preliminary Design Report to Sonoma Water for review and approval.

        i. Sonoma Water review comments will be compiled into a single set of review comments and provided to Consultant.

    c. Incorporate Sonoma Water comments on Preliminary Design Report into Design Report.

4.3. Final Design:

    a. Prepare Project design, as recommended in the Sonoma Water-approved Design Report.

    b. Identify and perform sufficient site investigation(s) for purpose of developing Project design.

    c. Prepare a Design Notebook. The Design Notebook shall be a loose-leaf notebook containing, as appropriate, copies of the Design Report, stamped and signed design calculations, a technical memorandum summarizing the design parameters, and other supplemental information material to the project design that is not included in the report.

    d. Prepare a detailed construction cost estimate for the Project broken down by bid item. Provide estimated quantities for unit priced items.

    e. Prepare a construction schedule showing the anticipated timeframe for completing construction of major units. Use a simple bar chart approach for each item and indicate the anticipated critical path of construction.

4.4. Detailed hydraulic, geomorphic, and engineering analyses:

    a. Utilize the existing 1-D HEC-RAS model compiled by Inter-Fluve as part of the Current Conditions Study.

        i. Refine model in key locations in the Project reach to describe additional topographic influences on the proposed design elements.

        ii. Use additional cross section survey data, collected during preliminary surveys, to improve accuracy of model geometry.

        iii. Use detailed 1-D model to support 2-D model development and reach-scale design processes such as site selection, location and configuration of off-channel habitat features, and estimates of hydraulic variables pertinent to design (depth, velocity, shear stress).

        iv. Utilize existing hydrologic studies completed by Inter-Fluve to set hydraulic model boundary conditions (discharge) for specific flow scenarios.

        v. Utilize observed water surface elevations for specific discharges and refine final model parameters (Manning's n, bank stations, ineffective flow areas) to reflect observed conditions within the limits of 1-D model performance capabilities.

        vi. Quantitatively (statistically) assess performance of refined existing conditions HEC-RAS model using measured flow and stage data along the Project reach for anticipated summer release schedules.

        vii. Develop proposed conditions HEC-RAS model that explicitly represents design elements, and update proposed condition model at key submittals for review.

        viii. Analyze three alternative approaches for habitat enhancements that stabilize erosion of the bank on the Boaz property.

b. Construct a site specific two-dimensional (2-D) hydrodynamic model to support the design of in-channel and off-channel habitat elements at one of the sub-reaches included in the final design.
    i. Initiate 2-D modeling following approval of the 30% Design and work with Sonoma Water to define the most appropriate sub-reach.
    ii. Employ the Bureau of Reclamation's SRH-2-D model to predict depth, velocity, shear stress for proposed design conditions.
    iii. Explicitly represent proposed Project elements in the model domain.
    iv. Use model results to test and evaluate the configuration of specific habitat elements (backwater alcoves, side channels, and banks) during typical summer habitat conditions and high winter flows.
    v. Model winter flow conditions will be modeled to evaluate the opportunity to create high flow refugia within the off-channel habitat using biotechnical and large woody debris structures, grading, and revegetation elements.
    vi. Evaluate design sustainability, likely changes in physical habitat, off-channel inundation patterns, and sediment transport characteristics including bed stability, sedimentation within off-channel features, as well as avulsion potential and channel abandonment.
    vii. Discuss the use and effectiveness of the 2-D modeling to inform the design with Sonoma Water to determine the need or desire for 2-D modeling of the additional sub-reaches.
    viii. Conduct model runs to cover the upper range of the base flow (200cfs) for all Project sites. Analyze results and prepare graphics.
    ix. Conduct model runs to assess depths, velocities, shear stress, at flows representing summer baseflows, typical winter flows, and flood flows. Use hydraulic model results and habitat suitability criteria to develop spatial representations of habitat suitability for baseflow, 200 cfs and up to two other flows upon request.
    x. Update 2-D hydraulic and habitat modeling to refine 90% designs for Phase III Parts 1 and 2.
    xi. Update 2-D hydraulic and habitat modeling to assess selected bank stabilization measure at Boaz property.

c. Fish Habitat Suitability and Validation:
    i. Support development of 2-D hydrodynamic model by incorporating fish habitat information compiled from literature reviews, analyses, quantitative model results, and the Russian River Biological Opinion and Adaptive Management Plan.
    ii. Develop habitat-specific temperature profiles for off-channel habitats that consider inflow/infiltration, habitat volume, water residence time, and aquatic vegetation. Use results to inform the species-specific habitat model to better select the most effective habitats and meet multiple Project objectives for target species, life stages, and times of year.

    iii. Parameterize species specific process relationship models using existing literature to predict the potential benefits to coho and steelhead conferred by different habitat types. Use separate models to predict summer and winter habitat preferences and identify the highest valued habitat types. Include temperature, dissolved oxygen, flow, depth, velocity, frequency and duration of availability, and cover parameters.

d. Detailed Geotechnical Analysis:
    i. Conduct detailed geotechnical analysis at sites determined to have geotechnical features of interest to the design (e.g., sills, bank stabilizations, unstable soils, bedrock).
    ii. Develop preliminary criteria for bank stabilization areas (and sills if appropriate).
    iii. Evaluate the opportunity to utilize subsurface flow connections to off-channel habitat features and develop preliminary design criteria.
    iv. Prepare a Draft Geotechnical Report that summarizes key conclusions and recommendations, and discusses regional and local geology, seismicity and potential geologic hazards, but it does not provide recommendations associated with liquefaction and/or surface fault rupture mitigation.
e. Seismic Refraction Surveys:
    i. Reconnaissance and seismic refraction survey preparation.
    ii. Onsite surveys.
    iii. Reporting.
f. Field Investigation, Analysis, and Design Recommendations for Bank Stabilization Approaches at the Carraro property in Reach 2, and the JPMB Properties and Boaz properties in Site 5A:
    i. Reconnaissance and Drilling Preparation:
        a) Obtain the necessary drilling permits and identify and mark (stake) proposed locations for the geotechnical borings. Locations to be approved by Sonoma Water and landowner.
        b) Submit a utility location request to USANORTH811 prior to digging (www.usanorth.org).
        c) Sonoma Water will inquire with the property owner to check for buried utilities before the drill rig mobilizes to the site.
        d) Drill three geotechnical/geologic borings using a truck mounted hollow stem auger drilling equipment.
        e) Coordinate with Sonoma Water and landowner regarding the planned drilling operations and conduct a detailed site reconnaissance that includes:
            1) Identifying and marking the preferred boring locations in the field, and
            2) Identifying and mapping features of geotechnical or geologic interest.
        f) Use recent aerial photograph overlain by the 2013 Lidar survey topography for base for mapping
        g) Include delineation of the lateral extents of the failed bank.
    ii. Onsite Exploration and Laboratory Testing:
        a) Use Level D PPE for onsite activities.

b) Drill three borings: Two borings will be located as close as practically possible to the top of failed bank and the third boring will be located about 20 to 30 feet back (away) from the bank at a location suitable to the landowner, given the proximity to the vineyard.
c) Use the borings to develop interpretive geologic cross sections through the bank and to determine the engineering properties of the materials encountered.
d) Intermittently sample the borings using Standard Penetration Test (SPT) and Modified California drive samplers, extending to a maximum depth of 35 feet.
e) Observe and direct the field operations (field engineer), prepare logs of the subsurface materials encountered, appropriately label and preserve the retrieved samples, and transport samples to the A3GEO Berkeley laboratory for subsequent review and analysis.
f) Backfill borings with grout after drilling is complete.
g) Leave drill cuttings onsite next to borings.
h) Review the samples in the laboratory and select those suitable for geotechnical laboratory testing (geotechnical engineer).
i) Evaluate soil moisture content, density, plasticity, grain size, and strength, as deemed appropriate, depending upon the material types encountered during the subsurface exploration.
j) On the Boaz property:
    a. Drill six (6), 20-35 foot deep borings using truck-mounted, hollow stem, auger drilling equipment.
    b. Containerize soil samples in 55-gallon drums and store temporarily on Site until the profile test results are complete.
    c. Dispose of non-hazardous soil samples.
    d. If contaminants are found in soil samples, consult with Sonoma Water regarding appropriate disposal and additional associated costs.

iii. Geotechnical Analyses and Report:

a) Characterize the geotechnical and geologic conditions, perform preliminary engineering analyses, and develop bank stabilization designs for the JPMB Properties property, including, but not limited to:

    1) Augmenting the borings logs with the laboratory test results, checking soil classifications and preparing finalized drafted versions of the logs.
    2) Preparing a site plan showing the boring locations.
    3) Developing interpretive geologic cross sections through the bank. Perform additional surveying in this area and provide a cross section of the ground surface through the central axis of the failed bank.
    4) Characterizing the geotechnical material properties and groundwater levels for the purpose of the slope stability analyses.
    5) Calculating static factor of safety for the slope in its current condition.
    6) Developing two bank stabilization design alternatives that require minimal or no setback of the existing top of bank line – one which includes a 2:1 (horizontal to vertical) graded slope with a rock toe buttress and one which includes a reinforced slope steeper than 2:1 with rock toe buttress. Provide typical cross sections.
    7) Calculating the static factor of safety for two stabilized bank alternatives.
    8) Developing conclusions and recommendations for the construction of the two bank stabilization alternatives.
    9) Developing preliminary lump-sum cost estimates for the two alternatives.
    10) Preparing a geotechnical investigation report documenting the findings and analyses and presenting the proposed bank stabilization designs.
    11) Meetings with Sonoma Water and landowner to discuss the proposed alternatives and cost estimate.
- b) Characterize the geotechnical and geologic conditions, perform engineering analyses, and develop bank stabilization designs for the Boaz property including, but not limited to:
    1) Augmenting the borings logs with the laboratory test results, checking soil classifications and preparing finalized drafted versions of the logs.
    2) Preparing a site plan showing the boring locations.
    3) Developing interpretive geologic cross sections through the bank. Performing additional surveying in this area and providing a cross section of the ground surface through the central axis of the failed bank.
    4) Characterizing the geotechnical material properties and groundwater levels for the purpose of the slope stability analyses.
    5) Developing three bank stabilization design alternatives which require minimal or no permanent setback of the existing top of bank line. Alternatives should provide habitat enhancement elements and in-channel baffles or structures can be considered. Provide typical cross section, and details. Assumes a Structural Engineer is not required. A Structural Engineer would be required for any structural repair including but not necessarily limited to a slurry wall, tied-back retaining wall with pre-stressed cement grouted anchors, soldier pile retaining wall, drilled piers, piles. Alternatives using screw soil anchors without cement grout such as helical anchors will be considered.
    6) Evaluating or mitigating of seismic hazards (including but not limited to liquefaction, lateral spreading, and seismic slope stability) are beyond the scope of this project. The bank stabilization alternatives provided are not

        intended to protect against seismic hazards and they may not withstand a large seismic event.
        7) Developing conclusions and recommendations for the construction of the three bank stabilization alternatives.
        8) Developing preliminary lump-sum cost estimates for the three alternatives.
        9) Preparing a draft and final geotechnical investigation report documenting the findings and analyses and presenting the proposed bank stabilization designs.
        10) Meetings with Sonoma Water and landowner to discuss the proposed alternatives and cost estimate.
    iv. Post-Report Reviews and Consultation:
        a) Provide geotechnical consultation, support, and design review of the selected bank stabilization approaches to reach the final design and cost estimate, and develop bid documents.
    v. Design Support and Coordination:
        a) Provide support and coordination services during analysis as needed to schedule site access and provide design data and information.
        b) Conduct a review of the initial findings and recommendations.
        c) Provide design support during the development of the selected design approach.
        d) Participate in two meetings to review and discuss the findings of the geotechnical investigation and analysis, and recommendations: One conference call and one onsite meeting.
        e) Provide civil engineering support through development of bid documents for site 5A sites on the Boaz property.
        f) Scope for bid documents assumes that the selected bank stabilization measures will be consistent with other bank stabilization approaches at Site 2A and Site 5A including, but not limited to, vegetated rock and soil lifts. Design for structural engineering measures are not covered under this scope. A comprehensive revegetation design at the Boaz property will be included on the bank stabilization details. A separate revegetation plan is not covered under this scope.
g. Habitat Feature Design:
    i. In-channel Structures - Develop the basis of design for in-channel habitat structures including: constructed riffles, existing riffle enhancements, existing grade control sill enhancements, and pool enhancement. The design basis shall include design criteria, hydraulic analysis and preliminary sizing. Examine the effectiveness of channel widening (i.e. terrace excavation) on constructed riffle sustainability, and provide design criteria (i.e. terrace height and minimum width). Consider the applicability and effectiveness of placing simple 4 - 6 boulder structures or boulder fields in the channel to create velocity refuges and trap streambed sediment. The design basis for each structure shall address the ability to meet habitat requirements detailed in the BO.

ii. Off-channel Enhancements - Develop the basis of design for off-channel habitat enhancements using alcoves and side channels. The design basis shall include sizing criteria, incorporate temperature analysis, and address the ability to meet habitat requirements defined in the BO. Also address the use and applicability of large woody debris (LWD) and other biotechnical treatments in the design to improve habitat function and shelter at both low flow and high flow conditions.

iii. Biotechnical Treatments - Develop a suite of biotechnical treatments to be incorporated in the design. Define the characteristics of the biotechnical treatments including intended function, schematic details, sizing guidelines and design criteria. Include up to five (5) different biotechnical treatments, including but not limited to brush matting, willow baffles, willow walls, and the integration of live wood into more structural design elements.

iv. Large Woody Debris Structures - Develop the design basis for a variety of large woody debris (LWD) structures to be incorporated in the design, including intended function, schematic details, sizing guidelines and design criteria. Include up to five (5) different structure types including but not limited to rootwad revetments, channel edge, pool, and floodplain roughness structures, rootwad and log cutoffs, and structures designed to direct or focus flows.

v. Habitat elements associated with geotechnical bank stabilization designs.

h. Constructability Review and Analysis of the Project Design: Review the design plans and site visits to identify any potential conflicts or concerns related to implementation of the design. Evaluate design in terms of construction feasibility. Flow diversion approaches and potential impacts to construction shall be considered. A preliminary constructability analysis shall be prepared at the 30% design submittal and subsequently updated and revised at the 60% design submittal. A memorandum and annotated design drawings shall be prepared for each submittal to summarize the constructability analysis. Summarize flow diversion approaches in the memorandum but exclude from drawings.

4.5. Vegetation Design and Management Plan:

a. Revegetation and Habitat Ecology: conduct additional site visits and review background information to complete preliminary investigations and develop the basis of design for revegetation and ecological enhancement of habitats.

i. Assess, where feasible, areas beyond the footprint of the proposed restoration within each sub-reach to identify any other micro-habitats that could be of value in restoration planning

ii. Review soils maps and conduct soils investigations to inform revegetation design.

iii. Appropriately document with photographs and locate on air photos sensitive habitats, plant communities, special status plants, unusual soil types, and invasive weeds and trees.

iv. Prepare a draft report summarizing observations of existing conditions, identifying enhancement needs based on Project goals, and making recommendations for habitat improvements.

        a) Overview of habitat types present and/or anticipated
        b) Identification of existing habitat components meriting protection and retention
        c) Prioritization of invasive species removal or control
        d) As needed, methods for soil treatment or amendment to support plant establishment
        e) Methods for erosion control
        f) Palettes of plant species for revegetation, adapted to each habitat's expected hydrologic and topographic settings and other environmental conditions
        g) Strategies for minimizing potential increases in sharpshooters and Pierce's disease

b. Establishment Period Maintenance and Monitoring Plan:
    i. Prepare a maintenance plan that describes all activities needed to maintain Project revegetation efforts through an establishment period, which is typically three to five years. Maintenance activities may include suppression of competing vegetation around plantings; maintenance of any plant protection cages; replanting if needed to meet Project success standards; and removal of all non-biodegradable materials prior to the end of the Project. Prepare a schedule showing recommended timing for all activities and durations/quantities for required irrigation.
    ii. Develop a monitoring plan that allows Sonoma Water to assess the progress of revegetation efforts towards Project goals and helps determine any adjustments needed to improve Project outcomes. Plan shall identify target conditions, such as vegetative cover levels; vegetation composition goals such as native species diversity and minimization of invasive species; and survivorship, growth, and health of plantings. Cost-effective monitoring methods shall be selected that may include formal annual monitoring to quantitatively assess Project status, as well as more frequent site inspections to identify and remedy potential concerns as rapidly as possible. Formal annual monitoring could include photo monitoring from permanently established points; survival and height assessments of woody plantings; transect or plot sampling to describe cover and composition of woody and herbaceous vegetation; assessments of "volunteer" vegetation establishment and mapping of invasive species populations. The monitoring plan shall outline the contents of annual reports on Project success, and establish a timeline for monitoring and reporting.

c. Vegetation Management Plan: Develop a vegetation management plan (VMP) that focuses on: 1) invasive species control, and 2) maintenance of vegetation that supports the intent of the habitat enhancement design features and/or helps to sustain and improve coho and steelhead habitats.
    i. Visit the site; identify the primary invasive species of concern on Project reaches, and map locations and extent of major infestations.
    ii. Prioritize infestations for control or eradication based on their level of impacts to habitat.
    iii. To the extent possible, integrate initial invasive species removal into overall site enhancement plans. Ongoing efforts may be needed.

        iv. Describe methods of control for each species; these may include mechanical or manual removal, and/or suppression by establishment of competitive, desirable vegetation.
        v. Provide success targets and monitoring methods for extensive invasive control efforts when necessary to help determine which approaches are most effective.
        vi. Identify target conditions; locations where ongoing vegetation clearing or pruning may be needed to maintain flows; and provide guidelines regarding types or species of vegetation to be pruned or removed. These guidelines shall be aligned with the principles outlined in Sonoma Water's Stream Maintenance Program Manual, which include minimizing intervention activities, considering system processes in all channel maintenance efforts, and planning towards reduced maintenance needs over time.
        vii. Provide guidelines for protection of natural resources during vegetation management. For instance, these may include Best Management Practices (BMPs) and timing considerations for vegetation removal to prevent undesirable impacts to wildlife, bank stability and water quality; herbicide application strategies to minimize impacts to water quality and aquatic fauna; and BMPs to avoid the spread of invasive species during Project activities.
    d. Prepare stand-alone Revegetation Design Plans and specifications for complete 1.3-mile Project reach. This will include irrigation performance specifications (no drawings). Plans to be utilized for revegetation work by Sonoma Water and include:
        i. Cover sheet
        ii. Legend
        iii. Plant key
        iv. Plan sheets, typical details, and cross sections
    e. Develop brief draft and final Vegetation Management Plan to guide Sonoma Water implemented vegetation maintenance efforts for the 1.3-mile reach following Project completion. Build on Sonoma Water Stream Maintenance Manual and include:
        i. Objectives and extents
        ii. Target species and criteria
        iii. Anticipated frequency of maintenance

4.6. Additional Requirements:
    a. Incorporate known applicable requirements into Project including the Mitigation Monitoring Plan (if applicable), permits (if applicable), right-of-way agreements, and local ordinances.

4.7. Design Stages and Meetings:
    a. Progress with design in the following stages and ensure that the each stage includes the listed elements:
        i. Kickoff Meeting: Attend a kickoff meeting with Sonoma Water and others as determined by Sonoma Water to review Project goals and objectives, review

design approach, facilitate data transfer and help coordinate work with the Inter-Fluve team where possible. Also, coordinate with Sonoma Water to define the 2 miles of sites that shall be included in the field assessments and Refined Concept Design.

ii. Concept Design Review Meeting: with Sonoma Water staff to review the initial Refined Concept Designs for the Project sites prior to approaching or presenting to the landowners.

iii. Design Workshop: Present assumptions and preliminary conclusions to be included in the draft Design Report. The Sonoma Water may direct the Consultant regarding the assumptions made that may alter the conclusions.

iv. 30%:

    a) Draft Drawings that generally describe the size, nature, and complexity of the Project
    b) Project footprint figures suitable for Right of Way appraisals
    c) Preliminary Statement of Probable Construction Costs
    d) Outline specifications – list items covered and measurement and payment for each bid item
    e) Preliminary constructability analysis
    f) Table of Contents for specifications
    g) Topographic survey information
    h) 30% design review meeting agendas and meeting minutes
    i) Draft Design Report
    j) Design Notebook

v. 60%: The design shall be advanced significantly from the 30% design to the 60% design and shall include edits and comments received on the 30% design submittal. The technical analyses conducted as part of the development of the 30% design shall be refined and site specific details and design elements shall be developed. Split drawings into two plan sets. One for Reach 2, and one for Reach 4 and 5.

    a) 60%-complete Drawings
    b) Electronic CAD files for drawings in AutoCAD format
    c) Boundary of required temporary construction easements (TCE)
    d) Draft specifications
    e) Updated Statement of Probable Construction Costs
    f) Updated constructability analysis
    g) Topographic survey information
    h) 60% design review meeting agendas and meeting minutes
    i) Draft Final Design Report
    j) Design Notebook
    k) Develop stand-alone 60% plan for the Boaz property for review, to be added to the 99% design as a detail. Include grading sheet, enhancement sheet, cross sections, typical, details, specifications, and cost estimate.

vi. 90%: The 90% design shall incorporate edits and comments received on the 60% submittal. Revise design to accommodate changes such as, but not limited to, landowner needs, construction access, construction phasing and implementation, etc.

- a) 90%-complete Drawings
- b) Develop separate plan set and bid package for Sites 2C and 2D for construction in 2016 and 2017 (Phase III, Part 1).
- c) Develop a separate plan set and bid package that includes Sites 2A, 2B, 4A, 4B, 4D, and 5A (Phase III, Part 2).
- d) Split Phase III, Part 2, 90% drawings, specifications, and cost estimates into:
  - 1) Phase III, Part 2-Corps, consisting of Sites 4A and 4B for the Corps (Phase III, Part 2-Corps).
  - 2) Phase III, Part 3, consisting of Site 5A (the Boaz property will be added at 99%).
- e) Phase III, Part 2-Corps, set in CSI MasterFormat 2016 as required by Corps.
  - 1) Field verify Corps sill construction record drawings
  - 2) Attend 90% Corps design review meeting
  - 3) Address 90% Corps comments
  - 4) Submit 95% Corps design submittal
  - 5) Attend 95% Corps design review meeting
- f) Electronic CAD files for drawings in AutoCAD format
- g) Revised specifications – incorporating final permit requirements
- h) Comments on Division 0 and 1 (prepared by Sonoma Water)
- i) Updated Statement of Probable Construction Costs
- j) List of Bid Items and measurement and payment provisions
- k) Topographic survey information
- l) 90% design review meeting agendas and meeting minutes
- m) Final Design Report
- n) Design Notebook
- o) Specifications and drawings shall be completed and right-of-way, permitting, and regulatory considerations shall be resolved.

vii. 99%: The 99% design shall incorporate edits and comments received on the 90% submittal, and include the Boaz property in Phase III, Part 3. This submittal shall effectively represent the final condition for the design components and will also include the submittal of the Final Design Report. Changes and modifications shall be incorporated, any outstanding issues resolved, and specifications and drawings essentially complete.

- a) Phase III, Part 3, consisting of Site 5A and the Boaz property, for Sonoma Water (Phase III, Part 3).
- b) Sites 2A, 2B, and 4D will be held for possible future project selection by Corps or Sonoma Water under Consultant's separate Phase V agreement.
- c) 99%-complete Drawings
- d) Electronic CAD files for drawings in AutoCAD format
- e) Final specifications
- f) Final Design Report (if any changes from 90% Submittal)
- g) Design Notebook
- h) Updated Statement of Probable Construction Costs

    - i) Bid Schedule, including identification of additive bid items
    - j) 99% design review meeting agendas and meeting minutes
  - viii. Final Design 100%: Incorporate minor editorial changes based on comments received on the 99% design submittal. Final drawings and specifications shall be stamped and signed by the appropriate registered professionals.
    - a) Phase III, Part 2-Corps
    - b) Phase III, Part 3
    - c) Final Drawings: "wet" signed and stamped Drawings
    - d) Final AutoCAD submittal: files with filenames specified by Sonoma Water's Drafting/GIS Section and include embedded digital professional stamps and signatures.
    - e) Final PDF files formatted for half size (11" x 17") and full size (22" x 34")
    - f) Complete electronic set of revised and final specifications
    - g) Stamped and signed Document 00007 Seals Page
    - h) Final Statement of Probable Construction Costs
    - i) Bid Schedule, including identification of additive bid items (if appropriate)
    - j) Design and construction survey information

4.8. Design Meeting Information:

- a. Arrange, attend, prepare agendas for, and conduct meetings at each design stage.
- b. Update Design Report for each design stage.
- c. At meetings, discuss the progress and direction of the design. Advise Sonoma Water in writing how Sonoma Water comments impact Project scheduling and cost.
- d. Prepare meeting minutes for each meeting.
- e. Design review meetings shall be held at 30%, 60%, 90% and 99% submittals. The meetings shall be held at the Sonoma Water's Office, 404 Aviation Boulevard, Santa Rosa, California. If approved by Sonoma Water in advance, meetings may be held in Santa Rosa in conjunction with other meeting cycles, such as planned public/stakeholder meetings, or by conference call.
- f. Attend, prepare agendas for, and present at 90%, 95% and 99% meetings with the Corps for Phase III, Part 2-Corps.
- g. Attend, prepare agenda for, and present at 60% design meeting for the Boaz property.

5. RIGHTS-OF-WAY

5.1. Sonoma Water will acquire such permissions or rights necessary for Consultant to gain lawful entry into, across, over or upon property not owned by Sonoma Water, which are necessary for investigations, surveys or studies required for the Consultant to provide the services described in this scope of work. The acquisition of permissions and rights typically required for projects similar to that which Consultant's services will be provided under this scope of work, and the activities (public information and outreach etc.) that are occasionally desirable/necessary to facilitate those acquisitions, can be a time consuming and lengthy processes. It is the Consultant's responsibility to identify the property or areas necessary, to coordinate with Sonoma Water in a timely manner as necessary for Sonoma Water to obtain the permission or legal rights required for Sonoma Water to accommodate those activities, and to set/adjust the schedule and timing of Consultant's Services and activities required under this scope of work as necessary to manage/address the uncertainties involved with these processes.

6. PUBLIC OUTREACH SUPPORT

6.1. The public outreach and landowner coordination effort will be led by Sonoma Water with focused support from Consultant during design on a time and materials basis within the authorized budget for this task to:

6.2. Support Sonoma Water with preparation of renderings, drawings, posters, presentations, information packets, simplified analysis results and other materials suitable for conveying the details of the project components to the lay public.

6.3. Attendance at up to 6 public meetings to be held at Sonoma Water and locations within Dry Creek Valley.

6.4. Participation in face-to-face meetings with individual or groups of property owners. During the preliminary design phase, explain the design and have landowner identify specific site characteristics and operational constraints (e.g., staging sites, electrical access, and harvest timing issues) that will impact both design and constructability. During the final design phase, be available to 1) present and discuss the designs at the refined concept and 30% submittals, and 2) attend follow-up meetings as needed with individual landowners at some point between the 60% and 90% submittals to review the design and obtain landowner approvals.

6.5. Provide selected assistance to Sonoma Water for public/stakeholder involvement processes, outreach activities and coordination activities on as-needed basis. This may include, but is not limited to:

a. Outreach activities with landowners (1 - 4 meetings per owner)
b. Attendance and presentations at Dry Creek Advisory Group
c. Dry Creek community or other public meetings
d. Coordination meetings with NMFS or CDFW
e. Coordination with the design Consultants working on the project reach downstream of Lambert Bridge

7. SURVEYING SERVICES

7.1. Consultant shall provide all surveying and mapping services, with the exception of the Project Survey Control and Group C Preliminary Survey as described below, required for Consultant to provide the services described in the Agreement, including selected ground and bathymetric surveys of the stream channel and riparian corridor to support preliminary design and detailed design analyses. Services and data shall meet the following requirements:

7.2. General:

a. Horizontal Datum for surveying and mapping services and data shall be the North American Datum of 1983 (NAD83).
b. Vertical Datum of surveying and mapping services and data shall be the North American Vertical Datum of 1988 (NAVD88).
c. All surveys and mapping shall be projected upon the California Coordinate System of 1983 (CCS83), Zone 2 in US Survey feet (Coordinates and Elevations.
d. All research and other due diligence required to comply with the requirements outlined herein shall be conducted as necessary.

7.3. Project Survey Control:

a. Sonoma Water will establish primary project survey control (reference monuments/points) necessary to provide project coordinate system and vertical datum reference marks to support Design Surveys and other Surveying Services to be provided by Consultant under this Agreement.
b. Criteria for primary project survey control to be provided by Sonoma Water include the following:
    i. Reference monuments/points will be placed along the edges of the riparian vegetation of the creek, adjacent to vineyard roads.
    ii. Reference monuments/points will be set inter-visibly not more than 500 feet part within properties that Sonoma Water is able to obtain permission to enter from the owners of the property necessary to do so.
    iii. Reference monuments/points will consist of 3-foot long (if possible) pieces of #5 rebar driven flush with the ground, affixed with a red plastic cap stamped "S.C.W.A. Control", and marked with a flagged witness stake indicating the point ID.
    iv. Sonoma Water will provide a comma delimited ASCII text file with Point Numbers, Northing, easting, elevations, and description/alpha-numeric point IDs.
        a) The control established by Sonoma Water will meet or exceed the 2-Centimeter Accuracy Classification as defined by the Federal Geographic Data Committee Geospatial Positioning Accuracy Standards (Part 2), in terms of positional accuracy (horizontal position, ellipsoidal and orthometric heights).
c. Consultant shall be responsible for extending the control as necessary to provide the services described in this agreement.
    i. Reference monuments for extended or supplemental control points will consist of 3-foot long (if possible) pieces of #5 rebar driven flush with the ground, affixed with a red plastic cap stamped "ESA-PWA Control", and marked with a flagged witness stake indicating the point ID.

7.4. Design Surveys General:

a. Provide all surveys and mapping services necessary to identify, represent and depict existing conditions, which in the judgment of Consultant are material to and/or required for design and construction of the Project.

b. Representations of existing property or parcel boundaries, easements and rights of way shall be referenced to the source maps/documents/information they were derived from and identified in the resulting mapping and the Construction Documents (plans).

c. Provide survey data in AutoCAD format as well as copies of survey point coordinates, elevations, survey notes, maps, records, reference documents and other pertinent information generated during design (Design Survey) to Sonoma Water with final submittal.

d. Identify and depict existing utilities material to the design or construction of the Project. The location of all existing utilities discovered, disclosed, or located by Consultant shall be appropriately identified, depicted, labeled and/or otherwise represented (including when possible the pipe diameter and invert elevations for gravity pipelines, rim elevations of man holes, grate or flow-line elevations of catch basins or drop inlet structures etc.) in the resulting mapping to be provided by Consultant and the Construction Documents (plans). Consultant shall distribute the refined concept drawings to landowners to landmark utility locations for use in the development of the final designs. This effort may include a site-walk with the landowner or landowner's representative to identify and understand the location of specific utilities to document on the design plans.

e. Where the possibility of conflicts or clearance issues between utilities and the proposed works or construction proposed project or its construction and utilities exist, the details of potholing or other verification efforts (reference locations/elevations) shall be represented and depicted in the resulting Construction Documents (plans) to be provided by Consultant in connection with this agreement.

f. Provide the source of reference (e.g., direct observation, landowner inquiry, utility mapping services, USA paint, or potholing) of underground or other utilities represented and depicted in the Construction Documents (plans). All utilities shown shall be distinctly layered, labeled or otherwise distinguished from utilities whose location was determined by survey.

g. Represent and depict features in the Construction Documents (plans) which 1) present a possible clearance limitation or accessibility or other physical constraint to Contractor(s) constructing the proposed works, and which are not being relocated, temporarily removed, diverted, or otherwise modified as part of work to be done as part of the project (structures, overhead wires, watercourses etc.), or 2) that potentially affect Right of Way to be acquired for the Project.

h. Represent and depict vegetation and trees greater than 12" DBH that potentially are impacted, or are to be removed in connection with the Project near the transitions between existing and design grades, in the resulting mapping and Construction Documents (plans). Clusters of trees that are found clearly in the middle of the area to be graded will be identified within polygons, which will be labeled with the number and size range of the trees to be removed. Trees depicted shall be identified/labeled by their diameter a breast height and species.

7.5. Preliminary Design and Analysis Survey:

   a. The base topography for use in the Preliminary Design shall be developed using existing LiDAR survey data and additional ground survey data to be collected by Sonoma Water for project Group B and by the Consultant for all other potential project areas.
   b. Combine the LiDAR with additional ground survey data to be collected.
   c. Additional ground survey information collected shall include, but not be limited to, the following:
      i. Significant site and infrastructure features
      ii. Verification transects/channel corridor cross sections at the locations of transects surveyed in the 2010 survey by Inter-Fluve, and in locations deemed appropriate by the consultant
      iii. Pertinent and visible surface features (e.g., limits of vegetation, access roads, edge of vineyard, and existing utilities, including valves, manholes/junction boxes, culverts, utility poles, etc.) that may be present near the likely area of access and construction activities
      iv. Thalweg of the active channel
      v. Water surface elevation points (with time noted) at the channel edges at the locations of thalweg profile points and at the channel cross section locations
      vi. Verification transects will generally extend beyond the riparian tree canopy to an apparently sufficient dimension to allow overlap with the LiDAR data and verification of elevations

7.6. Topographic Survey:

   a. Conduct topographic surveys at the sites selected for advancement from preliminary design to final design, including the Boaz property.
   b. The topographic survey shall focus on overbank (riparian) areas with grading (side channels & alcoves) as defined in the refined concept design. It is assumed that the existing LiDAR data will be suitable for the remaining overbank areas.
   c. Develop the base survey topography (anticipated at a one-foot contour interval) to support grading deign and 1-D modeling. The topography will be developed as AutoCAD drawings and shall include the survey points, breaklines, topographic contours, and three dimensional surfaces.
   d. Manage/thin vegetation as needed to conduct survey. Sonoma Water will obtain permits if deemed necessary.
   e. Includes five (5) days of field surveying for each of the three (3) sub-reaches to be included in final design.

7.7. Detailed Design and Analysis Survey:

   a. Conduct detailed surveys at the selected sites, with sufficient detail suitable for analysis, 1-D modeling and grading design. The detailed survey shall include features such as:
      i. Cross sections (spacing of 50 to 100 feet)

    ii. Breaklines
    iii. Spot elevations
    iv. Elevations/locations of geomorphically significant features
    v. Tree locations
    vi. Bathymetric survey of the Dry Creek channel in the vicinity of the Project sites
    vii. Topographic contours (1-foot interval)

b. Collect additional topographic and geomorphic survey data as needed to support Final Design. This data will supplement the topographic survey data used to develop the 30% design and will not occur until the 30% designs have been approved for advancement to 60% design.
c. The purpose of this additional data collection is to capture topographic and geomorphic features at a level of detail suitable to support 2-D modeling and detailed final grading design. Detail may include breaklines, hydraulic connections to the main channel, micro-topographic features, and geomorphic and hydraulic indicators (debris, rack-lines) to validate modeling and any trees not captured in prior mapping.
d. Include up to six (6) days of field work to complete the detailed survey.
e. Manage/thin vegetation as needed to conduct survey. Sonoma Water will obtain permits if deemed necessary.
f. Merge the detailed topographic/bathymetric data with detailed survey of the overbank areas.
g. Survey channel and bank along Boaz property to support analysis, final design, and plan development.

8. DRAFTING SERVICES

8.1. Develop construction documents for implementation of habitat enhancement over the 1.3 mile detailed design reach.

8.2. Prepare drawings necessary for bidding and construction of the Project using current Sonoma Water AutoCAD standard at time of Agreement execution. Earlier compatible versions or alternate compatible AutoDesk vertical products may only be used upon approval of Sonoma Water. Include the following for each subreach with sufficient detail to describe construction of the Project and to allow receipt of bids from qualified contractors:

Title	# of Sheets
Title Sheet, General Notes, Vicinity & Location Maps, Abbreviations, Legend, List of Drawings, Survey & Layout Control	3
Site Plan and Key Plan, including staging areas and access routes	1-2
Channel Improvement Plan Sheets (40’ scale)	2-4

Alcove, Side Channel (and Bench) Grading Plans, Profiles, and Sections	3-4
Constructed Riffle Details	1
Enhanced Riffle Details	1
Large Woody Debris Structure Details (materials quantity table)	2-3
Biotechnical Treatment Details	2
Corps Grade Control Retrofit (Reach 4 only)	1
Typical Revegetation Plan , Cross Section(s) and Plant Lists(40' scale) (not in bid package)	1-2
Typical Revegetation Details(not in bid package)	1
Other drawings as may be needed for construction	TBD
Estimated Total:	18-24

8.3. Include the following features on each plan and profile drawing:

a. Location of control points with point number identification, elevation, and description

b. Graphic scale

c. North arrow

d. Grid ticks on 400-foot centers with at least two ticks labeled with coordinates

e. Key map

f. Elevations (when applicable) of and labels for existing features, structures, utilities, manholes, and drainage facilities

g. Mapping showing streets, edges of pavement, ditch flowlines, and top of curb

8.4. Coordinate with Sonoma Water Drafting Manager regarding plan production standards prior to commencement of construction document development. Use Sonoma Water-provided template drawings, title blocks, and border drawings. Basic layers and line types are part of template drawings and are recommended where applicable. Follow Sonoma Water provided CAD Standards for development of construction drawings. Substitutions and/or deviation from Sonoma Water standards shall be submitted for approval by Sonoma Water Project Manager.

8.5. If requested by Sonoma Water, provide conformed drawings. Procedures and examples are included in the Sonoma Water's CAD standards, provided by Sonoma Water's Project Manager.

8.6. Provide marked up drawings (e.g. red-lines) that show changes to the design that were implemented during construction for Sonoma Water to use as the basis for the post-construction record drawings.

8.7. Prepare drawings for Phase III, Part 2-Corps, in format required by Corps, starting at the 90% submittal through final design.

8.8. Prepare drawings for Phase III, Part 3.

9. SPECIFICATIONS PREPARATION

9.1. Assist Sonoma Water's Project Manager in completing the Sonoma Water's Project Manual Questionnaire.

9.2. Prepare Divisions 2 through 16 (Technical Specifications), as appropriate, of the Project Manual as necessary for construction of the Project in conformance with the Project Manual concept of the Construction Specification Institute (CSI), using the Sonoma Water's templates, and the 1995 edition of CSI's MasterFormat, including SectionFormat and PageFormat.

9.3. Review and comment on construction document and bid package sections prepared and compiled by Sonoma Water.

9.4. Comply with applicable provisions of the Public Contract Code including, but not limited to, formal and informal bid procedures and the avoidance of closed proprietary specifications (where no substitutions are allowed).

9.5. Assist the Sonoma Water and Corps to develop justification memos for any proposed sole-source of products/materials; for special qualification of bidders, manufacturers, installers, or other professionals performing construction work for the Project; and for other special circumstances that require justification to the Sonoma Water's Board of Directors or Corps' officers.

9.6. In coordination with Sonoma Water's Project Manager, reconcile redundancies and conflicts with Sonoma Water-prepared Division 0 and Division 1 requirements.

9.7. Prepare specifications for Phase III, Part 2-Corps, in CSI 49 Division MasterFormat 2016 as required by the Corps, starting at the 90% submittal through final design.

9.8. Add specifications for elements associated with the Boaz property into the Phase III, Part 3 submittal.

10. ASSISTANCE DURING BIDDING AND CONSTRUCTION

10.1. For Bidding, Phase III, Part 2-Corps, and Phase III, Part 3:

a. Answer questions submitted by Sonoma Water ("questions") during bid advertisement period.

b. Communicate only through Sonoma Water.

c. Immediately hand-deliver or email copies of any non-Sonoma Water questions directed to Consultant to Sonoma Water.

d. Alert Sonoma Water to potential impacts, if any, associated with questions including, but not limited to, impacts on schedule and cost.

e. Upon request from Sonoma Water, prepare Addenda to clarify, correct, or change the Bidding Documents in accordance with the following:

   i. Paragraphs 8 (Drafting Services) and 9 (Specifications Preparation)

        ii. Comply with Sonoma Water, or Corps for Phase III, Part 2-Corps, provided drafting standards and standard form for Addenda

    f. If Consultant chooses to prepare Addenda drawings manually, revise electronic files and resubmit to Sonoma Water.

10.2. For Construction:

    Construction support Phase III, Part 2-Corps, and Phase III, Part 3:

    a. Assist Sonoma Water by providing engineering and related services after the receipt of construction bids as requested by Sonoma Water.
    b. Attend preconstruction conferences (meetings).
    c. Assist Sonoma Water by answering request(s) for information (RFIs), as requested by Sonoma Water (up to 45 RFIs).
    d. Submittal Review:
        i. Review contractor's submittals of information and shop drawings for the Project and either mark "No Exceptions Taken," "Make Corrections Noted," "Revise and Resubmit," or "Rejected" on each submittal. Provide Sonoma Water with a brief written narrative of what is required from the contractor for items the Consultant marks on each submittal response.
        ii. Ensure that copies of submittals reviewed are stamped, dated, and signed by the person performing the review.
        iii. Review items that have been submitted by the contractor as a substitution or an "approved equal" for specified items. Ensure that each substituted item meets the performance requirements specified in the Project specifications and ensure its compatibility with other components of the operating system (electrical connections, size, etc.). Consult with Sonoma Water's Project Manager regarding acceptability of the proposed substitution.
        iv. Upon completion of review, return the submittals with any written narratives to the Sonoma Water.
    e. Revegetation: Sonoma Water will lead implementation of the revegetation design. Consultant will pin flag or mark plant locations prior to installation.
    f. Construction Observation:
        i. Perform construction observation.
        ii. Upon request, provide guidance to Sonoma Water regarding proper placement of large woody debris, log jams, boulder cluster, and any other elements.
        iii. Review grading stakes for enhancement sites. Review layout of enhancement features with Sonoma Water.
        iv. Participate in construction of key habitat structures and elements of the work. Provide on-call remote consultation, to assist Sonoma Water.
    g. Review and comment on proposed Change Order(s), if any. Provide comments to the Sonoma Water in writing within 2 working days after receipt of the proposed Change Order(s).
    h. Upon request from Sonoma Water, assist Sonoma Water with Final Inspection.

10.3. Provide construction support for Phase III, Part 1 during 2016 and 2017 construction seasons.

10.4. Provide construction support to Corps for Phase III, Part 2-Corps during the 2018 construction season

10.5. Provide construction support to Sonoma Water for Phase III, Part 3 during the 2018 construction season, including the habitat enhancement and geotechnical bank stabilization element on the Boaz property.

11. SCHEDULE AND SUBMITTAL OF DOCUMENTS

11.1. Perform services and submit documents to the Sonoma Water for review and approval in accordance with the schedule included in Exhibit B.

a. Submit construction documents to Sonoma Water for review at 30%, 60%, 90%, and 99% complete milestones.

b. 30% submittal shall include technical specification outline only, followed by written specifications at 60%, 90%, 99% and 100% submittals.

c. The 100% complete documents shall be sealed by professional engineer registered in the State of California.

d. If changes that Sonoma Water has not previously approved are made to the drawings or specifications after the 99% design review meeting, submit drawing(s) or specifications to the Sonoma Water for approval prior to preparing the final submittal.

11.2. The schedule in Exhibit B is based upon timely review and decision making by the Sonoma Water. Delays in the schedule caused by the Sonoma Water will be cause for consideration of time extensions.

11.3. Provide full-sized hard copy and electronic copy in PDF format as well as native Civil3D dwg format at each design phase as described below. Include CTB or STB plot configuration file with electronic submittal to ensure correct and intended image quality when plotting from file.

11.4. Electronic media formats:

a. Survey information and drawings: Provide in electronic media format compatible with current Sonoma Water AutoCAD standard in drawing format (.DWG). To ensure there are no discrepancies between electronic and hard copies, provide plot style tables files.

b. Technical Specifications modifications (including tables, charts, and drawings): Provide in electronic media format compatible with Microsoft® Word 2007. Ensure that there are no discrepancies between electronic and hard copies.

c. Design reports, property owner outreach materials, and other documents: Provide in PDF format and in Microsoft® Word 2007 compatible format upon request.

11.5. Final Drawings Submittal Requirements:

a. Prepare finished contract drawings and maps on 22” x 34” gross size. Drawings shall be “wet” stamped and signed by the appropriate disciplined professional.

b. The final (100%) AutoCAD submittal shall consist of files with filenames specified by the Sonoma Water’s Drafting/GIS Section and include embedded digital professional stamps and signatures. Drawings shall have filenames displayed per Sonoma Water-provided standards. Final submittal shall also include a composite PDF document of the drawing files formatted for half size (11” x 17”) as well as full size (22” x 34”).

11.6. Optional Task: Additional Services

a. Do not proceed with this task unless requested in writing by Sonoma Water’s Project Manager.

b. Perform additional services as requested by Sonoma Water to support the Project. The additional services will be agreed to by Consultant and Sonoma Water and described in writing by Sonoma Water. Deliverables and due dates to be determined.

12. PERMITTING SUPPORT

12.1. Provide support to Project permitting and/or CEQA documentation efforts by others on a time and materials basis within the authorized budget. This support shall include:

a. Technical support as needed to convey the design intent, areas of impact, and construction approaches for implementation of the Project

b. Estimates of material quantities, (e.g. earthwork volumes, rock volumes, revegetation areas, etc.)

c. Narrative describing the proposed enhancement design.

d. Preparation of selected figures showing design elements and quantification of plan form impacts due to construction of the design elements.

e. Participation in a one-day permitting coordination meeting in Santa Rosa.

13. PROJECT MANAGEMENT

13.1. Project planning, routine communications, and response to the priority needs of Sonoma Water. Includes managing the Project budget, and preparing invoices and progress reports for compensation of Project fees and expenses. Project communications conducted by phone, conference calls, emails or other means.

13.2. Provide support to Sonoma Water in planning and coordinating with the Corps. Attend meetings, participate in conference calls, and provide supplemental data and technical support.

14. SERVICES NOT INCLUDED IN AGREEMENT

Consultant shall not be responsible for the following:

14.1. CEQA:

a. Preparation of appropriate environmental documents under the requirements of the California Environmental Quality Act (CEQA).

14.2. Design:

a. Coordination of utility relocations.

14.3. Right-of-Way:

a. Right-of-way appraisals, negotiations, prepare property descriptions, acquisition of required right-of-way, and providing access.

14.4. Project Manual:

a. Except as provided for in Exhibit A, paragraph 9 (Specifications Preparation):
   - i. Preparation of Bidding, Procurement, Contracting, and General Requirements for the Project Manual.
   - ii. Compilation of final Project Manual (Bidding Documents).
   - iii. Preparation of the Storm Water Pollution Prevention Plan (SWPPP).

14.5. Construction staking.

14.6. Contract Administration/Inspection (except as specifically noted in Paragraph 10.2):

a. Administration of the construction contract.

b. Construction inspection.

EXHIBIT B

Schedule and Submittals

MILESTONE	DELIVERABLES	DATE or CALENDAR DAYS
Notice to Proceed with Design		Immediately upon execution of this agreement
Kick-off Meeting Submittal	• Electronic copy of Kick-off meeting agenda • List of potential Project sites to be included in Field Assessments	7 calendar days prior to Kick-off meeting
Kick-off Meeting	• Attendance	10 calendar days following Notice to Proceed with Design
Field Assessments	• Field site visits as needed to characterize site geomorphology, conduct necessary hydraulic, geomorphic and biological analyses, and develop design approaches	28 calendar days after Kick-off meeting
Preliminary Topographic Surveys	• Topographic (and bathymetric) information necessary for preliminary design, analysis, and construction document preparation • Channel corridor cross sections • Electronic copies of survey data obtained	49 calendar days after Kick-off meeting
Design Workshop Submittal	• Assumptions and preliminary conclusions to be included in the draft Preliminary Design Report • 10 copies of Design Workshop agendas	Within 30 calendar days after Kick-off meeting
Design Workshop		Within 35 calendar days after Kick-off meeting
Preliminary (10%) Design Submittal	• 8 copies of preliminary design report • Draft Geotechnical Report • Preliminary Statement of Probable Construction Costs	Within 60 Calendar Days following Notice to Proceed with Design.
Sonoma Water comments on Preliminary Design Report, if any		Within 14 calendar days after receipt of draft Design Report
Resubmittal of Design Report	• 8 copies of Revised Preliminary Design Report (Design Report)	Within 14 calendar days of receipt of Sonoma Water comments

MILESTONE	DELIVERABLES	DATE or CALENDAR DAYS
Property Owner Outreach	• Support to Sonoma Water at public meetings and meetings with property owners • Materials such as design renderings, information packets, posters, presentations, and simplified analysis results suitable for conveying proposed designs and analyses to property owners	Ongoing
Topographic Survey	• Topographic (and bathymetric) information necessary for detailed design, analysis, and construction document preparation • Electronic copies of survey data	Within 270 Calendar Days following Notice to Proceed with Design.
Complete subsurface exploration	• Draft and Final Geotechnical Reports	Within 270 Calendar Days following Notice to Proceed with Design.
30% Design Submittal (sufficient for ROW appraisals)	• 3 sets of 11x17" hard copy drawings • one electronic copy of drawings (PDF format) • Draft Design Report • Design Notebook • Preliminary Statement of Probable Construction Costs • one draft Table of Contents for specifications • Electronic copy of 30% design review meeting agenda • Hydrodynamic modeling results • Summary narrative describing the vegetation communities in the Project reach with preliminary vegetation management recommendations integrated • Water temperature assessment	Within 330 Calendar Days following Notice to Proceed with Design.
30% Design Review Meeting	• Attendance	Within 14 calendar days after 30% Design Submittal
30% Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 30% Design Review Meeting
Sonoma Water comments on 30% Design Report		Within 14 calendar days after receipt of draft Design Report

MILESTONE	DELIVERABLES	DATE or CALENDAR DAYS
60% Design Submittal	• 3 sets of 11x17" hard copy drawings • One electronic copy of drawings (PDF format) • Electronic CAD files (AutoCAD format) • Draft Final Design Report • Design Notebook • One revised Statement of Probable Construction Costs • Electronic copy of 60% design review meeting agenda • Draft Revegetation Design Plan and Vegetation Management Plan • Detailed hydrodynamic modeling	Within 420 Calendar Days following Notice to Proceed with Design.
60% Design Review Meeting	• Attendance	Within 14 calendar days after 60% Design Submittal
60% Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 60% Design Review Meeting
Sonoma Water comments on 60% Design Report		Within 14 calendar days after receipt of draft Design Report
Permitting Support Documents	• Quantity estimates, design narrative, and preparation of select figures. • 1 permitting coordination review meeting.	Ongoing
90% Design Submittal	• 3 sets of 11x17" hard copy drawings • Electronic copy of drawings (PDF format) • Electronic CAD files (AutoCAD format) • Final Design Report (if there are changes) • Design Notebook • One revised Statement of Probable Construction Costs • electronic copy of 90% design review meeting agenda • Updated detailed hydrodynamic modeling (if comments on 60% model results necessitate updates or revisions) • Geotechnical Investigation Report	Within 42 calendar days after 60% Design Review Meeting
90% Design Review Meeting	• Attendance	Within 14 calendar days after receipt of 90% Design Submittal
90% Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 90% Design Review Meeting

MILESTONE	DELIVERABLES	DATE or CALENDAR DAYS
Sonoma Water comments on 90% Design Report		Within 14 calendar days after receipt of draft Design Report
60% Design, Boaz habitat enhancement and bank stabilization	• One electronic copy of drawings (PDF format) • Electronic CAD files (AutoCAD format) • Draft Geotechnical & Biotechnical Design Report • One revised Statement of Probable Construction Costs • Electronic copy of 60% design review meeting agenda • Detailed hydrodynamic modeling	Within 90 calendar days after effective date of Fourth Amended Agreement
60% Design Review Meeting (Boaz)	• Electronic copy of 60% design review meeting agenda • Attendance • Electronic copy of meeting minutes	Within 14 calendar days after receipt of 60% Design Submittal
60% Design Review Meeting Minutes (Boaz)	• Electronic copy of meeting minutes	Within 7 calendar days of 90% Design Review Meeting
Sonoma Water comments on 60% Design Report (Boaz)		Within 14 calendar days after receipt of draft Design Report
99% Design Submittal	• 3 sets of 11x17” hard copy revised drawings and specifications • One electronic copy of revised drawings and specifications (PDF format) • Electronic CAD files (AutoCAD format) • Updated Final Design Report (if there are changes) • One revised Statement of Probable Construction Costs • One Design Notebook • One electronic copy of 99% design review meeting agendas	Within 35 calendar days after 90% Design Review Meeting
99% Design Review Meeting	• Attendance	21 calendar days after 99% Design Submittal
99% Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 99% Design Review Meeting

MILESTONE	DELIVERABLES	DATE or CALENDAR DAYS
Sonoma Water comments on 99% Design Report		Within 14 calendar days after receipt of Design Report
Final Submittal	• Complete set of revised and final stamped and wet signed original drawings • Complete set of electronic CAD files (AutoCAD format) with supporting files, plus full and half-size PDFs • Complete electronic set of revised and final specifications • Stamped and signed Document 00007 (Seals Page) • Final Statement of Probable Construction Costs • One copy of design/construct survey information	Within 21 calendar days after 99% Design Review Meeting
Draft Addendum submittal and bid support, if applicable	• Preparation of up to 4 addenda	10 calendar days prior to Project Bid Opening
Final Addendum submittal, if applicable	• As appropriate, submit original drawing(s)	9 calendar days prior to Project Bid Opening
Assistance during Bidding and Construction Support	• Written responses of RFIs • Written review of contractor submittals • Vegetation flagging • Written comments on up to 5 change orders	Ongoing during bidding and construction

CORPS SCHEDULE AND SUBMITTALS		
90% Corps Design Submittal	Hard Copy: • 1 sets of 11x17” hard copy drawings • 1 set of 81/2X11 Specification (49 Division - Master Format 2016) Electronic Copy (pdf): • Specification (49 Division - Master Format 2016) • Bid Schedule (Section 00 41 00 of the Specification) • Submittal Register Table (Section 01 33 00 of the Specification)	June 30, 2017

	- Gantt chart of draft construction schedule - Plans (PDF format) - Final Design Report consistent with the plans and specs - Refined probable construction Costs Estimate - Updated detailed hydrodynamic modeling results - Geotechnical Investigation Report - Updated CAD files	
90% Corps Design Review Meeting (presentation) by Architect/Engineer (AE) and Sonoma Water	- Meeting Agenda and presentation slides - Attendance	Within 7 calendar days after receipt of 90% Design Submittal
90% Corps Design Review Meeting Minutes	- Electronic copy of meeting minutes	Within 7 calendar days of 90% Design Review Meeting
Corps comments on 90% Design	**NOTE**: *The document review process will be through a centralized web-based program called* ***ProjNet*** [1] *for all participants including Corps, Sonoma Water and the AE.*	July 26, 2017
95% Corps Design Submittal	Hard Copy: - 1 sets of 11x17" hard copy drawings Electronic Copy (pdf): - Specification (49 Division - Master Format 2016) - Updated Bid Schedule (Section 00 41 00 of the Specification) - Updated Submittal Register Table (Section 01 33 00 of the Specification) - Updated Gantt chart of draft construction schedule Electronic copy of updated Plans (PDF format) - Updated Design Report Consistent with the revised plans and specs - Updated probable construction Costs Estimate - Updated detailed hydrodynamic modeling - Geotechnical Investigation Report - Updated CAD files	Within 21 calendar days of receipt of 90% design review comments
95% Corps Design Review Meeting	- Meeting Agenda and presentation slides - Attendance	Within 7 calendar days after receipt of 95% Design Submittal
95% Corps Design	- Electronic copy of meeting minutes	Within 7 calendar

Review Meeting Minutes		days of 95% Design Review Meeting
Corps comments on 95% Design	**NOTE**: *The document review process will be through a centralized web-based program called* ***ProjNet***[1] *for all participants including Corps, Sonoma Water and the AE.*	September 13, 2017
99% Corps Design Submittal	Hard Copy: • 1 set of 11x17" copy of revised plans • 1 set of 8 1/2X11 copy of updated Specification (49 Division - Master Format 2016) Electronic Copy (pdf): • Updated Bid Schedule (Section 00 41 00 of the Specification) • Updated Submittal Register Table (Section 01 33 00 of the Specification) • Updated Gantt chart of the draft construction schedule • Updated Specification (49 Division - Master Format 2016) • Revised plans • Updated Design Report Consistent with the revised plans and specs • Updated probable construction Costs Estimate • Updated CAD files	Within 21 calendar days of receipt of 95% design review comments
99% Corps Design Review Meeting (presentation) by AE & Sonoma Water	• Agenda and presentation slides • Attendance	7 calendar days after 99% Design Submittal
99% Corps Design Review Meeting Minutes	• Electronic copy of meeting minutes	Within 7 calendar days of 99% Design Review Meeting
Corps comments on 99% Design Report	**NOTE**: *The document review process will be through a centralized web-based program called* ***ProjNet***[1] *for all participants including Corps, Sonoma Water and the AE.*	November 1, 2017

Corps Final Submittal	Hard Copy: • 1 Full Size 22x34 inch Copy for Field- Complete set of revised and final stamped and wet signed original Plans • 1 Half Size 11X17 Copy for Corps office- Complete set of revised and final stamped and wet signed original Plans • 1 set of 8 1/2X11 Final Copy Specification with all sections including Bid Schedule and Submittal Register (49 Division - Master Format 2016) Electronic Copy (pdf): • Updated Final Draft Gantt chart of construction schedule • Complete set of Final electronic CAD files (AutoCAD format) with supporting files • Final full and half-size plans • Final Specifications with all sections including Bid Schedule and Submittal Register (49 Division - Master Format 2016) • Stamped and signed Document 00007 (Seals Page) • Final probable construction Costs Estimate	Within 14 calendar days of receipt of 95% design review comments
Corps Draft Addendum submittal and bid support, if applicable	• Preparation of up to 4 addenda	10 calendar days prior to Project Bid Opening
Corps Final Addendum submittal, if applicable	• As appropriate, submit original drawing(s)	9 calendar days prior to Project Bid Opening
Corps Assistance during Bidding and Construction Support	• Construction Scheduling, Quality Control and Safety Plan • Written responses of RFIs • Written review of contractor submittals • Vegetation flagging • Written comments on up to 5 change orders • Site visits and attendance at construction meetings upon request	Ongoing during bidding and construction

1. ***ProjNet** is a secure, integrated, web based suite of construction design, communication and database tools that enable owners to better manage design review through improved document exchange and examination, inquiry, comment, record storage and issue resolution among all authorized project business partners. To be able to use the program and respond to comments, the AE and /or Sonoma Water need to subscribe to ProjNet (https://www.projnet.org/projnet/binKornHome/index.cfm?strKornCob=HomePagePublic).*

Exhibit C

Schedule of Costs

Standard Hourly Rates

Item	Rate
Senior Director	$200 per hour
Director	$200 per hour
Managing Associate II	$170 per hour
Senior Associate III	$150 per hour
Senior Associate II	$130 per hour
Associate II	$110 per hour
Project Technician II	$90 per hour
Project Technician I	$75 per hour
Subconsultants	At cost plus 10%

Reimbursable Expenses Schedule

Description	Rate
Project Expenses	At cost plus 10%
Printing/Reproduction	At cost plus 10%
Company Vehicle	$40 per day
Total Station Set	$200 per day
RTK GPS Set	$350 per day
Canoe	$30 per day or $120 per week
Miscellaneous small equipment	$5 per day
Lodging	At cost, up to $150 (per room) per night
Meals	At cost, up to $60 (per person) per day

Exhibit D

Estimated Breakdown of Costs

Estimated Breakdown of Costs (Including West Dry Creek LLC Site)

Task		Budget	
4.1	**Preliminary Design**	**$**	**140,943**
4.1.f	Geomorphic Assessment (ESA PWA)	$	45,340
4.1.g	Fisheries Assessment (CFS)	$	32,936
4.1.h	Riparian Ecology (PCI)	$	25,674
4.1.i	Geotechnical Assessment (A3GEO)	$	16,500
4.1.j	Refined Concept Designs	$	20,493
4.2	**Design Report**	**$**	**34,380**
4.4	**Detailed Hydraulic, Geomorphic, and Engineering Analysis**	**$**	**155,701**
4.4.a	1-D Modeling	$	24,420
4.4.b	2-D Modeling	$	34,100
4.4.c	Fish Habitat Suitability & Validation	$	25,284
4.4.d	Geotechnical Analysis	$	13,000
4.4.e.i	In-channel Structure Design	$	9,160

Insurance Requirements

With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain insurance as described below unless such insurance has been expressly waived by the attachment of a *Waiver of Insurance Requirements*. Any requirement for insurance to be maintained after completion of the work shall survive this Agreement.

Sonoma Water reserves the right to review any and all of the required insurance policies and/or endorsements, but has no obligation to do so. Failure to demand evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve Consultant from, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

1. INSURANCE

1.1. Workers Compensation and Employers Liability Insurance

a. Required if Consultant has employees.

b. Workers Compensation insurance with statutory limits as required by the Labor Code of the State of California.

c. Employers Liability with minimum limits of $1,000,000 per Accident; $1,000,000 Disease per employee; $1,000,000 Disease per policy.

d. Required Evidence of Insurance: Certificate of Insurance

e. If Consultant currently has no employees, Consultant agrees to obtain the above-specified Workers Compensation and Employers' Liability insurance should any employees be engaged during the term of this Agreement or any extensions of the term.

1.2. General Liability Insurance

a. Commercial General Liability Insurance on a standard occurrence form, no less broad than Insurance Services Office form CG 00 01.

b. Minimum Limits: $1,000,000 per Occurrence; $2,000,000 General Aggregate; $2,000,000 Products/Completed Operations Aggregate. The required limits may be provided by a combination of General Liability Insurance and Commercial Umbrella Liability Insurance. If Consultant maintains higher limits than the specified minimum limits, Sonoma Water requires and shall be entitled to coverage for the higher limits maintained by Consultant.

c. Any deductible or self-insured retention shall be shown on the Certificate of Insurance. If the deductible or self-insured retention exceeds $25,000 it must be approved in advance by Sonoma Water. Consultant is responsible for any deductible or self-insured retention and shall fund it upon Sonoma Water's written request, regardless of whether Consultant has a claim against the insurance or is named as a party in any action involving the Sonoma Water.

d. Sonoma County Water Agency, its officers, agents, and employees, shall be additional insured(s) for liability arising out of operations by or on behalf of the Consultant in the performance of this Agreement.
e. The insurance provided to the additional insureds shall be primary to, and non-contributory with, any insurance or self-insurance program maintained by them.
f. The policy definition of "insured contract" shall include assumptions of liability arising out of both ongoing operations and the products-completed operations hazard (broad form contractual liability coverage including the "f" definition of insured contract in Insurance Services Office form CG 00 01, or equivalent).
g. The policy shall cover inter-insured suits between the additional insureds and Consultant and include a "separation of insureds" or "severability" clause which treats each insured separately.
h. Required Evidence of Insurance:
    i. Copy of the additional insured endorsement or policy language granting additional insured status, and
    ii. Certificate of Insurance.

1.3. Automobile Liability Insurance

a. Minimum Limits: $1,000,000 combined single limit per accident.
b. Insurance shall apply to all owned autos. If Consultant currently owns no autos, Consultant agrees to obtain such insurance should any autos be acquired during the term of this Agreement or any extensions of the term.
c. Insurance shall apply to hired and non-owned autos.
d. Required Evidence of Insurance: Certificate of Insurance.

1.4. Professional Liability/Errors and Omissions Insurance

a. Minimum Limit: $1,000,000 per claim or per occurrence.
b. Any deductible or self-insured retention shall be shown on the Certificate of Insurance. If the deductible or self-insured retention exceeds $25,000 it must be approved in advance by Sonoma Water.
c. If the insurance is on a Claims-Made basis, the retroactive date shall be no later than the commencement of the work.
d. Coverage applicable to the work performed under this Agreement shall be continued for two (2) years after completion of the work. Such continuation coverage may be provided by one of the following: (1) renewal of the existing policy; (2) an extended reporting period endorsement; or (3) replacement

insurance with a retroactive date no later than the commencement of the work under this Agreement.

e. Required Evidence of Insurance: Certificate of Insurance.

1.5. Standards for Insurance Companies

a. Insurers, other than the California State Compensation Insurance Fund, shall have an A.M. Best's rating of at least A:VII.

1.6. Documentation

a. The Certificate of Insurance must include the following reference: TW 13/14-005A.

b. All required Evidence of Insurance shall be submitted prior to the execution of this Agreement. Consultant agrees to maintain current Evidence of Insurance on file with Sonoma Water for the entire term of this Agreement and any additional periods if specified in Sections 1.1, 1.2, 1.3, or 1.4, above.

c. The name and address for mailing Additional Insured endorsements and Certificates of Insurance is: Sonoma County Water Agency, its officers, agents, and employees, 404 Aviation Boulevard, Santa Rosa, CA 95403-9019

d. Required Evidence of Insurance shall be submitted for any renewal or replacement of a policy that already exists, at least ten (10) days before expiration or other termination of the existing policy.

e. Consultant shall provide immediate written notice if: (1) any of the required insurance policies is terminated; (2) the limits of any of the required policies are reduced; or (3) the deductible or self-insured retention is increased.

f. Upon written request, certified copies of required insurance policies must be provided within thirty (30) days.

1.7. Policy Obligations

a. Consultant's indemnity and other obligations shall not be limited by the foregoing insurance requirements.

1.8. Material Breach

a. If Consultant fails to maintain insurance which is required pursuant to this Agreement, it shall be deemed a material breach of this Agreement. Sonoma Water, at its sole option, may terminate this Agreement and obtain damages from Consultant resulting from said breach. Alternatively, Sonoma Water may purchase the required insurance, and without further notice to Consultant, Sonoma Water may deduct from sums due to Consultant any premium costs advanced by Sonoma Water for such insurance. These remedies shall be in addition to any other remedies available to Sonoma Water.

County of Sonoma Agenda Item Summary Report

Clerk of the Board
575 Administration Drive
Santa Rosa, CA 95403

Agenda Item Number: 10
(This Section for use by Clerk of the Board Only.)

To: Board of Directors, Sonoma County Water Agency

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): Sonoma County Water Agency

Staff Name and Phone Number:

Hannah Salafia, 707-524-6435

Supervisorial District(s):

Title: Pacific Gas and Electric Non-Disclosure Agreement

Recommended Actions:

Authorize the Sonoma County Water Agency (Sonoma Water) General Manager to execute a Non-Disclosure Agreement with Pacific Gas and Electric Company. The Non-Disclosure Agreement would allow Sonoma Water to better coordinate and incorporate locations of power and natural gas infrastructure into the planning and implementation of capital projects and maintenance projects. The Non-Disclosure Agreement would also allow Pacific Gas and Electric Company to protect their information for security reasons and for customer privacy.

Executive Summary:

Staff recommend the Board authorize the General Manager of Sonoma County Water Agency (Sonoma Water) to execute a Non-Disclosure Agreement with Pacific Gas and Electric Company (PG&E). The Non-Disclosure Agreement would allow Sonoma Water to better coordinate and incorporate locations of power and natural gas infrastructure into the planning and implementation of capital projects and maintenance projects. The Non-Disclosure Agreement would also allow PG&e to protect their information for security reasons and for customer privacy.

Discussion:

The Sonoma County Water Agency (Sonoma Water) has three primary functions—deliver potable water, provide wastewater services, and provide flood control services. As part of these functions, Sonoma Water plans and implements capital projects to improve and maintain infrastructure throughout our service area. Some of these projects take place in areas that are surrounded by power and natural gas utility infrastructure. When planning and implementing capital projects, it is important to incorporate as much of the existing utility information as practical into construction documents. Incorporation of these details helps create an accurate plan set and minimizes the potential for costly changes during construction and increases safety during construction.

In order to obtain information regarding PG&E's gas and electric utility information to use in design documents, PG&E requires us to enter into their standard non-disclosure agreement. Non-disclosure agreements are consistent with public disclosure laws for security reasons and to protect sensitive utility information of their customers.

Staff recommend the Board authorize the General Manager of Sonoma Water to execute a non-disclosure agreement with PG&E to obtain gas and electric utility information that will be used during planning and implementation of projects.

Prior Board Actions:

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

Water Supply and Transmission System, Goal 2: Maintain and improve the reliability of the Water Transmission System.

This agreement would allow Sonoma Water to have access to existing utility information that will help plan and implement the maintenance and improvement of our existing water, wastewater, and flood control systems.

Pacific Gas and Electric Company®

PACIFIC GAS AND ELECTRIC COMPANY
NON-DISCLOSURE AGREEMENT

This NON-DISCLOSURE AGREEMENT ("Agreement") is by and between PACIFIC GAS AND ELECTRIC COMPANY, a California corporation ("PG&E"), and ______________________ (Company) (the "Receiving Party").

RECITALS

WHEREAS, at the request of the Receiving Party, PG&E agrees to share maps for its gas and electric facilities in the Receiving Party's project area, which is Proprietary Information, with the Receiving Party, as defined below in "Definition" Paragraph 3, "PROPRIETARY INFORMATION," and

WHEREAS, the Receiving Party commits to protect, use, handle, and safeguard the Proprietary Information it receives from PG&E in accordance with the duties and responsibilities set forth herein, giving it the same degree of care as the Receiving Party exercises with its own Proprietary Information to prevent its unauthorized disclosure.

DEFINITION

1. "PARTIES" as used herein means PACIFIC GAS AND ELECTRIC COMPANY ("PG&E"), a California Corporation, and ______________________ (Company) (the "Receiving Party").

2. "AGREEMENT" as used herein means an arrangement between two Parties, a properly executed and legally binding contract. This Agreement shall not constitute, create or otherwise imply a joint venture, teaming or pooling agreement, partnership or business combination of any kind.

3. "PROPRIETARY INFORMATION" as used herein means PG&E's gas and electric facility maps in their entireties, which may disclose confidential customer and/or critical energy infrastructure information.

4. "NEED TO KNOW" as used herein means PG&E's information or data disclosed with the Receiving Party will be kept as Proprietary Information in confidence and the Receiving Party will not disclose such Information to third parties or any other persons unless that third party or person has an agreement in writing to be bound by a like obligation of confidentiality with respect to PG&E's Proprietary Information as the Receiving Party is bound (Non-Disclosure Agreement).

AGREEMENT

NOW, THEREFORE, for valuable consideration, the Parties agree as follows:

1. PURPOSE AND USE: The purpose of this Agreement is to protect PG&E Proprietary Information. The Receiving Party may use any Proprietary Information received hereunder for the purpose of avoiding or minimizing utility conflicts and subsequent relocations within project scopes. The Receiving Party may only reproduce the following items from PG&E's gas maps on the Receiving Party's project-related plans, drawings, or other documentation intended for public disclosure: approximate pipeline location, nominal pipeline diameter, pipeline material, and pressure category (high pressure or low pressure) for PG&E's gas distribution mains and transmission pipelines. The Receiving Party may only reproduce the following items from PG&E's electric maps on the Receiving Party's project-related plans, drawings, or other documentation intended for public disclosure: approximate conduit size and location of underground distribution electric facilities and poles.

2. NON DISCLOSURE: Subject to "Agreement" Paragraph 5, "Exceptions to Non-Disclosure," the Receiving Party agrees to keep Proprietary Information (excluding the items allowed to be reproduced on public documentation as outlined in "Agreement" Paragraph 1, "Purpose and Use") in confidence and not

disclose such Information to third parties or any other persons except employees, agents, consultants, or subcontractors of the Receiving Party with a "need to know" in order to accomplish the sole purpose stated above, and provided that such third parties shall first have agreed in writing to be bound by a like obligation of confidentiality with respect to PG&E's Proprietary Information as the Receiving Party is bound.

3. OWNERSHIP OF PROPRIETARY INFORMATION: All Proprietary Information delivered by PG&E to the Receiving Party pursuant to this Agreement shall be and remain the property of PG&E.

4. NO LICENSE RIGHTS: This Agreement and any Proprietary Information used or disclosed hereunder shall not be construed as granting, expressly or by implication, to the Receiving Party any rights by license or otherwise to such Proprietary Information or to any invention or patent or patent application now or hereafter owned or controlled by PG&E.

5. EXCEPTIONS TO NON-DISCLOSURE: Notwithstanding "Agreement" Paragraph 2, "Non-Disclosure," the Receiving Party shall not be liable under this Agreement for a disclosure or use of Proprietary Information received hereunder where the Proprietary Information:

5.1 was in the public domain at the time of the disclosure or is subsequently made available to the general public without restriction and without breach of this Agreement; or

5.2 was known by the Receiving Party at the time of disclosure without restrictions on its use, or was independently developed by the Receiving Party without reliance on, use of, or strategic guidance derived from the Proprietary Information, each as shown by adequate documentation; or

5.3 is disclosed to the Receiving Party by a third party without restriction and without breach of any agreement; or

5.4 is disclosed with the prior written approval of PG&E; or

5.5 is used or disclosed pursuant to a court order, subpoena or other lawful order of a court or a request for information or audit from a governmental authority of competent jurisdiction, or a request pursuant to the California Public Records Act, provided that prior to such disclosure, PG&E is given prompt notice of the required disclosure so that it may take whatever action it deems appropriate, including intervention in any proceeding and the seeking of an injunction to prohibit such disclosure.

6. INJUNCTIVE RELIEF: Each Party hereby acknowledges and agrees that because (a) an award of money damages is inadequate for any breach of this Agreement, and (b) any breach causes PG&E irreparable harm, for any violation or threatened violation of any provision of this Agreement, in addition to any remedy PG&E may have at law, PG&E is entitled to equitable relief, including injunctive relief and specific performance, without proof of actual damages.

7. LIMITATION OF LIABILITY: NEITHER PARTY SHALL BE LIABLE FOR SPECIAL, CONSEQUENTIAL, INCIDENTAL, INDIRECT OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT, WHETHER BASED ON CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, OR OTHERWISE.

8. TERM: Either Party may terminate this Agreement by giving the other Party thirty (30) days written notice. Termination shall not abrogate the Receiving Party's obligations hereunder for Proprietary Information received prior to the date of termination. The nondisclosure provisions of this Agreement shall survive the termination hereof and shall continue until written permission is obtained from PG&E releasing Receiving Party from its confidentiality obligations hereunder.

9. RETURN OF PROPRIETARY INFORMATION: Upon termination of this Agreement, the Receiving Party shall destroy any and all Proprietary Information, including copies thereof received under this Agreement. Notwithstanding the foregoing, the Receiving Party may retain copies of any Proprietary Information required to establish regulatory compliance.

10. GENERAL PROVISIONS

10.1 NOT A JOINT VENTURE: Each Party shall use its own resources and funds in carrying out the provisions of this Agreement, and neither Party shall be required to reimburse the other for expenditures or costs incurred hereunder. This Agreement shall not constitute, create or otherwise imply a joint venture, teaming or pooling agreement, partnership or business combination of any kind.

10.2. NO FUTURE CONTRACT RIGHTS: This Agreement and the disclosure of Proprietary Information hereunder is not an offer, promise or acceptance of any future contract or amendment of any existing contract.

10.3 NO WARRANTIES OR REPRESENTATIONS: Neither Party makes any warranty or representation of any kind, either express or implied, concerning the Proprietary Information exchanged under this Agreement. The Receiving Party shall not rely on the Proprietary Information for any purpose other than to make its own evaluation thereof.

10.4 GOVERNING LAW: This Agreement shall be governed by and interpreted in accordance with the laws of the State of California, without regard to its conflict of laws principles.

10.5 BINDING AGREEMENT: This Agreement shall be binding upon the Parties, their successors and assigns. This Agreement contains the entire understanding between the Parties with respect to Proprietary Information received hereunder. No change or modification shall be made effective unless in writing and signed by an authorized representative of each Party.

IN WITNESS WHEREOF, this Agreement is effective as of the date of signature (the "Effective Date"), as indicated below.

Title: Environmental Resource Consulting and Engineering Design Services for Sonoma and Kohler Creeks Bank Repair Project

Recommended Actions:

In an ongoing effort to maintain the sanitary sewer system in Sonoma Valley, avoid unnecessary damage or failures and repair costs, and protect the environment:
Authorize Sonoma County Water Agency's General Manager, acting on behalf of Sonoma Valley County Sanitation District, to execute an agreement with Prunuske Chatham, Inc., for creek bank repair environmental resource consulting and engineering design services through December 31, 2020, in the not-to-exceed amount of $50,000.

Executive Summary:

In an ongoing effort to maintain the sanitary sewer collection system in Sonoma Valley, avoid unnecessary damage or failures and repair costs, and protect the environment, the Sonoma Valley County Sanitation District (District) is proposing to perform creek bank stabilization work at 13975 Arnold Drive, Glen Ellen, California (Project). The purpose of the Project is to stabilize two areas of eroding bank on Sonoma Creek and one area of erosion on Kohler Creek that pose risks to the sanitary sewer trunk main, two manholes and a siphon under Sonoma Creek that are owned by the District. The purpose of this agreement is to identify and develop conceptual designs that are cost-effective, acceptable to the permitting resource agencies, and compatible with the physical and environmental constraints of the site. Once a conceptual design has been selected and preliminarily approved, the District anticipates amending this agreement to add scope and costs for detailed design and development of construction documents, at which time staff will bring the amended agreement to the Board for approval.

Discussion:

HISTORY OF ITEM/BACKGROUND

The District operates the sanitary sewer collection system in Sonoma Valley. A portion of the sewer pipeline system, in the Glen Ellen area, runs parallel to Sonoma Creek and crosses Kohler and Sonoma creeks near the confluence of these two channels. The District is proposing to repair two sites on the bank on Sonoma Creek and one site one Kohler Creek in order to protect sanitary sewer infrastructure that is exposed and at risk of damage and possible failure during high-intensity stream flows. The sites are located on private property along the back yard of 13975 Arnold Drive in Glen Ellen. After monitoring these sites and attempting minimal impact measures since 2012, staff now recommend implementing necessary large-scale repairs in the 2020 construction season.

Repair and stabilization of these areas is necessary to reduce the potential for damage to the pipe system that could result in a wastewater spill into Sonoma Creek, and potential public health and environmental impacts, fines, and costly emergency repairs. Although damage is presently not imminent, additional erosion occurred during the unusually wet 2016-2017 winter and increased the need to repair the sites, expanded the area of bank needing repair, destabilized areas that were previously suitable to tie the repairs into, and invalidated some of the less expensive alternatives being considered. The specific measures to be incorporated in the bank repairs have not yet been identified, but will likely consist of geotechnical, biotechnical, and habitat mitigation elements as needed to stabilize the bank and meet environmental requirements.

These sites are identified as vulnerabilities in the District's FEMA-approved 2016 Local Hazard Mitigation Plan. Specific hazards listed include static and seismic embankment failure potential and potential exposure and damage of pipeline due to erosion and debris impact during periods of rapid creek flow. Sonoma Creek at this location also provides habitat for threatened and endangered species and it is important to avoid impacts to this sensitive area. The sensitive nature of the site and the severity of the bank erosion warrants the services of a specialist in bio- and geo-technical stream bank repair in sensitive settings.

SELECTION PROCESS

On February 7, 2017, a Request for Statements of Qualifications was issued to the 42 firms for environmental resources consulting services (including services for riparian and wetland restoration design and fluvial geomorphology). The Request for Statements of Qualifications was also posted on the Sonoma County Water Agency (Sonoma Water) and County of Sonoma Purchasing Department websites. Forty-eight firms submitted Statements of Qualifications.

The following criteria were used to evaluate each firm:

1. Thoroughness of Statements of Qualifications
2. Professional qualifications and demonstrated ability to perform the work
3. Exceptions to standard terms in the sample agreement

Based on the evaluations, 47 respondents were selected for the list of qualified consultants (attached).

Prunuske Chatham, Inc. (Consultant) was selected for the subject work because of its experience with riparian and wetland restoration design, fluvial geomorphology, creek bank stabilization, and construction in sensitive creek environments.

The cost of services will not exceed $50,000; the term end date is December 31, 2020.

SERVICES TO BE PERFORMED

Under the proposed agreement Consultant will identify and analyze, at the concept level, alternative treatments for channel bed and banks including related incidental modifications of the pipe system and prepare conceptual plans for preferred repair measures for the identified sites.

RECOMMENDATION

District staff recommends that the Board authorize Sonoma Water's General Manager acting on behalf of Sonoma Valley County Sanitation District to execute an agreement with Prunuske Chatham, Inc., for environmental resource consulting and engineering design services through December 31, 2020, in the not-to-exceed amount of $50,000.

STEPS FOLLOWING APPROVAL

Once conceptual designs are identified and detailed design costs can be more accurately determined, Board approval for funding of Consultant's subsequent design services for the selected project will be requested.

Prior Board Actions:

None

Strategic Plan Alignment	Goal 2: Economic and Environmental Stewardship

This item helps ensure access to clean water and a reliable liquid waste management system that is not at risk due to natural hazards or flooding. The item also protects the County's natural environment by reducing the risk of a wastewater spill and represents sound economic stewardship because repair measures implemented now can prevent significantly higher infrastructure repair or replacement costs and fines later.

Waste Water Treatment and Water Reuse, Goal 1: Improve operational reliability of wastewater treatment and water reuse systems.

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses	50,000		
Additional Appropriation Requested			
Total Expenditures	**50,000**		
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other	50,000		
Use of Fund Balance			
Contingencies			
Total Sources	**50,000**		

Narrative Explanation of Fiscal Impacts:

Budgeted amount of $50,000 is available from FY 2018/2019 budget appropriations in the Sonoma Valley County Sanitation District's Operations Fund. No additional appropriation is required.

Agreement for Environmental Resources Consulting and Engineering Design Services for Sonoma and Kohler Creeks Bank Repair Project

This agreement ("Agreement") is by and between **Sonoma Valley County Sanitation District** ("District") and **Prunuske Chatham, Inc.**, a California corporation ("Consultant"). The Effective Date of this Agreement is the date the Agreement is last signed by the parties to the Agreement, unless otherwise specified in Paragraph 5.1.

RECITALS

A. Consultant represents that it is a duly qualified and licensed engineering and environmental consulting firm, experienced in creek bank repair and related services.

B. District operates a sewer system in Sonoma Valley. A portion of the sewer pipeline grid runs parallel to Sonoma Creek and crosses Kohler and Sonoma creeks near the confluence of these two channels. Bank and bed erosion have put this portion of the pipe system at risk of damage at three locations.

C. District desires to hire Consultant to identify and analyze, at the concept level, treatments for channel bed and banks including related incidental modifications of the pipe system in the immediate vicinity.

D. Sonoma County Water Agency operates District under contract with District. References to District employees are understood to be Sonoma County Water Agency employees acting on behalf of District.

In consideration of the foregoing recitals and the mutual covenants contained herein, the parties hereto agree as follows:

AGREEMENT

1. RECITALS

1.1. The above recitals are true and correct.

2. LIST OF EXHIBITS

2.1. The following exhibits are attached hereto and incorporated herein:

a. Exhibit A: Scope of Work
b. Exhibit B: Schedule and Submittals
c. Exhibit C: Schedule of Costs
d. Exhibit D: Estimated Budget for Scope of Work
e. Exhibit E: Map
f. Exhibit F: Insurance Requirements

3. SCOPE OF SERVICES

3.1. *Consultant's Specified Services:* Consultant shall perform the services and submit the documents outlined in Exhibit A (Scope of Work) within the times or by the dates provided for in Exhibit B (Schedule and Submittals). In the event of a conflict between the body of this Agreement and Exhibit A or B, the provisions in the body of this Agreement shall control.

3.2. *Cooperation with District:* Consultant shall cooperate with District in the performance of all work hereunder. Consultant shall coordinate the work, except assistance during construction, with District's Project Manager. Consultant shall coordinate assistance during construction with District's Construction Management Principal Engineer. Contact information and mailing addresses:

District	**Consultant**
Project Manager: Greg Guensch 404 Aviation Boulevard Santa Rosa, California 95403-9019 Phone: 707-547-1972 Email: Greg.Guench@scwa.ca.gov	Contact: Steven Chatham 400 Morris Street, Suite G Sebastopol, California 95472 Phone: 707-824-4601 ext 101 Email: steven@pcz.com
Remit invoices to:	**Remit payments to:**
Susan Bookmyer Same address as above or email: susan.bookmyer@scwa.ca.gov	Same address as above

3.3. *Performance Standard and Standard of Care:* Consultant hereby agrees that all its work will be performed and that its operations shall be conducted in accordance with the standards of a reasonable professional having specialized knowledge and expertise in the services provided under this Agreement and in accordance with all applicable federal, state and local laws, it being understood that acceptance of Consultant's work by District shall not operate as a waiver or release. District has relied upon the professional ability and training of Consultant as a material inducement to enter into this Agreement. If District determines that any of Consultant's work is not in accordance with such level of competency and standard of care, District, in its sole discretion, shall have the right to do any or all of the following: (a) require Consultant to meet with District to review the quality of the work and resolve matters of concern; (b) require Consultant to repeat the work at no additional charge until it is satisfactory; (c) terminate this Agreement pursuant to the provisions of Article 6 (Termination); or (d) pursue any and all other remedies at law or in equity.

3.4. *Assigned Personnel:*

a. Consultant shall assign only competent personnel to perform work hereunder. In the event that at any time District, in its sole discretion, desires the removal of any person or persons assigned by Consultant to perform work hereunder, Consultant shall remove such person or persons immediately upon receiving written notice from District.

b. Any and all persons identified in this Agreement or any exhibit hereto as the project manager, project team, or other professional performing work hereunder are deemed by District to be key personnel whose services were a material inducement to District to enter into this Agreement, and without whose services District would not have entered into this Agreement. Consultant shall not remove, replace, substitute, or otherwise change any key personnel without the prior written consent of District.

c. With respect to performance under this Agreement, Consultant shall employ the following key personnel:

Title	*Name*
Project Manager	Steven Chatham
Fluvial Geomorphologist	Lauren Hammack
Civil Engineer	Lucas Walton, P.E.
Landscape Architect	Mike Jensen

d. In the event that any of Consultant's personnel assigned to perform services under this Agreement become unavailable due to resignation, sickness, or other factors outside of Consultant's control, Consultant shall be responsible for timely provision of adequately qualified replacements.

4. PAYMENT

4.1. *Total Costs:* Total costs under this Agreement shall not exceed $50,000.

4.2. *Method of Payment:* Consultant shall be paid in accordance with Exhibit C (Schedule of Costs). Billed hourly rates shall include all costs for overhead and any other charges, other than expenses specifically identified in Exhibit C. Expenses not expressly authorized by the Agreement shall not be reimbursed.

4.3. *Invoices:* Consultant shall submit its bills in arrears on a monthly basis, based on work completed for the period, in a form approved by District. The bills shall show or include:

a. Consultant name
b. Name of Agreement
c. District's Project-Activity Code V0116C001
d. Task performed with an itemized description of services rendered by date
e. Summary of work performed by subconsultants, as described in Paragraph 15.4
f. Time in quarter hours devoted to the task
g. Hourly rate or rates of the persons performing the task
h. List of reimbursable materials and expenses
i. Copies of receipts for reimbursable materials and expenses

4.4. *Cost Tracking:* Consultant has provided an estimated breakdown of costs, included in Exhibit D (Estimated Budget for Scope of Work). Exhibit D will only be used as a tool to monitor progress of work and budget. Actual payment will be made as specified in Paragraph 4.2 above.

4.5. *Timing of Payments:* Unless otherwise noted in this Agreement, payments shall be made within the normal course of District business after presentation of an invoice in a form approved by District for services performed. Payments shall be made only upon the satisfactory completion of the services as determined by District.

4.6. *Taxes Withheld by District:*

a. Pursuant to California Revenue and Taxation Code (R&TC) section 18662, the District shall withhold seven percent of the income paid to Consultant for services performed within the State of California under this Agreement, for payment and reporting to the California Franchise Tax Board, if Consultant does not qualify as: (1) a corporation with its principal place of business in California, (2) an LLC or Partnership with a permanent place of business in California, (3) a corporation/LLC or Partnership qualified to do business in California by the Secretary of State, or (4) an individual with a permanent residence in the State of California.

b. If Consultant does not qualify, as described in Paragraph 4.6.a, District requires that a completed and signed Form 587 be provided by Consultant in order for payments to be made. If Consultant is qualified, as described in Paragraph 4.6.a, then District requires a completed Form 590. Forms 587 and 590 remain valid for the duration of the Agreement provided there is no material change in facts. By signing either form, Consultant agrees to promptly notify District of any changes in the facts. Forms should be sent to District pursuant to Article 17 (Method and Place of Giving Notice, Submitting Bills, and Making Payments) of this Agreement. To reduce the amount withheld, Consultant has the option to provide District with either a full or partial waiver from the State of California.

5. TERM OF AGREEMENT AND COMMENCEMENT OF WORK

5.1. *Term of Agreement:* This Agreement shall expire on December 31, 2020, unless terminated earlier in accordance with the provisions of Article 6 (Termination).

5.2. *Commencement of Work:* Consultant is authorized to proceed immediately with the performance of this Agreement upon the Effective Date of this Agreement.

6. TERMINATION

6.1. *Authority to Terminate:* District's right to terminate may be exercised by Sonoma County Water Agency's General Manager.

6.2. *Termination Without Cause:* Notwithstanding any other provision of this Agreement, at any time and without cause, District shall have the right, in its sole discretion, to terminate this Agreement by giving 5 days written notice to Consultant.

6.3. *Termination for Cause:* Notwithstanding any other provision of this Agreement, should Consultant fail to perform any of its obligations hereunder, within the time and in the manner herein provided, or otherwise violate any of the terms of this Agreement, District may immediately terminate this Agreement by giving Consultant written notice of such termination, stating the reason for termination.

6.4. *Delivery of Work Product and Final Payment Upon Termination:* In the event of termination, Consultant, within 14 days following the date of termination, shall deliver to District all reports, original drawings, graphics, plans, studies, and other data or documents, in whatever form or format, assembled or prepared by Consultant or Consultant's subcontractors, consultants, and other agents in connection with this Agreement subject to Paragraph 12.10 and shall submit to District an invoice showing the services performed, hours worked, and copies of receipts for reimbursable expenses up to the date of termination.

6.5. *Payment Upon Termination:* Upon termination of this Agreement by District, Consultant shall be entitled to receive as full payment for all services satisfactorily rendered and reimbursable expenses properly incurred hereunder, an amount which bears the same ratio to the total payment specified in the Agreement as the services satisfactorily rendered hereunder by Consultant bear to the total services otherwise required to be performed for such total payment; provided, however, that if services are to be paid on a per-hour or per-day basis, then Consultant shall be entitled to receive as full payment an amount equal to the number of hours or days actually worked prior to termination multiplied by the applicable hourly or daily rate; and further provided, however, that if District terminates the Agreement for cause pursuant to Paragraph 6.3, District shall deduct from such amounts the amount of damage, if any, sustained by District by virtue of the breach of the Agreement by Consultant.

6.6. *Termination for Non-Appropriation:* District may terminate this Agreement at any time, upon giving Consultant thirty (30) days written notice, for any of the following reasons:

a. District has exhausted all funds legally available for payments to become due under this Agreement;

b. Funds which have been appropriated for purposes of this Agreement are withheld and are not made available to District;

c. No appropriation of funds for payments has been made for purposes of this Agreement in the budget for the next fiscal year; or

d. An appropriation of funds for the next fiscal year has been made for purposes of this Agreement, but prior to actual release, such appropriation has been withdrawn.

7. INDEMNIFICATION

7.1. Consultant agrees to accept responsibility for loss or damage to any person or entity, including Sonoma Valley County Sanitation District and Sonoma County Water Agency, and to defend, indemnify, hold harmless, and release Sonoma Valley County Sanitation District and Sonoma County Water Agency, its officers, agents, and employees, from and against any actions, claims, damages, liabilities, disabilities, or expenses, that may be asserted by any person or entity, including Consultant, that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of Consultant or its agents, employees, contractors, subcontractors, or invitees hereunder, whether or not there is concurrent or contributory negligence on Sonoma Valley County Sanitation District or Sonoma County Water Agency's part, but, to the extent required by law, excluding liability due to Sonoma Valley County Sanitation District or Sonoma County Water Agency's conduct. This indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Consultant or its agents under workers' compensation acts, disability benefits acts, or other employee benefit acts.

8. INSURANCE

8.1. With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain, insurance as described in Exhibit F (Insurance Requirements).

9. PROSECUTION OF WORK

9.1. Performance of the services hereunder shall be completed within the time required herein, provided, however, that if the performance is delayed by earthquake, flood, high water, or other Act of God or by strike, lockout, or similar labor disturbances, the time for Consultant's performance of this Agreement shall be extended by a number of days equal to the number of days Consultant has been delayed.

10. EXTRA OR CHANGED WORK

10.1. Extra or changed work or other changes to the Agreement may be authorized only by written amendment to this Agreement, signed by both parties. Changes to lengthen time schedules or make minor modifications to the scope of work, which do not increase the amount paid under the Agreement, may be executed by Sonoma County Water Agency's General Manager in a form approved by County Counsel. The parties expressly recognize that District personnel are without authorization to order all other extra or changed work or waive

Agreement requirements. Failure of Consultant to secure such written authorization for extra or changed work shall constitute a waiver of any and all right to adjustment in the Agreement price or Agreement time due to such unauthorized work and thereafter Consultant shall be entitled to no compensation whatsoever for the performance of such work. Consultant further expressly waives any and all right or remedy by way of restitution and quantum meruit for any and all extra work performed without such express and prior written authorization of District.

11. CONTENT ONLINE ACCESSIBILITY

11.1. *Accessibility:* District policy requires that all documents that may be published to the Web meet accessibility standards to the greatest extent possible, and utilizing available existing technologies.

11.2. *Standards:* All consultants responsible for preparing content intended for use or publication on a District managed or District funded web site must comply with applicable federal accessibility standards established by 36 C.F.R. section 1194, pursuant to section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. section 794(d)), and District's Web Site Accessibility Policy located at http://sonomacounty.ca.gov/Services/Web-Standards-and-Guidelines/.

11.3. *Certification:* With each final receivable intended for public distribution (report, presentations posted to the Internet, public outreach materials), Consultant shall include a descriptive summary describing how all deliverable documents were assessed for accessibility (e.g., Microsoft Word accessibility check; Adobe Acrobat accessibility check, or other commonly accepted compliance check).

11.4. *Alternate Format:* When it is strictly impossible due to the unavailability of technologies required to produce an accessible document, Consultant shall identify the anticipated accessibility deficiency prior to commencement of any work to produce such deliverables. Consultant agrees to cooperate with District staff in the development of alternate document formats to maximize the facilitative features of the impacted document(s); e.g., embedding the document with alt-tags that describe complex data/tables.

11.5. *Noncompliant Materials; Obligation to Cure:* Remediation of any materials that do not comply with District's Web Site Accessibility Policy shall be the responsibility of Consultant. If District, in its sole and absolute discretion, determines that any deliverable intended for use or publication on any District managed or District funded Web site does not comply with District Accessibility Standards, District will promptly inform Consultant in writing. Upon such notice, Consultant shall, without charge to District, repair or replace the non-compliant materials within such period of time as specified by District in writing. If the required repair or replacement is not completed within the time specified, District shall have the right to do any or all of the following, without prejudice to District's right to pursue any and all other remedies at law or in equity:

a. Cancel any delivery or task order
b. Terminate this Agreement pursuant to the provisions of Article 6 (Termination); and/or
c. In the case of custom Electronic and Information Technology (EIT) developed by Consultant for District, District may have any necessary changes or repairs performed by itself or by another contractor. In such event, Consultant shall be liable for all expenses incurred by District in connection with such changes or repairs.

11.6. *District's Rights Reserved:* Notwithstanding the foregoing, District may accept deliverables that are not strictly compliant with District Accessibility Standards if District, in its sole and absolute discretion, determines that acceptance of such products or services is in District's best interest.

12. REPRESENTATIONS OF CONSULTANT

12.1. *Status of Consultant:* The parties intend that Consultant, in performing the services specified herein, shall act as an independent contractor and shall control the work and the manner in which it is performed. Consultant is not to be considered an agent or employee of District and is not entitled to participate in any pension plan, worker's compensation plan, insurance, bonus, or similar benefits District provides its employees. In the event District exercises its right to terminate this Agreement pursuant to Article 6 (Termination), Consultant expressly agrees that it shall have no recourse or right of appeal under rules, regulations, ordinances, or laws applicable to employees.

12.2. *Communication with District's Contractor:* All communication shall be between Consultant and District. Consultant shall have no authority to act on behalf of District, to stop work, to interpret conditions of the construction contract, or to give direction to District's contractor. Nothing in this provision shall serve to limit Consultant's responsibility to provide such engineering or related services as are required to complete other work or correct any errors or omissions of Consultant in the performance of services under this Agreement.

12.3. *No Suspension or Debarment:* Consultant warrants that it is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in covered transactions by any federal department or agency. Consultant also warrants that it is not suspended or debarred from receiving federal funds as listed in the List of Parties Excluded from Federal Procurement or Non-procurement Programs issued by the General Services Administration.

12.4. *Taxes:* Consultant agrees to file federal and state tax returns and pay all applicable taxes on amounts paid pursuant to this Agreement and shall be solely liable and responsible to pay such taxes and other obligations, including, but not limited to, state and federal income and FICA taxes. Consultant agrees to indemnify and hold District harmless from any liability which it may incur to the United States or to the State of California or to any other public entity as a consequence of Consultant's failure to pay, when due, all such taxes and obligations. In case District is audited for compliance regarding any withholding or other applicable taxes, Consultant agrees to furnish District with proof of payment of taxes on these earnings.

12.5. *Records Maintenance:* Consultant shall keep and maintain full and complete documentation and accounting records concerning all services performed that are compensable under this Agreement and shall make such documents and records available to District for inspection at any reasonable time. Consultant shall maintain such records for a period of four (4) years following completion of work hereunder.

12.6. *Conflict of Interest:* Consultant covenants that it presently has no interest and that it will not acquire any interest, direct or indirect, that represents a financial conflict of interest under state law or that would otherwise conflict in any manner or degree with the performance of its services hereunder. Consultant further covenants that in the performance of this Agreement no person having any such interests shall be employed. In addition, if required by law or requested to do so by District, Consultant shall submit a completed Fair Political Practices Commission Statement of Economic Interests (Form 700) with District within 30 calendar days after the Effective Date of this Agreement and each year thereafter during the term of this Agreement, or as required by state law.

12.7. *Statutory Compliance/Living Wage Ordinance:* Consultant agrees to comply, and to ensure compliance by its subconsultants or subcontractors, with all applicable federal, state and local laws, regulations, statutes and policies, including but not limited to the County of Sonoma Living Wage Ordinance, applicable to the services provided under this Agreement as they exist now and as they are changed, amended or modified during the term of this Agreement. Without limiting the generality of the foregoing, Consultant expressly acknowledges and agrees that this Agreement is subject to the provisions of Article XXVI of Chapter 2 of the Sonoma County Code, requiring payment of a living wage to covered employees. Noncompliance during the term of the Agreement will be considered a material breach and may result in termination of the Agreement or pursuit of other legal or administrative remedies.

12.8. *Nondiscrimination:* Consultant shall comply with all applicable federal, state, and local laws, rules, and regulations in regard to nondiscrimination in employment because of race, color, ancestry, national origin, religion, sex, marital status, age, medical condition, pregnancy, disability, sexual orientation or other prohibited basis. All nondiscrimination rules or regulations required by law to be included in this Agreement are incorporated herein by this reference.

12.9. *Assignment of Rights:* Consultant assigns to District all rights throughout the world in perpetuity in the nature of copyright, trademark, patent, right to ideas, in and to all versions of the plans and specifications, if any, now or later prepared by Consultant in connection with this Agreement. Consultant agrees to take such actions as are necessary to protect the rights assigned to District in this Agreement, and to refrain from taking any action which would impair those rights. Consultant's responsibilities under this provision include, but are not limited to, placing proper notice of copyright on all versions of the plans and specifications as District may direct, and refraining from disclosing any versions of the plans and specifications to any third party without first obtaining written permission of District. Consultant shall not use or permit another to use the plans and specifications in connection with this or any other project without first obtaining written permission of District.

12.10. *Ownership and Disclosure of Work Product:* All reports, original drawings, graphics, plans, studies, and other data or documents ("documents"), in whatever form or format, assembled or prepared by Consultant or Consultant's subcontractors, consultants, and other agents in connection with this Agreement shall be the property of District. District shall be entitled to immediate possession of such documents upon completion of the work pursuant to this Agreement. Upon expiration or termination of this Agreement, Consultant shall promptly deliver to District all such documents, which have not already been provided to District in such form or format as District deems appropriate. Such documents shall be and will remain the property of District without restriction or limitation. Consultant may retain copies of the above described documents but agrees not to disclose or discuss any information gathered, discovered, or generated in any way through this Agreement without the express written permission of District.

12.11. *District Liability:* District is a separate legal entity from Sonoma County Water Agency, operated under contract by Sonoma County Water Agency. To the extent any work under this Agreement relates to District activities, Consultant shall be paid exclusively from District funds. Consultant agrees that it shall make no claim for compensation for Consultant's services against Sonoma County Water Agency funds and expressly waives any right to be compensated from other funds available to Sonoma County Water Agency.

13. PREVAILING WAGES

13.1. *General:* Consultant shall pay to any worker on the job for whom prevailing wages have been established an amount equal to or more than the general prevailing rate of per diem wages for (1) work of a similar character in the locality in which the work is performed and (2) legal holiday and overtime work in said locality. The per diem wages shall be an amount equal to or more than the stipulated rates contained in a schedule that has been ascertained and determined by the Director of the State Department of Industrial Relations and

District to be the general prevailing rate of per diem wages for each craft or type of workman or mechanic needed to execute this Agreement. Consultant shall also cause a copy of this determination of the prevailing rate of per diem wages to be posted at each site work is being performed, in addition to all other job site notices prescribed by regulation. Copies of the prevailing wage rate of per diem wages are on file at District and will be made available to any person upon request.

13.2. *Subcontracts:* Consultant shall insert in every subcontract or other arrangement which Consultant may make for performance of such work or labor on work provided for in the Agreement, provision that Subcontractor shall pay persons performing labor or rendering service under subcontract or other arrangement not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed in the Labor Code. Pursuant to Labor Code section 1775(b)(1), Consultant shall provide to each Subcontractor a copy of sections 1771, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code.

13.3. *Compliance Monitoring and Registration*: This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. Consultant shall furnish and shall require all subcontractors to furnish the records specified in Labor Code section 1776 (e.g. electronic certified payroll records) directly to the Labor Commissioner in a format prescribed by the Labor Commissioner at least monthly (Labor Code 1771.4 (a)(3)). Consultant and all subcontractors performing work that requires payment of prevailing wages shall be registered and qualified to perform public work pursuant to Labor Code section 1725.5 as a condition to engage in the performance of any services under this Agreement.

13.4. *Compliance with Law:* In addition to the above, Consultant stipulates that it shall comply with all applicable wage and hour laws, including without limitation Labor Code sections 1725.5, 1775, 1776, 1777.5, 1813, and 1815 and California Code of Regulations, Title 8, section 16000, et seq.

14. DEMAND FOR ASSURANCE

14.1. Each party to this Agreement undertakes the obligation that the other's expectation of receiving due performance will not be impaired. When reasonable grounds for insecurity arise with respect to the performance of either party, the other may in writing demand adequate assurance of due performance and until such assurance is received may, if commercially reasonable, suspend any performance for which the agreed return has not been received. “Commercially reasonable” includes not only the conduct of a party with respect to performance under this Agreement, but also conduct with respect to other agreements with parties to this Agreement or others. After receipt of a justified demand, failure to provide within a reasonable time, but not exceeding thirty (30) days, such assurance of due performance as is adequate under the circumstances of the particular case is a repudiation of this Agreement. Acceptance of any improper delivery, service, or payment does not prejudice the aggrieved party's right to demand adequate assurance of future performance. Nothing in this Article 13 limits District's right to terminate this Agreement pursuant to Article 6 (Termination).

15. ASSIGNMENT AND DELEGATION

15.1. *Consent:* Neither party hereto shall assign, delegate, sublet, or transfer any interest in or duty under this Agreement without the prior written consent of the other, and no such transfer shall be of any force or effect whatsoever unless and until the other party shall have so consented.

15.2. *Subcontracts:* Notwithstanding the foregoing, Consultant may enter into subcontracts with the subconsultants specifically identified herein. If no subconsultants are listed, then no subconsultants will be utilized in the performance of the work specified in this Agreement. Approved subconsultants are as follows:

Name	Type of Services	Prevailing Wages Apply? Y/N
RGH	Geotechnical Engineering	N

15.3. *Change of Subcontractors or Subconsultants:* If, after execution of the Agreement, parties agree that subconsultants not listed in Paragraph 15.2 will be utilized, Consultant may enter into subcontracts with subconsultants to perform other specific duties pursuant to the provisions of this Paragraph 15.3. The following provisions apply to any subcontract entered into by Consultant other than those listed in Paragraph 15.2:

a. Prior to entering into any contract with subconsultant, Consultant shall obtain District approval of subconsultant.

b. All agreements with subconsultants shall (a) contain indemnity requirements in favor of District in substantially the same form as that contained in Article 7 (Indemnification), (b) contain language that the subconsultant may be terminated with or without cause upon reasonable written notice, and (c) prohibit the assignment or delegation of work under the agreement to any third party.

15.4. *Summary of Subconsultants' Work:* Consultant shall provide District with a summary of work performed by subconsultants with each invoice submitted under Paragraph 4.3. Such summary shall identify the individuals performing work on behalf of subconsultants and the total amount paid to subconsultant, broken down by the tasks listed in the Scope of Work.

16. MEDIATION OF DISPUTES

16.1. If a dispute arises out of or relates to this Agreement, or an alleged breach thereof, and if the dispute cannot be settled through negotiation, before resorting to litigation, District and Consultant agree first to try in good faith to settle the dispute by mediation. Mediation shall be non-binding and utilize the services of a mediator mutually acceptable to the parties and, if the parties cannot agree, a mediator selected by the American Arbitration Association from its panel of approved mediators trained in construction industry mediation. All statutes of limitation shall be tolled from the date of the demand for mediation until a date two weeks following the mediation's conclusion. If the dispute also involves claims against or by a construction contractor who has used or otherwise relied on any work product of Consultant, the Parties agree that the mediation required by this Article 16 will include the construction contractor as a participant. The cost of mediation shall be equally shared by the participating parties. Unless the participation of a construction contractor is required and that indispensable contractor is subject to an incompatible stipulation with the District with regard to the same matters, the parties further agree that:

a. The mediation shall be conducted in Santa Rosa, California.

b. Unless otherwise agreed to in writing by the parties participating in the mediation, the mediation shall be concluded no later than sixty (60) days after the first mediation session. If the dispute has not been resolved at that time, any party may elect at that time to pursue litigation.

c. The parties agree to exchange all relevant non-privileged documents before the first scheduled mediation session.

17. METHOD AND PLACE OF GIVING NOTICE, SUBMITTING BILLS, AND MAKING PAYMENTS

17.1. *Method of Delivery:* All notices, bills, and payments shall be made in writing and shall be given by personal delivery, U.S. Mail, courier service, or electronic means. Notices, bills, and payments shall be addressed as specified in Paragraph 3.2.

17.2. *Receipt:* When a notice, bill, or payment is given by a generally recognized overnight courier service, the notice, bill, or payment shall be deemed received on the next business day. When a copy of a notice, bill, or payment is sent by electronic means, the notice, bill, or payment shall be deemed received upon transmission as long as (1) the original copy of the notice, bill, or payment is deposited in the U.S. mail and postmarked on the date of the electronic transmission (for a payment, on or before the due date), (2) the sender has a written confirmation of the electronic transmission, and (3) the electronic transmission is transmitted before 5 p.m. (recipient's time). In all other instances, notices, bills, and payments shall be effective upon receipt by the recipient. Changes may be made in the names and addresses of the person to whom notices are to be given by giving notice pursuant to this Article 17.

18. MISCELLANEOUS PROVISIONS

18.1. *No Bottled Water:* In accordance with District Board of Directors Resolution No. 09-0920, dated September 29, 2009, no District funding shall be used to purchase single-serving, disposable water bottles for use in District facilities or at District-sponsored events. This restriction shall not apply when potable water is not available.

18.2. *No Waiver of Breach:* The waiver by District of any breach of any term or promise contained in this Agreement shall not be deemed to be a waiver of such term or promise or any subsequent breach of the same or any other term or promise contained in this Agreement.

18.3. *Construction:* To the fullest extent allowed by law, the provisions of this Agreement shall be construed and given effect in a manner that avoids any violation of statute, ordinance, regulation, or law. The parties covenant and agree that in the event that any provision of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions hereof shall remain in full force and effect and shall in no way be affected, impaired, or invalidated thereby. Consultant and District acknowledge that they have each contributed to the making of this Agreement and that, in the event of a dispute over the interpretation of this Agreement, the language of the Agreement will not be construed against one party in favor of the other. Consultant and District acknowledge that they have each had an adequate opportunity to consult with counsel in the negotiation and preparation of this Agreement.

18.4. *Consent:* Wherever in this Agreement the consent or approval of one party is required to an act of the other party, such consent or approval shall not be unreasonably withheld or delayed.

18.5. *No Third-Party Beneficiaries:* Except as provided in Article 7 (Indemnification), nothing contained in this Agreement shall be construed to create and the parties do not intend to create any rights in third parties.

18.6. *Applicable Law and Forum:* This Agreement shall be construed and interpreted according to the substantive law of California, regardless of the law of conflicts to the contrary in any jurisdiction. Any action to enforce the terms of this Agreement or for the breach thereof shall be brought and tried in Santa Rosa or in the forum nearest to the City of Santa Rosa, in the County of Sonoma.

18.7. *Captions:* The captions in this Agreement are solely for convenience of reference. They are not a part of this Agreement and shall have no effect on its construction or interpretation.

18.8. *Merger:* This writing is intended both as the final expression of the Agreement between the parties hereto with respect to the included terms and as a complete and exclusive statement of the terms of the Agreement, pursuant to

Code of Civil Procedure section 1856. Each Party acknowledges that, in entering into this Agreement, it has not relied on any representation or undertaking, whether oral or in writing, other than those which are expressly set forth in this Agreement. No modification of this Agreement shall be effective unless and until such modification is evidenced by a writing signed by both parties.

18.9. *Survival of Terms:* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

18.10. *Time of Essence:* Time is and shall be of the essence of this Agreement and every provision hereof.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date last signed by the parties to the Agreement.

DIR Registration #: 1000000996

Exhibit A

Scope of Work

1. PROJECT DESCRIPTION

1.1. A portion of District's sewer pipeline runs parallel to Sonoma Creek and crosses Kohler and Sonoma creeks near the confluence of these two channels. Bank and bed erosion have put this portion of the pipe system at risk of damage at three locations. The work includes identifying, at the concept level, treatments for channel bed and banks, including related incidental modifications of the pipe system in the immediate vicinity (Project). Habitat for salmonids and California freshwater shrimp is a primary design consideration. A map of the Project is included in Exhibit E (Map).

2. GENERAL

2.1. Consultant agrees to perform obligations described in this Agreement and to furnish necessary engineering skills, services, labor, supplies, supervision, and materials required to perform and complete the Project.

2.2. By execution of this Agreement, Consultant warrants that it has carefully examined the Project site and has satisfied itself of local and special conditions affecting this Scope of Work. Tests, survey results, geotechnical reports, or other data or information, whether furnished by District, or referenced in this Agreement, are for Consultant's convenience. District does not guarantee that such tests or preliminary investigations or other data and information are accurate and assumes no responsibility whatsoever as to their accuracy or interpretation. Consultant shall satisfy itself as to the accuracy or interpretation of such tests or survey results or other information or data.

3. TASKS

3.1. Task 1: Background Research

a. Review existing information such as previous design work, photos, geomorphic assessments, and as-built drawings.
b. Review selected Sonoma Creek geomorphic analysis work done by others to date.
c. Prepare preliminary cultural resources assessment.

3.2. Task 2: Cost Estimates

a. Prepare a planning-level construction-cost estimate of proposed alternatives to be considered.

b. For selected alternative, prepare refined planning level cost estimates for the following:
   - i. Design and development of bid documents.
   - ii. Statement of Probable Construction Costs broken down by bid item, and revise as required herein. Provide estimated quantities for unit priced items.
   - iii. Procuring permits.
   - iv. Monitoring.

3.3. Task 3: Design Services

a. Preliminary Design:
   - i. Consult with District to define and clarify District's requirements for the Project and available data.
   - ii. Geomorphic Assessment:
     - a) Review HEC-RAS 2D model of existing conditions.
     - b) Study constraints, existing topography, and hydraulic geometry
     - c) Prepare a brief assessment of existing fluvial geomorphic conditions at the site, including observations made during kick-off meeting channel walk and relevant information of Consultant-reviewed fluvial geomorphic assessments of Sonoma Creek by others.
   - iii. Identify, consult with, and analyze requirements of governmental authorities having jurisdiction (Resource Agencies) to approve the portions of the Project designed or specified by Consultant including, but not limited to, California Department of Fish and Wildlife, Regional Water Quality Control Board, United States Army Corps of Engineers, United States Department of Fish and Wildlife, National Oceanic and Atmospheric Administration, and National Marine Fisheries Service.
   - iv. Identify and evaluate at least three alternative solutions available to District and, after consultation with District, recommend to District those solutions that in Consultant's judgment meet District's requirements for the Project.
   - v. Identify key utility locations and identify utility conflicts, if any.

b. Concept Design:
   - i. Prepare Project conceptual design, incorporating design criteria provided by District.
   - ii. Identify and perform sufficient site investigation(s) for purpose of developing Project design.
   - iii. Include draft and final technical memoranda summarizing the design parameters.
   - iv. Prepare a detailed construction cost estimate for the Project as described in paragraph 3.2.
   - v. Incorporate known applicable requirements into Project.

c. Meetings:
  i. Kick Off Meeting:
    a) Discuss Project scope and schedule.
    b) Key personnel meet on site, review scope, observe existing conditions, distinguish constraints (geometry, existing features, landowner authorization, construction access).
    c) Walk upstream and downstream, observe and photograph notable existing conditions.
  ii. Design Workshop:
    a) Conduct design workshop with Consultant's Project Manager, Civil Engineer, Landscape Architect, and District:
      - Identify three long-term (10+ year life) options for each area (A, B, and C).
      - Identify possible interim measures that could be implemented immediately (e.g., vegetation thinning, coir fabric installation, willow staking, brush mats).
      - Select one option for each area for variable levels of protection (e.g., minimal, moderate, robust) and best value.
      - Consider ease of permitting, cost, level of protection for the sewer pipe, and related concerns.
  iii. On-Site meeting with Resource Agencies and District to present viable or preferred alternatives.

d. Meeting Information:
  i. Arrange, attend, prepare agendas for, and conduct meetings at each design stage.
  ii. Prepare technical memorandum summarizing design parameters.
  iii. Prepare meeting minutes for each meeting.
  iv. Hold meetings at District's Office, 404 Aviation Boulevard, Santa Rosa, California, or at the Project site.

3.4. Task 4: Drafting Services

a. Prepare draft concept drawings (section and plan views as needed) for each of three options for each area (A, B, and C).

b. Prepare final concept level drawing set of preferred option (three sites combined in one drawing set) (section and plan views, as needed).

3.5. Task 5: Schedule and Submittal of Documents

a. Perform services and submit documents to District for review and approval in accordance with the schedule included in Exhibit B (Schedule and Submittals).

b. Submittal requirements:
  i. Comply with requirements of Article 11 (Content Online Accessibility).

ii. Provide electronic copies in GIS format as Environmental Systems Research Institute (ESRI) Shapefile(s) and AutoCAD “e Transmit” file(s).

Exhibit B

Schedule and Submittals

MILESTONE	DOCUMENTS TO BE SUBMITTED	CALENDAR DAYS
Notice to Proceed with Design	-	immediately upon execution of this Agreement
Kick-off Meeting Submittal	• 10 copies of Kick-off meeting agenda	Within 7 calendar days prior to Kick-off meeting
Kick-off Meeting	-	within 10 calendar days following Notice to Proceed with Design
Kick-off Meeting Minutes	• One electronic copy of meeting minutes	within 7 calendar days of Kick-off Meeting
Design Workshop Submittal	• Draft fluvial geomorphic assessment • Assumptions and preliminary conclusions • 10 copies of Design Workshop agenda	within 56 calendar days after Kick-off Meeting
Design Workshop	-	within 63 calendar days after Kick-off Meeting
Design Workshop Minutes	• One electronic copy of meeting minutes	within 7 calendar days of Design Workshop
Concept Drawing Submittal (3 alternatives)	• Concept drawings for 3 alternatives at each site • Preliminary planning-level cost estimates for each alternative • Draft conceptual design memo	within 56 calendar days after Design Workshop
Resource Agency Meeting	•	within 63 calendar days after Design Workshop
Resource Agency Meeting Minutes	• One electronic copy of meeting minutes	within 7 calendar days of Resource Agency Meeting
Final Submittal	• Technical design memorandum • Complete set of concept design drawings (one preferred option for each site) • Statement of Probable Construction Costs	within 30 calendar days after Resource Agency Meeting

Exhibit F

Insurance Requirements

With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain insurance as described below unless such insurance has been expressly waived by the attachment of a *Waiver of Insurance Requirements*. Any requirement for insurance to be maintained after completion of the work shall survive this Agreement.

District reserves the right to review any and all of the required insurance policies and/or endorsements, but has no obligation to do so. Failure to demand evidence of full compliance with the insurance requirements set forth in this Agreement or failure to identify any insurance deficiency shall not relieve Consultant from, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

1. INSURANCE

1.1. Workers Compensation and Employers Liability Insurance

a. Required if Consultant has employees as defined by the Labor Code of the State of California.

b. If Consultant currently has no employees as defined by the Labor Code of the State of California, Consultant agrees to obtain the above-specified Workers Compensation and Employers' Liability insurance should employees be engaged during the term of this Agreement or any extensions of the term.

1.2. General Liability Insurance

a. Commercial General Liability Insurance on a standard occurrence form, no less broad than Insurance Services Office (ISO) form CG 00 01.

b. Minimum Limits: $1,000,000 per Occurrence; $2,000,000 General Aggregate; $2,000,000 Products/Completed Operations Aggregate. The required limits may be provided by a combination of General Liability Insurance and Commercial Excess or Commercial Umbrella Liability Insurance. If Consultant maintains higher limits than the specified minimum limits, District requires and shall be entitled to coverage for the higher limits maintained by Consultant.

c. Any deductible or self-insured retention shall be shown on the Certificate of Insurance. If the deductible or self-insured retention exceeds $25,000 it must be approved in advance by District. Consultant is responsible for any deductible or self-insured retention and shall fund it upon District's written request, regardless of whether Consultant has a claim against the insurance or is named as a party in any action involving the District.

d. Sonoma County Water Agency and Sonoma Valley County Sanitation District, their officers, agents, and employees, shall be endorsed as additional insureds for liability arising out of operations by or on behalf of the Consultant in the performance of this Agreement.

e. The insurance provided to the additional insureds shall be primary to, and non-contributory with, any insurance or self-insurance program maintained by them.

f. The policy definition of “insured contract” shall include assumptions of liability arising out of both ongoing operations and the products-completed operations hazard (broad form contractual liability coverage including the “f” definition of insured contract in Insurance Services Office form CG 00 01, or equivalent).

g. The policy shall cover inter-insured suits between the additional insureds and Consultant and include a “separation of insureds” or “severability” clause which treats each insured separately.

h. Required Evidence of Insurance:
   i. Copy of the additional insured endorsement or policy language granting additional insured status, and
   ii. Certificate of Insurance.

1.3. Automobile Liability Insurance

a. Minimum Limit: $1,000,000 combined single limit per accident. The required limit may be provided by a combination of Automobile Liability Insurance and Commercial Excess or Commercial Umbrella Liability Insurance.

b. Insurance shall cover all owned autos. If Consultant currently owns no autos, Consultant agrees to obtain such insurance should any autos be acquired during the term of this Agreement or any extensions of the term.

c. Insurance shall cover hired and non-owned autos.

d. Required Evidence of Insurance: Certificate of Insurance.

1.4. Professional Liability/Errors and Omissions Insurance

a. Minimum Limit: $1,000,000 per claim or per occurrence; $1,000,000 annual aggregate.

b. Any deductible or self-insured retention shall be shown on the Certificate of Insurance. If the deductible or self-insured retention exceeds $25,000 it must be approved in advance by District.

c. If Consultant’s services include: (1) programming, customization, or maintenance of software: or (2) access to individuals’ private, personally identifiable information, the insurance shall cover:
   i. Breach of privacy; breach of data; programming errors, failure of work to meet contracted standards, and unauthorized access; and
   ii. Claims against Consultant arising from the negligence of Consultant, Consultant’s employees and Consultant’s subcontractors.

d. If the insurance is on a Claims-Made basis, the retroactive date shall be no later than the commencement of the work.

e. Coverage applicable to the work performed under this Agreement shall be continued for two (2) years after completion of the work. Such continuation coverage may be provided by one of the following: (1) renewal of the existing policy; (2) an extended reporting period endorsement; or (3) replacement insurance with a retroactive date no later than the commencement of the work under this Agreement.

f. Required Evidence of Insurance: Certificate of Insurance specifying the limits and the claims-made retroactive date.

1.5. Standards for Insurance Companies

a. Insurers, other than the California State Compensation Insurance Fund, shall have an A.M. Best's rating of at least A:VII.

1.6. Documentation

a. The Certificate of Insurance must include the following reference: TW 18/19-024.

b. All required Evidence of Insurance shall be submitted prior to the execution of this Agreement. Consultant agrees to maintain current Evidence of Insurance on file with District for the entire term of this Agreement and any additional periods if specified in Sections 1.1, 1.2, 1.3, or 1.4 above.

c. The name and address for mailing Additional Insured endorsements and Certificates of Insurance is: Sonoma Valley County Sanitation District, c/o Sonoma County Water Agency, 404 Aviation Boulevard, Santa Rosa, CA 95403-9019.

d. Required Evidence of Insurance shall be submitted for any renewal or replacement of a policy that already exists, at least ten (10) days before expiration or other termination of the existing policy.

e. Consultant shall provide immediate written notice if: (1) any of the required insurance policies is terminated; (2) the limits of any of the required policies are reduced; or (3) the deductible or self-insured retention is increased.

f. Upon written request, certified copies of required insurance policies must be provided within thirty (30) days.

1.7. Policy Obligations

a. Consultant's indemnity and other obligations shall not be limited by the foregoing insurance requirements.

1.8. Material Breach

a. If Consultant fails to maintain insurance which is required pursuant to this Agreement, it shall be deemed a material breach of this Agreement. District, at its sole option, may terminate this Agreement and obtain damages from Consultant resulting from said breach. Alternatively, District may purchase the required insurance, and without further notice to Consultant, District may deduct from sums due to Consultant any premium costs advanced by District for such insurance. These remedies shall be in addition to any other remedies available to District.

COMMERCIAL GENERAL LIABILITY COVERAGE FORM

A. Section **II** – Who Is An Insured is amended to include as an additional insured any person(s) or organization(s) to whom the insured agrees to provide additional insured status on a primary and non-contributory basis in a written contract, provided such written contract is signed by both parties and executed prior to the commencement of operations, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or

2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured.

However, the insurance afforded to such additional insured:

1. Only applies to the extent permitted by law; and

2. Will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury", "property damage", or “personal and advertising injury” occurring after:

1. All work on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured at the location of the covered operations, including materials, parts or equipment furnished in connection with such work, has been completed; or

2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

C. With respect to the insurance afforded to these additional insureds, the following is added to Section **III** – Limits Of Insurance:

The most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or

2. Available under the applicable Limits Of Insurance shown in the Declarations;

whichever is less.

This endorsement will not increase the applicable Limits Of Insurance shown in the Declarations.

D. With respect to the coverage provided by this endorsement, the following is added to Paragraph **4.** Other Insurance under Section **IV** – Commercial General Liability Conditions:

Primary And Noncontributory Insurance

This insurance is primary to and will not seek contribution from any other insurance available to any person(s) or organization(s) qualifying as an additional insured by this endorsement provided that:

(1) The additional insured is a Named Insured under such other insurance; and

(2) You have agreed in writing in a contract or agreement that this insurance would be primary and would not seek contribution from any other insurance available to the additional insured.

All other terms and conditions remain unchanged.

Cathy Patton – 565-2073

Supervisorial District(s):

Title: Authority to Invest and Reinvest Funds

Recommended Actions:

Approval of the Concurrent Resolution of the Board of Supervisors of the County of Sonoma and all Districts governed ex-officio by the Board of Supervisors renewing authorization for the County Treasurer to assume full responsibility for all transactions and expenditures related to the investment and reinvestment of funds on deposit in the County Treasury

Executive Summary:

This item provides for the annual review of the delegated authority of the Board to the Treasurer to invest and reinvest funds as provided for in County Ordinance 5037 and the County of Sonoma Statement of Investment Policy.

Discussion:

The Board of Supervisors adopted County Ordinance 5037 on June 17, 1997. The Ordinance permits the annual delegation of the authority to invest and reinvest funds held on deposit in the county Treasury, as well as the authority to sell or exchange securities. The County Treasurer then assumes full responsibilities for all transactions and expenditures related to the investment and reinvestment of funds on deposit in the Sonoma County Treasury until the annual delegation expires or until the Board revokes it delegation of authority by ordinance.

Authority is also requested in order to be in compliance with the County of Sonoma Statement of Investment Policy, approved by the Board of Supervisors on January 9, 2018. Section 6 of the Policy states the Sonoma County Board of Supervisors, by resolution, has delegated investment responsibility for the Sonoma County Investment Program to the Auditor-Controller-Treasurer-Tax Collector.

Prior Board Actions:

01-09-2018 – Board of Supervisors approved the Statement of Investment Policy and Resolution #18-0006 Delegating Authority to Invest & Reinvest
01-10-2017 – Board of Supervisors approved the Statement of Investment Policy and Resolution #17-005 Delegating Authority to Invest & Reinvest
12-15-2015 – Board of Supervisors approved the Statement of Investment Policy and Resolution #15-0489 Delegating Authority to Invest & Reinvest
These have been approved yearly prior, since 1997.

Strategic Plan Alignment	Goal 3: Invest in the Future

The Treasurer maintains a balanced investment portfolio to ensure sufficient liquidity for County programs.

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, The Board Of Directors Of The Sonoma County Water Agency, The Board Of Commissioners Of The Community Development Commission, And The Board Of Directors Of The Sonoma County Agricultural Preservation And Open Space District, Authorizing The County Treasurer To Assume Full Responsibility For All Transactions And Expenditures Related To The Investment And Reinvestment Of Funds On Deposit In The County Treasury

Whereas, Ordinance 5037 dated June 17, 1997 authorized the County Treasurer of the County of Sonoma to invest and reinvest funds as provided by California Government Code Sections 27000.0 and 27000.3; and

Whereas, the Sonoma County Treasurer as has been designated as the agent of the County with regards to investment of funds, to serve as fiduciary of the funds and be subject to the Prudent Investor Standard; and

Whereas, Government Code Section 53607 allows Board to renew this one-year delegation annually.

Now, Therefore, Be It Resolved that the Board of Supervisors, acting as the Governing Board of Sonoma County and as the Governing Board of Directors of the various districts listed above, hereby renews it delegation of authority for investments to the Treasurer of Sonoma County to invest and reinvest funds as provided by Government Code Section 27000.1 and 27000.3.

Staff Name and Phone Number:	Supervisor Gorin, 565-2241	**Supervisorial District(s):**	First
Title:	Disbursement of Fiscal Year 2018-2019 First District Community Investment Fund Grant Awards		

Recommended Actions:

Approve Community Investment Fund grant awards and Authorize the County Administrator, or designee, to execute an agreement with the following non-profit entities for advertising and economic development efforts for FY 2018-2019: Sonoma Hometown Band for Sonoma Hometown Band Holiday Concert, $500; California Poets in the Schools for Sonoma Poetry Festival, $250; Mi Futuro DBA Latino Service Providers for Healthcare Career Technical Education Symposium, $250; Luther Burbank Rose Parade and Festival DBA LBR Parade and Festival for the 125th Rose Parade and Festival, $250; Sonoma County Farm Trails, $250.

Executive Summary:

Community Non-Profit Grants for Local Events, Organizations, and Economic Development Grants of the Community Investment Fund Policy provides grant allocations to each Supervisor, to be distributed at the Supervisor’s discretion. The First District has reviewed applications and wishes to recommend the following FY 2018-2019 grant awards:

1.) Sonoma Hometown Band for expenses related to their 2018 Sonoma Hometown Band Holiday Concert which is free to the community, $500;
2.) California Poets in the Schools for expenses related to the 2019 Sonoma Poetry Festival, which empowers students of all ages and builds community through literary arts, $250;
3.) Mi Futuro DBA Latino Service Providers for the 2019 Healthcare Career Technical Education Symposium which provides a professional level conference experience to Sonoma County youth including all major high schools in District 1, $250;
4.) Luther Burbank Rose Parade and Festival DBA LBR Parade and Festival for advertising and promotion of the 125th Rose Parade and Festival, $250;
5.) Sonoma County Farm Trails for event and production costs related to Fall 2018, Holiday 2018 and Spring 2019 Farm Trails, $250.

Discussion:

The Sonoma County Community Investment Fund grant program utilizes a portion of the Transient Occupancy Tax (TOT) to encourage tourism, economic development, and community engagement through a variety of grant award and funding avenues. The program provides various grants to community non-profits for advertising and economic development events and the county as a visitor destination with the goal of advancing economic growth through tourism. Additionally, the program provides grants to promote agricultural promotion as well as address impacts on safety due to tourism. The program provides funding to the Regional Parks Department as well as the Economic Development Department and a number of other county department activities, all with the focus of encouraging tourism and awareness of Sonoma County.

The Community Investment Fund Policy is divided into different categories. The Board established the Local Events, Organizations, and Economic Development category to assist small cultural, artistic, and countywide events and organizations as well as events occurring during the off peak tourism season (November 15 through April 15) with funding for advertising and economic development efforts that promote Sonoma County and encourage visitors to frequent the county throughout the entire year. Funding for these events and organizations is provided at the discretion of each Supervisorial District based on an overall allocation of $250,000 divided equally across each district. Events and organizations make requests throughout the year to the Supervisorial District in which their event/organization exists.

Funds will be distributed upon approval of these awards by the Board of Supervisors and execution of the Community Investment Fund grant agreement (contract) by the entity. The contracts will be executed by the County Administrator, or designee. The contracts will require the County seal on promotional materials produced using the grant award and will require submission to the County Administrator's Office of advertising and promotional activity receipts up to the total amount of the grant award.

Activities performed utilizing Community Investment Program funds provide public benefits that serve important community needs under Government Code Section 26277.

Prior Board Actions:

9/18/18: Awarded $20,500 in FY 2018-2019 Local Events, Organizations, and Economic Development grants for District 1
10/16/18: Awarded $5,000 in FY 2018-2019 Local Events, Organizations, and Economic Development grants for District 1

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

Grant funds allow non-profit partners to advertise and grow local events and encourage tourism thereby promoting economic development and growth.

Title: Disbursement of Fiscal Year 2018-2019 Second District Community Investment Fund Grant Awards

Recommended Actions:

Approve Community Investment Fund grant awards and Authorize the County Administrator, or designee, to execute an agreement with the following non-profit entity for advertising and economic development efforts for FY 2018-2019: Los Cien Sonoma County, $1,750.

Executive Summary:

Community Non-Profit Grants for Local Events, Organizations, and Economic Development Grants of the Community Investment Fund policy provides grant allocations to each Supervisor, to be distributed at the Supervisor's discretion. The Second District has reviewed the applications and wishes to recommend the following FY 2018-2019 grant award:

1.) Los Cien Sonoma County for support of the annual State of Latino Community Forum and ongoing monthly forums and events.

Discussion:

The Sonoma County Community Investment Fund grant program utilizes a portion of the Transient Occupancy Tax (TOT) to encourage tourism, economic development, and community engagement through a variety of grant award and funding avenues. The program provides various grants to community non-profits for advertising and economic development events and the county as a visitor destination with the goal of advancing economic growth through tourism. Additionally, the program provides grants to promote agricultural promotion as well as address impacts on safety due to tourism. The program provides funding to the Regional Parks Department as well as the Economic Development Department and a number of other county department activities, all with the focus of encouraging tourism and awareness of Sonoma County.

Title: Establishment of the Springs Municipal Advisory Council

Recommended Actions:

Adopt a Resolution to establish the Springs Municipal Advisory Council and its boundary; and approve the Springs Municipal Advisory Council Bylaws.

Executive Summary:

Unincorporated segments of the County have become increasingly municipal in nature, and now require an effective mechanism to communicate their needs to the Sonoma County Board of Supervisors (Board). Members of the Board currently work with multiple Councils in their districts, including the Sonoma Valley Citizens Advisory Commission in the First District, and the Dry Creek Valley Citizens Advisory Council and Mark West Area Citizens Advisory Council in the Fourth District, and the Lower Russian River and Sonoma County Coast Municipal Advisory Councils in the Fifth District.

If approved, this item will establish the Springs Municipal Advisory Council in the First District, to provide recommendations on matters of local concern, such as transportation and land use planning. After the Council is established and the First District Supervisor selects final nominations to the Council, the First District will bring a Board item to appoint members to the Council.

Municipal Advisory Councils are authorized by statute (Government Code section 31010) and can be created by a resolution of County Board of Supervisors.

Discussion:

Springs Municipal Advisory Council: Purpose

The Springs Municipal Advisory Council will represent the best interests of the entire community while acting as a bridge for communication between the County and local residents and businesses on the following topics for the Springs Area, when they are referred to the Municipal Advisory Council through the proper channels described in the Bylaws:

a. Use Permit Applications and planning topics when referred by the Sonoma Valley Citizens Advisory Council
b. Prioritization of Transportation and Transit Improvements when requested by the District Supervisor
c. Health and Human Safety-Net Services when requested by the District Supervisor
d. Community projects such as art, clean ups and vegetation planting when requested by the District Supervisor
e. Additional Topics Requested by the District Supervisor

Springs Municipal Advisory Council: History and Timing
In August of 2018, the First District Supervisor convened a group of stakeholders to provide input on the creation of a Municipal Advisory Council in the Springs. Over the following months, the First District coordinated with the County Administrator's Office to develop bylaws for the Springs Municipal Advisory Council, and held additional meetings with stakeholders and the community to provide information and receive feedback on the Springs Municipal Advisory Council.

If the Board of Supervisors establishes the Springs Municipal Advisory Council, the Board could appoint Municipal Advisory Council members in early 2019, and the Municipal Advisory Council could begin meeting in early 2019.

Municipal Advisory Councils: Changes to Template Bylaws
In 2017 the Board adopted the Sonoma County Municipal Advisory Council Policies & Procedures, providing guidance for the establishment of future Municipal Advisory Councils in unincorporated Sonoma County. The guidelines were carefully considered in the development of the Springs Municipal Advisory Council. In order to ensure consistency across Sonoma County's Municipal Advisory Councils, the intent and scope of the Springs Municipal Advisory Council is consistent with the guidelines.

The proposed Bylaws for the Springs Municipal Advisory Councils include adjustments to the templates approved by the Board in 2017. The District Supervisor selected these changes to increase the effectivity of Municipal Advisory Councils in the unique regions of the First District. Substantive changes to the bylaws include:

- A procedure for Alternates to vote when a Municipal Advisory Council member is absent or recuses him or herself from a meeting.
- Guidance on the procedure to make requests of County staff.
- A process for the Sonoma Valley Citizens Advisory Commission to refer Use Permit Applications and Planning Topics to the Springs Municipal Advisory Council for comment.

Sonoma County Municipal and Citizens Advisory Councils: Funding Discussion
Municipal Advisory Councils typically incur costs such as website development and maintenance, Errors and Omissions Liability Insurance, facility rentals and staffing costs. The costs may be divided into two categories: one-time startup costs, and ongoing costs.
One-time Startup Costs

- Initial website development for Municipal Advisory Councils
- Initial outreach costs, such as a single mailing to residents of the Municipal Advisory Council

Ongoing Costs

- Costs for facility rental and staffing

- Website maintenance
- The County's General Liability Coverage includes Errors & Omissions Coverage, and is distributed among departments. Boards, Committees, Commissions, Councils, etc. that are formed and appointed by the Board are included in the coverage.

One-time startup costs may be funded by the County Administrator's Office. Ongoing costs may be covered with discretionary funds available to the Board, such as each Supervisor's Tourism Impact Funds under the Community Investment Fund, or independent non-County sources.

Sonoma County Municipal and Citizens Advisory Councils: Update
The now-dissolved Windsor Municipal Advisory Council was the first Council in Sonoma County, established in 1987. In 1993 the Sonoma County Board of Supervisors and the Sonoma City Council established the Sonoma Valley Citizens Advisory Commission. In 2016 The Board established the Mark West Area Citizens Advisory Council, and the Dry Creek Valley Citizens Advisory Council in 2012. In 2018 the Board established the Lower Russian River and Sonoma County Coast Municipal Advisory Councils.

Prior Board Actions:

- Pre-incorporation, the Board established the now-dissolved Windsor Municipal Advisory Council in 1987 (Resolution No. 87-0139).
- The Sonoma County Board of Supervisors and the Sonoma City Council established the Sonoma Valley Citizens Advisory Commission in 1993 (Resolution 93-1552 on 10/12/93; Joint Powers Agreement 98-1281 on 10/6/98; 04-0026 on 1/6/04; 06-0776 on 9/12/06; 14-0086 on 3/11/14).
- The Board created the Mark West Area Citizens Advisory Council in 2016 (Resolution No. 16-0231) and Dry Creek Valley Citizens Advisory Council in 2012 (Resolution No. 12-0410).
- The Board adopted the Sonoma County Municipal Advisory Council Policies & Procedures on July 18, 2017.
- The Board created the Lower Russian River Advisory Council (Resolution No. 18-0405) and the Sonoma County Coast Municipal Advisory Council on 9/25/2018 (Resolution No. 18-0406).

Strategic Plan Alignment Goal 4: Civic Services and Engagement

Goal 4: Civic Services and Engagement is aimed at engaging and encouraging citizen participation in local government, and aligning public services with community needs and desires. Establishing additional municipal advisory councils will meet this goal by facilitating greater community engagement and interaction with the Board on matters of local concern.

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses			
Additional Appropriation Requested			
Total Expenditures			
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other			
Use of Fund Balance			
Contingencies			
Total Sources			

Narrative Explanation of Fiscal Impacts:

Ongoing costs related to the Municipal Advisory Councils may be covered with discretionary funds available to the Board, such as each Supervisor's Tourism Impact Funds under the Community Investment Fund.

Based on experiences from County staff as well as staff from other Counties, it is projected that each Council would need 16 hours of support time/month as well training of each Council. This support may be provided by existing staff to the Board of Supervisors. In the Budget for Fiscal Year 2018-2019 the Board approved one additional staff member in each district, to assist with "Board District Services."

Staffing Impacts

SPRINGS MUNICIPAL ADVISORY COUNCIL
BYLAWS
Approved by the Sonoma County Board of Supervisors on December 11, 2018

ARTICLE I - NAME

The name of this Municipal Advisory Council shall be the Springs Municipal Advisory Council ("Springs MAC").

ARTICLE II - AUTHORITY AND PURPOSE

Section 1. The Springs MAC will make recommendations to the Board of Supervisors and other County decision makers through the District Supervisor on the following Advisory Topics in the Springs MAC boundaries:

a. Use Permit Applications and planning topics when referred by the Sonoma Valley Citizens Advisory Commission
b. Prioritization of Transportation and Transit Improvements when requested by the District Supervisor
c. Health and Human Safety-Net Services when requested by the District Supervisor
d. Community projects such as art, clean ups and vegetation planting when requested by the District Supervisor
e. Additional Topics Requested by the District Supervisor

Section 2. The duties of Springs MAC shall include:

a. Hold regular open and public meetings;
b. Study and analyze the Advisory Topics;
c. Keep the District Supervisor informed of any issues related to Advisory Topics within the Springs MAC boundaries;
d. Provide advisory recommendations on the Advisory Topics to the Board of Supervisors and other County decision makers through the District Supervisor, and annual reports to the Board in coordination with the District Supervisor;
e. Comply with Sonoma County Municipal Advisory Council Policies and Procedures.

Section 3. The Springs MAC shall not represent the community or communicate on behalf of the Springs MAC to any County of Sonoma body, any federal, state, other county, city, special district or school district, agency body or commission, or before any other organization on any matter concerning the community except as specifically provided in Sections 1 and 2 above.

ARTICLE III - MEMBERSHIP

Section 1. Membership. The membership of Springs MAC shall be seven members.

Requirements for membership include*:* members must reside or own a business within the boundaries of the Municipal Advisory Council, and be 18 years of age or older. There are no requirements for property ownership or citizenship. Ideal candidates will create a diverse composition representative of the Spring MAC community.

The District Supervisor may select members based on the following criteria:

a. To provide well rounded representation, the following groups within the MAC Boundaries have representation on the MAC: the Sonoma Valley Unified School District, the Sonoma Valley Citizens Advisory Commission, the business community, and the community at large.

b. The Springs MAC will have the following representation:
   Sonoma Valley Unified School District: one representative
   Sonoma Valley Citizens Advisory Commission: one representative
   Business Community: one representative
   At Large: four representatives; two alternates

c. The District Supervisor will solicit applications for at-large members of the MAC.

d. The District Supervisor will consider the potential representatives from the groups, review applications for the at-large members, and will select final nominations to submit to the Board of Supervisors for appointment.

Section 2. Appointment Authority. The District Supervisor shall submit candidates to the Board of Supervisors for appointment. Appointments shall be posted in accordance with the Maddy Act (Government Code section 54970 *et seq.*).

Section 3. Terms. A membership term is a two-year period. Springs MAC members may be reappointed. Members may serve a maximum of two terms (four years in total).

Section 4. The Board of Supervisors shall classify the initial members into two classes. Class A shall consist of four members; Class B shall consist of three members. One Class A alternate and one Class B alternate shall also be appointed. Class A shall have an initial membership term of three years. Class B shall have an initial membership term of two years. Thereafter, each member’s term shall be two years. The District Supervisor shall determine which members shall serve the initial three-year term.

Section 5. Attendance. Members are expected to attend all meetings of Springs MAC. Absence from two consecutive or three cumulative absences from Springs MAC meetings in a twelve-month period may result in removal.

Section 6. Removal. The District Supervisor may, in his or her discretion, recommend removal of a member to the Board of Supervisors. A majority vote by the Board is necessary to remove a member.

Section 7. Vacancies. A vacancy shall exist when a member dies, or submits a written resignation to the District Supervisor, or has been removed as set forth in Section 6. When a vacancy occurs, the District Supervisor will fill the vacancy consistent with membership criteria and submit recommendations to the Board of Supervisors for appointment.

ARTICLE IV- MEETINGS

Section 1. Brown Act. All meetings of Springs MAC and, its committees and subcommittees, shall comply with the Brown Act (Government Code section 54950 *et seq.*).

Section 2. Regular Meetings. Regular meetings of Springs MAC shall be held monthly at a place open to the public and at a consistent date and time. Notice of the meeting time and place should be given to the public and the MAC members at least 72 hours before the meeting. After conferring with the District Supervisor, the Chair or Vice Chair may cancel any regular meeting by giving written notice of at least seventy-two hours before the regularly scheduled meeting time. This requirement of notification prior to cancellation shall not be waived.

Section 3. Special Meetings. The Chair may call and preside over special meetings. The Chair may call a special meeting by providing notice of the time, place, and agenda to each member and the public at least 24 hours before the special meeting. Only items on the agenda of the special meeting may be considered at said special meeting.

Section 4. Quorum. A quorum of the Springs MAC members must be present at any regular or special meeting in order for a decision to be made on any matter. A quorum is defined as a majority of MAC membership (four members), or three members plus an alternate.

Section 5. Voting. While Springs MAC will strive for consensus, every official action taken by Springs MAC shall be adopted by a quorum vote. An alternate of the Springs MAC may vote under the following circumstances: 1) If an at large member of the MAC is absent from a meeting and the alternate replaces that MAC member for the full meeting; 2) If an at large member of the MAC recuses themselves from an item the alternate may replace that MAC member for the full meeting. If an alternate is sitting for a MAC member and the agenda includes items continued from a prior meeting, the alternate must state on the record that she/he has reviewed the relevant materials for the items on the agenda, including the minutes (if available) from the prior meeting.

Section 6. Abstention. When any member abstains from participation in any matter before Springs MAC because of a conflict of interest, that member shall not be counted as present for purposes of determining whether or not there is a quorum. An alternate may fill the MAC member's seat as outlined in sections four and five.

Section 7. Secretary. As discussed in the Policies and Procedures, administrative support for the Springs MAC shall be provided by staff identified by the District Supervisor, through a voluntary agreement, a contract, or other appropriate means.

Section 8. Notice. Springs MAC meetings will be open and public, with notice of the time and place given to the public and Springs MAC members at least 72 hours before the time of regular meetings and at least 24 hours before special meetings.

Section 9. Public Comment. At each Springs MAC meeting, members of the public will be given the opportunity to directly address the items on the agenda before being voted on, and on Advisory Topics within the jurisdiction of Springs MAC.

ARTICLE V – ADMINSTRATIVE ROLES

Section 1. The Springs MAC shall have a Chair and Vice Chair. The District Supervisor shall appoint the first Chair and Vice Chair. After that, the MAC will elect the Chair and Vice Chair annually. The Chair and Vice Chair will serve for one calendar year, or until replaced by the District Supervisor, and will serve as the Chair and/or Vice Chair for no more than two consecutive years.

Section 2. Chair. The Chair shall preside at all meetings of Springs MAC and call for special meetings. The Chair shall carry out the duties listed in the Sonoma County Municipal Advisory Council Policies and Procedures.

Section 3. Vice Chair. In the Chair's absence, the Vice Chair shall assume the Chair's responsibilities. The Vice Chair shall carry out the duties listed in the Sonoma County Municipal Advisory Council Policies and Procedures.

ARTICLE VI - COMMITTEES AND SUBCOMMITTEES

Section 1. The Springs MAC may establish single-purpose committees or subcommittees, consisting of less than a quorum of MAC members and up to three community members, on an as-needed basis by a quorum vote. All committees and subcommittees shall have a life of one year, with the possibility of extension by the MAC after review. All committees and subcommittees shall comply with the Brown Act.

ARTICLE VII - CONTRACTS

Section 1. The Springs MAC and/or members thereof shall not have the power or authority to bind the County of Sonoma by any contract or agreement.

ARTICLE VIII - CONFLICT OF INTEREST/GRIEVANCES

Section 1. Conflict of Interest. Springs MAC members will not involve themselves in official Springs MAC activities that could materially benefit them personally, their business interests, or the interests of organizations that they represent. In a conflict of interest, the member will abstain from voting, and the abstention will be recorded in the minutes.

Section 2. Members and staff will comply with State of California laws regarding conflict of interest for publicly appointed bodies, including the Political Reform Act. Springs MAC will implement the procedure for resolving conflicts of interest in the Sonoma County Municipal Advisory Council Recommended Policies and Procedures.

ARTICLE IX - AMENDMENTS

Section 1. A recommendation to the Board of Supervisors to amend these bylaws may be made at any regular meeting of Springs MAC by a quorum vote of MAC members, provided that copies of the proposed amendments are sent to all members of Springs MAC at least ten days prior to the meeting at which such action is taken. The amendment will not be effective until and unless it is approved by majority vote of the Board of Supervisors.

ARTICLE X – MINUTES

Section 1. There shall be minutes of the Springs MAC meeting proceedings. The Springs MAC administrative staff shall be responsible for minutes and will be responsible for the sending of minutes to all Springs MAC members, the District Supervisor, and members of the public who request them. A record of minutes will be maintained by Springs MAC secretary.

ARTICLE XI – RECORDS

Section 1. Records of all Springs MAC agendas, minutes, meeting materials, records of action, annual reports, and external communications from at least the prior two years shall be maintained by Springs MAC Secretary and retained at a location designated by the District Supervisor. These records shall be available for public inspection and copying as required by the Public Records Act (Government Code section 6250 *et seq.*).

ARTICLE XII - PARLIAMENTARY AUTHORITY

Except as otherwise provided by law, these bylaws, or rules adopted by the Board of Supervisors, Rosenberg's Rules of Order shall be the parliamentary authority of Springs MAC. In the event of a conflict between Rosenberg's Rules of Order and the Sonoma County Code, provisions of County Code shall prevail.

ARTICLE XIII – LEGAL COMPLIANCE

Springs MAC shall comply with the legal requirements of the County of Sonoma, the State of California, and with federal funding sources. Nothing in these bylaws, adopted Recommended Policies and Procedures or parliamentary rules shall be interpreted to be inconsistent with the ordinances and/or other enactments of the Sonoma County Board of Supervisors.

ARTICLE XIV – COMMUNICATIONS

Section 1. Springs MAC members will establish a Community Engagement Plan at the start of each calendar year, to be approved by the District Supervisor.

Section 2. The Springs MAC will coordinate requests to County staff for information with the District Supervisor. Any such request will be communicated through the Chair of the Springs MAC to staff of the District Supervisor's Office, and not by individual members of the MAC or by the Chair directly to other County staff members.

ARTICLE XV - EFFECTIVE DATE

These bylaws and future amendments thereto, unless otherwise specified, shall become effective upon adoption by the Sonoma County Board of Supervisors.

Approved by the Sonoma County Board of Supervisors on December 11, 2018.

____
James Gore, Chair, Sonoma County Board of Supervisors

SPRINGS MUNICIPAL ADVISORY COUNCIL
BYLAWS

Approved by the Sonoma County Board of Supervisors on December 11, 2018

ARTICLE I - NAME

The name of this Municipal Advisory Council shall be the Springs Municipal Advisory Council ("Springs MAC").

ARTICLE II - AUTHORITY AND PURPOSE

Section 1. The Springs MAC will make recommendations to the Board of Supervisors and other County decision makers through the District Supervisor on the following Advisory Topics in the Springs MAC boundaries:

a. Use Permit Applications and planning topics when referred by the Sonoma Valley Citizens Advisory Commission
b. Prioritization of Transportation and Transit Improvements when requested by the District Supervisor
c. Health and Human Safety-Net Services when requested by the District Supervisor
d. Community projects such as art, clean ups and vegetation planting when requested by the District Supervisor
e. Additional Topics Requested by the District Supervisor

Section 2. The duties of Springs MAC shall include:

a. Hold regular open and public meetings;
b. Study and analyze the Advisory Topics;
c. Keep the District Supervisor informed of any issues related to Advisory Topics within the Springs MAC boundaries;
d. Provide advisory recommendations on the Advisory Topics to the Board of Supervisors and other County decision makers through the District Supervisor, and annual reports to the Board in coordination with the District Supervisor;
e. Comply with Sonoma County Municipal Advisory Council Policies and Procedures.

Section 3. The Springs MAC shall not represent the community or communicate on behalf of the Springs MAC to any County of Sonoma body, any federal, state, other county, city, special district or school district, agency body or commission, or before any other organization on any matter concerning the community except as specifically provided in Sections 1 and 2 above.

ARTICLE III - MEMBERSHIP

Section 1. Membership. The membership of Springs MAC shall be seven members.

Requirements for membership include: members must reside or own a business within the boundaries of the Municipal Advisory Council, and be 18 years of age or older. There are no requirements for property ownership or citizenship. Ideal candidates will create a diverse composition representative of the Spring MAC community.

The District Supervisor may select members based on the following criteria:

a. To provide well rounded representation, the following groups within the MAC Boundaries have representation on the MAC: the Sonoma Valley Unified School District, the Sonoma Valley Citizens Advisory Commission, the business community, and the community at large.

b. The Springs MAC will have the following representation:
  Sonoma Valley Unified School District: one representative
  Sonoma Valley Citizens Advisory Commission: one representative
  Business Community: one representative
  At Large: four representatives; two alternates

c. The District Supervisor will solicit applications for at-large members of the MAC.

d. The District Supervisor will consider the potential representatives from the groups, review applications for the at-large members, and will select final nominations to submit to the Board of Supervisors for appointment.

Section 2. Appointment Authority. The District Supervisor shall ~~review all qualified applicants and~~ submit ~~selected applicants~~candidates to the Board of Supervisors for appointment. Appointments shall be posted in accordance with the Maddy Act (Government Code section 54970 *et seq*.).

Section 3. Terms. A membership term is a two-year period. Springs MAC members may be reappointed. Members may serve a maximum of two terms (four years in total).

Section 4. The Board of Supervisors shall classify the initial members into two classes. Class A shall consist of four members; Class B shall consist of three members. One Class A alternate and one Class B alternate shall also be appointed. Class A shall have an initial membership term of three years. Class B shall have an initial membership term of two years. Thereafter, each member's term shall be two years. The District Supervisor shall determine which members shall serve the initial three-year term. The at-large appointed alternates shall have the same term as the at-large appointees, and shall serve in the absence of the at-large member.

Section 5. Attendance. Members are expected to attend all meetings of Springs MAC. Absence from two consecutive or three cumulative absences from Springs MAC meetings in a twelve-month period may result in removal.

Section 6. Removal. The District Supervisor may, in his or her discretion, recommend removal of a member to the Board of Supervisors. A majority vote by the Board is necessary to remove a member.

Section 7. Vacancies. A vacancy shall exist when a member dies, or submits a written resignation to the District Supervisor, or has been removed as set forth in Section ~~7~~6. When a vacancy occurs, the District Supervisor will ~~review applications to~~ fill the vacancy consistent with membership criteria and submit recommendations to the Board of Supervisors for appointment.

ARTICLE IV- MEETINGS

Section 1. Brown Act. All meetings of Springs MAC and, its committees and subcommittees, shall comply with the Brown Act (Government Code section 54950 *et seq*.).

Section 2. Regular Meetings. Regular meetings of Springs MAC shall be held monthly at a place open to the public and at a consistent date and time. Notice of the meeting time and place should be given to the public and the MAC members at least 72 hours before the meeting. After conferring with the District Supervisor, the Chair or Vice Chair may cancel any regular meeting by giving written notice of at least seventy-two hours before the regularly scheduled meeting time. This requirement of notification prior to cancellation shall not be waived.

Section 3. Special Meetings. The Chair may call and preside over special meetings. The Chair may call a special meeting by providing notice of the time, place, and agenda to each member and the public at least 24 hours before the special meeting. Only items on the agenda of the special meeting may be considered at said special meeting.

Section 4. Quorum. A quorum of the Springs MAC members must be present at any regular or special meeting in order for a decision to be made on any matter. A quorum is defined as a majority of MAC membership (four members), or three members plus an alternate.

Section 5. Voting. While Springs MAC will strive for consensus, every official action taken by Springs MAC shall be adopted by a quorum vote. An alternate of the Springs MAC may vote under the following circumstances: 1) If an at large member of the MAC is absent from a meeting and the alternate replaces that MAC member for the full meeting; 2) If an at large member of the MAC recuses themselves from an item the alternate may replace that MAC member for the full meeting. If an alternate is sitting for a MAC member and the agenda includes items continued from a prior meeting, the alternate must state on the record that she/he has reviewed the relevant materials for the items on the agenda, including the minutes (if available) from the prior meeting.

Section 6. Abstention. When any member abstains from participation in any matter before Springs MAC because of a conflict of interest, that member shall not be counted as present for purposes of determining whether or not there is a quorum. An alternate may fill the MAC member’s seat as outlined in sections four and five.

Section 7. Secretary. As discussed in the Policies and Procedures, administrative support for the Springs MAC shall be provided by staff identified by the District Supervisor, through a voluntary agreement, a contract, or other appropriate means.

Section 8. Notice. Springs MAC meetings will be open and public, with notice of the time and place given to the public and Springs MAC members at least 72 hours before the time of regular meetings and at least 24 hours before special meetings.

Section 9. Public Comment. At each Springs MAC meeting, members of the public will be given the opportunity to directly address the items on the agenda before being voted on, and on Advisory Topics within the jurisdiction of Springs MAC.

ARTICLE V – ADMINSTRATIVE ROLES

Section 1. The Springs MAC shall have a Chair and Vice Chair. The District Supervisor shall appoint the first Chair and Vice Chair. After that, the MAC will elect the Chair and Vice Chair annually. The Chair and Vice Chair will serve for one calendar year, or until replaced by the District Supervisor, and will serve as the Chair and/or Vice Chair for no more than two consecutive years.

Section 2. Chair. The Chair shall preside at all meetings of Springs MAC and call for special meetings. The Chair shall carry out the duties listed in the Sonoma County Municipal Advisory Council Policies and Procedures.

Section 3. Vice Chair. In the Chair's absence, the Vice Chair shall assume the Chair's responsibilities. The Vice Chair shall carry out the duties listed in the Sonoma County Municipal Advisory Council Policies and Procedures.

ARTICLE VI - COMMITTEES AND SUBCOMMITTEES

Section 1. The Springs MAC may establish single-purpose committees or subcommittees, consisting of less than a quorum of MAC members and up to three community members, on an as-needed basis by a quorum vote. All committees and subcommittees shall have a life of one year, with the possibility of extension by the MAC after review. All committees and subcommittees shall comply with the Brown Act.

ARTICLE VII - CONTRACTS

Section 1. The Springs MAC and/or members thereof shall not have the power or authority to bind the County of Sonoma by any contract or agreement.

ARTICLE VIII - CONFLICT OF INTEREST/GRIEVANCES

Section 1. Conflict of Interest. Springs MAC members will not involve themselves in official Springs MAC activities that could materially benefit them personally, their business interests, or the interests of organizations that they represent. In a conflict of interest, the member will abstain from voting, and the abstention will be recorded in the minutes.

Section 2. Members and staff will comply with State of California laws regarding conflict of interest for publicly appointed bodies, including the Political Reform Act. Springs MAC will implement the procedure for resolving conflicts of interest in the Sonoma County Municipal Advisory Council Recommended Policies and Procedures.

ARTICLE IX - AMENDMENTS

Section 1. A recommendation to the Board of Supervisors to amend these bylaws may be made at any regular meeting of Springs MAC by a quorum vote of MAC members, provided that copies of the proposed amendments are sent to all members of Springs MAC at least ten days prior to the meeting at which such action is taken. The amendment will not be effective until and unless it is approved by majority vote of the Board of Supervisors.

ARTICLE X – MINUTES

Section 1. There shall be minutes of the Springs MAC meeting proceedings. The Springs MAC administrative staff shall be responsible for minutes and will be responsible for the sending of minutes to all Springs MAC members, the District Supervisor, and members of the public who request them. A record of minutes will be maintained by Springs MAC secretary.

ARTICLE XI – RECORDS

Section 1. Records of all Springs MAC agendas, minutes, meeting materials, records of action, annual reports, and external communications from at least the prior two years shall be maintained by Springs MAC Secretary and retained at a location designated by the District Supervisor. These records shall be available for public inspection and copying as required by the Public Records Act (Government Code section 6250 *et seq*.).

ARTICLE XII - PARLIAMENTARY AUTHORITY

Except as otherwise provided by law, these bylaws, or rules adopted by the Board of Supervisors, ~~Robert's~~ Rosenberg's Rules of Order shall be the parliamentary authority of Springs MAC. In the event of a conflict between Rosenberg's Rules of Order and the Sonoma County Code, provisions of County Code shall prevail.

ARTICLE XIII – LEGAL COMPLIANCE

Springs MAC shall comply with the legal requirements of the County of Sonoma, the State of California, and with federal funding sources. Nothing in these bylaws, adopted Recommended Policies and Procedures or parliamentary rules shall be interpreted to be inconsistent with the ordinances and/or other enactments of the Sonoma County Board of Supervisors.

ARTICLE XIV – COMMUNICATIONS

Section 1. Springs MAC members will establish a Community Engagement Plan at the start of each calendar year, to be approved by the District Supervisor.

Section 2. The Springs MAC will coordinate requests to County staff for information with the District Supervisor. Any such request will be communicated through the Chair of the Springs MAC to staff of the District Supervisor's Office, and not by individual members of the MAC or by the Chair directly to other County staff members.

ARTICLE XV - EFFECTIVE DATE

These bylaws and future amendments thereto, unless otherwise specified, shall become effective upon adoption by the Sonoma County Board of Supervisors.

Approved by the Sonoma County Board of Supervisors on December 11, 2018.

____
James Gore, Chair, Sonoma County Board of Supervisors

County of Sonoma
State of California

Item Number: ______________

Date: September 25, 2018

Resolution Number: ______________

☐ 3/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Establishing the Springs Municipal Advisory Council

Whereas, the Springs Area in unincorporated Sonoma County, situated in the County's First Supervisorial District, is a vibrant community for local residents and businesses, and visitors alike; and

Whereas, unincorporated segments of the County such as the Springs area have become increasingly municipal in nature and need a mechanism to effectively communicate their needs to County government and elected leaders; and

Whereas, Government Code section 31010 authorizes the Board of Supervisors to establish a Municipal Advisory Council for any unincorporated area in the county to advise the Board on such matters which relate to that area as may be designated by the Board; and

Whereas, the Board of Supervisors desires to establish the Springs Municipal Advisory Council to advise the Board on local decisions relating to the Springs Area, and to provide a bridge for communication between the County and local residents and businesses on local government decisions affecting the Springs Area;

Now, Therefore, Be It Resolved that the Board of Supervisors hereby establishes the Springs Municipal Advisory Council, subject to the Sonoma County Municipal Advisory Council Recommended Policies and Procedures, and to the following operative provisions:

1. Established Boundaries - The Established Boundary for projects subject to review of the Springs Municipal Advisory Council are shown in Exhibit "A," attached.

2. Qualifications - Members must reside or own a business within the boundaries of the Municipal Advisory Council, and be 18 years of age or older. There are no requirements for property ownership or citizenship. Ideal candidates will create a diverse composition representative of the Spring MAC community.

3. The membership of Springs Municipal Advisory Council shall consist of seven members appointed by the Board of Supervisors.

4. The members of the Springs Municipal Advisory Council will be selected using the following methods:
   a. The First District Supervisor will select nominations to submit to the Board of Supervisors for appointment.

5. The Springs Municipal Advisory Council will make recommendations to the Board of Supervisors and other County decision makers through the District Supervisor on the following Advisory Topics, in the Springs Municipal Advisory Council boundaries:

   a. Use Permit Applications and planning topics when referred by the Sonoma Valley Citizens Advisory Council
   b. Prioritization of Transportation and Transit Improvements when requested by the District Supervisor
   c. Health and Human Safety-Net Services when requested by the District Supervisor
   d. Community projects such as art, clean ups and vegetation planting when requested by the District Supervisor
   e. Additional Topics Requested by the District Supervisor

6. The duties of Springs Municipal Advisory Council shall include:
   a. Hold regular open and public meetings;
   b. Study and analyze the Advisory Topics;
   c. Keep the District Supervisor informed of any issues related to Advisory Topics within the Springs MAC boundaries;
   d. Provide advisory recommendations on the Advisory Topics to the Board of Supervisors and other County decision makers through the District Supervisor, and annual reports to the Board in coordination with the District Supervisor;
   e. Comply with Sonoma County Municipal Advisory Council Policies and Procedures.

7. The decision to establish the Springs Municipal Advisory Council shall not be submitted to the voters.

Sonoma County
Municipal Advisory Council
Recommended Policies and Procedures

Adopted July 18, 2017

Table of Contents

I. Statutory Authority

Pursuant to Government Code section 31010 the Board of Supervisors (Board) may, by resolution, establish a municipal advisory council (MAC) for any unincorporated area in the County to advise the Board on matters relating to that area. MACs have two primary functions: an advisory function and an advocacy function. The Board may grant and define these functions as it sees fit. MACs do not have the power to interpret, make, or set policies, ordinances, or laws, and lack fiscal authority. Counties use MACs to provide an information sharing forum for the community and local government agencies. MACs provide recommendations to the Board on matters designated by the Board, such as current or prospective government services, public health, safety, welfare, public works, and planning.

The resolution establishing the MAC must contain the following statutorily required information:

- The name of the municipal advisory council;
- The qualifications, number, and method of selection of municipal council members;
- The designated powers and duties;
- The unincorporated area or areas for which the municipal advisory council is established;
- Whether the council will be established by the Board or by the voters in an election;
- The rules, regulations and procedures governing the establishment and operation of the municipal advisory council.[1]

Aside from the information listed above, the Board has discretion to create the policies and procedures governing MACs.

II. MACs in Sonoma County

Use of MACs in Sonoma County is limited. The Board established the now-dissolved Windsor Municipal Advisory Council in 1987.[2] There are currently two MACs in existence: the Dry Creek Valley Citizens Advisory Council[3] and the Mark West Area Citizens Advisory Council,[4] both located in the Fourth District of unincorporated Sonoma County.

III. Purpose

This document provides MAC policy recommendations and analysis to ensure consistency in the operations and governance of existing and future MACs.

IV. Sources Consulted

The recommendations discussed in this document are adapted from MAC guidance issued by Contra Costa County and Mendocino County.

[2] Resolution No. 87-0139 (Jan 21, 1987).

[3] Resolution No. 12-0410 (Aug 21, 2012).

[4] Resolution No. 16-0231 (Jun 14, 2016).

V. Recommended Policies & Procedures

a. Member Appointments

The Board may choose to select members by election or by appointment. Membership by appointment is recommended because it reduces the likelihood of unfilled positions, costs, and procedural concerns. To ensure the size and composition of a MAC is large enough to facilitate representation of the MAC area, but small enough to manage administrative costs and handle business efficiently, MACs consisting of five members is recommended. A MAC may be established with seven members if it is demonstrated that this is necessary to provide appropriate representation of all segments of the community. Establishing alternate member positions may assist with reaching a quorum.

Recommendations

i. MACs shall consist of five members in total.

ii. All members must reside within the MAC boundaries.

iii. To nominate or re-nominate a member, the District Supervisor reviews applications and submits a list of nominations to the Board of Supervisors for approval. A majority vote of the Board is required to approve a member.

iv. Nominations and re-nominations should be made within the first 60 days of the authorization of the MAC.

v. In the event of a member vacancy, the District Supervisor should arrange for the position information to be posted on Sonoma County online vacancy list within 20 days of the vacancy.

vi. The District Supervisor shall establish two alternate member positions. Alternate members may attend MAC meetings for absent members on an as-needed basis.

b. Member Terms

The Board must determine the member term length and the member removal procedure.

Recommendations

i. Members shall hold a term of two years.

ii. Members can serve up to two terms (four years in total).

iii. Members may be re-appointed after two terms, only after a two year break in service.

iv. Members serve at the pleasure of the Board of Supervisors, and can be removed by the Board at any time.

v. Classification of Initial MAC Members: The Board of Supervisors shall classify the initial members into two classes. Class A shall consist of three members; Class B shall consist of two members. Class A shall have an initial membership term of two years. Class B shall have an initial membership term of three years.

vi. MAC Member Removal Procedure: (1) District Supervisor submits recommendation for removal to the Board of Supervisors; (2) MAC member receives written notice from MAC secretary of the recommendation for removal, the date and time of the meeting at which the Board will consider the removal, and the opportunity for public comment at the meeting prior to Board action; (3) A majority vote by the Board of Supervisors is required to remove a member.

vii. There should be no automatic re-appointment of MAC members. When a member's term expires, his or her appointment terminates.

viii. Absence from two consecutive or three cumulative regular MAC meetings in a 12-month period may result in removal. If a member is absent from two consecutive or three cumulative regular MAC meetings in a 12-month period, the secretary shall notify the District Supervisor. A recommendation for removal based on absences is within the District Supervisor's discretion.

ix. Failure to comply with MAC Bylaws may result in a recommendation of removal by the District Supervisor to the Board of Supervisors.

c. <u>Administrative Roles</u>

MACs require administrative leadership and support. Establishing Chair and Vice Chair positions may be helpful to assist with MAC operations and communications. A non-member secretary position may be filled by the District Supervisor's staff or by an independent contractor retained by the County.

Recommendations

i. The District Supervisor shall appoint the first MAC Chair to serve for the first year the MAC is in existence. After that, the MAC will elect the Chair annually. Chair responsibilities include:

    1. Preside over regular meetings;
    2. Call for and preside over special meetings;
    3. Set meeting agenda and coordinate preparation and posting of agenda with administrative support;
    4. Appoint members to MAC committees;
    5. Act as liaison between MAC.

ii. The District Supervisor shall appoint the first MAC Vice Chair to serve for the first year the MAC is in existence. After that, the MAC will elect the Vice Chair annually. Vice Chair responsibilities include:
    1. In the event of Chair's absence, assume Chair's responsibilities;
    2. Research agenda items and report back to MAC on an as-needed basis;
    3. Maintain record of useful government contacts.

iii. The MAC members shall elect the Chair and Vice Chair for the second year and every year after.

iv. The District Supervisor should determine how to fill the role of MAC Secretary. Secretary responsibilities include:
    1. Prepare, post, and distribute meeting agendas and meeting materials pursuant to the Brown Act;
    2. Arrange attendance at MAC meetings;
    3. Attend all MAC meetings;
    4. Take MAC meeting minutes;
    5. Distribute and maintain record of meeting minutes;
    6. Prepare and transmit MAC reports to the District Supervisor, the Board, or other government agency;
    7. Prepare responses to public comments and inquiries;
    8. Prepare responses to requests from MAC members;
    9. Maintain records of MAC agendas, minutes, meeting materials, records of action, annual reports, MAC member training certifications, and communications from at least the prior two years.
    10. Provide copies of formal MAC communications to the District Supervisor.
    11. Manage MAC budget.

ii. The District Supervisor should coordinate with the Secretary to determine a sufficient storage method and location to retain at least two years of records.

x. The District Supervisor shall oversee the Chair, Vice Chair, and Secretary performance, and Secretary's compensation.

d. MAC Committees

MACs may establish committees or subcommittees (collectively referred to as "committees") on an as-needed basis. The Board should consider whether the MAC may establish committees, and if so, clarify the additional rules that apply to committees under the Brown Act.

Recommendations

i. A MAC may establish single-purpose committees on an as-needed basis by a quorum vote.

ii. An outline of the committee's specific purpose should be submitted to the Board with the MAC's annual report.

iii. Committees should have an annual life of one year.

iv. Committees should be composed of two MAC members in total.

v. Members of the public, who are not appointed to the MAC, may not serve on a MAC committee.

vi. All committees shall comply with the Brown Act.

e. Member Training

Member training is necessary to familiarize members with the state laws that apply to public bodies, such as the Brown Act. Training for new MAC members should be coordinated by the Sonoma County Administrators' Office and the Sonoma County Counsel's Office.

Recommendations

i. Designate MAC training liaison at County Administrator's Office and the County Counsel's Office.

ii. Provide all new MAC members with general training on the MAC Policies and Procedures, the MAC Bylaws, and the laws that apply to public bodies within 60 days of appointment.

iii. Provide MAC members with annual training on laws that apply to public agencies, specifically including the Brown Act and the Public Records Act.

iv. Require that MAC members complete the FPPC AB 1234 online conflict of interest training.

f. Conflicts of Interest

To address potential conflicts of interest the following policies are recommended.

Recommendations

i. MAC members will not involve themselves in official MAC activities that could materially benefit them personally, their business interests, or the interests of organizations that they represent. In a conflict of interest the member will abstain from voting, and the abstention will be recorded in the minutes.

ii. If the MAC makes substantive recommendations, which are regularly approved by the Board over an extended period of time, without significant amendment or modification, the MAC members and secretary must file an annual Statement of Economic Interests (State Form 700).[5] These statements will be included in the County's biennial review of the Conflicts of Interest Code. The Clerk of the Board of Supervisors will keep these statements on file and make them available for public inspection.

iii. Concerns regarding conflicts of interest should be directed to the District Supervisor.

g. Brown Act

MACs, and MAC committees or subcommittees, shall comply with the Ralph M. Brown Act (Government Code, section 54950, *et seq.*).

h. MAC Meetings: Location, Frequency, and Length

Regular MAC meetings should be held on a monthly basis at an established date and time at a place that is open and accessible to the public.

Recommendations

i. One regular MAC meeting should be held at an established place and time each month, as determined by a quorum vote.

ii. Meetings should be held a time and place that is convenient and accessible for MAC members, community members, and Secretary to attend.

iii. MAC meetings should generally not exceed three hours in length.

iv. The Chair may impose time limits for public comment at MAC meetings.

v. If the MAC limits the time for public comment at meetings, the MAC must provide at least twice the allotted time to a member of the public who utilizes a human translator to ensure that non-English speakers receive the same opportunity to directly address the legislative body of a local agency.[6]

---

[5] Cal. Code Regs., tit. 2, § 18700.

[6] Gov. Code, § 54954.3.

i. <u>MAC Meetings: Procedures</u>

MAC meetings provide an opportunity for the members and the public to discuss the Advisory topics and develop recommendations for the Board. All MAC meetings must be open to the public and comply with the Brown Act.

Recommendations

i. All meetings shall be open and public and held in an ADA accessible location, and all persons shall be permitted to attend any MAC meeting.

ii. MACs should use the MAC Agenda Template for each regular meeting.

iii. Notice of the meeting time and place shall be given to the public and the MAC members at least seventy-two (72) hours before the time of such meeting.

iv. For regular meetings that occur on or after January 1, 2019, the MAC must post the agenda on the primary homepage of its homepage website at least seventy-two (72) hours before the time of such meeting.[7]

v. Meeting agendas should be posted at least seventy-two (72) hours before a regular meeting.

vi. Before each meeting the MAC Chair should remind the public on the record that the MAC is an advisory body to the Board of Supervisors.

vii. Robert's Rules of Order shall be the parliamentary authority at MAC meetings.

viii. A quorum of MAC members must be present at any regular or special meeting in order for a decision to be made on any matter. A quorum is defined as a majority of MAC members.

ix. All writings related to an agenda item that are distributed to a majority of the MAC members *prior to* a MAC meeting must be made available to for public viewing at a specified location open to the public, accessible during normal business hours, at least seventy-two (72) hours before a regular meeting. Copies should also be available at the meeting for public inspection.

[7] Gov. Code, § 54954.2.

x. Copies (a minimum of 10) of all writings related to an agenda item and prepared by the MAC that are distributed to a majority of the MAC members *during* a MAC meeting, must be made available for public inspection at the meeting. Copies of all writings related to an agenda item and prepared by another person that are distributed to a majority of the MAC members *during* a MAC meeting, must be made available for public inspection after the meeting.

xi. The Minutes for the prior meeting shall be reviewed and approved by the members at the following regular meeting.

xii. The Secretary shall attend and take minutes at all meetings.

j. Special MAC Meetings

The Brown Act provides additional requirements for holding special meetings.

Recommendations

i. The Chair may call a special MAC meeting by delivering written notice to each MAC member and to each local newspaper of general circulation and radio or television station requesting notice in writing and posting a notice on the MAC website, if the MAC has a website.

ii. The notice of a special meeting shall be delivered personally or by any other means and shall be received at least twenty-four (24) hours before the time of the meeting as specified in the notice.

iii. For special meetings that occur on or after January 1, 2019, the MAC must post the agenda on the primary homepage of its homepage website at least seventy-two (72) hours before the time of such meeting.[8]

k. External Communications

MACs do not have the power to interpret, make, or set policies, ordinances, or laws, and lack fiscal authority. MAC authority to make external communications is also limited.

Recommendations

i. Except as specified in the resolution establishing the MAC or the MAC bylaws, the MAC and its individual members acting on behalf of the MAC, may not represent the community to any federal, state, other county, city, special district or school district, agency or commission, or any other organization on any matter concerning the community.

---

[8] Gov. Code, § 54954.2.

ii. The MAC’s advisory role is limited to the Advisory Topics stated in the resolution establishing the MAC.

iii. The MAC may represent the community before the Board of Supervisors by providing public comment on Advisory Topics at Board meetings.

iv. The MAC may provide input with respect to Advisory Topics to the Board, County staff, or any County hearing body.

v. Individual MAC members cannot represent the MAC's positions unless such representation has been expressly authorized by a vote of the MAC. When an individual member is authorized to represent the MAC's position to the Board, County staff, or other County hearing body, that member may only speak on issues expressly approved by the MAC.

vi. The MAC may not, as a body, take positions on candidates for any public office or on any ballot measures.

vii. All printed or electronic communications from the MAC should identify the MAC as an advisory body to the Board of Supervisors and include:
    1. The District Supervisor’s name and contact information; and
    2. Disclaimer: *The views expressed therein are of the MAC only and do not represent Sonoma County’s official position*.

l. <u>Annual Report</u>

Annual reports provide the Board with necessary MAC oversight information.

Recommendations

i. MACs must submit to the District Supervisor a written annual report containing the following information about the prior year:
    1. Activities
    2. Accomplishments
    3. Membership attendance
    4. Membership training
    5. Proposed objectives for the next year

ii. Annual reports must be submitted to the District Supervisor on the second Tuesday of each February.

iii. MACs may consult with the District Supervisor and County staff to assist in drafting the annual report. However, assistance from the District Supervisor and County staff is limited to answering questions. It is the MAC's responsibility to complete and submit the annual report.

iv. The District Supervisor should review the annual report and recommend appropriate action by the Board of Supervisors.

v. Failure to submit an annual report may result in the District Supervisor recommending that the MAC be dissolved by the Board of Supervisors.

m. Boundaries

MACs may be established in unincorporated areas of the County.

Recommendations

i. The Board should consider the following criteria when determining MAC boundaries:
   1. Existing borders establishing communities of interest;
   2. Population density;
   3. Areas of special interest: industrial areas; government-owned property; coastal land.

n. Funding

MAC funding sources vary within the County and among other counties. Some MACs are funded by donations, special revenue streams, or the General Fund. MACs generally require funding for administrative support services, meeting rental spaces, member expense reimbursement, and website maintenance. MACs do not have the authority to enter contracts or to incur any indebtedness in the name of or on behalf of itself, the Board, or the County.

o. Dissolution

MACs shall remain in existed until formally dissolved by the Board of Supervisors.

Recommendations

i. MAC dissolutions are recommended by the District Supervisor and approved by the Board of Supervisors.

p. Existing MACS

Option 1: In instances where existing bylaws or polices of MACs are inconsistent with these Policies and Procedures adopted by the Board, the policies of the existing MACs take precedence.

Option 2: In instances where existing bylaws or polices of MACs are inconsistent with these Policies and Procedures adopted by the Board, these Policies and Procedures are deemed to take precedence, and the MAC shall take action at its next available meeting to amend its bylaws or policies.

VI. Resources & Templates

a. Government Code, section 31010
b. Sonoma County MAC Checklist
c. Sonoma County MAC Agenda Template
d. Sonoma County MAC Minutes Template

Cal. Gov. Code, § 31010. **Municipal advisory council for unincorporated area; Funds and payments therefrom; Contents of resolution establishing council**

The board of supervisors of any county may by resolution establish and provide funds for the operation of a municipal advisory council for any unincorporated area in the county to advise the board on such matters which relate to that area as may be designated by the board concerning services which are or may be provided to the area by the county or other local governmental agencies, including but not limited to advice on matters of public health, safety, welfare, public works, and planning. Unless the board of supervisors specifically provides to the contrary, a municipal advisory council may represent the community to any state, county, city, special district or school district, agency or commission, or any other organization on any matter concerning the community. The board may pay from available funds such actual and necessary expenses of travel, lodging, and meals for the members of the council while on such official business as may be approved by the board.

The resolution establishing any such municipal advisory council shall provide for the following:

(a) The name of the municipal advisory council.

(b) The qualifications, number, and method of selection of its members, whether by election or appointment.

(c) Its designated powers and duties.

(d) The unincorporated area or areas for which the municipal advisory council is established.

(e) Whether the establishment of the council should be submitted to the voters and the method for such submission; provided that if an election is required pursuant to subdivision (b), such election shall be held at the same time as an election held pursuant to this subdivision.

(f) Such other rules, regulations and procedures as may be necessary in connection with the establishment and operation of the municipal advisory council.

County of Sonoma Agenda Item Summary Report

Clerk of the Board
575 Administration Drive
Santa Rosa, CA 95403

Agenda Item Number: 16
(This Section for use by Clerk of the Board Only.)

To: Sonoma County Board of Supervisors

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): Board of Supervisors

Staff Name and Phone Number:	**Supervisorial District(s):**
Supervisor Gore, 565-2241	Fourth District

Title: Establishment of the Geyserville Municipal Advisory Council

Recommended Actions:

Adopt a Resolution to establish the Geyserville Municipal Advisory Council and its boundary; and approve the Geyserville Municipal Advisory Council Bylaws.

Executive Summary:

Unincorporated segments of the County have become increasingly municipal in nature, and now require an effective mechanism to communicate their needs to the Sonoma County Board of Supervisors (Board). Members of the Board currently work with multiple Councils in their districts, including the Sonoma Valley Citizens Advisory Commission in the First District, and the Dry Creek Valley Citizens Advisory Council and Mark West Area Citizens Advisory Council in the Fourth District, and the Lower Russian River and Sonoma County Coast Municipal Advisory Councils in the Fifth District.

If approved, this item will establish the Geyserville Council in the Fourth District, to provide policy recommendations on matters of local concern, such as transportation and land use planning. After the Council is established and the Fourth District Supervisor selects final nominations to the Council, the Fourth District will bring a Board item to appoint members to the Council.

Municipal Advisory Councils are authorized by statute (Government Code section 31010) and can be created by a resolution of County Board of Supervisors.

Discussion:

Geyserville Municipal Advisory Council: Purpose
The Geyserville Municipal Advisory Council will represent the best interests of the entire community while acting as a bridge for communication between the County and local residents and businesses on the following topics for the Geyserville Municipal Advisory Council, when they are referred to the Municipal Advisory Council through the proper channels described in the Bylaws:

1. Recommendations on the Dry Creek Mitigation Fund Set-Aside and funding priorities;
2. Recommendations on proposed General Plan Update policies;
3. Prioritization of Transportation and Transit Improvements;
4. Health and Human Safety-Net Services;
5. Additional Topics Requested by the District Supervisor.

Since 1982, the County of Sonoma has had a Memorandum of Understanding with the Town of Geyserville, an unincorporated association, recognizing the Geyserville Planning Committee as the representative of the Geyserville area for land use planning matters. The Committee has acted as an advisory body providing input to County agencies on matters concerning the community, including reviewing and providing comments on land use planning matters that are referred to it within the Geyserville Planning area, including individual projects. This body is separate from the currently proposed Geyserville Municipal Advisory Council.

As proposed, the Geyserville Municipal Advisory Council would be focused on providing funding prioritization and General Plan policy recommendations to the County consistent with the above-listed topics. In order to avoid duplication, the Council would not review and comment on individual private development projects subject to review by the Geyserville Planning Committee. The Council would exist until December 31, 2021, or until the County's next General Plan update is adopted, whichever is later, unless the Board of Supervisors extends its term upon recommendation of the District Supervisor for the Fourth District.

Municipal Advisory Councils: Changes to Template Bylaws

In 2017 the Board adopted the Sonoma County Municipal Advisory Council Policies & Procedures, providing guidance for the establishment of future Municipal Advisory Councils in unincorporated Sonoma County. The guidelines were carefully considered in the development of the Geyserville Municipal Advisory Council. In order to ensure consistency across Sonoma County's Municipal Advisory Councils, the intent and scope of the Geyserville Municipal Advisory Council is consistent with the guidelines.

The proposed Bylaws for the Fourth District Municipal Advisory Councils include adjustments to the templates and policies approved by the Board in 2017. The District Supervisor selected these changes to increase the effectivity of Municipal Advisory Councils in the unique regions of the Fourth District. Substantive changes to the bylaws include:

- Request the Geyserville Municipal Advisory Council develop a proposal regarding the use of Dry Creek Mitigation Funds for the Board of Supervisors to consider. These funds were set aside by the Board of Supervisors for use in the Geyserville area to mitigate impacts of the River Rock Casino. More information on this topic is available below.
- A procedure for Alternates to vote when a Municipal Advisory Council member is absent or recuses him or herself from a meeting.
- Guidance on the procedure to make requests of County staff.
- A timeline to evaluate if the Geyserville Municipal Advisory Council will continue past December 31, 2021, or the date the Board of Supervisors adopts its next General Plan (following the General Plan 2020 Update), whichever is later.

Dry Creek Mitigation Fund Information

The Dry Creek Tribe owns federal trust lands in the Alexander Valley known as the Dry Creek Rancheria, on which the River Rock Casino is located. The County entered into a Memorandum of Agreement (MOA) with the Dry Creek Tribe on March 18, 2008, to address, among other things, the impacts of the casino and other potential developments on the surrounding area and to ensure the cost of mitigation was borne by the Dry Creek Tribe.

On June 15th, 2016, as a part of the Budget Hearing Report, the Board of Supervisors approved a recommendation and directed staff to conduct outreach and develop project proposals for community and infrastructure projects that mitigate the impacts of the casino and address community needs. The outreach to the Geyserville area will assist the Board in determining priorities and the best use of two Dry Creek mitigation funds: 1) Reserve for Geyserville Planning and Projects and 2) Transportation and Public Works Fund Balance (in the context of mitigation funds). The Geyserville Planning and Projects fund currently contains $1,026,743, and the Transportation and Public Works Fund Balance contains $1,133,869.

The Geyserville Municipal Advisory Council will work with the District Supervisor to establish a participatory budgeting plan to identify priorities for the 1) Reserve for Geyserville Planning and Projects and 2) Transportation and Public Works Fund Balance. The District Supervisor will consider the recommendations from the Geyserville Municipal Advisory Council, coordinate with staff, and bring an item to the full Board of Supervisors to allocate the funds.

Sonoma County Municipal and Citizens Advisory Councils: Funding Discussion

Municipal Advisory Councils typically incur costs such as website development and maintenance, Errors and Omissions Liability Insurance, facility rentals and staffing costs. The costs may be divided into two categories: one-time startup costs, and ongoing costs.

One-time Startup Costs

- Initial website development for Municipal Advisory Councils
- Initial outreach costs, such as a single mailing to residents of the Municipal Advisory Council

Ongoing Costs

- Costs for facility rental and staffing
- Website maintenance
- The County's General Liability Coverage includes Errors & Omissions Coverage, and is distributed among departments. Boards, Committees, Commissions, Councils, etc. that are formed and appointed by the Board are included in the coverage.

One-time startup costs may be funded by the County Administrator's Office. Ongoing costs may be covered with discretionary funds available to the Board, such as each Supervisor's Tourism Impact Funds under the Community Investment Fund, or independent non-County sources.

Sonoma County Municipal and Citizens Advisory Councils: Update

The first Advisory Council was established in the now-dissolved Windsor Municipal Advisory Council in 1987. In 1993 the Sonoma County Board of Supervisors and the Sonoma City Council established the Sonoma Valley Citizens Advisory Commission. In 2016 The Board established the Mark West Area

Citizens Advisory Council, and the Dry Creek Valley Citizens Advisory Council in 2012. In 2018 the Board established the Lower Russian River and Sonoma County Coast Municipal Advisory Councils.

Prior Board Actions:

- July 13, 1982, the County authorized the Chair to enter into a MOU with the Planning Committee of Geyserville (Resolution No. 72210); The MOU was executed by the County on July 15, 1982;
- Pre-incorporation, the Board established the now-dissolved Windsor Municipal Advisory Council in 1987 (Resolution No. 87-0139).
- The Sonoma County Board of Supervisors and the Sonoma City Council established the Sonoma Valley Citizens Advisory Commission in 1993 (Resolution 93-1552 on 10/12/93; Joint Powers Agreement 98-1281 on 10/6/98; 04-0026 on 1/6/04; 06-0776 on 9/12/06; 14-0086 on 3/11/14).
- The Board entered into an agreement with the Dry Creek Rancheria Band of Pomo Indians on March 18th, 2008, resulting in mitigation funds for the Geyserville area.
- The Board created the Mark West Area Citizens Advisory Council in 2016 (Resolution No. 16-0231) and Dry Creek Valley Citizens Advisory Council in 2012 (Resolution No. 12-0410).
- On June 15th, 2016, the Board approved the Budget Hearing Report, including direction on the Dry Creek Mitigation Funds.
- The Board adopted the Sonoma County Municipal Advisory Council Policies & Procedures on July 18, 2017.
- The Board created the Lower Russian River Advisory Council (Resolution No. 18-0405) and the Sonoma County Coast Municipal Advisory Council on 9/25/2018 (Resolution No. 18-0406).

Strategic Plan Alignment	Goal 4: Civic Services and Engagement

Goal 4: Civic Services and Engagement is aimed at engaging and encouraging citizen participation in local government, and aligning public services with community needs and desires. Establishing additional municipal advisory councils will meet this goal by facilitating greater community engagement and interaction with the Board on matters of local concern.

Fiscal Summary			
Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses			
Additional Appropriation Requested		▨	▨
Total Expenditures			
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other			
Use of Fund Balance			
Contingencies			
Total Sources			

Narrative Explanation of Fiscal Impacts:

Ongoing costs related to the Municipal Advisory Councils may be covered with discretionary funds available to the Board, such as each Supervisor's Tourism Impact Funds under the Community Investment Fund.

Based on experiences from County staff as well as staff from other Counties, it is projected that each Council would need 16 hours of support time/month as well training of each Council. This support may be provided by existing staff to the Board of Supervisors. In the Budget for Fiscal Year 2018-2019 the Board approved one additional staff member in each district, to assist with "Board District Services."

Staffing Impacts

Position Title (Payroll Classification)	**Monthly Salary Range** (A – I Step)	**Additions** (Number)	**Deletions** (Number)

Narrative Explanation of Staffing Impacts (If Required):

Ongoing administrative support for Municipal Advisory Councils shall be provided by staff identified by the District Supervisor, a voluntary agreement, contract, or other means.

Geyserville Municipal Advisory Council (MAC)

Supervisorial District 4

permit SONOMA

GEYSERVILLE MUNICIPAL ADVISORY COUNCIL
BYLAWS

Approved by the Sonoma County Board of Supervisors on December 11th, 2018

ARTICLE I - NAME

The name of this Municipal Advisory Council shall be the Geyserville Municipal Advisory Council (“Geyserville MAC”).

ARTICLE II - AUTHORITY AND PURPOSE

a. Section 1. The Geyserville MAC will make recommendations to the Board of Supervisors and other County decision makers on the following Advisory Topics:
    a. Establish a proposal for the Board of Supervisor’s consideration, to allocate the Dry Creek Mitigation Fund set aside for Geyserville Planning and Projects and the Infrastructure Mitigation Fund Balance
        i. The Geyserville MAC will coordinate this effort with the District Supervisors Office in consultation with the County Administrator’s Office, to ensure a participatory budget process
    b. Proposed or draft General Plan Update policies when referred by the Permit and Resource Management Department
    c. Prioritization of Transportation and Transit Improvements when requested by the District Supervisor
    d. Health and Human Safety-Net Services when requested by the District Supervisor
    e. Additional Topics requested by the District Supervisor

Section 2. The duties of the Geyserville MAC shall include:

a. Hold regular open and public meetings;
b. Study and analyze the Advisory Topics;
c. Keep the District Supervisor informed of any issues related to Advisory Topics within the community;
d. Provide advisory recommendations on the Advisory Topics to the Board of Supervisors and other County decision makers through the District Supervisor and annual reports to the Board in coordination with the District Supervisor;
e. Comply with Sonoma County Municipal Advisory Council Policies and Procedures.

ARTICLE III - MEMBERSHIP

Section 1. Membership. The membership of the Geyserville MAC shall be seven members.

a. Requirements for membership include: members must reside within the boundaries of the Municipal Advisory Council. There are no requirements for property ownership or citizenship.
b. To provide well rounded representation, the following groups within the MAC Boundaries have representation on the MAC: Geyserville Unified School District, Geyserville Community Foundation, Geyserville Planning Committee, Geyserville Chamber of Commerce, Geyserville Odd Fellows, Geyserville Fire Protection District, and the community at large.
c. The Geyserville MAC will have the following membership categories:

    a. Geyserville Unified School District: One Appointee
    b. Geyserville Community Foundation: One Appointee
    c. Geyserville Planning Committee: One Appointee
    d. Geyserville Chamber of Commerce: One Appointee
    e. Geyserville Odd Fellows: One Appointee
    f. Geyserville Fire Protection District: One Appointee
    g. At-large: One Appointee; One Alternate.

d. The District Supervisor will request nominations for each category of membership on the MAC from the respective groups. The District Supervisor may also make nominations for the categories identified in a-f above.

e. The District Supervisor will nominate an at-large member and alternate, consider nominations for appointment to each of the MAC's membership categories, and will select final candidate nominations to recommend to the Board of Supervisors for appointment, consistent with Section 2.

Section 2. Appointment Authority. The District Supervisor shall submit candidates to the Board of Supervisors for appointment. Appointments shall be posted in accordance with the Maddy Act (Government Code section 54970 *et seq.*).

Section 3. Terms. A membership term is a two-year period. Geyserville MAC members may be reappointed. Members may serve a maximum of two terms (four years in total).

Section 4. The Board of Supervisors shall classify the initial members into two classes. Class A shall consist of four members; Class B shall consist of three members. Class A shall have an initial membership term of three years. Class B shall have an initial membership term of two years. Thereafter, each member's term shall be two years. The District Supervisor shall determine which members shall serve the initial three-year term. The at-large appointed alternate shall have the same term as the at-large appointee, and shall serve in the absence of the at-large member.

Section 5. Attendance. Members are expected to attend all meetings of the Geyserville MAC. Absence from two consecutive or three cumulative absences from Geyserville MAC meetings in a twelve-month period may result in removal.

Section 6. Removal. The District Supervisor may, in his or her discretion, recommend removal of a member to the Board of Supervisors. A majority vote by the Board is necessary to remove a member.

Section 7. Vacancies. A vacancy shall exist when a member dies, or submits a written resignation to the District Supervisor, or has been removed as set forth in Section 6. When a vacancy occurs, the District Supervisor will fill the vacancy consistent with membership criteria and submit recommendations to the Board of Supervisors for appointment.

ARTICLE IV- MEETINGS

Section 1. Brown Act. All meetings of the Geyserville MAC and, its committees and subcommittees, shall comply with the Brown Act (Government Code section 54950 *et seq.*).

Section 2. Regular Meetings. Regular meetings of the Geyserville MAC shall be held at regular intervals at an established date, time and place open to the public. Notice of the meeting time and place should be given to the public and the MAC members at least seventy-two (72) hours before the meeting. After conferring with the

District Supervisor, the Chair or Vice Chair may cancel any regular meeting by giving written notice of at least seventy-two (72) hours before the regularly scheduled meeting time. This requirement of notification prior to cancellation shall not be waived.

Section 3. Special Meetings. The Chair may call and preside over special meetings. The Chair may call a special meeting by providing notice of the time, place, and agenda to each member and the public at least (twenty-four) 24 hours before the special meeting. Only items on the agenda of the special meeting may be considered at said special meeting.

Section 4. Quorum. A quorum of the Geyserville MAC must be present at any regular or special meeting in order for a decision to be made on any matter. A quorum is defined as a majority of MAC membership (four members), or three members plus an alternate.

Section 5. Voting. While Geyserville MAC will strive for consensus, every official action taken by the Geyserville MAC shall be adopted by a quorum vote. An alternate of the Geyserville MAC may vote under the following circumstances: 1) If an at large member of the MAC is absent from a meeting and the alternate replaces that MAC member for the full meeting; 2) If an at large member of the MAC recuses themselves from an item the alternate may replace that MAC member for the full meeting. If an alternate is sitting for a MAC member and the agenda includes items continued from a prior meeting, the alternate must state on the record that she/he has reviewed the relevant materials for the items on the agenda, including the minutes (if available) from the prior meeting..

Section 6. Abstention. When any member abstains from participation in any matter before the Geyserville MAC because of a conflict of interest, that member shall not be counted as present for purposes of determining whether or not there is a quorum. An alternate may fill the MAC member's seat as outlined in sections four and five.

Section 7. Secretary. Administrative support for the Geyserville MAC shall be provided by staff identified by the District Supervisor, a voluntary agreement, contract, or other means.

Section 8. Notice. Geyserville MAC meetings will be open and public, with notice of the time and place given to the public and Geyserville MAC members at least seventy-two (72) hours before the time of regular meetings and at least twenty-four (24) hours before special meetings.

Section 9. Public Comment. At each Geyserville MAC meeting, members of the public will be given the opportunity to directly address the items on the agenda before being voted on, and on Advisory Topics within the jurisdiction of the Geyserville MAC.

ARTICLE V – ADMINSTRATIVE ROLES

Section 1. The Geyserville MAC shall have a Chair and Vice Chair. The District Supervisor shall appoint the first Chair and Vice Chair. After that, the MAC will elect the Chair and Vice Chair annually. The Chair and Vice Chair will serve for one (1) calendar years, or until replaced by the District Supervisor, and will serve as the Chair and/or Vice Chair for no more than two consecutive years.

Section 2. Chair. The Chair shall preside at all meetings of the Geyserville MAC and call for special meetings. The Chair shall carry out the duties listed in the Sonoma County Municipal Advisory Council Policies and Procedures.

Section 3. Vice Chair. In the Chair's absence, the Vice Chair shall assume the Chair's responsibilities. The Vice Chair shall carry out the duties listed in the Sonoma County Municipal Advisory Council Policies and Procedures.

ARTICLE VI - COMMITTEES AND SUBCOMMITTEES

Section 1. The Geyserville MAC may establish single-purpose committees or subcommittees, consisting of less than a quorum of MAC members and up to three community members, on an as-needed basis by a quorum vote. All committees and subcommittees shall have a life of one year, with the possibility of extension by the MAC after review. All committees and subcommittees shall comply with the Brown Act.

ARTICLE VII - CONTRACTS

Section 1. The Geyserville MAC and/or members thereof shall not have the power or authority to bind the County of Sonoma by any contract or agreement.

ARTICLE VIII - CONFLICT OF INTEREST/GRIEVANCES

Section 1. Conflict of Interest. Geyserville MAC members will not involve themselves in official Geyserville MAC activities that could materially benefit them personally, their business interests, or the interests of organizations that they represent. In a conflict of interest, the member will abstain from voting, and the abstention will be recorded in the minutes.

Section 2. Members and staff will comply with State of California laws regarding conflict of interest for publicly appointed bodies, including the Political Reform Act. The Geyserville MAC will implement the procedure for resolving conflicts of interest in the Sonoma County Municipal Advisory Council Recommended Policies and Procedures.

ARTICLE IX - AMENDMENTS

Section 1. A recommendation to the Board of Supervisors to amend these bylaws may be made at any regular meeting of the Geyserville MAC by a quorum vote of MAC members, provided that copies of the proposed amendments are sent to all members of the Geyserville MAC at least ten (10) days prior to the meeting at which such action is taken. The amendment will not be effective until and unless it is approved by majority vote of the Board of Supervisors.

ARTICLE X – MINUTES

Section 1. There shall be minutes of the Geyserville MAC meeting proceedings. The Geyserville MAC administrative staff shall be responsible for minutes and will be responsible for the sending of minutes to all Geyserville MAC members, the District Supervisor, and members of the public who request them. A record of minutes will be maintained by the Geyserville MAC secretary.

ARTICLE XI – RECORDS

Section 1. Records of all Geyserville MAC agendas, minutes, meeting materials, records of action, annual reports, and external communications from at least the prior two years shall be maintained by the Geyserville MAC Secretary and retained at a location designated by the District Supervisor. These records shall be available for public inspection and copying as required by the Public Records Act (Government Code section 6250 *et seq.*).

ARTICLE XII - PARLIAMENTARY AUTHORITY

Except as otherwise provided by law, these bylaws, or rules adopted by the Board of Supervisors, Rosenberg's Rules of Order shall be the parliamentary authority of Geyserville MAC. In the event of a conflict between Rosenberg's Rules of Order and the Sonoma County Code, provisions of County Code shall prevail.

ARTICLE XIII – LEGAL COMPLIANCE

Geyserville MAC shall comply with the legal requirements of the County of Sonoma, the State of California, and with federal funding sources. Nothing in these bylaws, adopted Recommended Policies and Procedures or parliamentary rules shall be interpreted to be inconsistent with the ordinances and/or other enactments of the Sonoma County Board of Supervisors.

ARTICLE XIV – COMMUNICATIONS

Section 1. Geyserville MAC members will establish a Community Engagement Plan at the start of each calendar year, to be approved by the District Supervisor.

Section 2. The Geyserville MAC will coordinate requests to County staff for information with the District Supervisor. Any such request will be communicated through the Chair of the Geyserville MAC to the District Supervisor and not through individual members of the MAC and not by the Chair of the Geyserville MAC directly to other County staff members.

ARTICLE XV – EVALUATION TIMING

The District Supervisor will evaluate the purpose and function of the Geyserville MAC and determine whether to recommend to the Board of Supervisors an extension of its term beyond December 31, 2021, or the date the Board of Supervisors adopts its next General Plan (following the General Plan 2020 Update), whichever is later.

ARTICLE XVI - EFFECTIVE DATE

These bylaws and future amendments thereto, unless otherwise specified, shall become effective upon adoption by the Sonoma County Board of Supervisors.

Approved by the Sonoma County Board of Supervisors on December 11th, 2018.

____

Section 1. Membership. The membership of the Geyserville MAC shall be seven members.

a. Requirements for membership include: members must reside within the boundaries of the Municipal Advisory Council. There are no requirements for property ownership or citizenship.
b. To provide well rounded representation, the following groups within the MAC Boundaries have representation on the MAC: Geyserville Unified School District, Geyserville Community Foundation, Geyserville Planning Committee, Geyserville Chamber of Commerce, Geyserville Odd Fellows, Geyserville Fire Protection District, and the community at large.
c. The Geyserville MAC will have the following membership categories:

  - a. Geyserville Unified School District: One Appointee
  - b. Geyserville Community Foundation: One Appointee
  - c. Geyserville Planning Committee: One Appointee
  - d. Geyserville Chamber of Commerce: One Appointee
  - e. Geyserville Odd Fellows: One Appointee
  - f. Geyserville Fire Protection District: One Appointee
  - g. At-large: One Appointee; One Alternate.
- d. The District Supervisor will request nominations for each category of membership on the MAC from the respective groups. The District Supervisor may also make nominations for the categories identified in a-f above.
- e. The District Supervisor will nominate an at-large member and alternate, consider nominations for appointment to each of the MAC's membership categories, and will select final candidate nominations to recommend to the Board of Supervisors for appointment, consistent with Section 2.

Section 2. Appointment Authority. The District Supervisor shall submit candidates to the Board of Supervisors for appointment. Appointments shall be posted in accordance with the Maddy Act (Government Code section 54970 *et seq.*).

Section 3. Terms. A membership term is a two-year period. Geyserville MAC members may be reappointed. Members may serve a maximum of two terms (four years in total).

Section 4. The Board of Supervisors shall classify the initial members into two classes. Class A shall consist of four members; Class B shall consist of three members. Class A shall have an initial membership term of ~~two~~three years. Class B shall have an initial membership term of ~~three~~two years. Thereafter, each member's term shall be two years. The District Supervisor shall determine which members shall serve the initial three-year term. The at-large appointed alternate shall have the same term as the at-large appointee, and shall serve in the absence of the at-large member.

Section 5. Attendance. Members are expected to attend all meetings of the Geyserville MAC. Absence from two consecutive or three cumulative absences from Geyserville MAC meetings in a twelve-month period may result in removal.

Section 6. Removal. The District Supervisor may, in his or her discretion, recommend removal of a member to the Board of Supervisors. A majority vote by the Board is necessary to remove a member.

Section 7. Vacancies. A vacancy shall exist when a member dies, or submits a written resignation to the District Supervisor, or has been removed as set forth in Section 6. When a vacancy occurs, the District Supervisor will fill the vacancy consistent with membership criteria and submit recommendations to the Board of Supervisors for appointment.

ARTICLE IV- MEETINGS

Section 1. Brown Act. All meetings of the Geyserville MAC and, its committees and subcommittees, shall comply with the Brown Act (Government Code section 54950 *et seq.*).

Section 2. Regular Meetings. Regular meetings of the Geyserville MAC shall be held ~~*monthly*~~at regular intervals at an established date, time and place open to the public. Notice of the meeting time and place should be given to the public and the MAC members at least seventy-two (72) hours before the meeting. After conferring with the District Supervisor, the Chair or Vice Chair may cancel any regular meeting by giving written notice of at least seventy-two (72) hours before the regularly scheduled meeting time. This requirement of notification prior to cancellation shall not be waived.

Section 3. Special Meetings. The Chair may call and preside over special meetings. The Chair may call a special meeting by providing notice of the time, place, and agenda to each member and the public at least (twenty-four) 24 hours before the special meeting. Only items on the agenda of the special meeting may be considered at said special meeting.

Section 4. Quorum. A quorum of the Geyserville MAC must be present at any regular or special meeting in order for a decision to be made on any matter. A quorum is defined as a majority of MAC membership (four members), or three members plus an alternate.

Section 5. Voting. While Geyserville MAC will strive for consensus, every official action taken by the Geyserville MAC shall be adopted by a quorum vote. An alternate of the Geyserville MAC may vote under the following circumstances: 1) If an at large member of the MAC is absent from a meeting and the alternate replaces that MAC member for the full meeting; 2) If an at large member of the MAC recuses themselves from an item the alternate may replace that MAC member for the full meeting. If an alternate is sitting for a MAC member and the agenda includes items continued from a prior meeting, the alternate must state on the record that she/he has reviewed the relevant materials for the items on the agenda, including the minutes (if available) from the prior meeting..

Section 6. Abstention. When any member abstains from participation in any matter before the Geyserville MAC because of a conflict of interest, that member shall not be counted as present for purposes of determining whether or not there is a quorum. An alternate may fill the MAC member's seat as outlined in sections four and five.

Section 7. Secretary. Administrative support for the Geyserville MAC shall be provided by staff identified by the District Supervisor, a voluntary agreement, contract, or other means.

Section 8. Notice. Geyserville MAC meetings will be open and public, with notice of the time and place given to the public and Geyserville MAC members at least seventy-two (72) hours before the time of regular meetings and at least twenty-four (24) hours before special meetings.

Section 9. Public Comment. At each Geyserville MAC meeting, members of the public will be given the opportunity to directly address the items on the agenda before being voted on, and on Advisory Topics within the jurisdiction of the Geyserville MAC.

ARTICLE V – ADMINSTRATIVE ROLES

Section 1. The Geyserville MAC shall have a Chair and Vice Chair. The District Supervisor shall appoint the first Chair and Vice Chair. After that, the MAC will elect the Chair and Vice Chair annually. The Chair and Vice Chair will serve for one (1) calendar years, or until replaced by the District Supervisor, and will serve as the Chair and/or Vice Chair for no more than two consecutive years.

Section 2. Chair. The Chair shall preside at all meetings of the Geyserville MAC and call for special meetings. The Chair shall carry out the duties listed in the Sonoma County Municipal Advisory Council Policies and Procedures.

Section 3. Vice Chair. In the Chair's absence, the Vice Chair shall assume the Chair's responsibilities. The Vice Chair shall carry out the duties listed in the Sonoma County Municipal Advisory Council Policies and Procedures.

ARTICLE VI - COMMITTEES AND SUBCOMMITTEES

Section 1. The Geyserville MAC may establish single-purpose committees or subcommittees, consisting of less than a quorum of MAC members and up to three community members, on an as-needed basis by a quorum vote. All committees and subcommittees shall have a life of one year, with the possibility of extension by the MAC after review. All committees and subcommittees shall comply with the Brown Act.

ARTICLE VII - CONTRACTS

Section 1. The Geyserville MAC and/or members thereof shall not have the power or authority to bind the County of Sonoma by any contract or agreement.

ARTICLE VIII - CONFLICT OF INTEREST/GRIEVANCES

Section 1. Conflict of Interest. Geyserville MAC members will not involve themselves in official Geyserville MAC activities that could materially benefit them personally, their business interests, or the interests of organizations that they represent. In a conflict of interest, the member will abstain from voting, and the abstention will be recorded in the minutes.

Section 2. Members and staff will comply with State of California laws regarding conflict of interest for publicly appointed bodies, including the Political Reform Act. The Geyserville MAC will implement the procedure for resolving conflicts of interest in the Sonoma County Municipal Advisory Council Recommended Policies and Procedures.

ARTICLE IX - AMENDMENTS

Section 1. A recommendation to the Board of Supervisors to amend these bylaws may be made at any regular meeting of the Geyserville MAC by a quorum vote of MAC members, provided that copies of the proposed amendments are sent to all members of the Geyserville MAC at least ten (10) days prior to the meeting at which such action is taken. The amendment will not be effective until and unless it is approved by majority vote of the Board of Supervisors.

ARTICLE X – MINUTES

Section 1. There shall be minutes of the Geyserville MAC meeting proceedings. The Geyserville MAC administrative staff shall be responsible for minutes and will be responsible for the sending of minutes to all Geyserville MAC members, the District Supervisor, and members of the public who request them. A record of minutes will be maintained by the Geyserville MAC secretary.

ARTICLE XI – RECORDS

Section 1. Records of all Geyserville MAC agendas, minutes, meeting materials, records of action, annual reports, and external communications from at least the prior two years shall be maintained by the Geyserville MAC Secretary and retained at a location designated by the District Supervisor. These records shall be available for public inspection and copying as required by the Public Records Act (Government Code section 6250 *et seq.*).

ARTICLE XII - PARLIAMENTARY AUTHORITY

Except as otherwise provided by law, these bylaws, or rules adopted by the Board of Supervisors, ~~Robert's~~ Rosenberg's Rules of Order shall be the parliamentary authority of Springs MAC. In the event of a conflict between Rosenberg's Rules of Order and the Sonoma County Code, provisions of County Code shall prevail.

ARTICLE XIII – LEGAL COMPLIANCE

Geyserville MAC shall comply with the legal requirements of the County of Sonoma, the State of California, and with federal funding sources. Nothing in these bylaws, adopted Recommended Policies and Procedures or parliamentary rules shall be interpreted to be inconsistent with the ordinances and/or other enactments of the Sonoma County Board of Supervisors.

ARTICLE XIV – COMMUNICATIONS

Section 1. Geyserville MAC members will establish a Community Engagement Plan at the start of each calendar year, to be approved by the District Supervisor.

Section 2. The Geyserville MAC will coordinate requests to County staff for information with the District Supervisor. Any such request will be communicated through the Chair of the Geyserville MAC to the District Supervisor and not through individual members of the MAC and not by the Chair of the Geyserville MAC directly to other County staff members.

ARTICLE XV – EVALUATION TIMING

The District Supervisor will evaluate the purpose and function of the Geyserville MAC and determine whether to recommend to the Board of Supervisors an extension of its term beyond December 31, 2021, or the date the Board of Supervisors adopts its next General Plan (following the General Plan 2020 Update), whichever is later.

ARTICLE XVI - EFFECTIVE DATE

These bylaws and future amendments thereto, unless otherwise specified, shall become effective upon adoption by the Sonoma County Board of Supervisors.

Approved by the Sonoma County Board of Supervisors on December 11th, 2018.

____
James Gore, Chair, Sonoma County Board of Supervisors

County of Sonoma
State of California

Item Number: ____________

Date: September 25, 2018 Resolution Number: ____________

☐ 3/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Establishing the Geyserville Municipal Advisory Council

Whereas, the Geyserville Area in unincorporated Sonoma County, situated in the County's Fourth Supervisorial District, is a vibrant community for local residents and businesses, and visitors alike; and

Whereas, unincorporated segments of the County such as the Geyserville area have become increasingly municipal in nature and need a mechanism to effectively communicate their needs to County government and elected leaders; and

Whereas, Government Code section 31010 authorizes the Board of Supervisors to establish a Municipal Advisory Council for any unincorporated area in the county to advise the Board on such matters which relate to that area as may be designated by the Board; and

Whereas, the Board of Supervisors desires to establish the Geyserville Municipal Advisory Council to advise the Board on local decisions relating to the Geyserville Area, and to provide a bridge for communication between the County and local residents and businesses on local government decisions affecting the Geyserville Area;

Now, Therefore, Be It Resolved that the Board of Supervisors hereby establishes the Geyserville Name Municipal Advisory Council, subject to the following operative provisions:

1. Established Boundaries - The Established Boundary for projects subject to review of the Geyserville Municipal Advisory Council are shown in Exhibit "A," attached.

2. Qualifications – Members must reside within the boundaries of the Municipal Advisory Council. There are no requirements for property ownership or citizenship.

3. The membership of Geyserville Municipal Advisory Council shall consist of seven members appointed by the Board of Supervisors.

4. The members of the Geyserville Municipal Advisory Council will be selected using the following methods:

    a. The Fourth District Supervisor select final nominations to submit to the Board of Supervisors for appointment, in accordance with the bylaws.

5. The Geyserville Municipal Advisory Council will make recommendations to the Board of Supervisors and other County decision makers on the following Advisory Topics, for the Geyserville Area:

    a. Establish a proposal for the Board of Supervisors' consideration, to allocate the Dry Creek Mitigation Fund set aside for Geyserville Planning and Projects and the Infrastructure Mitigation Fund Balance
        i. The Geyserville MAC will coordinate this effort with the District Supervisors Office in consultation with the County Administrator's Office, to ensure a participatory budget process
    b. Proposed or draft General Plan Update policies when requested by the Permit and Resource Management Department
    c. Prioritization of Transportation and Transit Improvements when requested by the District Supervisor
    d. Health and Human Safety-Net Services when requested by the District Supervisor
    e. Additional Topics requested by the District Supervisor

6. The duties of Geyserville Municipal Advisory Council shall include:
    a. Hold regular open and public meetings;
    b. Study and analyze the Advisory Topics;
    c. Keep the District Supervisor informed of any issues related to Advisory Topics within the community;
    d. Provide recommendations on the Advisory Topics and annual reports to the Board;
    e. Comply with Sonoma County Municipal Advisory Council Policies and Procedures.

7. The Geyserville Municipal Advisory Council shall automatically dissolve on December 31, 2021, or the date the County adopts the next General Plan Update, whichever is later, unless its term is extended by action of the Board of Supervisors.

8. The decision to establish the Geyserville Municipal Advisory Council shall not be submitted to the voters.

Sonoma County
Municipal Advisory Council
Recommended Policies and Procedures

Adopted July 18, 2017

Table of Contents

I. Statutory Authority

Pursuant to Government Code section 31010 the Board of Supervisors (Board) may, by resolution, establish a municipal advisory council (MAC) for any unincorporated area in the County to advise the Board on matters relating to that area. MACs have two primary functions: an advisory function and an advocacy function. The Board may grant and define these functions as it sees fit. MACs do not have the power to interpret, make, or set policies, ordinances, or laws, and lack fiscal authority. Counties use MACs to provide an information sharing forum for the community and local government agencies. MACs provide recommendations to the Board on matters designated by the Board, such as current or prospective government services, public health, safety, welfare, public works, and planning.

The resolution establishing the MAC must contain the following statutorily required information:

- The name of the municipal advisory council;
- The qualifications, number, and method of selection of municipal council members;
- The designated powers and duties;
- The unincorporated area or areas for which the municipal advisory council is established;
- Whether the council will be established by the Board or by the voters in an election;
- The rules, regulations and procedures governing the establishment and operation of the municipal advisory council.[1]

Aside from the information listed above, the Board has discretion to create the policies and procedures governing MACs.

II. MACs in Sonoma County

Use of MACs in Sonoma County is limited. The Board established the now-dissolved Windsor Municipal Advisory Council in 1987.[2] There are currently two MACs in existence: the Dry Creek Valley Citizens Advisory Council[3] and the Mark West Area Citizens Advisory Council,[4] both located in the Fourth District of unincorporated Sonoma County.

III. Purpose

This document provides MAC policy recommendations and analysis to ensure consistency in the operations and governance of existing and future MACs.

IV. Sources Consulted

The recommendations discussed in this document are adapted from MAC guidance issued by Contra Costa County and Mendocino County.

[2] Resolution No. 87-0139 (Jan 21, 1987).

[3] Resolution No. 12-0410 (Aug 21, 2012).

[4] Resolution No. 16-0231 (Jun 14, 2016).

V. Recommended Policies & Procedures

a. Member Appointments

The Board may choose to select members by election or by appointment. Membership by appointment is recommended because it reduces the likelihood of unfilled positions, costs, and procedural concerns. To ensure the size and composition of a MAC is large enough to facilitate representation of the MAC area, but small enough to manage administrative costs and handle business efficiently, MACs consisting of five members is recommended. A MAC may be established with seven members if it is demonstrated that this is necessary to provide appropriate representation of all segments of the community. Establishing alternate member positions may assist with reaching a quorum.

Recommendations

i. MACs shall consist of five members in total.

ii. All members must reside within the MAC boundaries.

iii. To nominate or re-nominate a member, the District Supervisor reviews applications and submits a list of nominations to the Board of Supervisors for approval. A majority vote of the Board is required to approve a member.

iv. Nominations and re-nominations should be made within the first 60 days of the authorization of the MAC.

v. In the event of a member vacancy, the District Supervisor should arrange for the position information to be posted on Sonoma County online vacancy list within 20 days of the vacancy.

vi. The District Supervisor shall establish two alternate member positions. Alternate members may attend MAC meetings for absent members on an as-needed basis.

b. Member Terms

The Board must determine the member term length and the member removal procedure.

Recommendations

i. Members shall hold a term of two years.

ii. Members can serve up to two terms (four years in total).

iii. Members may be re-appointed after two terms, only after a two year break in service.

iv. Members serve at the pleasure of the Board of Supervisors, and can be removed by the Board at any time.

v. Classification of Initial MAC Members: The Board of Supervisors shall classify the initial members into two classes. Class A shall consist of three members; Class B shall consist of two members. Class A shall have an initial membership term of two years. Class B shall have an initial membership term of three years.

vi. MAC Member Removal Procedure: (1) District Supervisor submits recommendation for removal to the Board of Supervisors; (2) MAC member receives written notice from MAC secretary of the recommendation for removal, the date and time of the meeting at which the Board will consider the removal, and the opportunity for public comment at the meeting prior to Board action; (3) A majority vote by the Board of Supervisors is required to remove a member.

vii. There should be no automatic re-appointment of MAC members. When a member's term expires, his or her appointment terminates.

viii. Absence from two consecutive or three cumulative regular MAC meetings in a 12-month period may result in removal. If a member is absent from two consecutive or three cumulative regular MAC meetings in a 12-month period, the secretary shall notify the District Supervisor. A recommendation for removal based on absences is within the District Supervisor's discretion.

ix. Failure to comply with MAC Bylaws may result in a recommendation of removal by the District Supervisor to the Board of Supervisors.

c. Administrative Roles

MACs require administrative leadership and support. Establishing Chair and Vice Chair positions may be helpful to assist with MAC operations and communications. A non-member secretary position may be filled by the District Supervisor's staff or by an independent contractor retained by the County.

Recommendations

i. The District Supervisor shall appoint the first MAC Chair to serve for the first year the MAC is in existence. After that, the MAC will elect the Chair annually. Chair responsibilities include:

    1. Preside over regular meetings;
    2. Call for and preside over special meetings;
    3. Set meeting agenda and coordinate preparation and posting of agenda with administrative support;
    4. Appoint members to MAC committees;
    5. Act as liaison between MAC.

ii. The District Supervisor shall appoint the first MAC Vice Chair to serve for the first year the MAC is in existence. After that, the MAC will elect the Vice Chair annually. Vice Chair responsibilities include:
    1. In the event of Chair's absence, assume Chair's responsibilities;
    2. Research agenda items and report back to MAC on an as-needed basis;
    3. Maintain record of useful government contacts.

iii. The MAC members shall elect the Chair and Vice Chair for the second year and every year after.

iv. The District Supervisor should determine how to fill the role of MAC Secretary. Secretary responsibilities include:
    1. Prepare, post, and distribute meeting agendas and meeting materials pursuant to the Brown Act;
    2. Arrange attendance at MAC meetings;
    3. Attend all MAC meetings;
    4. Take MAC meeting minutes;
    5. Distribute and maintain record of meeting minutes;
    6. Prepare and transmit MAC reports to the District Supervisor, the Board, or other government agency;
    7. Prepare responses to public comments and inquiries;
    8. Prepare responses to requests from MAC members;
    9. Maintain records of MAC agendas, minutes, meeting materials, records of action, annual reports, MAC member training certifications, and communications from at least the prior two years.
    10. Provide copies of formal MAC communications to the District Supervisor.
    11. Manage MAC budget.

ii. The District Supervisor should coordinate with the Secretary to determine a sufficient storage method and location to retain at least two years of records.

x. The District Supervisor shall oversee the Chair, Vice Chair, and Secretary performance, and Secretary's compensation.

d. <u>MAC Committees</u>

MACs may establish committees or subcommittees (collectively referred to as "committees") on an as-needed basis. The Board should consider whether the MAC may establish committees, and if so, clarify the additional rules that apply to committees under the Brown Act.

Recommendations

1. A MAC may establish single-purpose committees on an as-needed basis by a quorum vote.
2. An outline of the committee's specific purpose should be submitted to the Board with the MAC's annual report.
3. Committees should have an annual life of one year.
4. Committees should be composed of two MAC members in total.
5. Members of the public, who are not appointed to the MAC, may not serve on a MAC committee.
6. All committees shall comply with the Brown Act.

e. Member Training

Member training is necessary to familiarize members with the state laws that apply to public bodies, such as the Brown Act. Training for new MAC members should be coordinated by the Sonoma County Administrators' Office and the Sonoma County Counsel's Office.

Recommendations

i. Designate MAC training liaison at County Administrator's Office and the County Counsel's Office.

ii. Provide all new MAC members with general training on the MAC Policies and Procedures, the MAC Bylaws, and the laws that apply to public bodies within 60 days of appointment.

iii. Provide MAC members with annual training on laws that apply to public agencies, specifically including the Brown Act and the Public Records Act.

iv. Require that MAC members complete the FPPC AB 1234 online conflict of interest training.

f. Conflicts of Interest

To address potential conflicts of interest the following policies are recommended.

Recommendations

i. MAC members will not involve themselves in official MAC activities that could materially benefit them personally, their business interests, or the interests of organizations that they represent. In a conflict of interest the member will abstain from voting, and the abstention will be recorded in the minutes.

ii. If the MAC makes substantive recommendations, which are regularly approved by the Board over an extended period of time, without significant amendment or modification, the MAC members and secretary must file an annual Statement of Economic Interests (State Form 700).[5] These statements will be included in the County's biennial review of the Conflicts of Interest Code. The Clerk of the Board of Supervisors will keep these statements on file and make them available for public inspection.

iii. Concerns regarding conflicts of interest should be directed to the District Supervisor.

g. <u>Brown Act</u>

MACs, and MAC committees or subcommittees, shall comply with the Ralph M. Brown Act (Government Code, section 54950, *et seq.*).

h. <u>MAC Meetings: Location, Frequency, and Length</u>

Regular MAC meetings should be held on a monthly basis at an established date and time at a place that is open and accessible to the public.

Recommendations

i. One regular MAC meeting should be held at an established place and time each month, as determined by a quorum vote.

ii. Meetings should be held a time and place that is convenient and accessible for MAC members, community members, and Secretary to attend.

iii. MAC meetings should generally not exceed three hours in length.

iv. The Chair may impose time limits for public comment at MAC meetings.

v. If the MAC limits the time for public comment at meetings, the MAC must provide at least twice the allotted time to a member of the public who utilizes a human translator to ensure that non-English speakers receive the same opportunity to directly address the legislative body of a local agency.[6]

---

[5] Cal. Code Regs., tit. 2, § 18700.

[6] Gov. Code, § 54954.3.

i. MAC Meetings: Procedures

MAC meetings provide an opportunity for the members and the public to discuss the Advisory topics and develop recommendations for the Board. All MAC meetings must be open to the public and comply with the Brown Act.

Recommendations

i. All meetings shall be open and public and held in an ADA accessible location, and all persons shall be permitted to attend any MAC meeting.

ii. MACs should use the MAC Agenda Template for each regular meeting.

iii. Notice of the meeting time and place shall be given to the public and the MAC members at least seventy-two (72) hours before the time of such meeting.

iv. For regular meetings that occur on or after January 1, 2019, the MAC must post the agenda on the primary homepage of its homepage website at least seventy-two (72) hours before the time of such meeting.[7]

v. Meeting agendas should be posted at least seventy-two (72) hours before a regular meeting.

vi. Before each meeting the MAC Chair should remind the public on the record that the MAC is an advisory body to the Board of Supervisors.

vii. Robert's Rules of Order shall be the parliamentary authority at MAC meetings.

viii. A quorum of MAC members must be present at any regular or special meeting in order for a decision to be made on any matter. A quorum is defined as a majority of MAC members.

ix. All writings related to an agenda item that are distributed to a majority of the MAC members *prior to* a MAC meeting must be made available to for public viewing at a specified location open to the public, accessible during normal business hours, at least seventy-two (72) hours before a regular meeting. Copies should also be available at the meeting for public inspection.

---

[7] Gov. Code, § 54954.2.

x. Copies (a minimum of 10) of all writings related to an agenda item and prepared by the MAC that are distributed to a majority of the MAC members *during* a MAC meeting, must be made available for public inspection at the meeting. Copies of all writings related to an agenda item and prepared by another person that are distributed to a majority of the MAC members *during* a MAC meeting, must be made available for public inspection after the meeting.

xi. The Minutes for the prior meeting shall be reviewed and approved by the members at the following regular meeting.

xii. The Secretary shall attend and take minutes at all meetings.

j. Special MAC Meetings

The Brown Act provides additional requirements for holding special meetings.

Recommendations

i. The Chair may call a special MAC meeting by delivering written notice to each MAC member and to each local newspaper of general circulation and radio or television station requesting notice in writing and posting a notice on the MAC website, if the MAC has a website.

ii. The notice of a special meeting shall be delivered personally or by any other means and shall be received at least twenty-four (24) hours before the time of the meeting as specified in the notice.

iii. For special meetings that occur on or after January 1, 2019, the MAC must post the agenda on the primary homepage of its homepage website at least seventy-two (72) hours before the time of such meeting.[8]

k. External Communications

MACs do not have the power to interpret, make, or set policies, ordinances, or laws, and lack fiscal authority. MAC authority to make external communications is also limited.

Recommendations

i. Except as specified in the resolution establishing the MAC or the MAC bylaws, the MAC and its individual members acting on behalf of the MAC, may not represent the community to any federal, state, other county, city, special district or school district, agency or commission, or any other organization on any matter concerning the community.

---

[8] Gov. Code, § 54954.2.

ii. The MAC's advisory role is limited to the Advisory Topics stated in the resolution establishing the MAC.

iii. The MAC may represent the community before the Board of Supervisors by providing public comment on Advisory Topics at Board meetings.

iv. The MAC may provide input with respect to Advisory Topics to the Board, County staff, or any County hearing body.

v. Individual MAC members cannot represent the MAC's positions unless such representation has been expressly authorized by a vote of the MAC. When an individual member is authorized to represent the MAC's position to the Board, County staff, or other County hearing body, that member may only speak on issues expressly approved by the MAC.

vi. The MAC may not, as a body, take positions on candidates for any public office or on any ballot measures.

vii. All printed or electronic communications from the MAC should identify the MAC as an advisory body to the Board of Supervisors and include:
    1. The District Supervisor's name and contact information; and
    2. Disclaimer: *The views expressed therein are of the MAC only and do not represent Sonoma County's official position*.

l. <u>Annual Report</u>

Annual reports provide the Board with necessary MAC oversight information.

Recommendations

i. MACs must submit to the District Supervisor a written annual report containing the following information about the prior year:
    1. Activities
    2. Accomplishments
    3. Membership attendance
    4. Membership training
    5. Proposed objectives for the next year

ii. Annual reports must be submitted to the District Supervisor on the second Tuesday of each February.

iii. MACs may consult with the District Supervisor and County staff to assist in drafting the annual report. However, assistance from the District Supervisor and County staff is limited to answering questions. It is the MAC's responsibility to complete and submit the annual report.

iv. The District Supervisor should review the annual report and recommend appropriate action by the Board of Supervisors.

v. Failure to submit an annual report may result in the District Supervisor recommending that the MAC be dissolved by the Board of Supervisors.

m. Boundaries

MACs may be established in unincorporated areas of the County.

Recommendations

i. The Board should consider the following criteria when determining MAC boundaries:
   1. Existing borders establishing communities of interest;
   2. Population density;
   3. Areas of special interest: industrial areas; government-owned property; coastal land.

n. Funding

MAC funding sources vary within the County and among other counties. Some MACs are funded by donations, special revenue streams, or the General Fund. MACs generally require funding for administrative support services, meeting rental spaces, member expense reimbursement, and website maintenance. MACs do not have the authority to enter contracts or to incur any indebtedness in the name of or on behalf of itself, the Board, or the County.

o. Dissolution

MACs shall remain in existed until formally dissolved by the Board of Supervisors.

Recommendations

i. MAC dissolutions are recommended by the District Supervisor and approved by the Board of Supervisors.

p. Existing MACS

Option 1: In instances where existing bylaws or polices of MACs are inconsistent with these Policies and Procedures adopted by the Board, the policies of the existing MACs take precedence.

Option 2: In instances where existing bylaws or polices of MACs are inconsistent with these Policies and Procedures adopted by the Board, these Policies and Procedures are deemed to take precedence, and the MAC shall take action at its next available meeting to amend its bylaws or policies.

VI. Resources & Templates

a. Government Code, section 31010
b. Sonoma County MAC Checklist
c. Sonoma County MAC Agenda Template
d. Sonoma County MAC Minutes Template

Cal. Gov. Code, § 31010. **Municipal advisory council for unincorporated area; Funds and payments therefrom; Contents of resolution establishing council**

The board of supervisors of any county may by resolution establish and provide funds for the operation of a municipal advisory council for any unincorporated area in the county to advise the board on such matters which relate to that area as may be designated by the board concerning services which are or may be provided to the area by the county or other local governmental agencies, including but not limited to advice on matters of public health, safety, welfare, public works, and planning. Unless the board of supervisors specifically provides to the contrary, a municipal advisory council may represent the community to any state, county, city, special district or school district, agency or commission, or any other organization on any matter concerning the community. The board may pay from available funds such actual and necessary expenses of travel, lodging, and meals for the members of the council while on such official business as may be approved by the board.

The resolution establishing any such municipal advisory council shall provide for the following:

(a) The name of the municipal advisory council.

(b) The qualifications, number, and method of selection of its members, whether by election or appointment.

(c) Its designated powers and duties.

(d) The unincorporated area or areas for which the municipal advisory council is established.

(e) Whether the establishment of the council should be submitted to the voters and the method for such submission; provided that if an election is required pursuant to subdivision (b), such election shall be held at the same time as an election held pursuant to this subdivision.

(f) Such other rules, regulations and procedures as may be necessary in connection with the establishment and operation of the municipal advisory council.

Title: Consideration of Creating a Sonoma County Flag

Recommended Actions:

Direct Creative Sonoma to bring back for the Board’s consideration a proposed process and budget to design a County Flag

Executive Summary:

About half of the counties in California have flags, which represent the unique culture of each County. Creative Sonoma is prepared to bring back a proposal for the Board to consider that would set out a process for designing a Sonoma County flag. The flag would be a symbol of the County of Sonoma.

Discussion:

About half of the counties in California have flags, which represent the unique culture of each County. The County of Sonoma’s flag, if developed, could serve as a visual representation of the County’s values, history, and future. The Flag could lead to greater brand development and recognition within the Sonoma County community.

Today’s action would direct Creative Sonoma to develop a process and budget for the design of the Sonoma County Flag. The process and budget would be brought back for Board consideration in January 2019. Any budget required for the process would need to come out of Board contingencies if the project were to move forward this fiscal year.

Prior Board Actions:

None.

Strategic Plan Alignment	Goal 4: Civic Services and Engagement

Title: Joint Powers Agreement

Recommended Actions:

Resolution authorizing Chair to execute Joint Powers Agreement between the County of Sonoma and the City of Sonoma continuing the Sonoma Valley Citizens Advisory Commission.

Executive Summary:

The County of Sonoma and the City of Sonoma first established the Sonoma Valley Citizens Advisory Commission in 1993 pursuant to Government Code section 65101 as a joint advisory agency to provide a regular forum for citizen participation in the formation of public policy, to consider local planning issues concerning the Sonoma Valley, to evaluate solutions to these issues, to advise elected officials and other decision makers, and to form a bridge for communication between the various governmental agencies and the general public. Most recently the Commission was extended for five additional years. This extension expires at the end of 2018. If approved the proposed action would extend the Commission for an additional five years, with its term expiring at the end of 2023.

Discussion:

County and City share responsibility for local planning in the Sonoma Valley. The County and City continue to be faced with the potential for unprecedented population growth and development extending into the future. The Sonoma Valley, in particular, with its beautiful landscape, historic buildings, and growing industries producing wine, dairy, and other agricultural products, is an attractive location for development. Well planned communities are beneficial to the public interest and are promoted when the County and City coordinate their local planning activities. The existing Joint Powers Agreement between the City of Sonoma and the County has facilitated community input and enhanced communication in a way that benefits local planning for the area. To ensure the continuation of these benefits, an extension of the Committee for another five years is recommended.

If approved, the Committee will continue to serve as a joint advisory agency to provide a regular forum for citizen participation in the formation of public policy, to consider local planning issues concerning the Sonoma Valley, to evaluate solutions to these issues, to advise elected officials and other decision makers, and to form a bridge for communication between the various governmental agencies and the general public.

Prior Board Actions:

March 11, 2014: Resolution #14-0086, Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Authorizing The Chair To Execute A Joint Powers Agreement With The City Of Sonoma Continuing The Sonoma Valley Citizens Advisory Commission For A Period Of Five (5) Years From January 1, 2014, To December 31, 2018.

February 3, 2009: Resolution #09-0097, Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Authorizing The Chair To Execute A Joint Powers Agreement With The City Of Sonoma Continuing The Sonoma Valley Citizens Advisory Commission For A Period Of Five (5) Years From January 1, 2009, To December 31, 2013.

January 6, 2004: Resolution # 04-0026: Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Authorizing The Chair To Execute A Joint Powers Agreement With The City Of Sonoma Continuing The Sonoma Valley Citizens Advisory Commission For A Period Of Five (5) Years From January 1, 2004, To December 31, 2008.

October 6, 1998: Resolution # 98-1281: Resolution of the Board of Supervisors, County of Sonoma, State of California, Approving the Amendments to the Sonoma Valley Citizen’s Advisory Commission Joint Powers Agreement.

October 12, 1993: Resolution # 93-1552: Resolution of the Board of Supervisors, County of Sonoma, State of California, Approving and Authorizing the Chair to Execute a Joint Powers Agreement with the City of Sonoma Establishing the Sonoma Valley Citizens Advisory Commission.

JOINT POWERS AGREEMENT BETWEEN THE COUNTY OF SONOMA AND THE CITY OF SONOMA CONTINUING THE SONOMA VALLEY CITIZENS ADVISORY COMMISSION

This Agreement is made by and between the County of Sonoma, a political subdivision of the State of California (“County”), and the City of Sonoma, a general law city (“City”), and is dated for convenience as of January 1, 2019.

RECITALS

Whereas, County and City share responsibility for local planning in the Sonoma Valley; and

Whereas, according to statewide growth projections, County and City are faced with the potential for unprecedented population growth and development; and

Whereas, Sonoma Valley, with its beautiful landscape, historic buildings, and growing industries producing wine, dairy, and other agricultural products, is an ideal environment for local residents and businesses; and

Whereas, it is in the public interest that County and City coordinate their local planning activities; and

Whereas, this coordination is enhanced by better communication; and

Whereas, Government Code section 65101 authorizes the establishment of joint advisory agencies through a plan or organization mutually agreeable to cooperating counties and cities; and

Whereas, County and City have established the Sonoma Valley Citizens Advisory Commission (“the Commission”) pursuant to Government Code section 65101 as a joint advisory agency to provide a regular forum for citizen participation in the formation of public policy, to consider local planning issues concerning the Sonoma Valley, to evaluate solutions to these issues, to advise elected officials and other decision makers, and to form a bridge for communication between the various governmental agencies and the general public; and

Whereas, County and City desire to continue the Commission in existence for a period of five (5) years.

OPERATIVE PROVISIONS

Now, Therefore, Be It Agreed as follows:

1. By virtue of resolutions of County and City authorizing the execution of this Agreement, the Commission is hereby continued in existence.

2. The Commission shall be empowered from January 1, 2019, to December 31, 2023 (“the five-year term”), and shall be subject to review by County and City each year of its existence. The Commission may, at the conclusion of the five-year term, be continued for a time certain upon mutual consent of County and City, subject to periodic review as previously defined.

3. County and City reserve the right to terminate this Agreement and the Commission at any time upon mutual agreement, or upon sixty (60) days notice from either party to the other.

4. The boundaries and area subject to the jurisdiction of the Commission are shown in Exhibit “A,” attached hereto and incorporated herein by this reference.

5. The Commission shall consist of eleven (11) commissioners, two (2) alternate commissioners, two (2) emeritus (non-voting) commissioners, two (2) ex-officio (non-voting) members, and two (2) alternate ex-officio (non-voting) members. The commissioners, alternate commissioners, and emeritus commissioners shall be from the Subareas shown in Exhibit “A.” The ex-officio members and alternate ex-officio members shall be representatives from County and City. Representation shall be generally based upon the population distribution of the Sonoma Valley. It is understood that in addition to meeting the following geographical criteria, it is desirable that the commissioners, alternate commissioners, and emeritus commissioners represent a wide range of interest, varied experience and expertise, and include members of the general public to encourage a greater voice in local government decisions. Commissioners, alternate commissioners, emeritus commissioners, ex-officio members, and alternate ex-officio members shall be selected as follows:

(a) Representing County:

(1) El Verano West: three (3) commissioners from the area covered by the portions of Subareas 3, 4, and 10 that lie to the west of Sonoma Creek.

(2) Springs East: two (2) commissioners from the area covered by the portions of Subareas 3 and 9 that lie to the east of Sonoma Creek.

(3) North Valley: two (2) commissioners from the area covered by Subareas 5, 6, 7, and 8.

(4) South Valley: one (1) commissioner from the area covered by Subareas 11, 12, 13, and 14.

(5) One (1) alternate commissioner from the area covered by Subareas 3 - 14, inclusive.

(6) One (1) emeritus commissioner from the area covered by Subareas 3 - 14, inclusive, who shall be a former commissioner or alternate commissioner.

(7) One (1) ex-officio member and one (1) alternate ex-officio member from County’s Planning Agency, which is comprised of the Board of Supervisors, Planning Commission, Board of Zoning Adjustments, and Permit and Resource Management Department staff.

(b) Representing City:

(1) City of Sonoma: three (3) commissioners and one (1) alternate commissioner from the area covered by Subareas 1 and 2, being the city of Sonoma and its primary sphere of influence.

(2) One (1) emeritus commissioner from the area covered by Subareas 1 and 2, who shall be a former commissioner or alternate commissioner.

(3) One (1) ex-officio member and one (1) alternate ex-officio member from City's Planning Agency, which is comprised of the City Council, Planning Commission, and Planning Department staff.

6. One commissioner shall be designated and shall act as representative of public service agencies, such as water, fire, school, and other districts or entities.

7. The commissioners, alternate commissioner, emeritus commissioner, ex-officio member, and alternate ex-officio member representing County shall be appointed by County's Board of Supervisors. The commissioners, alternate commissioner, emeritus commissioner, ex-officio member, and alternate ex-officio member representing City shall be appointed by City's City Council.

8. The Commission shall review and make recommendations on policy matters affecting the Sonoma Valley and on development projects of valley-wide significance.

9. The Commission may also, from time to time, hold publicly noticed "town hall meetings" to inform local citizens, provide a forum for local citizens within the Sonoma Valley to raise and discuss local planning issues of importance, and to recommend long range policy direction for resolution of those issues.

10. The rules and procedures for governance of the Commission shall be as set forth in Exhibit "B," attached hereto and incorporated herein by this reference. The rules and procedures may be amended or modified upon mutual consent of County and City.

11. County and City, through their respective planning agencies, shall cooperate with the Commission to reach the goals of this Agreement.

In Witness Whereof, County and City have executed this Agreement as set forth below.

EXHIBIT "B"
SONOMA VALLEY CITIZENS ADVISORY COMMISSION
RULES AND PROCEDURES

I. Commissioners.

A. Appointment: Appointment of County's eight commissioners, one alternate commissioner, one emeritus commissioner, one ex-officio member, and one alternate ex-officio member shall be made by County's Board of Supervisors. Appointment of City's three commissioners, one alternate commissioner, one emeritus commissioner, one ex-officio member, and one alternate ex-officio member shall be made by City's City Council.

B. Qualifications: Each commissioner and alternate commissioner shall be a resident of, and registered voter in, the area represented by that commissioner or alternate commissioner.

C. Terms of Office: Commissioners and alternate commissioners shall serve four-year terms at the pleasure of their appointing authority. No commissioner or alternate commissioner shall serve more than two terms unless their appointing authority approves an exception to allow the commissioner or alternate commissioner to serve an additional term or terms. In any case, County and City each reserve the right to remove a commissioner or alternate commissioner it appointed regardless of the term of appointment, with or without cause. Emeritus commissioners, ex-officio members, and alternate ex-officio members shall serve at the pleasure of their appointing authority and may be removed at any time, with or without cause.

D. Duties of Commissioners:

1. To attend and participate in meetings of the Commission.
2. To study and analyze appropriate material submitted.
3. To participate in discussions and research and write necessary reports.
4. To serve on such subcommittees as may be designated by the Commission.
5. To aid the public in understanding and participating in local planning issues, and the processes of local government.

E. Vacancies: In event of termination, death, resignation, or inability to serve on the part of any commissioner or alternate commissioner, such condition shall be brought to the attention of the appointing authority. "Inability to serve" shall be determined by a majority vote of the Commission. If any commissioner shall miss two (2) consecutive regular meetings without a valid excuse, the appointing authority shall be notified and requested to appoint a more active replacement.

At any time that a vacancy occurs, either County or City, as the case may be, shall have sixty (60) days to fill the vacancy. Should either County or City fail to act in the time specified, the Commission shall have the authority to make the appointment in accordance with the prescribed membership.

F. Officers: At the first meeting in each calendar year, the Commission shall elect a Chair, Vice Chair, and Secretary. The Chair shall perform the functions specified in these Rules and Procedures. When the Chair is absent, the Vice Chair shall assume the duties of the Chair. If the Chair and the Vice Chair are both absent, the remaining members of the Commission shall select one of its members to act as Chair Pro Tem. The Secretary shall act as secretary to the Commission.

G. Office: The principal place of business of the Commission shall be determined by the Commission. At a minimum, there shall be a telephone number where information may be obtained by the public, and a place where the agenda may be publicly posted. This need not be the same place as where the Commission itself meets.

H. Compensation: Commissioners shall serve without compensation.

II. Meetings.

A. Frequency and Location: Meetings of the Commission shall be on an “as needed” basis as decided by the Commission. The time of the meetings shall be scheduled to maximize assistance to County’s Board of Supervisors and City’s City Council and their staffs. All meetings shall be held within the area shown in Exhibit “A” to the Joint Powers Agreement and shall be in a public building, accessible to the public, with facilities to accommodate interested members of the public.

B. Brown Act: All meetings and all deliberations of the Commission shall be open to the public and shall be governed by the Brown Act.

C. Rules of Procedure: All meetings of the Commission shall be conducted, insofar as practical, according to Roberts Rules of Order or other parliamentary authority adopted by the Commission.

D. Presiding Official: The Chair, or the Vice Chair in the Chair’s absence, shall preside over all meetings of the Commission. In case of absence of both the Chair and the Vice Chair, the Chair Pro Tem shall preside.

E. Agenda: The Chair shall be responsible for setting the agenda of each meeting of the Commission. Each agenda shall be reviewed by County’s First District Supervisor and by City’s Mayor. County’s First District Supervisor and City’s Mayor shall assign respective staff to attend as needed.

F. Voting: Each member of the Commission is entitled to one vote. A member may abstain from voting in cases of conflict of interest, in which case he or she must state what the conflict is. No proxies shall be permitted. All votes shall be public and properly recorded. Ex-officio members shall not be entitled to vote.

G. Minutes of Meeting: The minutes of each meeting of the Commission shall include a copy of the Agenda, the official public record of the meeting, and shall indicate any actions taken by the Commission. A copy of the minutes shall be sent to County and City.

H. Special Meetings: Special meetings of the Commission may be called by the Chair or a majority of the Commission. No special meeting shall be held without compliance with the Brown Act.

I. Notice of Meetings: Notice of meetings of the Commission shall, at a minimum, comply with the Brown Act. The Commission shall give such additional notice as County's Board of Supervisors or City's City Council may request.

J. Quorum: Six voting members of the Commission shall constitute a quorum of the Commission.

K. Alternate Commissioner: County's alternate commissioner shall serve only in the absence of one of County's commissioners. Likewise, City's alternate commissioner shall serve only in the absence of one of City's commissioners. Each alternate commissioner who serves is entitled to one vote.

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Authorizing The Chair To Execute A Joint Powers Agreement With The City Of Sonoma Continuing The Sonoma Valley Citizens Advisory Commission For A Period Of Five (5) Years From January 1, 2019, To December 31, 2023

Whereas, the County of Sonoma ("the County") and the City of Sonoma ("the City") have established the Sonoma Valley Citizens Advisory Commission ("the Commission") pursuant to Government Code section 65101 as a joint advisory agency to provide a regular forum for citizen participation in the formation of public policy, to consider local planning issues concerning the Sonoma Valley, to evaluate solutions to these issues, to advise elected officials and other decision makers, and to form a bridge for communication between the various governmental agencies and the general public; and

Whereas, the County and the City mutually desire to continue the Commission in existence for five (5) years from January 1, 2019, to December 31, 2023;

Now, Therefore, Be It Resolved that the Board of Supervisors hereby authorizes the Chair to execute a Joint Powers Agreement with the City of Sonoma continuing the Sonoma Valley Citizens Advisory Commission for a period of five (5) years from January 1, 2019, to December 31, 2023.

Title: Consolidated General Election Official Canvass.

Recommended Actions:

Approve Resolution adopting the Official Canvass of the Vote for the November 6, 2018 Consolidated General Election.

Executive Summary:

The canvass for the November 6, 2018 Consolidated General Election has been completed and certified by the County Clerk. The Clerk is now submitting the official canvass to the Board of Supervisors for adoption as provided by law.

Discussion:

Pursuant to Elections Code §1000, the Consolidated General Election was held on November 6, 2018. The results thereof have been certified by the County Clerk, and the certification must be adopted by the Board of Supervisors as the governing body. Elections Code §15372 provides that the Clerk shall canvass the returns within 30 days following the election, and Elections Code §15302 requires the Clerk to submit a certified statement of the results to the governing body (the Board of Supervisors) for adoption. The canvass has been completed, and the Statement of the Votes Cast, on file with the Clerk of the Board, is submitted to the Board for adoption as provided by law. The Board shall, pursuant to Elections Code §15400, declare elected to each office voted on at each election under its jurisdiction, the person having the highest number of votes for that office, or the person who was elected or nominated under the exceptions noted in §15452. The Board shall also declare the results of each election under its jurisdiction as to each measure. In addition, those incumbent candidates for judicial office whose names did not appear on the ballot in either the Primary or the General Election, due to insufficient nominees and the lack of a write-in campaign, shall be declared elected by the elections official (County Clerk) as of the date of the General Election.

Prior Board Actions:			
Resolution 18-0357, dated September 11, 2018; authorized consolidation of elections to be held in conjunction with the November 6, 2018, Consolidated General Election; Resolution 18-0369, dated September 11, 2018, approved appointment of nominees to their respective offices.			
Strategic Plan Alignment	Goal 4: Civic Services and Engagement		
The Board's adoption of the Official Canvass of the Vote and declaration of the results of the election are, by law, necessary to put into effect the votes cast at the election.

Title: Relocation of Fire Inspection-Related Activities to Permit Sonoma

Recommended Actions:

A) Authorize the relocation of the Fire Prevention and Hazardous Materials Programs and Personnel into Permit Sonoma effective January 1, 2019.
B) Adopt a Resolution amending the Fiscal Year 2018-19 Budget transferring appropriations related to the Fire Prevention and Hazardous Materials Programs to a newly created Budget Division in Permit Sonoma as detailed in Attachment A, with no net change in total appropriations.
C) Adopt a Personnel Resolution amending the Department Allocations Lists for the Fire and Emergency Services Department and Permit Sonoma as detailed in Attachment B.

Executive Summary:

This item recommends approval of several actions that transfer fire inspection-related activities from the Fire and Emergency Services Department to Permit Sonoma as a component of a phased effort that reimagines how fire and emergency services will be provided in Sonoma County. The proposal, which is recommended by the Fire Implementation Ad Hoc, enables the County to focus on creating the new Emergency Management Department approved by the Board on June 11, 2018 and working with the Fire Chief's Strategic Leadership Group to implement the Fire Services Deployment Plan approved by the Board on August 14, 2018.

The request includes transferring $3.6 million in appropriations adopted by the Board in the FY 2018-19 Budget from the Fire and Emergency Services Department into a newly created budget division within Permit Sonoma. As well as the transfer of14.5 Full Time Equivalent (FTE), vehicles, office equipment, and Hazardous Materials equipment used by the Fire Prevention and Hazardous Materials program.

Discussion:

Background
The Board of Supervisors has received two separate reports on June 11, 2018 and August 14, 2018 that provided updates on the Emergency Operations Center Program Assessment and the Fire Services Project efforts to provide more efficient, effective, and sustainable fires services in Sonoma County. The recommendations previously presented to the Board include creating and separate Emergency

Management Department and working with the Fire Chief's Strategic Leadership Group to implement the Fire Services Deployment Plan. To enable the County to more fully focus on these high priority efforts, staff was tasked with developing a plan to transfer the fire inspection- related activities to Permit Sonoma.

Currently, Fire and Emergency Services Department provides services via four program areas:

1. Emergency Management
2. Hazardous Materials Services
3. Fire Prevention Services
4. Fire Operations

As previously mentioned, the recommendations before you is the first phase of a multi-phased effort to reorganize the Fire and Emergency Services Department. This item will focus on the services performed by the Hazardous Materials and Fire Prevention sections and the recommendations related to Emergency Management and Fire Operations will be brought to the Board as separate items in the new year.

<u>Programming and Staff To Be Transferred</u>

The Hazardous Materials program is supported by 1.0 Fire Services Officer, 4.0 Fire Inspector II, and 1.0 Senior Office Assistant with a total annual budget of $1.8 million. The Hazardous Materials section regulates the storage and handling of hazardous materials in Sonoma County through the inspections of some 1,400 businesses located in Unincorporated Sonoma County and the cities of Rohnert Park, Cotati, Cloverdale, Sonoma, and the Town of Windsor.

The Fire Prevention program is supported by 1.0 Senior Fire Inspector, 3.0 Fire Inspector II, 1.5 Material Handlers, and 1.0 Senior Office Assistant with a total annual budget of $1.7 million, including $500,000 recently allocated for Vegetation Management Program. The Fire Prevention section enforces the County Vegetation Management Ordinance, and works with Permit Sonoma to enforce the Fire Code for new construction projects through Permit Plan Review and Final Occupancy approval. The County's Chipper program is also supported by this section and is supported by $170,000 in General Fund.

Both the Hazardous Materials and Fire Prevention programs are managed by the 1.0 Assistant Fire Chief, who is responsible for supervising the sworn and non-sworn staff and acts as the County's Fire Marshall in the areas supported by Community Service Area (CSA) 40. A 1.0 Administrative Aide and 1.0 Senior Account Clerk will also be transferred and embedded into Permit Sonoma's administration unit to expand the administrative capacity for the transferred programs. To support the expanded accounting needs, this item authorizes the addition of a 1.0 Accountant II to Permit Sonoma's Administration Section. The Human Resources Department has reviewed the job duties and has determined this to be the appropriate classification.

The Fire and Emergency Services (FES) Department notified Service Employees International Union (SEIU) and Sonoma County Law Enforcement Association (SCLEA) of the decision to move the Fire Prevention and Hazardous Materials programs from FES to Permit Sonoma. FES and Permit Sonoma management met and discussed this decision with each Union and advised that all SEIU and SCLEA permanent staff in these programs would retain their positions at the time of the move. FES, Permit Sonoma, and Human Resources believe that the County has fulfilled its obligation to notify and meet and discuss this move of employees from FES to Permit Sonoma.

<u>Why Permit Sonoma?</u>

The Hazardous Materials and Fire Prevention programs are both fee-based inspection programs that are similar in nature to the activities offered by Permit Sonoma. A significant portion of the work performed by the Fire Prevention section is to new construction permitted by Permit Sonoma. The two departments also collaborate on new street address naming and numbering, vegetation management, and code enforcement activities. Permit Sonoma has the relevant knowledge to support the programming offered by Hazardous Material and Fire Prevention and the expertise to support the administrative needs. The two programs will operate as separate sections in a new Division within Permit Sonoma and will report to Assistant Fire Chief Williams. Assistant Fire Chief Williams will report directly to the Director of Permit Sonoma.

Staff from Permit Sonoma, Fire Prevention, and Hazardous Materials have been coordinating on the consolidated fee study currently underway and the appropriation transfers authorized by this Board item will enable the fee consultant to properly incorporate the fire service activities into Permit Sonoma. While the consolidation of the fire services activities has contributed to some delays in the fee study, staff anticipates having the fee study completed by Spring so that the findings of the study can be incorporated into the FY 2019-20 Budget.

Establishment of the Fire Division within Permit Sonoma is more than the sum of its organizational parts. As climate change challenges our government mission, this new organization will elevate formerly technical issues such as vegetation management and hazardous mitigation into every element of the General Plan and County practice.

Facility Needs to Support Staff Relocation

Respecting the Board's original intent of placing all County land use regulators under one literal roof, Permit Sonoma will reconfigure its interior space to accommodate the Fire Division. Staff are accelerating records digitization, and e-submittal programs to replace paper with colleagues. The space will also be reconfigured to be more efficient. Accomplishing this move as soon as possible will save County resources by not expanding Permit Sonoma space and freeing FES space for other leasing.

To accommodate the relocation of the Fire Prevention and Hazardous Materials staff will require some reconfiguration of the Permit Sonoma building. Staff from Permit Sonoma are working with General Services staff to include the facility reconfiguration and related costs into the 19-20 Capital Improvement Plan. Until the project is completed, which is anticipated by the first quarter of FY 19-20, the Fire Prevention and Hazardous Materials staff will remain in the current location at 2300 County Center Dr.

Contracts and Possible Fire Code Amendments

Staff anticipates that some existing contract will have to be amended to transfer contract authority from the Fire and Emergency Services Director to the Permit Sonoma Director. It is also possible that certain sections of the Fire Code may have to be amended, changing certain authorities from the Fire Chief to the Fire Marshall. Staff will return in the new year following a comprehensive review of existing contracts and relevant Fire Code for needed changes.

Prior Board Actions:

June 11, 2018 – Emergency Management Program Assessment and Fire Services Project Update
August 14, 2018 – Creation of Fire Services Implementation Ad Hoc and Approval of the Fire Services Deployment Plan.

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

The Fire Prevention and Hazardous Materials programs support the safety, health, and well-being of Sonoma County residents and visitors.

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses	$3,640,016	$3,640,016	$3,640,016
Additional Appropriation Requested			
Total Expenditures			
Funding Sources			
General Fund/WA GF	$ 170,000	$170,000	$170,000
State/Federal			
Fees/Other	$3,440,116	$3,440,116	$3,440,116
Use of Fund Balance			
Contingencies			
Total Sources	**$3,610,016**	**$3,610,016**	**$3,640,016**

Narrative Explanation of Fiscal Impacts:

A Budget Resolution authorizing the transfer of appropriations from the Fire and Emergency Services Department into a newly created budget division within Permit Sonoma is included as Attachment A. No additional appropriations are being requested to effectuate the move at this time. Additional costs related to the necessary office reconfigurations will be included in the FY 2019-20 Capital Improvement Plan Budget.

Staffing Impacts

Position Title (Payroll Classification)	**Monthly Salary Range** (A – I Step)	**Additions** (Number)	**Deletions** (Number)

Narrative Explanation of Staffing Impacts (If Required):

14.5 Permanent FTE will be transferred from the Fire and Emergency Services Department to Permit Sonoma. Please see Attachment B for the detail of the positions that will be transferred

Title:	Extend Proclamation of Local Emergency Due to the Sonoma Complex Fires

Recommended Actions:

Adopt a Resolution Extending the Proclamation of Local Emergency Issued on October 9, 2017, for another 30 Days Due to Damage Arising from the Complex Fires.

Executive Summary:

This item requests the Board of Supervisors adopt a resolution approving a 30-day extension of the October 9, 2017, Proclamation of a Local Emergency in the Sonoma County Operational Area due to the effects of the Complex Fires. The Complex Fires began on Sunday, October 8, 2017, causing extreme property damage and health and safety concerns. The County Administrator proclaimed the Existence of a Local Emergency on October 9, 2017, and the Board of Supervisors adopted Resolution No. 17-0389 ratifying that proclamation on October 10, 2017. The fires left a large debris field in their wake. The removal of debris from a wildfire disaster creates unique concerns due to the potential presence of hazardous materials and the large scale of the incident and will require significant resources to remove. As long as the residential and commercial fire debris remains on the ground, it poses an imminent and extensive threat to public health and safety, the environment (including creating serious concerns for water quality and supply due to the presence of hazardous materials and the damage to sewer service laterals), public infrastructure, and undamaged property. As required by Government Code section 8630, the Board must review the proclamation of local emergency every 30 days and determine if there is a need for continuing the local emergency.

Discussion:

The Complex Fires began on Sunday, October 8, 2017. In response, the Emergency Operations Center (EOC) was activated at approximately 12:00 a.m. on Monday, October 9, 2017, to assist with managing the impacts. In the early morning hours on Monday, the County issued advisory evacuation notices to various impacted areas of Sonoma County. Shelter was made available at various locations throughout the County, and first responders were actively engaged in multiple areas throughout the County as the complex fires' advanced.

The County Administrator/Director of Emergency Services issued a Proclamation of Existence of Local Emergency in Sonoma County Operational Area in the early morning hours of Monday, October 9, 2017, as soon as reports of quickly-moving fires and health and safety concerns arrived. Later that day, the County Administrator supplemented that Proclamation and requested state and federal assistance. The Board of Supervisors ratified the County Administrator's Proclamation of the Existence of a Local Emergency on October 10, 2017. California Government Code section 8630 of Article 14, Local Emergency, of Chapter 7 of the Emergency Services Act requires that the County review the need for continuing the local emergency at least once every 30 days until the governing body terminates the local emergency.

The scope of disaster caused by the fast-moving fire and widespread scale of the destruction instigated the Governor of the State of California to proclaim a State of Emergency (declaring eligibility for State assistance) and brought about the President of the United States to issue a Declaration of a Major Disaster for the State of California, making the Complex Fires eligible for Federal assistance. The Sonoma Complex Fires resulted in the most devastating wildfires in the history of the State of California. In Sonoma County alone, the fires caused the death of at least 24 people, charred 110,720 acres, destroyed 6,950 structures (including 5,143 housing structures), and displaced more than 100,000 Sonoma County residents.

The Sonoma Complex Fires left a large debris field in their wake, which creates unique removal concerns due to the potential presence of hazardous materials and the large scale of the incident and poses a threat to public health and safety. Debris cleanup has proceed via both public and private cleanup programs. The total number of properties included within the debris removal program was 4,888, including 3,674 properties that participated in the public-cleanup program, and 1,214 properties that participated in the private program.

Most properties are in the final stages of debris cleanup, however, approximately 722 properties have been evaluated by Cal OES for over-excavation and 380 determined eligible for backfilling.

The cleanup efforts in Sonoma County were aided by a relatively light rainy season in 2017-18. As long as the fire debris properties remain to be cleared on the ground, it poses an imminent and extensive threat to public health and safety, the environment (including creating serious concerns for water quality and supply due to the presence of hazardous materials and the damage to sewer service laterals), public infrastructure, and undamaged property.

Staff recommend that the Board adopt the attached Resolution finding that the severity and pervasiveness of the Sonoma Complex Fires disaster poses an ongoing and imminent threat to public safety and undamaged property that warrants the need to extend the local emergency as authorized by Government Code section 8630.

Title: Property Tax Exchange Agreement with Geyserville Fire Protection District

Recommended Actions:

Approve a Property Tax Exchange Agreement (Agreement) with Geyserville Fire Protection District for the annexation of territory from County Service Area #40 into Geyserville Fire Protection District in the event the Local Agency Formation Commission approves such an annexation.

Authorize the County Administrator to make minor administrative changes to the Agreement needed to support the annexation approval process.

Authorize the County Administrator to enter into an agreement regarding the transfer of appropriations limit to the Geyserville Fire Protection District in the event that the annexation is completed.

Executive Summary:

The Geyserville Fire Protection District (District), located north and east of the City of Healdsburg, is seeking to annex territory currently covered by County Service Area 40 (CSA 40) into its district. This territory consists primarily of a portion of land to the south-east of the District that is currently served by the Knights Valley Volunteer Fire Company and adjacent areas already serviced by the District under contract with CSA 40. The District will be submitting an application to the Local Agency Formation Commission (LAFCO) for this annexation following the approval of this Tax Exchange Agreement (Agreement). This proposed Agreement will allow for the orderly exchange and transfer of a portion of the property tax revenues generated for fire protection purposes in the territory to be annexed, and make more efficient the service provided to the residents of the annexed area.

Discussion:

Under state law, the proposed annexation will be decided upon by the Local Agency Formation Commission (LAFCO). Under this process, LAFCO must consider a range of issues including local sentiment and the effect of any changes on the ability of all affected agencies to deliver services. LAFCO completed a Municipal Services Review of the District in February, which paved the way for the District to initiate the annexation process with LAFCO. The District is responsible for all costs associated with the annexation process. In order for LAFCO to approve the annexation application, the County also must approve a property tax exchange agreement that will designate what portion of property tax revenue allocated to fire services will go to the District. Approving this Agreement does not eliminate the need for LAFCO to consider both the operational and financial impacts on the affected parties. However, approving the Agreement will indicate to LAFCO that the County does not believe this annexation will unduly affect the ability of CSA 40 and the volunteer companies to provide service in their areas.

The area proposed for annexation consists of approximately 50 square miles in 319 parcels. Attachment 1 includes a map of the proposed annexation area. The largest portion of this is a territory of CSA 40 currently served by the Knights Valley Volunteer Fire Company. Also included in the annexation area are two smaller areas of CSA 40 that the District currently supports under integrated response plan agreements in which they are paid for responses on a per-call basis. The District will receive tax revenue from these parcels, and will no longer be separately paid for calls in these areas.

The Knights Valley Volunteer Fire Company has been particularly hard hit by the demographic changes, including an aging population and the employment of more residents outside of their service area, that have affected volunteer fire agencies throughout the County and more broadly across the county. Due to these changes, it has struggled to find sufficient volunteers to provide response in their service area, a problem that was exacerbated by the October 2017 Tubbs Fire. The Knights Valley Volunteer Fire Company's board of directors supports this annexation as the best way to provide improved service to the region.

The amount of revenue generated as part of the base property tax amount by the parcels in question is approximately $108,500. Based on the Municipal Services Review conducted by LAFCO, the District has sufficient fire and emergency services capability to meet the needs of the territory proposed for annexation and the tax revenue from this Agreement is expected to bring the District into operational surplus for the near term. As such, the proposed Agreement (Attachment 2) states that all property taxes associated with fire services generated in the annexation area should be transferred to the District if the annexation is approved by LAFCO.

In addition to the transfer of property tax, under the California Constitution state and local governments have limits on their total appropriations of tax revenue, commonly known as the Gann Limit. Because the calculation for the Gann Limit has historically inflated more rapidly that actual tax revenues have grown, most agencies including CSA 40 have significant additional cap space. However under the constitution an agreement must be entered into to transfer a portion of an agency's limit when services are transferred to a new entity. This item seeks to grant the County Administrator authority to enter into a Gann Limit appropriations transfer agreement with the District to transfer a portion of the CSA 40 limit equivalent to the amount of tax revenue being transferred if and when the transfer is finalized by LAFCO. If for any reason the annexation does not go forward, no such agreement will be entered into.

Prior Board Actions:

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

Fire and emergency response services are critical to the safety and health of the community.

Fiscal Summary

Expenditures	**FY 16-17 Adopted**	**FY 17-18 Projected**	**FY 18-19 Projected**
Budgeted Expenses			
Additional Appropriation Requested			
Total Expenditures			
Funding Sources			
General Fund			
State/Federal			
Fees/Other			
Use of Fund Balance			
Contingencies			
Total Sources			

Narrative Explanation of Fiscal Impacts:

If the annexation is finalized by LAFCO, a prorated portion of CSA 40 property tax revenue will transfer during the current fiscal year. Assuming the annexation is finalized prior to the beginning of Fiscal Year 2019-20, all tax revenue associated with fire services and flowing to CSA 40 will transfer to the District, following adjustments made by the Auditor Controller Treasurer Tax Collector's office. Based on current year estimates, approximately $108,500 will be transferred. This loss of revenue will be partially offset by decreasing costs at CSA 40, as they will no longer need to support the Knights Valley Volunteer Fire Company or pay for the contracted services in this area.

PROPERTY TAX ALLOCATION AGREEMENT BETWEEN THE GEYSERVILLE FIRE PROTECTION DISTRICT AND THE COUNTY OF SONOMA FOR THE ANNEXATION OF TERRITORY

This Property Tax Allocation Agreement ("Agreement") is entered into and effective _________, 2018 ("Effective Date"), between The Geyserville Fire Protection District, a fire district organized and operated pursuant to the Fire Protection District Law of 1987 ("District"), and the County of Sonoma (the "County"), with respect to the following Recitals, which are incorporated as a substantive part of this Agreement.

RECITALS

WHEREAS, the County's Fire and Emergency Services Department, along with the District under integrated response plan agreements with the County, is the primary providers of fire suppression, prevention, rescue, emergency medical services and hazardous material emergency response and other services relating to the protection of lives and property ("Fire Protection Services") within that portion of the unincorporated area of the County which boundaries are generally reflected in Exhibit A, attached to and incorporated in this Agreement (the "Annexation Area"); and,

WHEREAS, Fire Protection Services for the Annexation Area which is located within County Services Area-40 ("CSA-40") are a part of the services provided under the authority of the Board of Supervisors; and,

WHEREAS, the District wishes to pursue annexation of the Annexation Area (the "Annexation"); and,

WHEREAS, a portion of property tax revenues allocated by law for fire protection has supported Fire Protection Services for Annexation Area, along with all of CSA-40; and,

WHEREAS, District and County are desirous of facilitating successful Fire Protection Services in the Annexation Area should the Annexation be approved by entering into this Agreement relating to the real property tax revenue derived from the Annexation Area now allocated for fire protection to CSA-40; and

WHEREAS, District and County have yet to finalize limited portions of the boundary of the Annexation Area, but possess enough information about the real property tax revenue derived from the area to enter into this Agreement at this point; and

WHEREAS, the final boundaries of the Annexation Area will be as described in the Sonoma County Local Agency Formation Commission's ("LAFCO") certificate of completion for the Annexation, attached to and incorporated in this Agreement as Exhibit B (the "Subject Territory"); and

WHEREAS, this Agreement is not intended as controlling or precedent for other fire services related reorganizations.

NOW, THEREFORE, the parties agree as follows:

AGREEMENT

1. Effect of Recitals. The foregoing Recitals are incorporated in, and are a part of this Agreement.

2. Allocation and Payment of Property Taxes. As soon as permitted by state statute after the effective date of annexation by the District, the property tax revenues of the Subject Territory currently allocated to CSA-40 shall be transferred to the District, subject to the following:

a. The parties agree that the Sonoma County Auditor- Controller Treasurer-Tax Collector ("ACTTC") shall make any adjustments to the allocations of property tax revenue to the District required by all applicable state law, which may cause the amount of the property tax revenue to be allocated to the District to be different from that previously allocated to CSA-40. These adjustments include, but are not limited to, applicable Educational Revenue Augmentation Fund calculations or allocations, or any changes to withholdings the ACTTC may apply to property tax administration or property tax appeals

3. CSA-40 Transfer of Property Taxes in Interim Period. CSA-40 shall reimburse the District for the prorated property tax revenues of the Subject Territory currently allocated to CSA-40 for the period between the date of the recordation of the LAFCO Executive Officer's Certificate of Completion for the Annexation and the date the transfer required by Section 2 is permitted by state statute.

4. Accounting. The designated representatives of County and District shall have the right to audit any records and supporting documentation pertaining to the performance of this Agreement. County and District shall maintain such records for a minimum of four (4) years from the effective date of District formation and to allow access to such records during normal business hours.

5. Termination.

a. District Annexation. This Agreement is contingent upon the final annexation to the District. Should the annexation to the District as contemplated above not occur, the parties agree that this Agreement shall be null and void and no transfers of revenues will occur without a new agreement to do so.

b. Termination Due to Invalidity. Should any material portion of this Agreement be declared invalid or inoperative by a court of competent jurisdiction, the remainder of the Agreement shall remain in full force and effect.

c. Termination Due to Change in Law. Should substantial changes occur in the statutory scheme or successor statutory schemes (whether by legislative or judicial action) governing this Agreement, including but not limited to the Government Code and Revenue and Taxation Code, which negate or frustrate the fundamental tenets of this Agreement, the parties may discuss a termination or amendment of this Agreement.

6. Remedies for Breach of Agreement. The parties may exercise any remedy available to them at law or in equity for a material breach by the other party, including specific performance, injunctive relief, and writ of mandate.

7. Modification/Amendment. This Agreement may be modified or amended only by a writing duly authorized and executed by the parties to this Agreement.

8. Enforcement. The District and County each acknowledge that this Agreement cannot bind or limit themselves or each other or their future governing bodies in the exercise of their discretionary legislative power except as the Agreement provides. However, each binds itself that it will insofar as is legally possible, fully carry out the intent and purposes hereof, if necessary, by administrative and ministerial action independent of that legislative power and that this Agreement may be enforced by injunction or mandate or other writ to the full extent allowed by law.

9. Integration. With respect to the subject matter hereof, this Agreement is intended to be an integrated agreement and supersedes any and all previous negotiations, proposals, commitments, writings and understandings of any nature whatsoever between the District and the County as to the subject matter of this Agreement.

10. Notice. All notices, requests, determinations or other correspondence required or allowed by law or this Agreement to be provided by the parties shall be in writing and shall be deemed given and received when delivered to the recipient by first-class mail (or an equal or better form of delivery including electronic mail) at the following addresses:

DISTRICT

COUNTY

County of Sonoma
County Administrator's Office
575 Administration Drive, Suite 104A
Santa Rosa, Ca 95403
terri.wright@sonoma-county.org

By giving notice, either party may change its address for these purposes.

11. Third Parties. This Agreement shall not be construed as or deemed an agreement for the benefit of any third party or parties.

12. Attorneys Fees and Costs. In any action to enforce the provisions of this Agreement or for breach of the Agreement, the prevailing party shall recover from the other party, in addition to any damages, injunctive or other relief, all costs reasonably incurred at, before and after trial or on appeal, including without limitation attorneys' and witness (expert and otherwise) fees, deposition costs, copying charges and other expenses.

13. Approval. The parties represent that this Agreement was approved by their respective governing boards at a properly noticed meeting.

14. Choice of Law and Venue. This Agreement shall be governed by the laws of the State of California. Venue for actions and proceedings between the parties related to this Agreement shall be in the Northern District of California for any federal action and, unless otherwise agreed by the parties, in Sonoma County Superior Court for state actions.

15. Agreement Mutually Drafted. Each party has participated jointly in the drafting of this Agreement, which each party acknowledges is the result of negotiations between the parties, and the language used in this Agreement shall be deemed to be the language chosen by the parties to express their mutual intent. If an ambiguity or question of intent or interpretation arises, then this Agreement will accordingly be construed as drafted jointly by the parties, and no presumption or burden of proof will arise favoring or disfavoring any party to this Agreement by virtue of the authorship of any of the provisions of this Agreement. The captions, headings and table of contents contained in this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement.

16. Joint Defense. In the event of a third party challenge of any type to this Agreement, the parties agree to jointly defend the validity and implementation of the Agreement.

IN WITNESS WHEREOF, the parties have entered into this Agreement in Sonoma County, California.

Title: AB 1600 Development Fees Annual Reports for FY 2017-2018

Recommended Actions:

Adopt a Resolution approving and making findings related to the AB 1600 Development Fees Annual Reports for FY 2017-2018 for the Regional Parks Department and the Department of Transportation and Public Works.

Executive Summary:

AB 1600 enacted Government Codes Sections 66000-66008, requiring that local agencies prepare annual reports on all development impact fees collected on new developments to finance construction costs associated with public facilities, if those fees were established, increased, or imposed on or after January 1, 1989. Reporting is applicable to the fees collected by the Regional Parks Department and the Department of Transportation and Public Works. Among other fee and project information, balances of any fee deposits that are five or more years old are required to be reported.

Discussion:

Annually, the Regional Parks Department and the Department of Transportation and Public Works provides reports on fee programs under its jurisdiction in compliance with AB1600, as well as applicable County Code sections. It does not include fees charged for processing development applications, development agreements, or reimbursement agreements. The report is due 180 days (6 months) after the close of each fiscal year and requires that a report concerning each fee fund be made available to the public.

Each agency's report includes the following components:
1. A narrative summary of the financial statement.
2. A brief project status statement for each capital project referenced in the financial statement.
3. The financial statement.

The County Administrator has retained the services of two consultants to complete nexus studies for traffic and park impact fees. Both studies are underway and draft reports are anticipated before the end of the fiscal year.

Regional Parks

The Regional Parks Department's report covers Park Mitigation fees under Chapter 20, Article X – Development Fees for Parks and Chapter 25, Article VI – Public Improvements of the Sonoma County Code, requiring the dedication of park land and/or payment of in lieu fees from developers and home builders. First established in 1986, the purpose of the Ordinance is to assist the County in acquiring and developing parks to meet the growing population as a direct correlation to the development and construction of new homes. The Ordinances and Government Code Section 66006 requires the Director of Regional Parks to report to the Board annually on the income and appropriations in each of the seven areas covered by the Park Mitigation Fee Ordinance. This information is contained in the attached report. In addition, Government Codes Sections 66006 requires an annual report be made available to the public with specific information about the fee – the amount of the fee, the purpose of the fee, the projects that were funded by the fee, etc. Moreover, Government Code section 66001(d) requires that all agencies imposing development impact fees make specific findings regarding the balances of any fees deposits that are five or more years old. No balances of fee deposits are more than five years old and no such findings are requested in this item.

The Permit & Resources permit fee schedule Regional Park Mitigation rate for FY 2017-18 was $3,678.00 per developed unit. The FY 2017-18 beginning fund balance in the Park Mitigation Fund (seven areas) was $1,420,722.54. Total fees collected and miscellaneous revenue were $679,004. Interest earned was $23,559.82. Thus, the total fees plus interest earned in the Park Mitigation Fee Fund in FY 2017-18was $702,563.82

A total of $665,675.00 was transferred to 37 Capital Projects for the planning, acquisition, design and construction of new and expanded park facilities. No fees were refunded to individuals cancelling building permits. The year's ending fund balance was $1,457,611.36. The attached report includes a full breakdown of fees collected and funds appropriated for each of the seven areas.

Park Mitigation Fees were used to leverage grants and other matching contributions at an approximate ratio of 7 to 1. This means that each dollar generated by mitigation fees helps generate about $7 in additional funding for Park acquisitions and development, which was primarily from State and Federal sources. No funding collected on or before FY 2012-13 remains unspent in any of the seven Park Mitigation Fee Trust Accounts as of June 30, 2018.

Transportation and Public Works (TPW)

In order to implement the goals and objectives of the general plan, including the circulation and transit element of that general plan, and to mitigate the traffic impacts caused by new development in Sonoma County, certain public roadway improvements must be constructed to insure a safe and efficient level of service. The purpose of the traffic mitigation fees adopted by ordinance (Section 26-98 of the Sonoma County Code) is to pay the costs of roadway facilities and improvements in accordance with the provisions of the general plan. Per the Sonoma County Code the Board of Supervisors shall review the adequacy of the development fees established at least once every three years or, if required or appropriate, more often than once every three (3) years. This review is achieved through the AB 1600 Development Fees Annual Report. Under AB 1600 and the Sonoma County Code, TPW reports on the following traffic mitigation fee programs:

1. Countywide Traffic Mitigation - In May 1990, the Board established the Countywide Development Fees (Sec. 26-98-605), which apply to all unincorporated lands within the boundary of the county except for those lying within the boundaries of the Sonoma Valley development fee impact area. The FY 2017-18 beginning balance was $5,881,033. Collected fees and interest earnings total $1,338,619. No funds were expended during FY 2017-2018, for an ending balance as of June 30, 2018 of $7,219,652. Fees which remain unexpended for five years or more total $1,149,047 and have been committed to the following traffic capacity increasing projects in FY 2018-19: Traffic Improvement Project at intersection of Dry Creek Road and Highway 101 and Airport Boulevard Widening Project.

2. Sonoma Valley Traffic Mitigation - In 1989, the Board adopted Ordinance No. 4073 (Sec. 26-98-010) establishing development fees to finance the improvements of certain public facilities and services within the Sonoma Valley area. The FY 2017-18 beginning balance was $1,063,267. Collected fees and interest earnings total $289,925. Funds expended during the FY 2017-18 total $429,445 for an ending balance, as of June 30, 2018, of $923,746. There are no fees which remain unexpended or uncommitted for five years or more total in the Sonoma Valley Traffic Mitigation Fund.

Automatic Annual Fee Adjustments

County Codes Sections 26-98-070 and 26-98-650 require traffic development fees be adjusted automatically based upon the Engineering News Record (ENR) Construction Cost Index (CCI). In January, the fees for Countywide Traffic Mitigation and the Sonoma Valley Traffic Mitigation programs are adjusted annually by a percentage amount equivalent to the change in the ENR CCI for the preceding twelve month period. Fees are collected by Permit Resource Management Department as part of the permitting process. Effective January 1, 2018, the increase was 3.2% and are as follows:

Fee Type	January 2017	3.2% Increase	January 2018
Residential Fee	$776	X 1.032 =	$801
Commercial Fee	$237	X 1.032 =	$245
Industrial Fee	$217	X 1.032 =	$224

The requested Board action includes the adoption of the attached resolution approving and making findings related to the AB 1600 Development Fees Annual Reports for the Regional Parks and the Department of Transportation and Public Works.

Prior Board Actions:

The Board has annually approved AB 1600 Development Fee Reports, with the most recent report approved on 12/5/17.

Strategic Plan Alignment	Goal 2: Economic and Environmental Stewardship

Mitigation fees are invested in the community in the form of public infrastructure, facilities, and parks and trails. The annual AB 1600 report provides investment information which is relevant to the County's overall economic and environmental stewardship goal.

Item Number:
Date: December 11, 2018 Resolution Number:

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Approving The 2017-18 AB1600 Reports And Making Findings in Connection With Unexpended Funds For The Following Fee Programs: Park Mitigation, Countywide Traffic Mitigation and Sonoma Valley Traffic Mitigation.

Whereas, Government Code §66006 requires local agencies to provide the public with specified information relating to fees which have been collected in connection with the approval of development projects; and

Whereas, this information must be provided within 180 days from the close of each fiscal year and must be reviewed by the public agency's legislative body; and

Whereas, Regional Parks Department and Department of Transportation and Public Works staff have prepared reports entitled FY 2017-18 Annual Report on Park Mitigation Fees and 2017-18 Status Reports for the various fee programs, which reports contain all information required by law regarding the various fee programs, and have filed the reports with the Board and made them publicly available within the times required by law; and

Whereas, the Board of Supervisors has reviewed the 2017-18 Status Reports.

Now, Therefore, Be It Resolved, that the Board of Supervisors hereby finds, determines and declares as follows:

1. All of the above recitals are true and correct; and

2. Except to the extent that findings are made below, no funds have remained unexpended for a period of five (5) years or more.

Be It Further Resolved that with respect to unexpended funds remaining in the Countywide Development Fee Program, the Board finds, determines and declares as follows:

1. These funds were collected to pay the cost of roadway facilities and improvements in accordance with the provisions of the Sonoma County General Plan, including the

Circulation and Transit Element, to implement the County's General Plan, and to use the authority of Article XI, Section 7 of the California Constitution by imposing development fees to fund the cost of certain facilities and services in the Countywide Development Fee Impact Areas; and

2. There is a reasonable relationship between the fee and the purpose for which it is charged in that development fees are used to finance traffic mitigation for capacity increasing/congestion reducing improvements to roadways as a result of a development project; and

3. The sources and amounts of funding anticipated-- to complete or pay for projects utilizing the unexpended Countywide mitigation funds in FY 2018-19 are as follows:

a) C18002 Dry Creek Road and Highway 101 Intersection Improvements ($160,000) set to begin construction in Fiscal Year 2018-19.

b) C18502 Airport Boulevard Widening Project ($989,047) set to begin preliminary engineering in Fiscal Year 2018-19 and construction planned for Fiscal Year 20-21.

4. Funds for projects mentioned in paragraph 3 have been or will be deposited into the corresponding Road Capital Fund Index at the time construction and engineering contracts for these projects are expended, right-of-way acquisition agreements are processed, or staff time is charged to the project.

Be It Further Resolved, that the Board of Supervisors hereby approves the 2017-18 Status Reports for the fee programs for Countywide Traffic Mitigation, Sonoma Valley Traffic Mitigation, and, Park Mitigation Fees.

Re: 2017/18 Annual Report on Park Mitigation Fees

INTRODUCTION

This Attachment 1 is our annual report on Park Mitigation Fees for FY 2017/18. Attachment 2 includes the financial statements for all seven Park Mitigation Fee areas, and includes a summary of fees collected and withdrawals made for the fiscal year 2017/18. These fees are submitted by developers and home builders for each new residential unit in the unincorporated county. The fee rate for FY 2017/18 was $3,678.00 per developed unit. Attachment 3 is a map delineating the location and boundaries of the Park Mitigation Fee areas. Funding is transferred to projects within the area the fee was collected to provide regional facilities.

I. NARRATIVE SUMMARY OF FINANCIAL STATEMENT.

1. Fund balance at the beginning of fiscal year 2017/18.

   The beginning fund balance on July 1, 2017 of all seven Park Mitigation funds was $1,420,722.54.

2. Fees collected in 2017/18.

   The amount of Park Mitigation fees collected was $679,004.00. The total of all fees and miscellaneous revenue collected and credited to the Fund was $679,004.00.

3. Interest earned on funds in FY 2017/18.

   A total of $23,559.82 was earned as interest on Park Mitigation fee funds. This interest is accrued and credited separately according to each mitigation area where it was earned and is available for future projects.

4. Appropriations and expenditures in FY 2017/18.

The total amount appropriated and transferred to Capital Projects was $665,675. There were no fees refunded to individuals for canceled building permits. No funding collected on or before FY 2012/13 remains in any of the seven Park Mitigation Fee Trust Accounts as of June 30, 2018.

5. Balance of funds as of June 30, 2018.

The balance of the Park Mitigation Fund as of June 30, 2018 was $1,457,611.36.

II. SUMMARY OF ACCOMPLISHMENTS & ACHIEVEMENTS

In FY 2017/18 Park Mitigation fees totaling $665,675.00 were transferred from the Park Mitigation Fee Trust funds to thirty seven (37) projects. In most cases, Park Mitigation Fees were used as seed money leverage grants and other matching contributions at a ratio of 7 to 1.

The following is a list of those park and recreation projects for which Park Mitigation fees were transferred in FY 2017/18.

Area #1 (Sonoma Coast)

Beginning Fund Balance:	$ 157.41
Total Revenue (Incl. Fees, Misc & PY Rev):	$ 77,751.00
Total Interest Earned:	$ 428.64
Total Withdrawals:	($ 28,913.00)
Ending Fund Balance:	$ 49,424.05

Summary of Expenditures

- $10,000.00 in funding was transferred to **Bodega Bay Trail – Coastal North Harbor** for planning and design of the next 0.32 mile phase of the Bodega Bay Trail project. Mitigation funds leveraged a $100,000 State Coastal Conservancy grant for planning the North Harbor, Harbor Coastal, and Smith Brothers Road Trail segments. This funding has also leveraged the awarded $100,000 Conservancy grant and $10,000 from the Sonoma County Regional Parks Foundation to prepare construction documents and permits for the Coastal North Harbor Trail.

- $5,735.00 in funding was transferred to **Gualala Point Regional Park Expansion** for ongoing acquisition negotiation efforts with Gualala Redwoods, Inc. for remaining lands held with the company near Gualala Point Regional Park and for access opportunities on the South Fork Gualala River. Mitigation funds leveraged collaboration and partnership funding discussions with Save the Redwoods League, State Coastal Conservancy, Sonoma Land Trust, and Sonoma County Agricultural Preservation & Open Space District.

- $3,003.00 in funding was transferred to **Carrington Ranch** for acquisition and preliminary planning for public access for this 335-acre ranch on Highway 1, north of Bodega Bay. Mitigation funds leveraged collaboration and partnership funding with Sonoma County Agricultural Preservation & Open Space District. The property transfer was planned for 2017 but has been delayed by fire response and is now anticipated for late 2018 or early 2019.

- $3,000.00 in funding was transferred to **Stillwater Cove Expansion** for ongoing acquisition negotiation efforts for a trail connection between Stillwater Cove Regional Park and Salt Point State Park. If a trail easement is secured, the Salt Point connector trail could be completed in 2020.

- $2,500.00 in funding was transferred to **California Coastal Trail** for acquisition for trail easements. Work included reviewing and commenting on Caltrans proposed Highway 1 realignment as well as ongoing reviewing and responding to property development proposals and negotiating Coastal Trail alignments.

- $2,175.00 in funding was transferred to **Bodega Bay Trail – Smith Brothers Road** for planning and design of the next 0.37 mile phase of the Bodega Bay Trail project primarily on county and some on state road right of way to Bird Walk Coastal Access.

- $2,000.00 in funding was transferred to **Timber Cove California Coastal Trail** for reviewing a potential offer to dedicate a future segment of the California Coastal Trail and responding to a planning referral for California Coastal Trail related to Timber Cove Inn. Work included negotiating trail alignment with the property owners.

- $500.00 in funding was transferred to **Bodega Bay Trail – Coastal Harbor** for reviewing a potential offer to dedicate a future segment of the California Coastal Trail. Work included negotiating trail alignment with the property owner.

Area #2 (North County: Cloverdale, Windsor and Healdsburg Environs)

Beginning Fund Balance:	$ 185,155.28
Total Revenue (Incl. Fees, Misc & PY Rev):	$ 97,467.00
Total Interest Earned:	$ 3,261.82
Total Withdrawals:	($ 96,064.00)
Ending Fund Balance:	$ 189,820.10

Summary of Expenditures

- $50,000.00 in funding was transferred to **Riverfront Park Phase 3** for design and construction of lake and Russian River access. Mitigation funds leveraged a $252,000 Sonoma County Agricultural Preservation and Open Space District matching grant and $53,300 State Boating and Waterways grant. Minor construction work was completed and remaining construction is anticipated for 2018.

- $19,564.00 in funding was transferred to **Shiloh Ranch Phase 4** for designing the 2 mile unpaved North Loop Trail. Design work is underway in partnership with Redwood Empire Mountain Bike Alliance. These efforts will facilitate securing grant funding in the future for trail development.

- $15,000.00 in funding was transferred to **Russian River Water Trail – Upper Reach** for acquisition work to create a coordinated system of river access sites between the Mendocino County line and Healdsburg Memorial Beach. Work included researching and evaluating property title information for former Caltrans property with Russian River access and negotiating with 5 property owners north and south of Cloverdale.

- $10,000.00 in funding was transferred to **Russian River Bike Trail – Middle Reach** for acquisition work to create a multi-use trail paralleling the Russian River from Healdsburg to Wohler Bridge. Work included negotiations for a trail easement, and negotiating with four property owners for possible trail connections. These efforts facilitate securing grant funding in 2018 and negotiations will continue into future years.

- $1,500.00 in funding was transferred to **Shiloh Ranch Renovation** for design to improve a damaged creek crossing, restoring eroded creek channels, trail renovation, and reconditioning roads and trails used for emergency access. Mitigation funds were used for design after some slope stabilization and restoration work funded by others in response to October 2017 wildfire damage. These efforts facilitate securing grant funding in 2020.

Area #3 (Russian River: Sebastopol Environs)

Beginning Fund Balance:	$ 397,318.59
Total Revenue (Incl. Fees, Misc & PY Rev):	$ 115,857.00
Total Interest Earned:	$ 6,167.09
Total Withdrawals:	($122,910.00)
Ending Fund Balance:	$ 396,432.68

Summary of Expenditures

- $72,984.00 in funding was transferred to **West County Trail – Forestville Trails** for acquisition and construction of a trailhead in Forestville and extending the current trail from its terminus near Pajaro Lane to the intersection of Highway 116 and Mirabel Road. Mitigation funds leveraged $750,000 Sonoma County Agricultural Preservation and Open Space District grant to the Forestville Planning Association completing necessary acquisition and donation of the trail easement to the County, and $200,000 Transportation Development Act - Article 3 state grant funding for construction.

- $20,000.00 in funding was transferred to **Russian River Bike Trail – Lower Reach** for planning and acquisition work to create a multi-use trail paralleling the Russian River from Forestville to Jenner. Work included creating a project scope and securing local matching funds to apply for state transportation planning grant funding in 2017. Mitigation funds leveraged a $620,000 Caltrans Sustainable Communities Planning Grant, $120,000 Northern Sonoma County Air Quality Control District grant, and $25,000 Russian River Recreation & Parks District, $5,000 Monte Rio Recreation & Park District, $5,000 Regional Parks Foundation, and $5,000 Korbel funding.

- $19,926.00 in funding was transferred to **Petaluma-Sebastopol Trail** for planning work. Mitigation funds leveraged a $209,436 Caltrans Sustainable Communities planning grant, $6,564 from the City of Sebastopol, $1,000 from the City of Petaluma, $11,000 from Sonoma Count Bicycle Coalition, and $5,000 from Santa Rosa Cycling Club. The feasibility study will be completed in February 2018. With future grant funding for design, possible acquisition, development, and construction of feasible segments could begin in 2020.

- $5,500.00 in funding was transferred to **Dutch Bill Creek Bikeway** for planning and acquisition work for a 5.5 mile trail from Occidental to Monte Rio. Work included negotiations with a property owner and evaluating existing site conditions to determine feasible trail routes and trail connections to other public lands. These efforts facilitate securing grant funding in 2018.

- $2,000.00 in funding was transferred to **West County Trail Bridge Replacement** for removal of two former railroad trestle bridges and replacing with single span bridges and concrete abutments and retaining walls. Mitigation funds leveraged a $770,000 Metropolitan Transportation Commission's One Bay Area grant. Construction is planned for 2021.

- $1,000.00 in funding was transferred to **West County Trail - Green Valley Road** for acquisition and planning for a 0.26 mile trail paralleling Green Valley Road between Ross Road and Atascadero Creek. This trail segment will close the gap between Forestville and Graton. These efforts facilitate securing future grant funding.

- $1,000.00 in funding was transferred to **West County Trail - Occidental Road** for acquisition and planning for a 0.87 mile trail paralleling Occidental Road from Highway 116 to the West County Trail/Occidental Road intersection, including intersection improvements. This trail segment will close the gap where current users must use the road shoulders to continue onto the West County Trail. These efforts facilitate securing future grant funding.

- $500.00 in funding was transferred to **West County Trail – Wright Road to Sebastopol Road** for acquisition for trail alignment between North Wright Road and Sebastopol Road. Work included with private property for a future trail easement and crosswalk when the property develops. These efforts facilitate securing future grant funding.

Area #4 (Santa Rosa Area Environs)

Beginning Fund Balance:	$ 249,886.82
Total Revenue (Incl. Fees, Misc & PY Rev):	$ 69,882.00
Total Interest Earned:	$ 3,667.30
Total Withdrawals:	($257,000.00)
Ending Fund Balance:	$ 66,436.12

Summary of Expenditures

- $230,000.00 in funding was transferred to **Andy's Unity Park** to complete construction of this new community park south of Santa Rosa. Mitigation funds leveraged a $1,084,239 Matching Grant from the Sonoma County Agricultural Preservation and Open

Space District.

- $27,000.00 in funding was transferred to **Taylor Mountain Phase 1** construction including a new park entrance, trailhead, equestrian and vehicle parking, picnic sits, and trails from the Petaluma Hill Road entry. Mitigation funds leveraged a $750,000 State Parks Statewide Park Program grant, $20,000 from the Sonoma County Regional Parks Foundation, donation of construction materials and equipment totaling over $50,000, and thousands of volunteer hours for trail clearing and construction. Construction of the natural play area and restroom is planned for completion in 2018.

Area #5 (Rohnert Park/Cotati/Petaluma Environs)

Beginning Fund Balance:	$ 255,124.03
Total Revenue (Incl. Fees, Misc & PY Rev):	$ 75,399.00
Total Interest Earned:	$ 3,943.14
Total Withdrawals:	($ 53,574.00)
Ending Fund Balance:	$ 280,892.17

Summary of Expenditures

- $25,000.00 in funding was transferred to **Helen Putnam Varnhagen Addition** for design, environmental review and construction of a new trail and staging area to connect Windsor Drive to Helen Putnam Regional Park through a 40-acre expansion acquired in 2003. These efforts facilitate securing grant funding in 2018. With additional funding trail construction could begin in 2018.

- $7,500.000 in funding was transferred to **Crane Creek Regional Park Expansion** for acquisition efforts to secure an additional 75 acres adjacent to this regional park. Mitigation funds leveraged collaboration with the Sonoma County Water Agency, Sonoma County Agricultural Preservation & Open Space District, the City of Rohnert Park, and private developer. These efforts facilitate property acquisition, with an appraised value of $1.6 million, by the City of Rohnert Park for transfer at no cost to Regional Parks in 2019.

- $5,000.00 in funding was transferred to **Helen Putnam – Kelly Creek Trail** for design of a trail within park boundaries to a Developer-planned trail along Kelly Creek within Petaluma city limits. Mitigation Fees leveraged $800,000 in recommended Matching Grant funding from the Sonoma County Agricultural Preservation & Open Space District. This trail construction could begin in 2019.

- $5,000.00 in funding was transferred to the **San Francisco Bay Trail** project for design and cost estimating efforts and securing access via Highway 37 and 121 related projects. Mitigation Fees leveraged a $100,000 grant from the Association of Bay Area Governments for an engineering study for a trail connecting to the existing Eliot Trail and the Tolay Creek Trail in the San Pablo Bay National Wildlife Refuge.

- $5,000.00 in funding was transferred to **Sonoma Mountain Environs** for property evaluation for acquisition and trail connection opportunities for work in partnership with Sonoma County Agricultural Preservation and Open Space District, Sonoma Land Trust, and other partners. These efforts facilitate securing grant funding in 2019.

- $3,000.00 in funding was transferred to **Copeland Creek Trail** for design and construction of a 2.6 mile trail from Sonoma State University to Crane Creek Regional Park. Mitigation funds leveraged collaboration with the Sonoma County Water Agency, Sonoma County Agricultural Preservation & Open Space District, the City of Rohnert Park, and private developer. The City of Rohnert Park is constructing the Petaluma Hill Road crossing, connecting trail segments, and transferring $340,000 Open Space District matching grant to Regional Parks for trail construction.

- $2,000.00 in funding was transferred to **Bellevue Creek Trail** for property evaluation for acquisition and constructing a trail from Stony Point Road to Petaluma Hill Road along the Sonoma County Water Agency's Bellevue-Wilfred channel. These efforts facilitate collaboration with the Water Agency and securing grant funding in 2019.

- $1,074.00 in funding was transferred to **Petaluma-Sebastopol Trail** for planning work. Mitigation funds leveraged a $209,436 Caltrans Sustainable Communities planning grant, $6,564 from the City of Sebastopol, $1,000 from the City of Petaluma, $11,000 from Sonoma Count Bicycle Coalition, and $5,000 from Santa Rosa Cycling Club. The feasibility study will be completed in February 2018. With future grant funding for design, possible acquisition, development, and construction of feasible segments could begin in 2020.

Area #6 (Sonoma Valley)

Beginning Fund Balance:	$ 241,018.22
Total Revenue (Incl. Fees, Misc & PY Rev):	$ 117,696.00
Total Interest Earned:	$ 3,979.14
Total Withdrawals:	($107,214.00)
Ending Fund Balance:	$ 255,479.36

Summary of Expenditures

- $36,500.00 in funding was transferred to the **Maxwell Farms Redevelopment** for community engagement and preparing the master plan update. Mitigation funds leveraged a $75,000 Community Development Block Grant, $130,000 in Securitized Tobacco ADA funding, $15,000 from Sonoma County Regional Parks Foundation, $500,000 from Sonoma Valley Youth Soccer, $30,000 from Sonoma Little League, and a recommendation for $250,000 from the Sonoma County Agricultural Preservation and Open Space District matching grant program.

- $30,214.00 in funding was transferred to the **Sonoma Valley Regional Park Expansion** for master planning work for two properties recently added to Sonoma Valley Regional Park and to construct connecting trails. Master Plan work for the additional 70 acres was completed September 2017. Mitigation funds leveraged $150,000 from the Agricultural Preservation and Open Space District for initial public access. Restroom and group picnic area construction is planned for completion 2018.

- $20,000.00 in funding was transferred to the **Larson Park Improvements** project for community engagement and preparing the master plan update. These efforts facilitate securing grant funding in 2019.

- $10,000.00 in funding was transferred to the **Sonoma Valley Trail** project for planning, acquisition to secure offer to dedicate trail easements over one private property, and acquisition efforts with Caltrans and City of Santa Rosa. Mitigation funds leveraged a $190,575 Caltrans Community-Based Transportation Planning grant. The feasibility study was completed in February 2016. With future grant funding for design, acquisition, and development, construction could begin in 2020.

- $9,500 in funding was transferred to the **San Francisco Bay Trail** project for design and cost estimating efforts and securing access via Highway 37 and 121 related projects. Mitigation Fees leveraged a $100,000 grant from the Association of Bay Area Governments for an engineering study for a trail connecting the existing Eliot Trail and the Tolay Creek Trail in the San Pablo Bay

National Wildlife Refuge.

- $1,000.00 in funding was transferred to the **Hood Mountain Graywood Trail** project for planning, permitting, and developing a trail and trailhead on an existing easement on the former Graywood Ranch property. Funding was used to negotiate the preferred trail alignment. The trail will be constructed from Highway 12 to the Ceanothus Preserve and connect with Hood Mountain Regional Park and Open Space Preserve. These efforts facilitate securing grant funding in 2019.

Area #7 (Larkfield-Wikiup)

Beginning Fund Balance:	$ 92,062.19
Total Revenue (Incl. Fees, Misc & PY Rev):	$ 124,952.00
Total Interest Earned:	$ 2,112.69
Total Withdrawals:	($ 0.00)
Ending Fund Balance:	$ 219,126.88

Summary of Expenditures

- There are no current projects involving park mitigation fees. As additional park mitigation fees are accrued, funding will be transferred to the Schopflin Fields project for Phase 3 construction and to the Mark West Creek Trail project for trail construction.

III. FINDINGS FOR FEES COLLECTED BUT NOT EXPENDED WITHIN THE FIVE-YEAR PERIOD.

California Government Code requires that counties specifically report on fees that have remained unspent for a total of five years. In FY 2017/18 there were no park mitigation fees that were collected in or before FY 2012/13 and remain unspent.

Johannes J. Hoevertsz, Director

DATE: October 23, 2018

TO: Board of Supervisors

FROM: Johannes Hoevertsz, P.E., Director of Transportation and Public Works

SUBJECT: 2017-18 Status Report of the Countywide Development Fee Program
(Traffic Mitigation Fee)

BACKGROUND: In May 1990, the Board established the Countywide Development Fees. These fees are kept in a separate fund account. In subsequent years, the Board has adopted revisions to the ordinance, which includes modifying the Road Improvement Summary, modifying the boundaries, increasing the fees, modifying language in the ordinance, changing how the fees are calculated, and making this ordinance consistent with others in the County.

The Department of Transportation and Public Works is required by the ordinance governing these fees to provide the Board of Supervisors with an annual review of the adequacy of these development fees. The following are results of the annual review, as well as required AB1600 information.

There is a reasonable relationship between the fee and the purpose for which it is charged in that development fees are used to finance traffic mitigation for capacity increasing/congestion reducing improvements to roadways as a result of a development project.

SUMMARY OF FINANCIAL ACTIVITY (between July 1, 2017 and June 30, 2018):
(for detail, refer to the AB1600 Annual Report Countywide Mitigation Fees)

BEGINNING FUND BALANCE	DEPOSITS	INTEREST	WITHDRAWALS	RETURNED	ENDING FUND BALANCE
5,881,033	1,350,495	72,300	(0)	(84,176)	7,219,652

Overall, the cash balance in the fund has increased by $1,338,619 over the past year.

SUMMARY OF AVERAGE DAILY TRIPS (ADT) BY TYPE OF TRIPS GENERATED FOR EACH AREA OF THE COUNTY (between July 1, 2017 and June 30, 2018):

Trip Type	North	Central	West	South	Total
Residential	344.58	171.62	377.74	340.09	1,234.04
Commercial	561.78	52.44	28.72	54.89	1,703.36
Total New Trips	**906.36**	**224.06**	**406.46**	**394.98**	**2,937.40**

Note: Traffic mitigation fees are assessed based on the ADT expected to be generated by the project and on the type of area in which the development is occurring. Due to deferred payments and refunds, the Average Daily Traffic (ADT) totals may not equate to the amount of deposits.

ANNUAL, AUTOMATIC ADJUSTMENT OF FEES: The ordinance mandates an annual adjustment of the fees to reflect increases or decreases in the cost of construction. The increase to the fees reflects the percentage increase in the Engineering News Record Construction Cost Index for the preceding twelve months. This increase was 3.2%; therefore, the fees as of January 1, 2018, were as follows:

Fee Type	January 2017	3.2% Increase	January 2018
Residential Fee	$776	X 1.032 =	$801
Commercial Fee	$237	X 1.032 =	$245
Industrial Fee	$217	X 1.032 =	$224

STATUS OF PROJECTS WITHIN THE BOUNDARIES OF THIS DEVELOPMENT FEE AREA:

1. The following construction projects were completed in FY 2017-18:

   No eligible projects were completed during the fiscal period.

2. Design engineering, right-of-way negotiations and construction engineering funded with, or eligible for, County-wide fees, was performed on the following projects in FY 2017-18:

   No eligible projects were in-progress during the fiscal period.

3. The following projects are scheduled for/or currently under construction in FY 2018-19:

   Dry Creek Road and Highway 101 Traffic Improvement Project

FINDINGS FOR FEES WHICH REMAIN UNEXPENDED FOR FIVE YEARS: A balance of $1,149,047 is under spent. This balance is planned to be spent on the following projects:

- C18002 Traffic Improvements at intersection of Dry Creek Road and Highway 101
- C18502 Airport Boulevard Widening Project

The Dry Creek Road and Highway 101 project was delayed from starting in 2017-18 and is expected to begin in 2018-19. A payment to the City of Healdsburg for the Dry Creek Road and Highway 101 project of $160,000 will be made in Fiscal Year 18-19. The remaining amount shall be encompassed in the funding for the Airport Boulevard widening project with preliminary engineering beginning in Fiscal Year 18-19 and construction planned for Fiscal Year 20-21.

CONCLUSIONS: In the FY 2018-19 adopted budget for the Countywide Improvement Funds, expenditure appropriations were included for the project at Dry Creek Road and Highway 101 intersection and at Airport Boulevard totaling $681,000. This is estimated to result in the current $7,219,652 fund balance to approximately $7,548,652 in anticipation of deposits and interest earnings of $1,010,000 in FY 2018-19.

The fee schedule, as adjusted in January 2018 by the Construction Cost Index and as called for in the existing ordinance, is adequate to meet eligible Road Improvement Program needs of the Countywide Traffic Mitigation Area and no ordinance modifications are proposed at this time. Attached for reference is the most up to date list of projects within the traffic mitigation program including estimates for construction cost and dates. The Department is currently working with the CAO's Office and a consultant to update the traffic mitigation fee program and expects to bring it to the Board for approval in 2019.

Johannes J. Hoevertsz,
Director

DATE: October 23, 2018

TO: Board of Supervisors

FROM: Johannes Hoevertsz, P.E., Director of Transportation and Public Works

SUBJECT: 2017-18 Status Report of the Sonoma Valley Development Fee Program
(Traffic Mitigation Fee)

BACKGROUND: In 1989, the Board of Supervisors adopted Ordinance No. 4073 establishing development fees to finance the improvements of certain public facilities and services within the Sonoma Valley area. These fees are kept in a separate fund account. In subsequent years, the Board has adopted revisions to the ordinance, which include modifying the Road Improvement Summary, increasing the fees, modifying language in the ordinance, changing how the fees are calculated, and making this ordinance consistent with others in the County.

The Department of Transportation and Public Works is required by the ordinance governing these fees to provide the Board of Supervisors with an annual review of the adequacy of these development fees. The following are results of the annual review, as well as required AB1600 information.

SUMMARY OF FINANCIAL ACTIVITY (between July 1, 2017 and June 30, 2018):
(for detail, refer to the AB1600 Annual Report Sonoma Valley Mitigation Fees)

BEGINNING FUND BALANCE	DEPOSITS	INTEREST	WITHDRAWALS	RETURNED	ENDING FUND BALANCE
1,063,267	279,373	14,954	(429,445)	(4,403)	923,746

Overall, the fund balance in the fund has decreased $139,521 over the past year.

SUMMARY OF AVERAGE DAILY TRIPS (ADT) BY TYPE OF TRIPS GENERATED IN THE SONOMA VALLEY. (between July 1, 2017 and June 30, 2018):

Trip Type	Sonoma Valley
Residential	28.66
Commercial	1221.61
Total New Trips	**1,250.27**

2017-18 Status Report of the Sonoma Valley Development Fee Program
Page Two
October 23, 2018

Note: Traffic mitigation fees are assessed based on the ADT expected to be generated by the project and on the type of area in which the development is occurring. Due to deferred payments and refunds, the Average Daily Traffic (ADT) totals may not equate to the amount of deposits.

ANNUAL, AUTOMATIC ADJUSTMENT OF FEES: The ordinance mandates an annual adjustment of the fees to reflect increases or decreases in the cost of construction. The increase to the fees reflects the percentage increase in the Engineering News Record Construction Cost Index for the preceding twelve months. This increase was 3.2%; therefore, the fees as of January 1, 2018, were as follows:

Fee Type	January 2017	3.2% Increase	January 2018
Residential Fee	$776	X 1.032 =	$801
Commercial Fee	$237	X 1.032 =	$245
Industrial Fee	$217	X 1.032 =	$224

STATUS OF PROJECTS WITHIN THE BOUNDARIES OF THIS DEVELOPMENT FEE AREA:

1. The following construction projects were completed in FY 2017-18:

   No eligible projects were completed during the fiscal period.

2. Design engineering, right-of-way negotiations and construction engineering funded with, or eligible for, County-wide fees, was performed on the following projects in FY 2017-18:

   # C01147 Boyes Bridge Replacement Project

3. The following projects are scheduled for/or currently under construction in FY 2018-19:

   # C01147 Boyes Boulevard Bridge Replacement should begin construction by the end of FY 2018-19.

FINDINGS FOR FEES WHICH REMAIN UNEXPENDED FOR FIVE YEARS: No fees remained unexpended for five years within the Sonoma Valley Traffic Mitigation fund.

CONCLUSIONS: Expenditure appropriations in the amount of $475,000 for the Boyes Boulevard Bridge Replacement were included in the Adopted FY 2018-19 Road Division budget for the Sonoma Valley Fund. The Boyes Boulevard Bridge Project has been a project going on for a long time with construction expecting to begin towards the end of FY18-19 or beginning of FY19-20. This combination of estimated expenditures is estimated to reduce the current $923,746 fund balance to approximately $576,746 in anticipation of deposits and interest earnings of $128,000 in FY 2018-19.

The fee schedule, as adjusted in January 2018 by the Construction Cost Index and as called for in the existing ordinance, is adequate to meet eligible Road Improvement Program needs of the Sonoma Valley Traffic Mitigation Area and no ordinance modifications are proposed at this time. Attached for reference is the most up to date list of Sonoma Valley projects within the traffic mitigation program including estimates for construction cost and dates. The Department is currently working with the CAO's Office and a consultant to update the traffic mitigation fee program and expects to bring it to the Board for approval in 2019.

County of Sonoma Agenda Item Summary Report

Clerk of the Board
575 Administration Drive
Santa Rosa, CA 95403

Agenda Item Number: 24
(This Section for use by Clerk of the Board Only.)

To: Board of Supervisors

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): County Administrator's Office

Staff Name and Phone Number:
Jennifer Larocque, 565-2431
McCall Miller, 565-2431

Supervisorial District(s):
All

Title: Fiscal Year 2018-2019 Tourism Impact Fund Grant Awards

Recommended Actions:

1. Approve the allocation of Fiscal Year 2018-2019 Tourism Impact Funds from the Community Investment Fund;
2. Authorize the County Administrator, or designee, to execute agreements for a total of $281,912 with non-profit grantees to mitigate the impacts of tourism; and
3. Authorize the County Administrator, or designee, to amend these agreements to lengthen the time schedules and make minor modifications to the allowed uses that do not increase the amount awarded under the agreement.

Executive Summary:

Today's Actions would allocate a total of $281,912 of Fiscal 2018-2019 Tourism Impact Funds from the Community Investment Fund; authorize the County Administrator, or designee, to execute a total of $281,912 in funding agreements with non-profit grantees to complete projects; and authorize the County Administrator, or designee, to amend these agreements and make minor modifications that do not increase the amount awarded under the agreement.

Activities performed utilizing Community Investment Program funds provide public benefits that serve important community needs under Government Code Section 26277.

Discussion:

Transient Occupancy Tax Funding

The Transient Occupancy Tax (Hotel/Motel Tax or Bed Tax) is levied at a rate of 12% in unincorporated Sonoma County. In 2016, voters approved Measure L, which authorized a 3% increase to the tax – from 9% to 12%. The first 9% of TOT is divided with 33% of revenues received going into the General Fund. The remaining funds, including the Measure L funds, are allocated according to the Community Investment Fund Policy.

Tourism Impact Funds

One component of the Measure L funds is the Tourism Impact Fund, established to mitigate the impacts of Tourism. The Tourism Impact Fund distributes 10% of revenue from Measure L among the Supervisorial Districts, according to the percentage of TOT revenue collected in each District during the previous fiscal year.

The Tourism Impact Fund was established to meet unique and urgent needs of areas within unincorporated Sonoma County that are most impacted by tourism. District Supervisors recommend how funding should be allocated in their district, for approval by the Board of Supervisors. In order to address urgent needs in a timely manner, the Board of Supervisors awards Tourism Impact Funds twice a year.

Funds in this category may be used for activities such as safety improvements (e.g. lighted and/or marked crosswalks, traffic calming devices), environmental impact mitigation (e.g. removing trash from beaches, waterways, and areas with high tourist traffic), public safety (e.g. Fire Services), and other tourism mitigation activities, such as parking enforcement in heavily trafficked areas. Unused funds in a single fiscal year will be accounted for and available in following years.

Details of the proposals may be found in Attachment A.

District One Funds: **$10,438**

Project	**Organization/ Department**	**Amount**
Creek Cleanups	Sonoma Ecology Center	$10,000
Farmers Market Site Cleanup	Agricultural Community Events Farmers Markets	$438
	Sub-Total	**$10,438**

District Four Funds: **$45,000**

Project	**Organization/ Department**	**Amount**
Russian River Clean up	Russian Riverkeeper	$25,000
RiverTrek	LandPaths	$20,000
	Sub-Total	**$45,000**

District Five Funds: **$226,474**

Project	**Organization/ Department**	**Amount**
Upgrade Fireboat	Bodega Bay Fire Protection District	$45,000
Drone and staff training	Bodega Volunteer Fire Department	$10,000
Upgrade station exhaust systems	Cazadero Community Services District	$12,000
Power gurney	Coast Life Support District	$10,000
Water rescue equipment	Forestville Fire Protection District	$12,000

Pagers	Gold Ridge Fire Protection District	$15,000
Emergency equipped vehicle	Graton Fire Protection District	$15,000
Extrication equipment	Monte Rio Fire Protection District	$16,000
Portable radios	Occidental Fire Department	$12,000
Engineering support and Permit Sonoma permits	Pole Mt. Lookout	$10,000
Ambulance	Russian River Fire Protection District	$60,000
Tree maintenance equipment	Timber Cove Fire Protection District	$7,124
Tree maintenance equipment	North Sonoma Coast Fire Protection District	$2,350
	Sub-Total	**$226,474**
	Grand Total	**$281,912**

Funds will be distributed upon approval of these awards by the Board of Supervisors and execution of the Tourism Impact Fund Agreement contract by the entity. The contracts will be executed by the County Administrator. The contracts will require the County logo on promotional materials produced using the grant award, and will require submission of receipts to the County Administrator's Office for the total amount of the grant award.

Due to the scope and nature of projects funded by the Tourism Impact Fund, the project may require modification and/or work may not be completed during the award year, necessitating an extension of time or modification of allowed uses for the organization to complete the project. Therefore it is recommended that the County Administrator, or designee, be authorized to amend the contracts to lengthen the time schedules and make minor modifications to the allowed uses that do not increase the amount awarded under the agreement.

Activities performed utilizing Community Investment Program funds provide public benefits that serve important community needs under Government Code Section 26277.

Prior Board Actions:

June 5, 2018: Allocation of FY 2017-2018 Tourism Impact Funds including the transfer of unused funds to FY 2018-2019 for future use

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

Grant funds allow non-profit partners to advertise and grow local events and encourage tourism thereby promoting economic development and growth.

District 1 Recommended Grant Awards for consideration today:			$10,438	
Project	**Organization/Department**	**Recommended Grant Award**	**How will the project help to mitigate the impacts of tourism?**	**How will the community benefit from this project?**
Creek Cleanups	Sonoma Ecology Center	$10,000	This project will help to cleanup trash and debris and restore ecological health to our streams that have been impacted by visitors through trash and debris.	Our work will include outreach and planning to build partnerships, define roles and responsibilities, identify geographic areas of focus and cleanup activities, and establish neighborhood representatives to assist with local cleanups.
Farmers Market Site Cleanup	Agricultural Community Events Farmers Markets	$438	The weekly farmers market provides a weekly community meeting place that is enjoyed by many, residents and tourists alike. The proximity to the Sonoma Mission Inn. Cleaning up the site will create a nice impression for guests of the Inn, local residents, and local businesses.	Having a clean area for the farmers market will encourage others to take pride in their environment.

District 4 Recommended Grant Awards for consideration today:			$45,000	
Project	**Organization/Department**	**Recommended Grant Award**	**How will the project help to mitigate the impacts of tourism?**	**How will the community benefit from this project?**
Russian River Clean up	Russian Riverkeeper	$25,000	Russian Riverkeeper does clean ups along tourist impacted stretches of the river.	Clean healthy river system
RiverTrek	LandPaths	$20,000	LandPaths' RiverTreks demonstrates reducing one of the most talked about tourism impacts: traffic.	Russian RiverTrek is a program that engages participants, both locals and agencies, in the health of the Russian River.

District 5 Recommended Grant Awards for consideration today:			**$226,474**	
Project	**Organization/Department**	**Recommended Grant Award**	**How will the project help to mitigate the impacts of tourism?**	**How will the community benefit from this project?**
Upgrade Fireboat	Bodega Bay Fire Protection District	$45,000	Upgrade Motors in fireboat, training class, mobiles, and portable radios	The community benefits from improved equipment and services
Drone and Training	Bodega Volunteer Fire Department	$10,000	Purchase drone and training	The community benefits from new equipment and services
Station exhaust systems	Cazadero Community Services District	$12,000	Improve station exhaust systems	Improve air quality
Power Gurney	Coast Life Support District	$10,000	Purchase Power Gurney	Increase services to community
Watercraft, trailer and water rescue equipment	Forestville Fire Protection District	$12,000	Purchase 1 personal water craft, 1 trailer, and other needs associated with water rescue	Increase water rescue benefits to community
Pagers and covered warranty	Gold Ridge Fire Protection District	$15,000	30 pagers with warranties	Improve communication benefitting community
Pickup truck with radios, lights, sirens and medical supplies	Graton Fire Protection District	$15,000	Partial payment of Pickup truck with radios, emergency lights, sirens, and purchase of medical supplies	Upgrade equipment improving service to the community
Extrication equipment	Monte Rio Fire Protection District	$16,000	Extrication equipment to replace old rescue gear	Newer gear to improve rescue service
Portable radios	Occidental Fire Department	$12,000	4 portable radios	Improved equipment to serve the community
Engineering Support and Permits	Pole Mt. Lookout	$10,000	Geotechnical engineering, structural engineering, and Permit Sonoma permits for new lookout	Early fire detection opportunity with new lookout
New Ambulance	Russian River Fire Protection District	$60,000	Down payment for new ambulance	New equipment to serve community
Chainsaws, gloves, pulleys, ropes and chokers	Timbercove Fire Protection District	$7,124	Purchase of tree maintenance equipment including chainsaws, gloves, pulleys, ropes, and chokers	Replacing older equipment to serve community
Chainsaws, ropes and equipment	North Sonoma Coast Fire Protection District	$2,350	Purchase of tree maintenance equipment including chainsaws, ropes, and equipment	Replacing older equipment to serve community

Title: Recovery Update

Recommended Actions:

Receive an update on the status of recovery operations, planning, seeking of funding opportunities, community engagement and status of recovery framework, following the October 2017 Sonoma Complex Fires.

Executive Summary:

The aftermath of the October 2017 Sonoma Complex Fires presents ongoing risks to the residents, property, and environment of Sonoma County. Office of Recovery and Resiliency staff provides the Board regular updates on recovery efforts, including debris removal and other structural developments; external funding efforts; relevant legislation; ongoing community engagement; and status of the Recovery and Resiliency Framework being prepared by the Office.

Discussion:

In the early morning hours of October 9, 2017, County staff activated the Emergency Operations Center in response to the Sonoma Complex Fires, which burned 173 square miles and destroyed over 7,000 structures, including 5,143 homes. During the response phase, the County began planning for the recovery from the fires. On December 19, 2017, the Board of Supervisors established the Office of Recovery and Resiliency (Office) with the mission to develop a strategy that addresses the immediate and long-term recovery and resiliency efforts needed to help Sonoma County rebuild and recover from the wildfires. This Office continues to actively pursue recovery efforts, and to work with other County departments, agencies, and districts to assist Sonoma County residents in the process of rebuilding.

In an effort to keep the Board and community informed about the most current developments in the County’s recovery efforts, the Office prepares a standing agenda item for each Board meeting, typically included on the consent calendar. This update includes information on: (1) Ongoing Recovery Efforts and Structural Changes; (2) Recovery Related External Funding Opportunities; and (3) highlights of activities on the horizon (Looking Forward). New items and updated counts and figures are in bold.

1. **Ongoing Recovery Efforts and Structural Changes**

   A. Debris Removal

      1. Debris removal is in the final stages for both the Government-Sponsored Program and the Alternative Program (private debris removal). About 25 percent of property owners who lost homes opted to use a private contractor for debris removal.

      2. Government-Sponsored Program:
         A. Properties cleared by Army Corps of Engineers: 3,674
         B. All properties returned to owners by County to start rebuilding

      3. Private Debris Removal:
         A. County: 767 residential properties accepted; 749 certified as ready to rebuild. The deadline for full compliance with the Sonoma Complex Fire Cleanup Emergency Ordinance was December 10, 2018. As of December 4th, there were 18 properties remaining. Many of these properties were actively working to reach compliance prior to December 10th. Your Board has authorized that a lien be recorded against any property that has not been cleared by County Environmental Health by December 10th. Once a property has been cleared by Environmental Health, the lien will be dismissed. Properties will not be issued a building permit from Permit Sonoma until they receive that clearance.
         B. City: 450 properties accepted; 441 finished and ready to rebuild

      4. USACE Hotline:

         The U.S. Army Corps of Engineers in May 2018 stopped accepting new debris removal complaints on its hotline for Sonoma County. The Office of Recovery & Resiliency has assumed the role of receiving new debris complaints at 707-565-1222.

      5. Over-Excavation Program:

         The California Office of Emergency Services is working with the City of Santa Rosa and County to address over-excavation issues that occurred as part of the Government-Sponsored Debris Removal Program. For properties that meet Cal OES over-excavation criteria, the State's contractor is backfilling to appropriate elevations. As of November 27, 2018, 722 property owners requested site assessments; 379 have been ruled eligible for program; 343 have been ruled ineligible; backfilling of 360 sites has been completed. Fire related debris has been found on 148 of the sites. A variety of issues have impacted the pace of the project, including the discovery of structural ash, concrete footings, large pieces of concrete and large boulders that required removal prior to backfilling work.

      6. Hazardous tree removal

         On October 16, 2018, your Board approved a construction contract for removal of fire-damaged trees, stump grinding, pruning limbs and disposing of previously felled trees, located in the public right-of-way. County crews and contractors previously removed trees that posed an "imminent" threat to road use, and a professional arborist consultant identified trees to be removed as posing “extreme” or “high” risks along approximately 90 miles of roads in burned areas of the County. The Contractor and the Transportation & Public Works Department will notice the property owners adjacent to the "extreme" or "high" risk trees that will be removed, by either mail or hand-delivered letters, and social media. The work is expected to begin December 10, 2018.

The contract for the removal of trees within private property and affecting the road right-of-way will potentially be awarded in January 2019 with work starting in March. Those dates are subject to change pending Right of Entry or bid issues.

B. Watershed Task Force

Sonoma County has been leading efforts by the Watershed Task Force to coordinate preparation for rainy season operations, storm patrols, and communications between public agencies and with community members. Erosion and sediment control and storm water pollution prevention is a critical focus, since the risks of flooding, erosion, sedimentation, mudslides, or similar hazards are increased for a few years after a wildfire.

The County and City of Santa Rosa each prepared corresponding brochures to inform property owners and contractors about their responsibilities and the resources available, and created tailored versions addressing vacant parcels and those under construction. Those brochures were mailed to property owners in the burn areas and have been distributed by staff, inspectors, and nonprofit partners in group meetings and during site visits. A summary of the information and downloadable PDFs of the brochures are accessible online at https://www.sonomacountyrecovers.org/rain-ready/

Through service contracts, the County has continued to support local nonprofits that are providing technical services and implementing Best Management Practices (BMPs) on private parcels that were affected by the October 2017 fires. These services aim to protect the burned watersheds and the County’s streams and rivers by stabilizing areas with vulnerable exposed soils and/or damaged vegetation. County staff are in the process of developing a longer term approach to address these issues to establish a systematic way of evaluating the highest risk areas, maximize service delivery, and ensure sufficient resources to mitigate these risks in the future.

C. Renewal Enterprise District and Build/Rebuild Ad Hoc Update

On December 4, 2018, the Board of Supervisors and the City Council approved a joint powers agreement to create the Renewal Enterprise District (RED) as a separate legal entity formed as a Joint Powers Authority by the City of Santa Rosa and the County of Sonoma. The RED is a partnership between the County and City of Santa Rosa to catalyze and facilitate rapid development of additional new housing to meet a diversity of needs within the County and the City of Santa Rosa, and in a way that protects the environment, supports our economic renewal, and improves the well-being of all the county's residents.

The basic premise of the RED is to work across jurisdictions to market and attract developers, blend private financing and public funds, leverage state and federal grant funds, and facilitate creation of housing that meets established public policy goals for increased density, access to transit, protection of open space and community separators; improved energy efficiency, climate resilience, and affordability; and to advance and ensure equitable access to housing. The Agreement provides a flexible framework for multi-jurisdictional collaboration. It will enable the RED to create a structure for development of funding and other incentives to facilitate and encourage climate-smart, resilient and affordable housing, as well as other community development projects. The precise scope of the RED's efforts will be defined by the JPA Board of Directors.

Creation of the RED signals to the public, state and federal officials, and outside investors and business interests that Santa Rosa's and Sonoma County's local governments are serious about working together to overcome barriers to housing development.

The initial staffing and operations will be provided by existing City, County, and Community Development Commission (CDC) staff, supplemented by the Sonoma County Transportation Authority, Regional Climate Protection Agency, and Sonoma Clean Power.

D. Rebuilding Permits

1. County has issued 788 building permits for homes as of November 28; 139 permits are in process; 24 homes have been finished. For latest numbers, go to http://sonomacounty.ca.gov/PRMD/Administration/Rebuilding-Permits-Data/
2. City of Santa Rosa has issued 1,108 building permits for homes as of November 28; 237 permits are in process; 74 homes have been finished. For latest numbers, go to https://www.srcity.org/2675/Rebuilding

2. Recovery-Related External Funding Opportunities

A. Community Development Block Grant – Disaster Recovery

Announcement of $212 Million: On April 10, 2018, the U.S. Department of Housing and Urban Development (HUD) announced that California would be receiving $212 million to support long-term disaster recovery through the Community Development Block Grant – Disaster Recovery (CDBG-DR) program, including $124 million for unmet disaster recovery needs, and $88 million for preparedness and mitigation. The Federal Register governing the $124 million portion for unmet disaster recovery needs was issued on August 20, 2018.

Requirements of $124 Million: At least 80% of the allocation ($99 million) must address unmet disaster needs within the HUD-identified most impacted and distressed areas identified as: Sonoma and Ventura Counties, and zip codes 93108, 94558, 95422, 95470, and 95901. Funds must primarily address unmet housing needs. The California Department of Housing and Community Development (HCD), as Grantee and receiver of the funds, has drafted an Action Plan to submit to HUD by December 18, 2018. The Action Plan details the proposed use of all funds. HCD has assessed community impacts and unmet needs to guide the development and prioritization of planned recovery activities, of which 70% must be used to support activities benefitting low- and moderate- income persons.

Status: HCD has held two public meetings in Santa Rosa, one on October 2, 2018 and the second on November 26, 2018, first to introduce the draft action plan and second to receive initial comments before finalizing and submitting their Action Plan. HCD's proposed Action Plan includes a budget of $47.6 million for an owner-occupied housing program, $66.7 million for a multifamily housing program, $3.5 million for a FEMA PA match program, and $6.2 million for administration.

The owner-occupied program is proposed to be a Statewide program by HCD. HCD will release a Survey to help finalize the owner-occupied program prior to opening up the application process. The multi-family program will have funds allocated directly to the local jurisdiction. This allocation is proportionate to the number of Low and Moderate Income renters within the disaster areas of each jurisdiction. As proposed, Sonoma County would receive $4,698,809 and the City of Santa Rosa would receive $38,469,772.

The Office of Recovery and Resiliency and the Community Development Commission, along with other community partners, are continuing to collaborate with HCD regarding the proposed programs for the action plan to align eligible unmet needs found throughout the County with the ultimate use of the funds.

B. FEMA Hazard Mitigation Grant Program

Hazard Mitigation Grant Program (HMGP) for DR-4344 and DR-4353: The October 2017 fires are also known as DR-4344, and the December 2017 Southern California fires are known as DR-4353. Both became Presidential Disaster Declarations, and as a result they generated Federal Emergency Management Agency (FEMA) HMGP funding. DR-4344 had $333 million in HMGP available statewide, with applications due July 2 and September 4. DR-4353 had $56 million in HMGP available statewide, with applications due September 4. County Departments and Districts submitted 20 grant applications to the California Office of Emergency Services (Cal OES) for this program. The County's submitted HMGP applications are summarized below.

The countywide Grant Steering Committee worked with Departments and Districts to prioritize feasible grant applications based on success criteria, match funding sources, and leadership priorities.

DR-4344 Round 1 HMGP Applications - Submitted on July 2

- 8 applications submitted
    - $17.4 million in total project costs ($13.1 million in federal share, $4.3 million in local match). $500,000 in general fund match.

    - Applications submitted by Community Development Commission (1), General Services (1), Sonoma County Water Agency (3), and Transportation and Public Works (3)

DR-4353 HMGP Applications – submitted on September 4

- 1 application submitted
    - $850,000 in total project cost ($637,500 in federal share, $212,500 in local match). $212,500 in general fund match.
    - Application submitted by Fire and Emergency Services (1)

DR-4344 Round 2 HMGP Applications – submitted on September 4

- 11 applications submitted
    - $21.4 million in total project costs ($16 million in federal share, $5.4 million in local match). $4.5 million in general fund match.
    - Applications submitted by Fire and Emergency Services (1), General Services (1), Information Systems Department (1), Regional Parks (1), Permit Sonoma (4), Sonoma Water (1), and Transportation and Public Works (2)

The next steps are for Cal OES to complete its review of the applications and determine which to submit to FEMA for review and final approval. All projects receiving HMGP funding must be completed within three years from the date of award.

HMGP for DR-4382: The 2018 wildfires in Lake and Shasta County have become known as DR-4382, and also became a Presidential Disaster Declaration. This opened up HMGP funding and Notices of Interest (NOI) were due October 5, 2018. The Information Systems Department submitted 4 NOIs, and Sonoma Water submitted one NOI.

1. ISD: Hardening of Wireless Communication Infrastructure, $400,000 total project cost
2. ISD: Critical Facility Power Retrofit, $100,000 total project cost
3. ISD: Critical Facility Redundant Power Feed, $250,000 total project cost
4. ISD: Critical Facility Redundant Internet Feed, $100,000 total project cost
5. Sonoma Water: Sonoma Water Standby Power, $500,000 total project cost

C. FEMA Public Assistance

The Disaster Finance Team (consisting of participants from the Auditor-Controller Treasurer-Tax Collector, County Administrator’s Office, and County Counsel) is working with FEMA and Cal OES on 22 project worksheets to claim reimbursement for response and recovery costs associated with the October 2017 fires, as well as repair/replacement costs for damages sustained to County property that are not covered by the County’s insurance policies. These claims are being submitted through the FEMA Public Assistance Program.

As of October 10, 2018, the Disaster Finance Team estimates the County’s total disaster related costs qualifying for FEMA’s Public Assistance Program will be approximately $37 million, of which we anticipate the County will be reimbursed approximately $36 million over the next 2 to 5 years. FEMA has obligated 15 of the 22 projects and the County has received $9.1 million in expedited reimbursement funding and $246,000 for small permanent projects managed by Regional Parks and Transportation and Public Works.

The Disaster Finance Team is in the process of collecting and reviewing supporting documentation for about $13 million ($3.5 million paid out) in Mutual Aid/Assistance provided by 85 law enforcement agencies, 17 EMMA jurisdictions, 12 shelters, and 12 agencies through Department of Health during the fires and continues to work with FEMA, CAL-OES and County Departments to finalize the remaining five project worksheets. Claims for reimbursement will be filed with FEMA as additional disaster related costs are incurred and documentation is compiled. The Disaster Finance Team is also in the process of reviewing labor reports and personnel activity logs, and working with County Departments to reconcile approximately $6 million in fire related labor costs that may be eligible for reimbursement.

D. Economic Development Administration – Disaster Supplemental Funding

Economic Development Administration (EDA) has an open funding opportunity to award grants to eligible entities to address economic challenges in disaster-impacted areas.

On October 12, 2018, the County's Economic Development Board submitted a full grant application to the EDA to conduct design/engineering for broadband in specific unserved rural areas of the County. This project was developed with the Office of Recovery and Resiliency, Department of Transportation and Public Works, and Information Systems Department. The submitted application is for $605,500 to complete the design, engineering, and feasibility analysis of broadband in select locations.

Additional potential projects are being considered, including the following:

Project 1 - Revolving Loan Fund to provide credit to Sonoma County entrepreneurs traditionally excluded or denied loans from mainstream financial institutions.
Project 2 - Regional Construction and Trades Training Center.
Project 3 - AgTech Incubator for local agriculture and food/beverage manufacturing.

E. CAL FIRE Grants for Fire Prevention

The CAL FIRE Fire Prevention grant program, funded by the California Climate Investments (CCI) fund, aims to reduce the risk of wildland fires to habitable structures and communities. CAL FIRE opened the Fire Prevention program for FY 18-19 applications on October 17, 2018, with applications due December 19. The Office of Recovery is tracking this opportunity and coordinating with applicable County Departments and partners to consider applications. For more information see: http://calfire.ca.gov/fire_prevention/firepreventiongrants

In Summer 2018 CAL FIRE opened the Fire Prevention program for FY 17-18. Sonoma County applied for and was awarded the following grant application:

1. Northwest Roadway Safety, Fuels Reduction, and Community Chipper and Engagement Project. Transportation and Public Works is lead, in partnership with Fire and Emergency Services and Fire Safe Sonoma, Inc. Total: $1,237,541; CAL FIRE $1,082,969; Match: $154,572
   a. Match source: $131,300 is from General Fund FY 2018 set aside; $23,272 from in-kind volunteer labor tracked by Fire Safe Sonoma.

F. Crisis Counseling Assistance and Training Program Grant

The Crisis Counseling Assistance and Training Program, known locally as California HOPE, is administered in Sonoma County through the County Department of Health Services, Behavioral Health Division. California HOPE counselors have helped to provide over 65,800 services and counseling sessions to community members (this data contains duplicate individuals). The program helps individuals and communities recover from disasters through community outreach, counseling, and access to mental health services for survivors of these disasters. Counselors are available to meet people wherever they are to provide crisis counseling, resource navigation, and disaster recovery education. Counselors help survivors understand their current reactions, reduce stress, receive emotional support, prioritize their needs and solve problems, choose coping strategies, and connect with people and agencies who can help. Bilingual counselors are available. This program is funded from a variety of sources. The initial recovery work is supported by short-term disaster grants from FEMA for $4.3 million. The California HOPE funding from FEMA ends in January 2019, and Kaiser Permanente has confirmed an additional $1 million. Sonoma County Department of Health Services is pursuing additional funding to continue California HOPE up to September 2019.

3. Looking Forward

A. Recovery and Resiliency Draft Framework

Your Board received and discussed the Draft Framework on September 25, 2018, and opened a 30-day public comment period on the document that ended October 26. The Draft Framework is available online at https://sonomacounty.ca.gov/ORR/. Print copies are available at the County Administrator's Office at 575 Administration Drive, Suite 104A, Santa Rosa. Community members are encouraged to submit recovery related feedback, input, and questions to recoveryinfo@sonoma-county.org. Additional information is available on the Office of Recovery website at https://sonomacounty.ca.gov/ORR/. For information on overall recovery efforts, visit www.sonomacountyrecovers.org

Timeline: The Recovery and Resiliency Framework will be brought to your Board at this meeting for approval.

Prior Board Actions:
Regular Recovery updates have been provided to your Board since November 2017.

Title: Approval of Quiet Zone Improvements Maintenance Agreement

Recommended Actions:

Authorize the Director of Transportation and Public Works to execute an agreement with the Sonoma Marin Area Rail Transit (SMART) District establishing maintenance responsibilities of Sonoma County Quiet Zone safety improvements in the unincorporated area.

Executive Summary:

This item seeks approval of an agreement with the Sonoma Marin Area Rail Transit District to establish the responsibilities of the County and the District with respect to maintaining safety improvements needed to ensure continued operation of the Sonoma County Quiet Zone. Additional costs as a result of this agreement are unknown at this time and will be negotiated with SMART at a later date.

Discussion:

The Sonoma Marin Area Rail Transit (SMART) corridor runs through Sonoma County with service currently being offered from the Sonoma County Airport Boulevard Station through the Marin County line south of Petaluma. In 2017, Sonoma County initiated proceedings with the Federal Railroad Administration (FRA) to establish a “quiet zone” along the SMART corridor for the unincorporated areas of the County to the north and south of the City of Santa Rosa’s limits, and running south through Cotati and Rohnert Park (the Quiet Zone). In the Quiet Zone, train operators sound train horns where the circumstances indicate that it is required for safety, but do not sound the train horn as a matter of course when approaching a crossing. The Quiet Zone became effective per FRA regulations on November 21, 2017.

In order for the Quiet Zone to come into effect, the public crossings within its borders were required to meet FRA safety standards sufficient to allow the SMART train to operate within certain safety metrics when the train horn is not routinely sounded, primarily by the construction of Supplemental Safety

Measures (SSMs). The County completed certain SSMs at quiet zone crossings as required to meet these metrics, and the SMART District completed other improvements at the time of rail construction that allowed these crossings to meet the FRA standards for quiet zone approval.

Beginning prior to the commencement of SMART’s rail service August 25, 2017, the County and SMART have worked to establish an agreement on the maintenance of the improvements at the crossings included in the Quiet Zone. This item requests that the Board of Supervisors approve the attached Maintenance Agreement, which sets out the obligations of the County and SMART with respect to maintenance, insurance, and indemnification in the event of loss. The Agreement outlines responsibility for the County and SMART for each improvement, and will help ensure the improvements are adequately maintained

If your Board does not approve the Maintenance Agreement, the responsibilities of the County and SMART with respect to the maintenance of improvements will be determined by law and California Public Utilities Commission policy, and in the event of a loss or dispute, common law principles will apply.

Prior Board Actions:

May 23, 2017: Board Authorizes agreement with Cotati and Rohnert Park for Joint Quiet Zone December 13, 2016: Board Authorizes Notice of Intent to Establish Quiet Zone

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

This item will facilitate the ongoing operation of the Quiet Zone, which decreases the amount of noise and disruption experienced by the community associated with routine train horn sounds.

Narrative Explanation of Fiscal Impacts:

Maintenance activities under the agreement will not change from currently budgeted Transportation and Public Works activities, which is less than a $1,000 annually. Any additional or long-term costs associated with required maintenance or improvements are unknown at this time due to agreement's indemnity provision and will be budgeted as information becomes available.

Maintenance Agreement

Related Items "On File" with the Clerk of the Board:

AGREEMENT FOR MAINTENANCE OF SAFETY IMPROVEMENTS RELATED TO QUIET ZONE

THIS AGREEMENT is made and entered into this _________ day of _____________, 2018, by and between the County of Sonoma, hereinafter referred to as "the COUNTY", and the Sonoma-Marin Area Rail Transit District, a California special district, hereinafter referred to as “SMART.” The COUNTY and SMART are collectively referred to as "Parties."

RECITALS

WHEREAS, SMART owns certain railroad right-of-way assets (“ROW”) for passenger service in and through the COUNTY over which passenger trains are and will be operated in a manner that provides safety for motorists and pedestrians, including a system of warning signals and gates at grade crossings and the use of warning horns on trains as required by the Federal Railroad Administration (“FRA”), the California Public Utilities Commission (“CPUC”) and any other governmental body with regulatory authority; and

WHEREAS, the COUNTY has established a quiet zone for grade crossings within the COUNTY, as provided by FRA regulations; and

WHEREAS, the FRA requires that a COUNTY wishing to establish a quiet zone must meet specified requirements and issue a Notice of Intent to establish a quiet zone, as provided by the FRA regulations; and

WHEREAS, the COUNTY issued a Notice of Intent to establish a Quiet Zone within the COUNTY’s jurisdictional limits. The boundaries of that Quiet Zone and the crossings it covers within the COUNTY’s limits are shown on Exhibit “A” attached hereto and incorporated by this reference (the “Quiet Zone”); and

WHEREAS, the COUNTY is acting as the lead agency and per the requirements set forth in 49 CFR Part 222 applicable to public authorities (as that term is defined in 49 CFR Part 222). As the lead agency, the COUNTY is responsible for performing any duties of the lead agency necessary to continue or re-establish the Quiet Zone, including producing studies and documentation as may be required by the regulations or administrative policies and procedures of the FRA and/or the CPUC; and

WHEREAS, the COUNTY, as part of its initial establishment of the Quiet Zone, has conducted an initial comprehensive diagnostic review and will perform periodic reviews on a schedule determined by the FRA, the CPUC, and any other governmental body with regulatory authority consistent with FRA and CPUC orders and regulations; and

WHEREAS, the COUNTY understands and acknowledges that the establishment of the Quiet Zone results in the FRA directing all railroads operating within the Quiet Zone to comply with the FRA directive to cease the sounding of locomotive horns within the Quiet Zone, except under conditions provided under section 49 CFR part 222.23; and

WHEREAS, SMART has, as part of its track reconstruction, constructed certain Supplemental Safety Measures (SSMs) and Alternative Safety Measures (“ASMs”) within the COUNTY, as shown in Exhibits "B-1 through B-11" attached hereto and incorporated herein by this reference, and COUNTY has also constructed certain SSMs within the COUNTY, in the areas identified as COUNTY ROW-COUNTY MAINTAINED shown in Exhibits "B-1 through B-11"; (collectively referred to as the "Quiet Zone Improvements"); and

WHEREAS, the construction of the Quiet Zone Improvements have assisted the COUNTY in the process of establishing a Quiet Zone; and

WHEREAS, as part of the COUNTY's Quiet Zone establishment process a diagnostic review of each proposed Quiet Zone crossing has been conducted and COUNTY has identified those crossings as qualifying for Quiet Zone status as of the date of this Agreement; and

WHEREAS, the COUNTY acknowledges that additional SSMs and/or Alternative Safety Measures ("ASMs"), supplementing or modifying the Quiet Zone Improvements identified in Exhibit B-1 through B11, may be required to be installed at the COUNTY's rail crossings for the purpose of maintaining the qualification of the COUNTY's Quiet Zone under requirements of the FRA, the CPUC and/or other regulatory agencies ("Future Quiet Zone Improvements"); and

WHEREAS, while the COUNTY may in the future desire to install Future Quiet Zone Improvements at one or more of the COUNTY's rail crossings for the purpose of maintaining the COUNTY's Quiet Zone designation, the Parties acknowledge that this Agreement is not intended to apply to any such Future Quiet Zone Improvements, and that SMART does not, by this Agreement, agree or undertake any duty to pay or incur any cost or contribute monetarily to their design or installation, and the Parties further acknowledge that failure to install Future Quiet Zone Improvements may impact the FRA's quiet zone directive; and

WHEREAS, the Parties wish to memorialize their agreement as to their respective obligations with respect to the maintenance and repair of the Quiet Zone Improvements;

NOW, THEREFORE, in consideration of the mutual covenants and conditions hereinafter set forth, it is agreed as follows:

AGREEMENT

SMART Responsibilities.

SMART shall:

1. Participate as reasonably necessary in diagnostic team evaluation meetings collectively arranged by the COUNTY and SMART per FRA and/or CPUC requirements from time to time.
2. Review preliminary and final reports, studies, and designs submitted by the COUNTY in relation to the establishment and continuation of the Quiet Zone.
3. Cooperate and provide technical assistance to the COUNTY in its efforts to establish, continue and/or re-establish a Quiet Zone.
4. After mailing the Notice of Establishment of a Quiet Zone by the COUNTY, as required by the FRA or the CPUC, and upon the Quiet Zone establishment date specified in the Notice of Establishment, SMART as directed by the FRA, has and shall continue to cease routine use of the locomotive horn at crossings identified by the COUNTY pursuant to 49 CFR Part 222.45, as amended from time to time, or any other applicable law.
5. SMART's rights and duties regarding the sounding of the locomotive horns shall be as set forth in 49 CFR Part 222.23, as amended from time to time, and by other applicable law that governs when the locomotive Engineer is required or has discretion to sound the locomotive horn; and nothing contained in this Agreement shall be construed to alter such rights and duties.

6. Maintain, repair, and replace the Quiet Zone Improvements located within the areas and/or identified as "SMART ROW-SMART MAINTAINED" on Exhibits B-1 through B-11, at SMART's expense, such that they remain in proper operating condition and fully compliant with applicable laws and regulations.

7. Maintain, repair, and replace the Quiet Zone Improvements identified as "COUNTY ROW-SMART MAINTAINED" on Exhibits B-1 through B-11, at COUNTY's expense, such that they remain in proper operating condition and fully compliant with applicable laws and regulations.

8. Except for urgent or emergency circumstances, for work performed within COUNTY's ROW, SMART shall obtain the applicable encroachment permit approvals from the COUNTY and any other regulatory agencies. COUNTY shall charge no fees for COUNTY permits issued pursuant to this Agreement.

9. Pursuant to CPUC General Order 72B, at all public crossings within COUNTY jurisdiction, SMART shall maintain and repair all crossing areas between lines two (2) feet outside of the rails of each track, including between the rails, and where two or more tracks are involved, the area between the tracks where the distance between the center lines of tracks is fifteen (15) feet or less measured at the center line of the road or highway normal to the tracks.

10. Notify the COUNTY if SMART becomes aware of any regulatory changes that affect the COUNTY's Quiet Zone.

11. Notify the COUNTY if SMART becomes aware of any modifications to the existing infrastructure near the Quiet Zone Improvements, regardless of whether the changes affect these facilities, to allow the COUNTY to anticipate impacts to the COUNTY's roadways.

<u>COUNTY Responsibilities.</u>

COUNTY shall:

12. Diligently review and administer any encroachment permit application from SMART in order to allow SMART to enter into COUNTY'S ROW as needed for the purpose of performing any work required pursuant to this Agreement.

13. Maintain, repair, and replace the Quiet Zone Improvements located within the areas identified as "COUNTY ROW-COUNTY MAINTAINED" on Exhibits B-1 through B-11, at COUNTY's expense, such that they remain in proper operating condition and fully compliant with applicable laws and regulations.

14. Pay, or reimburse SMART for, all costs incurred for SMART's maintenance, repair, and replacement of Quiet Zone Improvements within the COUNTY ROW designated as "COUNTY ROW-SMART MAINTAINED" on Exhibits B-1 through B-11, as required by Section 7 above.

15. Pursuant to CPUC General Order 72B, the COUNTY shall maintain the public roadway improvements, including raised medians, roadways, sidewalks, and paths of travel, outside of the crossing area described in Paragraph 9 above, at all public crossings within the jurisdiction and control of the COUNTY. Notwithstanding the forgoing, which is intended to be illustrative of COUNTY's obligations regarding public roadways within its jurisdiction and control and outside of SMART's responsibility, nothing in this agreement

shall be construed to create a contractual duty by COUNTY to SMART with respect to maintenance of county roadways or improvements thereupon other than at public railroad crossings.

16. Obtain, and at all times maintain in full force and effect, at its sole cost and expense, Comprehensive General Liability Insurance, or, if self-insured shall maintain excess liability coverage, and shall remove any exclusion relating to performance of operations within the vicinity of any railroad, bridge, trestle, track, roadbed, tunnel, underpass, or crossing from its general liability coverage for both the self-insured and excess policies.

17. Indemnify, defend and hold harmless SMART and/or any entity providing dispatch or passenger rail service or using SMART's ROW, from and against any and all claims, suits, losses, damages, costs, and expenses (including reasonable attorneys' fees and other defense costs), for injury or death and for loss and damage to property arising from the negligent acts or omissions or willful misconduct on the part of the COUNTY, its officers, agents, contractors, or employees in the construction, operation, repair or maintenance of any COUNTY-installed and/or COUNTY-maintained Quiet Zone Improvements located within the COUNTY's ROW, and/or the performance of work pursuant to Paragraph 13 above, except to the extent that such claims, suits, losses, damages, costs, and expenses arise from the negligent acts, omissions or willful misconduct on the part of the SMART, its officers, agents, contractors, or employees.

18. Establish a Quiet Zone page or link on the COUNTY website to provide more information regarding the Quiet Zone (e.g. www.COUNTY.org/quietzone).

19. Collaborate and cooperate with SMART to develop a community education and awareness program in order to educate the public regarding additional safety measures and what to expect once the Quiet Zone is established.

PARTIES:

20. Should the FRA, the CPUC or any other governmental body with regulatory authority over SMART issue any regulation, rule, ordinance, or other law that would require an upgrade or the installation of Future Quiet Zone Improvements in order to maintain or re-establish the COUNTY's quiet zone, the Parties acknowledge that SMART shall not be responsible for any cost for construction, reconstruction or upgrades of the improvements for the purpose of maintaining the COUNTY's Quiet Zone designation.

21. Any notice required or permitted to be given hereunder by one party to the other shall be in writing and the same shall be given and shall be deemed to have been served and given if (1) placed in the United States mail, certified, return receipt requested, or (2) deposited into the custody of a nationally recognized overnight delivery service, addressed to the party to be notified at the address for such party specified above or below, or to such other address as the party to be notified may designate by giving the other party no less than thirty (30) days advance written notice of such change in address.

    If to SMART:

    SONOMA-MARIN AREA RAIL TRANSIT DISTRICT

    Petaluma, CA 94954
    Attention: Chief Engineer

If to COUNTY:

COUNTY OF SONOMA
Attn: Transportation and Public Works Director
2300 County Center Dr., Room B100
Santa Rosa, CA 95403

22. All questions concerning the interpretation or application of provisions of this Agreement shall be decided according to the laws of the State of California. Venue shall be the County of Sonoma.

23. To the maximum extent possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under applicable law, but if any provision of this Agreement shall be prohibited by, or held to be invalid under applicable law, such provision shall be ineffective solely to the extent of such prohibition or invalidity, and this shall not invalidate the remainder or any other provision of this Agreement.

24. The Parties hereby acknowledge and agree that (a) each party has actively participated in the negotiation and drafting of this Agreement, (b) each such party has consulted or has had the opportunity to consult with their own independent counsel relative to matters contemplated under this Agreement, (c) each party and party's counsel have reviewed the Agreement, and (d) any rule of construction to the effect that ambiguities are to be resolved against the drafting party(ies) shall not apply in the interpretation of this Agreement, or any portions hereof or any amendments hereto.

25. This Agreement is the full and complete agreement between SMART and the COUNTY with respect to all matters relating to this Agreement, and supersedes any and all other agreements between the parties hereto relating to rights, responsibilities and obligations of the Parties as described herein. However, nothing herein is intended to terminate any surviving obligation of the COUNTY or SMART or the parties' obligations to defend and hold one another harmless in any prior written agreement between the parties.

26. Persons who are not parties to this Agreement shall have no rights or obligations as a result of this Agreement. This Agreement is between the parties hereto and no other person or entity is an express, intended, or implied third party beneficiary hereof.

27. Waiver. Any party’s failure to enforce or exercise its rights with respect to any provision hereof shall not be construed as a waiver of such rights or of such provision.

28. Dispute Resolution. In the event of a dispute between the parties arising from this Agreement, the parties agree to attempt resolution informally, and then through non-binding mediation, prior to filing any court action to enforce this Agreement.

29. Recitals. The recitals are incorporated by this reference.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the day, month and year first above written.

County of Sonoma Agenda Item Summary Report

Clerk of the Board
575 Administration Drive
Santa Rosa, CA 95403

Agenda Item Number: 27
(This Section for use by Clerk of the Board Only.)

To: The Board of Supervisors of Sonoma County

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): District Attorney's Office

Staff Name and Phone Number:
Renate Amantite, 565-3510

Supervisorial District(s):

Title: District Attorney's Violence Against Women Program

Recommended Actions:

Adopt a Board Resolution to authorize the Sonoma County District Attorney to sign a contract with the California Governor's Office of Emergency Services to continue participation in the Violence Against Women Vertical Prosecution program and accept $202,545 in funding for the term of July 1, 2018 to June 30, 2019.

Executive Summary:

Board approval and authorization is requested to allow the District Attorney to accept the State of California Office of Emergency Services: Violence Against Women Vertical Prosecution Grant Award of $202,545 for FY 2018-19.

In 2013 the California Office of Emergency Services began a Violent Crimes Against Women grant program to encourage and support counties adoption of a vertical prosecution model for the handling of violent crimes against women, including the most egregious domestic violence and sexual assault crimes. The purpose of this grant program is to improve conviction rates and minimize victim trauma. Sonoma County has had a successful vertical prosecution unit since 2013 when the grant program began. Under Sonoma County's true vertical prosecution unit one attorney and one victim advocate work collaboratively to handle these case from beginning to end. Sonoma County is being awarded this grant for a sixth year to continue this successful program.

Discussion:

The purpose of the grant is to support the Vertical Prosecution model endorsed by the Office of Violence Against Women, which provides the State Formula Grants to the California Office of Emergency Services in support of this program. With this funding, the District Attorney's Office, with resources leveraged by the Family Justice Center, established a true vertical prosecution and victim advocate program for a specialty caseload involving serious felony domestic violence and sexual assault crimes. The specialized prosecutor along with the assigned bilingual Victim Witness Advocate and investigator, are co-located at the Family Justice Center to receive and handle each referral to the specialty caseload from case inception to conclusion. The vertical prosecution model yields better victim service, intake, referral, and court service outcomes for victims, and provides a higher level of coordination between law enforcement agencies and prosecution staff.

Grant funding is used toward the salaries and benefits of the Deputy District Attorney IV (DDA IV). The 25% match required for grant funding will be provided with General Fund dollars through the District Attorney's budget and staff allocation. The grant funds as well as the matching funds have been appropriated in the adopted budget for Fiscal Year 2018-19.

We request Board authorization for the District Attorney to sign a contract with the California Office of Emergency Services to accept the grant award for $202,545 for the term July 1, 2018, to June 30, 2019.

Prior Board Actions:

Cal OES has awarded this grant to the Sonoma County District Attorney's Office for the past five years, beginning in FY 2013-14.

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

Funds from the Violence Against Women Vertical Prosecution Program provides a system of enhanced victim advocacy, and referral services for victims of domestic violence and sexual assault. Law enforcement and prosecution staff also provide improved resources to investigate crime, prosecute cases, and bring criminals to justice.

Fiscal Summary			
Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	270,060		
Additional Appropriation Requested	0		
Total Expenditures	**270,060**		
Funding Sources			
General Fund/WA GF	67,515		
State/Federal	202,545		
Fees/Other			
Use of Fund Balance			
Contingencies			
Total Sources	**270,060**		

Narrative Explanation of Fiscal Impacts:

Continuation of the Sonoma County Violence Against Women Vertical Prosecution program will cost $270,060 with a $202,545 award from Cal OES and a required match of $67,515 from general funds already approved in the existing FY 2018-19 District Attorney's budget.

Violence Against Women Vertical Prosecution Program award document

County of Sonoma
State of California

Item Number: ________________

Date: December 11, 2018 Resolution Number: ________________

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, authorizing the District Attorney to participate in the Violence Against Women Vertical Prosecution Program and to execute a contract with the California Governor's Office of Emergency Services for Fiscal Year 2018-19 in the amount of $202,545.

Whereas, the Sonoma County District Attorney desires to continue a certain program designated as the Violence Against Women Vertical Prosecution program, as the provider of multidisciplinary efforts to improve criminal justice response to violent sexual assault and domestic violence crimes against women and services for victim(s) in Sonoma County; and

Whereas, the Violence Against Women Vertical Prosecution Division is to be funded in part from funds made available through a Violence Against Women Vertical Prosecution Program grant award made available through California Governor's Office of Emergency Services; and

Whereas, the California Governor's Office of Emergency Services has allocated $202,545 to the County of Sonoma for FY 2018-19.

Now, Therefore, Be It Resolved that the District Attorney of the County of Sonoma is authorized, on behalf of this body, to accept a grant for the Violence Against Women Vertical Prosecution Program from California Governor's Office of Emergency Services and is authorized to execute an behalf of the Sonoma County Board of Supervisors the Grant Award Agreement including any extensions of modifications thereof.

Be It Further Resolved that grant funds received hereunder shall not be used to supplant expenditures controlled by this body, and will hold CalOES harmless from any claims that arise from the use of grant monies.

Title: Fire Watch Camera Installation - Additional Sites

Recommended Actions:

A) Authorize County of Sonoma County Administrator to execute an agreement with the University of California San Diego – Scripps ("Scripps"), on behalf of the ALERTWildfire consortium of universities, for donation of three (3) fire watch cameras, reimbursement by Scripps to County for installation of cameras under a three (3) year cooperative agreement, with maintenance to be performed by the Sheriff's Office Telecommunications Bureau, and with back end operations, software integration, web hosting at ALERTWildfire to be paid by Scripps.

B) Authorize the Department of Emergency Management Director to manage the Fire Watch Camera program including administration, executing and amending agreements between agencies, and other County Departments, as needed for the installation, maintenance and operations of fire cameras, and for the management of public information for the program.

C) Delegate authority to the County General Services Director to execute new and/or amend existing lease and license agreements with owners of communications towers or other structures, for the purpose of installing additional fire watch cameras to expand coverage, for terms of up to 10 years, at a not to exceed annual cost each of $3,180.

D) Adopt a Resolution authorizing $16,584 from General Fund contingencies to provide funds to the General Services Department necessary for new leases and to the Sheriff's Office for necessary supporting equipment and expenses associated with the addition of the three (3) fire camera's donated by the University of California San Diego - Scripps. (4/5th vote required)

Executive Summary:

The Board of Supervisors identified the objective of a comprehensive countywide Fire Watch Camera program as part of the draft Recovery Plan on August 7, 2018, when the Sonoma County Water Agency obtained approval for a pilot program for three fire watch cameras to be installed in the Lake Sonoma Watershed. Subsequently, the General Services Department has been leading the team effort to launch a more comprehensive network of fire cameras throughout the County. In addition to Sonoma Water, several County departments have responsibility for aspects of the Fire Watch Camera program and comprehensive project management was necessary to meet the Board's Recovery Plan objectives. This Board item describes a new opportunity to add three cameras, provides the Board with more information about the overall system requirements, authorizes funding and clarifies organizational responsibilities for aspects of the ongoing program. This Project is included in the Recovery Framework, which the County Administrator is recommending for adoption by the Board.

As a new initiative, significant collaboration between representatives from Sonoma Water, Fire and Emergency Services, the Office of Recovery and Resiliency, universities in California and Nevada, and staff from General Services and Sheriff's Office has been necessary to identify the requirements for additional cameras, to define the annual cost of maintenance and typical lease expenses for tower sites, to negotiate an agreement for the ALERTWildfire software, and to identify additional information systems and backup power needs to support all of the fire watch camera operations.

The requested actions will assign the ongoing program responsibility for the Fire Watch Cameras to the newly created Department of Emergency Management, authorize the County Administrator to execute a further cooperative agreement with the University of California San Diego's Scripps Institute (Scripps) for the installation and operation of the three (3) additional FWCs (one at each of three new sites), and provide delegated authority to negotiate additional agreements within specified terms in order to expedite the process of building the network, with the additional sites proposed at Mount Barham, Sonoma Mountain, Sleepy and/or Mount Burdell (the "Project").

The operation of the three (3) additional cameras will be in collaboration with Scripps, Nevada Seismological Laboratory at University of Nevada Reno, and University of Oregon (which are part of the ALERTWildfire consortium of universities). This collaboration is similar to the Water Agency Pilot Project. Under the cooperative agreement with Scripps, Scripps will donate three (3) FWCs and related equipment and reimburse the County for FWC installation costs. The value of one full set of FWC-related equipment is under $10,000.

The consortium, led by Scripps, in collaboration with County Emergency Management, Sheriff's Office and General Services will assist the County in establishing an expanded network of high-definition fire cameras to provide early fire detection and situational awareness for the protection of County residents and County resources. This expansion broadens the existing network to include additional sites within the regional fire camera system that includes Sonoma, Napa, Marin, Mendocino, and Lake Counties.

Staff seeks delegated authority to amend or renew existing license and/or lease agreements with terms up to 10 years, with not to exceed annual costs each of $3,180 for the Project sites of Mount Barham, Sonoma Mountain, Sleepy Mountain and/or Mount Burdell, as well as other sites where the County has telecommunications facilities on the attached list ("County Telecommunications Facilities"), to the extent that such amendments or renewals can be made properly under the Government Code without triggering additional noticing and publication requirements. This delegated authority will allow the County to expeditiously build out the network of fire cameras as necessary to provide countywide coverage.

Budget adjustments of $16,584 for FY 2018-2019 are anticipated to provide the necessary resources to implement the addition of three (3) cameras provided by Scripps into the fire watch camera system. It is anticipated that some of these expenses may be covered if the County is successful in obtaining the Hazard Mitigation Grant funds applied for in September 2018. Given the need to expedite expansion of the fire camera system, staff recommends proceeding with delegated authority and the actions described herein.

Staff will work with the CAO's office and the Department of Emergency Management to report to the Board of Supervisors the ongoing costs of the overall program, including additional rent owed under leases due to installation of fire cameras and associated supporting equipment, operating the fire watch camera system and the progress towards obtaining grant funding for the program expansion.

Discussion:

HISTORY OF ITEM/BACKGROUND

Sonoma County and our neighboring counties are prone to recurring, catastrophic wildfires. The fire history includes the recent October 2017 Tubbs, Nuns, and Pocket fires, and the 1964 Hanley fire, which threatened Santa Rosa following a path that was nearly identical to the 2017 Tubbs fire. As noted in the Sonoma County Hazard Mitigation Plan, in a 50-year span from 1964 – 2015 Sonoma County has experienced 18 major wildfires that destroyed nearly 2,000 structures.

On October 8, 2017, several fires started in Sonoma and Napa Counties that took over 25 lives, destroyed over 110,000 acres of land and over 7,000 structures. On October 9, 2017, Governor Edmund G. Brown Jr. issued an emergency declaration for eight counties that included Napa and Sonoma counties. At that time, the Tubbs fire was the most destructive fire in California history.

The catastrophic impacts of October 2017's fire storm clearly identified the potential benefits of a wildfire early detection system in Sonoma County and the greater north bay. This Project will add three new FWCs to the existing network and will mitigate the potential for fire outbreaks to reach a catastrophic size by providing decision makers with the necessary information to make informed decisions and deploy appropriate resources rapidly to the most critical locations. In addition with Board approval, General Services will be able to enter into further lease agreements to enable the expansion of the program such that countywide coverage is achieved. This Project is part of the Recovery Framework.

Following the devastating fires of October 2017, Sonoma County General Services began working with the Sonoma County Water Agency and Sonoma County Department of Fire and Emergency Services, Sonoma County Sheriff's Office, CAL FIRE, Sonoma County Information Systems Department, Sonoma County Office of Recovery & Resiliency, and the AlertWildfire university consortium, led by the Nevada Seismological Laboratory at the University of Nevada Reno (in partnership with U.C. San Diego, University of Oregon, and Sonoma State University), to advance a project to install a network of high-definition pan-tilt-zoom cameras for an early fire detection system across the County. While Sonoma Water Pilot Project has successfully resulted in the installation of FWCs at three sites in the County (at the Pine Mountain, Mount Jackson, and Geyser Peak sites), this Project will add three (3) additional sites to that network (proposed as Mount Barham, Sonoma Mountain, Sleepy Mountain and/or Mount Burdell).

Communications Tower sites are managed by two County Departments. The Sheriff's Office manages the operations of public safety communications on five (5) County owned tower sites, including the Sheriff's Office Telecommunications Bureau's performance of maintenance on tower and radio equipment using skilled technicians. The General Services Department manages the leased and licensed tower and radio sites and assists the Sheriff's Office with managing capital improvements as necessary on County-owned tower sites. Neither department has sufficient resources to manage the overall administration and countywide expansion of the Fire Watch Camera program. As part of the comprehensive countywide Alert and Warning system, the overall Fire Watch Camera program management will be addressed by the new Department of Emergency Management.

ALERTWildfire System

ALERTWildfire is a consortium of three universities – The University of Nevada, Reno, University of California San Diego, and the University of Oregon – providing access to state-of-the-art, pan-tilt-zoom fire camera and associated tools to help firefighters and first responders: 1) discover/locate/confirm fire ignition; 2) quickly scale fire resources up or down appropriately; 3) monitor fire behavior through containment; 4) during firestorms, help evacuation through enhanced situational awareness, and, 5) ensure contained fires are monitored appropriately through their demise.

The three cameras donated by Scripps constitutes an expansion of the pilot program camera network for Sonoma County and will provide the basis for a proposed county-wide system known as AlertNorthBay, modeled after existing fire camera networks currently operating in the Lake Tahoe region, state of Nevada, and San Diego and Orange Counties. These systems have proven successful, having assisted in more than 350 fires in the past two years and have been used by fire managers with the US Bureau of Land Management, US Forest Service, CAL FIRE, and many local fire protection districts.

The AlertNorthBay project was designed through a collaborative process with the goal to provide live-streaming views of the areas within the camera view shed to the following website: http://www.alertwildfire.org/northbay/index.html. This system provides real-time information to firefighting staff and may be accessible to the public. The state-of-the-art system uses near-infrared technology for night vision, and allows fire officials to take control of the fire cameras during wildfire emergencies to monitor fire and weather activity.

The three identified expansion sites use existing public safety communications microwave antennas providing some bandwidth to transmit the high-definition fire camera data. The Sonoma County Sheriff Office's microwave communications network has limited bandwidth to support all the potential public safety and fire watch camera data needs. Depending upon the amount of microwave network traffic, it may be necessary to prioritize certain transmitted data within the microwave communications network. Current users of the microwave network include critical, local public safety communications, CHP, the FBI, and other governmental users.

With the support of Scripps and the Sheriff's Office Telecommunications Bureau (T-Comm Bureau) which is handling the installation of the three donated FWCs, General Services expects the Project to be installed and operational by the first quarter of 2019. The three identified expansion sites are already under license to the County and utilizing these pre-existing sites will substantially reduce the cost of implementation.

During the project phase (three year period), the cost to administer, maintain, and operate the system is the County's obligation. The Department of Emergency Management will coordinate with local, regional, and state partnering agencies to continue planning for the expansion of the fire camera network including identification of potential funding sources.

Scripps has represented to the County that it has executed a grant agreement with PG&E for the purchase, installation and implementation of a broader FWC system throughout the greater Bay Area, enabling each county to receive three (3) cameras. The County is not a party to the Scripps-PG&E agreement, but is negotiating an agreement directly with Scripps for the additional three (3) fire watch cameras, and their installation and operation for the program's expansion.

In order to build and operationalize the Project, Scripps will donate to the County all necessary equipment to accomplish the installation of three new FWCs in order to proceed with their operation. The Board of Supervisors is authorized to accept a donation of personal property to the County from a private party under Government Code Section 25355. The value of the FWC and related equipment is approximately $10,000 per set or $30,000 total.

The Sheriff's OfficeT-Comm Bureau will install the three (3) new fire cameras on existing communication towers and will perform the maintenance for the 3-year period. If a camera fails in the 3-year period of the agreement it will be replaced at no cost to the County under a transferable warranty for each camera. The County will also seek reimbursement for the additional installation charges. The Sheriff T-Comm department has established a set of labor installation and admin rates which have been communicated to Scripps and will be used to reimburse the County for those installation, removal and reinstallation expenses.

General Services will review and amend existing license and/or lease agreements if necessary, and the Department of Emergency Management will provide operational coordination and program management, and Information Services Department will install and configure network communication systems as needed. The County is also seeking reimbursement for its maintenance costs from Scripps, but that cost recovery is not certain at this time. Scripps is seeking maintenance funds from PG&E or other sources to get the parties through the first three-year period and possibly beyond. Staff will report back if maintenance costs become an item for which the County can seek reimbursement.

The Sheriff's Office has identified its maintenance expenses per tower site visit related to the FWC. Those expenses are estimated to be $1,228 per maintenance visit, with at least one and possibly two visits needed per year. This estimate is based on Fiscal Year 18-19 Board approved fee schedule established for Telecommunications Service (Ordinance No. 6233). General Services anticipates that additional rent per camera per site could be as much as $265/mo. General Services anticipates average communications tower lease expenses of $3,180 for each camera.

Requested Actions:

In order to implement this extension of the existing fire watch camera network system, staff requests the Board of Supervisors authorize the County Administrator to execute an agreement with Scripps (on behalf of the AlertWildfire consortium of universities), for this collaboration including Sheriff's Office T-Comm Bureau's installation of the three (3) additional FWCs and authorization to pay for any maintenance costs that are not reimbursed by Scripps under the agreement. It is understood that the agreement with Scripps may be amended at a later date to include the Department of Emergency Management Director as the contract manager.

The projected cost of maintenance per visit for each camera is approximately $1,228. The Sheriff's Office estimates installation and network costs per camera, per site as follows:

Installation: $7,292 (95 hours at $76.76 hourly rate); Development/Administrative Activities: $4,333 (40 hours at $108.32 hourly rate) for a total estimate of $11,625; network activation fees $1,228 and annual network usage costs $5,420. The Sheriff's Office installation costs for all three cameras totaling $34,875 is to be reimbursed by Scripps.

Staff further recommends that the County Board of Supervisors authorize the Department of Emergency Management Director to manage the overall Fire Watch Camera Program, including administration, executing or amending agreements between public agencies, other County Departments, as needed to support the planning, installation, and operations of the overall program, and for the management of public information for this program.

In addition, staff recommend that the County Board of Supervisors delegate authority to the General Services Director to enter into lease or license agreements necessary to support operations of the Project and expansion of the FWC network elsewhere in the County. The additional sites which could become part of the expanded FWC network are set forth on Attachment 2. Such action will enable delegation of authority to the General Services Director to negotiate and execute any amendments to real property agreements regarding the Mount Barham, Sonoma Mountain and Sleepy Mountain (or Mount Burdell (in Marin) as an alternative), in order to authorize the installation and operation of the Project at those locations, and to negotiate and execute new lease or license agreements to allow the expansion of the FWC network to other locations as deemed necessary and appropriate.

Depending on the type of agreements needed to effectuate the Project or expansion of the network, and the necessity of amending the rental costs under such agreements, Government Code requirements may require additional noticing or Board approval steps prior to the execution of certain amendments or agreements. While this item seeks delegated authority to enter into and amend agreements, to the extent that any legal requirements apply to specific transactions that require additional Board action, staff will return to the Board for the proper authorizations.

Prior Board Actions:

August 7, 2018: Board Authority Granted to SCWA Pilot Project

Strategic Plan Alignment	Goal 3: Invest in the FutureGoal 3: Invest in the Future

Our Organization Goal 3: Continue to improve emergency preparation and response to natural disasters.

This extension of fire camera network will support the County's goal to protect County residents, first responders, natural resources and infrastructure.

Fiscal SummaryFiscal Summary

Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	$0	$33,092	$33,092
Additional Appropriation Requested	$51,459		
Total Expenditures	**$51,459**	**$33,092**	**$33,092**
Funding Sources			
General Fund GF		$33,092	$33,092
State/Federal			
Fees/Other	$34,875		
Use of Fund Balance			
Contingencies	$16,584		
Total Sources	**$51,459**	**$33,092**	**$33,092**

Narrative Explanation of Fiscal Impacts:

The August 7, 2018 Sonoma Water authorization did not anticipate the expenses the County would incur for additional rent payable due to installation of the Pilot project cameras or additional fire watch cameras or maintenance of equipment beyond the three Pilot Project sites. The Sheriff's Office estimates installation and network costs per camera, per site as follows: Installation: $7,292 (95 hours at $76.76 hourly rate); Development/Administrative Activities: $4,333 (40 hours at $108.32 hourly rate) for a total estimate of $11,625; maintenance estimate of $1,228 (16 hours at $76.76 hourly rate) two times per year for a total estimate of $2,456, network activation fees $1,228 and annual network usage costs $5,420 for each camera. The Sheriff's Office installation costs for all three cameras totaling $34,875 is to be reimbursed by Scripps.

The General Services department and the Sheriff's Office require budget adjustments to cover the expenses for the three additional cameras in the Fire Camera program. Staff at Emergency Management, General Services, and Sheriff's Office will come back at a later date with more detailed information about the ongoing costs for the entire fire watch camera program.

Action	**FY 18-19 (Jan-June)**	**Annual Cost for Three Year Life of Project**
General Services lease costs for 3 cameras	$4,770	$9,540
Sheriff installation costs for 3 cameras	$34,875	$0
Sheriff maintenance costs for 3 cameras	$0	$7,292

Sheriff network activation fees for 3 cameras	$3,684	$0
Sheriff network usage costs for 3 cameras	$8,130	$16,260
Total	**$51,459**	**$33,092**

Title: Lease extensions (2) for office space for Department of Health Services at 16390 Main Street, Guerneville (2nd action)

Recommended Actions:

Consider multiple actions ensuring continued public access to health services in West County:

1) Authorize the General Services Director to execute lease amendments (2) with Kirk Veale d/b/a Veale Investment Properties to:

a. Extend the term of a lease for 1,918 sq. ft. of office space (Suites B and G) located at 16390 Main Street, Guerneville, through October 31, 2023 and to specify the monthly rent payments;

b. Extend the term of a lease for 583 sf. ft. of office space (Suites F, H, I and J) at 16390 Main Street, Guerneville through November 30, 2023, and to specify the monthly rent payments; and

2) Authorize the General Services Director, in consultation with and using forms approved by the County Counsel, to execute future lease amendments, extension options, and associated documents required for County use of the premises under the leases, and which are consistent with the material terms of the leases and which, other than the extension options contained therein, do not extend the term of the leases.

Executive Summary:

Since November 2006, the Department of Health Services ("Health Services") has been providing health services to west Sonoma County clients at offices located in the former Bank of America building at 16390 Main Street in Guerneville ("Building"), through leases executed with Kirk Veale d/b/a Veale Investment Properties ("Landlord").

Program staff for the Women, Infants, and Children program and the Driving Under the Influence program occupy office space (583 sq. ft.) in Suites F, H, I and J of the Building subject to a lease with a term that expired on November 30, 2018. The Community Mental Health Center staff occupies office space (1,918 sq. ft.) in Suites B and G of the Building subject to a lease with a term that expired on

October 31, 2018. County is holding over month-to-month, pending execution of the proposed lease amendments. This matter requests the Board authorize the General Services Director to execute two lease amendments with the Landlord, to extend the terms of these leases for five years through November 30, 2023 and October 31, 2023 and to specify rents for the extended terms, along with delegating authority for further administration of said leases.

Discussion:

Women, Infants, and Children, Driving Under the Influence, and Whole Person Care Programs. In November 2006, the County entered into a lease with the landlord, Kirk Veale (“Landlord”), for 583 sq. ft. of office space (Suites F, H, I and J), located at 16390 Main Street, in Guerneville. The term of the lease expires on November 30, 2018. Pursuant to the lease, County may continue to occupy and use this space on a month-to-month basis after the term expires.

Department of Health Services (“Health Services”) currently utilizes this space for the Women, Infants, and Children and the Driving Under the Influence programs. In the near future, Health Services Whole Person Care case management staff will utilize the space twice a week. Space will also be available for other County programs that are not currently able to sustain satellite offices in Guerneville (i.e., programs operated by Child Support Services, Human Services, Community Development Commission, and Probation). The co-location of these services, even for limited hours each week, will provide for better coordination of services for shared clients and better service for the Guerneville community. Additional program information is provided below.

- The Women, Infants, and Children program provides specific supplemental nutritious food and nutrition education to a specific target population as a short-term intervention and as an adjunct to ongoing health care. The supplemental foods provided by the Women, Infants, and Children program are designed to meet the participant’s enhanced dietary needs for specific nutrients during brief but critical periods of physiological development. It is “short-term” in that on average, Women, Infants, and Children program participants receive services for approximately two years.
- The Driving Under the Influence program provides education classes and individual sessions for individuals who have been convicted of a drunk-driving offence. The program serves approximately 2,000 individuals annually through sites in Santa Rosa, Guerneville, Sonoma, and Petaluma.
- The Whole Person Care program provides outreach, engagement and intensive case management services for Medi-Cal clients who are experiencing homelessness or are at-risk of homelessness and a mental health condition, as well as substance use disorders and/or chronic health conditions and/or are high utilizers of emergency services. The program aims to increase the use of appropriate supportive services (behavioral health treatment, Federally Qualified Health Centers, housing services, etc.) by traditionally hard-to-engage clients.

Community Mental Health Center Offices. In October 2007, Health Services entered into a second lease with the Landlord, for 1,748 sq. ft. of office space (Suite B) at 16390 Main Street, Guerneville. This site is part of the Behavioral Health Division’s Community Mental Health Centers program. The Guerneville Community Mental Health Center program provides services to 100 adults with serious mental illness who are homeless and/or have co-occurring alcohol and other drug problems. Regionally-based Centers provide intensive community services and support as well as enhanced mental health services throughout Sonoma County at sites in Guerneville, Petaluma, Sonoma, and Cloverdale.

In July 2018, your Board approved execution of a lease amendment to expand the leased premises by 170 sq. ft. (Suite G), to provide office space for the Health Services' Mobile Support Team, which provides crisis management, assessment of individual and family member needs, and linkage and referral to treatment services and other community resources as needed. The term of the lease expired on October 31, 2018, and the County is leasing this office space on a month-to-month basis pending execution of the proposed amendment.

The two leases were originally executed separately, since the offices were utilized for different programs and functions (i.e., Public Health and Behavioral Health). In addition, keeping the leases separate provides flexibility for County, in the event an office space is no longer needed, which might necessitate termination of a lease.

County Comprehensive Facilities Plan. The County Comprehensive Facility Plan ("Plan") recommends increased consolidation of core Health Services functions to achieve more efficient and effective service delivery. The Plan also recognizes that some services are best delivered or accessed at locations that are more convenient to the target community. General Services and Health Services staff have evaluated the need for leased space throughout the County to support the Plan. Leased spaces such as those available through these two Guerneville leases, and others in Petaluma and Cloverdale are utilized to support the Plan. Behavioral health services are provided in County-owned space in the Sonoma Valley. Health Services is also in the process of expanding the Mobile Support Team to provide services in the Sonoma Valley through the Petaluma Office. Additionally, Sonoma Valley residents are offered Women, Infants, and Children program services and will be offered Whole Person Care services out of the Sonoma Valley Community Health Center.

Offering these services in West Sonoma County allows Health Services to collaborate with other local social service providers, including West County Community Services, Russian River Counselors, River to Coast Child Care Services, Face to Face, and West County Health Services. As Health Services intends to continue its programs at these locations for years to come, the County prioritizes execution of the proposed lease amendments.

Rental Analysis: These offices are located in Guerneville in rural West County. This submarket has an extremely limited supply of commercial office space available for lease. As a result, rental rates are relatively high. A recent survey of the market did not identify any alternative properties suitable for Health Services' needs. Taking into account the types of programs and services being offered, the amount of space required at each site, the limited availability in Guerneville and resultant rental rates in the area, the proposed rents for the amendments ($2.26 per sq. ft. and $2.78 per sq. ft.) are reasonable and within budget for the proposed use.

Proposed Lease Amendment Terms. Staff has negotiated terms for the proposed lease amendments, as follows:

Women, Infants, and Children / Driving Under the Influence Program Offices (Suites F, H, I and J, 16390 Main Street; **583 sq. ft.):**

Term:	Extended through November 30, 2023.
Rent:	Rent will be increased by 3%, from $2.70 per sq. ft. to $2.78 per sq. ft. ($1,622.06 per month) effective December 1, 2018 through November 30, 2019, subject to 3% increases thereafter on December 1st of each year.

Termination:	County may terminate the lease with 30 days' written notice for non-appropriation of funds, and for any reason with 60 days' prior written notice.

Community Mental Health Center (Suites B and G, 16390 Main Street**; 1,918 sq. ft.):**

Term:	Extended through October 31, 2023.
Rent:	Rent for the original premises (1,748 sq. ft.) will be increased by 3%, from $2.19 per sq. to $2.26 per sq. ft. ($4,400.98 per month) effective November 1, 2018, subject to 3% increases thereafter on November 1st of each year. Rent for the expansion premises (Suite G, 170 sq. ft.) will be held flat at the current rate of $2.65 per sq. ft. for the term of the extension.
Termination:	County may terminate the lease with 30 days' written notice for non-appropriation of funds, and for any reason with 60 days' prior written notice.

Procedural Authority. Government Code Section 25350 requires the Board to publish a notice of its intent to enter into a lease, for the County to lease property as tenant and the lease agreement is in excess of $50,000, once a week for three (3) consecutive weeks prior to consummation of the proposed lease. A notice of intent was published for the subject amendments, for the required period pursuant to the Board's action on November 13, 2018, for consummation of the amendments in line with the Government Code.

Prior Board Actions:

Suites F, H, I and J (WIC and DUI Program Offices) lease:
11/13/18—Declared intent to enter into 2nd amendment
09/10/13—Authorized General Services Director, or his Deputy, to execute 1st amendment
07/30/13—Declared intent to enter into 1st amendment

Suites B and G (Community Mental Health Center) lease:
11/13/18—Declared intent to enter into 3rd amendment
07/10/18 – Authorized General Services Director to execute 2nd amendment to expand the premises
06/11/18—Declared intent to enter into 2nd amendment
09/10/13—Authorized General Services Director to execute 1st amendment
07/30/13—Declared intent to enter into 1st Amendment
10/09/07—Authorized General Services Director, or his Deputy, to execute lease
09/11/07—Declared intent to enter into lease with Kirk Veale

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

At this Guerneville location, the County Department of Health Services partners with other service agencies, including West County Community Services, Russian River Counselors, River to Coast Child Care Services, Face to Face, and West County Health Services, to provide a broad array of safety-net services to families and individuals residing in West Sonoma County. The proposed lease amendments will provide continuity in the delivery of Behavioral and Public Health services to Health Services clients, who reside in the Guerneville and West County communities.

Fiscal Summary			
Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	71,582.75	73,595.98	75,658.44
Additional Appropriation Requested			
Total Expenditures	**71,582.75**	**73,595.98**	**75,658.44**
Funding Sources			
General Fund/WA GF	0	0	0
State/Federal	70,131.55	72,101.24	74,118.86
Fees/Other	1,451.20	1,494.74	1,539.58
Use of Fund Balance			
Contingencies			
Total Sources	**71,582.75**	**73,595.98**	**75,658.44**

Narrative Explanation of Fiscal Impacts:

Funding for rent costs is provided by Women, Infants, and Children Grant, Driving Under the Influence fees, Triage Grant for Mobile Support Team, Whole Person Care, Mental Health Services Act, Federal Financial Participation, and Mental Health Realignment. Rent and projected increases were budgeted in FY 18-19. No additional appropriations are required.

16390 Main Street, Suites F, H, I and J - Public Health Women, Infants, and Children and Driving Under the Influence Program Offices (583 sq. ft.): Lease rent costs are $1,574.81 per month, for the months of July 2018 through November 2018, with a 3% increase in rent to $1,622.06 per month for the months of December 2018 through June 2019. Total rent for FY 18-19 under the existing lease and as proposed for amendment will be $19,228.47. Pursuant to the proposed lease amendment, rent is adjusted by 3% annually on December 1st of each year of the 5-year extension period.

16390 Main Street, Suites B and G - Community Mental Health Center (1,918 sq. ft.): Lease rent costs are $4,286.61 per month for the months of July 2018 through October 2018, with a 3% increase in rent to $4,400.98 per month for the months of November 2018 through June 2019. Total rent for FY 18-19 under the existing lease and as proposed for amendment will be $52,354.28. Pursuant to the proposed lease amendment, rent is adjusted by 3% annually on November 1st of each year of the 5-year extension period.

SECOND AMENDMENT TO LEASE

This Second Amendment ("Second Amendment"), dated as of_______________, 2018 ("Effective Date"), is by and between **KIRK VEALE d/b/a VEALE INVESTMENT PROPERTIES** ("Landlord"), and the **COUNTY OF SONOMA**, a political subdivision of the State of California ("Tenant"). All capitalized terms used herein shall, unless otherwise defined, have the meaning ascribed to those terms in the Agreement (as defined below). Landlord and Tenant are sometimes collectively referred to herein as the "parties" and singularly, a "party."

RECITALS

WHEREAS, Landlord and Tenant entered into that certain Lease dated November 22, 2006 ("Lease"), for use of office space comprising five hundred eighty-three (583) useable square feet in that certain office building known as the former Bank of America building, located at 16390 Main Street, in the unincorporated area of Sonoma County, California, commonly known as Guerneville ("Premises"); and

WHEREAS, Landlord and Tenant entered into that certain First Amendment to Lease dated May 24, 2013 ("First Amendment"), in order to, among other things, extend the term through November 30, 2016, specify the rent for the lease extension, and provide for two (2) one-year options to extend the term of the Lease; and

WHEREAS, by letter dated September 28, 2016, Tenant properly exercised its first option to extend the term through October 31, 2017 ("First Option Notice"); and

WHEREAS, by letter dated September 11, 2017, Tenant properly exercised its second option to extend the term through November 30, 2018 ("Second Option Notice"); and

WHEREAS, the Original Lease as modified by the First Amendment, the First Option Notice and the Second Option Notice is hereafter referred to as the "Lease"; and

WHEREAS, Landlord and Tenant wish to amend the Lease in order to: (i) extend the Lease term; (ii) specify the Rent; and (iii) provide for certain other terms and conditions as hereinafter set forth.

NOW, THEREFORE, in consideration of the continued use of the Premises, and for other good and valuable consideration the receipt and sufficiency of which is hereby acknowledged, the parties hereto mutually agree as follows:

AGREEMENT

1. The foregoing recitals are true and correct and are hereby incorporated and made a part of this Second Amendment.

2. Effective as of the Effective Date of this Second Amendment, the Lease is modified as follows:

A. Section 2.1 is hereby deleted in its entirety and replaced with the following:

"2.1 Term. The initial term ("Initial Term") of this Lease shall commence December 1, 2006 ("Commencement Date") and expire on November 30, 2023, subject to any option, renewal, extension or termination rights of Tenant as provided for in this Lease."

B. Section 4.2 is hereby deleted in its entirety and replaced with the following:

"4.2 Rental Amount. Tenant shall pay to Landlord in lawful money of the United States, the following:

a)	December 1, 2006 – November 30, 2007	$1,340.90 per month;
b)	December 1, 2007 – November 30, 2008	$1,381.13 per month;
c)	December 1, 2008 – November 30, 2011	$1,422.56 per month;
d)	December 1, 2011 – November 30, 2013	$1,465.25 per month;
e)	December 1, 2013 – November 30, 2014	$1,399.20 per month;
f)	December 1, 2014 – November 30, 2015	$1,441.18 per month;
g)	December 1, 2015 – November 30, 2016	$1,484.41 per month;
h)	December 1, 2016 – November 30, 2017	$1,528.94 per month;
i)	December 1, 2017 – November 30, 2018	$1,574.81 per month;
j)	December 1, 2018 – November 30, 2019	$1,622.06 per month;
k)	December 1, 2019 – November 30, 2020	$1,670.72 per month;
l)	December 1, 2020 – November 30, 2021	$1,720.84 per month;
m)	December 1, 2021 – November 30, 2022	$1,772.46 per month;
n)	December 1, 2022 – November 30, 2023	$1,825.64 per month."

3. Except to the extent the Lease is specifically and expressly amended or supplemented hereby, the Lease, together with exhibits is, and shall continue to be, in full force and effective as originally executed, and nothing contained herein shall, or shall be constructed to modify, invalidate or otherwise affect any provision of the Lease or any right of Tenant or Landlord arising thereunder.

4. This Second Amendment shall be governed by and construed under the internal laws of the State of California, and any action to enforce the terms of this Second Amendment or for the breach thereof shall be brought and tried in the County of Sonoma.

LANDLORD AND TENANT HAVE CAREFULLY READ AND REVIEWED THIS SECOND AMENDMENT AND EACH TERM AND PROVISION CONTAINED HEREIN AND, BY EXECUTION OF THIS SECOND AMENDMENT, SHOW THEIR INFORMED AND VOLUNTARY CONSENT THERETO.

IN WITNESS WHEREOF, the parties have executed this Second Amendment as of the Effective Date.

THIRD AMENDMENT TO LEASE

This Third Amendment ("Third Amendment"), dated as of _____________________, 2018 ("Effective Date"), is by and between **KIRK VEALE d/b/a VEALE INVESTMENT PROPERTIES** ("Landlord"), and the **COUNTY OF SONOMA**, a political subdivision of the State of California ("Tenant"). All capitalized terms used herein shall, unless otherwise defined, have the meaning ascribed to those terms in the Agreement (as defined below). Landlord and Tenant are sometimes collectively referred to herein as the "parties" and singularly, a "party."

RECITALS

WHEREAS, Landlord and Tenant entered into that certain Lease dated October 9, 2007 (“Original Lease”), for use of Suite B, comprising one thousand seven hundred forty-eight (1,748) useable square feet in that certain office building known as the former Bank of America building, located at 16390 Main Street, in the unincorporated area of Sonoma County, California, commonly known as Guerneville (“Premises”); and

WHEREAS, Landlord and Tenant entered into that certain First Amendment to Lease dated May 24, 2013 (“First Amendment”), in order to, among other things, extend the term through October 31, 2016, and specify the rent for the lease extension; and

WHEREAS, by letter dated September 28, 2016, Tenant properly exercised its first option to extend the term through October 31, 2017 (“First Option Notice”); and

WHEREAS, by letter dated September 11, 2017, Tenant properly exercised its second option to extend the lease term through October 31, 2018 (“Second Option Notice”); and

WHEREAS, Landlord and Tenant entered into that certain Second Amendment to Lease dated July 13, 2018 (“Second Amendment”), in order to redefine the Premises to expand into Suite G, comprised of one hundred seventy (170) sq. ft., and to specify Rent to include the Suite G premises; and

WHEREAS, the Original Lease as modified by the First Amendment, the First Option Notice, the Second Option Notice, and the Second Amendment is hereafter referred to as the “Lease”; and

WHEREAS, Landlord and Tenant wish to further amend the Lease in order to: (i) extend the Lease term; (ii) specify the Rent; and (iii) provide for certain other terms and conditions as hereinafter set forth.

NOW, THEREFORE, in consideration of the continued use of the Premises, and for other good and valuable consideration the receipt and sufficiency of which is hereby acknowledged, the parties hereto mutually agree as follows:

AGREEMENT

1. The foregoing recitals are true and correct and are hereby incorporated and made a part of this Third Amendment.

2. Effective as of the Effective Date of this Third Amendment, the Lease is modified as follows:

A. Section 2.1 is hereby deleted in its entirety and replaced with the following:

"2.1 Term. The initial term ("Initial Term") of this Lease shall commence December 1, 2006 ("Commencement Date") and expire on October 31, 2023, subject to any option, renewal, extension or termination rights of Tenant as provided for in this Lease."

B. Section 4.2 is hereby deleted in its entirety and replaced with the following:

"4.2 Rental Amount. Tenant shall pay to Landlord in lawful money of the United States, the following:

a)	November 1, 2007 through October 31, 2008	$3,146.40 per month;
b)	November 1, 2008 through October 31, 2009	$3,240.79 per month;
c)	November 1, 2009 through October 31, 2010	$3,338.02 per month;
d)	November 1, 2010 through October 31, 2011	$3,438.16 per month;
e)	November 1, 2011 through October 31, 2013	$3,541.31 per month;
f)	November 1, 2013 through October 31, 2014	$3,408.60 per month;
g)	November 1, 2014 through October 31, 2015	$3,510.86 per month;
h)	November 1, 2015 through October 31, 2016	$3,616.18 per month;
i)	November 1, 2016 through October 31, 2017	$3,724.67 per month;
j)	November 1, 2017 through July 12, 2018	$3,836.41 per month;
k)	July 13, 2018 through October 31, 2018	$4,286.41 per month;
l)	November 1, 2018 through October 31, 2019	$4,400.98 per month;
m)	November 1, 2019 through October 31, 2020	$4,523.34 per month;
n)	November 1, 2020 through October 31, 2021	$4,645.70 per month;
o)	November 1, 2021 through October 31, 2022	$4,768.06 per month;
p)	November 1, 2022 through October 31, 2023	$4,907.90 per month"

3. Except to the extent the Lease is specifically and expressly amended or supplemented hereby, the Lease, together with exhibits is, and shall continue to be, in full force and effective as originally executed, and nothing contained herein shall, or shall be constructed to modify, invalidate or otherwise affect any provision of the Lease or any right of Tenant or Landlord arising thereunder.

4. This Third Amendment shall be governed by and construed under the internal laws of the State of California, and any action to enforce the terms of this Third Amendment or for the breach thereof shall be brought and tried in the County of Sonoma.

LANDLORD AND TENANT HAVE CAREFULLY READ AND REVIEWED THIS THIRD AMENDMENT AND EACH TERM AND PROVISION CONTAINED HEREIN AND, BY EXECUTION OF THIS THIRD AMENDMENT, SHOW THEIR INFORMED AND VOLUNTARY CONSENT THERETO.

575 Administration Drive
Santa Rosa, CA 95403

Agenda Item Number: 30
(This Section for use by Clerk of the Board Only.)

To: Sonoma County Board of Supervisors

Board Agenda Date:	December 11, 2018	**Vote Requirement:**	Majority

Department or Agency Name(s): General Services / Sheriff

Staff Name and Phone Number:	**Supervisorial District(s):**
Marc McDonald, General Services: 707-565-3468 Vince Hurst, Sheriff's Office: 707-565-3441	Not Applicable (out of County)

Title: Fish Rock Mendocino Communications Site License Amendment

Recommended Actions:

A) Authorize the General Services Director to execute an extension (the “Second Amendment”) to the existing Revocable License Agreement between County of Mendocino, as licensor, and the County of Sonoma, as licensee, from May 29, 2019 through May 22, 2020, for the continued operation of public safety and emergency communications equipment at the County of Mendocino’s Fish Rock communications facility.

B) Make required findings under Government Code Section 25526.6 that the extension is in the public interest and that the interest in land will not substantially conflict or interfere with the use of the property by the County.

Executive Summary:

General Services' staff, in consultation with staff from the Sheriff's Office, are requesting Board approval to authorize the General Services Director to execute an extension of the existing communications site agreement needed for the continued operation of the County of Sonoma’ s communications network equipment at the Fish Rock Road, Mendocino communications facility located in the southern area of Mendocino County and near the town of Gualala, Mendocino County (Assessor's Parcel #’s 143-040-090 and 143-110-28). The proposed Second Amendment to Revocable License Agreement for Communication Site Agreement (Agreement) will allow the Sheriff's Telecommunications Bureau (T-Comm Bureau) to continue to operate radio equipment within an existing vault owned by Mendocino County (in conjunction with the County’s antenna on a tower leased from CalNeva at the site).

The project at 44701 Fish Rock Road near Gualala is needed to provide essential radio communication coverage for emergency responders. In lieu of monetary rent payable to County of Mendocino, the County of Sonoma provides radio equipment rack space to Mendocino County at Sonoma County’s vault facility located at Oak Ridge (owned by the State of California Department of General Services (DGS)).

Only a one (1) year extension can be sought at this time due to the terms of the master lease between Mendocino County and CalNeva.

Discussion:

The County of Mendocino ("Licensor") and County of Sonoma ("Licensee") entered into a Revocable License Agreement dated as of June 1, 2009, for the Premises described therein for and land use at 44701 Fish Rock Road, Mendocino County, California (the "License"). Licensor and Licensee amended the License pursuant to that certain First Amendment executed as of April 10, 2018, whereby the term of the License was extended from May 28, 2016 through May 28, 2019, in addition to other matters. The Revocable License granted by Licensor to Licensee shall automatically extend for an additional one (1) year period commencing on May 29, 2019 through May 22, 2020, which is the end of the term for Licensor's use of the Premises under the Licensor's Lease with CalNeva (as defined in the License). Licensee may use the Premises for emergency and public safety communications purposes, including without limitation, fire watch purposes.

This Second Amendment will also provide for a revision and clarification of Mendocino County's equipment located on the site. The County leases space for six (6) racks (which are 2 ft by 2 ft by 8 ft high) located in the main radio room in the Mendocino County's Vault. The purpose of the license is for installation, operations and maintenance and replacement of County's improvements and equipment for operation of a public safety communications system. The license agreement provides that the consideration for this License are the benefits received by Mendocino County in connection with its no-fee use of a portion of Sonoma County's vault at the Oakridge Lookout Facility (which facility is owned by the State of California DGS/Cal Fire). County has signed a written agreement with State DGS for Mendocino Sheriff's Department use of County of Sonoma's vault. General Services Department anticipates coming back to the Board no later than Q4 of 2019 for approval of a new License agreement with the County of Mendocino, which is possible only *after* Mendocino County extends its master lease with Cal Neva at the Fish Rock location. That master lease expires May 22, 2020. The term of the renewed lease is expected to be for up to 10 years and will come to the Board for approval.

Authority. Government Code Section 25526.6 allows the County Board of Supervisors to grant or otherwise convey an easement, license or permit for use to the state, or to any county, city, district or public agency or corporation, or to any public utility corporation any real property of the County, upon a finding by the Board that the conveyance is in the public interest and that the interest in land will not substantially conflict or interfere with the use of the property by the County. Staff suggests that granting of the term extension to the Licensee serves public purposes, as the Licensee is a public agency using the facility for public safety purposes. There is no other proposed use for the Premises at this time, and use by the Licensee will not interfere with the use of the premises by County.

Staff requests that the Board make the required findings that the extension of the license agreement is in the public interest and that the interest in land will not substantially conflict or interfere with the use of the property by the County, and authorize the General Services Director to execute the extension.

Prior Board Actions:

12/14/08 – Resolution No 09-1120, Agenda Item #42, Approved by the Board of Supervisors, authorizing General Services Director to execute a first amendment to the sublease with CVCTV for premises at

44701 Fish Rock Road, and execute revocable license with County of Mendocino for property at 44301, Fish Rock Rd, Mendocino Co; this Resolution was required to be approved by the Board in accordance with Government Code Section 25350.51.

11/18/08 – Authorized General Services Director to execute a license with Mendocino County for Oakridge Communications Facility

11/30/04 – Authorized General Services Director to exercise option to extend term of sublease with C.V.C. T.V.

04/08/03 – Authorized Chairperson to execute communications sublease with C.V.C T.V. for Fish Rock

08/19/86 – Authorized Chairperson to execute a lease agreement with Coast Cable T.V. for Fish Rock

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

The Agreement, along with the resultant telecommunications improvements will support the public safety needs of the residents of Sonoma and Mendocino Counties, providing continued and improved communication coverage to the surrounding areas. If the Agreement is not approved for project implementation, radio coverage will leave large portions along the Sonoma/ Mendocino County border with poor to no radio coverage. This lack of coverage will impede the ability of the County to respond to the public safety needs along the Sonoma/ Mendocino County border.

SECOND AMENDMENT TO REVOCABLE LICENSE AGREEMENT

The County of Mendocino (hereinafter referred to as “Licensor”) and County of Sonoma (hereinafter referred to as “Licensee”) entered into a Revocable License Agreement dated as of June 1, 2009, for the Premises described therein for and land use at 44701 Fish Rock Road, Mendocino County, California (the “License”). Licensor and Licensee amended the License pursuant to that certain First Amendment executed as of June 20, 2018, whereby the term of the License was extended from May 28, 2016 through May 28, 2019, in additional to other matters. The parties now desire to further amend the terms of the License pursuant to this “Second Amendment” as follows:

1. The Revocable License granted by Licensor to Licensee shall automatically extend for an additional one (1) year period commencing on May 29, 2019 through May 22, 2020, which is the end of the term for Licensor’s use of the Premises under the Licensor’s Lease (as defined in the License).

2. Licensee may use the Premises for emergency and public safety communications purposes, including without limitation, fire watch purposes.

3. The Licensor and Licensee hereby agree to the modifications made to the Premises floor plan as described in Exhibit A.

4. All other terms and provisions of the original Revocable License remain in effect, except as modified to the contrary by the First Amendment and/or this Second Amendment.

Attached to this Amendment are;

EXHIBIT A: Fishrock Communications Facility

ATTACHMENT A: Sonoma County’s Equipment Inventory List for Fishrock Microwave site as referenced as Exhibit F in the Revocable License agreement dated June 1, 2009.

All terms and conditions of the License, except as specifically amended by the First Amendment and this Second Amendment, remain in full force and effect.

Executed this 9th day of November, 2018.

Title: Board of Supervisors/County Administrator's Office Lobby Security Upgrades

Recommended Actions:

Adopt a Resolution authorizing budgetary transfer of $48,150 in FY 18/19 General Fund Facilities ACO/Shelter fund dollars and $148,862 from General Fund Contingencies to provide funds necessary for the CAO Lobby Security project for a total of $197,012.

Executive Summary:

The Board and County Administrator have expressed the need for additional security within the Board chambers during Board Meetings and within their office spaces. The first phase of the project to screen those attending meetings in the Board Chambers has been completed. The second phase of the project will provide substantive security improvements to the reception area of the Administrative Building suites shared by the Clerk of the Board, the County Administrator's Office (CAO) and the Board of Supervisors. By improving security features in the waiting area, staff is also able to address employee space needs by adding 3-4 new workstations and file storage.

For the second phase, several design options for a visitor vestibule were developed. General Services provided these for the County Administrator's review and the proposed configuration combines elements of two of the proposed options.

General Services is requesting authority to transfer available funding in the General Fund Facilities ACO/Shelter fund and requests additional funding from General Fund Contingencies to enable the project to proceed.

Discussion:

The FY 18/19 – FY 22/23 Five Year Capital Improvement Plan (CIP) and the adopted County's Capital Budget adopted by your Board did not include funding for the two security projects recently requested by the Board and County Administrator.

The County had previously studied the options for security improvements to the Administration Building and Board chambers in November 2016. At the time, the projects did not progress due to the lack of funding. These projects were re-evaluated following the recent request by the Board.

Board of Supervisors/County Administrator's Office Improvements
The Preliminary Estimate for the secure vestibule is $197,012. This delivers a more efficient use of space as well as a ceiling-high glass barrier wall with pass-through windows and a controlled-access door into the Board and CAO office area. This project will move the entrance to the office, reducing the existing waiting area space, but enlarging the staff space sufficiently to add 3-4 additional workstations and file storage. The glass partition will be made of tempered glass, as required by current codes. The glass wall will include a panel-sized, vinyl County Seal graphic. A remote lockdown control for the outer (Hallway) doors was also added to the scope, to further improve security for staff and those in the waiting area.

The requested action transfers $48,150 from the Facility ACO fund to the Board of Supervisors/County Administrator's Office Security Upgrade project. Additional funding in the amount of $148,862 will be required from the General Fund contingency to complete the office security portion of the project. In total, the project's cost is estimated to be approximately $197,012.

An implementation schedule has been developed to include design, permits, Job Order construction, systems furniture installation, moving services and ISD workstation configuration. In an effort to minimize disruption, after hours and evening work will be requested where possible, but some level of disruption is to be expected. If funding is approved, design would begin in early January, with construction beginning (following design and permit approval) approximately February 25. Construction and furniture installation is expected to be complete, with staff in place, by end of March 2019. This is an aggressive schedule for which we would seek support from the Board and county staff in limiting furniture customization and expediting design approval and permit review. For comparison, permit review for a similar project took twelve weeks to be completed. General Services staff will be requesting, with Board support, over-the-counter permits/expedited review in order to maintain the proposed timeline.

Prior Board Actions:

August 7, 2018 – Board approved funding and installation of the visitor screening program for regular Board meetings.

Strategic Plan Alignment	Goal 4: Civic Services and Engagement

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses			
Additional Appropriation Requested	$197,012		
Total Expenditures	**$197,012**		
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other			
Use of Fund Balance	$48,150		
Contingencies	$148,862		
Total Sources	**$197,012**		

Narrative Explanation of Fiscal Impacts:

Transfer General Fund monies in the amount of $48,150 from the Facilities ACO/Shelter fund and $148,862 from General Fund contingencies to provide funds necessary for the CAO Lobby Security project, for a total of $197,012.

Staffing Impacts

Position Title (Payroll Classification)	**Monthly Salary Range** (A – I Step)	**Additions** (Number)	**Deletions** (Number)

Narrative Explanation of Staffing Impacts (If Required):

One of the programmatic requirements for this project is to allow accommodation of additional, previously-hired staff utilizing the space created by moving the reception area further toward the entry. The project itself does not include a staff impact.

Title: Preparatory Actions Regarding Disposition of Chanate Campus

Recommended Actions:

Consider multiple actions regarding existing easements and certain uses on the Chanate Campus:

A) Authorize the Director of General Services to execute a Termination of Easements and Agreement to terminate and release that certain Hospital Utilities Easement recorded as Instrument No. 1996-0023213, on the basis that said easements granted therein are no longer necessary, as the anticipated hospital uses on the affected lands did not come to fruition.

B) Authorize the Director of General Services to take all actions necessary to relocate a portion of an access easement to the existing as-built location on adjacent County owned lands, as well as authority to execute any and all instruments necessary to vacate a portion of the existing access easement, executing a certificate of acceptance with respect to the vacated easement, and deeding the relocated easement, which instruments shall be in a form approved by County Counsel.

C) Authorize the Director of General Services to enter into agreements with Sprint Spectrum L.P., Sutter Medical Center of Santa Rosa, and McMahon/Oliphant Properties and/or their respective successors in interest to effectuate the removal from title any continuing reference to the expired agreements with these entities regarding the Chanate Campus, including executing a certificate of acceptance with respect to any reconveyance to the County related to same.

D) Adopt a Resolution authorizing $15,000 from General Fund contingencies to provide funds necessary for the relocation of an existing easement requiring a legal description and plat. (4/5th vote required)

Executive Summary:

In anticipation of disposition of the Chanate Campus as surplus property (which item is coming before the Board at this same hearing as a regular agenda item), Staff recommends Board approval to terminate old easements related to former hospital uses, which are no longer necessary and to relocate a misaligned easement. The effect of these actions will present potential purchasers with clearer title to lands acquired from the County.

In 1996, the County executed mutual utilities and driveway easements to adjacent properties to facilitate development of a health care campus on the Chanate property. The health care campus was never realized therefore, these easements are no longer needed. Staff recognizes that retention of these easements may impair potential use, development and value of the Chanate Campus. Therefore, Staff recommends Board approval to terminate these easements.

The boundaries of the recorded easement which provides access to the Chanate Office Condominiums does not coincide with the boundaries of the driveway used to access the Condominiums. The boundaries of the recorded easement runs through the eastern part of the Public Health Lab, and its parking lot and landscaping. Staff requests Board approval to take all appropriate and necessary actions to prepare a new easement agreement which reflects the actual road location and current access rights.

There are other matters of public record that relate to expired agreements which should be removed from title to the Chanate Campus property in order to facilitate the orderly disposition of the property. These matters involve agreements with Sprint, Sutter Medical Center and McMahon/Oliphant Properties which were previously terminated or expired. This item seeks to authorize the Director of General Services to enter into agreements and take actions necessary and appropriate to clear those matters upon approval of County Counsel.

This Board item relates to other agenda items currently before the Board, namely “Access Easement to Sonoma Water for Piner Creek Reservoir” and “Disposition of Chanate Campus”.

Discussion:

Termination of Hospital Utilities Easement

The County of Sonoma as Declarant executed a hospital utilities and driveway easement with an allocation of costs for maintenance in 1996, when other hospital related uses were anticipated for the Chanate Hospital Area and when the County anticipated conveying county lands to third parties for these medical and hospital related uses. Those additional anticipated medical and hospital related uses did not come to fruition eliminating the need for the Hospital Easements agreement. Additionally, Sutter Hospital operations at Chanate ceased in 2014, and to that end, the County and Sutter executed that certain Agreement to Terminate dated July 16, 2014; thereafter the County and Sutter Hospital parties signed and recorded a Memorandum of Lease Termination recorded April 14, 2018 to create actual notice of public record. The County General Services Department supports the termination of the hospital easements for reasons including, that said easements are no longer needed and allowing them to remain would likely conflict with future use and development of the property by successor parties after a surplus property disposition. Although Sonoma Water (previously known as Sonoma County Flood Control and Water Conservation District) was mentioned in the Hospital Easements, it was not a party to that agreement and it did not accept any benefits or burdens thereunder. This is confirmed by the fact that there was no certificate of acceptance signed by Sonoma Water attached to the Hospital Easements. The County is the only party to the Hospital Easements.

Board approval is requested to authorize the Director of General Services to execute a Termination of Easements and Agreement (in form attached hereto) to terminate and release these easements intended to serve hospital related uses.

Relocation of Access Agreements
Staff further requests Board approval to take all appropriate and necessary actions to relocate an easement of record to the actual location of the as-built road which provides physical access to the County property including the parking lot behind the former hospital (APN 173-130-038). This will likely require a survey and legal description and an amendment to an existing easement interest affecting the County parcel APN 180-090-001 and the owners of an adjacent parcel to the north. This ministerial action of siting the easement to the actual road location used by all parties will give effect to the original intent of the easement and allow the disposition of the Chanate property to proceed with certainty. It will not result in any change to the use of underlying property, and will improve the clarity of the chain of title to the greater Chanate property going forward. Staff is requesting a transfer of contingency funds in order to cover the survey and legal description costs anticipated with this activity.

Removal of Other Encumbrances
There are other matters of public record which show in title reports depicting the condition of title to the Chanate Campus; those matters refer to licenses, leases or easements that are expired and should be removed from title. The removal of these items from title will facilitate the orderly disposition of the Chanate Campus property and avoid negative impacts on value. This item seeks to authorize the Director of General Services Department to enter into agreements with Sprint Spectrum/Sutter Medical Center of Santa Rosa to remove that certain Memorandum of Agreement between Sprint and Sutter, recorded as Instrument 2003-143069, for telecommunications, access and utilities related to the former hospital use, and that certain Memorandum of Lease between County and McMahon/Oliphant Properties recorded as Instrument 1993-0141390, which expired over a decade ago.

The County General Services Department recommends this Termination of Hospital Easements; relocation of the access easement to the as-built location to facilitate continued operation of the Public Health Lab, all in preparation for the disposition of the Chanate campus; and taking other actions necessary to clear encumbrances to title which negatively impact the Chanate Campus property.

Prior Board Actions:

October 16, 2018: the Board adopted an Ordinance to rescind its approval of the Disposition and Development Agreement with Chanate Community Development Partners, LLC.

July 11, 2017: the Board adopted Ordinance No. 6205 authorizing the Development and Disposition Agreement (“DDA”) to sell land known as the Chanate Campus to Chanate Community Development Partners, LLC.

February 2, 2016: the Board authorized staff to issue an RFP to identify a developer to work with the County and the City of Santa Rosa for the development of the Chanate property.

August 11, 2015: the Board directed Staff to develop a Request for Proposals (RFP) to solicit a master developer to work with the County to plan for development of the property.

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

Fiscal Summary

TERMINATION OF EASEMENTS AND AGREEMENT

THIS TERMINATION OF EASEMENTS AND AGREEMENT (this “Termination”) dated December ____, 2018, is made by **the COUNTY OF SONOMA**, a political subdivision of the State of California (herein “**County**”) with respect to the following facts, recitals and intentions.

WHEREAS, County, as Declarant and owner of certain affected parcels (more particularly described as *Lands of Declarant* at Exhibit A, attached hereto and incorporated herein by this reference and hereinafter “*Lands of Declarant”*) described and conveyed certain private utility and private driveway easements (more particularly described as *Easements* at Exhibit B, attached hereto and incorporated herein by this reference) for the benefit of the *Lands of Declarant* and established said easements together with a plan for allocation of costs for the benefit of said lands, under that certain *COMMUNITY HOSPITAL - Private Utility and Private Driveway Easements and Maintenance Agreement* dated March 15, 1996, which was recorded March 15, 1996, as Instrument No. 1996-0023213 (the “Hospital Easements”);

WHEREAS, certain hospital-related uses contemplated at the time **County** declared the Hospital Easements have concluded, including that the former lease between **County** and Sutter West Bay Hospitals (aka Medical Center of Santa Rosa) for hospital purposes, which was previously terminated by said parties pursuant to an unrecorded Agreement to Terminate dated July 16, 2014, a Memorandum of said Lease Termination was recorded April 18, 2018, as Instrument No. 2018-026036;

WHEREAS, the other intended additional medical and hospital-related uses anticipated at the time **County** declared the Hospital Easements never came to fruition;

WHEREAS, County confirms and has determined therefore that the need for the Hospital Easements no longer exists due to the fact that all the hospital and medical related uses contemplated at the time for the *Lands of Declarant* have ceased and that there is no longer any need for a common plan of utility and driveway easements or any allocation of costs and expenses therefor;

WHEREAS, there is no intention of **County** by this Termination, to vacate any public roads, easements or other interests recorded prior to the recordation of the Hospital Easements; and

WHEREAS, **County** agrees and confirms that this Termination is executed for the purpose of setting forth upon the public record that the Hospital Easements, including without limitation all equitable servitudes declared and easements granted thereunder, are hereby terminated, null and void, of no further force or effect and are no longer covenants or servitudes running with the aforementioned lands.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are acknowledged, **County** intending to be legally bound hereby, agrees as follows:

1. **County** hereby terminates the Hospital Easements, and affirms that the Hospital Easements, including but not limited to any and all declarations, equitable servitudes, easements and all other covenants and agreements of **County** thereunder, are no longer necessary or beneficial, and **County** affirms the same are null and void, of no further force or effect, terminated, and are no longer binding servitudes or covenants running with the *Lands of Declarant*.

IN WITNESS WHEREOF, **County** has executed this Termination Agreement by its officers pursuant to a duly authorized by that certain Board Resolution 18- _____ approved as of the day and year first above written.

EXHIBIT "A"

PARCEL ONE:

Being a portion of the Nielsen Tract, in Secton 11, T. 7N. R. 8 W., M.D.M., as described in the Decree of Distribution recorded in Book 1525 of Official Records, page 38, Sonoma County Records, and particularly described as follows:

Beginning at a 3/4" steel pin marking the corner to sections 1, 2, 11, 12, T. 7 N., R. 8 W.; thence South 89° 44' 07" West, 1320 feet, more or less, to a 3/4" pin; thence South 1° 27' 40" East, along line of stone fence, 554.04 feet to a 3/4" pin; thence South 1° 15' East 120.38 feet to a 3/4" pin; thence South 27° 01' West 92.9 feet to a 3/4" pin; thence South 43° 14' East 120.79 feet to a 3/4" pipe set in concrete; thence South 56° 20' East, 176.82 feet to a 3/4" pipe set in fence corner; thence South 56° 20' East, 65.4 feet; thence South 49° 46' East, 209.22 feet; thence South 43° 30' East, 120.12 feet; thence South 25° 05' East, 155.98 feet to a 3/4" pin at the northwesterly corner of the land of the County of Sonoma; thence along the lines of the land of the County of Sonoma, South 24° 01' East, 329.64 feet to a 3/4" pin, South 55° 18' East, 36.88 feet to a 3/4" pin, and North 53° 42' 30" East, 748.35 feet to a 3/4" pin; thence North 0° 59' 10" West 1255.52 feet to the point of beginning.

EXCEPTING THEREFROM the lands described in deed from James Laier, et al, to the County of Sonoma, recorded October 16, 1970 in Book 2490 of Official Records, page 896, under Recorder's Serial No. L-82829, Sonoma County Records.

PARCEL TWO:

That portion of Section 11, Township 7 North, Range 8 West, M.D.M., more particularly described as follows, to-wit:

Beginning at a point in the center of a 20 foot road which bears South 35° 11' East, a distance of 527.69 feet from the northwesterly corner of the tract of land conveyed to Julius C. Nathanson and Rufus Hawley by deed recorded in Book 305 of Deeds, at page 100, Sonoma County Records; thence North 55° 11' East 593.71 feet; thence South 56° 20' East 65.35 feet; thence South 49° 46' East, 209.22 feet; thence South 43° 30' East, 120.12 feet; thence South 24° 27' East 155.10 feet; thence South 57° 33' West 456.05 feet; thence South 62° 07' West, 267.96 feet, to the center line of said 20 foot roadway; thence along said roadway center line North 31° 59' East, 79.20 feet, North 11° 42' West, 50.16 feet, North 52° 03' West 98.34 feet, North 35° 11' West 312.49 feet to said point of beginning.

EXCEPTING THEREFROM the southwesterly 10 feet lying within the boundary of said 20 foot roadway.

PARCEL THREE:

A right of way for general road purposes over a strip of land 20 feet in width, the center line of which is described as follows:

Beginning at the northwesterly corner of said tract of land conveyed to Julius C. Nathanson and Rufus W. Hawley by deed recorded in Book 305 of Deeds, at page 100, Sonoma County Records; thence South 35° 11' East, 840.18 feet; thence South 52° 03' East 98.34 feet; thence South 11° 42' East, 50.16 feet; thence South 31° 59' West, 79.20 feet.

PARCEL FOUR:

An easement along a county private driveway for driveway and access purposes, over, along and across a strip of land of various widths extending from Chanate Road to Engineer's Station 20+43.44 B.C., as shown on a map entitled "Public Health Parking Facilities, Property Line Map", dated February 1977, and on file in the office of the Sonoma County Department of Public Works, which said strip of land is described as follows:

Beginning at Engineer's Station 'C' 10+03.10 P.O.T., a strip of land lying 16 feet each side of the following described centerline as shown on the above said map; thence from said point of beginning N. 28° 53' 39" W., 190.61 feet to Engineer's Station 11+93.76 B.C.; thence curving to the left from a tangent which bears N. 28° 53' 39" W., with a radius of 500 feet, through an angle of 1° 54' 34" for a distance of 16.66 feet to Engineer's Station 12+10.42 E.C.; thence N. 30° 48' 13" W., 266.75 feet to Engineer's Station 14+77.17 B.C.; thence curving to the left from a tangent which bears N. 30° 48' 13" W., with a radius of 500 feet, through an angle of 5° 13' 43" for a distance of 45.63 feet to Engineer's Station 15+22.80 E.C.; thence N. 36° 01' 56" W., 76.42 feet to Engineer's Station 15+99.22 B.C.; thence curving to the right from a tangent which bears N. 36° 01' 56" W., with the radius of 100 feet, through an angle of 72° 06' 28", for a distance of 128.85 feet to Engineer's Station 17+25.07 E.C.; thence N. 36° 04' 32" E., 84.38 feet to Engineer's Station 18+09.45 B.C.; thence curving to the left from a tangent which bears N. 36° 04' 32" E., with a radius of 100 feet, through an angle of 31° 36' 09" for a distance of 55.16 feet to Engineer's Station 18+64.61 E.C.; thence N. 4° 28' 23" E., 5.81 to Engineer's Station 18+70.42 P.O.T. at which point said easement is left N. 85° 31' 37" W., 41.10 feet; thence N. 5° 21' 05" E., 173.04 feet; thence S. 85° 31' 37" E., 38.44 feet to Engineer's Station 20+43.44 B.C.; thence continuing S. 85° 31' 37" E., 16.00 feet; thence S. 4° 28' 23" W., 178.83 feet to a point 16.00 feet right of Engineer's Station 18+64.61 E.C.,

Basis of Bearing: Solar Observation

Excepting from the above those portions conveyed by the following:

(a) Deed from James Laier, et al, to the County of Sonoma, recorded July 29, 1977 in Book 3268 of Official Records, page 803 under Recorder's Serial No. S-33460, Sonoma County Records.

(b) Deed from James Laier, et al, to the City of Santa Rosa, recorded January 5, 1978 in Book 3338 of Official Records, page 138 under Recorder's Serial No. S-72293, Sonoma County Records.

Portion of A.P. No. 42-071-15
A.P. No. 42-081-27

EXHIBIT "B"

Beneficiary shall, by the acceptance of this Deed of Trust, and provided that no Notice of Default under the terms hereof then appears of record, and at the request of Trustors, grant partial reconveyances from the lien or charge of said Deed of Trust on any one or more of the lots shown on the Parcel Map, to be applied toward the payment of the principal amount of Note secured by said Deed of Trust, of such sum for each lot as may be agreed upon between trustor and beneficiary prior to close of escrow, plus interest at the rate of ten percent (10%) per annum on the unpaid principal balance of such Note. It is the intention of the parties that the amount to be paid for the reconveyance of each lot shall be spread with uniformity through each of the lots set forth on the parcel map, after considering the value of such lots and the protection of the security of the holders of the Deed of Trust.

MEMORANDUM OF AGREEMENT

THIS MEMORANDUM OF AGREEMENT is made and entered into as of March 19th, 2001, by and between Sutter Medical Center of Santa Rosa, a California non-profit public benefit corporation ("**Sutter**") and SPRINT SPECTRUM L.P., a Delaware limited partnership ("**SSLP**").

WITNESSETH:

That Sutter hereby subleases to SSLP and SSLP hereby subleases from Sutter a portion of that certain real property (the "**Property**") in the State of California, in the unincorporated area of the County of Sonoma, commonly known as A.P.N. 180-090-002, a legal description of which is shown in Exhibit A attached hereto and incorporated herein by reference, under the terms and conditions of the unrecorded PCS Site Agreement by and between Owner and SSLP dated March 19th, 2001 and incorporated herein by reference (the "**Agreement**") for an initial term of five (5) years, and two (2) subsequent optional extension terms of five (5) years each, pursuant to the terms of the Agreement. The Agreement provides for grant of an easement for rights of access to the Property and to electrical and telephone facilities serving the Property.

IN WITNESS WHEREOF, the parties have executed this Memorandum as of the day and year first above written.

MEMORANDUM OF LEASE

This MEMORANDUM OF LEASE is made and entered into as of this 7th day of May, 1993, by and between the County of Sonoma, Landlord, and McMahon/Oliphant Properties, Tenant.

For good and adequate consideration, Landlord leases the Premises described herein to Tenant, and Tenant hires them from Landlord for the term and on the provisions contained in that certain unrecorded lease dated May 7th, 1993, including a provision that LANDLORD may elect to terminate this agreement if the Lease has not commenced in accordance with this paragraph on or before eight months after the execution hereof.

The term shall begin on the date specified in a MEMORANDUM OF LEASE COMMENCEMENT duly executed by Landlord's authorized agent and recorded in the County of Sonoma, California and shall continue for sixty (60) years, until the date specified in said MEMORANDUM OF LEASE COMMENCEMENT, unless earlier terminated, or unless extended as provided for in the lease.

The Premises consist of approximately 4.06 acres of land in the City of Santa Rosa, County of Sonoma, shown as Lot 1 on Parcel Map No. 511 (tentative), dated February, 1992, attached hereto as Exhibit A; Recorded July 1, 1993, in Book 510, of Maps, at Pages 25-27, Sonoma County Records.

This memorandum is not a complete summary of the Lease; provisions in this memorandum shall not be used in interpreting the Lease provisions. In the event of conflict between this memorandum and other parts of the Lease, the other parts shall control.

Supervisorial District(s):

Title: License Amendment for 2300 County Center Drive, Suite A100, Santa Rosa

Recommended Actions:

A) Authorize the General Services Director to execute a Third Amendment to the License Agreement with U.S. Congressman Mike Thompson 5th Congressional District of California for 1,060 sq. ft. of office space located at 2300 County Center Drive, Suite A100, Santa Rosa to extend the term through January 2, 2021, at no change in rent of $927 per month ($0.87 per sq. ft.), for the proposed 2-year extension.

B) Make findings pursuant to Government Code Section 25526.6 that the subject property located at 2300 County Center Drive, Suite A100, Santa Rosa, is not needed by the County, the Agreement serves a public purpose, and that use by Congressman Mike Thompson will not interfere with the use of the premises by County.

Executive Summary:

This item seeks Board approval to authorize the General Services Director to execute an amendment to extend the term of the License Agreement ("Agreement") with U.S. Congressman Mike Thompson 5th Congressional District of California. The Agreement is for use of 1,060 sq. ft. of office space at 2300 County Center Drive, Suite A100, Santa Rosa. The term of the Agreement expires January 2, 2019, and rent is $927 per month ($.87 per sq. ft.). Rent would remain at $927 per month for the proposed two-year extension period.

Furthermore, staff requests that the Board make findings pursuant to Government Code Section 25526.6 that the subject property located at 2300 County Center Drive, Suite A100, Santa Rosa, is not needed by the County, the Agreement serves a public purpose, and that use by Congressman Mike Thompson will not interfere with the use of the premises by County. Congressman Thompson uses this office to meet with constituents, and to provide agency and referral assistance for Social Security and Medicare, the Internal Revenue Service and tax issues, student loans, veterans' resources and benefits, and small-businesses.

Discussion:

On February 3, 2013, County executed a license agreement ("Agreement"), with U.S. Congressman Mike Thompson California 1st Congressional District ("Licensee"), to use approximately 1,060 sq. ft. of office space at 2300 County Center Drive, Suite A100, Santa Rosa ("Premises") for a two-year term that commenced on January 3, 2013 and expired on January 2, 2015. On January 3, 2015, the County executed an amendment to the Agreement, which extended the term through January 2, 2017, and increased the rent from $900 per month to $927 per month (3%), effective the 2nd year of the two-year extension period. On January 3, 2017, the County executed a second amendment to the Agreement, which extended the term through January 2, 2019, and held the rent flat at $927 per month.

The Agreement expires January 2, 2019, and the Licensee has requested an additional two-year extension of the term effective January 3, 2019 through January 2, 2021. Rent for the proposed two-year extension period would remain at $927 per month ($0.87 per sq. ft.), which is below fair market value for the Santa Rosa area. Fair market office rent within a mile from this location ranges from $1.47 to $2.15 per sq. ft., plus utilities. The rent for the Premises would not be increased and would be held flat at $927 per month for the proposed two-year extension.

Public Interest. Government Code Section 25526.6 allows the County Board of Supervisors to grant or otherwise convey an easement, license or permit for use to the state, or to any county, city, district or public agency or corporation, or to any public utility corporation any real property of the County, upon a finding by the Board that the conveyance is in the public interest and that the interest in land will not substantially conflict or interfere with the use of the property by the County. Staff suggests that granting of the term extension to the Licensee serves public purposes, as the Licensee is a public agency (California 5th Congressional District). There is no other proposed use for the Premises at this time, and use by the Licensee will not interfere with the use of the premises by County.

Staff requests that your Board authorize the General Services Director to execute the proposed amendment to extend the term of this Agreement through January 2, 2021.

Prior Board Actions:

12/13/16—Authorized the General Services Director to execute a Second Amendment to License

Strategic Plan Alignment Goal 4: Civic Services and Engagement

The proposed extension of the Agreement with U.S. Congressman Mike Thompson provides office space for Congressional staff to meet at a location that is accessible and known to constituents in Sonoma County, as well as a revenue stream for the County of Sonoma for the lease rent.

Fiscal Summary

THIRD AMENDMENT TO REVOCABLE LICENSE AGREEMENT

This Third Amendment ("Third Amendment"), dated as of____________________, 2018 ("Effective Date"), is by and between the **COUNTY OF SONOMA**, a political subdivision of the State of California (hereinafter the "County"), and **U.S. CONGRESSMAN MIKE THOMPSON CALIFORNIA 5th CONGRESSIONAL DISTRICT** ("Licensee"). All capitalized terms used herein shall, unless otherwise defined, have the meaning ascribed to those terms in the Agreement (as defined below). County and Licensee are sometimes collectively referred to herein as the "parties" and singularly, a "party."

RECITALS

WHEREAS, Licensee and Licensor entered into that certain Revocable License Agreement dated February 3, 2013 ("Original Agreement"), for use of a portion of the building commonly known as the La Plaza West Building ("Building") and being further described as APN 180-260-055; and

WHEREAS, Licensee and Licensor entered into that certain First Amendment to Revocable License Agreement dated January 13, 2015 ("First Amendment"), to extend the term and revise the consideration; and

WHEREAS, Licensee and Licensor entered into that certain Second Amendment to Revocable License Agreement dated January 3, 2017 ("Second Amendment), to extend the term and revise the consideration; and

WHEREAS, the Original Agreement as amended by the First Amendment and Second Amendment is hereafter referred to as the "Agreement"; and

WHEREAS, the Agreement expires on January 2, 2019; and Licensee and Licensor desire to amend the Agreement in order to: 1) extend the term, 2) specify consideration; and 3) provide for certain other terms and conditions as hereinafter set forth.

NOW, THEREFORE, in consideration of the continued use of the Premises, and for other good and valuable consideration the receipt and sufficiency of which is hereby acknowledged, the parties hereto mutually agree as follows:

AGREEMENT

1. The foregoing recitals are true and correct and are hereby incorporated and made a part of this Third Amendment.

2. Effective as of the Effective Date of this Third Amendment, the Agreement is modified as follows:

A. Section 4 of the Agreement is hereby deleted in its entirety and replaced with the following:

"4. Term. The term of this Agreement ("Term") shall commence on **January 3, 2019** ("Commencement Date"), and shall expire at midnight on **January 2, 2021**, unless earlier terminated in accordance with Section 23 below."

B. Section 5 of the Agreement is hereby deleted in its entirety and replaced with the following:

"5. Consideration. In consideration of this Agreement, Licensee agrees to pay to County the following: For the period of January 3, 2019 through January 2, 2021, the sum of Nine Hundred Twenty-Seven and No/100 Dollars ($927.00) per month. All fees due hereunder shall be paid by Licensee on the 20th day of each calendar month in arrears, without notice, demand or offset to the County of Sonoma, General Services Department, Attn: Real Estate Manager, 2300 County Center Drive, Suite A220, Santa Rosa, California, or at such other place or places as may from time to time be designated by County."

C. Exhibit D-2 is hereby replaced with Exhibit D-3 (the District Office Lease Attachment for the 116th Congress), attached hereto and by this reference made a part hereof.

3. Except to the extent the Agreement is specially amended or supplemented hereby, the Agreement and the attached District Office Lease Attachment for the 116th Congress, together with exhibits, is, and shall continue to be, in full force and effect, and nothing contained herein shall be construed to modify, invalidate or otherwise affect any right of Licensee arising thereunder.

4. This Third Amendment shall be governed by and construed under the internal laws of the State of California, and any action to enforce the terms of this Third Amendment or for the breach thereof shall be brought and tried in the County of Sonoma.

LICENSEE HAS CAREFULLY READ AND CONSIDERED THE TERMS AND CONDITIONS SET FORTH IN THIS THIRD AMENDMENT AND HEREBY AGREES THAT LICENSEE SHALL BE BOUND BY ALL SAID TERMS AND CONDITIONS.

IN WITNESS WHEREOF, the parties hereto have executed this Third Amendment as of the Effective Date.

Licensor: **U.S. CONGRESSMAN MIKE THOMPSON CALIFORNIA 5th CONGRESSIONAL DISTRICT**

Title: Sonoma Raceway Communication Tower and Vault Construction Contract Award

Recommended Actions:

Authorize the Chair to execute a construction contract with Alta Engineering Group for the construction of the Sonoma Raceway Communications Tower and Vault, in the amount of $882,540 on terms and conditions contained in the approved plans, specifications, and contracting documents, and in form approved by County Counsel.

Executive Summary:

Background
The County of Sonoma maintains a network of wireless communication facilities that provides voice radio and wireless data communication for essential services, including the 911 dispatch system, emergency fire services, emergency medical response services, law enforcement, and other first responders, public safety and public works agencies. The Sonoma Raceway Tower and Vault will augment services for the southern areas of the County. The General Services Department manages the construction and maintenance of communication tower assets and is responsible for negotiating licenses or leases associated with equipment located on the towers. The department works with Federal, State, County law, fire, EMS and special districts and commercial entities to ensure the radio and wireless communication network serves the needs of the public.

The Board of Supervisors approved the Radio Infrastructure Communications Improvement program in 2012 as part of a broad effort to strengthen the interoperability of public safety communications in the Bay Area. The program was authorized and initially funded by the Board of Supervisors through the adoption of FY 2011-12 Capital Budget with Communication Program. This project was funded in the FY 2017-18 Capital Improvement Plan (CIP) and approved to go to bid by the Board of Supervisors on May 8, 2018. This project was originally bid in June 2018, however, extenuating circumstances including an over-budget bid, bid protest, and potential impacts to native species, caused cancellation of the contract award. In response, the project scope was reduced in order to receive bids that were within budget.

Project Description

The scope of the Sonoma Raceway project is to erect an 80' self supporting communications tower with all County required antennas, supports, and cabling which will terminate in to a new 18' X 25' pre-engineered metal communications equipment vault. The project includes all necessary site access, screen landscaping, electrical power and emergency generator support as required. The project site is located on lands owned by the Sonoma Raceway. This new facility will be a part of the essential services network supported for improved public safety. The Sheriff's Telecommunications Bureau has reviewed the specifications and found them satisfactory to meet their needs for this project.

Discussion:

Public Bid

A Notice Inviting Bids for the Sonoma Raceway Communications Tower and Vault Project was advertised on October 8, 2018. The Construction Drawings and Specifications were made available on October 8, 2018 through the County of Sonoma Supplier Portal, the North Coast Builders Exchange, and at the Facilities Development and Management office, located at 2300 County Center Drive, Suite A220, Santa Rosa, CA. A mandatory pre-bid meeting and site walk was held at 10:00 AM on Tuesday, October 16, 2018, which was attended by six potential bidding parties. Four Addenda to the Construction Documents were released during the bid period. The public bid opening was held at 2:00 PM on Tuesday, November 13, 2018.

Bid Results

Four (4) contractors submitted bids for the Sonoma Raceway Tower and Vault Project. The bid results were as follows:

Bid Date: November 13, 2018

Bidders Name	Base Bid
CWS Construction Group	$995,850
A.E. Nelson Construction	$966,400
L.D. Strobel Co. Inc.	$903,282
Alta Engineering Group	$882,540

After review of Alta Engineering Group's bid and the scope of work, the evaluation panel determined that Alta Engineering Group is the lowest responsive and responsible bidder in conformance with Public Contract Code Section 20128, and that the bid represents a reasonable price and good value to the County. Staff recommends that the Board award the contract to Alta Engineering Group in the amount of $882,540.

Schedule

Work is scheduled to begin in January 2019 and be completed by June 2019.

Radio Infrastructure Program Funding

Radio Infrastructure improvement project priorities are established in the CIP and funding is based on the Board-adopted annual Capital Budget. From FY 2006-07 to FY 2018-19, a total of $8.7 million has been budgeted for Radio Infrastructure improvement projects, and $6.8 million has been spent to-date. Completed projects include towers and related supporting infrastructure and equipment at Mt. Jackson, Siri, Meyers Grade, Moonraker and Sonoma Raceway (formerly known as Sears Point Raceway and Infineon Raceway). Historically, the General Fund has been the primary source of funding for the Radio Infrastructure program, although there was a contribution of $1,650,000 in Tobacco Securitization allocated in FY 2011-12.

Sonoma Raceway Tower Project

The Sonoma Raceway Tower project was established in the FY 2011-12 Capital Budget as part of the overall $1.4 million Radio Infrastructure – Various Communication Towers program. Initially $35,250 was allocated to start the Sonoma Raceway Tower design in FY 2011-12. The Sonoma Raceway Tower project progressed through CEQA and design phases, utilizing additional approved funding of $204,874 allocated in FY 2012-13. The Radio Infrastructure program funding was reassigned through Board-approved Capital Budgets in FY 2014-15 and FY 2015-16 to other priority communications projects, resulting in a decrease of $130,177 to the Sonoma Raceway Tower budget. In FY 2017-18 the construction phase of the Sonoma Raceway Tower was prioritized for funding by the Board during the Capital Budget process and subsequently received a $1.2 million General Fund allocation.

The budget description below includes the multi-year work on the project. The total project budget is $1,309,879, allocated into the following budget categories:

Construction	$882,540
Architect/Engineering	$135,740
Other Consultants	$49,058
Permits/Fees	$25,000
Project Management	$120,000
Special Inspections	$45,000
Project Contingency	$52,541
Total Project Cost	**$1,309,879**

The County General Services Department uses several different methodologies to develop project budget cost estimates. In the case of communications towers the FY 2018-19 Sonoma Raceway Tower construction budget estimate was based upon our prior experience constructing four communications sites (Mt. Jackson, Siri, Meyers Grade, and Moonraker), all of which were completed on time and under budget.

At this time, staff is recommending the award of a construction contract to Alta Engineering Group, the lowest responsive and responsible bid, in the amount of $882,540. The cost of the proposed contract is within the project budget with funding already appropriated, and has been reviewed and approved by the Sheriff's Office for project construction.

Prior Board Actions:

6/14/2018 – Adoption of FY 2018-19 Capital Budget
5/8/2018 – Approval of construction plans and specifications and contracting documents. Approval of CEQA Notice of Exemption.
12/11/2012 – Authorization to hire Stantec for design consulting services
6/25/2012 – Adoption of FY 2011-12 Capital Budget with Communications Program

5/15/2011 – Accept report on FY 2012-2017 County of Sonoma Capital Project Plan

Strategic Plan Alignment	Goal 3: Invest in the Future

The new tower and equipment vault at the Sonoma Raceway site will provide needed improved capabilities for emergency response communications along the County's southern areas with enhanced coverage from the higher tower and better location. The facility further aligns with the goal of promoting a Safe and Caring Community, by ensuring timely improvements to the County's communications network promoting the safety and connectivity of the community.

Fiscal Summary

Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	$1,072,126		
Additional Appropriation Requested			
Total Expenditures	**$1,072,126**		
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other			
Use of Fund Balance	$1,072,126		
Contingencies			
Total Sources	**$1,072,126**		

Narrative Explanation of Fiscal Impacts:

The overall project budget for the Sonoma Raceway Tower is $1,309,879. Of that amount, $237,753 was spent in Fiscal Years 2011-12 and 2017-18. The balance remaining of $1,072,126 was included in the FY 2018-19 Communications Towers Capital Project budget; no additional appropriations are needed.

Department or Agency Name(s): Department of Health Services

Staff Name and Phone Number:

Ellen Bauer, 565-4418; Kim Caldewey, 565-6671

Supervisorial District(s):

Title: Dental Transformation Initiative Agreement Amendments

Recommended Actions:

Authorize the Director of Health Services to execute amendments to agreements with seven community health centers to support the implementation of standardized caries (cavities) risk assessments and onsite community dental workers, increasing the total amount by $164,082 to reflect enhanced services, resulting in a new not-to-exceed amount of $1,580,974 through December 31, 2020.

Executive Summary:

This item requests authority to execute amendments to seven services agreements that support the Department of Health Services' Dental Health Program. The agreements are funded by the Dental Transformation Initiative Local Dental Pilot Project grant, including supplemental grant funding, from the California Department of Health Care Services to develop and implement the *Cavity-Free Sonoma* project from 2017 through 2020.

Discussion:

On May 9, 2017 the Board approved a grant from the Department of Health Care Services to fund implementation of *Cavity-Free Sonoma*, a four-year pilot project developed by the Sonoma County Dental Health Network partners. *Cavity-Free Sonoma* supports the vision of achieving 75 percent of five year olds being cavity-free by 2020. *Cavity-Free Sonoma* implementation includes contracting with local clinics to 1) support the implementation of the Centers for Medicare and Medicaid Services' standard caries (cavities) risk assessment, which is a tool used to identify individual risk for dental disease; 2) develop treatment plans and protocols based on standardized caries risk assessments; and 3) employ clinic-based community dental health workers to provide culturally competent, language-appropriate client centered services. *Cavity-Free Sonoma* implementation began in 2017 and will continue through 2020.

Agreements with Community Health Centers

In support of the implementation of *Cavity-Free Sonoma*, the Board approved agreements with seven local community health centers in August 2017. Services include standardized caries risk assessments, treatment plans, and protocols at these dental health provider organizations. Each partner organization employs a community dental health worker who ensures caries risk assessment completion and provides culturally competent, language-appropriate client centered services. Services provided by community dental health workers, in addition to conducting caries risk assessments, include conducting motivational interviews with parents and caregivers, coordination of chronic disease treatment, and assisting with downloading and usage of the mobile dental health application. At each clinic a project supervisor coordinates efforts of the community dental health worker(s); participates in the *Cavity-Free Sonoma* steering committee; ensures training for clinic staff on caries risk assessment procedures, performs program coding and data reporting; oversees data collection; participates in quality assurance and quality improvement process activities; and reports on project progress. Each clinic is required to provide quarterly and yearly data and progress reports. The following table provides a list of clinics that participate in the Cavity-Free Sonoma project and the requested increase to funding for each fiscal year of each clinic's agreement.

In October 2018 the Department of Health Services was awarded supplemental Dental Transformation Initiative Local Dental Pilot Project grant funding in the amount of $592,151. Additional funding will be used to promote, improve, and evaluate the project, including the following proposed additional funding amounts to the community health centers. With the additional funding, community health centers will provide additional supervisory support for project implementation; increase Community Dental Health Worker salaries by eight percent in calendar year 2019 and by three percent in calendar year 2020; and provide increased data collection and reporting activities for project evaluation.

Clinic	FY 17-18 ($)	FY 18-19 ($)	FY19-20 ($)	FY20-21 ($)	Total ($)
Alliance Medical Center	0	4,055	8,164	4,109	16,328
Coppertower/Alexander Valley Healthcare	0	3,243	6,509	3,265	13,017
Petaluma Health Center	0	8,111	16,329	8,218	32,658
Santa Rosa Community Health Centers	0	8,111	16,329	8,218	32,658
Sonoma County Indian Health Project, Inc.	0	4,155	8,364	4,211	16,730
Sonoma Valley Community Health Center	0	4,128	8,301	4,173	16,602
West County/Russian River Health Center	0	14,865	18,044	3,180	36,089
Totals	0	46,668	82,040	35,374	164,082

Total agreement funding, including the proposed increased funding, is shown in the below table.

Clinic	FY 17-18 ($)	FY 18-19 ($)	FY 19-20 ($)	FY 20-21 ($)	Total
Alliance Medical Center	43,824	56,512	62,196	31,489	194,021

Petaluma Health Center	83,850	109,833	121,102	61,378	376,163
Santa Rosa Community Health Centers	83,850	109,833	121,102	61,378	376,163
Sonoma County Indian Health Project, Inc.	44,923	59,245	65,109	32,967	202,244
Sonoma Valley Community Health Center	43,824	56,585	62,333	31,553	194,295
West County/Russian River Health Center	23,693	42,599	46,613	17,675	130,580
Totals	347,657	465,584	513,533	254,200	1,580,974

Prior Board Actions:

On April 17, 2018 the Board authorized execution of an amendment to an agreement with Sonoma County Indian Health Project to increase the contract maximum by $7,819.

On August 1, 2017 the Board authorized the Director of Health Services to execute agreements with seven community health centers to support the implementation of standardized Caries Risk Assessment and integrating Community Dental Health Workers at clinic sites.

On May 9, 2017 the Board authorized a grant agreement with the California Department of Health Care Services to accept $3,507,767 in revenue to implement the DTI LDPP project for the period of May 15, 2017 through December 31, 2020.

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

This action supports overall health, including the healthy development of children, by reducing the burden of dental disease among low-income children.

Fiscal Summary			
Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	46,668	82,040	35,374
Additional Appropriation Requested			
Total Expenditures	**46,668**	**82,040**	**35,374**

Title: Safe Drug and Sharps Disposal Update

Recommended Actions:

Approve Health Services' participation in a mail-back pilot program for the take-back of drugs through a partnership with the California Product Stewardship Council, utilizing Statewide Medicine Disposal Grant funding from the Department of Health Care Services, Substance Use Disorder Compliance Division.

Approve continuation of Department of Health Services staff working with the Safe Medicine Disposal Collaborative Partners to develop a comprehensive safe drug and sharps disposal program in the interim until Senate Bill 212 is fully implemented and the program can be taken over by the manufacturers.

Executive Summary:

California's Senate Bill 212, which is the first law in the nation to establish a comprehensive, producer-funded take-back program to provide safe and convenient disposal options for both home generated pharmaceutical drugs and sharps waste, was passed on September 30, 2018. This law and statewide program are scheduled to be fully implemented within three to four years.

This item provides an overview of the existing safe drug and sharps disposal programs in Sonoma County and provides recommendations for the path forward. In the interim, to build a stronger, more comprehensive collection program, Health Services is recommending participation in a mail-back pilot program through a partnership with the California Product Stewardship Council and California Department of Health Care Services and ongoing coordination with Safe Medicine Disposal Collaborative Partners.

Discussion:

Extended Producer Responsibility is a general category of laws used to ensure consumer products do not create an undue burden to society and ensures that all stages of a consumer product's life, from design to disposal, does not significantly contribute towards environmental issues such as pollution and waste, or towards human or animal harm. Extended Producer Responsibility policies place the responsibility on the producers and manufacturers for developing, managing, and funding the full life cycle of their products, including the final disposal stage. California has enacted Extended Producer Responsibility legislation for items such as mercury thermostats, paint, carpet, and mattresses.

In 2017, California's Senate Bill 212 was introduced by Senator Hannah-Beth Jackson in response to the growing problems of prescription drug abuse, accidental poisonings, and the detection of pharmaceutical products in California waters. Senate Bill 212 was signed into law on September 30, 2018 and will be the first law in the nation to establish a comprehensive, producer-funded take-back program to provide safe and convenient disposal options for both home generated pharmaceutical drugs and sharps waste.

<u>Senate Bill 212 Requirements</u>

1) Enforcement and regulation shall be the responsibility of the California Department of Resources Recycling and Recovery (CalRecycle). By January 1, 2021 CalRecycle is required to adopt regulations and establish a program implementation date.
2) Manufacturers of sharps and pharmaceutical drugs will be required to establish, fund, and promote a statewide take-back system for these products with an estimated full implementation date of June 2022.
3) Manufacturers may participate individually, as a group, or through a stewardship organization operating under a stewardship plan approved by CalRecycle.
4) Manufacturers will be required to provide comprehensive public education to promote consumer participation in the take-back system.
5) Preempts future local ordinances or those adopted on or after April 18, 2018.

<u>Convenience Standards for Drugs</u>

1) Requires one bin for every 50,000 people and a minimum of five medication bins in each county.
2) Any retail pharmacy, hospital, clinic with an on-site pharmacy, or law enforcement agency will have the ability to opt in and serve as a collection site.
3) Retail pharmacies will be required to serve as collection sites for covered drugs and will be required to have at least one location or 15% of their store locations, whichever is greater, in the county serve as authorized collectors. Retail pharmacies will be exempt from this requirement if they operate their own adequate voluntary program.
4) Individuals who are homeless, disabled, home-bound, or are home health care workers will be able to request prepaid, preaddressed mailing envelopes and containers for the proper disposal of medications and sharps.
5) Sharps will be collected through a mail-back program only, where consumers will receive a sharps container and mail-back kit at time of purchase.
6) Mandates producers of needles reimburse local governments for any needles they collect and dispose. Household Hazardous Waste facilities will get reimbursed for the disposal costs of sharps waste.

Senate Bill 212 is estimated to be implemented three to four years from now. In the interim, Health Services is seeking Board approval to participate in a mail-back pilot program for the take-back of drugs through a partnership with the California Product Stewardship Council, utilizing Statewide Medicine Disposal Grant funding through the Department of Health Care Services, Substance Use Disorder Compliance Division.

Health Services is also seeking Board approval to continue to work with the Safe Medicine Disposal Collaborative Partners to develop options for creating a more robust take-back program for the collection of unwanted and expired drugs and used sharps. As the interim program develops, Health Services will bring options back to the Board for consideration and approval.

Background:

Currently, there is a considerable need to provide Sonoma County residents with safe and convenient methods for disposal of unwanted medicines and sharps using a sustainable model. Since 2005, local governmental agencies and ratepayer sewer service fees have funded various programs that collect and dispose of expired medicine. In Sonoma County, the Safe Medicine Disposal Program is collectively funded by the following partners: Cities of Cloverdale, Healdsburg, Petaluma and Santa Rosa; Town of Windsor; Russian River Watershed Association; Sonoma Water; and the Sonoma County Waste Management Agency. Approximately $71,600 is spent annually on the collection, handling, and disposal of consumer-generated medications by the program partners and $21,400 for consumer-generated sharps paid by the Sonoma County Waste Management Agency.

Since the current Safe Medicine Disposal Program began in 2007, the amount of medications collected has continued to grow annually, starting with 3,135 pounds in 2008 to over 16,108 pounds in 2016. These programs have collected more than 123,000 pounds of pharmaceutical drug waste since their inception. Each year, the demand increases for more collection bins and bin locations. Based on our estimates, less than thirty percent of unwanted prescription drugs are being disposed of through these programs.

In 2012, Alameda County became the first local government in the United States to adopt an ordinance requiring pharmaceutical producers to design, fund, and operate a safe medicine collection and management program. Alameda County’s ordinance has become a model for other jurisdictions. The pharmaceutical industry filed a lawsuit attempting to block implementation. After the Ninth Circuit Court of Appeals upheld the ordinance in 2015, multiple other localities have enacted similar ordinances, without legal challenge, including the California counties of Marin, Santa Clara, Santa Cruz, Santa Barbara, San Mateo, Contra Costa, and Tehama; the City and County of San Francisco; the California cities of Santa Cruz, Scotts Valley, Watsonville, and Capitola; and the San Luis Obispo Integrated Waste Management Authority for the areas of San Luis Obispo County and the seven incorporated cities.

California counties and cities have since passed Extended Producer Responsibility ordinances covering both drugs and sharps while others, with existing Extended Producer Responsibility ordinances for drugs, have passed separate ordinances for sharps. The counties of Alameda, Santa Clara, Santa Cruz, Tehama; the Cities of Santa Cruz, Scotts Valley, Watsonville, and Capitola; as well as the San Luis Obispo Integrated Waste Management Authority have all passed Extended Producer Responsibility laws to address the problem of consumer generated sharps waste.

Between September 2015 and January 2016, the Executive Director and Chair of the Russian River Watershed Association visited city and town councils throughout Sonoma County to deliver a presentation about options for improving and expanding the regional safe collection and disposal of unused and expired medications. In response, all nine incorporated town and city councils signed letters of conceptual support for a countywide Extended Producer Responsibility program for pharmaceutical waste.

Since then, Russian River Watershed Association, Sonoma Water, Sonoma County Waste Management Agency, Health Services, and the cities of Santa Rosa and Petaluma formed a Safe Medicine Disposal Collaborative to study and further develop the safe drug and sharps disposal program for Sonoma County.

Health Services and Sonoma Water staff and other Collaborative members gathered stakeholder input and comments through meetings and discussions about the proposed safe drug and sharps disposal program. Key stakeholders included Medtronic, California Life Sciences, California Retailer Association, interested retail pharmacies, Kaiser, St. Joseph Health System, Redwood Community Health Coalition, Health Action's Committee on Healthcare Improvement, North Bay Watershed Association, Maternal Child and Adolescent Health Advisory Board, Sonoma County Prevention Partnership, and the Alcohol and Other Drug Advisory Board. In addition, the Collaborative received feedback from staff of the County Regional Parks Department, City of Santa Rosa Parks and Recreation Department, Courts, Sheriff's Office, and concerned residents.

Staff has been closely tracking the movement of Senate Bill 212, including keeping updated on the proposed amendments. Staff became aware that preemption language was added to Senate Bill 212, where future local ordinances or those adopted on or after April 18, 2018 would be preempted to ensure consistency and predictability for manufacturers.

The California Product Stewardship Council is a 501(c)(3) nonprofit organization and conducts research and provides education, assistance, and advocacy for local governments on producer responsibility policy in California. The California Product Stewardship Council has been greatly involved in assisting in producer responsibility effort in Sonoma County over the years. In response to the passage of Senate Bill 212, California Product Stewardship Council was in contact with Sonoma County, Los Angeles County, and Tehama County to discuss possible local solutions for take-back, since the passage of Senate Bill 212 had a great impact on local efforts in these counties.

California Product Stewardship Council recently informed Health Services staff of their plan to apply for grant funding through the Department of Health Care Services Substance Use Disorder Compliance Division to fund an interim Drug Take Back Program for California counties. The California Product Stewardship Council grant proposal included a mail-back envelope pilot project to enhance existing take back programs in three types of counties: rural, suburban, and an urban area. The counties selected would receive drug take-back envelopes to be distributed to homebound or disabled residents who have impediments to using medication disposal bins. Sonoma County was one of the counties selected by California Product Stewardship Council for participation in the pilot project.

The Safe Medicine Disposal Collaborative Partners convened after Senate Bill 212's passage to discuss plans to continue and expand the current Safe Medicine and Sharps Collection Program in the interim three to four years until Senate Bill 212 is fully implemented. The Collaborative Partners were in support of Sonoma County being included in the proposed pilot project and working with California Product Stewardship Council on implementation. In response, the Director of the Health Services submitted a letter to the Department of Health Care Services in support of the California Product Stewardship Council managing the Statewide Medicine Disposal Grant.

On November 9, 2018 the California Product Stewardship Council was notified that they were awarded a total of $3,000,000 for the Medication Assisted Treatment (MAT) Expansion Project 2.0 – Drug Take Back Program. A budget of $400,000 is proposed to be used to cover the mail-back pilot program in the three selected counties. It is still to be determined how the envelopes will be dispersed. If Board approval is given for Health Services to participate in the pilot program, meetings between Health Services' staff and California Product Stewardship Council staff will take place to work out the logistics of the program.

Prior Board Actions:

On September 12, 2017 the Board 1) received an update on the development of a proposal for a Sonoma County Safe Medicine Disposal Ordinance, including the feedback from local jurisdictions and the Safe Medicine Disposal Collaborative partners regarding two key policy options – sharps as covered products and collection site minimum standards and 2) provided direction to Department of Health Services and Sonoma Water staff on returning with a full ordinance as well as on the two key policy options – sharps as covered products and collection site minimum standards.

On October 4, 2016 the Board conducted a study session at which the Board 1) received an informational presentation on the Sonoma County Safe Medicine Disposal Program, the ongoing community needs and resources for safe medicine disposal services, and existing medication Extended Producer Responsibility programs in California and 2) provided direction to staff on next steps for a potential local medication Extended Producer Responsibility ordinance.

On April 1, 2008 the Board adopted a resolution supporting the concept of Extended Producer Responsibility for products in general.

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

Implementing a consistent, sustainable safe medicine disposal program countywide will protect the public and the environment, contributing to a safer and healthier community.

EDMUND G. BROWN JR.
GOVERNOR

November 8, 2018

California Product Stewardship Council
Douglas Kobold, Executive Director
1822 21st Suite 100
Sacramento, CA 95811

Dear Mr. Kobold:

The Department of Health Care Services (DHCS), Substance Use Disorder Compliance Division (SUDCD) has completed review of the applications submitted for the MAT Expansion Project 2.0 – Drug Take Back Program and the application submitted by California Product Stewardship Council on October 25, 2018 has been selected.

DHCS awards California Product Stewardship Council a total of $3,000,000.00 to be used for the services described in the Request for Application (RFA) response and Scope of Work. DHCS' award of California Product Stewardship Council application authorizes the reimbursement of services after your Contract with DHCS is fully executed. Upon execution of your Contract, it is required that California Product Stewardship Council commence services as stated in your RFA response.

If you wish to withdraw your application, please notify DHCS immediately.

DHCS will be in touch shortly regarding your Contract. Should you have any questions, please reach out to the DHCS Project Representative, Janelle Ito-Orille, at (916) 345-7587 or via email at Janelle.Ito-Orille@dhcs.ca.gov.

Sincerely,

Janelle Ito-Orille

RE: Support for CPSC to Manage Statewide Medicine Disposal Grant

Dear DHCS Substance Use Disorder Compliance Division:

On behalf of Sonoma County Department of Health Services, I am writing in support of the California Product Stewardship Council (CPSC) to manage a two-year statewide program for collection and disposal of unwanted medication.

To date, CPSC has provided instrumental support for 12 cities and counties in California adopting medicine disposal ordinances that shift the responsibility of funding and managing the program to the producers and has supported legislation at the state level, SB 212, to expand safe medicine disposal statewide. Sonoma County has worked with CPSC on a grant project for Household Hazardous Waste (HHW) resulting in successfully recruiting retailers to sell and refill 1 lb. propane gas refillable containers, which saves resources for customers and the County. We know first hand that CPSC is expert at managing grant projects that include retail recruitment with great success.

Specific to this grant, CPSC has worked for years to help educate and advocate for safe medicine disposal in our county. CPSC Senior Advisor Heidi Sanborn presented to 200 people, including a County Supervisor, at a Russian River Watershed conference in July 2014, which led to that supervisor championing a drug take-back ordinance that was on track to be passed right when the devastating fires struck our county in 2017. Sanborn also testified at our public hearing on whether sharps should be included in the ordinance, which led to Board of Supervisors direction to staff to include sharps. Our ordinance was put on hold while fire mitigation was ongoing for a year. We have a countywide task force that has been working many years to reduce drug abuse through safe disposal and have realized we need a sustainable funding source to continue the program. While we are grateful that SB 212 passed, it preempted our county ordinance from being adopted in October 2018. We are grateful to have the opportunity to participate in this grant to greatly expand the areas underserved by safe drug disposal in Sonoma County.

We are eager to be one of the three counties selected to distribute the drug take-back envelopes directed at serving homebound or disabled residents who have impediments to using medication disposal bins. We will do that by using our existing partnerships with organizations that serve homebound and disabled clients, such as:

- Human Services Department (In-Home Support Services)
- Council on Aging
- Hospice and home health care providers
- Redwood Community Health Coalition and their network of community health centers

Sonoma County is committed to our collaboration with CPSC to establish receptacles in our region in areas with highest drug abuse that are now under-served and target homebound and disabled communities with mail-back envelopes. Collaboration will include staff time to assist with local project components and participation in education and outreach through a variety of channels that we use to educate our clients and community.

We are very grateful to your agency for winning the grant that will allow this important work to continue statewide until SB 212 is fully implemented. We strongly encourage you to select the CPSC proposal as they are extremely well positioned to implement it successfully and cost-effectively in California.

Please do not hesitate to contact us with any questions.

Sincerely,

Barbie L. Robinson

Barbie Robinson, Director
Sonoma County Department of Health Services

County of Sonoma Agenda Item Summary Report

Clerk of the Board
575 Administration Drive
Santa Rosa, CA 95403

Agenda Item Number: 37
(This Section for use by Clerk of the Board Only.)

To: Board of Supervisors of the County of Sonoma, Board of Directors of the Sonoma County Water Agency, Board of Commissioners of the Community Development Commission, and Board of Directors of the Sonoma County Agricultural Preservation and Open Space District

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): Human Resources

Staff Name and Phone Number:	**Supervisorial District(s):**
Cheryl Thibault, Benefits Manager 565-3033	All

Title: Benefits Consulting and Actuarial Services Agreement

Recommended Actions:

Authorize the Director of Human Resources to execute an agreement with The Segal Group, Inc. for employee and retiree benefit consulting, actuarial, and brokerage services for a five year term, from January 1, 2019, through December 31, 2023, with a maximum agreement amount not to exceed $ 1,190,000.

Executive Summary:

Segal Consulting was selected through a Request for Proposal process and was selected after a robust evaluative process. The Segal Group (Segal) has provided benefit and actuarial consulting services to the County of Sonoma since January 2008, and was previously the successful bidder in 2013 and again in the 2018 Request for Proposal process. Segal was determined to provide the most competitive costs with the broadest scope of services, has developed a strong reputation in their actuarial analysis performed for the County, as well pension actuarial services provided through a separate agreement with the Sonoma County Employee Retirement Association (SCERA). Segal's proposal came in with a 4% reduction to the first year's "not to exceed" annual amount of $235,000 for the first three years 2019-2021, and a 2% increase per year thereafter for the five year term through 2023.

Discussion:

Human Resources, Employee Benefits Unit is responsible for management and administration of the County's health and welfare benefit programs for employees, retirees, and their eligible dependents. As part of that responsibility, the County contracts with benefit consultants to assist the County in maintaining benefit programs that are competitively priced, meeting the needs of County employees, retirees, and dependents, and are innovative and comprehensive to attract human resource talent positioning the County as an employer of choice.

The Segal Group (Segal) was selected through a Request for Proposal (RFP) process which was released in July 2018 and widely circulated. A total of six national and regional benefit consulting firms' submitted proposals which were accepted into the review process, and four firms were invited to the interview process. The consultants selected for the interview process included Gallagher Benefits Services, Inc., Keenan and Associates, Rael and Letson, and Segal Consulting. Participating in the interview and selection process were Cheryl Thibault, Employee Benefits Manager; Amanda Thompson, Assistant Auditor-Controller, Treasurer Tax Collector; Gina Javier, Fiscal Services Officer-Human Resources. Because the County's benefits consultants work closely with the Joint Labor Management Benefits Committee (JLMBC), the interview and selection panel included two representatives from the JLMBC, Andre Bercut, Child Support Services Worker II, on behalf of Service Employees International (SEIU), and Lou Maricle, Retiree, formerly employed in the Information Systems Department, on behalf of the Sonoma County Association of Retired Employees (SCARE).

Following an extensive evaluation and due diligence process, The Segal Group was selected. The Segal Group (Segal) has provided benefit and actuarial consulting services to the County of Sonoma since January 2008, was the successful bidder during the 2013 process, and is being recommended again in the 2018 Request for Proposal process. Segal was determined to provide the most competitive costs with the broadest scope of services. More importantly, due to the high level of satisfaction the County and the JLMBC have had with the work and services provided by Segal, the Selection Committee unanimously recommended contracting again with Segal. The recommendation of the Evaluation Committee was also discussed at the JLMBC meeting on October 25, 2018 and all members present supported the recommendation.

The proposed fee arrangement was based upon the initial fees proposed by each of the consulting firms, and further fee clarification and last best final offers solicited from the finalist consultant firms. Initial annual fees for benefit consulting services ranged from $219,000 to $289,000. Segal agreed to provide all requested services at an all-inclusive annual fee not to exceed $235,000 for the first three years 2019-2021, a 2% increase to $240,000 in the fourth year 2022, and another 2% increase to $245,000 in the fifth year through December 31, 2023. Segal also provides a 100% guarantee for any and all work performed that doesn't meet the County's satisfaction. Services are billed only for the services requested and provided by Segal, up to the annual maximum amount, and there is no guaranteed minimum amount of work. The County only pays for requested services completed to the County's satisfaction.

Segal is a national benefits consulting firm and currently is the primary benefits consultant to the counties of Kern, Marin, Santa Clara, San Bernardino, the cities of Bakersfield, Napa, Benicia, and Los Angeles, as well as for the Los Angeles Unified School District and the State of Hawaii. Nationally, the firm provides consultant services to over 400 public sector entities. Based upon their reputation and the quality of work performed previously for the County. Segal has developed a trusting relationship with the County and with labor representatives and is a valuable business partner, whether presenting information as part of labor negotiations, or working on benefit analysis projects with the Joint Labor Management Benefits Committee (JLMBC).

The following outlines some of the primary services to be provided by Segal including: aggressively negotiating benefit premium costs with health plan vendors, consultation on all benefit programs, in depth analysis of current industry comparative cost trends in the public and private sectors, and information on industry best practices. Segal keeps the County appraised on all regional, State, and Federal legislative changes impacting benefits, and have provided the County with invaluable support and analysis of the impacts of the Federal Affordable Care Act. Segal performs actuarial analysis of the County's self-insured plans as well as the Other Post-Employment Benefits (OPEB) valuation. Segal staff also actively participates and provides support to the JLMBC. A complete Scope of Services is outlined in Attachment A.

Based upon the rating structure included in their proposal, we have negotiated a five year agreement from January 1, 2019 through December 31, 2023. Maximum fees payable under this agreement is up to $1,190,000 for benefits consulting, brokerage and actuarial services. All fees are outlined in Attachment B.

Prior Board Actions:

12/19/2017	Approved amendment extending term for one year
12/10/2013	Approved initial agreement with Segal Consulting
01/08/2013	Approved amendment extending term for six months and additional $150,000
05/22/2012	Approved amendment extending term for six months and additional $132,000
12/14/2010	Approved amendment extending term and additional $215,000
02/26/2008	Approved amendment for additional $65,000 actuarial services
01/08/2008	Approved initial agreement term 1/1/08 through 6/30/11, total contract $904,000

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

Maintaining competitive and affordable benefits meets the health needs of County employees, retirees, and their eligible dependents.

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses	245,000	235,000	235,000
Additional Appropriation Requested			
Total Expenditures	**245,000**	**235,000**	**235,000**
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other	245,000	235,000	235,000
Use of Fund Balance			
Contingencies			
Total Sources	**245,000**	**235,000**	**235,000**

Narrative Explanation of Fiscal Impacts:

Segal's proposal came in with a 4% reduction to projected annual costs over the current year's projected expenditures. Costs associated with benefit consulting and actuarial services provided through this agreement are budgeted in the Employee Benefits Administration Fund 51210, County Health Plan Fund 51215, and Other Post-Employment Benefits (OPEB) Fund 51605.

The Employee Benefits fund is funded by a per employee annual rate charged to GF and non-GF departments. Consulting support to the CHP is funded by employer and employee premiums, with the employer contributions paid by both GF and non-GF departments. Actuarial support to the OPEB fund is funded by 8.8% payroll employer contributions paid by both GF and non-GF departments.

The Segal Company

Scope of Services

01/01/2019 to 12/31/2023

1) General Services

General services apply to each of the three types of services for which proposals are submitted. They shall include, but are not limited to, the following:

- Develop a work plan with the County prior to the beginning of each fiscal year, including all requirements necessary to ensure sound program management and fiscal accountability.
- Maintain accessibility to staff and provide assistance and consultation as requested in a timely manner.

2) Benefit Consultation Services

Benefit Consultation Services shall include a comprehensive approach to the following without limitation:

- Thoroughly review each benefit program offered by the County and quickly develop a comprehensive understanding of all benefits provided to County employees and retirees.
- Monitor current claims activity for each program and provide semi-annual reports reflecting budget, paid claims, administrative expenses, loss ratio, and trends. Identify and promptly notify the County when unexpected claims may impact program costs and/or availability of coverage.
- Provide an annual assessment of the County's medical, dental, vision, life, and prescription drug programs. The assessment shall contain an in-depth analysis of current industry comparisons and cost trends from both public and private sector programs. The assessment will identify program inadequacies and problems, as well as offer remedial recommendations. Cost effectiveness and methodologies for increasing benefit values to plan participants must be addressed.
- Upon request, draft and review plan documents, annual enrollment material, summarize plan descriptions, and assist staff in document preparation.
- Provide information and recommendations on best practices relating to the administration of employee benefit programs in the public and private sectors.
- Identify and stay informed of all viable employee benefit options available in the County's immediate geographical area. Additionally, be generally informed as to what is offered by other public employers in California as well as industry trends.
- Continually research and stay abreast of local, state, and federal legislation. Provide regular updates and recommendations of any and all legislation that may impact

benefit programs for public employers in California. Further, timely notify and provide direction to the County regarding pertinent legislation.

- Participate in the Sonoma County Joint Labor Management Benefits Committee meetings.
- Conduct ad-hoc benefits research upon request.
- Consistently maintain professional and productive relationships with vendors and other contacts on the County's behalf.

3) Brokerage Services

Brokerage Services shall include a comprehensive approach to the following, without limitation:

- Lead and/or assist the County in marketing projects to select new vendors utilizing the County's purchasing and procurement practices. This process may include formal presentations to management, the Joint Labor Management Benefits Committee, the Board of Supervisors, and other employee organizations as necessary.
- Assist in obtaining and appointing new vendors and implementing new benefit programs.
- Assess reasonableness of any benefit rate adjustment and/or changes in contract or service provisions.
- Diligently and punctually negotiate reasonable renewal premium rates on the County's behalf.

4) Actuarial Services

Actuarial Services shall include a comprehensive approach to the following, without limitation:

- Prepare an annual actuarial analysis of the County Health Plan and any other self-insured benefit programs provided now or in the future by the County.
- Routinely research, analyze and recommend appropriate premium rate equivalents and reserves.
- Routinely research, analyze and diligently prepare statistical analyses and cost allocations.
- Conduct any and all necessary benefit actuarial evaluations in compliance with law, and accounting standards as established by the Governmental Accounting Standards Board (GASB) such as other post-employment benefits (OPEB) valuations.

- Annually provide an actuarial certification of credible coverage for Medicare Part D the County's prescription plans.

Attachment B

The Segal Company

Fee Schedule

01/01/2019 to 12/31/2023

1. Maximum Fees

For all services provided by the Contractor listed in Exhibit A, Scope of Services, specifically related to 1) General Services, 2) Benefit Consultation Services, 3) Brokerage Services and 4) Actuarial Services, the maximum fees payable under this agreement will not exceed a total of $1,190,000 for the period of January 1, 2019 to December 31, 2023.

A. Not to exceed $235,000 for 2019
B. Not to exceed $235,000 for 2020
C. Not to exceed $235,000 for 2021
D. Not to exceed $240,000 for 2022
E. Not to exceed $245,000 for 2023

2. Hourly Rates

The County will be charged on an hourly basis for services based on the Contractor's professional performing the work, as directed by County. The hourly rates are defined below:

Position	Segal Hourly Rates 01/01/2019 - 12/31/2021	Segal Hourly Rates 01/01/2022 - 12/31/2022	Segal Hourly Rates 01/01/2023 - 12/31/2023
Principle, Senior Vice President	$ 440	$ 455	$ 475
Consultant, Vice President	$ 350	$ 360	$ 375
Health Benefits Manager	$ 350	$ 360	$ 375

Title: Child Care Planning Council of Sonoma County Membership

Recommended Actions:

1. Approve the re-appointment to the Child Care Planning Council of Sonoma County for a two-year term beginning January 1, 2019, ending December 31, 2020 for the following members: Jason Riggs, Terry Ziegler, Missy Danneberg, Kathleen Kelley, Soledad Figueroa, Lisa Grocott, and Debbie Blanton.
2. Authorize the Director of Human Services to sign the required Certification Statement Regarding Composition of Local Planning Council Membership.

Executive Summary:

Background

The mission of the Child Care Planning Council of Sonoma County is to convene and inspire the community through collaboration, leadership, and advocacy to promote and plan for quality child care and development services for the benefit of all children (primarily birth to 12), their families, and Sonoma County.

The Child Care Planning Council was originally established in 1992 to meet the requirements mandated by the passage of Assembly Bill (AB) 2141, which created local child care and development planning councils to identify local priorities for child care and state preschool expansion funds. The passage of AB 1542, which established the CalWORKs program, also required the County Superintendent and the Board of Supervisors to designate a local child care planning council to establish priorities for state-funded child care and development services and to develop a comprehensive countywide plan for child care. It is this bill that connects CalWORKs, and the Sonoma County Human Services Department, to the Child Care Planning Council. On September 29, 1998, the County Superintendent of Schools and the Board of Supervisors designated the Child Care Planning Council of Sonoma County, which is staffed by the Sonoma County Office of Education.

Discussion:

The Council recommends the appointment and re-appointment of members that meet the legislated membership requirements to the Board of Supervisors and the County Superintendent of Schools to jointly appoint members to the local child care planning council in 5 categories of membership: 1) Consumers, 2) Child Care Providers, 3) Public Agency Representatives, 4) Community Representatives, and 5) Discretionary Appointees of the Board and the Superintendent.

The Child Care Planning Council bylaws allow up to 35 members. Current membership is 21 members. There are usually between 20-25 active members on the Council. As required, the Child Care Planning Council makes every effort to assure that the ethnic, racial and geographic composition is reflective of the county. The CCPC Membership Chair and Committee have been working hard over the last year to increase membership. Openings are posted on the Child Care Planning Council website and the County Boards and Commissions website. Additionally, community recruitment efforts are made on an ongoing basis via press releases, flyers and individual outreach. Members are appointed for two-year terms with half of the members' terms expiring each year.

The Board of Supervisors is requested to re-appoint the following members. These re-appointment recommendations have been made to and approved by the County Superintendent of Schools for the following members:

Jason Riggs, Executive Director of Extended Child Care, Child Care Consumer Seat
Terry Ziegler, Owner/Director of Mt. Taylor Children's Centers, Child Care Provider Seat
Missy Danneberg, Instructor, Sonoma State University and Santa Rosa Junior College, Community Seat
Kathleen Kelley, Early Learning Institute, Community Seat
Soledad Figueroa, River to Coast Children's Services, Discretionary Seat
Lisa Grocott, Community Action Partnership, Discretionary Seat
Debbie Blanton, SCOE Special Education Preschool, Public Agency Seat

The Council will have 13 openings for additional members after these re-appointments are approved.

The Board of Supervisors is also requested to authorize the Director of Human Services to sign the required Certification Statement Regarding Composition of Local Planning Council Membership. This is an annual report that is completed by the Child Care Planning Council and submitted to the California Department of Education.

Prior Board Actions:

November 13: Appoint Stella Gonzalez to the Child Care Planning Council of Sonoma County for a two-year term beginning November 13, 2018, ending December 31, 2020.
June, 2018: Appoint Renee Whitlock-Hemsouvanh to the Child Care Planning Council of Sonoma County and requested authorization for the Director of Human Services to sign the required Certification.
December, 2017: Appoint/reappoint members of the Child Care Planning Council of Sonoma County and requested authorization for the Director of Human Services to sign the required Certification.
September 19, 2017: Appoint/move members of the Child Care Planning Council of Sonoma County.
February 7, 2017: Reappoint members of the Child Care Planning Council of Sonoma County and requested authorization for the Director of Human Services to sign the required Certification Statement

regarding composition of Local Planning Council membership.
November 15, 2016: Appoint member to Sonoma County Child Care Planning Council
November 15, 2016: Accept Comprehensive 2016-2021 Child Care Plan
September 13, 2016: Appoint/move members of the Sonoma County Child Care Planning Council.
January 5, 2016: Appointed/reappointed members of the Sonoma County Child Care Planning Council and approved by-laws which established term of membership.
June 9, 2015: Approved Sonoma County Child Care Planning Council's Funding Priorities by Zip Code.
April 7, 2015: Passed resolutions recognizing Week of the Young Child.

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

The mission of the Child Care Planning Council of Sonoma County is to convene and inspire the community through collaboration, leadership and advocacy to promote and plan for quality child care and development for the benefit of all children (primarily birth to 12), their families and Sonoma County.

Title: Park Setback Interpretation for Cannabis Projects, ORD18-0009

Recommended Actions:

Adopt a Resolution Interpreting Public Parks as referenced in the Cannabis Land Use Ordinance as all existing Federal Recreation Areas, State Parks, Regional Parks, Community Parks, Neighborhood Parks, and Class I Bikeways as designated in the Sonoma County 2020 General Plan.

Executive Summary:

The proposed Resolution would interpret the term “public parks” in the Cannabis Land Use Ordinance to include all existing Federal Recreation Areas, State Parks, Regional Parks, Community Parks, Neighborhood Parks, and Class I Bikeways as designated in the Sonoma County General Plan 2020. This would require that outdoor and mixed light cultivation operations be setback 1,000 feet from any of these sensitive uses, with a potential reduction in the setback with a use permit.

Discussion:

On October 16, 2018, the Board of Supervisors adopted amendments to the Cannabis Land Use Ordinance (“Ordinance”). The Ordinance requires a setback for outdoor and mixed light (greenhouse) cultivation to sensitive uses, including a “school providing education to K-12 grades, a public park, childcare centers, or an alcohol or drug treatment facility.” The setback is 1,000 feet “measured in a straight line from the property line of the protected site to the closest property line of the parcel with the cannabis cultivation use.”

The Ordinance also includes a potential reduction to this setback, with a use permit. Sections 26-88-254(f)(6) and (8) state “this park setback may be reduced with a use permit when it is determined that an actual physical equivalent separation exists due to topography, vegetation or slope, that no offsite impacts will occur, and that the cannabis operation is not accessible or visible from the park.”

Staff's administrative interpretation of "public parks" included Federal Recreation Areas, State Parks, Regional Parks, Community Parks and Neighborhood Parks, but did not included Class I bikeways, also known as off road paved trails. However, at the public hearing on October 16, several Board members clarified that they considered Class I Bikeways to be linear parks and included within the definition of "public parks" as used in the Ordinance because the intent was to protect sensitive populations, environmental resources, and the public's use and enjoyment of such environmental resources.

The Cannabis Ad Hoc Committee (Supervisors Gore and Hopkins) requested staff to review the interpretation of "public park" in light of the General Plan, other relevant laws and policies, and the Board's legislative intent. Following that review, the Ad Hoc Committee and staff are bringing forward a Resolution interpreting public parks within the Cannabis Land Use Ordinance to include existing Class I Bikeways in addition to Federal Recreation Areas, State Parks, Regional Parks, Community Parks and Neighborhood Parks as designated in the General Plan. This would require outdoor and mixed light cultivation operations to comply with a 1,000 ft. setback with a potential reduction in the setback with a use permit.

Sonoma County General Plan

The General Plan recognizes Class I bikeways in two elements, the Circulation Element and the Open Space and Resource Conservation Element. They are considered transportation facilities that "*provide bicycle travel on an all-weather surface within a right-of-way that is for exclusive use by pedestrians, bicyclists and other non-motorized modes."* They are also recognized as a "*preferred facility for recreational activities, especially for children, inexperienced bicyclists, and people with disabilities. These bikeways also offer recreational opportunities for walkers, runners, equestrians, and many other users that prefer or require an off-road facility."*

Existing and proposed Class I Bikeways are designated on General Plan Figure OSRC-4. The Sonoma County Bicycle and Pedestrian Plan (adopted in 2010) provides a map showing the Bikeways distinguishing the existing and proposed Class I bikeways (page 30). The proposed interpretation would require a setback only from existing already constructed Class I Bikeways, not those listed and mapped as proposed.

Similarly, the Open Space and Resource Conservation Element designates existing parks as outdoor recreation areas on General Plan Figures OSRC-5a through 5i. The Public Facilities and Services Element also includes parkland needs and implementation measures and includes in the discussion all parklands in the County including Federal Recreation Areas, State Parks, Regional Parks, Community Parks, and Neighborhood Parks.

Thus the recommended interpretation of public parks is consistent with the General Plan and the Board's legislative intent.

Environmental Determination

This interpretation of the zoning code is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15061(b)(3) of the State CEQA Guidelines because it will not result in any direct or indirect physical change to the environment. The adoption of this interpretation is further exempt from CEQA review pursuant to Sections 15307 and 15308 of the State CEQA Guidelines as an action taken to assure the maintenance, restoration, enhancement, and protection of the environment and natural resources because the setbacks reduce potential impacts of cannabis cultivation and enhance protections of public parks.

Prior Board Actions:

October 16, 2018: Final adoption of the Cannabis Land Use Ordinance Amendments
August 28, 2018: Final adoption of the Cannabis Business Tax and Health Ordinance amendments.
August 7, 2018: A public hearing on the Cannabis Land Use Ordinance was held and straw votes were taken.
April 10, 2018: Resolution of Intention to update existing cannabis land use ordinance.
September 12, 2017: Approval of a Resolution to modify and extend the Temporary Code Enforcement Penalty Relief Program for Land Use Permits for Cannabis Operations.
July 18, 2017: Approval of the appointment of 20 members to serve on the Sonoma County Cannabis Advisory Group for a term of two years.
April 11, 2017: Approval of staffing and budgetary adjustments to implement the Cannabis Program, adoption of the 2017 Cannabis Ad Hoc Committee Charter, and approval of the Advisory Group Selection and Work Plan.
May 23, 2017: Approval of a Resolution establishing the Code Enforcement Temporary Penalty Relief Program.
December 20, 2016: Final adoption of Cannabis Land Use Ordinance.
December 13, 2016: Final adoption of Cannabis Business Tax Ordinance and Cannabis Health Ordinance.

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

Federal Recreation Areas, State Parks, Regional Parks, Community Parks, Neighborhood Parks, and Class I Bikeways, which function as linear public parks, contribute to the tourism economy, enhance the quality of life for County residents and visitors, conserve unique natural and cultural resources, and may be utilized by sensitive populations for recreation and enjoyment, and thus may be incompatible with outdoor and mixed light cannabis cultivation operations.

County of Sonoma
State of California

Item Number: ______________

Date: December 11, 2018

Resolution Number: ______________

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Interpreting "Public Parks" as referenced in the Sonoma County Zoning Code, Cannabis Land Use Ordinance (Section 26-88-254) as all existing Federal Recreation Areas, State Parks, Regional Parks, Community Parks, Neighborhood Parks, and Class I Bikeways as designated in the Sonoma County General Plan 2020

Whereas, on December 20, 2016, the Board of Supervisors adopted a series of ordinances to establish a comprehensive local program, to permit and regulate the complete supply chain of medical cannabis uses; and

Whereas, on July 5, 2017, the County of Sonoma began accepting permit applications for cannabis-related businesses in accordance with the newly adopted Medical Cannabis Land Use Ordinance; and

Whereas, on October 16, 2018, the Board of Supervisors adopted amendments to the Cannabis Land Use Ordinance to allow adult use cannabis uses, enhance neighborhood compatibility, add definitions and make other minor amendments; and

Whereas, the Cannabis Land Use Ordinance (Sonoma County Code Section 26-88-254) requires a setback of 1,000 feet between sensitive uses, including public parks, measured in a straight line from the property line of the protected site to the closest property line of the parcel with the cannabis cultivation use, with a potential reduction to the setback allowed with a use permit; and

Whereas, Class I Bikeways are recognized for recreational use within the Sonoma County General Plan; and

Whereas, Federal Recreation Areas, State Parks, Regional Parks, Community Parks, Neighborhood Parks, and Class I Bikeways, which function as linear public parks, contribute to the tourism economy, enhance the quality of life for County residents and visitors, conserve unique natural and cultural resources, and may be utilized by sensitive populations for recreation and enjoyment, and thus may be incompatible with outdoor and mixed light cannabis cultivation operations; and

Attachment A

Whereas, it was the intent of the Board of Supervisors in adopting a setback from public parks to protect these beneficial sensitive uses from potential incompatibility with outdoor and mixed light cannabis cultivation operations; and

Whereas, this interpretation of the zoning code is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15061(b)(3) of the State CEQA Guidelines because it will not result in any direct or indirect physical change to the environment. The adoption of this interpretation is further exempt from CEQA review pursuant to Sections 15307 and 15308 of the State CEQA Guidelines as an action taken to assure the maintenance, restoration, enhancement, and protection of the environment and natural resources because the setbacks reduce potential impacts of cannabis cultivation and enhance protections of public parks; and

Now, Therefore, Be It Resolved that the Board of Supervisors finds that the foregoing recitals are true and correct; and

Be It Further Resolved that the Board of Supervisors makes the following findings concerning the interpretation of the zoning code:

1. For purposes of the Cannabis Land Use Ordinance, “public parks” includes existing Federal Recreation Areas, State Parks, Regional Parks, Community Parks, and Neighborhood Parks, and Class I Bikeways as designated in the Sonoma County General Plan 2020 and as shown within the Sonoma County Bicycle and Pedestrian Plan. Outdoor and mixed-light cannabis cultivation shall be subject to setbacks from these sensitive uses as set forth in Sonoma County Code Section 26-88-254(f)(6) & (8). Setbacks shall not be applied from “proposed” parklands and Class I Bikeways that have not yet been constructed.

Be It Further Resolved that the Board of Supervisors designates the Clerk of the Board as the custodian of the documents and other materials which constitute the record of proceedings upon which the decision herein is based. These documents may be found at the office of the Clerk of the Board, 575 Administration Drive, Room 100-A, Santa Rosa, California 95403; and

IN REGULAR SESSION of the Board of Supervisors of the County of Sonoma, introduced, passed, and adopted this eleventh day of December, 2018, on regular roll call of the members of said Board by the following vote:

Supervisors:

Title: Replacement Non-Prime Land Conservation Act Contract, Justin M. Faggioli, Trust and Sandra D. Donnell, Trust.

Recommended Actions:

Adopt a Resolution to (a) rescind two existing Non-Prime (Type II) Land Conservation Act contracts on 106.00 acres, and (b) authorize the Chair of the Board of Supervisors to execute a single replacement contract on 106 acres located at 28750 Arnold Drive, Sonoma, CA; PRMD File No. AGP15-0012; APN 068-190-021; Supervisorial District 1.

Executive Summary:

The Sonoma County's Land Conservation Act program assists in the preservation of agricultural and open space lands throughout Sonoma County. In exchange for retaining land in agriculture and/or open space, the landowner receives reduced property taxes. The County has four contract-types available: a) Prime contracts for crop agriculture with a 10 acre minimum parcel size requirement; b) Non-Prime contracts for grazing or hay production with a 40 acre minimum; c) Open Space contracts with a 40-acre minimum, and d) Hybrid contracts with a mix of all of the above, also with a 40-acre minimum.

This action is to replace an existing Non-Prime Land Conservation Act contract with a new individual non-prime (Type II) contract on 106 acres with 68.4 acres currently in use for hay production located off of Arnold Drive (Highway 121). Staff confirms the hay production operation meets the parcel size and income requirements of the County's Uniform Rules for non-prime agricultural use and is eligible for approval of a new replacement Land Conservation Act contract.

Discussion:

Land Conservation Act Program

The Board of Supervisors' 2011 update of the *Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones* ("Uniform Rules") allows the County to execute either a Prime or Non-Prime contract for any eligible land located in an established Preserve. The 2011 Uniform Rules provide that a landowner and the County may mutually agree to rescind an existing land conservation contract and simultaneously enter into a replacement contract or contracts, where the replacement contract or contracts would enforceably restrict the same land. The updated rules also provide that the County implement use of a Land Conservation Plan as part of the required contract for qualifying agricultural uses. Land Conservation Plans show locations of various agricultural, open space, permitted, and compatible land uses on contracted land. Future changes to the Land Conservation Plan may be approved by the Director of Permit Sonoma and recorded on title of the subject parcel.

Background

In 1972, the County entered into a Non-Prime (Type II) Land Conservation Contract on the subject land which will be rescinded and replaced by a new Non-Prime contract under the current proposal. The original contract is located in Agricultural Preserve 2-345 and was recorded on February 14, 1972, under Book No. 2603, Page 126, in the Official Records of the Sonoma County Recorder. No expansion of the exiting agricultural preserve is required.

Zoning Designation

The subject parcel is zoned LEA 100 (Land Extensive Agriculture) with a 100 acre density requirement. Applicable combining zones include Z (Accessory Dwelling Unit Exclusion), F2 (Flood Plain), G (Geological Hazard), BH (Biotic Habitat), RC 50/25 (Riparian Corridor, 50 and 25 foot setbacks), SR (Scenic Resources), and VOH (Valley Oak Habitat).

Contract Requirements

Uniform Rules require for approval of a Non-Prime (Type II) Land Conservation Act contract that an eligible parcel be located within an existing Agricultural Preserve, a single legal parcel of at least 40 acres, and within an agricultural zone. The Uniform Rules require that at least 50 percent of the property be in agricultural use and generate on an annual basis no less than $2,000 gross total income per farm operation and $2.50 gross income per acre of production. Lastly, remaining non-agricultural areas may support only compatible uses limited to no more than 15 percent of the property, up to a maximum of five acres.

Contract Compliance

The subject property qualifies for approval of an individual replacement Non-Prime (Type II) Land Conservation contact as supported under Findings (a) through (h) in the attached Resolution (Attachment A). The Findings are summarized below.

- The subject parcel is within an existing agricultural preserve (2-345) and confirmed to be a separate legal parcel consisting of 106 acres and meeting the minimum 40 acre size requirement, identified by Assessor’s Parcel Number 068-190-021;
- The property is zoned LEA (Land Extensive Agriculture) with a 100 acre density compatible with agricultural land uses;
- Approximately 68.4 acres (64.5%) of the total parcel is devoted to commercial hay production and meets the 50 percent requirement for qualifying agricultural use;
- The existing hay production operation generates over $14,000 annually and meets the minimum $2,000 total gross annual income per farm operation and the $2.50 gross income per acre of production requirements set by the Uniform Rules.
- The remaining 37.6 acres is undeveloped.

Staff Recommendation:

Staff recommends the Board approve the request to rescind and replace the existing Non-Prime (Type II) Land Conservation Act Contract with a new replacement Non-Prime contract on a separate legal parcel of 106 acres in size within an Agricultural Preserve 2-345.

Prior Board Actions:

On December 13, 2011, the Board approved the Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones (Resolution No. 11-0678).

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

Agricultural Preserves and Land Conservation Act Contracts support agriculture and agribusiness by assisting in the preservation of agricultural land through the incentive of reduced property taxes in exchange for retaining the land in agricultural production.

Fiscal Summary

Expenditures	**FY 16-17 Adopted**	**FY 17-18 Projected**	**FY 18-19 Projected**
Budgeted Expenses			
Additional Appropriation Requested			
Total Expenditures			
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other			
Use of Fund Balance			
Contingencies			
Total Sources			

Narrative Explanation of Fiscal Impacts:

Approval of replacement Land Conservation Act Contract(s) as proposed means the owner will continue to pay a reduced property tax assessment. On October 24, 2018, the County Assessor's Office verified that for contracted lands undergoing replacement from one contract to another of the same or of similar type, such as proposed, no change in property tax assessments is generally anticipated.

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Approving The Request by Justin M. Faggioli, Trust and Sandra D. Donnell, Trust To Rescind The Original Contract And Replace it With a New Replacement Land Conservation Act Contracts And Attached Land Conservation Plan; And Authorize The Chair To Execute The New Land Conservation Act Contract And Land Conservation Plans For Non-Prime Agricultural Land, Located At 28750 Arnold Drive; APN 068-190-021.

Whereas, a request has been made by the property owners, Justin M. Faggioli and Sandra D. Donnell, to authorize the Chair to rescind an existing Non-Prime Land Conservation Act contract on 106.0 acres, and execute a single replacement contract and attached land conservation plan for 68.4 acres of non-prime agricultural use on the same 106 acres, located at 27850 Arnold Drive, Sonoma, CA; Permit Sonoma File Nos. AGP15-0012; APN 068-190-021; Supervisorial District 1; and,

Whereas, the County previously entered into two Land Conservation Contracts with Owner(s) or Owner(s)' predecessors in interest, which were recorded on February 14, 1972, and is identified by Book No. 2603, Page 126, in the Official Records of the Sonoma County Recorder;

Whereas, on December 13, 2011, the Board of Supervisors adopted the updated *Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones (Uniform Rules)* (Resolution No. 11-0678); and,

Whereas, consistent with the *Uniform Rules*, County Counsel has revised the Land Conservation Act Contract form, which now incorporates a Land Conservation Plan identifying the various uses of the contracted land. Future changes to identified land uses require amendment of the Land Conservation Plan. The Board, pursuant to Resolution No. 11-0678, has authorized the Director of Permit Sonoma to approve amendments to executed Land Conservation Plans; and,

Whereas, the Board of Supervisors finds that the subject parcel meets the current requirements of the County's Uniform Rules and is eligible to receive a replacement Non-Prime Land Conservation Act Contract; and,

Now, Therefore, Be It Resolved, that the Board of Supervisors makes the following specific findings concerning the requirements for the replacement Non-Prime Land Conservation Act Contract ("Contract"):

a. Existing Agricultural Preserve. The subject property is located within an existing agricultural preserve (Preserve No. 2-345) as required by the Uniform Rules.

b. Single Legal Parcel. The land proposed for contract replacement is confirmed by deed description as a single legal parcel of 106 acres, identified by Assessor's Parcel Number 068-190-021.

c. Compatible Zoning. Land Extensive Agriculture (LEA) zoning with a 100 acre density limitation currently restricts the subject parcel and is compatible with agricultural land uses.

d. Minimum Parcel Size. The minimum requirement for parcel size for Non-Prime agricultural land is 40 acres under the Uniform Rules. The subject property is 106 acres and therefore conforms to the minimum parcel size requirement.

e. Existing Agricultural Use. In Sonoma County, this means that at least 50 percent of the land is used for qualifying agricultural purposes. The 106 parcel is currently in non-prime agricultural use with 68.4 acres devoted to commercial hay production. The hay production use accounts for 61.5 percent of the total property and therefore meets the 50 percent requirement.

f. Minimum Income. For a Non-Prime (Type II) Land Conservation Act contract, the minimum income requirement for commercial hay production is $2,000.00 per farm operation and $2.50 per gross acre of production. The existing hay production operation annually generates a gross total income of over $14,000 and therefore meets the per operation and per production acre requirements for non-prime agricultural use under the Uniform Rules.

g. Compatible Uses. Non-agricultural uses on contracted land must be listed in the Uniform Rules as compatible uses which are limited to occupying no more than 15 percent of the total property, up to a maximum of five acres, excluding public roads, private access roads, and driveways. The undesignated 37.6 acres remaining on the subject property is currently undeveloped and contains no existing buildings or related improvements.

h. Non-Prime Agricultural Land. Parcels under Non-Prime Land Conservation Act Contracts must devote at least 50 percent of the land to Non-Prime Agricultural land uses. Non-prime agricultural land as defined by County Uniform Rules includes commercial hay production meeting the 50 percent requirement and minimum income qualifications. The subject parcel devotes 68.4 acres of the total property to commercial hay production land which has produced the required minimum income for the last five years and is therefore, considered in use as Non-Prime Agricultural Land under the County's Uniform Rules.

Be It Further Resolved, that the Board of Supervisors hereby grants the request by Justin M. Faggioli and Sandra D. Donnell to rescind and replace the original Non-Prime (Type II) Land Conservation Act contract with a new Non-Prime Land Conservation Act contract on 106.00 acres located within Agricultural Preserve 2-345, and authorize the Chair of the Board to sign a new Non-Prime (Type II) Land Conservation Act Contract for APN 068-190-021.

Be It Further Resolved, that the Clerk of the Board of Supervisors is hereby instructed to record within 20 days and no later than December 31, 2018 (1) this Resolution and Attachment A (the Agricultural Preserve Map) and (2) the associate Land Conservation Act Contract and attached Land Conservation Plan with the Office of the Sonoma County Recorder.

Be It Further Resolved, that the Board of Supervisors finds that the project described in this Resolution is exempt from the requirements of the California Environmental Quality Act by virtue of Section 15317 Class 17 of Title 14 of the California Code of Regulations (CEQA Guidelines) in that the project is within an established Agricultural Preserve and is a replacement of a Land Conservation Act Contract.

Be It Further Resolved, that the Board of Supervisors designates the Clerk of the Board as the custodian of the documents and other material which constitute the record of proceedings upon which the decision herein is based, including the original executed Contract and Land Conservation Plan. These documents may be found at the office of the Clerk of the Board, 575 Administration Drive, Room 100-A, Santa Rosa, California 95403.

LAND CONSERVATION CONTRACT

This Contract is made by and between Justin M. Faggioli, Trustee of the Justin M. Faggioli 2012 Irrevocable Trust, dated December 14, 2012, as to an undivided fifty percent (50%) interest; and Sandra D. Donnell, Trustee of the Sandra D. Donnell 2012 Irrevocable Trust, dated December 14, 2012, as to an undivided fifty percent (50%) interest ("Owner(s)") and the County of Sonoma, a political subdivision of the State of California ("County"), and is dated for convenience as __________________.

RECITALS

Whereas County previously entered into a Land Conservation Contract with Owner(s) or Owner(s)' predecessors in interest, which recorded on February 14, 1972, and is identified by Book No. 2603, Page 126, in the Official Records of the Sonoma County Recorder, ("Original Contract"); and

Whereas Owner(s) own(s) certain real property ("Subject Property") located within Sonoma County and presently identified by Assessor's Parcel Number(s): 068-190-021, and more particularly described in the legal description attached to this Contract at Exhibit "A"; and

Whereas Both Owner(s) and County desire to limit/continue to limit the use of the Subject Property to agricultural, open space, and compatible uses in order to discourage premature and unnecessary conversion of the Subject Property to uses incompatible with agricultural and/or open space use, including urban uses, recognizing that the Subject Property has substantial public value as agricultural or open space land and that the preservation of the Subject Property in agricultural production or open space constitutes an important physical, social, aesthetic, and economic asset to County and the State of California; and

OPERATIVE PROVISIONS

Now, therefore, in consideration of the foregoing recitals and the mutual promises contained herein, the substantial public benefits to be derived therefrom, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Owner(s) and County agree as follows:

A. RESCISSION OF ORIGINAL CONTRACT

The Original Contract is hereby rescinded as of the date that this Contract takes effect as to the Subject Property. If this Contract does not become effective, then the Original Contract shall remain in full force and effect, as to the Subject Property.

B. REPLACEMENT CONTRACT

1. PURPOSE. This Contract is entered into pursuant to the provisions of the California Land Conservation Act of 1965, Government Code section 51200 et seq. ("Act"), and is subject to all of the provisions of the Act as they may be amended from time to time.

2. SUBJECT PROPERTY.

(a) Owner(s) own(s) the Subject Property, located at 28750 Arnold Drive, Sonoma, and more particularly described in the legal description attached to this Contract as Exhibit "A", and incorporated herein by reference.

(b) The Subject Property is located within established Agricultural Preserve 2-345.

(c) The Subject Property is approximately 106 acres total and comprised of one (1) legal parcel.

3. TERM. This Contract shall be effective on recordation, and shall remain in effect for a term of 10 years. This Contract shall be automatically renewed for a full term on December 31st at the end of each calendar year, unless a Notice of Non-renewal is recorded as provided in Government Code section 51245 and the County's Uniform Rules for Agricultural Preserves and Farmland Security Zones ("Uniform Rules"), adopted by County Board of Supervisor's Resolution No.11-0678 pursuant to Government Code section 51231, -- to the end that at all times during this Contract, there shall be a 10-year term of restriction unless a Notice of Non-renewal has been recorded.

4. REGULATORY COMPLIANCE & RESTRICTIONS ON USE. During the term of this Contract, and all renewals and extensions thereof, the Subject Property shall not be used for any purpose other than (1) "agricultural use," or "open space use," as those phrases are defined by the Act, and (2) any use determined by County to be a "compatible use" defined and enumerated in the Uniform Rules and shall at all times be in compliance with the Uniform Rules as they may be amended from time to time.

5. LAND CONSERVATION PLAN. The use of the Subject Property shall at all times conform to the Land Conservation Plan, attached to this Contract as Exhibit "B", and made a part of this Contract. If an amendment to the Land Conservation Plan is approved by County and recorded, the amended Land Conservation Plan shall be deemed automatically incorporated into the Contract as though fully set forth herein without the need for a contract amendment, upon the renewal of the Contract.

6. UNIFORM RULES & FEES. Owner(s) and County agree that the Uniform Rules, as they now exist or as they may be amended from time to time, are incorporated by

reference into this Contract as though set out in full and shall be a part of this Contract upon execution and each renewal of this Contract. Owner(s) agree(s) to comply with the Uniform Rules and agree(s) to pay all fees established by County's Board of Supervisors, if any, for the administration of County's agricultural preserve program, and for the processing of applications required by the Uniform Rules.

7. PLANNING AND ZONING. The provisions of this Contract are not intended to limit or supersede the planning and zoning powers of County.

8. CANCELLATION. This Contract may not be cancelled, except pursuant to Government Code sections 51280 through 51287, and the Uniform Rules.

9. RESCISSION. This Contract may not be rescinded, except pursuant to the provisions of the Act and the Uniform Rules, and upon the simultaneous replacement of this Contract with a replacement contract, open space easement, agricultural conservation easement, or other equivalent restriction as allowed by the Act and state law. County may require the rescission and simultaneous replacement of this Contract with a replacement contract as a condition of any proposed subdivision or lot line adjustment affecting the boundaries of the Subject Property.

10. EMINENT DOMAIN. If any action in eminent domain for the condemnation of any land described in this Contract is filed after the execution of this Contract, or if any portion of the Subject Property is acquired in lieu of condemnation, then the provisions of Government Code section 51295 apply.

11. SUCCESSORS IN INTEREST. This Contract, its terms and restrictions, shall run with the land described herein and upon division, to all parcels created therefrom, and shall be binding upon and shall inure to the benefit of all heirs, successors, and assigns of Owner(s). This Contract shall be transferred from County to a succeeding city or a county acquiring jurisdiction over all or part of the Subject Property, except that a succeeding city may opt not to succeed to the rights, duties, and powers of the County under this Contract if the requirements of Government Code section 51243 .5 are met.

12. CERTIFICATE OF COMPLIANCE PARCELS. Owner(s) agree(s) not to apply for or obtain recognition of Certificate of Compliance parcels for all or any portion of the Subject Property for the duration of this Contract, without first obtaining the approval of County's Board of Supervisors, as provided in the Uniform Rules, unless a Notice of Non-Renewal has been recorded for the Contract and there are no more than three years remaining on the Contract's term. County may require replacement contracts for recognized Certificate of Compliance parcels.

13. ENFORCEABLE RESTRICTION. Owner(s) and County intend that the terms, conditions, and restrictions of this Contract conform to the Act, as amended, and that this Contract qualify as an enforceable restriction under the provisions of Revenue and Taxation Code sections 421 through 429, inclusive, and within the meaning of California Constitution, article XIII, section 8.

14. REMEDIES FOR BREACH.

(a) This Contract may be enforced by County in an action filed in the Sonoma County Superior Court for the purpose of compelling compliance or restraining any breach or threatened breach thereof, after providing notice to Owner(s). The notice shall contain a general description of the condition claimed to by County to be a violation and shall contain a reasonable and specific cure period during which the violation is to cease and the Subject Property is to be restored to the condition that existed prior to the violation. Owner(s) agree(s) that County's remedies at law for any violation of the terms of this Contract are inadequate and that County shall be entitled to the injunctive relief described herein, both prohibitative and mandatory, in addition to such other relief, including damages, to which County may be entitled, including specific performance of the terms of this Contract, without the necessity of proving either actual damages or the inadequacy of otherwise available legal remedies.

(b) A breach of this Contract that constitutes a violation of the Sonoma County Zoning Code may be enforced by County pursuant to Chapter 1 of the Sonoma County Code.

(c) Without altering the provisions of paragraph 8 (Cancellation), a breach of this Contract that constitutes material breach under Government Code section 51250 may be enforced by County or the State of California pursuant to Government Code section 51250, if the requirements of that Section are met.

(d) If Owner(s) breach(es) this Contract, Owner(s) shall pay County one-half percent (1/2 %) of the restricted assessed value of the land subject to this Contract per day for each day the Contract is in breach as liquidated damages. It is understood and agreed that damages for breach of this Contract by Owner(s) are, and will continue to be, impracticable and extremely difficult to ascertain and determine. Execution of this Contract shall constitute agreement by County and Owner(s) that one-half percent (1/2 %) of the restricted assessed value of the land is the actual damage to County and the general public caused by breach of this Contract by Owner(s), and that such sum is liquidated damages and shall not be construed as a penalty. No damages shall be recoverable if the Owner(s) remedies or has commenced and thereafter diligently pursues such action required to remedy any breach or material breach within sixty (60) days after the date written notice of said breach or material breach is sent to Owner(s) by County. This provision does not impair County's ability to enforce this Contract by injunction or specific performance.

(e) The remedies set forth in this paragraph 14 are not exclusive and are not intended to displace any other remedies available to either party as provided by this Contract or any applicable local, state or federal law.

15. NO WAIVER. Enforcement of the terms of this Contract shall be at the sole discretion of County, or where applicable the State of California, and any forbearance by County or State to exercise its rights under this Contract in the event of any violation or threatened violation by Owner(s) of any term of this Contract shall not be deemed or construed to be a waiver by County or State of such term or of any subsequent violation or threatened violation of the same or any other terms of this Contract. Any failure by County or State to act shall not be deemed a waiver or forfeiture of County's or State's right to enforce any and all of the terms of this Contract in the future.

16. CONSIDERATION. Owner(s) shall not receive any payment from County in consideration of the obligations imposed by this Contract. The parties recognize and agree that the consideration for the execution of this Contract is the substantial public benefit to be derived from this Contract and the advantage that will accrue to Owner(s) as a result of any reduction in the assessed value of the Subject Property due to the imposition of the limitations on the use of the Subject Property contained in this Contract.

17. NOTICE. Notices required to be given under this Contract, or as may otherwise be required by law in connection with the administration of this Contract, shall be made by personal service, or by first-class United States mail, to the parties as follows:

(a) To Owner(s) or successor(s) in interest of Owner(s), at the mailing address shown on the most recent assessment roll for the Subject Property; and

(b) To County, c/o the Clerk of the Board of Supervisors, 575 Administration Drive, Suite 100A, Santa Rosa, California 95403.

IN WITNESS WHEREOF, Owner(s) and County have executed this Contract as of the day and year set forth above.

EXHIBIT "A"

The real property which is the subject of this CONTRACT is situated within agricultural preserve 2-345 as shown by map thereof recorded in the November 9, 1971, preserve map book number 4, page 4, in the Office of the County Recorder of Sonoma County, California, and said real property is more particularly described as follows:

See Next Page for Legal Description

LEGAL DESCRIPTION

EXHIBIT A

The land referred to herein below is situated in the Unincorporated Area, County of Sonoma, State of California, and is described as follows:

TRACT ONE: (BEING LOT 1)

PARCEL ONE:

BEING A PORTION OF THE LAND OF O. D. DONNELL, JR.,AS DESCRIBED IN THAT DEED RECORDED IN BOOK 540 OF OFFICIAL RECORDS, PAGE 422, SONOMA COUNTY RECORDS, AND BEING A PORTION OF FIELD 4 AS SHOWN ON THAT MAP ENTITLED "LAKEVILLE STOCK FARMS" FILED IN BOOK 50 OF MAPS, PAGES 11, 12 AND 13,SONOMA COUNTY RECORDS, SAID PORTION BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT THE SOUTHWESTERLY CORNER OF FIELD 4 AS SHOWN ON THE ABOVE MENTIONED MAP, SAID CORNER MARKING THE EASTERLY LINE OF THE RIGHT-OF-WAY OF THE NORTHWESTERN PACIFIC RAILROAD COMPANY AS DESCRIBED IN THAT DEED RECORDED IN BOOK 82 OF DEEDS AT PAGE 103, SONOMA COUNTY RECORDS; THENCE ALONG SAID EASTERLY LINE NORTH 24 DEGREES 55 MINUTES 30 SECONDS EAST 584.9 FEET (r); THENCE ALONG A CURVE TO THE LEFT HAVING A CENTRAL ANGLE OF 19 DEGREES 50 MINUTES 00 SECONDS (c), A RADIUS OF 1472.69 FEET (r), AND A LENGTH OF 509.78 FEET(c) (DEED 510.0 FEET); THENCE NORTH 5 DEGREES 05 MINUTES 30 SECONDS EAST 545.00 FEET (r); THENCE ALONG A CURVE TO THE RIGHT HAVING A CENTRAL ANGLE OF 24 DEGREES 54 MINUTES 18 SECONDS (c), A RADIUS OF 1597.38 FEET (r), AND A LENGTH OF 694.34 FEET (c) TO A POINT WHICH BEARS NORTH 44 DEGREES 13 MINUTES 41 SECONDS WEST (m) FROM A SET IRON PIPE, SAID POINT BEING HEREINAFTER REFERRED TO AS POINT "E";THENCE LEAVING SAID RIGHT-OF-WAY LINE SOUTH 44 DEGREES 13 MINUTES 41 SECONDS EAST (m), 27.43 FEET (c) TO SAID IRON PIPE; THENCE CONTINUING SOUTH 44 DEGREES 13 MINUTES 41 SECONDS EAST 566.38 FEET (m) TO A SET IRON PIPE; THENCE SOUTH 82 DEGREES 08 MINUTES 39 SECONDS EAST 593.23 FEET (m) TO A SET IRON PIPE; THENCE CONTINUING SOUTH 82 DEGREES 08 MINUTES 39 SECONDS EAST (m), 56.60 FEET (c) TO THE NORTHWESTERLY LINE OF THE LANDS OF THOMAS VELLA AND ZOLITA VELLA AS DESCRIBED IN THAT QUITCLAIM DEED RECORDED IN BOOK 1827 OF OFFICIAL RECORDS AT PAGE 364, SONOMA COUNTY RECORDS; THENCE ALONG SAID NORTHWESTERLY LINE SOUTH 00 DEGREES 10 MINUTES 23 SECONDS WEST 753.72 FEET (m) (DEED SOUTH 00 DEGREES 35 MINUTES 10 SECONDS WEST); THENCE SOUTH 32 DEGREES 06 MINUTES 23 SECONDS WEST 706.85 FEET (m) (DEED SOUTH 32 DEGREES 31 MINUTES 10 SECONDS WEST 706.85 FEET); THENCE SOUTH 32 DEGREES 40 MINUTES 47 SECONDS EAST 234.16 FEET (m) (DEED SOUTH 32 DEGREES 16 MINUTES EAST 234.16 MINUTES EAST 234.16 FEET); THENCE SOUTH 68 DEGREES 44 MINUTES 47 SECONDS EAST 796.26 FEET (m) (DEED SOUTH 68 DEGREES 20 MINUTES EAST 796.26 FEET) THENCE NORTH 89 DEGREES 35 MINUTES 13 SECONDS EAST (m), 431.10 FEET (c) (DEED WEST 460.57 FEET) TO THE EASTERLY LINE OF SAID FIELD 4; THENCE SOUTH 42 DEGREES 13 MINUTES 00 SECONDS EAST (r), 159.63 FEET (c) (DEED SOUTH 42 DEGREES 13 MINUTES 00 SECONDS EAST 156.8 FEET); THENCE SOUTH 21 DEGREES 28 MINUTES 00 SECONDS EAST 123.20 FEET (r); THENCE SOUTH 9 DEGREES 54 MINUTES 00 SECONDS WEST 562.00 FEET (r); THENCE SOUTH 29 DEGREES 44 MINUTES 00 SECONDS WEST 305.30 FEET (r); THENCE SOUTH 58 DEGREES 14 MINUTES 00 SECONDS WEST 324.60 FEET (r); THENCE SOUTH 57 DEGREES 58 MINUTES 00 SECONDS WEST 356.30 FEET (r); THENCE SOUTH 66 DEGREES 47 MINUTES 00 SECONDS WEST 245.60 FEET (r); THENCE NORTH 33 DEGREES 23 MINUTES 00 SECONDS WEST 529.20 FEET (r); THENCE NORTH 71DEGREES 04 MINUTES 00 SECONDS WEST 184.11FEET (r); THENCE NORTH 5 DEGREES 06 MINUTES 00 SECONDS EAST 545.41 FEET (r); THENCE NORTH 65 DEGREES 26 MINUTES 00 SECONDS WEST 1426.10 FEET (r) TO THE TRUE PINT OF BEGINNING.

ALL SET IRON PIPES ARE 1/2 INCH X 30-INCHES AND ARE TAGGED LS 4483.

EXHIBIT A
(Continued)

PARCEL TWO:

AN EASEMENT FOR ROADWAY AND PUBLIC UTILITY PURPOSES, SAID EASEMENT BEING 60 FEET IN WIDTH AND LYING 60 FEET SOUTHEASTERLY AND NORTHEASTERLY OF THE FOLLOWING DESCRIBED LINE:

BEGINNING AT THE ABOVE MENTIONED POINT "E"; THENCE ALONG THE SOUTHEASTERLY LINE OF THE ABOVE MENTIONED RAILROAD RIGHT-OF-WAY ALONG A CURVE TO THE RIGHT HAVING A CENTRAL ANGLE OF 21 DEGREES 46 MINUTES 50 SECONDS (c), A RADIUS OF 1597.38 FEET (r), A LENGTH OF 507.23 FEET (c); THENCE NORTH 38 DEGREES 13 MINUTES 00 SECONDS WEST 80.00 FEET (r) TO A POINT ON THE WESTERLY LINE OF SAID RIGHT-OF-WAY, SAID POINT MARKING THE SOUTHEASTERLY CORNER OF FIELD 10 OF THE ABOVE MENTIONED MAP; THENCE ALONG THE SOUTHERLY LINE OF SAID FIELD NORTH 56 DEGREES 11 MINUTES 50 SECONDS WEST 420.83 FEET (c) (DEED NORTH 56 DEGREES 45 MINUTES WEST 417.81 FEET) TO A POINT ON THE EASTERLY LINE OF THE LANDS OF THE STATE OF CALIFORNIA AS DESCRIBED IN THAT DEED RECORDED IN BOOK 397 OF DEEDS AT PAGE 216, SONOMA COUNTY RECORDS, SAID POINT MARKING THE SOUTHWESTERLY CORNER OF FIELD 10, SAID POINT ALSO MARKING THE TERMINATION OF THE LINE HEREIN DESCRIBED. THE SIDELINE OF THIS EASEMENT IS TO EXTEND OR SHORTEN TO CONFORM TO PROPERTY LINES.

PARCEL THREE:

A RIGHT-OF-WAY FOR GENERAL ROAD PURPOSES OVER AND ALONG THE EXISTING PRIVATE ROAD BETWEEN FIELDS 6 AND 7 AND EXTENDING FROM THE EASTERLY LINE OF THE STATE HIGHWAY, EASTERLY TO THE WESTERLY LINE OF THE NORTHWESTERN PACIFIC RAILROAD.

PARCEL FOUR:

AN EASEMENT FOR A PIPELINE ACROSS FIELD 7 AS REFERRED TO IN THE ABOVE MENTIONED DEED TO
O.D. DONNELL, JR. SUCH PIPE TO BE BURIED BELOW PLOW DEPTH AND THE TRENCHES FILLED TO GRADE.

PARCEL FIVE:

SUCH RIGHTS AS MAY HAVE BEEN CONVEYED TO O. D. DONNELL, JR.,TO CROSS THE RIGHT-OF-WAY OF THE NORTHWESTERN PACIFIC RAILROAD BETWEEN FIELDS 10 AND 9, AND BETWEEN FIELDS 10 AND 4, AND JOINT USE OF THAT INTO FIELD 4 FROM THE LANE BETWEEN FIELDS 6 AND 7.

EXCEPTING FROM TRACT ONE (BEING LOT 1) PARCEL ONE ABOVE DESCRIBED THE FOLLOWING:

ALL THAT PORTION,IF ANY, OF THE LANDS OF THOMAS VELLA AND ZOLITA VELLA AS DESCRIBED IN THE QUITCLAIM DEED RECORDED JUNE 5, 1961,IN BOOK 1827 OF OFFICIAL RECORDS AT PAGE 364, SONOMA COUNTY RECORDS.

AND

ALL THAT PORTION,IF ANY, LYING OUTSIDE OF THE BOUNDARIES OF THE MAP ENTITLED "LAKEVILLE STOCK FARMS",FILED IN BOOK 50 OF MAPS AT PAGE 11,SONOMA COUNTY RECORDS.

A.P. No.: 068-190-021

EXHIBIT "B"

LAND CONSERVATION PLAN

EXHIBIT "B"

This Land Conservation Plan is made by and between Justin M. Faggioli, Trustee of the Justin M. Faggioli 2012 Irrevocable Trust, dated December 14, 2012, as to an undivided fifty percent (50%) interest; and Sandra D. Donnell, Trustee of the Sandra D. Donnell 2012 Irrevocable Trust, dated December 14, 2012, as to an undivided fifty percent (50%) interest ("Owner(s)") and the County of Sonoma, a political subdivision of the State of California ("County"), and is hereby incorporated by reference into the Land Conservation Contract to which it is attached as though fully set forth therein ("Contract").

1. PURPOSE. The purpose of this Land Conservation Plan is to identify the approximate location and acreage of designated uses to which the Subject Property is or may be used during the term of the Land Conservation Contract consistent with the terms of the Land Conservation Contract, the Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones ("Uniform Rules"), and the California Land Conservation Act (Government Code section 51200 et seq.), as they now exist, or as they may be amended from time to time.

2. DEFINITIONS.

a. "Subject Property," shall have the same meaning as the term "Subject Property," as used in the Contract.

b. "Prime Agricultural Use," means the use of "Prime Agricultural Land," for one or more "Agricultural Use," as those phrases are defined in the Uniform Rules.

c. "Non-Prime Agricultural Use," means the use of "Non-prime Agricultural Land," for one or more "Agricultural Use," as those phrases are defined in the Uniform Rules.

d. "Open Space Use," means the use of "Open Space Land for an "Open Space Use," as those phrases are defined in the Uniform Rules.

e. "Compatible Use," shall have the same meaning as the term "Compatible Use," as used in the Uniform Rules.

f. "Undesignated Area," means portion of land under the Contract that is vacant and potentially available for any qualifying agricultural and/or compatible use, consistent with the terms of the Contract, the Uniform Rules, and the Land Conservation Act, as they now exist or as they may be amended from time to time. Use of the "Undesignated Area," for agricultural or compatible use requires amendment of this Land Conservation Plan.

3. DESIGNATED LAND USES. Owner(s) agree to manage and maintain the Subject Property in a manner that ensures that the following designated uses will conform to the identified acreage and location at all times during the term of the Contract and any extensions thereof. Any proposed change to a designated use, acreage, and/or location, requires amendment of this Land Conservation Plan.

Designated Use	Acreage		Location
NON-PRIME AGRICULTURAL USE(S):	68.4±	acres	See Site Plan
UNDESIGNATED AREA:	37.6±	acres	See Site Plan
TOTAL:	106.0±	acres	

4. SITE PLAN. A site plan showing the location of the designated uses described in paragraph 3, above, is attached and incorporated by reference into this Land Conservation Plan. Any proposed change to the Site Plan requires amendment of this Land Conservation Plan.

5. AMENDMENT TO LAND CONSERVATION PLAN.

a. Any change to the acreage or location of the designated uses described in paragraph 3, above, requires written amendment to this Land Conservation Plan, consistent with the Land Conservation Contract, Uniform Rules, and Land Conservation Act, as they now exist or as they may be amended from time to time.

b. Owner(s), or Owner(s) predecessor(s) in interest, may apply to the Permit and Resource Management Department (PRMD) for an amendment of this Land Conservation Plan. With the approval of the Director of PRMD, Owner(s) or Owner(s)' predecessor in interest may designate an agent to file an application for amendment of this Land Conservation Plan on their behalf.

c. The Board of Supervisors, or its designee, shall consider and decide all requests to amend this Land Conservation Plan.

d. All amendments to this Land Conservation Plan are deemed automatically incorporated into the Land Conservation Contract to which it applies, upon approval by the Board of Supervisors or its designee, and upon recordation of the executed amendment with the Sonoma County Recorder's Office.

e. For purposes of property tax assessment, any amendment to the Land Conservation Plan or Land Conservation Contract will be recognized by the Sonoma County Assessor's Office on the January 1st lien date of the year following the year in which the amendment is recorded, consistent with Revenue and Taxation Code sec. 430.5.

6. BREACH. Failure to conform to this Land Conservation Plan is a breach of the Land Conservation Contract to which it is attached and incorporated by reference.

AGREEMENT AND STATEMENT BY OWNER(S):

I/we agree to comply with the provisions of this Land Conservation Plan, as it now exists or as it may be amended from time to time, for the duration of the Land Conservation Contract to which it is attached and incorporated by reference, including any and all renewals or extension of the Land Conservation Contract.

OWNER(S):

Title: Lagunitas Brewery Solar Array Protective Easement

Recommended Actions:

Authorize the Chair of the Board of Supervisors to accept a protective easement on approximately 13 acres of agricultural land, required as a condition of approval for a .84 megawatt solar array located at 368 Ely Road, Petaluma, APN: 137-011-025.

Executive Summary:

On April 17, 2017 Permit Sonoma approved a permit for a .84 acre solar array on a 20 acre parcel located at 368 Ely Road that would provide power to serve the existing beef and lamb farm and the adjacent Lagunitas Brewing Company located across the railroad tracks within the City of Petaluma. The site is zoned Diverse Agriculture (DA) and has Scenic Resource (SR), Valley Oak Habitat (VOH); Second Unit Exclusion, and Floodplain (F2) combining zones. A condition of approval required dedication of a protective open space easement over the remainder of the site, excluding the farm complex located near Ely Road. The grant and protective easement has been executed by the applicant and is ready for County acceptance.

Discussion:

Protective easements are generally required over agriculturally zoned lands when non-agricultural development is allowed. In this case the easement is protective of additional biotic resource values of existing wetlands in addition to the use of the site for grazing to support the on-site farming operation. The solar array has been constructed on approximately 1 acre of the site near the railroad tracks, with an interconnection that extends underneath the railroad to the Lagunitas Brewery in the City of Petaluma.

Staff Recommendation:

Staff recommends the Board approve the attached resolution authorizing the Chair of the Board of Supervisors to execute the agreement and accept the grant of protective easement.

Prior Board Actions:

None

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

The protective easement preserves agricultural land while providing renewable energy to support the adjacent land uses in a sustainable, integrated manner consistent with the Strategic Plan goal to provide economic and environmental stewardship.

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California,

Whereas, the Lagunitas Brewery applied for and received permits to install a .84 megawatt solar array on farmland located adjacent to their brewery facility; and

Whereas, the property for the solar array has been historically used to support an agricultural operation and is zoned Diverse Agriculture; and

Whereas, the brewery facility would utilize the power generated from the solar array as a renewable energy resource which is an allowed use in the DA zone; and

Whereas, a condition of approval for the use permit for the commercial solar array requires that a protective easement be recorded on the remainder of the property to sustain the continued agricultural use.

Now, Therefore, Be It Resolved that the Board of Supervises hereby authorizes the Chair of the Board to execute the Deed and Agreement accepting the protective easement.

Title: Replacement Non-Prime Land Conservation Act Contracts, Nancy D Lily Trust

Recommended Actions:

Adopt a Resolution to (a) rescind two existing Non-Prime (Type II) Land Conservation Act contracts on 1,336.36 acres, and (b) authorize the Chair of the Board of Supervisors to execute three new replacement non-prime (Type II) contracts on separate legal parcels covering the same land, located at 27255 and 27675 Arnold Drive, Sonoma, CA; PRMD File Nos. AGP15-0009, -0010 and -0011; Supervisorial District 1.

Executive Summary:

The Sonoma County's Land Conservation Act program assists in the preservation of agricultural and open space lands throughout Sonoma County. In exchange for retaining land in agriculture and/or open space, the landowner receives reduced property taxes. The County has four contract-types available: a) Prime contracts for crop agriculture with a 10 acre minimum parcel size requirement; b) Non-Prime contracts for grazing or hay production with a 40 acre minimum; c) Open Space contracts with a 40-acre minimum, and d) Hybrid contracts with a mix of all of the above, also with a 40-acre minimum.

This action is to replace two existing Non-Prime (Type II) Land Conservation Act contracts with three new individual non-prime contracts on separate legal parcels of 474.36 acres, 308 acres, and 554 acres, located off of Arnold Drive (Highway 121). The properties are currently in "non-prime" use for cattle grazing on 440.46 acres, 284 acres, and 540 acres, and in "prime" use for vineyard production on 32.9 acres, 24 acres, and 11.7 acres. Staff confirms the properties meet the minimum parcel size and income requirements of the County's Uniform Rules and are each eligible to receive a replacement Land Conservation Act contract for prime and non-prime agricultural use.

Discussion:

Land Conservation Act Program

The Board of Supervisors' 2011 update of the *Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones* ("Uniform Rules") allows the County to execute either a Prime or Non-Prime contract for any eligible land located in an established Preserve. The 2011 Uniform Rules provide that a landowner and the County may mutually agree to rescind an existing land conservation contract and simultaneously enter into a replacement contract or contracts, where the replacement contract or contracts would enforceably restrict the same land. The updated rules also provide that the County implement use of a Land Conservation Plan as part of the required contract for qualifying agricultural uses. Land Conservation Plans show locations of various agricultural, open space, permitted, and compatible land uses on contracted land. Future changes to the Land Conservation Plan may be approved by the Director of Permit Sonoma and recorded on title of the subject parcel.

Background

Between 1970 and 1972, the County entered into two Non-Prime (Type II) Land Conservation Contracts on the subject parcels. The original contracts are located in Agricultural Preserve 2-238 and were recorded on February 27, 1970, under Book No. 2447, Page 478, and on February 16, 1972, under Book No. 2603, Page 126, in the Official Records of the Sonoma County Recorder. No expansion of the existing agricultural preserve is required.

In 1986, The County issued Administrative Certificates of Compliance recognizing the subject properties as three separate legal parcels of 474.36 acres, 308.00 acres, and 554.00 acres. The certificates refer to the subject properties as Parcels 5, 6 and 7. Parcel 5 is comprised of three APNs, Parcel 6, a single APN, and Parcel 7, two APNs, as referenced below:

PARCEL 5: Contract 1 = 474.36 acres APNs 068-090-010, 068-090-014, 142-121-011
PARCEL 6: Contract 2 = 308.00 acres APN 142-111-003
PARCEL 7: Contract 3 = 554.00 acres APNs 068-080-005, 068-090-012

Zoning Designation

The subject parcels are zoned LEA (Land Extensive Agriculture) with a 100 acre density requirement. Applicable combining zones include Z (Accessory Dwelling Unit Exclusion), G (Geological Hazard), BH (Biotic Habitat), RC 50/50 (Riparian Corridor, 50 foot setbacks), SR (Scenic Resources), and VOH (Valley Oak Habitat).

Contract Requirements

Uniform Rules require for approval of a Non-Prime (Type II) Land Conservation Act contract that an eligible parcel be located within an existing Agricultural Preserve, a single legal parcel of at least 40 acres in size, and within an agricultural-compatible zone. The Uniform Rules require that at least 50 percent of the property be in use for diversified agricultural purposes and annually generate a gross total annual income of $2,000 per farm operation and $2.50 per acre of production for non-prime uses, and $1,000 per planted acre for prime uses. Lastly, the Uniform Rules require that all non-agricultural uses be compatible and limited to no more than 15 percent of the property, up to a maximum of five acres.

Contract Compliance

The subject properties qualify for approval of individual replacement Land Conservation Act Contacts as supported in Findings (a) through (h) of the attached Resolution (Attachment A). The findings are summarized below.

- Each property is within an existing agricultural preserve (2-238) and confirmed to be a separate legal parcel meeting the minimum 40 acre size requirement, consisting of: 474.36 acres for Contract 1, 308 acres for Contract 2, and 554 acres for Contract 3;
- The properties are zoned LEA (Land Extensive Agriculture) with a 100 acre density compatible with agricultural land uses;
- Over 99 percent of each property is devoted to a qualifying agricultural use (Cattle Grazing/ Vineyards) meeting the minimum 50 percent requirement, including cattle grazing on 440.46 acres, 284 acres, and 540 acres, and vineyard production on 32.9 acres, 24 acres, and 11.7 acres;
- Each parcel annually generates a gross total annual income of over $5,000.00 per cattle grazing operation and over $10,000 per planted acre of vineyard production meeting both the minimum non-prime requirement of $2,000.00 gross total income per farm operation and $2.50 gross income per production acre, and the minimum prime use requirement of $1,000 per planted acre;
- Existing non-agricultural uses occupy between 1.0 and 2.2 acres of each parcel and are considered compatible uses as per the Uniform Rules, including one existing residence and two barn structures for Contract 1, no development under Contract 2, and one residence and a detached garage for Contract 3.

Staff Recommendation:

Staff recommends the Board approve the request to rescind and replace the existing Non-Prime (Type II) Land Conservation Act Contracts with three new non-prime contracts on three separate legal parcels of 474.36 acres, 308.00 acres, and 554.00 acres in size, located within Agricultural Preserve 2-238.

Prior Board Actions:

On December 13, 2011, the Board approved the Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones (Resolution No. 11-0678).

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

Agricultural Preserves and Land Conservation Act Contracts support agriculture and agribusiness by assisting in the preservation of agricultural land through the incentive of reduced property taxes in exchange for retaining the land in agricultural production.

Fiscal Summary

Narrative Explanation of Fiscal Impacts:

Approval of replacement Land Conservation Act Contract(s) as proposed means the owner will continue to pay a reduced property tax assessment. On October 24, 2018, the County Assessor's Office verified that for contracted lands undergoing replacement from one contract to another of the same or of similar type, such as proposed, no change in property tax assessments is generally anticipated.

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Approving The Request by Nancy D. Lilly, To Rescind The Original Contracts And Replacement then With three New Land Conservation Act Contracts And Attached Land Conservation Plans; And Authorize The Chair To Execute The New Land Conservation Act Contracts And Land Conservation Plans For Non-Prime (Type II) Agricultural Land, Located At 27255 and 27675 Arnold Drive; APNs 142-121-011, 068-090-010 and 068-090-014 (Contract 1), 142-111-003 (Contract 2), and 068-080-005 and 068-090-012 (Contract 3).

Whereas, a request has been made by the property owner, Nancy Lilly to authorize the Chair to rescind two original non-prime (Type II) contracts and replace them with three new Land Conservation Act Contracts with attached Land Conservation Plans for non-prime agricultural land, located 27255 and 27675 Arnold Drive, Sonoma; Permit Sonoma File Nos. AGP15-0009, -0010 and -0011; Supervisorial District 1; and,

Whereas, the County previously entered into two Land Conservation Contracts with Owner(s) or Owner(s)' predecessors in interest, which were recorded on February 27, 1970, under Book No. 2447, Page 478, and on February 16, 1972, under Book No. 2603, Page 126, in the Official Records of the Sonoma County Recorder;

Whereas, on December 13, 2011, the Board of Supervisors adopted the updated *Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones (Uniform Rules)* (Resolution No. 11-0678); and,

Whereas, consistent with the *Uniform Rules*, County Counsel has revised the Land Conservation Act Contract form, which now incorporates a Land Conservation Plan identifying the various uses of the contracted land. Future changes to identified land uses require amendment of the Land Conservation Plan. The Board, pursuant to Resolution No. 11-0678, has authorized the Director of Permit Sonoma to approve amendments to executed Land Conservation Plans; and,

Whereas, the Board of Supervisors finds that the three subject properties each meet the minimum requirements to receive approval of individual replacement Land Conservation Act Contracts for Non-Prime agricultural use.

EXHIBIT A

Now, Therefore, Be It Resolved, that the Board of Supervisors makes the following specific findings concerning the requirements for three new Non-Prime (Type II) Land Conservation Act Contracts ("Contract"):

a. Existing Agricultural Preserve. The subject properties are each located within the boundaries of an existing agricultural preserve (2-238).

b. Single Legal Parcel. The subject properties are confirmed by deed description as single legal parcels of 474.36 acres, 308.00 acres, and 554.00 acres, identified by APNs 142-121-011, 068-090-010 and 068-090-014 (Contract 1), APN 142-111-003 (Contract 2), and APNs 068-080-005 and 068-090-012 (Contract 3).

c. Compatible Zoning. The properties are zoned LEA (Land Extensive Agriculture) with a 100 acre density compatible with agricultural land uses as required by the Uniform Rules.

d. Minimum Parcel Size: The minimum parcel size requirement for a non-prime contract is 40 acres under the Uniform Rules. The subject properties meet the 40 acre minimum parcel size requirement with a total of 474.36 acres for Contract 1, 308.00 acres for Contract 2, and 554.00 acres for Contract 3.

e. Existing Agricultural Use. The Uniform Rules require that at least 50 percent of the property be in use for agricultural purposes, and for prime use of less than 40 acres, that a minimum of 10 planted acres be in production. The landowner currently devotes over 99 percent of each property to qualifying agricultural uses meeting the 50 percent requirement, including cattle grazing on 440.46 acres, 284 acres, and 540 acres, and vineyard production on 32.9 acres, 24 acres, and 11.7 acres;

f. Minimum Income. The Uniform Rules set a minimum non-prime requirement of $2,000.00 gross total income per farm operation and $2.50 gross income per acre of production, and a minimum Prime use requirement of $1,000 gross income per planted acre. Each parcel currently generates on an annual basis more than $5,000.00 per grazing operation and over $10,000 per planted acre of vineyard production meeting the total gross income requirements per farm operation and production acre for non-prime use, and per planted acre for prime use;

g. Compatible Uses. Non-agricultural uses must be listed in the Uniform Rules as compatible uses occupying no more than 15 percent of the property, up to a maximum of five acres. Existing non-agricultural uses occupy between 1.0 and 2.2 acres of each parcel and are listed in the Uniform Rules as compatible uses. These uses include one existing residence and two barn structures for Contract 1, no development under Contract 2, and one residence and a detached garage for Contract 3.

h. Non-Prime Agricultural Land. Parcels under Non-Prime (Type II) Land Conservation Act Contracts must devote at least 50 percent of the land to any combination of qualifying agricultural uses and/or open space. Qualifying agricultural uses under the Uniform Rules include non-prime land for cattle grazing and 10 or more planted acres of prime vineyard production land not exceeding 40 acres. The three subject parcels each devote over 99 percent of their total land area to a combination of cattle grazing and vineyard production which have each produced the required minimum income for the last five years and meet the minimum required parcel size under the County's Uniform Rules to qualify for a Non-Prime Land Conservation Act contract.

Be It Further Resolved, that the Board of Supervisors hereby grants the request by the property owner to rescind and replace two Non-Prime Land Conservation Act contracts with three new individual Non-Prime (Type II) Land Conservation Act contracts on 474.36 acres, 308.00 acres, and 554.00 acres, respectively, located within Agricultural Preserve 2-238, and authorize the Chair of the Board to sign the new Non-Prime (Type II) Land Conservation Act Contracts for each property as identified by APN(s) 142-121-011, 068-090-010 and 068-090-014 under Contract 1, 142-111-003 under Contract 2, and 068-080-005 and 068-090-012 under Contract 3.

Be It Further Resolved, that the Clerk of the Board of Supervisors is hereby instructed to record the executed contracts and attached Land Conservation Plans with the Office of the Sonoma County Recorder no later than December 31, 2018.

Be It Further Resolved, that the Board of Supervisors finds that the project described in this Resolution is exempt from the requirements of the California Environmental Quality Act by virtue of Section 15317 Class 17 of Title 14 of the California Code of Regulations (CEQA Guidelines) in that the project is within an established Agricultural Preserve and is a replacement of a Land Conservation Act Contract.

Be It Further Resolved, that the Board of Supervisors designates the Clerk of the Board as the custodian of the documents and other material which constitute the record of proceedings upon which the decision herein is based, including the original executed Contract and Land Conservation Plan. These documents may be found at the office of the Clerk of the Board, 575 Administration Drive, Room 100-A, Santa Rosa, California 95403.

LAND CONSERVATION CONTRACT

This Contract is made by and between Nancy D. Lilly, Trustee of the Nancy D. Lilly Separate Property Living Trust, dated November 13, 2002, ("Owner(s)") and the County of Sonoma, a political subdivision of the State of California ("County"), and is dated for convenience as June 29, 2018.

RECITALS

Whereas County previously entered into two Land Conservation Contracts with Owner(s) or Owner(s)' predecessors in interest, which were recorded on February 27, 1970, and is identified by Book No. 2447, Page 478, and on February 16, 1972, and is identified by Book No. 2603, Page 126, in the Official Records of the Sonoma County Recorder, ("Original Contract"); and

Whereas Owner(s) own(s) certain real property ("Subject Property") located within Sonoma County and presently identified by Assessor's Parcel Number(s): 142-121-011, 068-090-010, and 068-090-014, and more particularly described in the legal description attached to this Contract at Exhibit "A"; and

Whereas Both Owner(s) and County desire to limit/continue to limit the use of the Subject Property to agricultural, open space, and compatible uses in order to discourage premature and unnecessary conversion of the Subject Property to uses incompatible with agricultural and/or open space use, including urban uses, recognizing that the Subject Property has substantial public value as agricultural or open space land and that the preservation of the Subject Property in agricultural production or open space constitutes an important physical, social, aesthetic, and economic asset to County and the State of California; and

OPERATIVE PROVISIONS

Now, therefore, in consideration of the foregoing recitals and the mutual promises contained herein, the substantial public benefits to be derived therefrom, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Owner(s) and County agree as follows:

A. RESCISSION OF ORIGINAL CONTRACT

The Original Contract is hereby rescinded as of the date that this Contract takes effect as to the Subject Property. If this Contract does not become effective, then the Original Contract shall remain in full force and effect, as to the Subject Property.

B. REPLACEMENT CONTRACT

1. PURPOSE. This Contract is entered into pursuant to the provisions of the California Land Conservation Act of 1965, Government Code section 51200 et seq. ("Act"), and is subject to all of the provisions of the Act as they may be amended from time to time.

2. SUBJECT PROPERTY.

(a) Owner(s) own(s) the Subject Property, located at 27255 Arnold Drive, Sonoma, and more particularly described in the legal description attached to this Contract as Exhibit "A", and incorporated herein by reference.

(b) The Subject Property is located within established Agricultural Preserve 2-238.

(c) The Subject Property is approximately 474.36 acres total and comprised of one (1) legal parcel.

3. TERM. This Contract shall be effective on recordation, and shall remain in effect for a term of 10 years. This Contract shall be automatically renewed for a full term on December 31st at the end of each calendar year, unless a Notice of Non-renewal is recorded as provided in Government Code section 51245 and the County's Uniform Rules for Agricultural Preserves and Farmland Security Zones ("Uniform Rules"), adopted by County Board of Supervisor's Resolution No.11-0678 pursuant to Government Code section 51231, -- to the end that at all times during this Contract, there shall be a 10-year term of restriction unless a Notice of Non-renewal has been recorded.

4. REGULATORY COMPLIANCE & RESTRICTIONS ON USE. During the term of this Contract, and all renewals and extensions thereof, the Subject Property shall not be used for any purpose other than (1) "agricultural use," or "open space use," as those phrases are defined by the Act, and (2) any use determined by County to be a "compatible use" defined and enumerated in the Uniform Rules and shall at all times be in compliance with the Uniform Rules as they may be amended from time to time.

5. LAND CONSERVATION PLAN. The use of the Subject Property shall at all times conform to the Land Conservation Plan, attached to this Contract as Exhibit "B", and made a part of this Contract. If an amendment to the Land Conservation Plan is approved by County and recorded, the amended Land Conservation Plan shall be deemed automatically incorporated

into the Contract as though fully set forth herein without the need for a contract amendment, upon the renewal of the Contract.

6. UNIFORM RULES & FEES. Owner(s) and County agree that the Uniform Rules, as they now exist or as they may be amended from time to time, are incorporated by reference into this Contract as though set out in full and shall be a part of this Contract upon execution and each renewal of this Contract. Owner(s) agree(s) to comply with the Uniform Rules and agree(s) to pay all fees established by County's Board of Supervisors, if any, for the administration of County's agricultural preserve program, and for the processing of applications required by the Uniform Rules.

7. PLANNING AND ZONING. The provisions of this Contract are not intended to limit or supersede the planning and zoning powers of County.

8. CANCELLATION. This Contract may not be cancelled, except pursuant to Government Code sections 51280 through 51287, and the Uniform Rules.

9. RESCISSION. This Contract may not be rescinded, except pursuant to the provisions of the Act and the Uniform Rules, and upon the simultaneous replacement of this Contract with a replacement contract, open space easement, agricultural conservation easement, or other equivalent restriction as allowed by the Act and state law. County may require the rescission and simultaneous replacement of this Contract with a replacement contract as a condition of any proposed subdivision or lot line adjustment affecting the boundaries of the Subject Property.

10. EMINENT DOMAIN. If any action in eminent domain for the condemnation of any land described in this Contract is filed after the execution of this Contract, or if any portion of the Subject Property is acquired in lieu of condemnation, then the provisions of Government Code section 51295 apply.

11. SUCCESSORS IN INTEREST. This Contract, its terms and restrictions, shall run with the land described herein, and upon division, to all parcels created therefrom, and shall be binding upon and shall inure to the benefit of all heirs, successors, and assigns of Owner(s). This Contract shall be transferred from County to a succeeding city or a county acquiring jurisdiction over all or part of the Subject Property, except that a succeeding city may opt not to succeed to the rights, duties, and powers of the County under this Contract if the requirements of Government Code section 51243 .5 are met.

12. CERTIFICATE OF COMPLIANCE PARCELS. Owner(s) agree(s) not to apply for or obtain recognition of Certificate of Compliance parcels for all or any portion of the Subject Property for the duration of this Contract, without first obtaining the approval of County's Board of Supervisors, as provided in the Uniform Rules, unless a Notice of Non-Renewal has been recorded for the Contract and there are no more than three years remaining on the Contract's term. County may require replacement contracts for recognized Certificate of Compliance parcels.

13. ENFORCEABLE RESTRICTION. Owner(s) and County intend that the terms, conditions, and restrictions of this Contract conform to the Act, as amended, and that this Contract qualify as an enforceable restriction under the provisions of Revenue and Taxation Code sections 421 through 429, inclusive, and within the meaning of California Constitution, article XIII, section 8.

14. REMEDIES FOR BREACH.

(a) This Contract may be enforced by County in an action filed in the Sonoma County Superior Court for the purpose of compelling compliance or restraining any breach or threatened breach thereof, after providing notice to Owner(s). The notice shall contain a general description of the condition claimed to by County to be a violation and shall contain a reasonable and specific cure period during which the violation is to cease and the Subject Property is to be restored to the condition that existed prior to the violation. Owner(s) agree(s) that County's remedies at law for any violation of the terms of this Contract are inadequate and that County shall be entitled to the injunctive relief described herein, both prohibitive and mandatory, in addition to such other relief, including damages, to which County may be entitled, including specific performance of the terms of this Contract, without the necessity of proving either actual damages or the inadequacy of otherwise available legal remedies.

(b) A breach of this Contract that constitutes a violation of the Sonoma County Zoning Code may be enforced by County pursuant to Chapter 1 of the Sonoma County Code.

(c) Without altering the provisions of paragraph 8 (Cancellation), a breach of this Contract that constitutes material breach under Government Code section 51250 may be enforced by County or the State of California pursuant to Government Code section 51250, if the requirements of that Section are met.

(d) If Owner(s) breach(es) this Contract, Owner(s) shall pay County one-half percent (1/2 %) of the restricted assessed value of the land subject to this Contract per day for each day the Contract is in breach as liquidated damages. It is understood and agreed that damages for breach of this Contract by Owner(s) are, and will continue to be, impracticable and extremely difficult to ascertain and determine. Execution of this Contract shall constitute agreement by County and Owner(s) that one-half percent (1/2 %) of the restricted assessed value of the land is the actual damage to County and the general public caused by breach of this Contract by Owner(s), and that such sum is liquidated damages and shall not be construed as a penalty. No damages shall be recoverable if the Owner(s) remedies or has commenced and thereafter diligently pursues such action required to remedy any breach or material breach within sixty (60) days after the date written notice of said breach or material breach is sent to Owner(s) by County. This provision does not impair County's ability to enforce this Contract by injunction or specific performance.

(e) The remedies set forth in this paragraph 14 are not exclusive and are not intended to displace any other remedies available to either party as provided by this Contract or any applicable local, state or federal law.

15. NO WAIVER. Enforcement of the terms of this Contract shall be at the sole discretion of County, or where applicable the State of California, and any forbearance by County or State to exercise its rights under this Contract in the event of any violation or threatened violation by Owner(s) of any term of this Contract shall not be deemed or construed to be a waiver by County or State of such term or of any subsequent violation or threatened violation of the same or any other terms of this Contract. Any failure by County or State to act shall not be deemed a waiver or forfeiture of County's or State's right to enforce any and all of the terms of this Contract in the future.

16. CONSIDERATION. Owner(s) shall not receive any payment from County in consideration of the obligations imposed by this Contract. The parties recognize and agree that the consideration for the execution of this Contract is the substantial public benefit to be derived from this Contract and the advantage that will accrue to Owner(s) as a result of any reduction in the assessed value of the Subject Property due to the imposition of the limitations on the use of the Subject Property contained in this Contract.

17. NOTICE. Notices required to be given under this Contract, or as may otherwise be required by law in connection with the administration of this Contract, shall be made by personal service, or by first-class United States mail, to the parties as follows:

(a) To Owner(s) or successor(s) in interest of Owner(s), at the mailing address shown on the most recent assessment roll for the Subject Property; and

(b) To County, c/o the Clerk of the Board of Supervisors, 575 Administration Drive, Suite 100A, Santa Rosa, California 95403.

IN WITNESS WHEREOF, Owner(s) and County have executed this Contract as of the day and year set forth above.

EXHIBIT "A"

The real property which is the subject of this CONTRACT is situated within agricultural preserve 2-238, as shown by map thereof recorded in preserve map Book Number 1, Pages 4 & 6 for the contract entered on February 24, 1970, and Book Number 4, Pages 6 & 14 for the contract entered on November 9, 1971, in the Office of the County Recorder of Sonoma County, California, and said real property is more particularly described as follows:

SEE NEXT PAGE FOR DESCRIPTION

LEGAL DESCRIPTION

EXHIBIT A

The land referred to herein below is situated in the Unincorporated Area, County of Sonoma, State of California, and is described as follows:

Parcel One:

Being a portion of the lands of O.D Donnell, Jr., as described in that Deed recorded in Book 540 of Official Records, page 422, Sonoma County Records, and being a portion of Fields 16, 24, 25 and 33, as shown upon that certain map entitled "Lakeville Stock Farms", filed in the Office of the County Recorder in Book 50 of Maps, at page 11, Sonoma County Records, said portion being more particularly described as follows:

Beginning at the Northeasterly corner of Field 25 as shown on the abovementioned map; thence South 51° 54' 50" West (m), 28.94 feet (c) to a set iron pipe; thence South 47° 58' 12" West, 1124.12 feet (m) to a set iron pipe; thence South 48° 05' 36" West, 1391.96 feet (m) to a set iron pipe; thence South 25° 16' 55" West, 144.22 feet (m); thence South 42° 51' 49" East, 469.43 feet (m); thence South 67° 15' 49" East, 58.01 feet (m); thence South 26° 27' 49" East, 51.42 feet (m); thence South 54° 33' 49" East, 80.12 feet (m); thence South 5° 09' 11" West, 134.64 feet (m); thence South 35° 07' 49" East, 42.45 feet (m); thence South 57° 26' 49" East, 360.48 feet (m); thence South 36° 11' 49" East, 126.80 feet (m); thence South 42° 34' 11" East, 127.73 feet (m) to a set iron pipe; thence South 57° 02' 19" East, 228.88 feet (m) to a set iron pipe; thence along a curve to the right having a central angle of 5° 06' 57", a radius of 1030.00 feet and a length of 91.97 feet (m) to a set iron pipe; thence South 51° 55' 22" East, 312.02 feet (m) to a set iron pipe, said iron pipe hereinafter referred to as Point "H"; thence along a curve to the left having a central angle of 22° 10' 33", a radius of 370.00 feet and a length of 143.21 feet (m) to a set iron pipe; thence South 74° 05' 55" East, 299.20 feet (m) to a set iron pipe; thence along a curve to the right having a central angle of 16° 29' 33", a radius of 430.00 feet, and a length of 123.76 feet (m) to a set iron pipe; thence South 57° 36' 22" East, 620.92 feet (m) to a set iron pipe; thence along a curve to the left having a central angle of 35° 30' 50", a radius of 270.00 feet, and a length of 167.36 feet (m) to a set iron pipe; thence North 86° 52' 48" East, 187.19 feet (m) to a set iron pipe; thence along a curve to the left, having a central angle of 28° 10' 03", a radius of 370.00 feet, and a length of 181.90 feet (m) to a set iron pipe; thence North 58° 42' 45" East, 339.97 feet (m) to a set iron pipe; thence along a curve to the right having a central angle of 12° 44' 02", a radius of 430.00 feet, and a length of 95.57 feet (m) to a set iron pipe; thence North 71° 26' 47" East, 99.49 feet (m) to a set iron pipe; thence along a curve to the left having a central angle of 39° 10' 17", a radius of 170.00 feet, and a length of 116.22 feet (m) to a set iron pipe; thence North 32° 16' 30" East, 178.86 feet (m) to a set iron pipe; thence North 70° 42' 46" East, 148.32 feet (m) to a set iron pipe; thence South 44° 07' 31" East, 70.00 feet (m) to a set iron pipe; thence continuing South 44° 07' 31" East (m), 30.00 feet (c) to the Northwesterly line of the lands of the State of California as described in that Deed in Book 397 of Deeds, page 216, Sonoma County Records; thence along said Northwesterly line South 27° 58' 00" West (r), 709.24 feet (c) (deed: S28° 01'W); thence along a curve to the right having a central angle of 42° 19' 30" (r), a radius of 720.00 feet (r) (deed: 670.00 feet), and a length of 531.87 feet (r) (deed: length 531.88 feet); thence South 70° 20' 00" West, 378.29 feet (r) (deed: S70° 20' 30"W, 378.29 feet); thence along a curve to the right having a central angle of 4° 00' 49" (c), a radius of 1970.00 feet (r), and a length of 138.00 feet (r) to a point which bears South 52° 08' 19" East, (m) from a set iron pipe, said point being on the Southwesterly line of the abovementioned lands of Donnell; thence along said Southwesterly line North 52° 08' 49" West (m), 30.00 feet (c) (deed: 52° 06'W) to said iron pipe; thence continuing North 52° 08' 49" West, 2309.00 feet (m) (deed: N52° 06"W); thence North 8°41' 49" West, 17.28 feet (m) (deed: N8° 39"W, 17.28 feet); thence North 8° 48' 49" West, 186.71 feet (m) (deed: N8° 46'W, 186.71 feet); thence North 36° 11' 49" West, 100.93 feet (m) (deed: N36° 09"W, 100.93 feet); thence North 57° 26' 49" West, 361.06 feet (m) (deed: N57° 24'W, 361.06 feet); thence North 35° 07' 49" West, 76.29 feet (m) (deed: N35° 05'W, 76.29 feet0; thence North 5° 09' 11" East, 122.20 feet (m) (deed: N5° 12'E, 122.20 feet); thence North 54° 33' 49" West, 51.09 feet (m) (deed: N5° 32'W, 51.09 feet); thence North 49° 40' 49" West, 8.14 feet (m) (deed: N49° 38'W, 8.14 feet); thence North 35° 21' 49" West, 8.50 feet (m) (deed: N35° 19'W, 8.50 feet); thence North 26° 27' 49" West, 36.72 feet (m) (deed: N26° 25'W, 36.72 feet); thence North 67° 15' 49" West, 48.67 feet (m) (deed: N67° 13'W, 48.67 feet); thence North 42° 51' 49" West, 460.35 feet (m) (deed: N42° 49'W, 460.35 feet); thence North 62° 49' 49" West, 270.96 feet (m) (deed: N52° 47"W, 270.96 feet); thence North 48° 01' 49" West, 509.10 feet (m) (deed: N47° 59'W, 509.10 feet); thence North 58° 23' 49" West, 72.00 feet (m) (deed: N58° 21W, 72.00 feet); thence North 75° 23' 49" West, 87.51 feet (m) (deed: N 75° 21'W, 87.51 feet); thence South 89° 00' 11" West, 400.20 feet (m) (deed: S89° 03'W, 400.20 feet); thence North 64° 21' 49" West, 45.37 feet (m) (deed: N64° 19' West, 45.37 feet); thence North 43° 56' 49" West, 79.52 feet (m) (deed: N43° 54'W, 79.52 feet); thence North 26° 21' 49" West, 79.39 feet (m) (deed: N26° 19'W, 79.39 feet; thence North 4° 40' 11" East, 142.70

feet (m) (deed: N4° 43'E, 142.70 feet); thence North 19° 38' 49" West, 25.40 feet (m) (deed: N19° 36'W, 25.40 feet); thence North 57° 32' 49" West, 25.97 feet (m) (deed: N57° 30'W, 25.97 feet); thence South 67° 59' 11" West, 29.87 feet (m) (deed: S68° 02'W, 29.87 feet); thence South 82° 14' 11" West, 16.98 feet (m) (deed: S82° 17'W, 16.98 feet); thence North 61° 29' 49" West, 14.48 feet (m) (deed: N61° 27'W, 14.48 feet); thence South 81° 46' 11" West, 16.70 feet (m) (deed: S81° 49'W, 16.70 feet); thence South 62° 15' 11" West, 23.79 feet (m) (deed: S62° 18'W, 23.79 feet); thence South 45° 26' 11" West, 350.13 feet (m) (deed: S45° 29'W, 350.13 feet); thence South 85° 33' 11" West, 127.97 feet (m) (deed: S85° 36'W, 127.97 feet); thence North 71° 42' 49" West, 213.81 feet (m) (deed: N71° 40'W, 213.81 feet); thence North 29° 44' 49" West, 567.69 feet (m) (deed: N29° 42"W, 567.69 feet"; thence North 76° 36' 49" West, 959.00 feet (m) (deed: N76° 34'W, 959.00 feet); thence South 87° 07' 11" West, 480.18 feet (m) (deed: S87° 10'W, 480.18 feet); thence North 70° 18' 49" West, 129.68 feet (m) (deed: N70° 16'W, 129.68 feet); thence South 75° 42' 11" West, 162.16 feet (m) (deed: S75° 45'W, 162.16 feet); thence South 86° 47' 11" West, 182.81 feet (m) (deed: S86° 50'W, 182.81 feet); thence South 60° 35' 11" West, 78.51 feet (m) (deed: S60° 38'W, 78.51 feet); thence South 60° 20' 08" West, 32.85 feet (m) (deed: S60° 23' W, 52.85 feet); thence South 60° 27' 11" West, 144.50 feet (m) (deed: S60° 30'W, 144.50 feet); thence leaving said Northwesterly line North 25° 03' 38" West, 354.15 feet (,) to a set iron pipe; thence North 18° 42' 09" West, 733.44 feet (m) to a set iron pipe; thence continuing North 18° 42' 09" West, 166.25 feet (m) to a set iron pipe; thence North 45° 20' 53" East, 832.45 feet (m) to a set iron pipe; thence North 45° 24' 29" East, 1418.54 feet (m) to a set iron pipe; thence North 45° 15' 06" East, 708.35 feet (m) to a set iron pipe; thence North 45° 30' 44" East, 1515.46 feet (m) to a set iron pipe; thence North 45° 42' 49" East (m), 29.62 feet (c) to the Northeasterly corner of Field 25; thence along the Easterly line of said Field 25, South 45° 07' 30" East, 1034.84 feet (r); thence South 44° 08' 30" East, 1002.91 feet (r); thence South 44° 13' 00" East, 1174.55 feet (r); thence South 44° 38' 00" East, 1898.01 feet (r) to the true point of beginning. All set iron pipes are ½" x 30" and are tagged LS 4483.

Excepting therefrom that portion thereof conveyed to the State of California for road purposes by Grant Deed recorded September 14, 1994, under Document No. 1994 0106262, Sonoma County Records.

Parcel Two:

An easement for sight distance, said easement being 30 feet in width, and lying contiguous to and 30 feet Westerly of the following described line:

Beginning at the Northeasterly corner of the above described Lot 5, said corner marking the Westerly line of the lands of the State of California as described in that deed recorded in Book 397 of Deeds, page 216, Sonoma County Records; thence North 27° 58' 00" East (r), 455.94 feet (m) to the terminus of the herein described line.

Parcel Three:

An easement for roadway cut, fill and drainage purposes, said easement being 30 feet in width and lying contiguously and 30 feet Northeasterly of the following described line:

Beginning at an angle point in the Northeasterly line of the above described Lot 5, said angle point being formed by the courses South 25° 16' 55" West, 144.352 feet (m) and South 42° 51' 49" East, 469.43 feet (m); thence South 42° 51' 49" East, 469.43 feet (m); thence South 67° 15' 49" East, 58.01 feet (m); thence South 26° 27' 49" East, 51.42 feet (m); thence South 54° 33' 49" East, 80.12 feet (m); thence South 5° 09' 11" West, 134.64 feet (m); thence South 35° 07' 49" East, 42.45 feet (m); thence South 57° 26' 49" East, 360.48 feet (m); thence South 36° 11' 49" East, 126.80 feet (m) to the terminus of the herein described line. The Northeasterly sideline of this easement is to extend or shorten to conform to property lines.

Parcel Four:

A right of way for general road purposes over and along the existing private road along the Southerly line of said Fields 16, 25 and 24, extending from the Westerly line of the State Highway, at the Southeasterly corner of said Field 16, Westerly to the Southwesterly corner of said Field 24 as referred to the abovementioned deed to O. D. Donnell, Jr.

Subject to a right of way within Field No. 16 from its Northeasterly corner to the Southeasterly corner, along the Easterly boundary of that Field, being the Westerly line of he State Highway, for a telephone line of two wires strung on poles, and

EXHIBIT A
(Continued)

the right of maintenance and replacement thereof, and ingress and egress for those purposes, as referred to the in abovementioned deed to O. D. Donnell, Jr.

Also subject to the right to use the water originating in Field No. 16 now piped to a trough in Field No. 7 as reserved in the abovementioned deed to O. D Donnell, Jr., and as further modified in that agreement recorded in Book 555 of Official Records, page 450, Sonoma County Records.

Parcel Five:

Being a portion of the lands of O.D Donnell, Jr., as described in that Deed recorded in Book 540 of Official Records, page 422, Sonoma County Records, and being a portion of Fields 16 and 25, as shown upon that certain map entitled "Lakeville Stock Farms", filed in the Office of the County Recorder in Book 50 of Maps, at page 11, Sonoma County Records, said portion being more particularly described as follows:

Commencing at the Southwesterly corner of Field 10 as shown on the abovementioned map, said corner marking the Southeasterly line of the lands of the State of California as described in that deed recorded in Book 397 of Deeds, page 216, Sonoma County Records; thence North 62° 02' 00" West, 60.00 feet (r) (deed: N61° 59'W, 60.00 feet) to a point on the Northwesterly line of said lands; thence along said line South 27° 58' 00" West (r), 30.37 feet (c) to a point which bears South 44° 07' 31" East, (m) from a set iron pipe, said last mentioned point being the true point of beginning of the lands herein described; thence North 44° 07' 31" West (m), 30.00 feet (c) to said set iron pipe; thence continuing North 44° 07' 31" West, 70.00 feet (m) to a set iron pipe; thence South 70° 42' 46" West, 148.32 feet (m) to a set iron pipe; thence South 32° 16' 30" West, 178.86 feet (m) to a set iron pipe; thence along a curve to the right having a central angle of 39° 10' 17", a radius of 170.00 feet, and a length of 116.22 feet (m) to a set iron pipe; thence South 71° 26' 47" West, 99.49 feet (m) to a set iron pipe; thence along a curve to the left having a central angle of 12° 44' 02", a radius of 430.00 feet and a length of 95.57 feet (m) to a set iron pipe; thence South 58° 42' 45" West, 339.97 feet (m) to a set iron pipe; thence along a curve to the right having a central angle of 28° 10' 03", a radius of 370.00 feet and a length of 181.90 feet (m) to a set iron pipe; thence South 86° 52' 48" West, 187.19 feet (m) to a set iron pipe; thence along a curve to the right having a central angle of 35° 30' 50", a radius of 270.00 feet, and a length of 167.36 feet (m) to a set iron pipe; thence North 57° 36' 22" West, 620.92 feet (m) to a set iron pipe; thence along a curve to the left having a central angle of 16° 29' 33", a radius of 430.00 feet and a length of 123.78 feet (m) to a set iron pipe; thence North 74° 05' 55" West, 299.20 feet (m) to a set iron pipe; thence along a curve to the right having a central angle of 22° 10' 33, a radius of 370.00 feet, and a length of 143.21 feet (m) to a set iron pipe hereinafter referred to as Point "H"; thence North 51° 55' 22" West, 312.02 feet (m) to a set iron pipe; thence along a curve to the left having a central angle of 5° 06' 57, a radius of 1030.00 feet and a length of 91.97 feet (m) to a set iron pipe; thence North 57° 02' 19" West, 228.88 feet (m) to a set iron pipe; thence North 42° 34' 11" West, 127.73 feet (m) to a set iron pipe; thence South 8° 48' 14" East, 194.77 feet (m); thence South 52° 08' 49" East, 732.00 feet (m); thence North 51° 40' 51" East, 25.27 feet (m); thence North 70° 38' 57" East, 49.44 feet (m); thence North 70° 35' 43" East, 21.10 feet (m); thence South 85° 02' 40" East, 75.90 feet (m); thence South 73° 25' 24" East, 45.23 feet (m); thence South 59° 59' 59" East, 151.26 feet (m); thence South 52° 27' 33" East, 85.31 feet (m); thence South 50° 28' 15" East, 778.60 feet (m); thence South 33° 54' 27" West, 140.16 feet (m);t hence South 52° 08' 49" East, 422.68 feet (m) to a point; thence continuing South 52° 08' 49" East (m), 30.00 feet (c) to the Northwesterly line of the lands of the State of California as described in that deed recorded in Book 397 of Deeds, page 216, Sonoma County Records; thence from a tangent which bears North 72° 12' 19" East, along a curve to the left having a central angle of 1° 52' 19" (c), a radius of 1970.00 feet (r) and a length of 64.37 feet (c); thence North 70° 20' 00" East, 378.29 feet (r) (deed: N70° 20' 30"E, 378.29 feet); thence along a curve to the left having a central angle of 42° 19' 30" (r) a radius of 720.00 feet (r) (Deed: 670.00 feet) and a length 531.87 feet (r) (Deed: length 531.88 feet); thence North 27° 58' 00" East, 709.24 feet (c) (deed: N28° 01'E) to the true point of beginning. All set iron pipes are ½" x 30" and are tagged LS 4483.

Note: This description was prepared from data derived through a combination of calculations, field surveys, and record information. Courses that were established from measurements derived from a field survey are followed by the notation (m). Courses that were not surveyed by derived strictly form calculations are followed by the notations (c). Courses that were not surveyed but derived from record information (deeds, maps, highway and railroad drawings) are followed by the notations (r).

A.P. No.: 068-090-010, 068-090-014 and 142-121-011

EXHIBIT "B"

LAND CONSERVATION PLAN

This Land Conservation Plan is made by and between Nancy D. Lilly, Trustee of the Nancy D. Lilly Separate Property Living Trust, dated November 13, 2002, ("Owner(s)") and the County of Sonoma, a political subdivision of the State of California ("County"), and is hereby incorporated by reference into the Land Conservation Contract to which it is attached as though fully set forth therein ("Contract").

1. PURPOSE. The purpose of this Land Conservation Plan is to identify the approximate location and acreage of designated uses to which the Subject Property is or may be used during the term of the Land Conservation Contract consistent with the terms of the Land Conservation Contract, the Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones ("Uniform Rules"), and the California Land Conservation Act (Government Code section 51200 et seq.), as they now exist, or as they may be amended from time to time.

2. DEFINITIONS.

a. "Subject Property," shall have the same meaning as the term "Subject Property," as used in the Contract.

b. "Prime Agricultural Use," means the use of "Prime Agricultural Land," for one or more "Agricultural Use," as those phrases are defined in the Uniform Rules.

c. "Non-Prime Agricultural Use," means the use of "Non-prime Agricultural Land," for one or more "Agricultural Use," as those phrases are defined in the Uniform Rules.

d. "Open Space Use," means the use of "Open Space Land for an "Open Space Use," as those phrases are defined in the Uniform Rules.

e. "Compatible Use," shall have the same meaning as the term "Compatible Use," as used in the Uniform Rules.

f. "Undesignated Area," means portion of land under the Contract that is vacant and potentially available for any qualifying agricultural and/or compatible use, consistent with the terms of the Contract, the Uniform Rules, and the Land Conservation Act, as they now exist or as they may be amended from time to time. Use of the "Undesignated Area," for agricultural or compatible use requires amendment of this Land Conservation Plan.

3. DESIGNATED LAND USES. Owner(s) agree to manage and maintain the Subject Property in a manner that ensures that the following designated uses will conform to the identified acreage and location at all times during the term of the Contract and any extensions thereof. Any proposed change to a designated use, acreage, and/or location, requires amendment of this Land Conservation Plan.

Designated Use	Acreage		Location
PRIME AGRICULTURAL USE(S):	32.90 ±	acres	See Site Plan
NON-PRIME AGRICULTURAL USE(S):	440.46±	acres	See Site Plan
COMPATIBLE USE(S):	1.00±	acres	See Site Plan
TOTAL:	474.36±	acres	

4. SITE PLAN. A site plan showing the location of the designated uses described in paragraph 3, above, is attached and incorporated by reference into this Land Conservation Plan. Any proposed change to the Site Plan requires amendment of this Land Conservation Plan.

5. AMENDMENT TO LAND CONSERVATION PLAN.

a. Any change to the acreage or location of the designated uses described in paragraph 3, above, requires written amendment to this Land Conservation Plan, consistent with the Land Conservation Contract, Uniform Rules, and Land Conservation Act, as they now exist or as they may be amended from time to time.

b. Owner(s), or Owner(s) predecessor(s) in interest, may apply to the Permit and Resource Management Department (PRMD) for an amendment of this Land Conservation Plan. With the approval of the Director of PRMD, Owner(s) or Owner(s)' predecessor in interest may designate an agent to file an application for amendment of this Land Conservation Plan on their behalf.

c. The Board of Supervisors, or its designee, shall consider and decide all requests to amend this Land Conservation Plan.

d. All amendments to this Land Conservation Plan are deemed automatically incorporated into the Land Conservation Contract to which it applies, upon approval by the Board of Supervisors or its designee, and upon recordation of the executed amendment with the Sonoma County Recorder's Office.

e. For purposes of property tax assessment, any amendment to the Land Conservation Plan or Land Conservation Contract will be recognized by the Sonoma County Assessor's Office on the January 1st lien date of the year following the year in which the amendment is recorded, consistent with Revenue and Taxation Code sec. 430.5.

6. BREACH. Failure to conform to this Land Conservation Plan is a breach of the Land Conservation Contract to which it is attached and incorporated by reference.

AGREEMENT AND STATEMENT BY OWNER(S):

I/we agree to comply with the provisions of this Land Conservation Plan, as it now exists or as it may be amended from time to time, for the duration of the Land Conservation Contract to which it is attached and incorporated by reference, including any and all renewals or extension of the Land Conservation Contract.

OWNER(S):

LAND CONSERVATION CONTRACT

This Contract is made by and between Nancy D. Lilly, Trustee of the Nancy D. Lilly Separate Property Living Trust, dated November 13, 2002, ("Owner(s)") and the County of Sonoma, a political subdivision of the State of California ("County"), and is dated for convenience as June 29, 2018.

RECITALS

Whereas County previously entered into a Land Conservation Contract with Owner(s) or Owner(s)' predecessors in interest, which were recorded on February 16, 1970, and is identified by Book No. 2603, Page 126, in the Official Records of the Sonoma County Recorder, ("Original Contract"); and

Whereas Owner(s) own(s) certain real property ("Subject Property") located within Sonoma County and presently identified by Assessor's Parcel Number(s): 142-111-003, and more particularly described in the legal description attached to this Contract at Exhibit "A"; and

Whereas Both Owner(s) and County desire to limit/continue to limit the use of the Subject Property to agricultural, open space, and compatible uses in order to discourage premature and unnecessary conversion of the Subject Property to uses incompatible with agricultural and/or open space use, including urban uses, recognizing that the Subject Property has substantial public value as agricultural or open space land and that the preservation of the Subject Property in agricultural production or open space constitutes an important physical, social, aesthetic, and economic asset to County and the State of California; and

OPERATIVE PROVISIONS

Now, therefore, in consideration of the foregoing recitals and the mutual promises contained herein, the substantial public benefits to be derived therefrom, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Owner(s) and County agree as follows:

A. RESCISSION OF ORIGINAL CONTRACT

The Original Contract is hereby rescinded as of the date that this Contract takes effect as to the Subject Property. If this Contract does not become effective, then the Original Contract shall remain in full force and effect, as to the Subject Property.

B. REPLACEMENT CONTRACT

1. PURPOSE. This Contract is entered into pursuant to the provisions of the California Land Conservation Act of 1965, Government Code section 51200 et seq. ("Act"), and is subject to all of the provisions of the Act as they may be amended from time to time.

2. SUBJECT PROPERTY.

(a) Owner(s) own(s) the Subject Property, located at 27255 Arnold Drive, Sonoma, and more particularly described in the legal description attached to this Contract as Exhibit "A", and incorporated herein by reference.

(b) The Subject Property is located within established Agricultural Preserve 2-238.

(c) The Subject Property is approximately 308 acres total and comprised of one (1) legal parcel.

3. TERM. This Contract shall be effective on recordation, and shall remain in effect for a term of 10 years. This Contract shall be automatically renewed for a full term on December 31st at the end of each calendar year, unless a Notice of Non-renewal is recorded as provided in Government Code section 51245 and the County's Uniform Rules for Agricultural Preserves and Farmland Security Zones ("Uniform Rules"), adopted by County Board of Supervisor's Resolution No.11-0678 pursuant to Government Code section 51231, -- to the end that at all times during this Contract, there shall be a 10-year term of restriction unless a Notice of Non-renewal has been recorded.

4. REGULATORY COMPLIANCE & RESTRICTIONS ON USE. During the term of this Contract, and all renewals and extensions thereof, the Subject Property shall not be used for any purpose other than (1) "agricultural use," or "open space use," as those phrases are defined by the Act, and (2) any use determined by County to be a "compatible use" defined and enumerated in the Uniform Rules and shall at all times be in compliance with the Uniform Rules as they may be amended from time to time.

5. LAND CONSERVATION PLAN. The use of the Subject Property shall at all times conform to the Land Conservation Plan, attached to this Contract as Exhibit "B", and made a part of this Contract. If an amendment to the Land Conservation Plan is approved by County and recorded, the amended Land Conservation Plan shall be deemed automatically incorporated into the Contract as though fully set forth herein without the need for a contract amendment, upon the renewal of the Contract.

6. UNIFORM RULES & FEES. Owner(s) and County agree that the Uniform Rules, as they now exist or as they may be amended from time to time, are incorporated by reference into this Contract as though set out in full and shall be a part of this Contract upon execution and each renewal of this Contract. Owner(s) agree(s) to comply with the Uniform Rules and agree(s) to pay all fees established by County's Board of Supervisors, if any, for the administration of County's agricultural preserve program, and for the processing of applications required by the Uniform Rules.

7. PLANNING AND ZONING. The provisions of this Contract are not intended to limit or supersede the planning and zoning powers of County.

8. CANCELLATION. This Contract may not be cancelled, except pursuant to Government Code sections 51280 through 51287, and the Uniform Rules.

9. RESCISSION. This Contract may not be rescinded, except pursuant to the provisions of the Act and the Uniform Rules, and upon the simultaneous replacement of this Contract with a replacement contract, open space easement, agricultural conservation easement, or other equivalent restriction as allowed by the Act and state law. County may require the rescission and simultaneous replacement of this Contract with a replacement contract as a condition of any proposed subdivision or lot line adjustment affecting the boundaries of the Subject Property.

10. EMINENT DOMAIN. If any action in eminent domain for the condemnation of any land described in this Contract is filed after the execution of this Contract, or if any portion of the Subject Property is acquired in lieu of condemnation, then the provisions of Government Code section 51295 apply.

11. SUCCESSORS IN INTEREST. This Contract, its terms and restrictions, shall run with the land described herein, and upon division, to all parcels created therefrom, and shall be binding upon and shall inure to the benefit of all heirs, successors, and assigns of Owner(s). This Contract shall be transferred from County to a succeeding city or a county acquiring jurisdiction over all or part of the Subject Property, except that a succeeding city may opt not to succeed to the rights, duties, and powers of the County under this Contract if the requirements of Government Code section 51243 .5 are met.

12. CERTIFICATE OF COMPLIANCE PARCELS. Owner(s) agree(s) not to apply for or obtain recognition of Certificate of Compliance parcels for all or any portion of the Subject Property for the duration of this Contract, without first obtaining the approval of County's Board of Supervisors, as provided in the Uniform Rules, unless a Notice of Non-Renewal has been recorded for the Contract and there are no more than three years remaining on the Contract's term. County may require replacement contracts for recognized Certificate of Compliance parcels.

13. ENFORCEABLE RESTRICTION. Owner(s) and County intend that the terms, conditions, and restrictions of this Contract conform to the Act, as amended, and that this

Contract qualify as an enforceable restriction under the provisions of Revenue and Taxation Code sections 421 through 429, inclusive, and within the meaning of California Constitution, article XIII, section 8.

14. REMEDIES FOR BREACH.

(a) This Contract may be enforced by County in an action filed in the Sonoma County Superior Court for the purpose of compelling compliance or restraining any breach or threatened breach thereof, after providing notice to Owner(s). The notice shall contain a general description of the condition claimed to by County to be a violation and shall contain a reasonable and specific cure period during which the violation is to cease and the Subject Property is to be restored to the condition that existed prior to the violation. Owner(s) agree(s) that County's remedies at law for any violation of the terms of this Contract are inadequate and that County shall be entitled to the injunctive relief described herein, both prohibitive and mandatory, in addition to such other relief, including damages, to which County may be entitled, including specific performance of the terms of this Contract, without the necessity of proving either actual damages or the inadequacy of otherwise available legal remedies.

(b) A breach of this Contract that constitutes a violation of the Sonoma County Zoning Code may be enforced by County pursuant to Chapter 1 of the Sonoma County Code.

(c) Without altering the provisions of paragraph 8 (Cancellation), a breach of this Contract that constitutes material breach under Government Code section 51250 may be enforced by County or the State of California pursuant to Government Code section 51250, if the requirements of that Section are met.

(d) If Owner(s) breach(es) this Contract, Owner(s) shall pay County one-half percent (1/2 %) of the restricted assessed value of the land subject to this Contract per day for each day the Contract is in breach as liquidated damages. It is understood and agreed that damages for breach of this Contract by Owner(s) are, and will continue to be, impracticable and extremely difficult to ascertain and determine. Execution of this Contract shall constitute agreement by County and Owner(s) that one-half percent (1/2 %) of the restricted assessed value of the land is the actual damage to County and the general public caused by breach of this Contract by Owner(s), and that such sum is liquidated damages and shall not be construed as a penalty. No damages shall be recoverable if the Owner(s) remedies or has commenced and thereafter diligently pursues such action required to remedy any breach or material breach within sixty (60) days after the date written notice of said breach or material breach is sent to Owner(s) by County. This provision does not impair County's ability to enforce this Contract by injunction or specific performance.

(e) The remedies set forth in this paragraph 14 are not exclusive and are not intended to displace any other remedies available to either party as provided by this Contract or any applicable local, state or federal law.

15. NO WAIVER. Enforcement of the terms of this Contract shall be at the sole discretion of County, or where applicable the State of California, and any forbearance by County

or State to exercise its rights under this Contract in the event of any violation or threatened violation by Owner(s) of any term of this Contract shall not be deemed or construed to be a waiver by County or State of such term or of any subsequent violation or threatened violation of the same or any other terms of this Contract. Any failure by County or State to act shall not be deemed a waiver or forfeiture of County's or State's right to enforce any and all of the terms of this Contract in the future.

16. CONSIDERATION. Owner(s) shall not receive any payment from County in consideration of the obligations imposed by this Contract. The parties recognize and agree that the consideration for the execution of this Contract is the substantial public benefit to be derived from this Contract and the advantage that will accrue to Owner(s) as a result of any reduction in the assessed value of the Subject Property due to the imposition of the limitations on the use of the Subject Property contained in this Contract.

17. NOTICE. Notices required to be given under this Contract, or as may otherwise be required by law in connection with the administration of this Contract, shall be made by personal service, or by first-class United States mail, to the parties as follows:

(a) To Owner(s) or successor(s) in interest of Owner(s), at the mailing address shown on the most recent assessment roll for the Subject Property; and

(b) To County, c/o the Clerk of the Board of Supervisors, 575 Administration Drive, Suite 100A, Santa Rosa, California 95403.

IN WITNESS WHEREOF, Owner(s) and County have executed this Contract as of the day and year set forth above.

EXHIBIT "A"

The real property which is the subject of this CONTRACT is situated within agricultural preserve 2-238, as shown by map thereof recorded in preserve map Book No. 4, Pages 6 & 14 for the contract entered on November 9, 1971, in the Office of the County Recorder of Sonoma County, California, and said real property is more particularly described as follows:

LEGAL DESCRIPTION

EXHIBIT A

The land referred to herein below is situated in the Unincorporated Area, County of Sonoma, State of California, and is described as follows:

Parcel One:

Being a portion of the lands of O. D. Donnell, Jr., as described in that Deed recorded in Book 540 of Official Records, page 422, Sonoma County Records, and being a portion of Fields 25 and 33, as shown upon the map entitled "Lakeville Stock Farms", filed in the Office of the County Recorder in Book 50 of Maps, at page 11, Sonoma County records, said portion being more particularly described as follows:

Beginning at the most Northerly corner of Field 25 as shown on the abovementioned map; thence South 45° 42' 29" West (m), 29.62' (c) to a set iron pipe; thence South 45° 30' 44" West, 830.37' (m) to a set iron pipe; thence North 44° 07' 31" West, 4998.56' (m) to a set iron pipe; thence North 67° 03' 42" East, 2722.71' (m) to a set iron pipe, said iron pipe being hereinafter referred to as Point "C"; thence North 11° 34' 14" West, 46.92' (m) to a set iron pipe; thence North 107.17' (m) to a set iron pipe; thence North 43° 40' 29" East, 265.12' (m) to a set iron pipe; thence North 8° 19' 10" East, 123.11' (m) to a set iron pipe; thence North 51° 42' 08" West, 213.01' (m) to a set iron pipe; thence North 53° 03' 12" East, 559.59' (m) to a set iron pipe; thence North 27° 31' 46" West, 606.58' (m) to a set iron pipe; thence North 22° 36' 21" West, 461.90' (m) to a set iron pipe; thence North 58° 20' 04" West, 63.03' (m) to a set iron pipe; thence North 18° 14' 30" West, 483.68' (m) to a set iron pipe; thence North 68° 58' 44" West, 121.55' (m) to a set iron pipe; thence North 14° 01' 21" East, 147.47' (m) to a set iron pipe; thence North 22° 36' 21" West, 307.71' (m) to a set iron pipe; thence North 28° 17' 03" West, 90.92' (m) to a set iron pipe, said iron pipe being hereinafter referred to as Point "D"; thence North 62° 41' 19" East, 69.23' (m) to a set iron pipe, said pipe marking the Southwesterly corner of that 20' wide strip of land granted to Dewey Donnell as described in that Deed recorded in Book 1263 of Official Records, page 278, Sonoma County Records, said corner also being on the Northeasterly line of said lands of O.D. Donnell, Jr., and said corner being hereinafter referred to as Point "A"; thence South 22° 36' 21" East, 1598.84' (m) (deed: S22° 50'E), along the Northeasterly line of said lands of Donnell, to a found 1 ¼" iron bar, said bar being shown on the map of Lakeville Stock Farms; thence South 27° 31' 46" East, 4018.79' (m) (deed: S27° 31' 30"E, 4026.3'), to a found 1" iron pipe tagged RE 2439; thence continuing South 27° 31' 46" East, 5.00' (m) to the corner common to Fields 26 and 33; thence North 67° 00' 00" East, 20.00' (r); thence South 44° 42' 00" East, 787.47' (r); thence South 4° 28' 00" West, 380.61' (r); thence South 45° 26' 30" West, 1490.07' (r) to the true point of beginning. All set iron pipes are ½"x 30" and are tagged LS 4483.

Parcel Two:

An easement for roadway and public utility purposes described as follows:

Beginning at the abovementioned Point "A"; thence south 62° 41' 19" West, 69.23' (m) to a set iron pipe; thence North 14° 13' 35" West, 61.73' (m); thence North 62° 10' 11" East, 60.25' (m) to a point on the Northeasterly line of the abovementioned lands of Donnell; thence South 22° 36' 21" East, 40.88' (m) to the Northwesterly corner of the lands of Dewey Donnell as described in that Deed recorded in Book 1263 of Official Records, page 278, Sonoma County Records; thence along the Northerly, Easterly and Southerly line of said lands North 67° 12' 38" East, 980.87' (m) (deed: N67° 20'E, 982.01'); thence South 16° 07' 54" East, 20.13' (m) (deed: S16° 00'E, 20'); thence South 67° 12' 38" West, 978.60' (m) (deed: S67° 20'W, 982.0') to the true point of beginning.

Note: This description was prepared from data derived through a combination of calculations, field surveys, and record information. Courses that were established from measurements derived from a field survey are followed by the notation (m). Courses that were not surveyed by derived strictly form calculations are followed by the notations (c). Courses that were not surveyed but derived from record information (deeds, maps, highway and railroad drawings) are followed by the notations (r).

A.P. No.: 142-111-003

EXHIBIT "B"

LAND CONSERVATION PLAN

This Land Conservation Plan is made by and between Nancy D. Lilly, Trustee of the Nancy D. Lilly Separate Property Living Trust, dated November 13, 2002, ("Owner(s)") and the County of Sonoma, a political subdivision of the State of California ("County"), and is hereby incorporated by reference into the Land Conservation Contract to which it is attached as though fully set forth therein ("Contract").

1. PURPOSE. The purpose of this Land Conservation Plan is to identify the approximate location and acreage of designated uses to which the Subject Property is or may be used during the term of the Land Conservation Contract consistent with the terms of the Land Conservation Contract, the Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones ("Uniform Rules"), and the California Land Conservation Act (Government Code section 51200 et seq.), as they now exist, or as they may be amended from time to time.

2. DEFINITIONS.

a. "Subject Property," shall have the same meaning as the term "Subject Property," as used in the Contract.

b. "Prime Agricultural Use," means the use of "Prime Agricultural Land," for one or more "Agricultural Use," as those phrases are defined in the Uniform Rules.

c. "Non-Prime Agricultural Use," means the use of "Non-prime Agricultural Land," for one or more "Agricultural Use," as those phrases are defined in the Uniform Rules.

d. "Open Space Use," means the use of "Open Space Land for an "Open Space Use," as those phrases are defined in the Uniform Rules.

e. "Compatible Use," shall have the same meaning as the term "Compatible Use," as used in the Uniform Rules.

f. "Undesignated Area," means portion of land under the Contract that is vacant and potentially available for any qualifying agricultural and/or compatible use, consistent with the terms of the Contract, the Uniform Rules, and the Land Conservation Act, as they now exist or as they may be amended from time to time. Use of the "Undesignated Area," for agricultural or compatible use requires amendment of this Land Conservation Plan.

3. DESIGNATED LAND USES. Owner(s) agree to manage and maintain the Subject Property in a manner that ensures that the following designated uses will conform to the identified acreage and location at all times during the term of the Contract and any extensions thereof. Any proposed change to a designated use, acreage, and/or location, requires amendment of this Land Conservation Plan.

Designated Use	Acreage		Location
PRIME AGRICULTURAL USE(S):	24.00±	acres	See Site Plan
NON-PRIME AGRICULTURAL USE(S):	284.00±	acres	See Site Plan
TOTAL:	308.00±	acres	

4. SITE PLAN. A site plan showing the location of the designated uses described in paragraph 3, above, is attached and incorporated by reference into this Land Conservation Plan. Any proposed change to the Site Plan requires amendment of this Land Conservation Plan.

5. AMENDMENT TO LAND CONSERVATION PLAN.

a. Any change to the acreage or location of the designated uses described in paragraph 3, above, requires written amendment to this Land Conservation Plan, consistent with the Land Conservation Contract, Uniform Rules, and Land Conservation Act, as they now exist or as they may be amended from time to time.

b. Owner(s), or Owner(s) predecessor(s) in interest, may apply to the Permit and Resource Management Department (PRMD) for an amendment of this Land Conservation Plan. With the approval of the Director of PRMD, Owner(s) or Owner(s)' predecessor in interest may designate an agent to file an application for amendment of this Land Conservation Plan on their behalf.

c. The Board of Supervisors, or its designee, shall consider and decide all requests to amend this Land Conservation Plan.

d. All amendments to this Land Conservation Plan are deemed automatically incorporated into the Land Conservation Contract to which it applies, upon approval by the Board of Supervisors or its designee, and upon recordation of the executed amendment with the Sonoma County Recorder's Office.

e. For purposes of property tax assessment, any amendment to the Land Conservation Plan or Land Conservation Contract will be recognized by the Sonoma County Assessor's Office on the January 1st lien date of the year following the year in which the amendment is recorded, consistent with Revenue and Taxation Code sec. 430.5.

6. BREACH. Failure to conform to this Land Conservation Plan is a breach of the Land Conservation Contract to which it is attached and incorporated by reference.

AGREEMENT AND STATEMENT BY OWNER(S):

I/we agree to comply with the provisions of this Land Conservation Plan, as it now exists or as it may be amended from time to time, for the duration of the Land Conservation Contract to which it is attached and incorporated by reference, including any and all renewals or extension of the Land Conservation Contract.

OWNER(S):

LAND CONSERVATION CONTRACT

This Contract is made by and between Nancy D. Lilly, Trustee of the Nancy D. Lilly Separate Property Living Trust, dated November 13, 2002, ("Owner(s)") and the County of Sonoma, a political subdivision of the State of California ("County"), and is dated for convenience as June 29, 2018

RECITALS

Whereas County previously entered into two Land Conservation Contracts with Owner(s) or Owner(s)' predecessors in interest, which were recorded on February 27, 1970, and is identified by Book No. 2447, Page 478, and on February 16, 1972, and is identified by Book No. 2603, Page 126, in the Official Records of the Sonoma County Recorder, ("Original Contract"); and

Whereas Owner(s) own(s) certain real property ("Subject Property") located within Sonoma County and presently identified by Assessor's Parcel Number(s): 068-080-005 and 068-090-012, and more particularly described in the legal description attached to this Contract at Exhibit "A"; and

Whereas Both Owner(s) and County desire to limit/continue to limit the use of the Subject Property to agricultural, open space, and compatible uses in order to discourage premature and unnecessary conversion of the Subject Property to uses incompatible with agricultural and/or open space use, including urban uses, recognizing that the Subject Property has substantial public value as agricultural or open space land and that the preservation of the Subject Property in agricultural production or open space constitutes an important physical, social, aesthetic, and economic asset to County and the State of California; and

OPERATIVE PROVISIONS

Now, therefore, in consideration of the foregoing recitals and the mutual promises contained herein, the substantial public benefits to be derived therefrom, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Owner(s) and County agree as follows:

A. RESCISSION OF ORIGINAL CONTRACT

The Original Contract is hereby rescinded as of the date that this Contract takes effect as to the Subject Property. If this Contract does not become effective, then the Original Contract shall remain in full force and effect, as to the Subject Property.

B. REPLACEMENT CONTRACT

1. PURPOSE. This Contract is entered into pursuant to the provisions of the California Land Conservation Act of 1965, Government Code section 51200 et seq. ("Act"), and is subject to all of the provisions of the Act as they may be amended from time to time.

2. SUBJECT PROPERTY.

(a) Owner(s) own(s) the Subject Property, located at 27255 Arnold Drive, Sonoma, and more particularly described in the legal description attached to this Contract as Exhibit "A", and incorporated herein by reference.

(b) The Subject Property is located within established Agricultural Preserve 2-238.

(c) The Subject Property is approximately 554 acres total and comprised of one (1) legal parcel.

3. TERM. This Contract shall be effective on recordation, and shall remain in effect for a term of 10 years. This Contract shall be automatically renewed for a full term on December 31st at the end of each calendar year, unless a Notice of Non-renewal is recorded as provided in Government Code section 51245 and the County's Uniform Rules for Agricultural Preserves and Farmland Security Zones ("Uniform Rules"), adopted by County Board of Supervisor's Resolution No.11-0678 pursuant to Government Code section 51231, -- to the end that at all times during this Contract, there shall be a 10-year term of restriction unless a Notice of Non-renewal has been recorded.

4. REGULATORY COMPLIANCE & RESTRICTIONS ON USE. During the term of this Contract, and all renewals and extensions thereof, the Subject Property shall not be used for any purpose other than (1) "agricultural use," or "open space use," as those phrases are defined by the Act, and (2) any use determined by County to be a "compatible use" defined and enumerated in the Uniform Rules and shall at all times be in compliance with the Uniform Rules as they may be amended from time to time.

5. LAND CONSERVATION PLAN. The use of the Subject Property shall at all times conform to the Land Conservation Plan, attached to this Contract as Exhibit "B", and made a part of this Contract. If an amendment to the Land Conservation Plan is approved by County and recorded, the amended Land Conservation Plan shall be deemed automatically incorporated

into the Contract as though fully set forth herein without the need for a contract amendment, upon the renewal of the Contract.

6. UNIFORM RULES & FEES. Owner(s) and County agree that the Uniform Rules, as they now exist or as they may be amended from time to time, are incorporated by reference into this Contract as though set out in full and shall be a part of this Contract upon execution and each renewal of this Contract. Owner(s) agree(s) to comply with the Uniform Rules and agree(s) to pay all fees established by County's Board of Supervisors, if any, for the administration of County's agricultural preserve program, and for the processing of applications required by the Uniform Rules.

7. PLANNING AND ZONING. The provisions of this Contract are not intended to limit or supersede the planning and zoning powers of County.

8. CANCELLATION. This Contract may not be cancelled, except pursuant to Government Code sections 51280 through 51287, and the Uniform Rules.

9. RESCISSION. This Contract may not be rescinded, except pursuant to the provisions of the Act and the Uniform Rules, and upon the simultaneous replacement of this Contract with a replacement contract, open space easement, agricultural conservation easement, or other equivalent restriction as allowed by the Act and state law. County may require the rescission and simultaneous replacement of this Contract with a replacement contract as a condition of any proposed subdivision or lot line adjustment affecting the boundaries of the Subject Property.

10. EMINENT DOMAIN. If any action in eminent domain for the condemnation of any land described in this Contract is filed after the execution of this Contract, or if any portion of the Subject Property is acquired in lieu of condemnation, then the provisions of Government Code section 51295 apply.

11. SUCCESSORS IN INTEREST. This Contract, its terms and restrictions, shall run with the land described herein, and upon division, to all parcels created therefrom, and shall be binding upon and shall inure to the benefit of all heirs, successors, and assigns of Owner(s). This Contract shall be transferred from County to a succeeding city or a county acquiring jurisdiction over all or part of the Subject Property, except that a succeeding city may opt not to succeed to the rights, duties, and powers of the County under this Contract if the requirements of Government Code section 51243 .5 are met.

12. CERTIFICATE OF COMPLIANCE PARCELS. Owner(s) agree(s) not to apply for or obtain recognition of Certificate of Compliance parcels for all or any portion of the Subject Property for the duration of this Contract, without first obtaining the approval of County's Board of Supervisors, as provided in the Uniform Rules, unless a Notice of Non-Renewal has been recorded for the Contract and there are no more than three years remaining on the Contract's term. County may require replacement contracts for recognized Certificate of Compliance parcels.

13. <u>ENFORCEABLE RESTRICTION</u>. Owner(s) and County intend that the terms, conditions, and restrictions of this Contract conform to the Act, as amended, and that this Contract qualify as an enforceable restriction under the provisions of Revenue and Taxation Code sections 421 through 429, inclusive, and within the meaning of California Constitution, article XIII, section 8.

14. <u>REMEDIES FOR BREACH</u>.

(a) This Contract may be enforced by County in an action filed in the Sonoma County Superior Court for the purpose of compelling compliance or restraining any breach or threatened breach thereof, after providing notice to Owner(s). The notice shall contain a general description of the condition claimed to by County to be a violation and shall contain a reasonable and specific cure period during which the violation is to cease and the Subject Property is to be restored to the condition that existed prior to the violation. Owner(s) agree(s) that County's remedies at law for any violation of the terms of this Contract are inadequate and that County shall be entitled to the injunctive relief described herein, both prohibitive and mandatory, in addition to such other relief, including damages, to which County may be entitled, including specific performance of the terms of this Contract, without the necessity of proving either actual damages or the inadequacy of otherwise available legal remedies.

(b) A breach of this Contract that constitutes a violation of the Sonoma County Zoning Code may be enforced by County pursuant to Chapter 1 of the Sonoma County Code.

(c) Without altering the provisions of paragraph 8 (Cancellation), a breach of this Contract that constitutes material breach under Government Code section 51250 may be enforced by County or the State of California pursuant to Government Code section 51250, if the requirements of that Section are met.

(d) If Owner(s) breach(es) this Contract, Owner(s) shall pay County one-half percent (1/2 %) of the restricted assessed value of the land subject to this Contract per day for each day the Contract is in breach as liquidated damages. It is understood and agreed that damages for breach of this Contract by Owner(s) are, and will continue to be, impracticable and extremely difficult to ascertain and determine. Execution of this Contract shall constitute agreement by County and Owner(s) that one-half percent (1/2 %) of the restricted assessed value of the land is the actual damage to County and the general public caused by breach of this Contract by Owner(s), and that such sum is liquidated damages and shall not be construed as a penalty. No damages shall be recoverable if the Owner(s) remedies or has commenced and thereafter diligently pursues such action required to remedy any breach or material breach within sixty (60) days after the date written notice of said breach or material breach is sent to Owner(s) by County. This provision does not impair County's ability to enforce this Contract by injunction or specific performance.

(e) The remedies set forth in this paragraph 14 are not exclusive and are not intended to displace any other remedies available to either party as provided by this Contract or any applicable local, state or federal law.

15. NO WAIVER. Enforcement of the terms of this Contract shall be at the sole discretion of County, or where applicable the State of California, and any forbearance by County or State to exercise its rights under this Contract in the event of any violation or threatened violation by Owner(s) of any term of this Contract shall not be deemed or construed to be a waiver by County or State of such term or of any subsequent violation or threatened violation of the same or any other terms of this Contract. Any failure by County or State to act shall not be deemed a waiver or forfeiture of County's or State's right to enforce any and all of the terms of this Contract in the future.

16. CONSIDERATION. Owner(s) shall not receive any payment from County in consideration of the obligations imposed by this Contract. The parties recognize and agree that the consideration for the execution of this Contract is the substantial public benefit to be derived from this Contract and the advantage that will accrue to Owner(s) as a result of any reduction in the assessed value of the Subject Property due to the imposition of the limitations on the use of the Subject Property contained in this Contract.

17. NOTICE. Notices required to be given under this Contract, or as may otherwise be required by law in connection with the administration of this Contract, shall be made by personal service, or by first-class United States mail, to the parties as follows:

(a) To Owner(s) or successor(s) in interest of Owner(s), at the mailing address shown on the most recent assessment roll for the Subject Property; and

(b) To County, c/o the Clerk of the Board of Supervisors, 575 Administration Drive, Suite 100A, Santa Rosa, California 95403.

IN WITNESS WHEREOF, Owner(s) and County have executed this Contract as of the day and year set forth above.

EXHIBIT "A"

The real property which is the subject of this CONTRACT is situated within agricultural preserve 2-238, as shown by map thereof recorded in preserve map Book Number 1, Pages 4 & 6 for the contract entered on February 24, 1970, and Book Number 4, Pages 6 & 14 for the contract entered on November 9, 1971, in the Office of the County Recorder of Sonoma County, California, and said real property is more particularly described as follows:

LEGAL DESCRIPTION

EXHIBIT A

The land referred to herein below is situated in the Unincorporated Area, County of Sonoma, State of California, and is described as follows:

Parcel One:

Being a portion of the lands of O. D. Donnell, Jr., as described in that Deed recorded in Book 540 of Official Records, page 422, Sonoma County Records, and being a portion of Fields 25 and 33, as shown upon the map entitled "Lakeville Stock Farms", filed in the Office of the County Recorder in Book 50 of Maps, at page 11, Sonoma County records, said portion being more particularly described as follows:

Beginning at the most Northerly corner of Field 25 as shown on the abovementioned map; thence South 45° 42' 29" West (m), 29.62' (c) to a set iron pipe; thence South 45° 30' 44" West, 830.37' (m) to a set iron pipe; thence North 44° 07' 31" West, 4998.56' (m) to a set iron pipe; thence North 67° 03' 42" East, 2722.71' (m) to a set iron pipe, said iron pipe being hereinafter referred to as Point "C"; thence North 11° 34' 14" West, 46.92' (m) to a set iron pipe; thence North 107.17' (m) to a set iron pipe; thence North 43° 40' 29" East, 265.12' (m) to a set iron pipe; thence North 8° 19' 10" East, 123.11' (m) to a set iron pipe; thence North 51° 42' 08" West, 213.01' (m) to a set iron pipe; thence North 53° 03' 12" East, 559.59' (m) to a set iron pipe; thence North 27° 31' 46" West, 606.58' (m) to a set iron pipe; thence North 22° 36' 21" West, 461.90' (m) to a set iron pipe; thence North 58° 20' 04" West, 63.03' (m) to a set iron pipe; thence North 18° 14' 30" West, 483.68' (m) to a set iron pipe; thence North 68° 58' 44" West, 121.55' (m) to a set iron pipe; thence North 14° 01' 21" East, 147.47' (m) to a set iron pipe; thence North 22° 36' 21" West, 307.71' (m) to a set iron pipe; thence North 28° 17' 03" West, 90.92' (m) to a set iron pipe, said iron pipe being hereinafter referred to as Point "D"; thence North 62° 41' 19" East, 69.23' (m) to a set iron pipe, said pipe marking the Southwesterly corner of that 20' wide strip of land granted to Dewey Donnell as described in that Deed recorded in Book 1263 of Official Records, page 278, Sonoma County Records, said corner also being on the Northeasterly line of said lands of O.D. Donnell, Jr., and said corner being hereinafter referred to as Point "A"; thence South 22° 36' 21" East, 1598.84' (m) (deed: S22° 50'E), along the Northeasterly line of said lands of Donnell, to a found 1 ¼" iron bar, said bar being shown on the map of Lakeville Stock Farms; thence South 27° 31' 46" East, 4018.79' (m) (deed: S27° 31' 30"E, 4026.3'), to a found 1" iron pipe tagged RE 2439; thence continuing South 27° 31' 46" East, 5.00' (m) to the corner common to Fields 26 and 33; thence North 67° 00' 00" East, 20.00' (r); thence South 44° 42' 00" East, 787.47' (r); thence South 4° 28' 00" West, 380.61' (r); thence South 45° 26' 30" West, 1490.07' (r) to the true point of beginning. All set iron pipes are ½"x 30" and are tagged LS 4483.

Parcel Two:

An easement for roadway and public utility purposes described as follows:

Beginning at the abovementioned Point "A"; thence south 62° 41' 19" West, 69.23' (m) to a set iron pipe; thence North 14° 13' 35" West, 61.73' (m); thence North 62° 10' 11" East, 60.25' (m) to a point on the Northeasterly line of the abovementioned lands of Donnell; thence South 22° 36' 21" East, 40.88' (m) to the Northwesterly corner of the lands of Dewey Donnell as described in that Deed recorded in Book 1263 of Official Records, page 278, Sonoma County Records; thence along the Northerly, Easterly and Southerly line of said lands North 67° 12' 38" East, 980.87' (m) (deed: N67° 20'E, 982.01'); thence South 16° 07' 54" East, 20.13' (m) (deed: S16° 00'E, 20'); thence South 67° 12' 38" West, 978.60' (m) (deed: S67° 20'W, 982.0') to the true point of beginning.

Note: This description was prepared from data derived through a combination of calculations, field surveys, and record information. Courses that were established from measurements derived from a field survey are followed by the notation (m). Courses that were not surveyed by derived strictly form calculations are followed by the notations (c). Courses that were not surveyed but derived from record information (deeds, maps, highway and railroad drawings) are followed by the notations (r).

A.P. No.: 142-111-003

EXHIBIT "B"

LAND CONSERVATION PLAN

This Land Conservation Plan is made by and between Nancy D. Lilly, Trustee of the Nancy D. Lilly Separate Property Living Trust, dated November 13, 2002, ("Owner(s)") and the County of Sonoma, a political subdivision of the State of California ("County"), and is hereby incorporated by reference into the Land Conservation Contract to which it is attached as though fully set forth therein ("Contract").

1. PURPOSE. The purpose of this Land Conservation Plan is to identify the approximate location and acreage of designated uses to which the Subject Property is or may be used during the term of the Land Conservation Contract consistent with the terms of the Land Conservation Contract, the Sonoma County Uniform Rules for Agricultural Preserves and Farmland Security Zones ("Uniform Rules"), and the California Land Conservation Act (Government Code section 51200 et seq.), as they now exist, or as they may be amended from time to time.

2. DEFINITIONS.

   a. "Subject Property," shall have the same meaning as the term "Subject Property," as used in the Contract.

   b. "Prime Agricultural Use," means the use of "Prime Agricultural Land," for one or more "Agricultural Use," as those phrases are defined in the Uniform Rules.

   c. "Non-Prime Agricultural Use," means the use of "Non-prime Agricultural Land," for one or more "Agricultural Use," as those phrases are defined in the Uniform Rules.

   d. "Open Space Use," means the use of "Open Space Land for an "Open Space Use," as those phrases are defined in the Uniform Rules.

   e. "Compatible Use," shall have the same meaning as the term "Compatible Use," as used in the Uniform Rules.

   f. "Undesignated Area," means portion of land under the Contract that is vacant and potentially available for any qualifying agricultural and/or compatible use, consistent with the terms of the Contract, the Uniform Rules, and the Land Conservation Act, as they now exist or as they may be amended from time to time. Use of the "Undesignated Area," for agricultural or compatible use requires amendment of this Land Conservation Plan.

3. DESIGNATED LAND USES. Owner(s) agree to manage and maintain the Subject Property in a manner that ensures that the following designated uses will conform to the identified acreage and location at all times during the term of the Contract and any extensions thereof. Any proposed change to a designated use, acreage, and/or location, requires amendment of this Land Conservation Plan.

Designated Use	Acreage		Location
PRIME AGRICULTURAL USE(S):	11.70 ±	acres	See Site Plan
NON-PRIME AGRICULTURAL USE(S):	540.10±	acres	See Site Plan
COMPATIBLE USE(S):	2.20±	acres	See Site Plan
TOTAL:	554.00±	acres	

4. SITE PLAN. A site plan showing the location of the designated uses described in paragraph 3, above, is attached and incorporated by reference into this Land Conservation Plan. Any proposed change to the Site Plan requires amendment of this Land Conservation Plan.

5. AMENDMENT TO LAND CONSERVATION PLAN.

a. Any change to the acreage or location of the designated uses described in paragraph 3, above, requires written amendment to this Land Conservation Plan, consistent with the Land Conservation Contract, Uniform Rules, and Land Conservation Act, as they now exist or as they may be amended from time to time.

b. Owner(s), or Owner(s) predecessor(s) in interest, may apply to the Permit and Resource Management Department (PRMD) for an amendment of this Land Conservation Plan. With the approval of the Director of PRMD, Owner(s) or Owner(s)' predecessor in interest may designate an agent to file an application for amendment of this Land Conservation Plan on their behalf.

c. The Board of Supervisors, or its designee, shall consider and decide all requests to amend this Land Conservation Plan.

d. All amendments to this Land Conservation Plan are deemed automatically incorporated into the Land Conservation Contract to which it applies, upon approval by the Board of Supervisors or its designee, and upon recordation of the executed amendment with the Sonoma County Recorder's Office.

e. For purposes of property tax assessment, any amendment to the Land Conservation Plan or Land Conservation Contract will be recognized by the Sonoma County Assessor's Office on the January 1st lien date of the year following the year in which the amendment is recorded, consistent with Revenue and Taxation Code sec. 430.5.

6. BREACH. Failure to conform to this Land Conservation Plan is a breach of the Land Conservation Contract to which it is attached and incorporated by reference.

AGREEMENT AND STATEMENT BY OWNER(S):

I/we agree to comply with the provisions of this Land Conservation Plan, as it now exists or as it may be amended from time to time, for the duration of the Land Conservation Contract to which it is attached and incorporated by reference, including any and all renewals or extension of the Land Conservation Contract.

Staff Name and Phone Number:	Christine Williams, 565-2145 Sharon Post, 565-1119	**Supervisorial District(s):**	Countywide
Title:	Grants from the Justice and Mental Health Collaboration Program and Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness Program		

Recommended Actions:

Accept $750,000 revenue from the Bureau of Justice Assistance's "Justice and Mental Health Collaboration Program" for services through December 31, 2021.

Accept $750,000 revenue from the Bureau of Justice Assistance's "Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness" program for services through December 31, 2021.

The two grants will serve similar purposes of helping people with mental health and substance use disorders receive treatment and avoid unnecessary incarceration.

Executive Summary:

Members of the Mentally Ill Offender Task Force, comprising representatives from the Probation Department, the Sheriff's Office, and the Department of Health Services, submitted two grant applications to the Bureau of Justice Assistance in May 2018, both of which were successful. Sonoma County has been awarded $750,000 for each of the two proposed projects, which provide three years of funding to address individuals in the criminal justice system who have mental health and substance use disorders. The goals are to reduce unnecessary incarceration, provide treatment and services to improve offender outcomes, and increase public safety. This report recommends that the Board accept both $750,000 grants.

Discussion:

Justice and Mental Health Collaboration Program

In 2016, the Board accepted a $250,000 grant from the Bureau of Justice Assistance's Justice and Mental Health Collaboration Program to develop and implement strategies that divert some people with mental illness from incarceration. In the two years since, the Mentally Ill Offender Task Force overseeing the grant deployed funding toward a behavioral health clinician to identify incarcerated individuals who may be suitable for diversion and treatment services upon returning to the community. Additionally, the Task Force used grant funds to conduct a sequential intercept mapping exercise that identified "intercept points" where people with mental illness contact the criminal justice system, and identified potential alternatives to incarceration as well as opportunities for various county departments to handle these cases collaboratively. The sequential intercept map helped identify gaps in our mental health and justice systems, along with strategies to address the gaps, which in turn informed the projects proposed here.

The 2018 Justice and Mental Health Collaboration Program grant will build upon the 2016 grant by providing the supports that participants need to be successful in the community. Specifically, the grant will fund 1) an eight-bed supported housing facility for use by individuals on pretrial release with mental illness or substance use disorders, 2) courses such as Moving On Female Empowerment Program, Seeking Safety, and Acceptance and Commitment Therapy, and 3) an evaluation to determine whether the program is achieving its objectives. The grant allows a planning period through June 30, 2019, during which the Mentally Ill Offender Task Force will determine details such as the housing location and the measures upon which the evaluation will focus.

All grant funds will pass through to outside organizations, which have been selected or will be selected through open request for proposals processes. As an in-kind match, the County will provide the following services:

Probation Department: Administrative duties, working with an outside organization to evaluate process and outcomes data, and providing community supervision to program participants. Additionally, Probation will deliver Cognitive Behavioral Intervention courses to pretrial participants with mental illness or substance use disorders. This is the evidence-based course currently provided to offenders at the Sonoma County Day Reporting Center.

Sheriff's Office: Review history of violence and perform pretrial risk assessments of potential participants, although the passage of Senate Bill 10 may affect how risk assessments are performed. This review will identify individuals who are likely to make required court appearances and not pose public safety risks.

Department of Health Services: Provide a Behavioral Health Clinician at the Main Adult Detention Facility. This existing position will continue to screen potential candidates for the pretrial release and provide a warm hand-off for prospective candidates to intensive case management.

Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness

Similar to the program above, the Improving Reentry program will focus on treatment and protecting public safety while avoiding unnecessary incarceration. However, this program is different in that it will focus exclusively on individuals with co-occurring substance abuse and mental illness, will treat convicted offenders rather than pretrial defendants, and will begin treating individuals while they are still incarcerated.

The Improving Reentry grant will primarily fund outside organizations for 1) integrated treatment for inmates with co-occurring substance abuse and mental illness, focused on preparing inmates transitioning to the community, 2) case management which coordinates with jail discharge planning staff to provide participants a warm handoff to peer navigation and treatment services upon reentering the community, and 3) evaluation to determine whether the program is achieving its objectives. Additionally, the Probation Department and Sheriff's Office will perform project coordination and management duties, such as ensuring that programs are serving the intended populations, supporting the Mentally Ill Offender Task Force in developing a sustainability plan, refining protocols for reviewing case plans and sharing information, and fulfilling the grant's administrative requirements. The grant allows a planning period through September 30, 2019, during which the Mentally Ill Offender Task Force will determine details such as case management strategies and the measures upon which the evaluation will focus.

Aside from administrative duties, all grant funds will pass through to outside organizations, all of which currently provide similar services after having been selected through open request for proposals processes. Unlike the grant above, the Improving Reentry grant has no match requirement.

Conclusion

In issuing each of these grants, the Bureau of Justice Assistance recognizes that communities such as Sonoma County have high-risk populations with mental health and substance use disorders who enter the criminal justice system and then receive inadequate treatment, only to recidivate and continue the cycle. These programs aim to break the cycle by collaboratively identifying individuals needing treatment, engaging a broad range of community services, and thoroughly addressing criminogenic risks. The intended outcomes are reduced recidivism and improved public safety and public health. Additionally, as both grants fund program evaluations, we expect to receive data that will inform decisions about continuing the programs after the grants expire.

Prior Board Actions:

November 15, 2016: Board accepted funds from the 2016 Justice and Mental Health Collaboration Program

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

Providing more treatment for mentally ill and drug-abusing defendants and offenders is expected to improve public health and decrease recidivism, resulting in a safer community.

Fiscal Summary			
Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**

Narrative Explanation of Fiscal Impacts:

Probation and Health Departments

Federal funds of $750,000 from the Justice and Mental Health Collaboration Program will be appropriated throughout the three-year project. Funding begins on January 1, 2019. Appropriations for FY 18-19 will be included in second quarter Consolidated Budget Adjustments from the Probation Department. Adjustments will be fully offset by grant revenue.

Sheriff's Office

Federal funds of $750,000 from the Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness Program will be appropriated throughout the three-year project. Sonoma County is eligible for funding as of October 1, 2018. Appropriations for FY 18-19 will be included in second quarter Consolidated Budget Adjustments from the Sheriff's Office. Adjustments will be fully offset by grant revenue.

Santa Rosa, CA 95403-2871

Dear Ms. Bratton:

On behalf of Attorney General Jefferson Sessions III, it is my pleasure to inform you that the Office of Justice Programs has approved your application for funding under the FY 18 Justice and Mental Health Collaboration Program in the amount of $750,000 for County of Sonoma.

Enclosed you will find the Grant Award and Special Conditions documents. This award is subject to all administrative and financial requirements, including the timely submission of all financial and programmatic reports, resolution of all interim audit findings, and the maintenance of a minimum level of cash-on-hand. Should you not adhere to these requirements, you will be in violation of the terms of this agreement and the award will be subject to termination for cause or other administrative action as appropriate.

If you have questions regarding this award, please contact:

- Program Questions, NiKisha Love, Program Manager at (202) 616-8241; and
- Financial Questions, the Office of the Chief Financial Officer, Customer Service Center (CSC) at (800) 458-0786, or you may contact the CSC at ask.ocfo@usdoj.gov.

Congratulations, and we look forward to working with you.

Sincerely,

Matt Dummermuth

OCR Letter to All Recipients

September 26, 2018

Ms. Sheryl Bratton
County of Sonoma
575 Administration Drive, Room 104A
Santa Rosa, CA 95403-2871

Dear Ms. Bratton:

Congratulations on your recent award. In establishing financial assistance programs, Congress linked the receipt of federal funding to compliance with federal civil rights laws. The Office for Civil Rights (OCR), Office of Justice Programs (OJP), U.S. Department of Justice (DOJ) is responsible for ensuring that recipients of financial assistance from the OJP, the Office of Community Oriented Policing Services (COPS), and the Office on Violence Against Women (OVW) comply with the applicable federal civil rights laws. We at the OCR are available to help you and your organization meet the civil rights requirements that come with DOJ funding.

Ensuring Access to Federally Assisted Programs

Federal laws that apply to recipients of financial assistance from the DOJ prohibit discrimination on the basis of race, color, national origin, religion, sex, or disability in funded programs or activities, not only in employment but also in the delivery of services or benefits. A federal law also prohibits recipients from discriminating on the basis of age in the delivery of services or benefits.

In March of 2013, President Obama signed the Violence Against Women Reauthorization Act of 2013. The statute amends the Violence Against Women Act of 1994 (VAWA) by including a nondiscrimination grant condition that prohibits discrimination based on actual or perceived race, color, national origin, religion, sex, disability, sexual orientation, or gender identity. The new nondiscrimination grant condition applies to certain programs funded after October 1, 2013. The OCR and the OVW have developed answers to some frequently asked questions about this provision to assist recipients of VAWA funds to understand their obligations. The Frequently Asked Questions are available at https://ojp.gov/about/ocr/vawafaqs.htm.

Enforcing Civil Rights Laws

All recipients of federal financial assistance, regardless of the particular funding source, the amount of the grant award, or the number of employees in the workforce, are subject to prohibitions against unlawful discrimination. Accordingly, the OCR investigates recipients that are the subject of discrimination complaints from both individuals and groups. In addition, based on regulatory criteria, the OCR selects a number of recipients each year for compliance reviews, audits that require recipients to submit data showing that they are providing services equitably to all segments of their service population and that their employment practices meet equal opportunity standards.

Providing Services to Limited English Proficiency (LEP) Individuals

In accordance with DOJ guidance pertaining to Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, recipients of federal financial assistance must take reasonable steps to provide meaningful access to their programs and activities for persons with limited English proficiency (LEP). See U.S. Department of Justice, Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons, 67 Fed. Reg. 41,455 (2002). For more information on the civil rights responsibilities that recipients have in providing language services to LEP individuals, please see the website https://www.lep.gov.

Ensuring Equal Treatment of Faith-Based Organizations and Safeguarding Constitutional Protections Related to Religion

The DOJ regulation, Partnerships with Faith-Based and Other Neighborhood Organizations, 28 C.F.R. pt. 38, updated in April 2016, prohibits all recipient organizations, whether they are law enforcement agencies, governmental agencies, educational institutions, houses of worship, or faith-based organizations, from using financial assistance from the DOJ to fund explicitly religious activities. Explicitly religious activities include worship, religious instruction, or proselytization. While funded organizations may engage in non-funded explicitly religious activities (e.g., prayer), they must hold them separately from the activities funded by the DOJ, and recipients cannot compel beneficiaries to participate in them. The regulation also makes clear that organizations participating in programs funded by the DOJ are not permitted to discriminate in the provision of services on the basis of a beneficiary's religion, religious belief, a refusal to hold a religious belief, or a refusal to attend or participate in a religious practice. Funded faith-based organizations must also provide written notice to beneficiaries, advising them that if they should object to the religious character of the funded faith based organization, the funded faith-based organization will take reasonable steps to refer the beneficiary to an alternative service provider. For more information on the regulation, please see the OCR's website at https://ojp.gov/about/ocr/partnerships.htm.

SAAs and faith-based organizations should also note that the Omnibus Crime Control and Safe Streets Act (Safe Streets Act) of 1968, as amended, 34 U.S.C. § 10228(c); the Victims of Crime Act of 1984, as amended, 34 U.S.C. § 20110(e); the Juvenile Justice and Delinquency Prevention Act of 1974, as amended, 34 U.S.C. § 11182(b); and VAWA, as amended, 34 U.S.C. § 12291(b)(13), contain prohibitions against discrimination on the basis of religion in employment. Despite these nondiscrimination provisions, the DOJ has concluded that it may construe the Religious Freedom Restoration Act (RFRA) on a case-by-case basis to permit some faith-based organizations to receive DOJ funds while taking into account religion when hiring staff, even if the statute that authorizes the funding program generally forbids recipients from considering religion in employment decisions. Please consult with the OCR if you have any questions about the regulation or the application of RFRA to the statutes that prohibit discrimination in employment.

Using Arrest and Conviction Records in Making Employment Decisions

The OCR issued an advisory document for recipients on the proper use of arrest and conviction records in making hiring decisions. See Advisory for Recipients of Financial Assistance from the U.S. Department of Justice on the U.S. Equal Employment Opportunity Commission's Enforcement Guidance: *Consideration of Arrest and Conviction Records in Employment Decisions Under Title VII of the Civil Rights Act of 1964 (June 2013*), available at https://ojp.gov/about/ocr/pdfs/UseofConviction_Advisory.pdf. Recipients should be mindful that the misuse of arrest or conviction records to screen either applicants for employment or employees for retention or promotion may have a disparate impact based on race or national origin, resulting in unlawful employment discrimination. In light of the Advisory, recipients should consult local counsel in reviewing their employment practices. If warranted, recipients should also incorporate an analysis of the use of arrest and conviction records in their Equal Employment Opportunity Plans (EEOPs) (see below).

Complying with the Safe Streets Act

An organization that is a recipient of financial assistance subject to the nondiscrimination provisions of the Safe Streets Act, must meet two obligations: (1) complying with the federal regulation pertaining to the development of an EEOP (see 28 C.F.R. pt. 42, subpt. E) and (2) submitting to the OCR findings of discrimination (see 28 C.F.R. §§ 42.204(c), .205(c)(5)).

Meeting the EEOP Requirement

An EEOP is a comprehensive document that analyzes a recipient's relevant labor market data, as well as the recipient's employment practices, to identify possible barriers to the participation of women and minorities in all levels of a recipient's workforce. As a recipient of DOJ funding, you may be required to submit an EEOP Certification Report or an EEOP Utilization Report to the OCR. For more information on whether your organization is subject to the EEOP requirements, see https://ojp.gov/about/ocr/eeop.htm. Additionally, you may request technical assistance from an EEOP specialist at the OCR by telephone at (202) 616-1771 or by e-mail at EEOPforms@usdoj.gov.

Meeting the Requirement to Submit Findings of Discrimination

If in the three years prior to the date of the grant award, your organization has received an adverse finding of discrimination based on race, color, national origin, religion, or sex, after a due-process hearing, from a state or federal court or from a state or federal administrative agency, your organization must send a copy of the finding to the OCR.

Ensuring the Compliance of Subrecipients

SAAs must have standard assurances to notify subrecipients of their civil rights obligations, written procedures to address discrimination complaints filed against subrecipients, methods to monitor subrecipients' compliance with civil rights requirements, and a program to train subrecipients on applicable civil rights laws. In addition, SAAs must submit to the OCR every three years written Methods of Administration (MOA) that summarize the policies and procedures that they have implemented to ensure the civil rights compliance of subrecipients. For more information on the MOA requirement, see https://ojp.gov/funding/Explore/StateMethodsAdmin-FY2017update.htm.

If the OCR can assist you in any way in fulfilling your organization's civil rights responsibilities as a recipient of federal financial assistance, please contact us.

Sincerely,

Michael L. Alston
Director

OJP FORM 4000/2 (REV. 5-87) PREVIOUS EDITIONS ARE OBSOLETE.

OJP FORM 4000/2 (REV. 4-88)

SPECIAL CONDITIONS

1. Requirements of the award; remedies for non-compliance or for materially false statements

The conditions of this award are material requirements of the award. Compliance with any certifications or assurances submitted by or on behalf of the recipient that relate to conduct during the period of performance also is a material requirement of this award.

Failure to comply with any one or more of these award requirements -- whether a condition set out in full below, a condition incorporated by reference below, or a certification or assurance related to conduct during the award period -- may result in the Office of Justice Programs ("OJP") taking appropriate action with respect to the recipient and the award. Among other things, the OJP may withhold award funds, disallow costs, or suspend or terminate the award. The Department of Justice ("DOJ"), including OJP, also may take other legal action as appropriate.

Any materially false, fictitious, or fraudulent statement to the federal government related to this award (or concealment or omission of a material fact) may be the subject of criminal prosecution (including under 18 U.S.C. 1001 and/or 1621, and/or 34 U.S.C. 10271-10273), and also may lead to imposition of civil penalties and administrative remedies for false claims or otherwise (including under 31 U.S.C. 3729-3730 and 3801-3812).

Should any provision of a requirement of this award be held to be invalid or unenforceable by its terms, that provision shall first be applied with a limited construction so as to give it the maximum effect permitted by law. Should it be held, instead, that the provision is utterly invalid or -unenforceable, such provision shall be deemed severable from this award.

2. Applicability of Part 200 Uniform Requirements

The Uniform Administrative Requirements, Cost Principles, and Audit Requirements in 2 C.F.R. Part 200, as adopted and supplemented by DOJ in 2 C.F.R. Part 2800 (together, the "Part 200 Uniform Requirements") apply to this FY 2018 award from OJP.

The Part 200 Uniform Requirements were first adopted by DOJ on December 26, 2014. If this FY 2018 award supplements funds previously awarded by OJP under the same award number (e.g., funds awarded during or before December 2014), the Part 200 Uniform Requirements apply with respect to all funds under that award number (regardless of the award date, and regardless of whether derived from the initial award or a supplemental award) that are obligated on or after the acceptance date of this FY 2018 award.

For more information and resources on the Part 200 Uniform Requirements as they relate to OJP awards and subawards ("subgrants"), see the OJP website at https://ojp.gov/funding/Part200UniformRequirements.htm.

Record retention and access: Records pertinent to the award that the recipient (and any subrecipient ("subgrantee") at any tier) must retain -- typically for a period of 3 years from the date of submission of the final expenditure report (SF 425), unless a different retention period applies -- and to which the recipient (and any subrecipient ("subgrantee") at any tier) must provide access, include performance measurement information, in addition to the financial records, supporting documents, statistical records, and other pertinent records indicated at 2 C.F.R. 200.333.

In the event that an award-related question arises from documents or other materials prepared or distributed by OJP that may appear to conflict with, or differ in some way from, the provisions of the Part 200 Uniform Requirements, the recipient is to contact OJP promptly for clarification.

SPECIAL CONDITIONS

3. Compliance with DOJ Grants Financial Guide

References to the DOJ Grants Financial Guide are to the DOJ Grants Financial Guide as posted on the OJP website (currently, the "DOJ Grants Financial Guide" available at https://ojp.gov/financialguide/DOJ/index.htm), including any updated version that may be posted during the period of performance. The recipient agrees to comply with the DOJ Grants Financial Guide.

4. Reclassification of various statutory provisions to a new Title 34 of the United States Code

On September 1, 2017, various statutory provisions previously codified elsewhere in the U.S. Code were editorially reclassified to a new Title 34, entitled "Crime Control and Law Enforcement." The reclassification encompassed a number of statutory provisions pertinent to OJP awards (that is, OJP grants and cooperative agreements), including many provisions previously codified in Title 42 of the U.S. Code.

Effective as of September 1, 2017, any reference in this award document to a statutory provision that has been reclassified to the new Title 34 of the U.S. Code is to be read as a reference to that statutory provision as reclassified to Title 34. This rule of construction specifically includes references set out in award conditions, references set out in material incorporated by reference through award conditions, and references set out in other award requirements.

5. Required training for Point of Contact and all Financial Points of Contact

Both the Point of Contact (POC) and all Financial Points of Contact (FPOCs) for this award must have successfully completed an "OJP financial management and grant administration training" by 120 days after the date of the recipient's acceptance of the award. Successful completion of such a training on or after January 1, 2016, will satisfy this condition.

In the event that either the POC or an FPOC for this award changes during the period of performance, the new POC or FPOC must have successfully completed an "OJP financial management and grant administration training" by 120 calendar days after-- (1) the date of OJP's approval of the "Change Grantee Contact" GAN (in the case of a new POC), or (2) the date the POC enters information on the new FPOC in GMS (in the case of a new FPOC). Successful completion of such a training on or after January 1, 2016, will satisfy this condition.

A list of OJP trainings that OJP will consider "OJP financial management and grant administration training" for purposes of this condition is available at https://www.ojp.gov/training/fmts.htm. All trainings that satisfy this condition include a session on grant fraud prevention and detection.

The recipient should anticipate that OJP will immediately withhold ("freeze") award funds if the recipient fails to comply with this condition. The recipient's failure to comply also may lead OJP to impose additional appropriate conditions on this award.

6. Requirements related to "de minimis" indirect cost rate

A recipient that is eligible under the Part 200 Uniform Requirements and other applicable law to use the "de minimis" indirect cost rate described in 2 C.F.R. 200.414(f), and that elects to use the "de minimis" indirect cost rate, must advise OJP in writing of both its eligibility and its election, and must comply with all associated requirements in the Part 200 Uniform Requirements. The "de minimis" rate may be applied only to modified total direct costs (MTDC) as defined by the Part 200 Uniform Requirements.

SPECIAL CONDITIONS

7. Requirement to report potentially duplicative funding

If the recipient currently has other active awards of federal funds, or if the recipient receives any other award of federal funds during the period of performance for this award, the recipient promptly must determine whether funds from any of those other federal awards have been, are being, or are to be used (in whole or in part) for one or more of the identical cost items for which funds are provided under this award. If so, the recipient must promptly notify the DOJ awarding agency (OJP or OVW, as appropriate) in writing of the potential duplication, and, if so requested by the DOJ awarding agency, must seek a budget-modification or change-of-project-scope grant adjustment notice (GAN) to eliminate any inappropriate duplication of funding.

8. Requirements related to System for Award Management and Universal Identifier Requirements

The recipient must comply with applicable requirements regarding the System for Award Management (SAM), currently accessible at https://www.sam.gov/. This includes applicable requirements regarding registration with SAM, as well as maintaining the currency of information in SAM.

The recipient also must comply with applicable restrictions on subawards ("subgrants") to first-tier subrecipients (first-tier "subgrantees"), including restrictions on subawards to entities that do not acquire and provide (to the recipient) the unique entity identifier required for SAM registration.

The details of the recipient's obligations related to SAM and to unique entity identifiers are posted on the OJP web site at https://ojp.gov/funding/Explore/SAM.htm (Award condition: System for Award Management (SAM) and Universal Identifier Requirements), and are incorporated by reference here.

This condition does not apply to an award to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

9. Requirement to report actual or imminent breach of personally identifiable information (PII)

The recipient (and any "subrecipient" at any tier) must have written procedures in place to respond in the event of an actual or imminent "breach" (OMB M-17-12) if it (or a subrecipient)-- 1) creates, collects, uses, processes, stores, maintains, disseminates, discloses, or disposes of "personally identifiable information (PII)" (2 CFR 200.79) within the scope of an OJP grant-funded program or activity, or 2) uses or operates a "Federal information system" (OMB Circular A-130). The recipient's breach procedures must include a requirement to report actual or imminent breach of PII to an OJP Program Manager no later than 24 hours after an occurrence of an actual breach, or the detection of an imminent breach.

10. All subawards ("subgrants") must have specific federal authorization

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements for authorization of any subaward. This condition applies to agreements that -- for purposes of federal grants administrative requirements -- OJP considers a "subaward" (and therefore does not consider a procurement "contract").

The details of the requirement for authorization of any subaward are posted on the OJP web site at https://ojp.gov/funding/Explore/SubawardAuthorization.htm (Award condition: All subawards ("subgrants") must have specific federal authorization), and are incorporated by reference here.

SPECIAL CONDITIONS

11. Specific post-award approval required to use a noncompetitive approach in any procurement contract that would exceed $150,000

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements to obtain specific advance approval to use a noncompetitive approach in any procurement contract that would exceed the Simplified Acquisition Threshold (currently, $150,000). This condition applies to agreements that -- for purposes of federal grants administrative requirements -- OJP considers a procurement "contract" (and therefore does not consider a subaward).

The details of the requirement for advance approval to use a noncompetitive approach in a procurement contract under an OJP award are posted on the OJP web site at https://ojp.gov/funding/Explore/NoncompetitiveProcurement.htm (Award condition: Specific post-award approval required to use a noncompetitive approach in a procurement contract (if contract would exceed $150,000)), and are incorporated by reference here.

12. Requirements pertaining to prohibited conduct related to trafficking in persons (including reporting requirements and OJP authority to terminate award)

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements (including requirements to report allegations) pertaining to prohibited conduct related to the trafficking of persons, whether on the part of recipients, subrecipients ("subgrantees"), or individuals defined (for purposes of this condition) as "employees" of the recipient or of any subrecipient.

The details of the recipient's obligations related to prohibited conduct related to trafficking in persons are posted on the OJP web site at https://ojp.gov/funding/Explore/ProhibitedConduct-Trafficking.htm (Award condition: Prohibited conduct by recipients and subrecipients related to trafficking in persons (including reporting requirements and OJP authority to terminate award)), and are incorporated by reference here.

13. Compliance with applicable rules regarding approval, planning, and reporting of conferences, meetings, trainings, and other events

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable laws, regulations, policies, and official DOJ guidance (including specific cost limits, prior approval and reporting requirements, where applicable) governing the use of federal funds for expenses related to conferences (as that term is defined by DOJ), including the provision of food and/or beverages at such conferences, and costs of attendance at such conferences.

Information on the pertinent DOJ definition of conferences and the rules applicable to this award appears in the DOJ Grants Financial Guide (currently, as section 3.10 of "Postaward Requirements" in the "DOJ Grants Financial Guide").

14. Requirement for data on performance and effectiveness under the award

The recipient must collect and maintain data that measure the performance and effectiveness of work under this award. The data must be provided to OJP in the manner (including within the timeframes) specified by OJP in the program solicitation or other applicable written guidance. Data collection supports compliance with the Government Performance and Results Act (GPRA) and the GPRA Modernization Act of 2010, and other applicable laws.

15. OJP Training Guiding Principles

Any training or training materials that the recipient -- or any subrecipient ("subgrantee") at any tier -- develops or delivers with OJP award funds must adhere to the OJP Training Guiding Principles for Grantees and Subgrantees, available at https://ojp.gov/funding/Implement/TrainingPrinciplesForGrantees-Subgrantees.htm.

SPECIAL CONDITIONS

16. Effect of failure to address audit issues

The recipient understands and agrees that the DOJ awarding agency (OJP or OVW, as appropriate) may withhold award funds, or may impose other related requirements, if (as determined by the DOJ awarding agency) the recipient does not satisfactorily and promptly address outstanding issues from audits required by the Part 200 Uniform Requirements (or by the terms of this award), or other outstanding issues that arise in connection with audits, investigations, or reviews of DOJ awards.

17. Potential imposition of additional requirements

The recipient agrees to comply with any additional requirements that may be imposed by the DOJ awarding agency (OJP or OVW, as appropriate) during the period of performance for this award, if the recipient is designated as "high-risk" for purposes of the DOJ high-risk grantee list.

18. Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 42

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 42, specifically including any applicable requirements in Subpart E of 28 C.F.R. Part 42 that relate to an equal employment opportunity program.

19. Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 54

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 54, which relates to nondiscrimination on the basis of sex in certain "education programs."

20. Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 38

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 38, specifically including any applicable requirements regarding written notice to program beneficiaries and prospective program beneficiaries.

Among other things, 28 C.F.R. Part 38 includes rules that prohibit specific forms of discrimination on the basis of religion, a religious belief, a refusal to hold a religious belief, or refusal to attend or participate in a religious practice. Part 38 also sets out rules and requirements that pertain to recipient and subrecipient ("subgrantee") organizations that engage in or conduct explicitly religious activities, as well as rules and requirements that pertain to recipients and subrecipients that are faith-based or religious organizations.

The text of the regulation, now entitled "Partnerships with Faith-Based and Other Neighborhood Organizations," is available via the Electronic Code of Federal Regulations (currently accessible at https://www.ecfr.gov/cgi-bin/ECFR?page=browse), by browsing to Title 28-Judicial Administration, Chapter 1, Part 38, under e-CFR "current" data.

SPECIAL CONDITIONS

21. Restrictions on "lobbying"

In general, as a matter of federal law, federal funds awarded by OJP may not be used by the recipient, or any subrecipient ("subgrantee") at any tier, either directly or indirectly, to support or oppose the enactment, repeal, modification, or adoption of any law, regulation, or policy, at any level of government. See 18 U.S.C. 1913. (There may be exceptions if an applicable federal statute specifically authorizes certain activities that otherwise would be barred by law.)

Another federal law generally prohibits federal funds awarded by OJP from being used by the recipient, or any subrecipient at any tier, to pay any person to influence (or attempt to influence) a federal agency, a Member of Congress, or Congress (or an official or employee of any of them) with respect to the awarding of a federal grant or cooperative agreement, subgrant, contract, subcontract, or loan, or with respect to actions such as renewing, extending, or modifying any such award. See 31 U.S.C. 1352. Certain exceptions to this law apply, including an exception that applies to Indian tribes and tribal organizations.

Should any question arise as to whether a particular use of federal funds by a recipient (or subrecipient) would or might fall within the scope of these prohibitions, the recipient is to contact OJP for guidance, and may not proceed without the express prior written approval of OJP.

22. Compliance with general appropriations-law restrictions on the use of federal funds (FY 2018)

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable restrictions on the use of federal funds set out in federal appropriations statutes. Pertinent restrictions, including from various "general provisions" in the Consolidated Appropriations Act, 2018, are set out at https://ojp.gov/funding/Explore/FY18AppropriationsRestrictions.htm, and are incorporated by reference here.

Should a question arise as to whether a particular use of federal funds by a recipient (or a subrecipient) would or might fall within the scope of an appropriations-law restriction, the recipient is to contact OJP for guidance, and may not proceed without the express prior written approval of OJP.

23. Reporting Potential Fraud, Waste, and Abuse, and Similar Misconduct

The recipient and any subrecipients ("subgrantees") must promptly refer to the DOJ Office of the Inspector General (OIG) any credible evidence that a principal, employee, agent, subrecipient, contractor, subcontractor, or other person has, in connection with funds under this award -- (1) submitted a claim that violates the False Claims Act; or (2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct.

Potential fraud, waste, abuse, or misconduct involving or relating to funds under this award should be reported to the OIG by-- (1) mail directed to: Office of the Inspector General, U.S. Department of Justice, Investigations Division, 1425 New York Avenue, N.W. Suite 7100, Washington, DC 20530; and/or (2) the DOJ OIG hotline: (contact information in English and Spanish) at (800) 869-4499 (phone) or (202) 616-9881 (fax).

Additional information is available from the DOJ OIG website at https://oig.justice.gov/hotline.

SPECIAL CONDITIONS

24. Restrictions and certifications regarding non-disclosure agreements and related matters

No recipient or subrecipient ("subgrantee") under this award, or entity that receives a procurement contract or subcontract with any funds under this award, may require any employee or contractor to sign an internal confidentiality agreement or statement that prohibits or otherwise restricts, or purports to prohibit or restrict, the reporting (in accordance with law) of waste, fraud, or abuse to an investigative or law enforcement representative of a federal department or agency authorized to receive such information.

The foregoing is not intended, and shall not be understood by the agency making this award, to contravene requirements applicable to Standard Form 312 (which relates to classified information), Form 4414 (which relates to sensitive compartmented information), or any other form issued by a federal department or agency governing the nondisclosure of classified information.

1. In accepting this award, the recipient--

a. represents that it neither requires nor has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and

b. certifies that, if it learns or is notified that it is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds, will provide prompt written notification to the federal agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.

2. If the recipient does or is authorized under this award to make subawards ("subgrants"), procurement contracts, or both--

a. it represents that--

(1) it has determined that no other entity that the recipient's application proposes may or will receive award funds (whether through a subaward ("subgrant"), procurement contract, or subcontract under a procurement contract) either requires or has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and

(2) it has made appropriate inquiry, or otherwise has an adequate factual basis, to support this representation; and

b. it certifies that, if it learns or is notified that any subrecipient, contractor, or subcontractor entity that receives funds under this award is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds to or by that entity, will provide prompt written notification to the federal agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.

SPECIAL CONDITIONS

25. Compliance with 41 U.S.C. 4712 (including prohibitions on reprisal; notice to employees)

The recipient (and any subrecipient at any tier) must comply with, and is subject to, all applicable provisions of 41 U.S.C. 4712, including all applicable provisions that prohibit, under specified circumstances, discrimination against an employee as reprisal for the employee's disclosure of information related to gross mismanagement of a federal grant, a gross waste of federal funds, an abuse of authority relating to a federal grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a federal grant.

The recipient also must inform its employees, in writing (and in the predominant native language of the workforce), of employee rights and remedies under 41 U.S.C. 4712.

Should a question arise as to the applicability of the provisions of 41 U.S.C. 4712 to this award, the recipient is to contact the DOJ awarding agency (OJP or OVW, as appropriate) for guidance.

26. Encouragement of policies to ban text messaging while driving

Pursuant to Executive Order 13513, "Federal Leadership on Reducing Text Messaging While Driving," 74 Fed. Reg. 51225 (October 1, 2009), DOJ encourages recipients and subrecipients ("subgrantees") to adopt and enforce policies banning employees from text messaging while driving any vehicle during the course of performing work funded by this award, and to establish workplace safety policies and conduct education, awareness, and other outreach to decrease crashes caused by distracted drivers.

27. Requirement to disclose whether recipient is designated "high risk" by a federal grant-making agency outside of DOJ

If the recipient is designated "high risk" by a federal grant-making agency outside of DOJ, currently or at any time during the course of the period of performance under this award, the recipient must disclose that fact and certain related information to OJP by email at OJP.ComplianceReporting@ojp.usdoj.gov. For purposes of this disclosure, high risk includes any status under which a federal awarding agency provides additional oversight due to the recipient's past performance, or other programmatic or financial concerns with the recipient. The recipient's disclosure must include the following: 1. The federal awarding agency that currently designates the recipient high risk, 2. The date the recipient was designated high risk, 3. The high-risk point of contact at that federal awarding agency (name, phone number, and email address), and 4. The reasons for the high-risk status, as set out by the federal awarding agency.

28. The recipient agrees to submit to BJA for review and approval any curricula, training materials, proposed publications, reports, or any other written materials that will be published, including web-based materials and web site content, through funds from this grant at least thirty (30) working days prior to the targeted dissemination date. Any written, visual, or audio publications, with the exception of press releases, whether published at the grantee's or government's expense, shall contain the following statements: "This project was supported by Grant No. 2018-MO-BX-0008 awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Department of Justice's Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice." The current edition of the DOJ Grants Financial Guide provides guidance on allowable printing and publication activities.

29. The recipient agrees to cooperate with any assessments, national evaluation efforts, or information or data collection requests, including, but not limited to, the provision of any information required for the assessment or evaluation of any activities within this project.

PROJECT NUMBER	2018-MO-BX-0008	AWARD DATE	09/26/2018

SPECIAL CONDITIONS

30. Any Web site that is funded in whole or in part under this award must include the following statement on the home page, on all major entry pages (i.e., pages (exclusive of documents) whose primary purpose is to navigate the user to interior content), and on any pages from which a visitor may access or use a Web-based service, including any pages that provide results or outputs from the service:

"This Web site is funded [insert "in part," if applicable] through a grant from the [insert name of OJP component], Office of Justice Programs, U.S. Department of Justice. Neither the U.S. Department of Justice nor any of its components operate, control, are responsible for, or necessarily endorse, this Web site (including, without limitation, its content, technical infrastructure, and policies, and any services or tools provided)."

The full text of the foregoing statement must be clearly visible on the home page. On other pages, the statement may be included through a link, entitled "Notice of Federal Funding and Federal Disclaimer," to the full text of the statement.

31. Justification of consultant rate

Approval of this award does not indicate approval of any consultant rate in excess of $650 per day. A detailed justification must be submitted to and approved by the OJP program office prior to obligation or expenditure of such funds.

32. Recipient understands and agrees that it must submit quarterly Federal Financial Reports (SF-425) and semi-annual performance reports through GMS (https://grants.ojp.usdoj.gov), and that it must submit quarterly performance metrics reports through BJA's Performance Measurement Tool (PMT) website (https://bjapmt.ojp.gov/). For more detailed information on reporting and other requirements, refer to BJA's website. Failure to submit required reports by established deadlines may result in the freezing of grant funds and High Risk designation.

33. FFATA reporting: Subawards and executive compensation

The recipient must comply with applicable requirements to report first-tier subawards ("subgrants") of $25,000 or more and, in certain circumstances, to report the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients (first-tier "subgrantees") of award funds. The details of recipient obligations, which derive from the Federal Funding Accountability and Transparency Act of 2006 (FFATA), are posted on the OJP web site at https://ojp.gov/funding/Explore/FFATA.htm (Award condition: Reporting Subawards and Executive Compensation), and are incorporated by reference here.

This condition, including its reporting requirement, does not apply to-- (1) an award of less than $25,000, or (2) an award made to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

34. Applicants must certify that Limited English Proficiency persons have meaningful access to the services under this program(s). National origin discrimination includes discrimination on the basis of limited English proficiency (LEP). To ensure compliance with Title VI and the Safe Streets Act, recipients are required to take reasonable steps to ensure that LEP persons have meaningful access to their programs. Meaningful access may entail providing language assistance services, including oral and written translation when necessary. The U.S. Department of Justice has issued guidance for grantees to help them comply with Title VI requirements. The guidance document can be accessed on the Internet at www.lep.gov.

SPECIAL CONDITIONS

35. Cooperating with OJP Monitoring

The recipient agrees to cooperate with OJP monitoring of this award pursuant to OJP's guidelines, protocols, and procedures, and to cooperate with OJP (including the grant manager for this award and the Office of Chief Financial Officer (OCFO)) requests related to such monitoring, including requests related to desk reviews and/or site visits. The recipient agrees to provide to OJP all documentation necessary for OJP to complete its monitoring tasks, including documentation related to any subawards made under this award. Further, the recipient agrees to abide by reasonable deadlines set by OJP for providing the requested documents. Failure to cooperate with OJP's monitoring activities may result in actions that affect the recipient's DOJ awards, including, but not limited to: withholdings and/or other restrictions on the recipient's access to award funds; referral to the DOJ OIG for audit review; designation of the recipient as a DOJ High Risk grantee; or termination of an award(s).

36. Recipient understands and agrees that, to the extent that substance abuse treatment and related services are funded by this award, they will include needed treatment and services to address opioid abuse reduction.

37. The recipient may incur obligations, expend, and draw down funds in an amount not to exceed $150,000 for the sole purpose of completing the planning and implementation guide. The grantee is not authorized to incur any additional obligations, make any additional expenditures, or drawdown any additional funds until BJA has reviewed and approved the grant recipient's completed Planning and Implementation Guide and has issued a Grant Adjustment Notice (GAN) removing this condition.

38. With respect to this award, federal funds may not be used to pay cash compensation (salary plus bonuses) to any employee of the award recipient at a rate that exceeds 110% of the maximum annual salary payable to a member of the federal government's Senior Executive Service (SES) at an agency with a Certified SES Performance Appraisal System for that year. (An award recipient may compensate an employee at a higher rate, provided the amount in excess of this compensation limitation is paid with non-federal funds.)

This limitation on compensation rates allowable under this award may be waived on an individual basis at the discretion of the OJP official indicated in the program announcement under which this award is made.

39. Recipient integrity and performance matters: Requirement to report information on certain civil, criminal, and administrative proceedings to SAM and FAPIIS

The recipient must comply with any and all applicable requirements regarding reporting of information on civil, criminal, and administrative proceedings connected with (or connected to the performance of) either this OJP award or any other grant, cooperative agreement, or procurement contract from the federal government. Under certain circumstances, recipients of OJP awards are required to report information about such proceedings, through the federal System for Award Management (known as "SAM"), to the designated federal integrity and performance system (currently, "FAPIIS").

The details of recipient obligations regarding the required reporting (and updating) of information on certain civil, criminal, and administrative proceedings to the federal designated integrity and performance system (currently, "FAPIIS") within SAM are posted on the OJP web site at https://ojp.gov/funding/FAPIIS.htm (Award condition: Recipient Integrity and Performance Matters, including Recipient Reporting to FAPIIS), and are incorporated by reference here.

SPECIAL CONDITIONS

40. The recipient is authorized to incur obligations, expend, and draw down funds for travel, lodging, and per diem costs only, in an amount not to exceed $15,000, for the sole purpose of attending a required OJP conference associated with this grant award. The grantee is not authorized to incur any additional obligations, or make any additional expenditures or draw downs until the awarding agency and the Office of the Chief Financial Officer (OCFO) has reviewed and approved the recipient's budget and budget narrative, and a Grant Adjustment Notice (GAN) has been issued to remove this special condition.

41. Recipient acknowledges that it may not obligate, expend or drawdown grant funds until it has submitted all delinquent reports for grants funded by OJP, including 1) financial reports (Federal Financial Report FFR-425); 2) semiannual progress reports; 3) annual performance reports; or 4) final reports. Recipients are encouraged to contact their BJA grant manager with questions concerning these delinquent reports. All reports must be submitted electronically. Only after all of these delinquent reports have been submitted will OJP issue a Grant Adjustment Notice to remove this condition.

42. Withholding of funds: Disclosure of pending applications

The recipient may not obligate, expend, or draw down any award funds until: (1) it has provided to the grant manager for this OJP award either an "applicant disclosure of pending applications" for federal funding or a specific affirmative statement that no such pending applications (whether direct or indirect) exist, in accordance with the detailed instructions in the program solicitation, (2) OJP has completed its review of the information provided and of any supplemental information it may request, (3) the recipient has made any adjustments to the award that OJP may require to prevent or eliminate any inappropriate duplication of funding (e.g., budget modification, project scope adjustment), (4) if appropriate adjustments to a discretionary award cannot be made, the recipient has agreed in writing to any necessary reduction of the award amount in any amount sufficient to prevent duplication (as determined by OJP), and (5) a Grant Adjustment Notice has been issued to remove this condition.

U.S. Department of Justice

Office of Justice Programs

Bureau of Justice Assistance

Washington, D.C. 20531

Memorandum To: Official Grant File

From: Orbin Terry, NEPA Coordinator

Subject: Categorical Exclusion for County of Sonoma

The primary purpose of Justice and Mental Health Collaboration Program (JMHCP) is to increase public safety by facilitating collaboration among the criminal justice, juvenile justice, and mental health and substance abuse treatment systems to increase access to mental health and other treatment services for those individuals with mental illness or co-occurring mental health and substance use disorders. Jurisdictions are eligible to apply for collaborative county approaches to reducing the prevalence of individuals with mental disorders in jail, strategic planning for law enforcement and mental health collaboration, and implementation and expansion funding through JMHCP.
None of the following activities will be conducted whether under the Office of Justice Programs federal action or a related third party action:

(1) New construction.
(2) Any renovation or remodeling of a property located in an environmentally or historically sensitive area, including property (a) listed on or eligible for listing on the National Register of Historic Places, or (b) located within a 100-year flood plain, a wetland, or habitat for an endangered species.
(3) A renovation which will change the basic prior use of a facility or significantly change its size.
(4) Research and technology whose anticipated and future application could be expected to have an effect on the environment.
(5) Implementation of a program involving the use of chemicals.

Additionally, the proposed action is neither a phase nor a segment of a project which when reviewed in its entirety would not meet the criteria for a categorical exclusion. Consequently, the subject federal action meets the Office of Justice Programs' criteria for a categorical exclusion as contained in paragraph 4(b) of Appendix D to Part 61 of Title 28 of the Code of Federal Regulations.

15. SUMMARY DESCRIPTION OF PROJECT (See instruction on reverse)

The Bureau of Justice Assistance’s (BJA) Justice and Mental Health Collaboration Program (JMHCP) supports cross-system collaboration to improve responses and outcomes for individuals with mental illnesses (MI) or co-occurring mental illness and substance abuse (CMISA) who come into contact with the justice system. JMHCP is authorized by the Mentally Ill Offender Treatment and Crime Reduction Act of 2004 (MIOTCRA) (Public Law 108-414), the Mentally Ill Offender Treatment and Crime Reduction Reauthorization and Improvement Act of 2008 (Public Law 110-416), and as amended by the 21st Century Cures Act (Public Law 114-255). JMHCP seeks to increase public safety by facilitating collaboration among the criminal justice, mental health, and substance abuse treatment systems to increase access to mental health and other treatment services for individuals with MI or CMISA. The program promotes officer and public safety through the coordination of system resources for people who are accessing multiple services including hospital emergency departments, jails, and mental health crisis services. JMHCP promotes cross-discipline training for justice and treatment professionals; and facilitates communication, collaboration, and the delivery of support services among justice professionals, and treatment and related service providers. In addition, projects funded through JMHCP must address opioid abuse reduction.

The recipient will use funds to increase public safety and reduce recidivism among high risk people with MI and CMISA. After BJA approves the recipient's "Planning and Implementation Guide," the recipient will implement one or more law enforcement, prosecution, court-based, corrections, parole and/or probation initiative. Allowable implementation activities include: training for criminal justice, mental health, and substance abuse treatment personnel; screening, assessment, and information sharing processes to identify individuals with MI or CMISA in order to appropriately inform decision making and prioritize limited resources and identify needed capacity; specialized caseloads for people on community supervision with more significant mental health needs and higher risk of reoffending; case management and service coordination including evidence-based treatment models that are tailored to meet the assessed mental health, substance abuse, and criminogenic needs of the target population; case management and service coordination housed inside police agencies; evidence-based or promising mental health treatment practices shown to improve clinical outcomes for people with serious mental illnesses; and/or information sharing within and across criminal justice and behavioral health treatment agencies to make eligibility determinations, and ensure direct connections to treatment services in the community.

U.S. Department of Justice

Office of Justice Programs

Office of the Assistant Attorney General *Washington, D.C. 20531*

September 29, 2018

Chief David Koch
County of Sonoma
575 Administration Drive
Room 104A
Santa Rosa, CA 94503-2871

Dear Chief Koch:

On behalf of Attorney General Jefferson Sessions III, it is my pleasure to inform you that the Office of Justice Programs has approved your application for funding under the FY 18 Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness in the amount of $750,000 for County of Sonoma.

Enclosed you will find the Grant Award and Special Conditions documents. This award is subject to all administrative and financial requirements, including the timely submission of all financial and programmatic reports, resolution of all interim audit findings, and the maintenance of a minimum level of cash-on-hand. Should you not adhere to these requirements, you will be in violation of the terms of this agreement and the award will be subject to termination for cause or other administrative action as appropriate.

If you have questions regarding this award, please contact:

- Program Questions, Jennifer Lewis, Program Manager at (202) 305-8064; and

- Financial Questions, the Office of the Chief Financial Officer, Customer Service Center (CSC) at (800) 458-0786, or you may contact the CSC at ask.ocfo@usdoj.gov.

Congratulations, and we look forward to working with you.

Sincerely,

Matt Dummermuth

OCR Letter to All Recipients

September 29, 2018

Chief David Koch
County of Sonoma
575 Administration Drive
Room 104A
Santa Rosa, CA 94503-2871

Dear Chief Koch:

Congratulations on your recent award. In establishing financial assistance programs, Congress linked the receipt of federal funding to compliance with federal civil rights laws. The Office for Civil Rights (OCR), Office of Justice Programs (OJP), U.S. Department of Justice (DOJ) is responsible for ensuring that recipients of financial assistance from the OJP, the Office of Community Oriented Policing Services (COPS), and the Office on Violence Against Women (OVW) comply with the applicable federal civil rights laws. We at the OCR are available to help you and your organization meet the civil rights requirements that come with DOJ funding.

Ensuring Access to Federally Assisted Programs

Federal laws that apply to recipients of financial assistance from the DOJ prohibit discrimination on the basis of race, color, national origin, religion, sex, or disability in funded programs or activities, not only in employment but also in the delivery of services or benefits. A federal law also prohibits recipients from discriminating on the basis of age in the delivery of services or benefits.

In March of 2013, President Obama signed the Violence Against Women Reauthorization Act of 2013. The statute amends the Violence Against Women Act of 1994 (VAWA) by including a nondiscrimination grant condition that prohibits discrimination based on actual or perceived race, color, national origin, religion, sex, disability, sexual orientation, or gender identity. The new nondiscrimination grant condition applies to certain programs funded after October 1, 2013. The OCR and the OVW have developed answers to some frequently asked questions about this provision to assist recipients of VAWA funds to understand their obligations. The Frequently Asked Questions are available at https://ojp.gov/about/ocr/vawafaqs.htm.

Enforcing Civil Rights Laws

All recipients of federal financial assistance, regardless of the particular funding source, the amount of the grant award, or the number of employees in the workforce, are subject to prohibitions against unlawful discrimination. Accordingly, the OCR investigates recipients that are the subject of discrimination complaints from both individuals and groups. In addition, based on regulatory criteria, the OCR selects a number of recipients each year for compliance reviews, audits that require recipients to submit data showing that they are providing services equitably to all segments of their service population and that their employment practices meet equal opportunity standards.

Providing Services to Limited English Proficiency (LEP) Individuals

In accordance with DOJ guidance pertaining to Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, recipients of federal financial assistance must take reasonable steps to provide meaningful access to their programs and activities for persons with limited English proficiency (LEP). See U.S. Department of Justice, Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons, 67 Fed. Reg. 41,455 (2002). For more information on the civil rights responsibilities that recipients have in providing language services to LEP individuals, please see the website https://www.lep.gov.

Ensuring Equal Treatment of Faith-Based Organizations and Safeguarding Constitutional Protections Related to Religion

The DOJ regulation, Partnerships with Faith-Based and Other Neighborhood Organizations, 28 C.F.R. pt. 38, updated in April 2016, prohibits all recipient organizations, whether they are law enforcement agencies, governmental agencies, educational institutions, houses of worship, or faith-based organizations, from using financial assistance from the DOJ to fund explicitly religious activities. Explicitly religious activities include worship, religious instruction, or proselytization. While funded organizations may engage in non-funded explicitly religious activities (e.g., prayer), they must hold them separately from the activities funded by the DOJ, and recipients cannot compel beneficiaries to participate in them. The regulation also makes clear that organizations participating in programs funded by the DOJ are not permitted to discriminate in the provision of services on the basis of a beneficiary's religion, religious belief, a refusal to hold a religious belief, or a refusal to attend or participate in a religious practice. Funded faith-based organizations must also provide written notice to beneficiaries, advising them that if they should object to the religious character of the funded faith based organization, the funded faith-based organization will take reasonable steps to refer the beneficiary to an alternative service provider. For more information on the regulation, please see the OCR's website at https://ojp.gov/about/ocr/partnerships.htm.

SAAs and faith-based organizations should also note that the Omnibus Crime Control and Safe Streets Act (Safe Streets Act) of 1968, as amended, 34 U.S.C. § 10228(c); the Victims of Crime Act of 1984, as amended, 34 U.S.C. § 20110(e); the Juvenile Justice and Delinquency Prevention Act of 1974, as amended, 34 U.S.C. § 11182(b); and VAWA, as amended, 34 U.S.C. § 12291(b)(13), contain prohibitions against discrimination on the basis of religion in employment. Despite these nondiscrimination provisions, the DOJ has concluded that it may construe the Religious Freedom Restoration Act (RFRA) on a case-by-case basis to permit some faith-based organizations to receive DOJ funds while taking into account religion when hiring staff, even if the statute that authorizes the funding program generally forbids recipients from considering religion in employment decisions. Please consult with the OCR if you have any questions about the regulation or the application of RFRA to the statutes that prohibit discrimination in employment.

Using Arrest and Conviction Records in Making Employment Decisions

The OCR issued an advisory document for recipients on the proper use of arrest and conviction records in making hiring decisions. See Advisory for Recipients of Financial Assistance from the U.S. Department of Justice on the U.S. Equal Employment Opportunity Commission's Enforcement Guidance: *Consideration of Arrest and Conviction Records in Employment Decisions Under Title VII of the Civil Rights Act of 1964 (June 2013*), available at https://ojp.gov/about/ocr/pdfs/UseofConviction_Advisory.pdf. Recipients should be mindful that the misuse of arrest or conviction records to screen either applicants for employment or employees for retention or promotion may have a disparate impact based on race or national origin, resulting in unlawful employment discrimination. In light of the Advisory, recipients should consult local counsel in reviewing their employment practices. If warranted, recipients should also incorporate an analysis of the use of arrest and conviction records in their Equal Employment Opportunity Plans (EEOPs) (see below).

Complying with the Safe Streets Act

An organization that is a recipient of financial assistance subject to the nondiscrimination provisions of the Safe Streets Act, must meet two obligations: (1) complying with the federal regulation pertaining to the development of an EEOP (see 28 C.F.R. pt. 42, subpt. E) and (2) submitting to the OCR findings of discrimination (see 28 C.F.R. §§ 42.204(c), .205(c)(5)).

Meeting the EEOP Requirement

An EEOP is a comprehensive document that analyzes a recipient's relevant labor market data, as well as the recipient's employment practices, to identify possible barriers to the participation of women and minorities in all levels of a recipient's workforce. As a recipient of DOJ funding, you may be required to submit an EEOP Certification Report or an EEOP Utilization Report to the OCR. For more information on whether your organization is subject to the EEOP requirements, see https://ojp.gov/about/ocr/eeop.htm. Additionally, you may request technical assistance from an EEOP specialist at the OCR by telephone at (202) 616-1771 or by e-mail at EEOPforms@usdoj.gov.

Meeting the Requirement to Submit Findings of Discrimination

If in the three years prior to the date of the grant award, your organization has received an adverse finding of discrimination based on race, color, national origin, religion, or sex, after a due-process hearing, from a state or federal court or from a state or federal administrative agency, your organization must send a copy of the finding to the OCR.

Ensuring the Compliance of Subrecipients

SAAs must have standard assurances to notify subrecipients of their civil rights obligations, written procedures to address discrimination complaints filed against subrecipients, methods to monitor subrecipients' compliance with civil rights requirements, and a program to train subrecipients on applicable civil rights laws. In addition, SAAs must submit to the OCR every three years written Methods of Administration (MOA) that summarize the policies and procedures that they have implemented to ensure the civil rights compliance of subrecipients. For more information on the MOA requirement, see https://ojp.gov/funding/Explore/StateMethodsAdmin-FY2017update.htm.

If the OCR can assist you in any way in fulfilling your organization's civil rights responsibilities as a recipient of federal financial assistance, please contact us.

Sincerely,

Michael L. Alston

SPECIAL CONDITIONS

1. Requirements of the award; remedies for non-compliance or for materially false statements

The conditions of this award are material requirements of the award. Compliance with any certifications or assurances submitted by or on behalf of the recipient that relate to conduct during the period of performance also is a material requirement of this award.

Failure to comply with any one or more of these award requirements -- whether a condition set out in full below, a condition incorporated by reference below, or a certification or assurance related to conduct during the award period -- may result in the Office of Justice Programs ("OJP") taking appropriate action with respect to the recipient and the award. Among other things, the OJP may withhold award funds, disallow costs, or suspend or terminate the award. The Department of Justice ("DOJ"), including OJP, also may take other legal action as appropriate.

Any materially false, fictitious, or fraudulent statement to the federal government related to this award (or concealment or omission of a material fact) may be the subject of criminal prosecution (including under 18 U.S.C. 1001 and/or 1621, and/or 34 U.S.C. 10271-10273), and also may lead to imposition of civil penalties and administrative remedies for false claims or otherwise (including under 31 U.S.C. 3729-3730 and 3801-3812).

Should any provision of a requirement of this award be held to be invalid or unenforceable by its terms, that provision shall first be applied with a limited construction so as to give it the maximum effect permitted by law. Should it be held, instead, that the provision is utterly invalid or -unenforceable, such provision shall be deemed severable from this award.

2. Applicability of Part 200 Uniform Requirements

The Uniform Administrative Requirements, Cost Principles, and Audit Requirements in 2 C.F.R. Part 200, as adopted and supplemented by DOJ in 2 C.F.R. Part 2800 (together, the "Part 200 Uniform Requirements") apply to this FY 2018 award from OJP.

The Part 200 Uniform Requirements were first adopted by DOJ on December 26, 2014. If this FY 2018 award supplements funds previously awarded by OJP under the same award number (e.g., funds awarded during or before December 2014), the Part 200 Uniform Requirements apply with respect to all funds under that award number (regardless of the award date, and regardless of whether derived from the initial award or a supplemental award) that are obligated on or after the acceptance date of this FY 2018 award.

For more information and resources on the Part 200 Uniform Requirements as they relate to OJP awards and subawards ("subgrants"), see the OJP website at https://ojp.gov/funding/Part200UniformRequirements.htm.

Record retention and access: Records pertinent to the award that the recipient (and any subrecipient ("subgrantee") at any tier) must retain -- typically for a period of 3 years from the date of submission of the final expenditure report (SF 425), unless a different retention period applies -- and to which the recipient (and any subrecipient ("subgrantee") at any tier) must provide access, include performance measurement information, in addition to the financial records, supporting documents, statistical records, and other pertinent records indicated at 2 C.F.R. 200.333.

In the event that an award-related question arises from documents or other materials prepared or distributed by OJP that may appear to conflict with, or differ in some way from, the provisions of the Part 200 Uniform Requirements, the recipient is to contact OJP promptly for clarification.

SPECIAL CONDITIONS

3. Compliance with DOJ Grants Financial Guide

References to the DOJ Grants Financial Guide are to the DOJ Grants Financial Guide as posted on the OJP website (currently, the "DOJ Grants Financial Guide" available at https://ojp.gov/financialguide/DOJ/index.htm), including any updated version that may be posted during the period of performance. The recipient agrees to comply with the DOJ Grants Financial Guide.

4. Reclassification of various statutory provisions to a new Title 34 of the United States Code

On September 1, 2017, various statutory provisions previously codified elsewhere in the U.S. Code were editorially reclassified to a new Title 34, entitled "Crime Control and Law Enforcement." The reclassification encompassed a number of statutory provisions pertinent to OJP awards (that is, OJP grants and cooperative agreements), including many provisions previously codified in Title 42 of the U.S. Code.

Effective as of September 1, 2017, any reference in this award document to a statutory provision that has been reclassified to the new Title 34 of the U.S. Code is to be read as a reference to that statutory provision as reclassified to Title 34. This rule of construction specifically includes references set out in award conditions, references set out in material incorporated by reference through award conditions, and references set out in other award requirements.

5. Required training for Point of Contact and all Financial Points of Contact

Both the Point of Contact (POC) and all Financial Points of Contact (FPOCs) for this award must have successfully completed an "OJP financial management and grant administration training" by 120 days after the date of the recipient's acceptance of the award. Successful completion of such a training on or after January 1, 2016, will satisfy this condition.

In the event that either the POC or an FPOC for this award changes during the period of performance, the new POC or FPOC must have successfully completed an "OJP financial management and grant administration training" by 120 calendar days after-- (1) the date of OJP's approval of the "Change Grantee Contact" GAN (in the case of a new POC), or (2) the date the POC enters information on the new FPOC in GMS (in the case of a new FPOC). Successful completion of such a training on or after January 1, 2016, will satisfy this condition.

A list of OJP trainings that OJP will consider "OJP financial management and grant administration training" for purposes of this condition is available at https://www.ojp.gov/training/fmts.htm. All trainings that satisfy this condition include a session on grant fraud prevention and detection.

The recipient should anticipate that OJP will immediately withhold ("freeze") award funds if the recipient fails to comply with this condition. The recipient's failure to comply also may lead OJP to impose additional appropriate conditions on this award.

6. Requirements related to "de minimis" indirect cost rate

A recipient that is eligible under the Part 200 Uniform Requirements and other applicable law to use the "de minimis" indirect cost rate described in 2 C.F.R. 200.414(f), and that elects to use the "de minimis" indirect cost rate, must advise OJP in writing of both its eligibility and its election, and must comply with all associated requirements in the Part 200 Uniform Requirements. The "de minimis" rate may be applied only to modified total direct costs (MTDC) as defined by the Part 200 Uniform Requirements.

SPECIAL CONDITIONS

7. Requirement to report potentially duplicative funding

If the recipient currently has other active awards of federal funds, or if the recipient receives any other award of federal funds during the period of performance for this award, the recipient promptly must determine whether funds from any of those other federal awards have been, are being, or are to be used (in whole or in part) for one or more of the identical cost items for which funds are provided under this award. If so, the recipient must promptly notify the DOJ awarding agency (OJP or OVW, as appropriate) in writing of the potential duplication, and, if so requested by the DOJ awarding agency, must seek a budget-modification or change-of-project-scope grant adjustment notice (GAN) to eliminate any inappropriate duplication of funding.

8. Requirements related to System for Award Management and Universal Identifier Requirements

The recipient must comply with applicable requirements regarding the System for Award Management (SAM), currently accessible at https://www.sam.gov/. This includes applicable requirements regarding registration with SAM, as well as maintaining the currency of information in SAM.

The recipient also must comply with applicable restrictions on subawards ("subgrants") to first-tier subrecipients (first-tier "subgrantees"), including restrictions on subawards to entities that do not acquire and provide (to the recipient) the unique entity identifier required for SAM registration.

The details of the recipient's obligations related to SAM and to unique entity identifiers are posted on the OJP web site at https://ojp.gov/funding/Explore/SAM.htm (Award condition: System for Award Management (SAM) and Universal Identifier Requirements), and are incorporated by reference here.

This condition does not apply to an award to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

9. Requirement to report actual or imminent breach of personally identifiable information (PII)

The recipient (and any "subrecipient" at any tier) must have written procedures in place to respond in the event of an actual or imminent "breach" (OMB M-17-12) if it (or a subrecipient)-- 1) creates, collects, uses, processes, stores, maintains, disseminates, discloses, or disposes of "personally identifiable information (PII)" (2 CFR 200.79) within the scope of an OJP grant-funded program or activity, or 2) uses or operates a "Federal information system" (OMB Circular A-130). The recipient's breach procedures must include a requirement to report actual or imminent breach of PII to an OJP Program Manager no later than 24 hours after an occurrence of an actual breach, or the detection of an imminent breach.

10. All subawards ("subgrants") must have specific federal authorization

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements for authorization of any subaward. This condition applies to agreements that -- for purposes of federal grants administrative requirements -- OJP considers a "subaward" (and therefore does not consider a procurement "contract").

The details of the requirement for authorization of any subaward are posted on the OJP web site at https://ojp.gov/funding/Explore/SubawardAuthorization.htm (Award condition: All subawards ("subgrants") must have specific federal authorization), and are incorporated by reference here.

SPECIAL CONDITIONS

11. Specific post-award approval required to use a noncompetitive approach in any procurement contract that would exceed $150,000

    The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements to obtain specific advance approval to use a noncompetitive approach in any procurement contract that would exceed the Simplified Acquisition Threshold (currently, $150,000). This condition applies to agreements that -- for purposes of federal grants administrative requirements -- OJP considers a procurement "contract" (and therefore does not consider a subaward).

    The details of the requirement for advance approval to use a noncompetitive approach in a procurement contract under an OJP award are posted on the OJP web site at https://ojp.gov/funding/Explore/NoncompetitiveProcurement.htm (Award condition: Specific post-award approval required to use a noncompetitive approach in a procurement contract (if contract would exceed $150,000)), and are incorporated by reference here.

12. Requirements pertaining to prohibited conduct related to trafficking in persons (including reporting requirements and OJP authority to terminate award)

    The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements (including requirements to report allegations) pertaining to prohibited conduct related to the trafficking of persons, whether on the part of recipients, subrecipients ("subgrantees"), or individuals defined (for purposes of this condition) as "employees" of the recipient or of any subrecipient.

    The details of the recipient's obligations related to prohibited conduct related to trafficking in persons are posted on the OJP web site at https://ojp.gov/funding/Explore/ProhibitedConduct-Trafficking.htm (Award condition: Prohibited conduct by recipients and subrecipients related to trafficking in persons (including reporting requirements and OJP authority to terminate award)), and are incorporated by reference here.

13. Compliance with applicable rules regarding approval, planning, and reporting of conferences, meetings, trainings, and other events

    The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable laws, regulations, policies, and official DOJ guidance (including specific cost limits, prior approval and reporting requirements, where applicable) governing the use of federal funds for expenses related to conferences (as that term is defined by DOJ), including the provision of food and/or beverages at such conferences, and costs of attendance at such conferences.

    Information on the pertinent DOJ definition of conferences and the rules applicable to this award appears in the DOJ Grants Financial Guide (currently, as section 3.10 of "Postaward Requirements" in the "DOJ Grants Financial Guide").

14. Requirement for data on performance and effectiveness under the award

    The recipient must collect and maintain data that measure the performance and effectiveness of work under this award. The data must be provided to OJP in the manner (including within the timeframes) specified by OJP in the program solicitation or other applicable written guidance. Data collection supports compliance with the Government Performance and Results Act (GPRA) and the GPRA Modernization Act of 2010, and other applicable laws.

15. OJP Training Guiding Principles

    Any training or training materials that the recipient -- or any subrecipient ("subgrantee") at any tier -- develops or delivers with OJP award funds must adhere to the OJP Training Guiding Principles for Grantees and Subgrantees, available at https://ojp.gov/funding/Implement/TrainingPrinciplesForGrantees-Subgrantees.htm.

PROJECT NUMBER	2018-RW-BX-0007	AWARD DATE	09/29/2018

SPECIAL CONDITIONS

16. Effect of failure to address audit issues

The recipient understands and agrees that the DOJ awarding agency (OJP or OVW, as appropriate) may withhold award funds, or may impose other related requirements, if (as determined by the DOJ awarding agency) the recipient does not satisfactorily and promptly address outstanding issues from audits required by the Part 200 Uniform Requirements (or by the terms of this award), or other outstanding issues that arise in connection with audits, investigations, or reviews of DOJ awards.

17. Potential imposition of additional requirements

The recipient agrees to comply with any additional requirements that may be imposed by the DOJ awarding agency (OJP or OVW, as appropriate) during the period of performance for this award, if the recipient is designated as "high-risk" for purposes of the DOJ high-risk grantee list.

18. Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 42

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 42, specifically including any applicable requirements in Subpart E of 28 C.F.R. Part 42 that relate to an equal employment opportunity program.

19. Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 54

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 54, which relates to nondiscrimination on the basis of sex in certain "education programs."

20. Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 38

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 38, specifically including any applicable requirements regarding written notice to program beneficiaries and prospective program beneficiaries.

Among other things, 28 C.F.R. Part 38 includes rules that prohibit specific forms of discrimination on the basis of religion, a religious belief, a refusal to hold a religious belief, or refusal to attend or participate in a religious practice. Part 38 also sets out rules and requirements that pertain to recipient and subrecipient ("subgrantee") organizations that engage in or conduct explicitly religious activities, as well as rules and requirements that pertain to recipients and subrecipients that are faith-based or religious organizations.

The text of the regulation, now entitled "Partnerships with Faith-Based and Other Neighborhood Organizations," is available via the Electronic Code of Federal Regulations (currently accessible at https://www.ecfr.gov/cgi-bin/ECFR?page=browse), by browsing to Title 28-Judicial Administration, Chapter 1, Part 38, under e-CFR "current" data.

SPECIAL CONDITIONS

21. Restrictions on "lobbying"

In general, as a matter of federal law, federal funds awarded by OJP may not be used by the recipient, or any subrecipient ("subgrantee") at any tier, either directly or indirectly, to support or oppose the enactment, repeal, modification, or adoption of any law, regulation, or policy, at any level of government. See 18 U.S.C. 1913. (There may be exceptions if an applicable federal statute specifically authorizes certain activities that otherwise would be barred by law.)

Another federal law generally prohibits federal funds awarded by OJP from being used by the recipient, or any subrecipient at any tier, to pay any person to influence (or attempt to influence) a federal agency, a Member of Congress, or Congress (or an official or employee of any of them) with respect to the awarding of a federal grant or cooperative agreement, subgrant, contract, subcontract, or loan, or with respect to actions such as renewing, extending, or modifying any such award. See 31 U.S.C. 1352. Certain exceptions to this law apply, including an exception that applies to Indian tribes and tribal organizations.

Should any question arise as to whether a particular use of federal funds by a recipient (or subrecipient) would or might fall within the scope of these prohibitions, the recipient is to contact OJP for guidance, and may not proceed without the express prior written approval of OJP.

22. Compliance with general appropriations-law restrictions on the use of federal funds (FY 2018)

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable restrictions on the use of federal funds set out in federal appropriations statutes. Pertinent restrictions, including from various "general provisions" in the Consolidated Appropriations Act, 2018, are set out at https://ojp.gov/funding/Explore/FY18AppropriationsRestrictions.htm, and are incorporated by reference here.

Should a question arise as to whether a particular use of federal funds by a recipient (or a subrecipient) would or might fall within the scope of an appropriations-law restriction, the recipient is to contact OJP for guidance, and may not proceed without the express prior written approval of OJP.

23. Reporting Potential Fraud, Waste, and Abuse, and Similar Misconduct

The recipient and any subrecipients ("subgrantees") must promptly refer to the DOJ Office of the Inspector General (OIG) any credible evidence that a principal, employee, agent, subrecipient, contractor, subcontractor, or other person has, in connection with funds under this award -- (1) submitted a claim that violates the False Claims Act; or (2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct.

Potential fraud, waste, abuse, or misconduct involving or relating to funds under this award should be reported to the OIG by-- (1) mail directed to: Office of the Inspector General, U.S. Department of Justice, Investigations Division, 1425 New York Avenue, N.W. Suite 7100, Washington, DC 20530; and/or (2) the DOJ OIG hotline: (contact information in English and Spanish) at (800) 869-4499 (phone) or (202) 616-9881 (fax).

Additional information is available from the DOJ OIG website at https://oig.justice.gov/hotline.

PROJECT NUMBER 2018-RW-BX-0007 AWARD DATE 09/29/2018

SPECIAL CONDITIONS

24. Restrictions and certifications regarding non-disclosure agreements and related matters

No recipient or subrecipient ("subgrantee") under this award, or entity that receives a procurement contract or subcontract with any funds under this award, may require any employee or contractor to sign an internal confidentiality agreement or statement that prohibits or otherwise restricts, or purports to prohibit or restrict, the reporting (in accordance with law) of waste, fraud, or abuse to an investigative or law enforcement representative of a federal department or agency authorized to receive such information.

The foregoing is not intended, and shall not be understood by the agency making this award, to contravene requirements applicable to Standard Form 312 (which relates to classified information), Form 4414 (which relates to sensitive compartmented information), or any other form issued by a federal department or agency governing the nondisclosure of classified information.

1. In accepting this award, the recipient--

a. represents that it neither requires nor has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and

b. certifies that, if it learns or is notified that it is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds, will provide prompt written notification to the federal agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.

2. If the recipient does or is authorized under this award to make subawards ("subgrants"), procurement contracts, or both--

a. it represents that--

(1) it has determined that no other entity that the recipient's application proposes may or will receive award funds (whether through a subaward ("subgrant"), procurement contract, or subcontract under a procurement contract) either requires or has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and

(2) it has made appropriate inquiry, or otherwise has an adequate factual basis, to support this representation; and

b. it certifies that, if it learns or is notified that any subrecipient, contractor, or subcontractor entity that receives funds under this award is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds to or by that entity, will provide prompt written notification to the federal agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.

SPECIAL CONDITIONS

25. Compliance with 41 U.S.C. 4712 (including prohibitions on reprisal; notice to employees)

The recipient (and any subrecipient at any tier) must comply with, and is subject to, all applicable provisions of 41 U.S.C. 4712, including all applicable provisions that prohibit, under specified circumstances, discrimination against an employee as reprisal for the employee's disclosure of information related to gross mismanagement of a federal grant, a gross waste of federal funds, an abuse of authority relating to a federal grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a federal grant.

The recipient also must inform its employees, in writing (and in the predominant native language of the workforce), of employee rights and remedies under 41 U.S.C. 4712.

Should a question arise as to the applicability of the provisions of 41 U.S.C. 4712 to this award, the recipient is to contact the DOJ awarding agency (OJP or OVW, as appropriate) for guidance.

26. Encouragement of policies to ban text messaging while driving

Pursuant to Executive Order 13513, "Federal Leadership on Reducing Text Messaging While Driving," 74 Fed. Reg. 51225 (October 1, 2009), DOJ encourages recipients and subrecipients ("subgrantees") to adopt and enforce policies banning employees from text messaging while driving any vehicle during the course of performing work funded by this award, and to establish workplace safety policies and conduct education, awareness, and other outreach to decrease crashes caused by distracted drivers.

27. Requirement to disclose whether recipient is designated "high risk" by a federal grant-making agency outside of DOJ

If the recipient is designated "high risk" by a federal grant-making agency outside of DOJ, currently or at any time during the course of the period of performance under this award, the recipient must disclose that fact and certain related information to OJP by email at OJP.ComplianceReporting@ojp.usdoj.gov. For purposes of this disclosure, high risk includes any status under which a federal awarding agency provides additional oversight due to the recipient's past performance, or other programmatic or financial concerns with the recipient. The recipient's disclosure must include the following: 1. The federal awarding agency that currently designates the recipient high risk, 2. The date the recipient was designated high risk, 3. The high-risk point of contact at that federal awarding agency (name, phone number, and email address), and 4. The reasons for the high-risk status, as set out by the federal awarding agency.

28. The award recipient agrees to participate in a data collection process measuring program outputs and outcomes. The data elements for this process will be outlined by the Office of Justice Programs.

29. Protection of human research subjects

The recipient (and any subrecipient at any tier) must comply with the requirements of 28 C.F.R. Part 46 and all OJP policies and procedures regarding the protection of human research subjects, including obtainment of Institutional Review Board approval, if appropriate, and subject informed consent.

30. Confidentiality of data

The recipient (and any subrecipient at any tier) must comply with all confidentiality requirements of 42 U.S.C. 3789g and 28 C.F.R. Part 22 that are applicable to collection, use, and revelation of data or information. The recipient further agrees, as a condition of award approval, to submit a Privacy Certificate that is in accord with requirements of 28 C.F.R. Part 22 and, in particular, 28 C.F.R. 22.23.

PROJECT NUMBER 2018-RW-BX-0007 AWARD DATE 09/29/2018

SPECIAL CONDITIONS

31. Grantee agrees that assistance funds awarded under this grant will not be used to support any inherently religious activities, such as worship, religious instruction, or proselytization. If the grantee refers participants to, or provides, a non-Federally funded program or service that incorporates such religious activities, (1) any such activities must be voluntary for program participants, and (2) program participants may not be excluded from participation in a program or otherwise penalized or disadvantaged for any failure to accept a referral or services. If participation in a non-Federally funded program or service that incorporates inherently religious activities is deemed a critical treatment or support service for program participants, the grantee agrees to identify and refer participants who object to the inherently religious activities of such program or service to, or provide, a comparable secular alternative program or service.

32. The recipient agrees to cooperate with any assessments, national evaluation efforts, or information or data collection requests, including, but not limited to, the provision of any information required for the assessment or evaluation of any activities within this project.

33. Justification of consultant rate

    Approval of this award does not indicate approval of any consultant rate in excess of $650 per day. A detailed justification must be submitted to and approved by the OJP program office prior to obligation or expenditure of such funds.

34. Recipient understands and agrees that it must submit quarterly Federal Financial Reports (SF-425) and semi-annual performance reports through GMS (https://grants.ojp.usdoj.gov), and that it must submit quarterly performance metrics reports through BJA's Performance Measurement Tool (PMT) website (https://bjapmt.ojp.gov/). For more detailed information on reporting and other requirements, refer to BJA's website. Failure to submit required reports by established deadlines may result in the freezing of grant funds and High Risk designation.

35. FFATA reporting: Subawards and executive compensation

    The recipient must comply with applicable requirements to report first-tier subawards ("subgrants") of $25,000 or more and, in certain circumstances, to report the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients (first-tier "subgrantees") of award funds. The details of recipient obligations, which derive from the Federal Funding Accountability and Transparency Act of 2006 (FFATA), are posted on the OJP web site at https://ojp.gov/funding/Explore/FFATA.htm (Award condition: Reporting Subawards and Executive Compensation), and are incorporated by reference here.

    This condition, including its reporting requirement, does not apply to-- (1) an award of less than $25,000, or (2) an award made to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

36. Verification and updating of recipient contact information

    The recipient must verify its Point of Contact(POC), Financial Point of Contact (FPOC), and Authorized Representative contact information in GMS, including telephone number and e-mail address. If any information is incorrect or has changed, a Grant Adjustment Notice (GAN) must be submitted via the Grants Management System (GMS) to document changes.

SPECIAL CONDITIONS

37. The recipient agrees to comply with OJP grant monitoring guidelines, protocols, and procedures, and to cooperate with BJA and OCFO on all grant monitoring requests, including requests related to desk reviews, enhanced programmatic desk reviews, and/or site visits. The recipient agrees to provide to BJA and OCFO all documentation necessary to complete monitoring tasks, including documentation related to any subawards made under this award. Further, the recipient agrees to abide by reasonable deadlines set by BJA and OCFO for providing the requested documents. Failure to cooperate with BJA's/OCFO's grant monitoring activities may result in sanctions affecting the recipient's DOJ awards, including, but not limited to: withholdings and/or other restrictions on the recipient's access to grant funds; referral to the Office of the Inspector General for audit review; designation of the recipient as a DOJ High Risk grantee; or termination of an award(s).

38. The recipient agrees to submit to BJA for review and approval any curricula, training materials, proposed publications, reports, or any other written materials that will be published, including web-based materials and web site content, through funds from this grant at least thirty (30) working days prior to the targeted dissemination date. Any written, visual, or audio publications, with the exception of press releases, whether published at the grantee's or government's expense, shall contain the following statements: "This project was supported by Grant No. 2018-RW-BX-0007 awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Department of Justice's Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice." The current edition of the DOJ Grants Financial Guide provides guidance on allowable printing and publication activities.

39. Recipient integrity and performance matters: Requirement to report information on certain civil, criminal, and administrative proceedings to SAM and FAPIIS

    The recipient must comply with any and all applicable requirements regarding reporting of information on civil, criminal, and administrative proceedings connected with (or connected to the performance of) either this OJP award or any other grant, cooperative agreement, or procurement contract from the federal government. Under certain circumstances, recipients of OJP awards are required to report information about such proceedings, through the federal System for Award Management (known as "SAM"), to the designated federal integrity and performance system (currently, "FAPIIS").

    The details of recipient obligations regarding the required reporting (and updating) of information on certain civil, criminal, and administrative proceedings to the federal designated integrity and performance system (currently, "FAPIIS") within SAM are posted on the OJP web site at https://ojp.gov/funding/FAPIIS.htm (Award condition: Recipient Integrity and Performance Matters, including Recipient Reporting to FAPIIS), and are incorporated by reference here.

40. The recipient is authorized to incur obligations, expend, and draw down funds for travel, lodging, and per diem costs only, in an amount not to exceed $15,000, for the sole purpose of attending a required OJP conference associated with this grant award. The grantee is not authorized to incur any additional obligations, or make any additional expenditures or draw downs until the awarding agency and the Office of the Chief Financial Officer (OCFO) has reviewed and approved the recipient's budget and budget narrative, and a Grant Adjustment Notice (GAN) has been issued to remove this special condition.

41. The recipient may incur obligations, expend, and draw down funds in an amount not to exceed $150,000 for the sole purpose of completing the Planning and Implementation Guide within 12 months of the project period start date. The grantee is not authorized to incur any additional obligations, make any additional expenditures, or drawdown any additional funds until BJA has reviewed and approved the grant recipient's completed Planning and Implementation Guide and has issued a Grant Adjustment Notice (GAN) removing this condition.

SPECIAL CONDITIONS

42. With respect to this award, federal funds may not be used to pay cash compensation (salary plus bonuses) to any employee of the award recipient at a rate that exceeds 110% of the maximum annual salary payable to a member of the federal government's Senior Executive Service (SES) at an agency with a Certified SES Performance Appraisal System for that year. (An award recipient may compensate an employee at a higher rate, provided the amount in excess of this compensation limitation is paid with non-federal funds.)

    This limitation on compensation rates allowable under this award may be waived on an individual basis at the discretion of the OJP official indicated in the program announcement under which this award is made.

43. Recipient may not obligate, expend, or drawdown funds until the Bureau of Justice Assistance, Office of Justice Programs has reviewed and approved the Budget Narrative portion of the application and has issued a Grant Adjustment Notice (GAN) informing the recipient of the approval.

U.S. Department of Justice

Office of Justice Programs

Bureau of Justice Assistance

Washington, D.C. 20531

Memorandum To: Official Grant File

From: Orbin Terry, NEPA Coordinator

Subject: Categorical Exclusion for County of Sonoma

Awards under this program will be used to develop reentry programs that target adult offenders with co-occurring substance abuse and mental illness. None of the following activities will be conducted whether under the Office of Justice Programs federal action or a related third party action:

(1) New construction.

(2) Any renovation or remodeling of a property located in an environmentally or historically sensitive area, including property (a) listed on or eligible for listing on the National Register of Historic Places, or (b) located within a 100-year flood plain, a wetland, or habitat for an endangered species.

(3) A renovation which will change the basic prior use of a facility or significantly change its size.

(4) Research and technology whose anticipated and future application could be expected to have an effect on the environment.

(5) Implementation of a program involving the use of chemicals.

Additionally, the proposed action is neither a phase nor a segment of a project which when reviewed in its entirety would not meet the criteria for a categorical exclusion. Consequently, the subject federal action meets the Office of Justice Programs' criteria for a categorical exclusion as contained in paragraph 4(b) of Appendix D to Part 61 of the Code of Federal Regulations.

15. SUMMARY DESCRIPTION OF PROJECT (See instruction on reverse)

The Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness Program is designed to improve access to and delivery of services to offenders with co-occurring substance abuse and mental illness when they leave incarceration to reenter the community. BJA recognizes that a significant number of these adult offenders are in need of treatment in order to successfully complete their supervision, which in turn will reduce recidivism and promote public safety. Coordination among corrections, substance abuse and mental health treatment providers, correctional health, and parole or probation enables the development of collaborative comprehensive case plans that address criminogenic risk, substance abuse, and mental health needs.

The purpose of the program is to increase corrections systems’ ability to address the needs of offenders with co-occurring substance abuse and mental illness in order to reduce recidivism, and improve public safety and public health.

OJP FORM 4000/2 (REV. 4-88)

The focus of the Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness Program is to provide standardized screening and assessment; collaborative comprehensive case management; and pre-and post-release programming that address criminogenic risk and needs, including mental illness and substance abuse.

Funds will be used towards the Sonoma County Improving Reentry for Adults with Co-occurring Substance Abuse and Mental Illness program. The goal is to strengthen capacity of the criminal justice corrections system to serve the needs of offenders with co-occurring substance abuse and mental illness in order to reduce recidivism and improve public safety/public health. The target population includes individuals with reentering the community from the Sonoma County Main Adult Detention Facility.

Supervisorial District(s):
Countywide

Title: Restorative Justice Agreement Amendment

Recommended Actions:

Authorize the Chief Probation Officer to amend the Professional Services Agreement with Restorative Resources for the provision of restorative justice services to victims of youth offenders for a rate increase effective January 01, 2019 for the contract term through June 30, 2021, with a new maximum amount of $312,500.

Executive Summary:

The Probation Department requests Board approval to amend the agreement to Restorative Resources to accommodate negotiated 5% to rate increase that was inadvertently missed when the agreement was executed in June 2018. This modest increase is necessary to fund the vital restorative justice services provided to victims and perpetrators of juvenile crime in Sonoma County.

Discussion:

On the June 11, 2018 Board of Supervisors meeting, the Sonoma County Probation Department requested authority for the Chief Probation Officer to execute agreements with various community based organizations for services to clients, with terms beginning July 1, 2018, and ending no later than June 30, 2021, unless otherwise noted. Included were 9 (nine) agreements to provide various services for youth entered in the Juvenile Probation system. Authority was granted, however several months prior to submitting the agreements for Board consideration and approval, a rate increase was negotiated and agreed upon with Restorative Resources; the rate increase was omitted in error from the renewed contract. Restorative Resources and the Probation Department agreed to correct the omission in an Amendment to the agreement, submitted for Board approval today.

Restorative Justice Programs: Restorative Justice is a way of responding to criminal behavior by balancing the needs of the community, victims and offenders. Restorative Justice programs address accountability, competency development and community safety and have the following common features or goals:

- Focus on repair of harm to the victim.

- Provide a process for making amends to the community.
- Provide a process for greater understanding of how the incident affected others.
- Offer a meaningful way for the juvenile to take responsibility for their actions.
- Encourage apology or expressions of remorse.
- Involve the victim and the community in determining the accountability measures.

Prior Board Actions:

Annually, beginning 04/10/07, the Board has authorized agreements for Juvenile Crime Prevention Services Programs.

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

Fiscal Summary

Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	100,000	105,000	105,000
Additional Appropriation Requested	2,500		
Total Expenditures	**102,500**	**105,000**	**105,000**

AMENDMENT NO. 1
TO
THE PROFESSIONAL SERVICES AGREEMENT
BETWEEN
THE SONOMA COUNTY PROBATION DEPARTMENT
AND
RESTORATIVE RESOURCES

This Amendment No. 1, is entered into by and between the County of Sonoma, a political subdivision of the State of California (hereinafter "County"), and Restorative Resources, a California non-profit corporation (hereinafter "Consultant").

RECITALS

WHEREAS, COUNTY and CONSULTANT entered into an Agreement for the provision of delivering Restorative Justice Services for Sonoma County juvenile offenders effective July 01, 2018 ("the Agreement"); and

WHEREAS, Section 8 of the Agreement provides that the parties may modify or amend the Agreement in writing; and

WHEREAS, in the judgement of the Board of Supervisors, it is necessary and desirable to employ the services of Consultant for the provision of restorative justice for the juvenile offenders and their victims in Sonoma County; and

WHEREAS, the parties wish to amend the Agreement for the purpose of increasing the rates of services beginning January 01, 2019, and increasing the contract limit to reflect reasonable increases in operating costs of Consultant.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing recitals and the mutual covenants contained herein, the parties hereto agree as follows:

1. 2.1 Payment, shall be amended to read as follows:

2.1 Payment. For all services required and incidental costs incurred hereunder, Consultant shall be paid in accordance with the rates set forth in the estimated budget and Fee Schedule, attached hereto as Exhibit "B2" and incorporated herein by this reference. The amount to be paid to Consultant for all services performed under this Agreement shall not exceed three hundred twelve thousand, five hundred dollars ($312,500). Such amount is not an estimate or minimum guarantee of payment under the Agreement; the amount to be paid under this Agreement shall be made in accordance with the terms set forth herein.

2. All other provisions of the Agreement are unchanged, and shall remain in full force and effect throughout the remaining balance of the term of the Agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment No. 1 on the dates indicated below.

BUDGET / Fee Schedule

Fees encompass all program delivery costs including staff salaries for intake, assessments, groups, fidelity measures, outcome reporting, case management, and quality assurance plan meetings.

Reimbursement for direct service hours: When service targets listed below and all other contract terms are met, consultant shall be paid $8,750 per month. When targets are not met, payments will be prorated as shown below.

Activity	**Service Target**	**Payment when targets are met**	**Prorated payment**
Restorative Conferencing and Accountability Circles	75-110 unduplicated youth per fiscal year *	$8,016/month	$1,040/youth
Restorative Dialogue Groups	34-52 groups per fiscal year	$734/month	$205/group
Total		$8,750/month	

* Cases that are opened, closed or in progress during the period. Including up to 25% unsuccessful cases. Each youth will count once unless a new case is referred for the same youth.

Service target completion will be assessed using the table below. Any shortfall in service targets or payments will be reassessed and corrected at the end of each quarter.

Month	**Minimum Youth Served Target (cumulative)**	**Minimum Groups Delivered Target (cumulative)**
July	6	3
August	12	6
September	19	9
October	25	11

March	56	26
April	62	29
May	68	32
June	75	34

Documentation of Direct Service Hours: Consultant shall provide details, including names of participants and staff, dates and locations of service, for all billable hours in a form to be provided by Probation.

Co-Payment/Fees: Probation will allow Consultant to charge a co-payment or share-of-cost payment to Probation clients referred to this program. Any such client fee, and all related billing, sliding-scale rates, collecting, and reporting procedures, shall be agreed upon by Probation and Consultant. Probation staff shall be notified of any fee (amount, description, and terms) to be charged to a Probation-referred client prior to the client being notified of such fee. Probation staff shall work collaboratively with Consultant to inform client of the program’s fee requirements. Collection and reporting of such fees shall be conducted by Consultant staff. Fees shall be charged in accordance with Probation’s terms. Clients who do not comply with payment of client fees may be returned to Probation as unsuccessful terminations.

Title: Participation in Sonoma County Transit's Fare-Free Program – Unincorporated Area Local Routes 28 and 32.

Recommended Actions:

1. Provide funding to include unincorporated area local transit routes 28 (Guerneville, Monte Rio and Occidental) and 32 (Sonoma Valley and Sonoma) in Sonoma County Transit's Fare-Free program for the period of January 1, 2019 through June 30, 2020 in the amount of $56,925.
2. Approve use of Contingency funds in the amount of $16,743 to fund participation from January – June, 2019.

Executive Summary:

In June 2018, Sonoma County Transit introduced its "Fare-Free" program on Sebastopol local Route 24. The "Fare-Free" program was derived following a City-led community outreach program to identify new ideas for increasing interest in local transit services, boosting Route 24's usage and broadening is demographic user base.

In becoming a "Fare-Free" route, the City of Sebastopol agreed to subsidize fares for all Route 24 riders, thereby enabling all riders to use the local Sebastopol Shuttle without the need to pay a fare, carry the exact change or purchase a pass. Soon after Sebastopol implemented the "Fare-Free" program on its local route, the Town of Windsor and City of Healdsburg followed, expanding the "Fare-Free" program to their respective local routes 66 and 68.

From the period of July through October 2018, ridership on the three "Fare-Free" routes has increased by 53%, with ridership increases in all fare categories (Adult, Senior, Disabled and Youth.)

This request is to provide funding such that the two Sonoma County Transit local routes that operate in unincorporated areas can also become "Fare-Free" routes. These routes include Route 28 which provides local service within the Guerneville, Monte Rio and Occidental communities and Route 32 which serves Sonoma Valley and Sonoma. On November 19th, the Sonoma City Council approved funding to assist with Route 32’s “Fare-Free” program as the route also operates within the City’s incorporated area.

Discussion:

In partnership with the City of Sebastopol, Sonoma County Transit introduced its “Fare-Free” program on Sebastopol local Route 24, in June. The “Fare-Free” program came about as the result of a community-based outreach program, led by the City, in early 2018 to generate interest in and boost ridership on route 24 – “The Sebastopol Shuttle.”

Since establishing the program in Sebastopol, Windsor and Healdsburg also agreed to subsidize all passenger fares on their respective local routes (66 – Windsor Shuttle and 67 – Healdsburg Shuttle). While Sebastopol has committed to funding their participation through this fiscal year, Windsor and Healdsburg have committed to fund their participation through FY 2019-20. Due to the success of the “Fare-Free” program on the Sebastopol Shuttle, it is anticipated that the City will continue participation beyond FY 2018-19.

From the onset, the intent of the “Fare-Free” program has been to encourage interest and promote use of local transit services, expand the user demographic on local routes and to provide an easy to use “Hop-On, Hop-Off” service for all passengers, without the need to worry about having a pass or the correct fare.

To date, the program has met the above objectives and has been well received in each of the three cities now participating:

- **Sebastopol:** Ridership on the Sebastopol Shuttle is up 52% for the July through October period compared with the prior year.
- **Windsor:** Ridership on the Windsor Shuttle increased 87% in September and October, the first two months of implementation of the fare-free program.
- **Healdsburg:** Ridership on the Healdsburg Shuttle increased 32% for the July through October period compared with the prior year.

Overall, cumulative ridership on the three local routes has increased 53% between July and October 2018 compared with the same period in 2017. It should be noted that ridership on these three routes was only slightly impacted by the October 2017 wildfires.

Within the SCT route network, only two local routes operate within unincorporated areas - routes 28 and 32. Below are cost estimates to include these two unincorporated area routes in the “Fare-Free” program.

Route 28 provides local service on weekdays in the River Area communities of Guerneville, Monte Rio and Occidental. As shown on Attachment “A,” Route 28 provided 5,988 passenger trips during FY 2017-18. Based on usage by fare type, Route 28’s fare revenue was $5,564. Based on a projected 30% ridership increase with implementation beginning on January 1, 2019, Route 28’s “Fare-Free” program subsidy for FY 2018-19 is estimated at $3,617.

Allowing for a 20% increase in FY 2019-20, Route 28’s “Fare-Free” subsidy is estimated at $8,680. If ridership falls below projections, the County’s contribution would be less. If ridership exceeds projections, then projections ($3,617 in FY2018-19; $8,680 in FY2019-20) would be the County's maximum contribution during the proposed 18-month period.

Route 32 serves the Sonoma Valley communities of Agua Caliente, Boyes Hot Springs, El Verano and Temelec. Route 32 connects these unincorporated communities with the City of Sonoma and travel destinations such as the Sonoma Marketplace, Maxwell Village, Sonoma Valley Regional Library, Sonoma Valley Hospital, and Sonoma Valley High School, among others. Unlike implementation of the "Fare-Free" program in the other cities, Route 32 serves both incorporated and unincorporated areas. Therefore, contributions from both the City of Sonoma and the County are necessary to introduce the "Fare-Free" program on Route 32.

Due to the larger, geographic area served by Route 32, its overall ridership is higher than the other "Fare-Free" routes. The route operates with two buses on weekdays and one bus on Saturday.

As shown on Attachment "B," Route 32 provided 29,597 passenger trips during FY 2017-18. Based on usage by fare type, Route 32's fare revenue was $30,002. Based on a projected 25% ridership increase with implementation beginning on January 1, 2019, Route 32's "Fare-Free" program subsidy for FY 2018-19 is estimated at $18,751.

On November 19, 2018, the Sonoma City Council approved a 30% contribution towards the Route 32 "Fare-Free" subsidy from January 1, 2019 through June 30, 2020. While the City of Sonoma is funding only a portion of the "Fare-Free" subsidy on its local route, the City's contribution, on a per-capita basis, is consistent with contributions provided by Sebastopol, Windsor and Healdsburg for their "Fare-Free" program participation.

The County's cost to participate in Route 32's "Fare-Free" program is projected at $13,126 for FY 2018-19 (January through June) and $31,502 for FY 2019-20. As noted above on Route 28, if ridership falls below projections, the County's contribution would be less. If ridership exceeds projections, then projections ($13,126 in FY2018-19; $31,502 in FY2019-20) would be the County's maximum contribution during the proposed 18-month period.

As with the "Fare-Free" routes in Sebastopol, Windsor and Healdsburg, if approved, "Fare-Free" promotional graphics would be installed on buses that operate on routes 28 and 32. The County would be credited for the "Fare-Free" program subsidy on Route 28 and share crediting with the City of Sonoma on buses that operate on Route 32. The same would be done on associated local print and digital media marketing efforts and on sctransit.com.

Staff is currently working with the City of Cloverdale and anticipates that Cloverdale will participate in the "Fare-Free" program for its local Route 68 – "The Cloverdale Shuttle," beginning in February 2019.

Prior Board Actions:

None

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

The provision of public transit services assists the County's goals of providing safe, healthy and caring community by providing, environmentally friendly, low-cost mobility options that link all areas of Sonoma County and provide access to major medical, educational and commercial destinations.

Title: Program update on Subsidized Transit Fare Program for Veterans and College Students.

Recommended Actions:

1. Provide funding to continue the College Student Subsidized Fare program from January 1, 2019 thru June 30, 2022 in the amount of $329,243 (County share) and Authorize the Chair to execute a Memorandum of Understanding with Santa Rosa Junior College and Sonoma State University in the amounts up to $444,455 and $80,765, respectively to support the multi-year program.
2. Provide funding for the permanent Veterans Subsidized Fare Program from January 1, 2019 thru June 30, 2022 in the amount of $120,430.
1. Approve the use of Contingency funds in the amount of $43,523 to fund the College Student Subsidized Fare Program and $16,347 to fund the permanent Veterans Subsidized Fare Program from January-June, 2019.

Executive Summary:

This item provides an update on year four of the Subsidized Transit Fare Program for Sonoma County veterans and college students and recommends actions for the Board to consider for continuance through fiscal year 2021-22.

Discussion:

On September 30, 2014, the Board approved funding for Sonoma County Transit to implement a subsidized transit fare pilot-program for eligible college Students and veterans, effective January 1 through December 31, 2015. The approved program established a reimbursement rate for each eligible college student and veteran trip taken on Sonoma County Transit.

Transportation and Public Works (TPW) Transit staff updated the Board of the program on August 18, 2015 and November 17, 2015, and made recommendations for 2016. On November 17, 2015, the Board took action to make the Veterans Subsidized Fare Program (VSFP) permanent effective January 1, 2016 and extended the College Student Subsidized Fare Program (CSSFP) through December 31, 2016. Following a TPW Transit staff report on the 2016 program on December 13, 2016, the Board extended the CSSFP through December 31, 2017. On December 12, 2017, the Board extended the CSSFP through December 31, 2018.

This report provides an update on how the Subsidized Transit Fare Programs have performed in 2018 and provides a recommendation for the CSSFP through June 30, 2022.

Veterans Subsidized Fare Program: The program commenced on January 1, 2015 and provides veterans free use of SC Transit when they display their Veterans Administration identification card or a Sonoma County Veterans identification card, upon boarding a Sonoma County Transit bus.

The program provided 29,912 trips to Veterans in 2015, 38,806 trips in 2016 and 38,891 trips in 2017. It is projected that 35,268 trips will be provided in 2018, a 9.3% decline over 2017. The decrease in ridership can be attributed, in part, to the disruption in travel patterns and displacements of residents caused by the October 2017 wildfires, but more broadly, lower system-wide ridership that Sonoma County Transit and most transit systems in the state are experiencing.

From January through September 2018, 79% of trips taken by veterans were on Sonoma County Transit's main north/south, east/west routes and 11% were on Route 62, which serves the Veterans Outpatient Clinic on Airport Blvd. The remaining 10% were made on various local and intercity routes within the Sonoma County Transit network.

The projected subsidy for the VSFP in 2018 is projected to be $31,415, $4,380 less than the $35,795 that was projected in December 2017. For the remainder of FY 2018-19 (January through June), the estimated subsidy for the VSFP will be $16,347. With a projected 2% ridership growth for FY 2019-20, the subsidy is anticipated at $33,674. Chart III on Attachment "A" illustrates the projected fare subsidy for the Veterans program through FY 2022.

College Student Subsidized Fare Program: Also commencing on January 1, 2015, the CSSFP provides students attending a Sonoma County college unrestricted use of Sonoma County Transit. This includes non-school bound trips, weekend trips and trips during school breaks.

In September 2018, average ridership by college students was 707 on weekdays, 159 on Saturdays, and 116 on Sundays.

In 2018, the ridership split between the two colleges has remained consistent with prior years with SRJC representing 85% and Sonoma State University representing 15% of college student ridership. It's projected that 2018's the overall ridership will increase 1% (1,231 passenger trips) over 2017, resulting in a projected 2018 net general fund subsidy (less contributions from SRJC and SSU) of $107,524. This represents a $2,723 decrease from the $110,247 request made in December 2017 to fund the 2018 CSSFP.

This fall, TPW Transit staff has worked with both SRJC and SSU to establish a multi-year agreement between the colleges and the County. Below is the status of those efforts:

> **Santa Rosa Junior College:** In April 2017, the SRJC student body passed a fee initiative that provides funding to assist with the County's CSSFP and provides financial support for similar programs on Santa Rosa CityBus and Petaluma Transit. With a reliable funding source, SRJC has agreed to a funding commitment effective January 1, 2019 through June 30, 2022. SRJC has committed to funding 60% of the fare subsidy of its student travel between January 1, 2019 and June 30, 2020 and a 62.5% fare subsidy between July 1, 2020 and June 30, 2022. This is an

increased contribution from the SRJC's 55% fare subsidy in 2018. Over the term of the proposed 3.5-year agreement, SRJC is committing a fare subsidy up to $444,455.

Sonoma State University: Following SRJC, SSU has also agreed to increased fare subsidy rates, beginning January 1, 2019. SSU has agreed to funding 60% of the fare subsidy of its student travel between January 1, 2019 and June 30, 2020 and a 62.5% fare subsidy between July 1, 2020 and June 30, 2022. This is an increased contribution from SSU's 55% fare subsidy in 2018. Over the term of the proposed 3.5-year agreement, SSU is committing a fare subsidy up to $80,765.

As shown on Attachment "A – Chart I", the County's contribution over the 3.5-year agreement period is $329,243. The projected cost is $43,523 for the remainder of FY 2018-19 (January through June), $97,589 for FY 2019-20, $93,232 for FY 2021-22 and $94,899 for FY 2021-22.

Since the inception of the CSSFP in 2015, the County's general fund contribution has been reduced each year as contributions from SRJC and SSU have increased. As illustrated on Attachment "A – Chart II," the County's subsidy has been reduced from 100% in 2015 to 45% in 2018. The recommended multi-year agreement with SRJC and SSU further reduces the County's contribution to an average 38.5% contribution rate between January 1, 2019 and June 20, 2022.

Prior Board Actions:

12/12/17 – Provide funding to continue the CSSFP January 1 – December 31, 2019 in an amount up to $110,247 and authorize the Chair to execute a Memorandum of Understanding with SRJC and SSU University in the amounts of $111,308 and $23,438, respectively to support the 2018 program. Approve the use of Contingency funds in the amount of $55,124 to fund the CSSFP and $17,897 to fund the permanent VSFP from January – June, 2018

12/13/16 – Provide funding to continue the CSSFP through December 31, 2017 in an amount up to $236,831 and authorize the Chair to execute a Memorandum of Understanding with SRJC and SSU to accept their financial contributions in the amounts of $30,000 and $19,477, respectively.

11/17/15 – Board approved funding on an annual basis and adopted the VSFP as a permanent program beginning January 1, 2016 and funding the CSSFP through December 31, 2016 in the amount of $218,158 and accept financial assistance from SRJC ($60,000) and SSU ($17,500) for 2016.

08/18/15 – Board received a Mid-Year Report on the 2015 Subsidized Fare Program and Upcoming Implementation of the Regional Clipper Card Fare Payment System on SC Transit.

09/30/14 – Board approved (1) Funding to SC Transit to implement a Subsidized Fare Pilot Program for eligible College Students and Veterans, effective January 1 through December 31, 2015, with an estimated cost of$311,000.

07/29/14 – Board approved development of a Pilot Student Transit Pass Program.

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

The provision of public transit services at no cost to college students and veterans aligns with the County's goals of providing safe, healthy and caring community.

Fiscal Summary			
Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses		$131,263	$127,916
Additional Appropriation Requested	$59,870		
Total Expenditures	**$59,870**	**$131,263**	
Funding Sources			
General Fund/WA GF

Agenda Item Number: 47
(This Section for use by Clerk of the Board Only.)

To: Board of Supervisors

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): Transportation and Public Works

Staff Name and Phone Number: Johannes J. Hoevertsz, 707-565-2231

Supervisorial District(s): All

Title: Adoption of an Ordinance Revising Speed Limits on Various County Roads

Recommended Actions:

Adopt an ordinance amending Ordinance 664 to establish revised prima facie vehicular speed limits on various portions of County highways.

Executive Summary:

The Department of Transportation and Public Works (TPW) reviews speed limits on County maintained highways in accordance with the California Vehicle Code Sections 22357 and 22358. Staff has performed the Engineering and Traffic Surveys (E&TS) on County highways as required by law, and is recommending setting the speed limits as attached.

Discussion:

Speed limits are set in accordance with the California Vehicle Code (CVC) and the California Manual on Uniform Traffic Control Devices (MUTCD).

Under the CVC and MUTCD, speed limit determinations rely on the premise that a reasonable speed limit is one that conforms to the actual behavior of the majority of drivers. Therefore, agencies are allowed to set a speed limit that is both reasonable and effective by measuring drivers' speeds. Speed limits set by E&TS are set near the 85th percentile speed. The 85th percentile is determined by the speed at or below which 85 percent of the traffic is surveyed to be moving.

The CVC (Section 40802) establishes criteria for radar enforcement of speed limits on certain roadways so as not to create a prohibited “speed trap”. For radar enforcement to be effective, posted speeds must be justified by and established pursuant to a current E&TS.

TPW performed E&TS in accordance with the requirements set forth in the CVC, MUTCD and established traffic-engineering practices. A signed and stamped E&TS report providing background, analysis, and the speed survey data for each revised location is available for review at the Board of Supervisors office. A summary table showing each proposed speed limit location and speed is provided as an attachment to this Summary Report.

The estimated cost of labor and materials to implement the speed limit changes is approximately $80,000. Appropriations are available within the 2018 Road Maintenance Budget and implementation will not have an impact on future projects.

Prior Board Actions:

12 04 18: Adoption of a resolution introducing, reading the title of, and waiving the reading of an ordinance amending Ordinance 664 to establish revised prima facie vehicular speed limits on various portions of County highways.

Various ordinances between 1961 and 2009.

Strategic Plan Alignment	Goal 1: Safe, Healthy, and Caring Community

The establishing of speed limits based on E&TS allows for public safety and for the CHP to provide radar enforcement.

Fiscal Summary

Expenditures	**FY 18-19 Adopted**	**FY 19-20 Projected**	**FY 20-21 Projected**
Budgeted Expenses	$80,000.00		
Additional Appropriation Requested			
Total Expenditures	**$80,000.00**		
Funding Sources			
General Fund/WA GF			
State/Federal	$80,000.00		
Fees/Other			
Use of Fund Balance			
Contingencies			
Total Sources	**$80,000.00**		

Narrative Explanation of Fiscal Impacts:

The costs of adjusting the speed limits and replacing the speed limit signs were included in the adopted FY 18-19 Roads Division Maintenance Budget. This project will be funded with Highway Users Tax Account funding.

ORDINANCE NO. (   )

AN ORDINANCE OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SONOMA, STATE OF CALIFORNIA, AMENDING ORDINANCE NO. 664, TO ESTABLISH REVISED PRIMA FACIE VEHICULAR SPEED LIMITS FOR VARIOUS PORTIONS OF COUNTY HIGHWAYS

The Board of Supervisors of the County of Sonoma, State of California, ordains as follows:

Section I.

Pursuant to the authority provided by California Vehicle Code Section 22358, the Board of Supervisors hereby determines, on the basis of the findings of an Engineering and Traffic Survey completed in compliance with the requirements set forth in the California Vehicle Code and made upon those certain portions of the County highways as set out in this Ordinance, that the speed limit of 65 miles per hour remains more than is reasonable or safe for each portion of the County highway as set out in this Ordinance, and that each such portion of County highway should have a prima facie speed limit as herein designated. The Board further determines that these prima facie speed limits are reasonable and safe and are most appropriate to facilitate the safe and orderly movement of traffic on the portions of the County highways as are herein listed under each of the prima facie speed limits.

Section II.

The following subsections of Ordinances establishing prima facie speed limits on county highways which amended Ordinance 664, or which established duplicate subsections to Ordinance 664, are hereby repealed:

Ordinance 664, Section VIII, Subsection 3, dated May 8, 1961
Ordinance 1214, Section VI, Subsection 37, dated November 10, 1969
Ordinance 1331, Section V, Subsection 4, dated February 8, 1971
Ordinance 1710, Section IV, Subsection 4, dated January 14, 1974

SECTION III. TWENTY (20) MILES PER HOUR

The following Subsections to be added to Section III of Sonoma County Ordinance No. 664 (said section establishes a prima facie speed limit of twenty (20) miles per hour on certain highways in the County of Sonoma) to read:

Subsection 6 Cavanaugh Lane (#58015) from Skillman Lane (#57029) to the north end of Cavanaugh Lane. Postmile 10.00 to 10.38.

SECTION IV. TWENTY-FIVE (25) MILES PER HOUR

The following Subsections to be added to Section IV of Sonoma County Ordinance No. 664 (said section establishes a prima facie speed limit of twenty-five (25) miles per hour on certain highways in the County of Sonoma) to read:

Subsection 121 Verano Road (#56017) from State Highway 12 to Sonoma City Limits. Postmile 11.12 to 11.36.
Subsection 122 Arnold Drive (#5603) from Chauvet Road (#66044) to Warm Springs Road (#6602). Postmile 18.16 to 18.50.
Subsection 123 Specht Road (#55026) from State Highway 12 to east end of Specht Road. Postmile 10.00 to 10.24.
Subsection 124 Formschlag Lane (#57060) from the west end of Formschlag Lane to Petaluma Hill Road (#5710B). Postmile 10.00 to 10.24.
Subsection 125 Alton Lane (#78221) from the west end of Alton Lane to Fulton Road (#7804B). Postmile 10.03 to 10.66.
Subsection 126 Fredericks Road (#68057) from Lone Pine Road (#68053) to State Highway 116. Postmile 10.00 to 11.00.
Subsection 127 West Robles Avenue (#68082) from Moorland Avenue (#68085) to Dutton Avenue (#78006A). Postmile 10.11 to 10.35.
Subsection 128 Watson Road (#80127) from West of Guidotti Road (#80128) to Armstrong Woods Road (#8902B). Postmile 10.18 to 10.81.
Subsection 129 Lloyd Avenue (#78023) from Concord Avenue (#78022) to Miles Avenue (#78082). Postmile 10.00 to 10.39.
Subsection 130 Merced Avenue (#78085) from Miles Avenue (#78082) to Occidental Road (#7803). Postmile 10.00 to 10.50.

SECTION V. THIRTY (30) MILES PER HOUR

The following Subsections to be added to Section V of Sonoma County Ordinance No. 664 (said section establishes a prima facie speed limit of thirty (30) miles per hour on certain highways in the County of Sonoma) to read:

Subsection 101 Riverside Drive (#56015) from State Highway 12 to Willow Street (#56044). Postmile 10.00 to 10.73.
Subsection 102 Verano Road (#56017) from Arnold Drive (#5603) to Sonoma Creek Bridge. Postmile 10.19 to 10.74.
Subsection 103 Railroad Avenue (#56047) from Verano Avenue (#56017) to Boyes Boulevard (#56106). Postmile 30.00 to 30.76.
Subsection 104 Lovall Valley Road (#55040A) from East of Fourth Street East (NONCO) to Seventh Street East (#55037). Postmile 10.13 to 10.57.

Subsection 105 Wallace Road (#77067) from north of Santa Rosa city limits to south of Amber Lane (NONCO). Postmile 10.27 to Postmile 10.89.

Subsection 106 Highland Avenue (#58037) from Kelly Lane (#58039) to Old Redwood Highway North (#5712B). Postmile 20.00 to 20.68.

Subsection 107 Goodwin Avenue (#57043) from Elysian Avenue (#57044) to Penngrove Avenue (#57051). Postmile 10.15 to 11.62.

Subsection 108 Center Road (#58019) from Sprauer Road (#58017) to Pepper Road (#58023). Postmile 10.00 to 10.51.

Subsection 109 Kennedy Road (#69005) from Barnett Valley Road (#69011) to Bloomfield Road (#5901). Postmile 10.00 to 10.39.

Subsection 110 Sunland Avenue (#68069) from Wilfred Avenue (#68059) to Millbrae Avenue (#68060). Postmile 10.00 to 10.43.

Subsection 111 Bailey Avenue (#57031) from Fair Avenue (#57030) to Petaluma Boulevard North (#5712A). Postmile 10.00 to 10.52.

Subsection 112 Fair Avenue (#57030) from Skillman Lane (#57029) to Bailey Avenue (#57031). Postmile 10.00 to 10.56.

Subsection 113 King Road (#58020) from Bodega Avenue (#5706A) to Pepper Road (#58023). Postmile 10.00 to 11.55.

Subsection 114 Dupont Road (#70004) from Harrison Grade Road (#7001) to east end of Dupont Road. Postmile 10.00 to 11.11.

Subsection 115 Bohemian Highway (#70126) from Main Street (#6002B) to Bohemian Avenue (#70114). Postmile 18.73 to 20.11.

Subsection 116 Old Gravenstein Highway (#6806) from State Highway 116 to Todd Road (#6807A). Postmile 10.00 to 10.14.

Subsection 117 Salmon Creek Road (#60008) from Tannery Creek Road (#60009) to Bodega Highway (#6904). Postmile 12.91 to 13.73.

Subsection 118 Ragle Road (#69039) from Sebastopol city limits to Mill Station Road (#79007). Postmile 10.00 to 10.41.

Subsection 119 Walker Avenue (#68071) from Meadow Lane (#68072) to Todd Road (#6807A). Postmile 10.39 to 11.38.

Subsection 120 Phillips Avenue (#68088) from Todd Road (#6807A) to Butler Avenue (#68087). Postmile 10.00 to 10.84.

Subsection 121 Arnold Drive (#5603) from Warm Springs Road (#6602) to Gibson Street (#66053). Postmile 18.50-18.84.

Subsection 122 Madrone Road (#6605) from Arnold Drive (#5603) to East of Sonoma Creek Bridge. Postmile 10.00 to 10.40.

Subsection 123 Hargrave Avenue (#68066) from Millbrae Avenue (#68060) to Scenic Avenue (#68061A). Postmile 10.19 to 10.66.

Subsection 124 Geysers Road (#0901A) from River Road (#10008) to South of Preston Road (#20001). Postmile 36.04 to 36.96.

SECTION VI. THIRTY-FIVE (35) MILES PER HOUR

The following Subsections to be added to Section VI of Sonoma County Ordinance No. 664 (said section establishes a prima facie speed limit of thirty-five (35) miles per hour on certain highways in the County of Sonoma) to read:

Subsection 236 Grove Street (#56023) from Carriger Road (#56026) to Orange Avenue (#56025). Postmile 13.18 to 13.50.

Subsection	237	Denman Road (#57041) from Orchard Lane (#57064) to Goodwin Avenue (#57043). Postmile 10.20 to 10.60.
Subsection	238	Mill Creek Road (#99010) from Puccioni Road (NONCO) to west of Mill Creek Lane (NONCO). Postmile 16.43 to 18.60.
Subsection	239	Fulton Road (#7804B) from Airport Boulevard (#8803A) to Old Redwood Highway (#7812). Postmile 15.06 to 15.38.
Subsection	240	Main Street (#6002B) from south of South Street (NONCO) to south of Vine Street (#70070). Postmile 19.63 to 19.99
Subsection	241	Grove Street (#56023) from Sweet William Court (#56166) to East of Canyon Road (#56144). Postmile 9.30 to 11.25.
Subsection	242	Warm Springs Road (#6602) from Mervin Avenue (#76017) to State Highway 12. Postmile 14.75-15.14.
Subsection	243	Crane Canyon and Grange Roads (#6702A & 6702B) from East of Alta Monte Drive (#67016) to West of Guenza Road (#67004). Postmile 10.60 to 11.86.
Subsection	244	East Watmaugh Road (#55021) from State Highway 12 to Silva Road (#55022). Postmile 12.19 to 12.96.
Subsection	245	Verano Avenue (#56017) from Sonoma Creek Bridge to Main Street (#56043). Postmile 10.74 to 11.05.
Subsection	246	Mark West Springs Road (#8801A) from East of Mark West Lodge to East of Leslie Road (#88019). Postmile 15.34.to 15.55.
Subsection	247	Lytton Springs Road (#9903) from Dry Creek Road (#9901) to West of Healdsburg Airport. Postmile 10.00 to 10.90.
Subsection	248	River Road (#1001B) from Washington School Road (#10001) to Crocker Road (#1001A). Postmile 30.00 to 34.24.
Subsection	249	Annapolis Road (#0301) from West of Soda Springs Road (#03001) to West of County Landfill (NONCO). Postmile 17.37 to 18.37.

SECTION VII. FORTY (40) MILES PER HOUR

The following Subsections to be added to Section VII of Sonoma County Ordinance No. 664 (said section establishes a prima facie speed limit of forty (40) miles per hour on certain highways in the County of Sonoma) to read:

Subsection	139	Liberty Road (#58016) from Skillman Lane (#57029) to South of Rainsville Road (#57032). Postmile 10.00 to 10.90.
Subsection	140	North Laughlin Road (#88004) from Laughlin Road (#89001) to Airport Boulevard (#8803A). Postmile 10.00 to 10.64.
Subsection	141	Ludwig Avenue (#78013) from Santa Rosa city limits to Santa Rosa city limits. Postmile 11.92 to 12.40.
Subsection	142	Adobe Road (#5602) from Petaluma Hill Road (#5710B) to East of Bannon Lane (#57053). Postmile 10.42 to 10.90.
Subsection	143	Bloomfield Road (#5901) from North of Blucher Creek Bridge to North of Burnside Road (#6902). Postmile 10.86 to 12.90.
Subsection	144	Petaluma Hill Road (#5710B) from Adobe Road (#5602) to north of Formschlag Lane (#57060). Postmile 10.46 to 11.11.
Subsection	145	Western Avenue (#5705A) from Chapman Lane (#57011) to Petaluma City Limits. Postmile 17.63 to 18.22.
Subsection	146	Barnes Road (#78225A) from Santa Rosa City Limits to River Road (#8802B) Postmile 10.72 to 11.64.

Subsection 147 Lavell Road (#78225B) from Mark West Springs Road (#8801A) to South of Mayfield Drive (#88036). Postmile 11.61 to 12.05.

Subsection 148 River Roads (#10010 & 10008) from Crocker Road (# 1001A) to Geysers Road (#0901A). Postmile 20.00 to 20.99.

Subsection 149 Asti Road (#0902C) from Theresa Drive (#10015) to Cloverdale City Limits. Postmile 13.72 to 14.62.

Subsection 150 Armstrong Woods Road (#8902B) from North of Woodland Drive (#80069) to Sweetwater Springs Road (#8902A). Postmile 10.14 to 11.85.

Subsection 151 Ferguson Road (#69049) from Bodega Highway (#6904) to Mill Station Road (#79007). Postmile 10.00 to 11.31.

Subsection 152 East Cotati Avenue (#6701) from Rohnert Park City Limits to Petaluma Hill Road (#5710B). Postmile 10.49 to 11.00.

SECTION VIII. FORTY-FIVE (45) MILES PER HOUR

The following Subsections to be added to Section VIII of Sonoma County Ordinance No. 664 (said section establishes a prima facie speed limit of forty-five (45) miles per hour on certain highways in the County of Sonoma) to read:

Subsection 118 Madrone Road (#6605) from East of Sonoma Creek Bridge to State Highway 12. Postmile 10.40 to 10.91.

Subsection 119 Liberty Road (#58016) from South of Rainsville Road (#57032) to Center Road (#58019). Postmile 10.90 to 11.53.

Subsection 120 Petaluma Boulevard South (#4702) from Kastania Road (#47003) to Petaluma city limits. Postmile 29.93 to 30.61.

Subsection 121 Petaluma Boulevard North (#4712A) from Petaluma city limits to Petaluma city limits. Postmile 11.09 to 12.22.

Subsection 122 Mill Creek Road (#99010) from west of Mill Creek Lane (NONCO) to Westside Road (#8001). Postmile 18.60 to 19.80.

Subsection 123 Crocker Road (#1001A) from River Road (#1001B) to east of Russian River Bridge. Postmile 34.24 to Postmile 34.80.

Subsection 124 Saint Helena Road (#8701) from East of Calistoga Road (#7703) to Tarwater Road (NONCO). Postmile 12.20 to 13.00.

Subsection 125 South Ely Road (#56004) from Browns Lane (#46005) to Petaluma City Limits. Postmile 10.00 to 11.06.

Subsection 126 Rainsville Road (#6602) from East of Liberty Road (#58016) to West of Wiggins Creek Bridge. Postmile 10.26 to 10.56.

SECTION IX. FIFTY (50) MILES PER HOUR

The following Subsections to be added to Section IX of Sonoma County Ordinance No. 664 (said section establishes a prima facie speed limit of fifty (50) miles per hour on certain highways in the County of Sonoma) to read:

Subsection 37 Chileno Valley Road (#4801) from the Marin County line to Western Avenue (#5705A). Postmile 10.00 to 13.53.

Subsection 38 Llano Road (#6805) from State Highway 116 to North of Laguna Treatment Plant. Postmile 10.00 to Postmile 10.70.

Subsection 39 Canyon Road (#0003) from Dry Creek Road (#9901) to Geyserville Avenue (#0902B)/State Highway 128. Postmile 10.00 to Postmile 12.25.

Subsection 40 River Road (#8802B) from 0.13 miles west of McPeak Road/Korbel Shipping to 0.01 miles west of Hilton Road (NONCO). Postmile 12.41 to 14.20.

Subsection 41 Old Redwood Highway North (#5712B) from Hatchery Road (#57047) to North of Adobe Road (#5602). Postmile 13.72 to 14.63.

Subsection 42 Lytton Station Road (#99035) from West of Hassett Lane (#99038) to West of Alexander Valley Road (#9902). Postmile 11.01 to 11.71.

Section X.

This Ordinance shall be and the same is hereby declared to be in full force and effect from and after thirty (30) days after the date of its passage and shall be published once before the expiration of fifteen (15) days after said passage, with the names of the Supervisors voting for or against the same, in *The Press Democrat*, a newspaper of general circulation published in the County of Sonoma, State of California.

If any section, subsection, sentence, clause, or phrase of this Ordinance is for any reason held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portion of this Ordinance. The Board of Supervisors hereby declares that it would have passed this Ordinance and every section, subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional or invalid.

In regular session of the Board of Supervisors of the County of Sonoma, introduced on the 4th day of December, 2018, and finally passed and adopted this 11th day of December, 2018, on regular roll call of the members of said Board by the following vote:

SUPERVISORS:

Gorin: ___ Rabbitt: ____ Zane: ____ Hopkins: ____ Gore___

Ayes: _____ Noes: _____ Absent: _____ Abstain: ____

WHEREUPON, the Chair declared the above and foregoing Ordinance duly adopted and

SO ORDERED.

Title: Lower Russian River Municipal Advisory Council Appointments

Recommended Actions:

Appoint five Class A members and their alternates for two year terms and appoint four Class B members and their alternates for initial three year terms to the Lower Russian River Municipal Advisory Council.

Executive Summary:

On September 25th, 2018, the Sonoma County Board of Supervisors created the Lower Russian River Municipal Advisory Council (Council). Today's action will appoint the first members to the Council, using staggered terms.

Discussion:

The Lower Russian River Municipal Advisory Council will represent the best interests of the entire community while acting as a bridge for communication between the County and local residents and businesses on the following topics for the Lower Russian River Area, when they are referred to the Municipal Advisory Council as described in Resolution No. 18-0405 and the Council Bylaws:

1. Use Permit Applications;
2. Rezoning applications;
3. General Plan Amendment Applications;
4. Prioritization of Transportation and Transit Improvements;
5. Health and Human Safety-Net Services;
6. Additional Topics Requested by the District Supervisor.

The Board of Supervisors established the Council with a process that allowed community members to nominate their representatives on the Council. Over the past two months, the Fifth District staff has led the community in an exercise to nominate residents to serve on the Council.

The following five residents and their alternates are recommended for appointment for Class A membership, for a term of two years:

- Lucy Hardcastle as one of the representatives for Forestville, and Gary Harris as the Forestville alternate
- Claudia Sisomphou as the representative for Hacienda, and Chelene Lopez as the alternate
- Jordan Lebovich as one of the representatives for Guerneville, and Ron Redmon as the Guerneville alternate
- Cynthia Strecker as the representative for Monte Rio/Villa Grande, and Kyra Wink as the alternate
- Mike Nicholls as the representative for Cazadero and Duncans Mills, and Terry Gwiazdowski as the alternate;

The following four residents and their alternates are recommended for appointment for Class B membership, for an initial term of three years. After expiration of the initial three year terms, subsequent Class B appointments will also be for two year terms:

- Vesta Copestakes as one of the representatives for Forestville
- Pip Marquez de la Plata as the representative for Rio Nido, and John Uniack as the alternate
- Jeanette Dillman as the representative for Pocket Canyon, and Bruce MacDonell as the alternate
- Jennifer Wertz as one of the representatives for Guerneville

Prior Board Actions:

- Pre-incorporation, the Board established the now-dissolved Windsor Municipal Advisory Council in 1987 (Resolution No. 87-0139).
- The Sonoma County Board of Supervisors and the Sonoma City Council established the Sonoma Valley Citizens Advisory Commission in 1993 (Resolution 93-1552 on 10/12/93; Joint Powers Agreement 98-1281 on 10/6/98; 04-0026 on 1/6/04; 06-0776 on 9/12/06; 14-0086 on 3/11/14).
- The Board created the Dry Creek Valley Citizens Advisory Council in 2012 (Resolution No. 12-0410) and the Mark West Area Citizens Advisory Council in 2016 (Resolution No. 16-0231).
- The Board adopted the Sonoma County Municipal Advisory Council Policies & Procedures on July 18, 2017.
- The Board created the Lower Russian River Advisory Council (Resolution No. 18-0405) and the Sonoma County Coast Municipal Advisory Council on 9/25/2018 (Resolution No. 18-0406).
- The Board updated the Lower Russian River Municipal Advisory Councils on November 13th, 2018.

Strategic Plan Alignment Goal 4: Civic Services and Engagement

Goal 4: Civic Services and Engagement is aimed at engaging and encouraging citizen participation in local government, and aligning public services with community needs and desires.

Title: Sonoma County Library Commission Appointment

Recommended Actions:

Appoint Dr. Karen Schneider to the Sonoma County Library Commission as the joint City of Santa Rosa /Sonoma County Board of Supervisors representative for a four year term beginning December 11, 2018 and ending August 1, 2022.

Executive Summary:

The Sonoma County Library First Amended and Restated Joint Powers Agreement (Amended JPA) and the formation of the new Library Commission went in effect on August 1, 2014. The Amended JPA requires that each jurisdiction have one seat on the newly formed Library Commission, with an additional seat to be shared between the County of Sonoma and City of Santa Rosa. The initial terms of Commission appointments are staggered between two and four year terms so that there will never be full turnover of the Commission at one time. The joint appointment with the City of Santa Rosa is a four-year term.

The appointment process for the joint City/County seat consisted of making the Board's current five appointees to the Library Commission aware of the opportunity to apply. Following application intake and review, applications were forwarded to the Chair of the Sonoma County Board of Supervisors and the Mayor of the City of Santa Rosa for consideration.

Staff received a total of six applications from interested parties to be considered for the joint City/County seat from both recruitments. Through the months of August through October the Santa Rosa Mayor and the Chair of the Board discussed joint selection of the candidate to recommend to the Santa Rosa City Council and Board of Supervisors.

Dr. Schneider has over three decades of service to public, special, and academic libraries including serving in five senior executive positions. Her experience encompasses all sizes of libraries in all types of settings. She has managed every size of library budget. She serves as the Councilor at Large for the American Library Association and is currently the Dean of the Library at Sonoma State University.

The Santa Rosa City Council will consider appointment of Dr. Schneider as the joint City/County representative on November 27, 2018.

Discussion:

Prior Board Actions:

Appointment of Linda Garcia as joint City/County appointee August 19, 2014; Appointment of Deborah Doyle as the County appointee August 8, 2018

Strategic Plan Alignment Goal 4: Civic Services and Engagement

By making appointments to the Library Commission, community members are able to participate and provide governance for the Sonoma County Library; establish policies; establish and monitor the annual budget and foster the effective use and management of the library.

Santa Rosa, CA 95403

To: Board of Supervisors of Sonoma County

Board Agenda Date: December 11, 2018

Vote Requirement: Majority

Department or Agency Name(s): Department of Health Services

Staff Name and Phone Number:
Barbie Robinson, 565-7876

Supervisorial District(s):

Title: Maternal, Child and Adolescent Health Advisory Board Reappointments

Recommended Actions:

Reappoint Maria Avina, Karla Fittipaldi, Bonnie Hayne, Kate Luciani, Casey McChesney, Jeff Miller, Leah Murphy, Rachel Napoli, Annie Nicol, and Marta Tilling to the Sonoma County Maternal, Child and Adolescent Health Advisory Board for a new term beginning January 1, 2019 and ending December 31, 2020.

Executive Summary:

The Sonoma County Maternal Child and Adolescent Health Program promotes the physical, social, and emotional health of childbearing women, children, adolescents, and their families in Sonoma County. The Program's Advisory Board, created in 1982, as required by state legislation acts in an advisory capacity to the Board of Supervisors through the Department of Health Services. The Sonoma County Maternal, Child and Adolescent Health Advisory Board bylaws specify that members will be appointed by the Board of Supervisors.

Discussion:

The Maternal, Child and Adolescent Health Advisory Board program interacts with community systems as a partner in providing direct safety net services to high risk maternal, child and adolescent populations, as a coordinator of community-wide services and programs, and as a convener of the Maternal, Child and Adolescent Health Advisory Board and other collaborative groups to address emerging health needs in the community. The Maternal, Child and Adolescent Health Advisory Board has been an important vehicle for implementing prevention strategies and coordinating services that benefit the entire community. Partnering with local organizations and individuals is critical to reducing disparities and improving the overall health of women, children and adolescents in Sonoma County.

Reappointments to the Sonoma County Maternal, Child and Adolescent Health Advisory Board

The Sonoma County Maternal, Child and Adolescent Health Advisory Board bylaws specify that at the end of a member's term, members in good standing will be invited to remain on the Advisory Board and, upon their consent, reappointment will be recommended to the Board of Supervisors. The Department of Health Services requests that the Board reappoint the following members to the Sonoma County Maternal, Child and Adolescent Health Advisory Board for a term beginning January 1, 2019 and ending December 31, 2020.

Candidate	Representation
Maria Avina	Community Representative/Parenting
Karla Fittipaldi	Consumer/Parent/Advocate
Bonnie Hayne	Consumer/Parent/Advocate
Kate Luciani	Health Professional/Behavioral Health
Casey McChesney	School Health Professional/Youth Health Educator
Jeff Miller	Health Professional/Health Specialist
Leah Murphy	Health Professional/Nutrition
Rachel Napoli	School Health Professional/Nurse
Annie Nicol	Community Representative/Homeless/Hunger/Poverty
Marta Tilling	Community Representative/Child Health

New Appointments to the Sonoma County Maternal, Child and Adolescent Health Advisory Board (no new member appointments requested at this time)

The Sonoma County Maternal, Child and Adolescent Health Advisory Board bylaws specify that members will be appointed by the Board of Supervisors. When vacancies on the Sonoma County Maternal, Child and Adolescent Health Advisory Board occur, the openings are posted on the County website in accordance with the Maddy Act and replacements are recruited from the community. Following procedures outlined in the bylaws, all applications are reviewed by the Maternal, Child and Adolescent Health Advisory Board Chairperson and Vice-Chairperson, who then make recommendations to the Department of Health Services. Four members have recently resigned from the Advisory Board - Amanda Silva, Camille Rodriguez, Ed Sheffield, and Rebecca Timme. There are no replacement candidates at this time.

A table listing the full Maternal, Child and Adolescent Health Advisory Board membership is provided as Attachment 1.

Prior Board Actions:

On June 5, 2018 the Board of Supervisors appointed the following new member: Stephanie Montez to the Sonoma County Maternal, Child and Adolescent Health Advisory Board for a term beginning July 1, 2018 and ending June 30, 2020.

On December 12, 2017 the Board of Supervisors appointed the following members: Gina Cuclis, Melanie Dodson, Natalie Johnson Loeper, Camille Rodriguez (who has since resigned), Erika Rosebaugh, Jessica Vergara, and Guinevere Zabinsky to the Sonoma County Maternal, Child and Adolescent Health Advisory Board for a term beginning January 1, 2018 and ending December 31, 2019. Camille Rodriguez has since resigned, and all of the seven other members are continuing as board members.

Strategic Plan Alignment Goal 1: Safe, Healthy, and Caring Community

Supporting the Maternal, Child and Adolescent Health Advisory Program aids in promoting the physical, social, and environmental health of childbearing women, children, adolescents and their families in Sonoma County.

Title: Veterans' Remains Officer for Sonoma County

Recommended Actions:

Adopt a resolution to reappoint Ron Collier as the Veterans' Remains Officer of Sonoma County for a two year term ending December 31, 2020.

Executive Summary:

AB 1644 was signed into law on August 27, 2010. This law changed the California Military and Veterans Code, Sections 940-950 and formalized the requirement for a Veterans' Remains Organization (VRO) to be designated by each county board of supervisors.

Discussion:

Since 2012, through the voluntary effort of Mr. Collier and the agencies assisting him, Sonoma County's has implemented a recognized model program in complying with AB1644.

Ron Collier is the Board appointee serving as the Veterans' Remains Officer for Sonoma County. The volunteer position is required by AB 1644 and the Missing in America Project to ensure that that the remains of indigent/unclaimed Veterans are properly interred in a National/States Veteran Cemetery. Mr. Collier has spent over 783 hours in his volunteer position to review records of over 800 decedents retained at local cemeteries and funeral homes. With the assistance of the Sheriff/Coroner, County Recorder, Vital Statistics and the Public Administrator, 115 Veterans and 5 dependents now have a final resting place in a National Cemetery. Mr. Collier has also identified 17 veterans buried in a local Potter's Grave, provided VA gravestone markers and is in the process of planning a military honors ceremony for these 17 thus ensuring they are never forgotten. In the past, Mr. Collier and the County Veteran Service Officer have made presentations at both the California State Public Administrator/Public Guardian/Public Conservator and County Veteran Service Officer conferences.

Ron Collier was initially appointed by the Board on January 10, 2012 and was reappointed August 11, 2015 and September 12, 2017 as the Sonoma County Veterans' Remains Officer, and is currently serving in the position. There is no formal application process for the position. The original appointment was based on both Mr. Collier's status as the only volunteer for the position and his long standing record of public service as the retired Windsor Fire Department Chief. Mr. Collier single-handedly built the program and developed it as a model program for the entire state.

In the next term, Mr. Collier will continue to work in collaboration with the Sonoma County Veteran Services Officer, Sonoma County Public Administrator and the Sonoma County Sheriff-Coroner to ensure the unclaimed remains of deceased Sonoma County Veterans are properly interred with military honors in a National cemetery.

Mr. Collier has received training from the national director of the "Missing in America Project," a qualified Veterans' Remains Organization (VRO) and is a member of the organization. He is also a member of the American Legion's Military Escort Team. Due to his status from his father serving in World War II in the Army Air Corps, Mr. Collier qualifies to be a member of the Sons of the American Legion. He is a member of Post 111 in Healdsburg.

AB 1644 - Section 942 of the Military and Veterans Code is amended as follows:

> "The board of supervisors of each county shall designate a veteran of the United States military or a member of a Veterans' Remains Organization as defined in Section 951, and who shall cause to be decently interred the body of any veteran or spouse or the eligible dependent of a veteran as defined by the United States Department of Veterans Affairs for compensation purposes who dies in the county. This section shall apply to all indigent, abandoned, or unclaimed veterans and dependents of veterans, including those deceased veterans and dependents of veterans without having sufficient means to defray the expenses of burial, other than moneys paid or due and payable by the United States, pursuant to the World War adjusted compensation act."

The code establishes procedures whereby all (formerly only indigent veterans) unclaimed remains of veterans and veterans' dependents could be identified and designated to a veterans' remains organization (VRO) for proper burial. Under Section 950 of the Military and Veterans Code, the person appointed shall receive no compensation for any duties he may perform in compliance with this article.

Recommendation: Adopt a Resolution to reappoint Ron Collier as Veterans' Remains Officer of Sonoma County for a two-year term ending December 31, 2020. Mr. Collier has agreed to be considered for reappointment for one more term and is recommended for the position by Mark Orlando Sonoma County Veterans Services Officer.

Prior Board Actions:

9/12/2017: Board of Supervisors appointed Ron Collier for a two-year term ending 12/31/2018
8/11/2015: Board of Supervisors appointed Ron Collier for a two-year term ending 12/31/2016
1/20/2012: Board of Supervisors appointed Ron Collier for a two-year term ending 1/31/2014

Strategic Plan Alignment	Goal 4: Civic Services and Engagement

This position ensures that indigent Veterans are properly honored and interred in a National Cemetery.

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, Authorizing Designating Ron Collier as Veterans' Remains Officer for Sonoma County

Whereas, AB 1644 stipulates that each county's board of supervisors formalize the requirement for a Veterans' Remains Organization to establish procedures for the interment of indigent veterans and their dependents; and

Whereas, Ron Collier was appointed as the County of Sonoma Veterans' Remains Officer in January, 2012 and reappointed in August of 2015 and September 2017; and

Whereas, Ron Collier is a member of the Sons of American Legion, Post 111, in Healdsburg; and

Whereas, Ron Collier is a member of the Legion's Military Escort Team that escorts Sonoma County members of the military who were killed in action and have returned to Sonoma County for burial; and

Whereas, Ron Collier has received training from the national director of the Missing in America Project, a qualified Veterans' Remains Organization; and

Whereas, Ron Collier has established a model program as the Sonoma County Veterans' Remains Officer, and has agreed to continue his service;

Now, Therefore, Be It Resolved that Ron Collier is designated Veterans' Remains Officer of Sonoma County for a two-year term ending December 31, 2020.

☐ 4/5 Vote Required

Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California, to Honor Zanzara Dancer and Seann Zales and Their Commitment to the Community

Whereas, For 35 years, residents in Guerneville and the Lower Russian River have had access to a free, vegetarian, hot meal cooked and served entirely by husband and wife duo Zanzara Dancer and Seann Zales, two Haight-Ashbury transplants who found their way to Sonoma County; and

Whereas, After receiving a portion of a $250,000 raffle prize in 1983, Zanzara and Seann began a weekly sit-down meal every Wednesday at Monte Rio's old Country Kitchen restaurant, kicking off nearly four decades of providing free meals; and

Whereas, In the early days of the weekly dinners, Zanzara and Seann served nearly 300 people on busy weeks, bringing their children into the kitchen to help cook, clean and learn; and

Whereas, After 16 years, the couple cut back operations to every other Wednesday and moved to the Veterans Memorial Building in Guerneville, where they also offer used clothing, blankets, coasts, sleeping bags, toiletries and more to the 50 to 100 people who would show up; and

Whereas, Zanzara and Seann created more than just an opportunity to receive a hot, nutritious meal for free; they created a weekly, bi-weekly and eventually monthly venue for community, camaraderie, hope and love; and

Whereas, For 35 years, Zanzara and Seann worked tirelessly to get support from the community, garnering help from the Redwood Empire Food Bank, Alvarado Street Bakery, the County of Sonoma, countless volunteers and more;

Now, Therefore, Be It Resolved that the Board of Supervisors of the County of Sonoma honors and celebrates Zanzara Dancer and Seann Zales for their 35 years of altruistic work supporting and helping our county's most vulnerable.

Sheryl Bratton, 565-3578

Supervisorial District(s):

Title: Department Head Re-appointment/Personal/Professional Services Agreements

Recommended Actions:

A. Adopt a Resolution reappointing Bruce Goldstein as County Counsel for a four year term commencing January 3, 2019 through January 2, 2023; and
B. Authorize the County Administrator to execute the first amendment to the Personal Services Agreement of the General Services Director with an extended term of February 8, 2019 through February 7, 2022;
C. Authorize the County Administrator to execute the Personal Services Agreement appointing the County's new Director of Emergency Management at the "I" step of the position's salary range including eligibility for other County benefits in accordance with Salary Resolution 95-0926 as amended, with the term of December 24, 2018 through December 23, 2021; and,
D. Authorize the County Administrator to execute a Fifth Amendment to the Professional Services Agreement with Jim Colangelo to provide project management, advisory, and administrative services to the Department of Fire and Emergency Services and County Administrator's Office, effective January 1, 2019 through March 31, 2019 for an additional $85,000.

Executive Summary:

Action A re-appoints the incumbent County Counsel, Bruce Goldstein, for a new four-year term, and maintains the current salary and benefits with the exception of adding additional, one-time, non-recurring vacation accrual hours. Action B authorizes the Chair of the Board of Supervisors to extend the Personal Services Agreement for Caroline Judy, General Services Director, for a second, three-year term and maintains the current salary step and benefits.

After a successful nationwide recruitment and extensive selection process, Action C appoints Chris Godley as the new Director of Emergency Management. The position will report to the County Administrator and the Chair of the Board of Supervisors will execute a three-year Personal Services Agreement. The agreement places Mr. Godley at the "I" step of the salary range for the position including eligible benefits and advanced vacation accrual and an initial one-time, non-recurring deposit of vacation accrual hours.

In July 2016, the County entered into a Personal Service Agreement with Jim Colangelo to perform advisory services on countywide fire and emergency response services. In late 2017, Mr. Colangelo's scope of services were increased to act as the Interim Director of the Fire and Emergency Services Department, responsible for reorganizing the Department. As Interim Director, Mr. Colangelo continues to plan the first phase of the Department reorganization – the transition of the Fire Prevention and Hazardous Materials program to Permit Sonoma. Work related to the new Emergency Management Services Department and the countywide Fire Services Deployment Plan is still needed. In Action D, the County Administrator proposes retaining Mr. Colangelo as Interim Director for another three-month period and amending the Personal Services Agreement.

Discussion:

County Counsel:
The position of County Counsel serves as the chief legal advisor to the Board of Supervisors. County Counsel incumbent, Bruce Goldstein, was appointed on January 4, 2011. The position is appointed to four-year terms by a resolution of the Sonoma County Board of Supervisors pursuant to Government Code Section 27640 and Section 2-12 of the Sonoma County Code. The Board wishes to re-appoint Mr. Goldstein. Mr. Goldstein is currently paid $236,116 annually. The re-appointment does not change current and existing salary and benefits with the exception of extending Mr. Goldstein a one-time, non-recurring 40 hours of vacation accrual.

General Services Director:
The General Services Director plans, directs and coordinates all activities of the department. In February 2016, Caroline Judy was appointed as the Director. The position reports to and is appointed by the County Administrator. The County Administrator desires to continue the services of Ms. Judy for another three-year term. The amended Personal Services Agreement maintains Ms. Judy's current salary and benefits; current salary is the "I" step of the salary range, which equates to $188,550 per year.

Director of Emergency Management:
The Sonoma Complex Fires of 2017 initiated an evaluation of the County's emergency management department, processes, and systems. One recommended outcome of the evaluation/after actions reports was to establish a new, enhanced Emergency Management Department that is led and managed by a department head position.

In August 2018, the Board of Supervisors established a new position of Director of Emergency Manager and a nationwide recruitment was conducted. The recruitment resulted in 38 applicants. Nine of the most qualified were invited to interview with local community members, emergency management subject matter experts, County department heads, and members of the Sonoma County Board of Supervisors. The County Administrator considered the interview feedback and qualifications of the finalist candidates and has selected Chris Godley to be the Director.

Mr. Godley has over 20 years of emergency management experience and has held management and director level positions in Marin County, the City of San Jose, and a private emergency management consulting firm Tetra Tech (formerly Leidos). Mr. Godley was also uniquely qualified. Shortly after the 2017 Sonoma Complex Fires Mr. Godley was hired to act as the Interim Emergency Management Director. He has led the after action evaluation process and been instrumental in making recommendations to the County on how to improve the emergency management program and disaster readiness efforts.

The Director of Emergency Management will report to the County Administrator. The Personal Services Agreement is for a three-year term and places Mr. Godley at the “I” step of the salary range, which is $167,658. Mr. Godley will receive benefits pursuant to the County’s Salary Resolution 95-0926. In addition, Mr. Godley is recommended to be placed at the 10-years of service accrual rate for Vacation Accrual per Section 22.3 of the Salary Resolution, and upon commencement of the term of employment, receive a one-time deposit of 40 vacation hours as soon as administratively feasible.

Fire and Emergency Services Administrator

The Fire and Emergency Services Department is dedicated to protecting the life and property of Sonoma County residents and visitors, and the environment of the County. The Department has 25.25 FTE and a FY 18-19 budgeted expenditures totaling $10.5 million. The Department delivers Hazardous Materials Services for approximately 1,400 businesses; manages and supports fire and emergency response services in County Service Area #40; provides fire prevention services through code enforcement inspections and plan review; and coordinates emergency management services in the County’s operational area. The Department reports directly to the County Administrator.

A major component of the Department’s responsibility is the assessment of fire services and the County’s role with the many fire districts and agencies that provide fire services throughout the County. To assist the County Administrator and the Board of Supervisors on an assessment of countywide fire services, the County established the initial consulting agreement with Jim Colangelo, who has extensive experience in city, county, and state government executive work including public safety and Local Agency Formation Commissions.

The initial Agreement for Professional Services was for a term July 1, 2016 through June 30, 2017 for a total cost not to exceed $49,995. Since that time, the County has authorized four additional amendments to Mr. Colangelo’s contract that have extended both the term and cost of the contract, as well as changes in services to meet the needs of the County following the 2017 Wildfires. A summary of the approved amendments are as follows: Amendment #1 extended the term to October 31, 2017, and increased the cost to $99,000 and the primary duties were in relation to planning and negotiations with the Fire Advisory Council; Amendment #2 increased the scope of work to include Interim Director, extended the term to January 31, 2018, and increased the cost by an additional $100,000, for a total not-exceed of $199,000; Amendment #3 continued services as the Interim Director, extended the term to June 30, 2018, and increased the cost by an additional $150,000, for a total not-to-exceed of $349,000; Amendment #4 continued services at the Interim Director, extended the term to December 31, 2018, and increased the cost by an additional $170,000.

The proposed Amendment #5 would authorize Mr. Colangelo to continue acting as Interim Director through March 31, 2019 for an additional $85,000. During this time, Mr. Colangelo will oversee the transition of the Fire Inspection services to Permit Sonoma (separate item on December 11 agenda); transition the Emergency Management functions to a newly created Emergency Management Department; dissolve the remaining fire operations activities currently managed by the Department; and continue to facilitate the countywide Fire Services Project and Deployment Plan. Once the activities of the Department have been fully transitioned and/or dissolved, a sixth amendment reducing Mr. Colangelo's activities to those related to the Fire Services Project is expected.

Prior Board Actions:

- September 14, 2010 Resolution to appoint B. Goldstein as County Counsel; September 16, 2014 Resolution to re-appoint B. Goldstein
- February 9, 2016 Authority to County Administrator to execute Personal Services Agreement with C. Judy
- June 11, 2018, Authority to County Administrator to execute a Fourth Amendment to Professional Services Agreement with Jim Colangelo

Strategic Plan Alignment Goal 3: Invest in the Future

Appointing qualified and competent Directors that oversee County departments and services results in effective administration and management of the organization and enables the County to meet its strategic priorities and needs of the community.

FIRST AMENDMENT TO AGREEMENT FOR PERSONAL SERVICES

DIRECTOR OF GENERAL SERVICES

This First Amendment to the Agreement for Personal Services by and between, the County of Sonoma, a political subdivision of the State of California (hereinafter "COUNTY") and Caroline Judy (hereinafter called "EMPLOYEE") is entered into this ___ day of December 2018. COUNTY and EMPLOYEE shall collectively be referred to as the "Parties."

RECITALS

WHEREAS, COUNTY and EMPLOYEE entered into a personal services agreement (the "Agreement") for the position of Director of General Services of the County of Sonoma dated February 8, 2016; and

WHEREAS, the Parties desire to enter into a First Amendment to the Agreement to extend EMPLOYEE's term for a period of three (3) years ending on February 8, 2021.

NOW, THEREFORE, for good and valuable consideration, the Parties hereby agree as follows:

AGREEMENT

1. NOW, THEREFORE, BE IT AGREED by and between the Parties that the term of employment provided for in the Agreement shall be extended for a period of three years ending on February 8, 2021.

2. Except as set forth in Paragraph 1 above, all other provisions in the Agreement as modified by the First and Second Amendments to Agreement shall remain in full force and effect.

AGREEMENT FOR PERSONAL SERVICES

DIRECTOR OF EMERGENCY MANAGEMENT

This Agreement is made this ___ day of ___________ by and between the County of Sonoma, a political subdivision of the State of California (hereinafter "COUNTY") and Chris Godley (hereinafter called "EMPLOYEE").

WITNESSETH:

WHEREAS, COUNTY and EMPLOYEE are desirous of entering into a personal services agreement for the position of Director of Emergency Management;

WHEREAS, EMPLOYEE acknowledges that by accepting the position of Director of Emergency Management, he will be an at-will employee, and that, as such, his position will be in the unclassified service under the Sonoma County Civil Service System.

NOW, THEREFORE, BE IT AGREED by and between the parties as follows:

1. Term of Employment. COUNTY hereby employs EMPLOYEE in the position of Director of Emergency Management for a period of three (3) years, commencing on December 24, 2018, and ending on December 23, 2021, subject, however, to termination as herein provided.

2. Duties. EMPLOYEE shall perform the duties of Director of Emergency Management as set forth in the County job specification, attached hereto as Exhibit A, as it now provides or may hereafter be amended, and such other duties as may be prescribed by the COUNTY.

3. Compensation.

(a) EMPLOYEE's salary shall be set at the "I" step of the salary range for the position of Director of Emergency Management as set forth in the Sonoma County Salary Resolution 95-0926 ("Salary Resolution"). Any provisions of the Salary Resolution regarding merit increases or step advancements, including Sections 7.18 and 7.19, are not applicable or made part of this Agreement. EMPLOYEE may advance in the salary range at the Board's discretion, and if the Board determines that EMPLOYEE is eligible for advancement based upon annual performance evaluations. In addition, EMPLOYEE shall be placed at the 10-years of service accrual rate for Vacation Accrual per Section 22.3 of the Salary Resolution, and upon commencement of the term of employment, EMPLOYEE will receive a one-time deposit of 40 vacation hours as soon as administratively feasible.

(b) Except as herein provided, EMPLOYEE shall be entitled to the same fringe benefits generally available to COUNTY department heads, as specified in the Salary Resolution.

4. Performance review.

The County Administrator shall review EMPLOYEE's performance on an annual basis. If the County Administrator provides EMPLOYEE with a satisfactory or better performance evaluation, EMPLOYEE may be eligible to advance in the salary range pursuant to Section 3. (a) of this agreement.

5. Expiration and Non-renewal. At the expiration of the term of this Agreement, EMPLOYEE's employment shall automatically terminate, unless otherwise mutually extended by the parties.

6. Termination. EMPLOYEE shall serve at the will and pleasure of the County Administrator and may be terminated at the will of the County Administrator with or without cause as set forth herein. EMPLOYEE expressly waives and disclaims any right to any pre-termination or post termination notice and hearing.

(a) Termination without cause:

Severance. Termination of EMPLOYEE's employment without cause may be effected by the COUNTY giving sixty (60) days' prior written notice to EMPLOYEE. Upon such termination, EMPLOYEE shall be entitled to additional salary, and any other compensation allowed under the County of Sonoma Salary Resolution, equal to that which would accrue during ninety (90) calendar days following termination and to be computed by the COUNTY Auditor-Controller at the rate applicable on the day of termination plus the cash equivalent of all accumulated vacation as of the day of termination. In addition to the foregoing, EMPLOYEE shall also be entitled to be compensated for any floating holiday balance or any other compensation or benefits as allowed by the Sonoma County Salary Resolution, as it may be amended from time to time. EMPLOYEE's health benefits and the COUNTY's portion of the premium contribution shall continue to remain in effect for a period of ninety (90) calendar days from date of termination. EMPLOYEE's acceptance of said severance pay shall constitute a final settlement and satisfaction of all claims of EMPLOYEE against the COUNTY arising out of his employment.

(b) Termination with cause:

County Administrator may terminate EMPLOYEE's employment for just cause at any time by giving notice of employment discrepancies and an opportunity to respond to such discrepancies prior to termination. Notice is accomplished by County Administrator depositing a written notice in the United States mail that is addressed to EMPLOYEE at EMPLOYEE's last known address. After termination for just cause has been affected, EMPLOYEE shall have no further rights under this Agreement or to continued employment with the COUNTY. Just cause includes those grounds set forth in the Sonoma County Civil Service Rules, Rule 10.3 and may include, but is not limited to, unauthorized absence, conviction of a felony or of any criminal act involving moral turpitude; hostile and discourteous treatment of employees; mismanagement of County funds; conduct which brings discredit to the County; disorderly conduct; incapacity due to mental or physical disability to the extent permitted by law; willful concealment or misrepresentation of material facts in applying for or securing employment; willful disregard of a lawful order from a duly constituted authority; willful disregard of a County or departmental policy and/or laws regarding the confidentiality of records; using, being in possession of, or being under the influence of alcohol, narcotics, intoxicants, drugs, or hallucinatory agents while on County property or in vehicles during working hours or reporting to work under such conditions, or abuse of alcohol or drugs while in County uniform (possession and proper use of drugs prescribed by a licensed physician and appropriate possession of unopened alcoholic beverages are not prohibited by this section); negligence or willful damage to public property or waste or theft of public supplies or equipment; refusal to comply with a proper directive to undergo a medical examination as issued by an appointing authority; falsification of any records, such as medical forms, time cards or employment applications, or making material dishonest work-related statement to other employees at work or committing perjury; unauthorized use of County vehicles and equipment; conviction of driving under the influence, reckless driving, or hit-and-run driving whether on or off the job, in a County vehicle; unauthorized possession of weapons or explosives on County premises; willful carelessness or violation of safety rules and regulations which jeopardize the safety of others and/or which could result in bodily injury to others or damage to County property; and sexual harassment of or unlawful discrimination against another employee or applicant for employment. Any other just cause not set forth above, must be of similar egregious conduct.

(c) Statement of Reasons for Termination.

The COUNTY ADMINISTRATOR and EMPLOYEE will, within a reasonable period of time, not to exceed 10 working days, attempt to agree on a mutually acceptable statement as to the reasons for termination. If the parties cannot mutually agree to an acceptable statement of the reasons for termination within the time period set forth above, the County Administrator, in her sole discretion, publish its reasons for termination. In such event, publication shall consist of filing the reasons with the Clerk of the Board. A copy of the statement shall be made for EMPLOYEE and kept for him in the office of the Board's Clerk. Within ninety (90) days following the announcement of termination, EMPLOYEE may present a written response to the County Administrator which will be maintained as a public record. The parties agree that other than as provided above, they will not make any other public statement concerning EMPLOYEE's termination.

(d) Administrative Leave.

Upon receiving a specific complaint or charge brought against EMPLOYEE by another person or employee, the County Administrator may place EMPLOYEE on administrative leave when, in the sole opinion of the County Administrator, EMPLOYEE's temporary removal from office would be in the best interests of COUNTY. The administrative leave will commence on the County Administrator's delivery to EMPLOYEE's office of a written notice to that effect. Upon the delivery of the notice to EMPLOYEE's office, performance of EMPLOYEE's job duties under this Agreement are suspended but all other provisions of this Agreement shall remain in full force and effect. COUNTY and EMPLOYEE agree that COUNTY will incur damages, if, during the period of administrative leave, EMPLOYEE performs or attempts to perform any of the duties provided in paragraph 2, or in any other way interferes with the administration or operation of the Emergency Management Department. COUNTY and EMPLOYEE agree that the measurement of these damages would be difficult and speculative and accordingly further agree that if EMPLOYEE performs or attempts to perform any of the duties provided in job specification for the position of Director of Emergency Management, or in any other way interferes with the administration or operation of the Department that COUNTY's duties to compensate EMPLOYEE under the Agreement are discharged for each day during which EMPLOYEE engages in such non-cooperation and/or interference. The administrative leave and the suspension of job duties shall terminate on the County Administrator's delivery to EMPLOYEE's office of a written notice to that effect.

7. Resignation by Employee.

(a) EMPLOYEE may terminate his employment at any time by delivering to the County Administrator his written resignation. Such resignation shall be irrevocable and shall be effective not earlier than sixty (60) calendar days following delivery, unless waived by the County Administrator. With the approval of the County Administrator, a resignation may be rescinded at any time prior to the effective date of the resignation. At the request of the County Administrator or with its approval, the originally scheduled date of retirement may be extended for any agreed upon period of time.

(b) From the date upon which EMPLOYEE either resigns or is notified of the COUNTY's intention to terminate the Agreement until the actual date upon which the resignation, termination or expiration becomes effective, EMPLOYEE shall continue to devote his full time attention and effort to the duties anticipated hereunder and shall perform the same in a professional and competent manner. If requested, EMPLOYEE shall assist COUNTY in orienting EMPLOYEE's replacement and shall perform such tasks as are necessary to effect a smooth transition in the leadership of the COUNTY. These tasks may also include providing information or testimony regarding matters which arose during EMPLOYEE's term as Director of Emergency Management.

(c) EMPLOYEE acknowledges, understands and warrants that EMPLOYEE shall have no further right or claim to employment after the expiration of the term of this Agreement. Except as provided herein, no other document, handbook, policy, resolution or oral or written representation shall be effective or construed to be effective to extend the term hereof or otherwise grant EMPLOYEE any right or claim to continued employment with COUNTY.

8. No assignability. EMPLOYEE shall not, during the term of this Agreement, make any assignment or delegation of any of its provisions without the prior written consent of COUNTY.

9. Compliance with Law. EMPLOYEE shall, during his employment hereunder, comply with all laws and regulations applicable to such employment. Any act or omission of

EMPLOYEE constituting a public offense involving moral turpitude or a withholding of labor is a material breach of this Agreement relieving COUNTY of any and all obligations hereunder. Such act or omission shall constitute sufficient grounds for EMPLOYEE's termination with cause pursuant to this Agreement.

10. Merger. This writing is intended both as the final expression of the Agreement between the parties hereto with respect to the included terms and as a complete and exclusive statement of the terms of the Agreement, pursuant to Section 1856 of the Code of Civil Procedure. No modification of this Agreement shall be effective unless and until such modification is evidenced by a writing signed by both parties.

11. No Representations or Warranties on Tax or Retirement Issues. EMPLOYEE acknowledges and agrees that the COUNTY has not made any representations or warranties regarding tax consequences or retirement compensation pertaining to his salary and benefits. EMPLOYEE further acknowledges and agrees that the Sonoma County Employees' Retirement Association ("SCERA") makes the final determination on what is deemed "final compensation" for purposes of calculating retirement benefits.

12. Conflict of Interest. EMPLOYEE covenants that he presently has no interest and will not acquire any interest, direct or indirect, that represents a financial conflict of interest under state law or that would otherwise conflict in any manner or degree with the performance of his duties required under this Agreement. EMPLOYEE shall comply with all state and local conflict of interest laws or policies, including, but not limited to, Government Code section 1090, the Political Reform Act and requirements promulgated by the Fair Political Practices Committee, the County's policies on incompatible offices and conflicts of interest, and any Departmental policies on conflicts of interest. EMPLOYEE shall also complete and file a "Statement of Economic Interest" with the County, disclosing EMPLOYEE's financial interests, as required by the County's Conflict of Interest Code.

EXHIBIT A to Personal Services Agreement with Chris Godley

DIRECTOR OF EMERGENCY MANAGEMENT

Director of Emergency Management

Definition

Under administrative direction, plans, coordinates, and manages the activities of the County's emergency management program; ensures appropriate systems, processes, protocols, and training are in place for the full scope of possible emergencies and disasters; coordinates continuity of operations programs; promotes and coordinates emergency management activities with local agencies and districts and the State and Federal organizations in keeping with the overall Sonoma County Emergency Management Program; promotes public awareness and preparedness for emergencies and disasters; manages the staff directly assigned to the program; and performs related duties as required.

Distinguishing Characteristics

This position serves as the department head and is responsible for the accomplishment of the County's Emergency Management Department's mission and objectives, and is responsible for the accomplishment of the County's Emergency Management Program's mission and objectives. During times of declared emergency or disaster, pursuant to the Sonoma County Code on Civil Defense and Disaster, Chapter 10, the position will work under and closely with the Director of Emergency Services.

Considerable independent judgment is exercised in the administration of the Department's programs and services. Work is performed with a maximum amount of independence and trust within established policies and procedures set forth by the County Administrator, the Board of Supervisors, and Sonoma County Code, Chapter 10 – Civil Defense and Disaster. The Position will work collaboratively with local agencies and state and federal organizations to carry out the mission and responsibilities of the department.

This job class is not within the Classified Civil Service under the provisions of the County of Sonoma Civil Service Ordinance No. 305A, as amended. The incumbent is appointed by the County Administrator and considered an "at will" employee.

Typical Duties

Duties include, but are not limited to, the following:

Plans, organizes, and directs the overall activities and programs associated with the Department, including the implementation of a comprehensive, county-wide emergency management program, a master County Continuity of Operations Plan, and a disaster recovery plan; works with the Sonoma County Operational Area Emergency Council regarding the

Operational Area Emergency Plan.

Oversees the establishment and maintenance of a communication process and appropriate systems and equipment for alerting the public, governmental entities, officials, disaster partners, etc.

Establishes and maintains an effective emergency operations center including staff training, staffing and internal procedures; plans mobilization of materials and human resources to meet emergencies; responds to emergency situations and/or activates the County Emergency Operation Center and serves as Incident Commander, as needed.

Ensures the development and execution of training, tests and exercises to determine adequacy of emergency and disaster preparations.

Works collaboratively with representatives of various state, county, city and other agencies; coordinates services with other organizations and agencies and develops mutual assistance programs were appropriate; develops and administers grants and contracts with various agencies dealing with emergency services.

Evaluates current programs and methods; considers proposed alternative programs and methods to provide maximum utilization of allocated funds; secures matching funds and other available assistance.

Participates in advisory committees or other related groups; represents the County and speaks before public bodies, groups, organizations and the public on matters pertaining to the department’s activities and services.

Oversees a public information program to encourage emergency preparedness; may give presentations before various groups; attends emergency preparedness meetings of local, county, state and federal officials; meets with and advises citizen groups regarding the County’s emergency management programs.

Directs and reviews the work of staff; establishing sound hiring practices; manages staff training and performance; ensures that in-service training programs are developed and implemented; oversees the program’s human resources functions; reviews staff recommendations and determines departmental needs for staff and other resources.

Determines departmental budget priorities and makes recommendations to the County Administrator and Board of Supervisors; directs the preparation of the annual budget; establishes controls and measurement tools for the delivery of services and cost controls; ensures that budget expenditures are properly controlled in order to conform with approved funding; seeks additional funding sources.

Provides advice and guidance to departments on special conditions and operating requirements for departments with specialized emergency and disaster response and recovery roles.

May participate in response to related program activities throughout the County.

Performs related duties as assigned.

Knowledge and Abilities

Thorough knowledge of: the principles and practices of emergency management; the laws, rules and regulations governing the establishment and maintenance of emergency services systems; the modern equipment and systems utilized in emergency management including the California Incident Command System (ICS), State emergency Management System (SEMS), State Response Information Management System (RIMS), and Geographic Information Systems (GIS), or equivalent systems; conditions leading to major emergencies, their effects, mitigation, response lines, resource requirements, damage assessment, recovery methods, and safety and survival procedures; operation of an emergency operations center.

Considerable knowledge of: Federal and state policies and guidelines for emergency services and assistance; federal and state emergency services programs and funding procedures; principles and practices of public administration, financial and budget management and personnel management; the principles and practices of supervision and training; the principles and practices related to program management; research methodology, basic statistics and report writing; training methods; group dynamics, communications methods, and public relations techniques; modern office methods and procedures; written and oral communication, including language mechanics, syntax and English composition.

Ability to: effectively plan, organize, direct, coordinate, administer, and supervise the activities of an emergency management program; supervise, train, and evaluate the work of subordinates; formulate and implement county-wide emergency plans; identify training needs and ensure comprehensive emergency preparedness and training program to diverse agencies and organizations, and the public; establish and maintain effective working relationships; analyze emergency situations and implement effective courses of action; analyze administrative problems, reach practical conclusions and institute effective changes; prepare and direct the preparation of comprehensive written reports and oral presentations; ensure proper compliance with all facets of emergency management; understand, interpret and apply rules, regulations, legislation, and ordinances; work under significant pressure, be subject to extended work hours, and be on-call in case of emergencies.

Minimum Qualifications

Education and Experience: Any combination of education and experience which would provide the opportunity to acquire the knowledge and abilities listed herein. Normally, a Bachelor's Degree in emergency management, public safety, business or public administration, or a closely related field, and five years of experience managing and coordinating a governmental civil defense, disaster, and/or emergency management program.

License: Possession of a valid driver’s license at the appropriate level including special endorsements, as required by the State of California, may be required depending upon assignment to perform the essential job functions of the position.

Exhibit A

FOURTH AMENDMENT TO AGREEMENT FOR PROFESSIONAL SERVICES

This serves as a Fourth Amendment to Agreement ("Fourth Amendment") between the County of Sonoma, a political subdivision of the State of California (hereinafter "County"), and Jim Colangelo, an individual (hereinafter Consultant").

Recitals

Whereas, County and Consultant entered into an Agreement for Professional Services to perform designated management consulting services for County from July 1, 2016 to June 30, 2017;

Whereas, a First Amendment to Agreement was entered into between the parties to extend the term to October 31, 2017, for additional compensation; and

Whereas, a Second Amendment to Agreement was entered into between the parties to extend the term to January 31, 2018, for additional compensation, and modified Scope of Work; and

Whereas, a Third Amendment to Agreement was entered into between the parties to extend the term to June 30, 2018, for additional compensation; and

Whereas, a Fourth Amendment to Agreement was entered into between parties to extend the term to December 31, 2018, for additional compensation; and

Whereas, in the judgment of the County Administrator it is necessary and desirable to further amend the Agreement to extend the term to March 31, 2018, for additional compensation and to continue projects related to the Scope of Work.

Now, therefore, in consideration of the foregoing recitals and the mutual covenants contained herein, the parties hereto agree as follows:

1. Section 2., <u>Payment,</u> of the Agreement, is further amended to read:

   "For all services and incidental costs required hereunder, Consultant shall be paid on a per hour basis in accordance with the budget set forth in Exhibit A, provided, however, that toal payments to Consultant for work through June 30, 2017, shall not exceed Ninety Nine Thousand Dollars ($99,000). For all work performed by Consultant on or after August 1, 2017 through January 31, 2018 total payments to consultant shall not exceed an additional sum of One Hundred Thousand Dollars ($100,000). For all work performed by Consultant on or after February 1, 2018, through June 30, 2018, total payments to consultant shall not exceed an additional One Hundred Fifty Thousand Dollars ($150,000). For all work performed by Consultant on or after July 1, 2018 through December 31, 2018, total payments to consultant shall not exceed an additional $170,000. Additionally, for all work performed by Consultant on or after January 1, 2019 through March 31, 2019, total payments to consultant shall not exceed an additional $85,000."

2. Section 3., Term of Agreement, of the Agreement as revised in the Amendment to Agreement is revised as follows:

   "The term of this Agreement shall be from July 1, 2016 to March 31, 2019, unless terminated earlier in accordance with the provisions of Article 4 of the Agreement."

3. Exhibit A, "Scope of Work," shall be amended commencing on the effective date of the Fourth Amendment, as attached hereto and incorporated herein as though set forth in full.

4. In all other respects, the terms and conditions of the Agreement shall remain in full force and effect.

Name:
County Counsel

"Exhibit A"
Scope of Work

Jim Colangelo for scope of work for the Fire Services Project

Consultant will provide:

- Facilitate meetings of the Fire Services Strategic Leadership Group.

- Provide support for the Fire Services Strategic Leadership Group including but not limited to preparation of Requests For Proposals, reports to the Board of Supervisors, and other documents.

- Advise the County on issues involving district formations, annexations, and consolidations;

- Conduct negotiations on behalf of the County with relevant entities regarding tax transfers and other necessary agreements related to district formations, annexations, and consolidations.

- Draft Memorandums of Understanding or other necessary documents associated with district formations, annexations, and consolidations.

- Assist in researching and writing final report to the Board of Supervisors, as determined necessary by the Board.

- Provide other advice and research related to Fire Services, LAFCO processes, or related areas as requested.

Additionally, commencing August 1, 2017, the following additional terms shall apply:

- Consultant shall prepare a management review of the Fire and Emergency Services ("FES") Department. The management review report shall include the following details:

    - Analysis of compliance with County policies and procedures;
    - Determination of appropriate staffing levels in regards to current and future workloads;
    - Analysis of organization structure to enhance efficiencies and effectiveness;
    - Analysis of financial structures to ensure accurate reporting of data and chain of custody;
    - Analysis of Operations Division to determine appropriate level of service to the Volunteer Fire Companies.

Exhibit A

  - The final management review report shall be due two weeks following written comments from the County Administrator on the draft management review report.

- Consultant's work shall include overseeing the department during the interim period while the County prepares and completes a formal recruitment process for a permanent director.

- Consultant shall retain the independent discretion to control how the work required under the Scope of Work is done.

- Contractor shall set his own hours but shall not bill more than 32 hours in any week.

- Consultant is not prohibited from taking other jobs from other businesses during the term of the contract so long as the other work does not give rise to a conflict of interest. However, this Agreement shall be the only source of payments for consulting work for County by Consultant during the term of the Agreement.

- Draft agenda's for Fire Services Strategic Leadership Group meetings shall be provided at least seven (7) days in advance of the meeting. All other work shall be provided on a timely basis as determined at the time of assignment.

- Cost: Effective July 1, 2018, Consultant shall be paid on a per hour basis at a rate of $200 per hour to perform all services under this agreement. For the period through July 31, 2017, travel will be reimbursed at $125 per hour, not to exceed 3 hours for any one-way trip. Commencing August 1, 2017, Consultant shall not charge for travel time. Total payments under this contract shall be made pursuant to Section 2 of the Agreement, as amended, for all services rendered. Consultant shall not be entitled to any additional payment for any expenses incurred in completion of the services."

Title: Biological Opinion Phase 3 Letter of Credit Second Amendment and Notice of Extension

Recommended Actions:

Authorize the Sonoma County Water Agency's General Manager to undertake actions necessary for a Second Amendment and Notice of Extension of a standby Letter of Credit in the amount of $12,765,840 as described in the Memorandum of Agreement with California Department of Fish and Wildlife, including execution of an agreement with U.S. Bank for such a Letter of Credit in substantially the form presented to this Board of Directors, following review and approval by County Counsel as to form.

Executive Summary:

The National Marine Fisheries Service and California Department of Fish and Wildlife are requiring the Sonoma County Water Agency (Sonoma Water) to undertake projects in the Russian River and its tributaries in order to protect endangered salmon and steelhead in the river system. As part of implementation, Sonoma Water is required to provide assurance that it has adequate funding to complete these projects. This agenda item requests authorization for Sonoma Water's General Manager to undertake actions necessary for a Second Amendment and Notice of Extension of a standby Letter of Credit from U.S. Bank in the amount of $12,765,840 for Phase 3 Biological Opinion activities related to coho salmon, as proof of available funding. It also requests authorization for the General Manager to execute an agreement with U.S. Bank for such a Letter of Credit in substantially the form presented to this Board of Directors, following review and approval by County Counsel as to form.

Discussion:

On September 24, 2008, the National Marine Fisheries Service issued its Biological Opinion and Incidental Take Statement under the federal Endangered Species Act. The Sonoma County Water Agency's (Sonoma Water) water supply and flood control operation and maintenance activities in the Russian River Watershed were considered to likely affect three species of fish listed under the Endangered Species Act: Central California Coast steelhead, Central California Coast coho salmon, and California Coastal Chinook salmon. Biological Opinion implementation activities include monitoring and management of the Russian

River estuary, and monitoring, management, and construction of habitat enhancement projects in Dry Creek, and the tributaries to Dry Creek. The Biological Opinion provides an Incidental Take Statement for the taking of listed salmonids that is likely to occur as a result of the implementation activities. Pursuant to the Incidental Take Statement, taking that is incidental to and not intended as part of Sonoma Water's activities as it implements the provisions of the Biological Opinion is not considered to be prohibited under the Endangered Species Act.

On November 9, 2009, Sonoma Water requested and received a Consistency Determination from the California Department of Fish and Wildlife (Department of Fish and Wildlife). The Consistency Determination provides Sonoma Water with incidental take coverage under the California Endangered Species Act for the same Russian River activities as does the Biological Opinion under the federal Endangered Species Act. Under the Consistency Determination and state law, Sonoma Water is required to provide assurances that it will have adequate funding to implement and comply with the Biological Opinion and the Department of Fish and Wildlife Incidental Take Statement as it pertains to coho-related activities. Financial security provisions required under the Consistency Determination are guided by a Memorandum of Agreement approved by the Board of Directors (Board) and signed by Sonoma Water's General Manager and Department of Fish and Wildlife on October 5, 2009.

To comply with the Consistency Determination and the terms of the Memorandum of Agreement, Sonoma Water is required to obtain a standby Letter of Credit for each phase of work in the principal amounts set forth in the agreement. The Department of Fish and Wildlife's ability to draw on the standby Letter of Credit is subject to a number of conditions. Most importantly, the Department of Fish and Wildlife must give Sonoma Water written notice of any alleged default by Sonoma Water in its Biological Opinion obligations, as well as an opportunity to cure any such default. If the Department of Fish and Wildlife draws on the standby Letter of Credit, it must use all proceeds to complete coho-related work under the Biological Opinion. The phases of work and the standby Letter of Credit requirements for each phase are summarized below.

Phase 1 from 2009 to 2014: A standby Letter of Credit with North Coast Bank for $7,770,280 was approved by Sonoma Water's Board on September 22, 2009. The standby Letter of Credit was secured by a certificate of deposit held by North Coast Bank. Phase 1 work included Biological Opinion activities in the Russian River estuary, Russian River tributaries, and the Coho Salmon Captive Broodstock Program, as well as construction of mile 1 and design of miles 2 and 3 of the Dry Creek Habitat Enhancement Project. Sonoma Water completed Phase 1 Biological Opinion activities in 2014, and on January 9, 2015, the Department of Fish and Wildlife executed a Certificate of Cancellation of the Phase 1 standby Letter of Credit with North Coast Bank as contemplated by the Memorandum of Agreement.

Phase 2 from 2015 to 2016: A standby Letter of Credit with U.S. Bank for $8,700,000 for a 2 year period was approved by Sonoma Water's Board on December 9, 2014 for Phase 2 Biological Opinion activities. Security for the standby Letter of Credit is described in detail below. Phase 2 added construction of miles 2 and 3, and planning and initial design of miles 4 through 6 of the Dry Creek Habitat Improvement Project as well as monitoring and maintenance of completed work. Phase 2 construction work is complete and monitoring is ongoing.

Phase 3 (2017-2022): A first amended standby Letter of Credit with U.S. Bank for $12,765,840 and notice of extension for a 2 year period (2017-2018) was approved by Sonoma Water's Board on December 13, 2016 for Phase 3 Biological Opinion activities. While the principal amount increased pursuant to the requirements of the Memorandum of Agreement, the terms and rates for the standby Letter of Credit remained unchanged. Phase 3 added completion of construction of miles 4 through 6 of the Dry Creek Habitat Improvement Project as well as monitoring and maintenance of completed work. The first amended standby Letter of Credit expires on December 30. 2018. The Biological Opinion is in effect until October 2023. Sonoma Water is required to provide a standby Letter of Credit through the term end date. U.S. Bank offers a maximum term of three years for a standby letter of Credit. Staff recommend that the Board approve a second amended agreement for a three year term.

The U.S. Bank standby Letter of Credit is secured by a first lien in favor of the bank on Sonoma Water's U.S. Treasury Separate Trading of Registered Interest and Principal of Securities (STRIPS) held by Sonoma Water's debt service fund to repay the U.S. Army Corps of Engineers for the cost of constructing and maintaining Warm Springs Dam. Sonoma Water's investment in U.S. Treasury STRIPS as of June 30, 2018, was $17,265,402. At the time the standby Letter of Credit is executed, Sonoma Water is required to maintain pledged security of $17,400,000 during the three-year term.

In the case of the first amended standby Letter of Credit, Sonoma Water maintained STRIPS, investments, and cash in amounts that exceeded the pledged security requirement. In the past, as STRIPS matured, they were deposited in the Warm Springs Dam Fund and expended on Biological Opinion projects and Warm Springs Dam debt service. Since matured STRIPS were not reinvested historically, their value now has fallen below the required $17.4 million required for the standby Letter of Credit.

Based on cash flow and investment models prepared by the County Auditor Controller's Office and Treasury, and their recommendation, Sonoma Water will request that Treasury purchase investments using $500,000 in cash from the Warm Springs Dam debt service fund and reinvest maturing STRIPS to meet the standby Letter of Credit collateral requirement. Investments will earn interest at current favorable rates. Debt payments to the U.S. Army Corps of Engineers are approximately $6.3 million per year and will terminate in 2035. The average cash balance in the Warm Springs Dam fund, which receives all revenue from the $6.7million Warm Springs Dam-Russian River Project "override" property tax, is projected to be $29 million over the remaining 4 years of the Biological Opinion through 2023. The cash flow and investment models demonstrate that maintaining the required standby Letter of Credit pledged security of $17,265,402 in STRIPS reinvested as they mature, and $500,000 in cash from the Warm Springs dam debt service fund will not affect Sonoma Water's ability to meet all of its obligations including Biological Opinion project costs and Warm Springs Dam debt service costs and coverage.

Issuance and maintenance fees for the second amended standby Letter of Credit will remain the same, calculated at 55 basis points per annum ($70,212 per year) on the total amount of the standby Letter of Credit. In the event of default, an additional 100 basis points above the current pricing level would be assessed. Events of default include inability to maintain pledged security $17.4 million, inability to maintain 1.15 times Water Transmission System debt service coverage, non-payment of debt obligations, and any levy or proceeding against Sonoma Water property. Water Transmission System debt coverage is included because Dry Creek Habitat Enhancement miles 4 through 6 will be funded by the Water

Transmission System. Based on past performance and current fiscal policies and controls, a default event is highly unlikely.

Should the Department of Fish and Wildlife need to draw on this Letter of Credit due to failure of Sonoma Water to fulfill its obligations under the Biological Opinion, any drawn portions would be charged at the Bank's prime rate plus 5%, which today would be 10.25%. This would be charged until all amounts were repaid. Sonoma Water will also pay the Bank's legal and administrative costs associated with the development of the necessary documents to effect this standby Letter of Credit, up to $5,000.

On October 24, 2014, the Sonoma County Debt Advisory Committee reviewed and approved the Phase 2 Letter of Credit and subsequent phases of the Letter of Credit with U.S. Bank, provided the terms and conditions remained unchanged, and following review and approval by County Counsel.

Staff recommends Board approval of a second amended standby Letter of Credit with U.S. Bank for $12,765,840 and notice of extension for a 3 year period (2019-2021) for ongoing Phase 2 and Phase 3 coho-related work under the Biological Opinion.

Prior Board Actions:

12/13/2016:	Authorized the General Manager to undertake actions necessary to procure a standby Letter of Credit in the amount of $12,765,840, including execution of an agreement with U.S. Bank for such a Letter of Credit.
12/09/2014:	Authorized the General Manager to undertake actions necessary to procure a standby Letter of Credit in the amount of $8,606,560, including execution of an agreement with U.S. Bank for such a Letter of Credit.
09/22/2009:	Authorized the General Manager to execute a Memorandum of Agreement between the Sonoma County Water Agency and California Department of Fish and Wildlife regarding implementation of financial assurances for a Consistency Determination.
09/22/2009	Approved purchase of a certificate of deposit in the amount of $7,770,280 and authorized the General Manager to execute an Agreement for a standby Letter of Credit with North Coast Bank.
09/22/2009:	Approved submission of a written request to California Department of Fish and Wildlife for a Determination of Consistency with the California Endangered Species Act for listed coho salmon.

Strategic Plan Alignment Goal 2: Economic and Environmental Stewardship

County Goal 2: Economic and Environmental Stewardship: Protect the Water Agency's existing water rights and our clean, high-quality water supply, and improve system resiliency by continuing to develop alternative supplies.

This item achieves this goal by ensuring that the Water Agency meets its obligations for implementation of the Biological Opinion.

Water Supply Goals and Strategies, Goal 2: Protect water quality, improve scientific understanding of our existing water supply, and continue implementation of the Russian River Biological Opinion.

Fiscal Summary

Expenditures	FY 18-19 Adopted	FY 19-20 Projected	FY 20-21 Projected
Budgeted Expenses	52,508	70,212	70,212
Additional Appropriation Requested	22,704		
Total Expenditures	**75,212**	**70,212**	**70,212**
Funding Sources			
General Fund/WA GF			
State/Federal			
Fees/Other	52,508	70,212	70,212
Use of Fund Balance	22,704		
Contingencies			
Total Sources	**75,212**	**70,212**	**70,212**

Narrative Explanation of Fiscal Impacts:

Funding is from the Warms Springs Dam Special Revenue Fund. Additional appropriations are required to process this expense. The current appropriation of $52,508 was budgeted to cover Letter of Credit annual expenses but should have been $70,212. With Board approval, appropriations for 2018/2019 in the amount of $22,704 including $5,000 for issuance costs will be made in the next quarterly consolidated budget adjustments. The value of the Letter of Credit remains the same. Appropriations of $70,212 will be programmed in subsequent fiscal years per Agreement with U.S. Bank.

Staffing Impacts

General Manager/Chief Engineer
Sonoma County Water Agency
404 Aviation Boulevard
Santa Rosa, California 95403-9019

Attention: David Manning, Principal Environmental Specialist

Dear Mr. Poole:

Subject: Memorandum of Agreement Between Sonoma County Water Agency and California Department of Fish and Game Regarding Implementation of Financial Assurances for a Consistency Determination

Enclosed are two original copies of the subject Memorandum of Agreement (MOA). Please sign both copies and return one fully executed original as soon as possible to the address listed below. The Department of Fish and Game needs the fully executed agreement either before the Sonoma County Water Agency submits the request for a Consistency Determination or concurrent with its submission.

Please return to:

Department of Fish and Game
Attention: Kathy Geary
Post Office Box 47
Yountville, California 94599

Please note that on page 2, section 1.1 of the MOA, an error in the written dollar amount was corrected to match the numerical amount ($7,770,280) which was verified as the correct amount.

If you have any questions, please contact Dan Wilson, Environmental Scientist, at (707) 944-5534; or Richard Fitzgerald, Senior Environmental Scientist, at (707) 944-5568.

Sincerely,

Charles Armor

MEMORANDUM OF AGREEMENT BETWEEN SONOMA COUNTY WATER AGENCY AND CALIFORNIA DEPARTMENT OF FISH AND GAME REGARDING IMPLEMENTATION OF FINANCIAL ASSURANCES FOR A CONSISTENCY DETERMINATION

This Memorandum of Agreement ("MOA") between Sonoma County Water Agency ("SCWA") and the State of California, acting by and through the California Department of Fish and Game, ("CDFG") is entered into and effective on the date of the last signature below.

Purpose

A. On September 24, 2008, the National Marine Fisheries Service ("NMFS") issued its biological opinion and incidental take statement ("ITS") regarding SCWA's operation and maintenance activities in the Russian River Watershed (the "Russian River Project") in accordance with the authority of NMFS under the federal Endangered Species Act, 16 U.S.C. § 1531, et seq. ("ESA"). The ITS covers three species of fish listed under ESA, Central California Coast steelhead (*Oncorhynchus mykiss*), Central California Coast coho salmon *(O. kisutch*), and California Coastal Chinook salmon (*O. tshawytscha*). The ITS serves as the basis for the Consistency Determination by CDFG with respect to coho salmon (*O. kisutch*), which is listed under the California Endangered Species Act, Fish and Game Code § 2050, et seq. ("CESA").

B. An applicant for a Consistency Determination must ensure adequate funding to carry out the terms of the ITS. This MOA is intended to provide a mechanism to ensure such adequate funding. Pursuant to this MOA, CDFG shall be the beneficiary of a letter of credit ("Letter of Credit") pursuant to a Consistency Determination based upon the ITS and its associated requirements and supporting documentation.

C. This purpose of this MOA is to ensure adequate funding, and this MOA shall not be construed to alter or amend the ITS or any of its associated requirements.

NOW THEREFORE, IT IS MUTUALLY AGREED THAT:

1. <u>Financial Security Under the BO.</u> The BO provides as follows:

> *SCWA shall provide security (Security), in a form and an amount to be approved by DFG, to cover all costs of monitoring and management of the Russian River estuary, and for monitoring, management and construction of habitat enhancement projects in Dry Creek, and the tributaries to Dry Creek, as specified in Sections [X 2.1.1], [X 2.2-2.4], [X 3.1.1 and 3.1.2] and Section [X 4.3] (coho broodstock smolt program) of this Biological Opinion.*
>
> *SCWA shall provide Security in three stages: (1) Stage 1 shall cover years 1-6 (2009-2013) and shall be provided to DFG prior to receiving take authorization for coho*

> *salmon from DFG (i.e., prior to issuance of a consistency determination); (2) Stage 2 shall cover years 7-9 (2014-2016) and shall be provided to DFG no later than January 1, 2013; and (3) Stage 3 shall cover years 10-15 (2017-2022) and shall be provided to DFG no later than January 1, 2016. Table 34 sets forth the monitoring, management, and construction activities included in each of the three Security/funding stages.*

To meet the obligation of SCWA to provide financial security with respect to Stage One activities, within fifteen (15) calendar days of the date on which SCWA sends its request for a Consistency Determination for the Russian River Project, SCWA shall provide CDFG with a Letter of Credit substantially in the form of Exhibit A, to be utilized by CDFG in accordance with the terms of and subject to the limitations set forth in this MOA. The parties intend that SCWA will provide financial security with respect to Stage Two and Stage Three activities through MOAs and Letters of Credit that are substantially similar in form to this MOA and the Letter of Credit attached hereto as Exhibit A, and in amounts to be mutually agreed upon (with the current estimates of such amounts being $8,606,560 for Stage Two and $12,765,840 for Stage Three).

1.1 Form and Amount of the Credit. The Principal Sum of the Letter of Credit shall be in the amount of Seven Million Seven Hundred and Seventy Thousand Two Hundred Eighty Dollars ($7,770,280). Said Principal Sum may be reduced from time to time in accordance with the provisions of Section 4. The Letter of Credit must be issued by a financial institution chartered by the United States or State of California, or by an insurance firm authorized to operate in the State of California and subject to the jurisdiction of the State of California in the conduct of its business.

1.2 Term of Letter of Credit. Notwithstanding the approved 15-year term of the ITS, SCWA shall maintain the Letter of Credit on an annual basis, and if the Consistency Determination is withdrawn, SCWA shall maintain the Letter of Credit for 365 days following the effective date of the withdrawal of the Consistency Determination.

1.3 Replacement of the Letter of Credit. If the issuer of the Letter of Credit becomes insolvent, files for bankruptcy, begins dissolution proceedings under State law, or otherwise becomes unable to provide reasonable assurances of its ability to honor the Letter of Credit, SCWA shall: (a) within ten (10) days from the date SCWA becomes aware such circumstances exist, provide notice to CDFG of this occurrence; and (b) within sixty (60) days from the date SCWA becomes aware such circumstances exist, secure a replacement Letter of Credit. SCWA shall notify CDFG when a replacement Letter of Credit is in place. Upon receipt of such notice, CDFG shall execute and submit a Certificate of Cancellation for the prior Letter of Credit within five (5) business days.

1.4 Cancellation of Letter of Credit. To cancel the Letter of Credit, CDFG shall execute a Certificate of Cancellation that shall be substantially in the form in Exhibit B hereto. Within 365 days following the withdrawal of the Consistency Determination, CDFG shall complete any determination with respect to a Determination of Inconsistency, if any, and cancel the Letter of Credit if it is still in effect. CDFG shall cancel the Letter of Credit on or before the termination or expiration of this MOA.

2. CDFG Participation in Letter of Credit. If, pursuant to California Fish and Game Code section 2080.1, CDFG issues and maintains a Consistency Determination based upon NMFS's ITS and its associated requirements and supporting documentation, CDFG shall be the beneficiary of a Letter of Credit subject to the conditions and limitations contained in this MOA.

2.1 Designation as Beneficiary. In accordance with the terms of this Section 2, CDFG may, subject to the limits of CDFG authority, draw upon the Letter of Credit, for all or any portion of the amount of the Letter of Credit, if CDFG determines that implementation of the ITS is no longer consistent with those provisions of California Fish and Game Code section 2050, et seq. authorizing incidental take of coho salmon due to a material failure on the part of SCWA to carry out the terms of Sections 2.1.1, 2.2-2.4, 3.1.1, 3.1.2, or 4.3 of the ITS ("draft Determination of Inconsistency"). In this event, CDFG may draw on the Letter of Credit, subject to the terms of and in the manner provided below, and using the form in Exhibit A hereto.

2.2 Notice of Inconsistency. Prior to making a demand on the Letter of Credit, CDFG shall provide SCWA and NMFS written notice of and justification for the draft Determination of Inconsistency and shall allow SCWA a sixty (60) day opportunity to consult with CDFG on the merits of the determination and/or negotiate a cure acceptable to CDFG. For purposes of this MOA, a draft Determination of Inconsistency by CDFG shall not constitute a Determination of Inconsistency by CDFG unless expressly provided in writing by CDFG to SCWA and NMFS in accordance with the notice provisions of this MOA.

2.2.1 Contents of Written Notice. The written notice of and justification for a draft Determination of Inconsistency must contain (a) an identification of the specific term or terms of the ITS that CDFG claims that SCWA has failed to carry out, (b) an explanation of the basis for CDFG's determination that implementation of the ITS by SCWA is no longer consistent with those provisions of California Fish and Game Code section 2080, et seq. authorizing incidental take of coho salmon (*O. kisutch*), and (c) an identification of the specific actions required by SCWA to cure the claimed deficiency.

2.2.2 Consultation. CDFG shall meet with SCWA regarding any Notice of Inconsistency within ten (10) days of any SCWA request for a meeting. Subject to Sections 2.2.3 and 2.4, CDFG and SCWA shall reasonably cooperate to negotiate, develop, and agree upon a plan to cure the claimed failure of SCWA to carry out the specified terms of the ITS.

2.2.3 Cure Plan. If CDFG and SCWA agree on a cure plan within sixty (60) days of SCWA's receipt of CDFG's written notice of inconsistency, then CDFG shall withdraw the written notice. The cure plan shall not require SCWA to perform any activities other than those necessary to cure a then-existing failure of SCWA to carry out the specified terms of the ITS as identified in the written notice of and justification for the draft Determination of Inconsistency.

2.3 Emergency Procedures. In the event of an "Emergency," as defined in herein, CDFG may include within the written notice and justification of the draft Determination of Inconsistency a declaration of an Emergency and explanation of the basis for such a declaration of an Emergency. Under a Declaration of an Emergency, SCWA shall be provided with notice as provided in Section 2.2 and 2.2.1 and a ten (10) day opportunity to consult with CDFG on the merits of the draft Determination of Inconsistency and/or negotiate a cure acceptable to CDFG. "Emergency" means a sudden, unexpected occurrence, which poses a clear and imminent danger of a take of coho salmon that is not contemplated by the ITS.

2.4 <u>Consultation with NMFS on a Determination of Inconsistency.</u> If CDFG and SCWA have not agreed upon a cure plan with respect to the circumstances giving rise to a draft Determination of Inconsistency within forty-five (45) days of SCWA's receipt of written notice from CDFG (or within five (5) days of initiation by written notice of an Emergency), CDFG shall notify NMFS of the circumstances resulting in the draft Determination of Inconsistency and the manner, means, and appropriate draw amount necessary to cure the claimed failure of SCWA to carry out the specified terms of the ITS. The draw amount shall not exceed the amount necessary to fund activities necessary to cure the then-existing failure of SCWA to carry out the specified terms of the ITS, as identified in the written notice of and justification for the draft Determination of Inconsistency. In the event there is a disagreement between CDFG and NMFS regarding any proposed draw on the Letter of Credit by CDFG, CDFG shall give notice to SCWA of such a disagreement, and CDFG shall make good-faith efforts to meet and confer with appropriate staff at NMFS to resolve such disagreement through informal consultation within thirty (30) days of such notice. If NMFS and CDFG are unable to resolve the disagreement, CDFG may draw on the Letter of Credit after providing notice to the NMFS and SCWA that the consultation is concluded. The decision by CDFG to draw on the letter of credit must be approved by the Regional Manager of CDFG's Bay Delta Region or a higher CDFG official.

2.5 <u>Beneficiary's Use of Sums Drawn on the Letter of Credit.</u> If CDFG draws on the Letter of Credit, all sums derived from the Letter of Credit shall be used by CDFG solely for purposes relating to the activities set forth in Sections 2.1.1, 2.2-2.4, 3.1.1, 3.1.2, or 4.3 of the ITS and, in particular, to cure the then-existing failure of SCWA to carry out the specified terms of the ITS as identified in the written notice of and justification for the draft Determination of Inconsistency. If CDFG's draw on the Letter of Credit and subsequent expenditure of those funds to cure the then-existing failure of SCWA to carry out the specified terms of the ITS leaves insufficient funds to secure completion of the project to which the draw related, SCWA shall, within fifteen (15) days, increase the amount of the Letter of Credit in an amount sufficient to secure completion of the project to which the draw related. Upon final completion of the activity, CDFG shall consent to a reduction in the Letter of Credit pursuant to Section 4 of this MOA.

3.e <u>Conversion of Letter of Credit to a Bond.</u> Conversion of the Letter of Credit to a Bond ise permissible if SCWA and CDFG agree Security in the form of a Bond is appropriate.e

4.e <u>Reduction in Principal Sum of Letter of Credit.</u> Upon completion of each of thee components of the activities set forth in Sections 2.1.1, 2.2-2.4, 3.1.1, 3.1.2, or 4.3 of the ITS toe the reasonable satisfaction of CDFG, CDFG shall consent to a corresponding reduction in thee amount of the Principal Sum of the Letter of Credit. CDFG shall evidence its consent to suche reductions by executing and forwarding to SCWA and the Issuer of the Letter of Credit ae

"Consent to Reduction in Principal Sum of Letter of Credit" substantially in the form attached as Exhibit B.

5. Effective Date and Term of the MOA. Unless extended by written amendment or sooner terminated, this MOA shall become effective as of the date of last signature below, and shall remain in force during the term of the ITS and through the date that is 365 days after the effective date of a Determination of Inconsistency (a withdrawal of the Consistency Determination) by CDFG.

6. Termination. This MOA may be terminated by either party upon providing twelve (12) months written notice to the other party. When the MOA terminated while CDFG is still a beneficiary, and provided there is no other security agreement acceptable to CDFG, the Consistency Determination may be withdrawn at CDFG's discretion. Upon termination of this MOA, CDFG shall immediately cancel the Letter of Credit. In the event CDFG determines that the continued take of coho salmon associated with the Russian River Project would jeopardize the continued existence of the species, CDFG shall terminate this MOA and cancel the Letter of Credit immediately, and shall provide SCWA with written notice by personal delivery, facsimile, and/or email as soon as possible.

7. Notice. All notices provided under this MOA shall be in writing and sent by first-class mail or comparable method of distribution to the other party. For purposes of this MOA, a notice shall be effective seven (7) days after the date on which it is mailed.

8. Authorized Representatives. All communications, notices, and contacts made under this MOA shall be directed to the following individuals. Any party may designate new authorized representatives by providing written notice to the other parties:

For SCWA:
General Manager/Chief Engineer
Sonoma County Water Agency
404 Aviation Boulevard
Santa Rosa, CA 95403

For NMFS:
Supervisor, Protected Resources Division
Santa Rosa Area Office
National Marine Fisheries Service
777 Sonoma Avenue, Room 325
Santa Rosa, CA 95494

For CDFG:
Regional Manager
Department of Fish and Game
7329 Silverado Trail
Napa, CA 94558

9. Modification, Amendment, or Extension. This MOA may be modified, amended, or extended by mutual written consent of the signatory parties.

10. No Alteration of Existing Agreements. This MOA does not constitute an amendment to the ITS. This MOA is a ministerial action for the implementation of the financial assurances provided in the ITS.

11.a Compliance with Law. All activities undertaken pursuant to this MOA must be ina compliance with all applicable state and federal laws and regulations.a

12.a No Third-Party Beneficiaries. This MOA shall not create any right or interest in the a public, or any member of the public, as a third-party beneficiary of this MOA and shall nota authorize any non-party to maintain a suit at law or in equity pursuant to this MOA.a

13.a Signatory Authority. Each signatory to this MOA certifies he or she is authorized toa execute this MOA and to legally bind the party he or she represents, and such party shall be fullya bound by the terms hereof upon such signature without any further act, approval, or authorizationa of such party.a

14.a Counterparts. This MOA may be signed in any number of counterparts, and eacha executed copy shall have the same force and effect as an original instrument as if all thea signatory parties to all of the counterparts had signed the same instrument.a

15.a Assignment. The duties, rights, and obligations under this MOA and any associateda Letter of Credit may be assigned to a new party upon the express written consent of CDFG anda SCWA.a

16.a Entire Agreement. This MOA sets forth the entire agreement and process of the Parties a with respect to the subject matter discussed herein, and it supersedes any other agreements ona this subject matter whether oral or in writing.a

CONSISTENCY DETERMINATION

North Coast Bank- CONFIDENTIAL

STANDBY LETTER OF CREDIT NO. [redacted]

DATE:

ISSUING BANK
North Coast Bank
90 S E Street, Suite 110
Santa Rosa, CA 95404

TO BENEFICIARY:

California Department of Fish and Game
7329 Silverado Trail
Napa, California, 94558
Attention: Regional Manager

Dear Sir or Madam:

1. At the request and on the instructions of our CUSTOMER, Sonoma County Wat Agency ("PERMITTEE"), we hereby establish in favor of the BENEFICIARY, California Department of Fish and Game ("CDFG"), this Irrevocable Standby L Credit ("CREDIT") in the Principal Sum of $7,770,280.

2. We are advised this CREDIT is established for the benefit of the BENEFICIAR pursuant to CDFG's consistency determination based on the biological opinion a incidental take statement approved by the National Marine Fisheries Service on September 24, 2008.

3. We are further advised this CREDIT is intended by the PERMITTEE and the BENEFICIARY to serve as a security device for the performance by PERMITTEE of its obligations under the biological opinion and incidental take statement that is the basis for CDFG's consistency determination.

4. The BENEFICIARY shall be entitled to draw upon this CREDIT by presentation of a duly executed CERTIFICATE OF DRAWING in the same form as Attachment A hereto, at our office located at North Coast Bank, 90 S E Street, Santa Rosa, CA 95404.

("ISSUER").

5.e The CERTIFICATE OF DRAWING shall be completed and signed by the "Authorizede Representative" of the BENEFICIARY as defined in paragraph 12 below. Presentatione by the BENEFICIARY of a completed CERTIFICATE OF DRAWING may be made ine person or by registered mail, return receipt requested.e

6.e Upon presentation of a duly executed CERTIFICATE OF DRAWING as provided above,e payment in immediately available funds shall be made to the BENEFICIARY in thee manner provided on the CERTIFICATE OF DRAWING.e

7.e Funds may be drawn in one or more drawings not to exceed the Principal Sum in anye calendar year.e

8.e If a demand for payment does not conform to the terms of this CREDIT, the ISSUERe shall provide the BENEFICIARY with prompt notice the demand for payment was note made in accordance with the terms of this CREDIT, state the reasons therefore, and awaite further instructions.e

9.e Upon being notified the demand for payment was not made in conformity with thee CREDIT, the BENEFICIARY may correct any such non-conforming demand fore payment prior to the expiration of the CREDIT.e

10.eAll drawings under this CREDIT shall be paid with ISSUER'S funds. Each drawinge honored by ISSUER hereunder shall reduce the Principal Sum provided as CREDIT for ae calendar year. By paying to the BENEFICIARY an amount demanded in accordancee herewith, ISSUER makes no representations as to the correctness of the amounte demanded.e

11.eBENEFICIARY shall cancel this CREDIT by providing ISSUER with a CERTIFICATEe OF CANCELLATION, which (i) shall be in the form of Attachment B hereto; (ii) shalle be completed and signed by the Authorized Representative of the BENEFICIARY ase defined in Paragraph 12 below; and (iii) shall be accompanied by the surrender of thise CREDIT.

12.eThe "Authorized Representative" is the Regional Manager of the Bay Delta Region of thee California Department of Fish and Game, or the Regional Manager's designee.e

13.eCommunications with respect to this CREDIT shall be in writing and addressed to Northe Coast Bank, 90 S E Street, Santa Rosa, CA 95404 with reference made to this CREDITe number.e

14.eThis CREDIT shall expire on the earlier of (a) cancellation by BENEFICIARY pursuante to Paragraph 11 or (b) December 31, 2014.e

15. This CREDIT is subject to and governed by Article 5 of Uniform Commercial Code of the State of California.

THEREFORE, North Coast Bank has executed and delivered this Irrevocable Standby Letter of Credit to the BENEFICIARY as of this ____ day of __________, 2009.
